GUESS WHOSE HOROSCOPE THIS IS!

Astrology is to give mental relief. So we do not propose to tax the readers, long. This horoscope is the correct one of our premier; the Premier of India; the Peace-maker. We are presenting his horoscope with a fervent prayer to God to bless him with Prosperity and Peace and that the New Year 1964 be an all-round success for him.

Various authors have taken the time of birth of the important and the world-recognised leader as it appealed to them. One has offered predictions assuming the time of birth as 11-03 P.M. on 14-11-1889. Another author has taken it as 11-44 P.M.

In fact, from records one can understand that his birth was around 11-30 P.M. To rectify his time of birth, we worked out all the available methods including the pre-natal epoch one. We say it is 11 hours 27 minutes 30 seconds Local Mean Time. There was no standard time in India up to 31-12-1905; only from 1-1-1906 Indian Standard time is introduced. HIS BIRTH WAS AT 25° 26' N. and 81° 52' E.

Twins are born in the same sign as lagna with the same position of planets etc. But their results are absolutely different. Hence people, taking any other time as the time of birth and offering a prediction with that chart, will fail. If, at all, one comes out correct, it must be said as a lucky hit; so, for the students and the scholars of astrology, we work out his correct chart, as also the details of working:

	Hrs.	Mts.	Secs.
Sidereal time at previous noon on 14-11-1889	15	35	06
Interval between previous noon and birth time L. M. T.	11	27	30
Correction for interval at 10 secs per hour	0	01	55

	Hrs.	Mts.	Secs.
ADD all the three; sum —	27	04	31
Deduct correction for E. Longitude	0	00	54
Deduct 24 hours as the time is above 24 hrs.	24	00	00
Therefore sidereal time at the time of birth	3	03	37

Cusps of the Twelve Houses:

SAYANA SYSTEM

From Raphael's 'Table of Houses'.

1. Leo	ASC.	20° 35'
2. Virgo	II	16° 22'
3. Libra	III	16° 22'
4. Scorpio	NADIR	18° 22'
5. Sagittarius	V	20° 22'
6. Capricorn.	VI	21° 22'
7. Aquarius	DES.	20° 35'
8. Pisces	VIII	16° 22'
9. Aries	IX	16° 22'
10. Taurus	M.C.	18° 22'
11. Gemini	XI	20° 22'
12. Cancer	XII	21° 22'

[Ayanamsa 22° 13']

NIRAYANA POSITION

1. Cancer	ASC.	28° 22'
2. Leo	II	24° 9'
3. Virgo	III	24° 9'
4. Libra	NADIR	26° 9'
5. Scorpio	V	28° 9'
6. Sagittarius	VI	29° 9'
7. Capricorn	DES.	28° 22'
8. Aquarius	VIII	24° 9'
9. Pisces	IX	24° 9'
10. Aries	M.C.	26° 9'
11. Taurus	XI	28° 9'
12. Gemini	XII	29° 9'

Position of Planets: Using Raphael's Ephemeris :

SAYANA SYSTEM

Sun	Scorpio	~ 22° 35'
Moon	Leo	10° 25'
Mars	Libra	2° 28'
Mercury	Scorpio	9° 28'
Jupiter	Capricorn	7° 30'
Venus	Libra	29° 42'
Saturn	Virgo	3° 7'
Rahu	Cancer	5° 2'
Kethu	Capricorn	5° 2'
Uranus	Libra	24° 13'
Neptune	Gemini	3° 27'
Fortuna	Taurus	8° 25'

[Ayanamsa 22° 13']

NIRAYANA SYSTEM

Sun	Scorpio	0° 17'
Moon	Cancer	18° 12'
Mars	Virgo	10° 5'
Mercury	Libra	17° 15'
Jupiter	Sagittarius	15° 17'
Venus	Libra	7° 29'
Saturn	Leo	10° 54'
Rahu	Gemini	12° 49'
Kethu	Sagittarius	12° 49'
Uranus	Libra	2° 0'
Neptune	Taurus	11° 14'
Fortuna	Aries	16° 12'

Mercury Dasa Balance at the
time of birth : = 15 yrs.
0 month &
16 days

From 12-11-1962 runs Mercury's sub-period in the major dasa of Rahu.

(N.B.) Generally charts of a personality, framed, preserved and worshipped will yield such beneficial results as they enjoyed. Those who desire to become so popular, powerful and prosperous can have this correct chart.

Results of this horoscope will be published after proving how the past events coincide only to this correct chart and after obtaining proper permission, the future results will follow :

BHAVAS

Sun	IV
Moon	XII
Mars	II
Mercury	III
Jupiter	V
Venus	III
Saturn	I
Rahu	X
Kethu	V
Uranus	III
Neptune	X
Fortuna	IX

Results are to be read as follows :

1. Sun in scorpio ruled by Mars in Jupiter's Star, Visaka, in the 4th Bhava or 4th house.
2. Moon in Cancer governed by Moon, in Mercury's constellation, Ashlesha, in 12th Bhava.
3. Mars in Virgo owned by Mercury in Moon's constellation, Hastha, in the Second Bhava.
4. Uranus, in Libra in Venus sign, in Chithra Star, Mars constellation, in III Bhava.
5. Uranus in Mercury in Libra, lord of which is Venus and in the constellation of Rahu, Swathi in 3rd Bhava or house.
6. Jupiter in his own sign Sagittarius in the constellation of Venus, Poorvashada, in the 5th house.

Saturn in Leo owned by Sun, in Kethu's constellation, Makam, in Lagna Bhava.

Rahu in his own constellation, Arudhra, in the 11th Bhava in Mercury's sign, Gemini.

Kethu in Jupiter's sign Sagittarius in his own constellation Moolam in 5th Bhava.

Neptune in Venus sign Taurus, in Rohini star governed by Moon and in the 10th Bhava or house.

Fortuna in the sign Aries ruled by Mars, in the constellation, Bharani, governed by Venus and in the 9th Bhava.

(Here the houses are given according to Western System counting a house from a cusp to next one.)

LUCK THROUGH LOTTERY

(Finance and Fortune)

Other's pains and our gains

Readers may remember that we published in the April issue that the prediction offered by us to a very high official to have sudden gains through lottery or sweep or races on 8-5-1955 came very true. The prediction was offered by the editor following "Krishnamurthi Paddhathi" which will be explained in the subsequent issues.

The chart is furnished for the students, to study :

Moon dasa commenced on 27-1-1955.

ERECTION OF THE HOROSCOPES

In our September, 1963 issue, we have explained to ascertain the cusps (Bhavas) for the second example born at 3-30 A.M. I.S.T. on 15-5-63 at Allahabad, 25 degrees 28 minutes North Latitude, and 81 degrees 54 minutes East Longitude.

Now we take the other examples and explain the method to ascertain the cusps. The birth is at 12-05 P.M. I.S.T. or 11-25-32 A.M. L.M.T. on 15-5-63 at Ahmedabad, 72° 38' East Longitude and 23° 2' North Latitude. The sidereal time at the time of birth already calculated and arrived at is 2 hours 54 minutes 40 seconds.

Now refer to the Raphael's Tables of Houses. To find the exact point which was rising at the time of birth, i.e., the Ascendant, turn over the page in which the latitude 23 degrees 12 minutes which is very near the latitude of the birth place is given. On the left hand side page, the positions of cusps are published for the sidereal times 2 hours 54 minutes 7 seconds and 2 hours 58 minutes 7 seconds. The time at birth happened to be 2 hours 54 minutes 40 seconds, which is in between these two. The difference between the two sidereal times given in the book is 2 hours 58 minutes 7 seconds *minus* 2 hours 54 minutes 7 seconds, i.e. 0 hour 4 minutes and 0 seconds or $4 \times 60 = 240$ seconds. The difference between the sidereal time at birth 2 hours 54 minutes 40 seconds and the sidereal time given, i.e., 2 hours 54 minutes 7 seconds is $\frac{33}{240}$ seconds. So, the fraction of 33 is to be worked out and added to the position given, for 2 hours 54 minutes 7 seconds.

	At the sidereal time	Sign sayana position	At the Sidereal time	Difference
	2 hours, 54 mts., 7 secs.		2 hours, 58 mts., 7 secs.	
10th Cusp	16 00	Rishaba	17 00	1°
11th Cusp	18 00	Mithuna	19 00	1°
12th Cusp	19 00	Kataka	20 00	1°
Ascendant	17 54	Simha	18 47	0° 53'
2nd Cusp	14 00	Kanni	15 00	1°
3rd Cusp	14 00	Tulam	15 00	1°

Now you have to find out the exact position of the point which was rising at birth = 0 degree 53 minutes or 53 minutes $\times \frac{33}{240} = 7$ minutes or 0 degree 7 minutes. Add this to 17 degree 54 minutes; i.e., $17^{\circ} 54' + 0^{\circ} 7' = 18^{\circ} 01'$ will be the exact position of Ascendant by Sayana system.

For other cusps, as the difference is only 1 degree or 60 minutes, add $60 \times \frac{33}{240}$ minutes or 8 minutes to the position of the cusps given for the sidereal time, i.e., 2 hours 54 minutes 7 seconds.

Therefore, the Sayana position for the cusps will be as follows:

		Deg.	Mts.
10th cusp	10 00	plus	0-8 = 16 8
11th cusp	18 00	plus	0-8 = 18 8
12th cusp	19 00	plus	0-8 = 19 8
Ascendant	17 54	plus	0-7 = 18 1
2nd cusp	14 00	plus	0-8 = 14 8
3rd cusp	14 00	plus	0-8 = 14 8

Add 180 degrees to the above cusps to find out the position of the cusps for the other houses. Adding 180 degrees to the cusp of the 10th house, otherwise called Meridian, the cusp of the 4th house will be obtained. Similarly, adding 180 degrees to the 11th cusp, the position of the 5th cusp can be had. From the 12th ascertain the 6th; 180 degrees added to the ascendant gives the 7th cusp. 8th cusp is obtained by adding 180 degrees to the 2nd cusp and 9th from the 3rd cusp. Thus, the positions of all the twelve cusps are obtained.

	Deg.	Mts.	
Ascendant	18	1	Simham
2nd house	14	8	Kanni
3rd house	14	8	Tulam
4th house (Nadir)	16	8	Vrischikam
5th house	18	8	Dhanus
6th house	19	8	Makaram
7th house (Descendant)	18	1	Kumbham
8th house	14	8	Meenam

	Deg.	Mts.	
9th house	14	8	Mesham
10th house (Meridian)	16	8	Rishabam
11th house	18	8	Mithunam
12th house	19	8	Katakam

Now let the fourth example be taken. Follow the method to fix up the position of cusps. The birth is at 9-00 P.M. at Boston $71^{\circ} - 2'$ West, $42^{\circ} - 22'$ North Latitude.

The sidereal time at the time of birth, already calculated and arrived at, is 12 hours 48 minutes 11 seconds. In Raphael's Tables of Houses, please turn over the page in which the latitude at which birth took place (or which is very near, i.e., $42^{\circ} - 42'$ North) to find out the point which was rising at the time of birth. On the right hand side page, the positions of cusps are published for the sidereal times 12 hours 47 minutes 50 seconds, and 12 hours 51 minutes and 30 seconds. The time at birth happened to be 12 hours 48 minutes 11 seconds, which is in between these two. The difference between the two sidereal times given in the book is 12 hours 51 minutes 32 seconds minus 12 hours 47 minutes 50 seconds, i.e., 3 minutes and 42 seconds or (3×60) plus 42 seconds or 222 seconds. The difference between the sidereal time at birth 12 hours 48 minutes 11 seconds and the printed one 12 hours 47 minutes 50 seconds, is 21 seconds. So, the fraction of $21/222$ added to the position, given for 12 hours 47 minutes 50 seconds gives the position of the cusps.

	At the sidereal time	Sign sayana position	At the sidereal time	Difference
	12-47-50		12-51-32	
10th cusp	3 00	Thulam	14 00	1 deg.
11th cusp	10 00	Vrischikam	10 00	Nil
12th cusp	1 00	Dhanus	2 00	1 deg.
Ascendant	19 44	Dhanus	20 31	47 mts.
2nd cusp	26 00	Makaram	27 00	1 deg.
3rd cusp	8 00	Meenam	9 00	1 deg.

Now you have to find out the exact position of the point which was rising at birth = 0 degree 47 minutes or 47 minutes $\times$ $21/222$ minutes or 0 degree 4 minutes. Add

this to $19^{\circ} - 44'$, i.e., $19^{\circ} - 44' + 0^{\circ} - 4' = 19^{\circ} - 48'$ will be the exact position of ascendant by Sayana system.

For other cusps, as the difference is only 1 degree or 60 minutes, add $60 \times 21/222$ minutes or 6 minutes to the position of cusps given for the sidereal time, i.e., 12 hours 47 minutes 50 seconds.

Therefore, the sayana position for the cusps will be as follows :

	Deg.	Mts.
10th cusp	13 00 + 0 6 = 13	6
11th cusp	10 00 + ... = 10	0
12th cusp	1 00 + 0 6 = 1	6
Ascendant	19 44 + 0 4 = 19	48
2nd cusp	26 00 + 0 6 = 26	6
3rd cusp	8 00 + 0 6 = 8	6

Add 180 degrees to the above cusps to find out the position of the cusps for the other houses. Adding 180 to the cusp of the 10th house, the cusp of the 4th will be obtained. Similarly, adding 180 degrees to the 11th cusp, the position of the 5th cusp can be had; from the 12th find out the 6th; 180 degrees added to the Ascendant gives the position of the 7th; 8th cusp is obtained by adding 180 degrees to the 2nd cusp, and 9th from the 3rd cusp. Thus, the positions of all the 12 cusps are obtained.

	Deg.	Mts.	
Ascendant	19	48	Dhanus
2nd house	26	6	Makaram
3rd house	8	6	Meenam
4th house	13	6	Mesham
5th house	10	0	Rishabam
6th house	1	6	Mithunam
7th house	79	48	Mithunam
8th house	26	6	Katakam
9th house	8	6	Kanni
10th house	13	6	Tulam
11th house	10	0	Vrischi- kam
12th house	1	6	Dhanus

Let us take the last example and find out the position of cusps for the birth at 7 A.M. at San Francisco $122^{\circ} - 25'$ West Longitude, $37^{\circ} - 48'$ North Latitude.

The sidereal time at the time of birth which we have calculated and found out, is 22 hours 20 minutes 52 seconds.

Now refer to the tables of Houses by Raphael to find out the exact position that was rising in the East at the time of birth, turn over to the page, in which the latitude $37^{\circ}-58' N$, which was nearer to the latitude of the place of birth, $37^{\circ}-48'$. On the right hand side, you will find the positions of cusps published for the sidereal times 22 hours 19 minutes 48 seconds and 22 hours 23 minutes 35 seconds. The sidereal time at birth happens to be 22 hours 20 minutes 52 seconds which is in between these two. The difference between the two sidereal times printed in the book is 22 hours 23 minutes 35 seconds minus 22 hours 19 minutes 48 seconds, i.e., 3 minutes and 47 seconds or $3 \times 60 + 47$ seconds = 227 seconds. The difference between the sidereal time at birth and the printed one, is 22 hours 20 minutes 52 seconds - 22 hours 19 minutes 48 seconds, i.e., 0 hour 1 minute 4 seconds or $1 \times 60 + 4$ seconds = 64 seconds. So the fraction of $64/227$ is to be found out and added to the position given for 22 hours 19 minutes 48 seconds.

	At the sidereal time 22-19-48	Sign sayana position	At the Sidereal time 22-23-35	Difference
10th cusp	3 00	Meenam	4 00	1 deg.
11th cusp	6 00	Mesham	7 00	1 deg.
12th cusp	17 00	Rishabam	18 00	1 deg.
Ascendant	25 05	Mithunam	25 59	54 mts.
2nd cusp	16 00	Katakam	17 00	1 deg.
3rd cusp	8 00	Simham	8 00	Nil.

Now you find out the exact position of the Ascendant which was rising at birth
 $= 0 \text{ degree } 54 \text{ minutes or } 54 \text{ minutes} \times \frac{64}{227}$

$= 15 \text{ minutes or } 0 \text{ degree, } 15 \text{ minutes.}$
 Add this 15 minutes to $25^{\circ}-05'$. $25^{\circ}-20'$ will be exact position of Ascendant by Sayana system.

For the other cusps, as the difference is 1 degree only or 60 minutes, add $60 \times 64/227$ minutes or 17 minutes to the position of cusps given for the sidereal time 22 hours 19 minutes 48 seconds.

Therefore the Sayana position of the cusps will be as follows:

	Deg.	Mts
10th cusp	3 00 + 0 17 = 3	17
11th cusp	6 00 + 0 17 = 6	17
12th cusp	17 00 + 0 17 = 17	17
Ascendant	25 05 + 0 15 = 25	20
2nd cusp	16 00 + 0 17 = 16	17
3rd cusp	8 00 + ... = 8	...

Add 180 degrees to find out the opposite cusps (Bhavas) which will be as follows:

	Deg.	Mts.	
Ascendant	25	20	Mithunam
2nd house	16	17	Katakam
3rd house	8	00	Simham
4th house	3	17	Kanni
5th house	6	17	Tulam
6th house	17	17	Vrischi-kam
7th house	25	20	Dhanus
8th house	16	17	Makaram
9th house	8	00	Kumbam
10th house	3	17	Meenam
11th house	6	17	Mesham
12th house	17	17	Rishabam

Now you will be clearly knowing how to find out the cusps (Bhavas or houses) for an action at a moment on any day in any part of the world. How to find out the position of planets will be taught in the following issues.

MARS AND MARRIAGE

BY JYOTISHA PRAVEENA K. S. KRISHNAMURTI.

(Extract from the speech given by the Editor on 10-9-63 at Bharatiya Vidya Bhavan, New Delhi)

As marriage season is fast approaching, Mars Dosha, Eka Dasa, Dasa Sandhi, etc., published)

In my experience, I have noticed that people in the North of India do not pay as much attention to the evil results of Mars as the astrologers and parents of brides and bridegrooms in certain districts in the South do. Whenever parents desire to make a selection of a bride or a bridegroom, they first consider whether there is Mars Dosha in the respective horoscopes or not. They are, indeed, very much worried if they find Mars Dosha in either of the horoscopes.

One may ask, "Why should they attach much importance to the position of Mars alone? We had never heard anybody talking of Moon's Dosha or Sun's Dosha or any other planet's dosha. Then, does it mean that Mars alone will do so much harm to the couple which other planets cannot do?"

The reply is that there are some people who unnecessarily exaggerate the evil results of Mars. Most of the following points are not taken for consideration:

1. What is the nature of Mars?
2. Of which houses Mars is the lord? Does it become a benefic or a malefic by owning such houses?
3. Which house is occupied by Mars? Is it a favourable one or an unfavourable one?
4. Are the evil results of Mars uniformly the same, when it occupies either Aries (Mesha) or Taurus (Rishaba) or Gemini or any other sign in the Zodiac?
5. Is there no change in the results of Mars if it were to be in a movable or a fixed or a common sign?

6. Is there no difference in the effect of Mars if it occupies the various houses (Bhavas)?

7. Does Mars Dosha mean only the loss of partner and widow-hood? Can it not cause any other trouble during married life?

8. What are the modifications in the results of Mars, if it occupies its exaltation, own, friendly, inimical and debilitation signs?

9. How far can the planets conjoined with, or aspecting Mars, mitigate the affliction of Mars when it occupies unfavourable houses?

10. Even when Mars occupies a favourable house, cannot the adverse aspects of the planets bring about disagreeable results?

11. Will Mars be evil, even when it owns Rajayoga houses? (9 and 10)

12. Will there be no unfavourable result, if Mars occupies a favourable house, even though it owns evil houses?

13. Are we to count houses occupied by Mars, from Lagna alone or from the sign occupied by Moon and Venus also?

14. If there is dosha, what is the exact nature of the difficulty?

15. Will afflicted Mars offer unfavourable results throughout life? Or will it be experienced only during a certain period? When can one expect such bad results?

16. If evil effects of Mars is indicated in both the horoscopes, what is the final result if they get married?

17. If the Mars Dosha is found in one chart and the other is free from it, how will the married life be?

18. If there is no such dosha in both the horoscopes, is a happy and harmonious wedded life guaranteed for a long number of years?

19. As the houses 2, 7 and 11 indicate one's marriage as well as the state of married life, if these houses are occupied by benefics and if Mars occupies an evil sign, even then will there be any bad effect?

20. If the houses 2, 7 and 11 are owned by malefics and occupied by malefics and there is no Mars Dosha, how can the partners lead a peaceful and prosperous life?

Let me explain to you, in detail, quoting authorities and giving examples, that one need not unnecessarily entertain any fear about Mars and its untoward effects. Mars (Kuja) is also called Mangal, Sevvai, Angaraka etc.

Mars owns the two signs: Aries (Mesha) and Scorpio (Vrischika). It has to be a benefic to those born in these two signs as it is the lord of the ascendant. But Mars is not genuinely good to such natives, because when it happens to be the Lord of Lagna, the other house it owns will be 8 to Aries (Mesha) and 6 to Scorpio (Vrischika). Hence, the difficulties, indicated by Mars, as lord of 8 or 6, the evil houses, will be self-invited.

But to people whose birth was in Cancer (Kataka), Leo (Simha), Sagittarius (Dhanus) and Pisces (Meena), Mars is a Rajayogadhipathi and a benefic. It promises peace, progress and prosperity. But to persons born in Mercury's signs (viz.) Gemini and Virgo, Mars is evil and especially to Virgo borns. It is not auspicious to those born in the signs owned by Venus, i.e., Taurus (Vrishabha) and Libra (Thula); it is comparatively more inauspicious to Taurus than to Libra. For people born in the signs owned by Saturn, i.e., Capricorn (Makara) and Aquarius (Kumbha), it will prove mostly beneficial for worldly pleasures and material welfare.

NATURE OF MARS: When he owns beneficial houses and occupies favourable signs, he gives courage, boldness and a

go-ahead spirit. Mars offers robust health. Success in attempts and victory over enemies are promised by Mars. To receive help from brothers, to have a larger yield from landed property and buildings, Mars has to be well posited in a horoscope.

When Mars becomes evil by owning bad houses (6, 8 & 12) or by occupying such houses, it makes one arrogant, adamant and atrocious. The person will be extravagant, impulsive and rash. Haste brings about waste. He will lose honour, money and position. He or she will have no peace, be ever quarrelling and violent. Disharmony, dispute and difficulties are the malefic effects of Mars. Accidents, injury, death by fire, wound, burns and even murder are the horrors of Mars.

Especially to ladies, it must be a benefic. Otherwise, it is likely that in infancy they may have injuries caused by fire. Mars does not allow the children to have satisfactory growth due to liver enlargement, or they will easily contract the various infectious diseases due to lack of resistance in the system. Later in life, it is likely that they may suffer from menstrual troubles as Moon and Mars indicate this peculiarity in their charts. When parents attempt to fix the marriage of their sons and daughters, the so-called Mars Dosha, interpreted by the astrologers according to their whims and fancies, confuses them due to varying opinion given by them. After marriage, Mars has to offer peace and harmony in married life. Brother-in-law and sister-in-law should not make their life unhappy. She also should not suffer from Hysteria or fits. When the wife is in the family way, there should be no albumin in the urine. Nor, at the time of delivery, surgeon's aid is to be sought for. Mars can cause profuse bleeding, haemorrhage etc. Later, to maintain good relationship with brothers, to purchase building, lands, etc., Mars has to be ruling and occupying favourable houses. To avoid accidents and injuries and to have no unnatural death, Mars has to be favourable. Thus it will be seen that Mars has to be strong and beneficial in the horoscope of the bride especially.

Generally, God will wait, watch and will finally punish, but the Kings will do harm suddenly and surprisingly without any delay: Mars will act like kings. Probably that is why people are frightened about Mars Dosha.

Let me first of all reproduce the various rules and finally offer my opinion.

When is Mars called evil or when does it cause 'Dosha'?

**"DHAMPATHYOR JANMAKALAE
VYAYA DHANA HIPUKAE SAPTHAMAE
LAGNA RANTHRAE LAGNACHA,
CHANDRACHA SUKRATHABI BAVATHI".
"DHANAE VYAYAE CHA PATHALAE
JAMITHRAE CHA ASHTAMAE KUJAE"**

"LAGNA, INDU, SUKRATH, DUSSTHANAE" are the authorities to decide when Mars becomes an evil. Here the sages have not taken into consideration, the nature and the lordship of the sign occupied by Mars, its other connections, etc. They go step by step. First they mention the houses, which when occupied by Mars, cause Mars Dosha.

One has to count from the Lagna (Ascendant), from the sign occupied by Moon (not the house or the Bhava), from the sign occupied by Venus (not the house). The calculation is from sign to sign and not house to house.

For example, Lagna is in Gemini 28°; Moon 18° Leo; Venus 28° Scorpio; and Mars 2° Sagittarius. Calculate sign to sign alone. Forget the division of houses. Where is Lagna? It is in Gemini. (It may be the 1st degree or the last degree. What-

ever it is, count the sign Gemini as 1.) Then Moon is in the 3rd sign and Venus is in 6.

Mars is in 7 counted from Lagna. Hence, there is Mars Dosha counted from Lagna.

Moon is in Leo 18°. Mars is in Sagittarius 2°. Forget the longitude of the planets in the signs. Moon is in Leo; so Leo is 1; Virgo is 2; Libra is 3; Scorpio is 4; Sagittarius is 5. Therefore Mars does not cause Mars Dosha when counted from Moon sign.

Venus is in Scorpio 28°. Mars is in 2° Sagittarius. Though it is only 4° away yet count the sign Scorpio as 1 and Sagittarius as 2; take that Mars is in 2nd sign counted from Venus, and consider that it will cause Mars Dosha.

Suppose, in the above example, Mars is in 29° Aries; then it is in 11 to Lagna, 9 to Moon and 6 to Venus, when there is no dosha at all when counted from Lagna or Moon or Venus. Then they call such a position of Mars in a horoscope as "Suddha Jatakam", i.e., "there is no Mars Dosha at all".

Mars occupying 1, 2, 4, 7, 8, 12 houses (signs) counted from Lagna, Moon and Venus is said to cause "Mars Dosha".

One may ask why should Mars be considered to be evil only when it occupies 1, 2, 4, 7, 8 or 12th position from Lagna or Moon or Venus? Is it a benefic when it occupies any of the other signs?

Now, we are considering about the results of Mars during the period of fixation of marriage, the time of celebration and the state of married life. We do not judge whether it is favourable or not for other considerations in life such as finance, fortune, profession, etc. We are concerned with the health of the couple, harmony among them and happiness to them.

(a). Lagna or ascendant denotes health, longevity and personal characteristics. As Lagna will be the 7th (Maraka) house to the 7th which indicates partner, lagna also indicates (the maraka) or the end of life of the partner.

(b). The second house denotes the happiness or otherwise in domestic life, in-

crease or decrease in the number of members of the family by marriage, by birth or death of children, etc. Further, second house is the 8th to the 7th and it shows the danger and the difficulties to the partner.

(c) The fourth house denotes domestic environments. The sages have declared that evils occupying a sign which is either four or eight from a Bhava, spoils the Bhava. Hence Mars in 4 is evil to the ascendant, i.e., to the health and belongings of the native.

(d) The seventh house shows the legal bondage and the wife or the husband, her or his health, longevity of both and also the characteristics of the partners, whether they will have good understanding among themselves or not. Hence the position of Mars in 7, is not conducive to the above benefits.

(e) The eighth house shows the difficulties of the native and the finance and fortune of the partner, as well as their longevity.

Eighth house is called Mangalya Sthana, i.e., the duration of the married life. Mars situated in this house is therefore evil.

(f) The twelfth house indicates the real pleasure which the partners derive, the deception, the loss, etc.

But the third house denotes brother, fifth music, speculation and offspring, 6th debts and disease, 9th father, 10th profession and 11th profit etc.

Further, sages have declared that the houses 3, 6, 10 and 11 are Upachya Sthanas and that malefics by nature occupying any of the Upachaya Sthanas will produce desirable results.

Again let us consider the following. Suppose Lagna indicates your residence. Then houses 2 and 12 are the neighbouring houses and how can one have peace if these are occupied by wicked persons. If the bad fellow were to be in just the opposite house, i.e., the 7th, then also there is danger for the native. As already mentioned, the 4th and the 8th houses counted from the Lagna should not be occupied by evil planets, if good health, happy domestic environments and a long spell of pleasant wedded life are to be enjoyed.

In certain horoscopes, there may be dosha when counted from Venus, Moon and Lagna (Ex. 1).

Mars is in 12 to Venus,

Mars is in 2 to Moon and

Mars is in 4 to Lagna.

	Example 1		Lagna
	Venus	Mars	Moon

2. It may be in one of the evil houses counted from Moon and Lagna and not from Venus. (Example 2.)

Lagna			
	Ex. 2.		
Venus		Mars	Moon

3. Mars may be in any of the evil houses counted from Moon and Venus and not from Lagna. (Example 3.)

Mars	Moon		
Venus	Ex. 3.		Lagna

4. Mars may be in any of the evil houses counted from Venus and Lagna and not from Moon. (Example 4.)

	Lagna		Venus
	Ex. 4.		Mars
	Moon		

5. Mars may be evil from Lagna and not from Moon or Venus. (Example 5.)

	Venus		
Mars	Ex. 5.		Lagna
		Moon	

6. Mars may be said to cause dosha by occupying an evil sign counted from Venus and not from Lagna or Moon. (Example 6.)

	Moon	Lagna	Venus
	Ex. 6.		
Mars			

7. Mars is not evil when counted from Lagna and Venus. But it may occupy an

evil sign counted from Moon. (Example 7.)

	Mars		Venus
	Ex. 7.		Lagna
		Moon	

8. Mars may be free from Mars Dosha when counted from Venus, Moon and Lagna. (Examples 8 & 9.)

Moon		Venus	
	Ex. 8.		Mars
		Lagna	

Moon			
	Ex. 9.		
			Mars
Venus		Lagna	

It is said that the evil results of Mars, when counted from Venus, is much more pronounced than when it is in houses 1, 2, 4, 7, 8 or 12 counted from Moon. Evil

Moon and Mars in one sign assures that the evil effect of Mars will be nullified.

Thus regarding Mars Dosha, there are various rules expounded in Devakerala, Horasasthra, Jataka Chandrika, Nara-theeyam, etc., and by Athrimaha Rishi, Garga and others.

To sum up:—Mars may be in 1, 2, 4, 7, 8 or 12 houses from Lagna or Moon or Venus. If it is in Mesha or Vrischika—its own signs, there is no dosha.

Mars in Venus signs cannot do harm if it is the 4th or 7th house.

Mars in Mercury signs will have its evil results warded off if it is in the 2nd house.

Mars has no dosha in the houses owned by Sun, Moon and Saturn.

Evil results of Mars cannot operate if the sign occupied by Mars is ruled by Jupiter and happens to be the 8th.

Now let us consider how to match horoscopes and fix up the marriage.

1. If, in the bride's chart, there is dosha; select such a bridegroom who also has more or less similar Mars Dosha.

—2.—If, in the bride's chart, there is Mars Dosha, due to its relative position counted from Lagna or Moon or Venus and there is Parihara or modification due to some disposition or conjunction with the modifying planet or aspect by a benefic, match it with that of the bridegroom in whose chart also there is the dosha of Mars and also the modification.

3. If there is no dosha at all in the bride's chart and it is termed as Suddha Jathakam, match it with one which has no dosha at all.

You know that Mars denotes Erythrocytes, Red bone-marrow, blood, etc. Suppose a person has lost blood due to any accident or delivery, etc., then the medical attendant gives transfusion of blood. Mind you, he cannot give the blood of any person kept in the Blood Bank. He has to carry out an examination of the blood of the patient and from his test he is to ascertain whether the blood of the patient belongs to 'A' Group or 'B' Group or 'O' Group. There are 3 main groups. To which group his blood belongs is to be ascertained. Then, the same blood group alone is to be given to the patient. If he gives any other blood, say, blood belonging to another group, blood will precipitate, clot and he will die.

Similarly, there are three groups in Mars Dosha:

1. There is dosha in the chart without any modification.
2. There is dosha in the chart with modification and mitigation.
3. There is no dosha at all.

It is, therefore, necessary that Astrologers should carefully weigh and consider the various points of Mars Dosha in the given charts and advise on the correct match.

N.B.: (a) The other method of estimating the evil results caused by the malefic planets by nature occupying 1, 2, 4, 7, 8, or 12 counted from Lagna, Moon and Venus will be published in the following issues.

(b) Further detailed results of Mars in the 12 signs, in the 12 houses counted from Ascendant, Moon and Venus will also appear in the succeeding issues.

NO MORE DOUBTS

1. Question: "*Karaka Bhava Nasaya*" is the general threatening of a few. They say that each planet is the chief governor for certain results. So also, each house signifies certain results; i.e., if the Bhava or the house signifying a particular result is occupied by the particular planet which governs the same result, then it will cause distress; e.g., 7th house denotes wife or husband. Venus is the Lord which is the Karaka for wife. If Venus is in 7, it is said to be evil. What is your finding?

Answer: Don't be carried away by any single statement. It will be similar to the story of blind men describing an elephant by feeling any one part of it.

We give below the chart of a gentleman who has married a beautiful and healthy lady and is leading a happy, harmonious and prosperous life with her, even today.

The chart is as follows:

Born on 31—1—1888.

			Lagna
	Venus in 7th sign and 7th Bhava.		Sani, Rahu
Mercury, Sun, Kethu	Rasi 31—1—1888		Moon
Venus	Jupiter	Mars	

Also the chart of his son is furnished in which you may note the position of Sun in 9 and both are hale and healthy.

The age of the son is 41; that of the father is 76 and that of his mother is over 70.

There are many horoscopes of persons in which the Karaka planet occupies the

Rahu		Saturn	
Lagna	Sun in 9th sign and 9th Bhava. —Rasi		
Moon	Mercury Jupiter Venus	Sun Mars	Kethu

Bhava or house which also indicates the same result and such an evil result was not even dreamt.

Explanation: Sun is the chief governor for father; Moon for mother, Mars for brother, Mercury for education, Jupiter for finance and children, Venus for wife, Saturn for longevity, etc.

9th house represents father; 4th house mother (Hindu system: Westerners different; follow only Hindu. It will be proved why Hindu alone is correct.) 3rd house brother, 4th education; 5th children; 7th wife, 8th longevity, and so on.

Further, PARASARA says

"Suryo Guru: Kuja: Soma
Guru Bhowma: Siha: Sani;
Guruschandra Sutho Jeevo
Mandhascha Bhavakaraka:

In JATAKA PARJATHAM, Vaidyanatha Dikshita says

Dhywanir Amara Manthri
Bhoosutha: Soma Sowmyo
Gururathanayarow
Bhargavo Bhanu Putbra:
Dhanakara Thivijaejyow
Jeeva Banugya Mandha:
Sura Gwcurina soonu:
Karaka: Syoorvilagnath.

The Karakas of the Bhavas beginning with the Lagna are Sun for the first house,

Jupiter for the 2nd, Mars for the 3rd, Moon and Mercury for the 4th, Jupiter for the 5th, Saturn and Mars for the 6th, Venus for the 7th, Saturn for the 8th, the Sun and Jupiter for the 9th, Jupiter, Sun, Mercury and Saturn for the 10th, Jupiter for the 11th and Saturn for the 12th.

MANTRESWARA in Phala Deepika says, "Dharmac Suryaha Seetha Gur Bhandu Bhavae.

Sourya Bhawmaha Panchamae Dheva Mantric Kamae Sukrascha Ashtamae Bhanu Puthraha.

Kuryath thasya Klacsamith yahuranyae."

The sun in the 9th, the Moon in the 4th, Mars in the 3rd, Jupiter in the 5th, Venus in the 7th and Saturn in the 8th will cause distress to the concerned houses or Bhavas. But Vaidyanatha Dikshitar says

Kamavaggnanthana rasiyatha :

Sithenthuthuthra maravanthy mana ;

Arishtadhaisthae kila Jathakeshu

Sadha stamasye : Samirishadha : Syath

Venus occupying the 7th, Mercury the 4th, Jupiter the 5th house from the ascendant, are evil to all the births. But Saturn in the 8th house from the Lagna will give desirable results. So also in Bhavartha Rathnakara, Sri Ramanuja Charya reiterates those mentioned by Vaidyanatha Dikshitar in Jataka Parijatham.

One should not apply this rule strictly, and decide that Karaka planets, occupying the same Karaka houses, are harmful.

One has to read other chapters and note the results given by various authors, and also the same sage or authors for those planets occupying the Karaka houses; i.e., he should read the results for Sun in Lagna 9 and 10, Jupiter in 2, Mars in 3, Moon and Mercury in 4, Jupiter in 5, Venus in 7 and so on.

Phaladheepika—Sun in the first house shows that the person will be valiant. Moon in the 4th house makes one happy and liberal in gifts. He will have friends and vehicles. (Vehicle is indicated by the 4th house; and Moon in 4 is said to be good to own conveyance.)

The person having Mercury in the 4th house will be learned, witty in speech, happy, etc. He will possess lands, corn and wealth. Jupiter in the 5th house shows that the person will be intelligent and be a minister. He will have good children and also distress through children. Venus in the seventh house gives a good wife and he may also have intrigues with bad women. He will lose his wife and be wealthy. If Saturn is in the 8th house he will be without wealth and will suffer from piles. In Jataka Parijatham the author says that Saturn in 8 will invariably do good to the native.

It is said that, if Sun should occupy the 9th house, he will lose his father. (When? Every one will lose his father early or late.)

Sun in the tenth house gives permanent position in the Government, etc.

Let us consider the following points :

1. Suppose a child is born and the mother, immediately after delivery, passes away. Does the moon invariably occupy the 4th house to the Lagna of the new babe? No; in a majority of cases, Moon is not in the 4th house.

2. Is it not a fact that all men, having unafflicted Venus in the 7th house, are lucky to have the most beautiful brides with pleasing manners as their partners? Does Venus occupy only the 7th house in the horoscopes of all those who suffer in their married life? Is it not true that majority of the people having Venus—Sukra, in the other 11 houses to their Lagna, pray for harmony and happiness at home?

3. Are there not posthumous children and also many who have lost their father in their infancy and youth, having Sun in other houses except the ninth which is said to cause evil?

4. Are there not horoscopes having Mars in the 3rd house with many younger brothers and sisters?

5. Are there not people born with Saturn in 8, living for a long number of years. One of the patrons of this magazine is born in Mesha Lagna with a group of

planets in 8, including Saturn in Scorpio, and is still alive (age is now 64).

When we take the horoscopes of all those who had Alpa Ayus, i.e., short life, we do not see Saturn in the 8th house in them. If one refers to Uttara Kalamritham, translated by Sri V. Subramaniya Sastri, from pages 29 to 45, one will find 24 charts of short-lived persons. Only in one, Saturn is in 8 and in the other 23 horoscopes, Saturn is found to occupy all the other Bhavas.

Thus it will be seen that,

a. People, having Mars in 3 alone, do not suffer through brothers. Also there are many, having none younger to them, with Mars in other houses and most of the people, having Mars in other positions, also, are the youngest children in their family.

b. All children, born with Moon in the 4th house, have not lost their mothers in their youth. Also, the mothers who passed away immediately, after delivery, have not given birth to children, having Moon only in the 4th house from their Ascendant.

Thus, one cannot find much truth in this rule.

“Karaka Bhava Nasaya”.

It may be argued that people, having Mars in the 3rd house, may not see eye to eye with brother or sister.

Then the question arises whether they will be inimical to each other from their birth, or whether they will have misunderstanding or partition, etc. when they attain majority, or whether they will ever be bitter enemies. So also, if there is to be distress through wife, for some of those who have Venus in the 7th house, then is it from the time of marriage or when they become very old.

Proper interpretation is as follows:

1. All evil planets in the 3rd house will spoil the third Bhava. But Mars will be the strongest evil in the 3rd house; as regards the health of the brother and relationship with himself it is in the constellation of an evil planet. This will be experienced during the period of Mars and

in the periods of planets in the constellation of Mars.

2. All malefics in the 4th house cause distress to mother and through mother. This will be much pronounced, if Moon is in 4, especially in the constellation of an evil planet. Moon in 4 in the constellation of a benefic cannot cause evil.

3. Jupiter in 5 does not totally deny children or cause trouble through them. Malefics in 5 also give worries and similar difficulties. But Jupiter in the constellation of an evil planet will surely do much harm, whereas in the constellation of a benefic, it will give only most agreeable results.

Therefore, the Karaka planets, occupying the Karaka houses, are generally stronger than other evil ones in the respective houses only when they are in the constellation of planets who become evil by lordship.

But if one collects statistics to ascertain the time when one has such evil results, one will surely find that these planets, only when they are in the constellation of evil planets, cause distress during their periods or sub-periods, or sub-sub-periods in other evil planet's Dasa and Bhukti, e.g., difficulties to brother or through brother will be during 'A' dasa, 'B' Bhukti and Mars anthra or 'A' dasa, Mars Bhukti, 'B' Anthra or during Mars dasa, 'A' Bhukti, 'B' Anthra. Separation from wife or bereavement may be during,

'A' Dasa 'B' Bhukti, Venus anthara or 'B' Dasa, 'A' Bhukti, Venus anthara or 'A' Dasa, Venus Bhukti, 'B' anthara, and so on.

Therefore, they will prove to be evil only during their periods or sub periods, if they are in the constellation of evil planets. Evil result will be experienced in the periods of planets occupying the star—nakshathra, of the Karaka planets in evil planet's constellation.

Further, it does not mean that the trouble is ever lasting from birth to death. It is also not necessary that, whenever there is trouble, these planets, dasa

or Bhukti, or anthara should operate, other evil planets in those Bhavas or in any manner connected with the Karaka planets, will also cause distress in their periods and sub periods.

Planets in the constellation of the Karaka planets, occupying the Karaka signs, will surely cause trouble. For example, in those horoscopes, with Mars in the 3rd house, in evil planet's constellation, if there are planets in any of the 3 constellations of Mars, Mrigasirisha, Chitra or Dhanishta, they also will do harm during the joint period of this planet and Mars.

If Jupiter is in 5 in the constellation of an evil planet, and if there is another planet, in any one of the 3 stars of Jupiter, Punarvasu, Visakam or Poorattadhi, this planet will do harm to children in its period and sub period.

If Venus is in 7 in the constellation of an evil planet, and if any other planet occupies any one of the 3 stars, Bharani, Poorvapalguni or Poorvashada, this planet will be undesirable for the happy married life in its period.

Therefore—

1. "Even though Karakas may occupy respective Karaka signs, note whether the lord of the constellation is a benefic or malefic. If it is a benefic, expect only good results. If the lord of the constellation is a malefic, then alone, the results will be undesirable.

What results the Karaka planets in Karaka signs indicate, will be offered by those planets which occupy the constellation of the Karaka planets."

This is the finding of the Modern Astro-nomical and Astrological Research Institute, Madras and Delhi.

NO MORE DOUBTS. (Next question)

Question: What is meant by "Dasa Sandhi"? Is it harmful?

Answer: "By 'dasa', one means Udu-dasa or Vimsothari dasa—Udu Dasa Sandhi is the period when one major dasa

ends and the other dasa starts. "Sandhi" means union. So dasa sandhi is the time when one dasa ends and the other follows.

If such a dasa sandhi of a person coincides with the dasa sandhi of the partner, husband or wife, a few astrologers threaten the querists by saying that the dasa sandhi portends evil, without considering any of the following points.

1. Is the dasa, which is to follow, ruled by a benefic or a malefic?
2. Will one enjoy in the coming dasa or is he or she to face difficulties?
3. If both the couple are to be fortunate after the evil dasa ends, and the favourable one commences, what is wrong in matching them for marriage?
4. Can anybody marry a bride or a bridegroom other than what he or she is destined? Is not the saying, 'Marriage is made in Heaven,' true?
5. If a couple are to suffer, say, till December 1963, and they have to enjoy lucky time from the happy New Year 1964, will the chart of one show fortune from 1964, whereas the other denotes continuation of misfortune? Should not the bad dasa come to an end to both, and the good dasa start for them simultaneously.
6. A couple, after marriage, were not fortunate to have a child for some years. Later, just after dasa sandhi, they had a son born, as the new dasa which started, promised birth of children. If there is not such a change, in both the charts, how can they have the child.

(Some, so-called astrologers, say, "if the horoscope of the boy does not promise progeny, match him with a bride who will have many children or vice versa." Do they think for a minute; if the boy is denied of a child, how can the bride have? Or if the bride should not have even one child, how can the male have? Is it not meaningless or does it not mean something else.

Such astrologers do not think deeply. They go only by general statements and auntee's proverbs. Can astrology avert any event? Can one dodge fate by his will? That which is to happen is sure to take place. (Why these astrologers threaten the innocent people, is not known. Is not astrology to give mental solace and strength to the depressed and to those in distress?)

There are innumerable instances and we have the horoscopes of those people correctly cast. A few horoscopes of our friends will be published and explained later.

1. If the lord of the *dasa* which is to follow happens to occupy the constellation of the lord of the previous *dasa*, that is running, there will not be any major changes in the events.

For example, a person serving in the military department from his Mars *Dasa*, will continue to hold service in the same department during Rahu *Dasa*, as Rahu was in Chitra star ruled by Mars. Neither would he have suffered during Moon sub-period in Mars *Dasa* nor in the sub-period of Rahu in Rahu *Dasa*.

One who entered in the Bank as a junior officer during Jupiter *Dasa*, had a pleasant time during Rahu *Bhukti* in Jupiter *Dasa*, and then had promotion and prosperity in Saturn *Dasa*, Saturn *Bhukti*. Throughout Saturn *Dasa*, he had good support and improvement in status. He had children born in Jupiter *Dasa*. Saturn continued to give as Saturn was in Punarvasu star ruled by Jupiter.

Thus, it will be seen that the end of any *Dasa* need not be universally harmful, and the beginning of another *Dasa* also need not cause distress to all. Then astrology is made very simple to predict easily that the beginning and the end of a *Dasa* are bad and undesirable.

2. If the lord of the *Dasa*, that is to follow, owns a beneficial house, occupies a favourable house as well as the constellation of a benefic and is not afflicted, then the *Dasa sandhi* will be similar to day-dawn when darkness will disappear,

and there will be bright light. The person will have a new cycle of prosperous life from the very beginning of the *Dasa*.

3. If in the horoscopes of a couple, both are running a brilliant *dasa* and an undesirable result is to follow, certainly both will suffer. Both must face difficulties. Can any prevent them from getting married? Not at all. Even if one says, that he had avoided such a combination, and made a selection in which there is no *dasa sandhi* in their life time, it is only ignorance.

4. Majority of the people do not actually suffer in the end of a *dasa* or in the beginning of another. But the sufferings in the middle of the *dasa* is the worst and they have changes in career in any one of the *Bhukties* in the middle of the *dasa*.

- a. Verify from the people who have retired from service and receive comparatively a small sum as pension.
Have they retired during *dasa sandhi*?
- b. Take the horoscopes of those who lost their wives or husbands. Did it happen during *dasa sandhi*?
- c. Consider those who were unfortunate to lose their children. Had they *dasa sandhi* then? At least was it at the *dasa sandhi* of either of the parents?
- d. A man gets amputated, leaves service and suffers a lot; when we scrutinise their cases, neither he nor his wife had *dasa sandhi*.

Therefore, are we not convinced that good and bad happen when a *dasa* is running and the windfall or the pitfall to most of the persons was neither in the end of a *dasa*, nor in the beginning of the other?

Therefore one need not worry about *dasa sandhi* at all.

Question: What is 'Eka-dasa'? Why do a few astrologers consider it as harmful?

Answer: By Eka-dasa, they mean that both the husband and the wife run a period ruled by the same planet. Here, the name of the planet alone is the same.

1. As the Lagna of both the husband and the wife will be different, the planet which governs the dasa will be the owner of a different house.

Therefore, they are the signifiers of different results and their effect will differ widely.

2. The lord of the dasa will be occupying different houses when counted from Lagna or Moon sign; thereby the effect will be different, due to occupation.
3. The planets conjoined with the dasa lord or aspecting the dasa lord will be different.
4. In their horoscopes, the planets may occupy different constellations.
5. Thus, the results which are indicated by the dasa lord will differ, even though the dasa lord is called by the same name.

It is not correct to say that the bride and the groom running the same dasa, should not get married and if, by chance, they get married, this Eka-dasa will prove to be harmful.

The sages have declared that there will be satisfactory agreement between the bride and the bridegroom if the husband's star is the 9th or 18th or 27th counted from that of the bride (if 27th star in the same rasi). If they get married, they will enjoy good health for a long number of years.

Let us take a few examples :

A girl is born in Mrigasirisha star. The boy's star is Rohini. Both have Moon in Taurus, Rishaba. The agreement is said to be excellent for marriage. Let us work out the dasa. The girl has a balance of 6 years of Mars dasa at birth; the boy has 5 years of Moon dasa. Therefore

when the boy is 5 years old, Moon dasa ends; Mars dasa commences. If another year passes, he has enjoyed one year of Mars Dasa and there will be 6 more years of Mars dasa to run. Now his wife is born with Mars Dasa balance of 6 years. Therefore they will be running Eka-dasa. How can it prove to be evil, when the 9th star is considered to be the best and the rasi is the same for both.

6 years after the birth of the boy, the girl is born. Though, for both, Moon is in the same sign, all the other planets and the Lagna are in different signs. Therefore the results indicated by such planets must be different; mostly opposite and partly agreeing.

- e.g. 1. The planet may show acquisition of costly jewels to her. Should not the husband's chart show deterioration of his bank position to that extent?
2. The husband may need money. Wife's jewels may be pledged. Actually wife loses her possessions and the husband's bank position improves.
3. The husband gets scholarship and goes overseas for higher studies. The wife remains at home. Separation is common to both.
4. Wife is admitted in the maternity home. The husband visits the place, feels happy, distributes sweets and arranges a party on the day when his wife has given birth to a son. Pains to wife and gains to husband will be the result of the dasa, though the name of the lord is the same.

A person may by nature be magnanimous. But by occupying a position, he cannot show his nature. It is to be modified. He has to give up his natural tendency and act according to the position. He may have to be miserly and without sympathy he may have to execute orders. Therefore occupation modifies and changes one's nature.

A person, by company gets improved or spoiled. So also, the dasa lord by the

conjunction of any other planet will give different results.

Twins are born in the same lagna, with the same position of the planets and dasa bhuktj.

Do they not have the same dasa lord and the same Gochara-Transit results? They do. But yet, are not the results different? The name of the dasa lord is the same. Its lordship is the same. Its occupation is also the same. Then, why so much of difference in the results?

(Proper explanation, convincing both laymen and the scholars and veterans in astrology will be offered in subsequent issues, when the editor Sri K. S. Krishnamurthi publishes "Krishnamurti Paddhati" for the students to study, do further research and with pleasure confirm the truth.)

Therefore this threat of Eka Dasa has no meaning. For most of the people, nothing untoward had happened, nor can it happen. A few may suffer. It is not due to Eka-Dasa, but because the lord of the dasa is not beneficial for them.

Readers of this magazine need not take into consideration any of the threatenings of the astrologer, who rejects a horoscope by - mentioning "Eka-Dasa or Dasa Sandhi".

Each horoscope has to be judged independently. Whatever is found in the chart will alone come to pass. By marrying one having Eka-Dasa or Dasa Sandhi, one will never alter the results indicated by one's chart.

Leo or otherwise called Simha is the fifth sign of the Zodiac. The first four signs are Aries-Mesha, Taurus-Rishaba, Gemini-Mithuna and Cancer-Kataka.

LEO OR SIMHA

Leo is also 30° in Longitude. It extends from 120° to 150° from Vernal Equinox (or Mesha 0°). Makam, Poorvapalguni or Hubba or Pooram and first quarter or pada of Uthira Palguni or Uthiram star are contained in this sign.

According to SAYANA SYSTEM, the Sun nowadays enters the sign Leo on or around 23rd July every year. Sun transits through this sign for 30 days and on or around 22nd August, it leaves Leo and passes on to the next sign Virgo—Kanni.

Those, especially Westerners, following Sayana system will take that Sun is in Leo-Simha for all those, born between 23rd July and 22nd August, any year and they are called Leonians. If one knows the date of birth, one can locate the position of Sun, whether in the beginning or in the centre of the sign or in the last portion. If the birth were to be 25th July, Sun will be in the very beginning of Leo two or three degrees. If the date of birth were to be 31st July, Sun will be at about 8° in Leo. If the date of birth is 20th August, Sun will be in the end of the sign at 28° or so. It is easy to calculate as Sun moves approximately one degree a day.

According to Nirayana System, Sun will enter the sign Leo every year on or around 18th August, transit in this sign for nearly 31 days and leave it on or around the 18th September every year and pass on to the next sign Virgo. In these 31 days, Sun passes through the constellations, Makam, Pooram and only the first pada of Uthiram.

For those born between 18th August and 18th September any year, Sun will be shown in Leo, if the person who follows the stellar Astrology or the Nirayana System, casts the horoscope.

Therefore, in the horoscopes of those born between 23rd July and 22nd August, Sun will be shown in Leo by those who follow Sayana System; whereas those who

follow Nirayana, will locate Sun in Cancer between 23rd July and 17th August, and Sun in Leo, only when the date of birth is between 18th August to 17th September.

QUALITY : Leo is the central sign of the fiery triplicity as Aries is the first fiery sign and Sagittarius is the third and the last one. Leo is a hot, dry, masculine, positive, bestial and barren sign. It is also a fixed sign and of long ascension.

Leo is ruled by Sun. Only Sun and Moon, the two luminaries govern one sign each, Leo and Cancer respectively. Other planets, excluding Uranus and Neptune, own two houses each. In Astrology the luminaries, Sun and Moon, are "Planets". Shakespeare also speaks "the Glorious planet Sol." No planet gets exalted or debilitated in this sign. Moon, Mars and Jupiter are said to be in friend's quarter when they are in Leo. Saturn, Venus and Mercury are considered to be in enemy's camp if they transit in Leo. Uranus gets weakened here whereas Neptune gains strength.

PHYSICAL FEATURES : One born in Leo will have well-developed bones and broad shoulders and forehead. He will be tall, well-built and muscular. Never will he be plumpy or ugly and be a Lambhodhara. His stature will be full and his appearance majestic, imposing, commanding and dignified, as Leo is a fixed and fiery sign or the royal kingly sign. Complexion will vary according to the exact position of the ascendant, and planets occupying or aspecting the ascendant (or Lagna).

The personality of a person born in Leo will be found as mentioned above, if the ruler of the sign, Sun, Appollo, occupies it. But this external expression, characterising the person, distinguishing him from the others, enabling us to identify him gets

modified due to the influence of the planets in the ascendant, the occupation of any sign by the ruler of the ascendant and the various aspects from the other planets to both the cusp of the ascendant and its lord. Every individual has some difference from the other and it can be noticed even among twins born on the same day and in the same Lagna, due to this modification; otherwise there will be only twelve patterns and to identify each individual will be a problem.

Characteristics :

Sun is the Lord of the sign, Leo-Simha. Masfield says "The Sun still scatters out his store". It is true and the people born in this sign are noble, large-hearted, magnanimous and generous. Sun is necessary for the life and the growth of both the vegetable and animal kingdom. But, whenever Sun becomes furious, it destroys them. Darkness envelopes in the absence of Sun; when once Sun rises, none knows where the darkness has gone. Therefore the people born in this sign are helpful to mankind and other creations of God. Sun removes their darkness, ignorance and evil thoughts. It is said that Sun represents the Government. Those who have good aspect of Jupiter to Sun, invariably are assisted by, protected by, and saved by the Government. Saturn forming evil aspect to Sun shows that such persons will be hated by, chased by, and punished by the Government. So, either to lead a healthy and happy life or to face difficulties and lead a miserable life depends on the aspect to Sun and to the Cusp of the ascendant Leo. Accordingly, the characteristic of the person will get modified.

Sun is the King of all the planets. It is masculine. So the Leonians have dignity. They will have great faith in all friends and relatives and confide everything with them. They are capable of inspiring affection and admiration and have their purpose served by the willing co-operation of their colleagues and subordinates. Generally Leonians become the head of a show, registrar, ruler, chairman, host, hostess, managing director, administrator

and chief of any organisation and continue for a long period. At the same time these persons never hesitate to issue an order or ordinance to protect the interest of the mass. They do not talk much. The main characteristic is the habit of silence. They leave all the talking to others. They will hear very patiently all the complaints even from the menials and also pay heed to every rumour. But their judgment will be wise. They have the large-minded tolerance. They are endlessly energetic in serving their people. They will always forgive and forget the mistakes, sins, errors and deficiencies of others. They desire to be honoured. But there is no false prestige in them. They mingle with people holding high offices and also menials. Since they trust everybody, it is not unlikely that they are cheated and disappointed as they do not discriminate. They live in a world of their own creation and nothing appears to be great for their ideality.

Sun is worshipped during its transit from one sign to the other, especially during the time when it passes the Vernal equinox, as Vishu, or New Years day etc.,—when it enters Cancer as Dakshinayana;—when it enters Libra as Thula month and when it passes on to Capricorn as Makara Sankranti. Just as Sun needs the feasts and sacrifices celebrated, in its honour, so also the people born in Leo are pleased by the praise of others. Anything can be had through Leonians, if one honours him and speaks high of him in his presence. Generally, Mercurians are the favourites of the Leonians as they will not mind adopting those measures which will please them, and also mention that the Leonians have organising powers and they are constructive, inventive, magnanimous and ingenious. They will take advantage of Leonians who are susceptible to flattery which may tend to become an exaggerated Ego. Therefore don't fall a victim to flattery but correct yourself by remembering the old adage that "He who has the greatest authority seldom shows it."

As Leo is a fiery, and a fixed sign, it offers authority and ambition, brilliance and boasting, clever action and command-

ing, dignity and domineering, energy and enthusiasm, faith and fame, glory and grace, hopes and honour, intellect and inspiration, joy and jubilation, kindness and kingliness, loyalty and leadership, magnanimity and majesty, pomp and pride, respect and royalty, stately and scrupulous, vitality and vigour, warmth and zeal.

Leo being the 5th sign of the zodiac, there will be an inordinate zeal and enthusiasm for sports and speculation. One will be interested in the pleasurable pursuits. In him, the higher emotions are the main centre of activity. He may take interest in music, opera, cinema, games, etc.

Leo being a fixed sign, the person may be obstinate or indifferent as there will be the firmness and fixity of purpose. He is at his best only when there are handicaps and obstacles. He has considerable will-power to win his way to his entire satisfaction. Having full faith and hope, he can accomplish and achieve his aims by persistent determination.

Leonians are frank, open and just. Their outbursts do not last long, just like the extreme heat of the Sun. Leonians are noble and lofty in character. They scorn the mean, sordid and puny actions. Never will they stoop to do a low act even when they get irritated or when there is the strong urge of self-interest. They do not hesitate to serve those whom they love even if they have to forego their comforts, convenience, etc. They will sacrifice everything for their loyal and true friends. They never do anything halfheartedly.

As by nature they are authoritative and commanding, they want to be at the head of things, boss over others and be a leader. They dislike subordination.

They will help everybody voluntarily. They will also donate or do charity whenever it appeals to them. But they resent such people who persistently ask for something. They do not, by nature, like those who make any demand upon the Leonians.

Saturn forming good aspect with Sun or the ascendant Leo avoids giving way to

fits of temper and over-exertion, so that there is no ill-effect on the heart. They will try and rise above any depression or sorrow they may have. It will protect one from committing mistakes and one will not be dictatorial and overbearing. They will guard against self-deception, false pride, hazardous speculations and any trouble. They will never rub on the wrong side or assert themselves at the wrong moment.

If *Mars afflicts Sun* or the ascendant, the nature of the person will be changed. He will become bombastic, domineering and blustering. He cannot be trusted in any department of life. If he marries anybody, he will prove to be unfaithful, amorous, disloyal, mean and short tempered. *Good aspect of Mars* gives courage and grand success. Aspect of Mars and Saturn to Sun is very important. Adverse aspects will offer bitter experiences in life. Remember the brightest light will always cast the deepest shadow.

Weakness to be corrected :

Generally Leonians do not consider both sides of the question. To rely entirely upon his own ideas will not prove to be advantageous or correct. So to make the plans successful, it is advisable to take others' views, ideas and suggestions. It is advisable not to be dogmatic and obstinate.

Whenever the Leonians are crossed, they become extrovert. Their emotions will express themselves readily in external actions and events. They will roar like a lion and get into trouble especially during the sub-period of that evil planet which afflicts Sun.

Do not forget that charity has to begin at home. The generous urges will drain their purse and they will find it difficult to have a reserve or a spare amount for their personal use. Over-liberality, keeping one ever in wants, is also not desirable. Sun never retrogrades and retraces its steps. It is ever in forward motion. So also these people will go ahead, without considering the past and also the future. It is advisable to hold up one's desires and

aims if the environmental conditions are restricted.

One should not be hasty and get irritated before the persons whom he had helped to show their gratitude.

Avoid forcing conclusions at one's own risk and never be arrogant.

Try to have an attractive home. Manage to maintain a comfortable-sized bank position. Do not spend away all you have and all you get.

Advice for improvement :

Remember that big enterprises will move slowly. Don't be hasty. Take others' advices. Consider both sides of a question. Be patient. Proceed steadily. Don't be carried away by others' flattery, as flattery is the food of fools. Guard against the subtle influence of flattery. Try to be more detached in your feelings.

Don't try to dominate all the time as others also will desire freedom. Don't carry anything to an extreme. Though one will be careful in dress, one should not be a slave to the ever-changing fashion.

Health and disease : Generally these people should have a splendid constitution. Even if they fall ill, they tend to recover rapidly from any illness. But they are easily alarmed, whenever sickness overtakes them.

Leo indicates the heart, the spinal column, spinal marrow, nerves and fibre. Leo influences the bone, dorsal vertebrae. Inter-spinal muscles are controlled by this sign. Anterior as well as posterior coronary, Aorta, Vena Cavae are ruled by Leo.

Therefore heart disease, palpitation, Spinal meningitis, Syncope, locomotor ataxia, etc., inflammations, sunstroke, giddiness, pestilence are other disorders. Epilepsy, rheumatic fever are the diseases from which one may suffer, whenever the ascendant is afflicted by Mars and Saturn respectively. As Aquarius opposes Leo, Capricorn is the 6th sign counted from Leo-malefics in Capricorn and Aquarius can

cause swelling in the ankle followed by heart disease.

Jupiter in Leo will protect one from any surgical aid :- If Mars afflicts, it will lead to cardinal thrombosis or surgical aid.

As Leo rules heart which is the vital part of the body, temperate living is absolutely necessary. One has to avoid drinks, beverages, stimulants, etc. But one is to take balanced diet. That is why our ancients were very particular to have a 'Sathvic' diet.

Finance and fortune : Leo is symbolised by the Lion which is the King of the animals. Therefore one's natural instinct is ever to seek for the highest position and mostly, one has it rightfully. One will try to deal with large issues. One will leave the routine, monotonous drudgery and minor details to subordinates.

One is by nature a spendthrift even when poverty may threaten him. One will be able to face any hard times. Generally, fortune favours Leonians when they are young. They will have sufficient resources. Yet, because they spend lavishly, their bank position will be deteriorating as age advances. Leo being the 5th sign of the Zodiac, one will be tempted to gamble and speculate. Luckily for them, their risks will amply reward them. Speculators are very liberal when they give gift to others. Nor do they hesitate to lend financial assistance to the needy. One will please himself with the sweet smile of those to whom he presents costly ones. Also one will feel proud when he thinks that others borrow from him and approaches for favour.

Profession : Sun, the ruler of this sign Leo, will influence in directing one's choice of the profession. It favours high positions in commerce or Government.

As Leo is a fixed sign, one may have a fixed income, security of service under the Government, etc. It is the 5th Sign of the Zodiac. So one earns through speculation, music, theatre, opera; being a fiery sign, one may be a jeweller, goldsmith or one working in precious metals. As this Sign gives executive ability and tireless applica-

tion to work, one will be fit to manage great enterprises. Presidents, managers of corporations, managing director of concerns, officers, superintendents, directors, captains, sales managers are born in Leo.

If Mars is favourable, it makes one a soldier, surgeon, chemist, dentist, barber, butcher, worker in iron, copper and sharp instruments — Mars and Leo favour the Defence Department and warlike pursuits.

Mercury produces sales managers, share-brokers, ambassadors, councillors, auditors, engineers, architects, etc. Jupiter forming favourable aspect with Leo produces lawyers, judges, priests, bankers and physicians.

Venus in Leo indicates those in the administrative department of transport, travels, food, agriculture and those who deal in glass, cloth, silk, provisions and luxurious articles.

Saturn favours mines, coal, wood, estates, lead and plumber or menial posts.

Thus depending on the aspect received, the nature of the profession is to be judged.

Domestic environments: The health of the native needs relaxation. Absolute peace, harmony and happiness will keep him cheerful. Just as a king will expect his subjects to be submissive, and expect always favours from him, so also the Leonians will try to be the leader in the house and expect all those at home to be co-operative, obedient and grateful. They will lead the members of the family to have a broad outlook, and to be magnanimous and noble.

Leonians choose their good friends. They entertain them often. They never hesitate to spend money to maintain prestige and honour. Even when the sandalwood is pulverised and thrown into fire, it does not lose its fragrance. So also, these people will never think of economy, even when they are driven to a state of poverty. They will lead the same aristocratic life and their home will be an impressive one.

They will spend much on dress, screen cloth, curtains, furniture, etc. They will

keep the home tidy with all the attractive trimmings, decoration, etc.

If the male is born in one sign, but the wife is born in Leo, then it is a problem for him to please her by supplying her dress, jewels, etc. If he does not satisfy her, the readers can guess his fate. His home will be his Hell in this life. But if he is able to meet her demands, then his home is his Heaven.

Romance, Marriage and Married Life: The person born in Leo is romantic. He loves deeply and he will be carried away by love. He cheers up the partner most skilfully like an actor in a comedy scene. He is an ideal lover, as he will be fiery and passionate. But he will never like any demonstration of love, in public, as he considers it below his dignity.

He will have abundant charm and be attractive to the opposite sex. It is but natural that the partner is jealous as the Leonian will be always in the midst of a crowd of ladies. Therefore, the partner should have proper understanding. She should share his pleasure when he gives plenty of parties to others and has exciting times with them. Unless he has Saturn, Mars and Venus in the ascendant, or 5 or 7 or 11, he need not mistake the Leonian husband. If one understands him and agrees with him, she will be liked, loved and admired by the person born in Leo. He will fit into domestic routine, admirably. He will never allow anybody to disrespect his wife or any member of his family. He is very proud of his family. He will not tolerate any ill-repute. He is always conscious of his social standing and is chivalrous.

As Leo is a fiery sign, partners born in the same or the other two fiery signs, Aries or Sagittarius or in any one of the three airy signs, Gemini, Libra or Aquarius, will suit well.

If one links his fortune with another born in Leo itself, it is advisable that both understand each other, so that there can be no trouble in their married life. Aries and Sagittarius born will contribute for his happiness and harmony. In the airy signs,

Aquarius, Libra and Gemini, persons born in Aquarius will be devoted to Leo births. Bride born in Libra will ever try for company, avoid troubles, and purchase peace at any price. One born in Gemini will be very tactful and will never do anything which the husband may hate. The Geminian will be an inseparable partner and she will be sincere and affectionate.

The Leo lady is ambitious and also ideal. She will manage her home admirably. At the same time, she is a successful social worker. She can make favourable impression on all. Her devotion both to her home and to the general public, is supreme. She will be offered prominent position. She is a self-sacrificing lady with everlasting love. She cannot expect any good return from those to whom she lends her assistance at the risk of her own interests. A Leo bride marrying an Aries husband is lucky, as she has a commanding person so that she will know her limits, and will not overstep in exercising her authority or in spending lavishly. She needs one to keep her under control, so that she can appreciate her husband's good nature, affection, kindness, and real love to lead a pleasant, prosperous and peaceful life. For, she will have pretty fixed ideas, and she will feel that her word is law, and will expect others to do only those which she desires and considers right.

Children: People, born in Leo, love their children most. They are very proud of them. Generally their children will be restless and may even be nervous. They may start striking out for independence, even when they are very young. They dislike restriction. Therefore, the Leo born parents should let their children feel that they rely on them; otherwise, they will lose their confidence.

Children born in Leo will try to lead and boss over other children. They will be the captain of the team, while playing any game. They will prove to be able leaders, as they will have great vitality, ambition and persistence. They are not mere figureheads but fine organisers inspiring others. They will not be arrogant;

nor will they be carried away by their own opinion. They will be popular because they do not desire to have honour for themselves by appropriating what others have done. They will be good-natured, obliging and affectionate. They have courage and confidence to crown with success.

Handwriting: As the lord of Leo is Sun who is round, full curves and regular circle mark the handwriting of the people born in Leo. They will consume much space and also give some flourishes to the words. They will write in straight and regular lines, as the pathway of the Sun is regular. Their letters will be upright and vertical.

Lucky day: *Sundays* are good for taking medicine, tonic, etc., to recoup health, to undertake any enterprise; to meet the High Officials; to purchase those articles governed by Sun.

Avoid Mondays: Waste of money; loss of prestige; secret inimical activities; irritation. Don't do anything afresh on Mondays.

Boldly do on Tuesdays: Grand success even in competitive examination. Even if you are weak, you can come out victorious on Tuesdays. Good to purchase property, car, etc., and to go on a long journey.

Try for luck on Wednesdays: Approach bankers for overdraft; enter into contracts; take up agencies; sign your documents; register on Wednesdays; start loving a bride or a boy on a Wednesday and you will be lucky. Lend money on *Thursdays*; the borrower will have luck shortly, so that he can return it in time. Purchase costly ones to wife. Present them on Thursday itself. Purchase land and give to children or purchase car for them on Thursdays.

Fridays are auspicious for short journey, transfer and promotion.

Avoid Saturdays: A day of deception and fraud.

Lucky Colour: Orange: Red: Green.
Avoid Blue and White. **Lucky Stone.**
Ruby, Emerald.

Lucky number: 1, 4, 5, 9, 6. Avoid
2, 7 and 8; Mixed results- 3. Memorable
lucky time in the near future will be June
1966.

Places governed by Leo: High hills:
places inhabited by wild animals; forests;
deserts; gravelly ways, royal palaces,
castles, mansions, Government buildings,
social club houses, cinema and drama
theatres, playgrounds for children, gamb-
ling den; race course, dance hall; ball
rooms, those places of amusement, sports,
betting, etc., Stock Exchange, industry,
gold mines, mint in the house, fireplace,
chimney, furnace, oven, stoves, kitchen,
open terrace, etc.

**Countries, Cities and Towns indicated by
Leo:** France, Puglia, Italy, Sicily,
Bohemia, the Alps, Chaldea, the coast of
Sidon and Tyre, Capadocia. Apulia,

Lancashire, California, the North of
Rumania, Rome, Bristol, Bath, Prague,
Taunton, Damascus, Ravenina, Dalton-le-
Moors, Portsmouth, Philadelphia
(Chicago).

In India: East of Narmada, Orissa,
Bengal, Ganjam District, Kamarup in
Assam, Puhinda Hill, Eastern half of
Deccan, Eastern bank of Jumna, the Bindha
Hill, Golangul, Burdwan, Sree mountains,
the Mikal hill, South Bihar, Kirata,
Vitaka, Champa, Udumbara, Chedi, river
Ikshumatee, Vanga, Kalinga, etc.

Animate and Inanimate objects: Asa-
foetida, omum, pine, chillies, nutmeg,
almond, pepper, saffron, lavender, aroma-
tic herbs, thorny trees, golden articles,
emblems, breast pins, rings, amber
coloured, or golden yellow stones, gold
coins, brass, medicines.

For people born in Leo, prayer to God
Narayana, Lord Muruga and Sun God,
will bring peace and prosperity.

LORD OF LAGNA A YOGAKARAKA AND A MARAKA

By

SHRI DV. SUBBA RAO

MADRAS-33

Determination of longevity is a hard problem. This involves complicated multiple workings to fix the period, date and time of occurrence. No doubt, a shrewd observation coupled with careful study is indispensable; yet, the problem is such that it poses varied questions of a conflicting nature in application of the established principles. More so is the difficulty when the Lord of Lagna becomes a Maraka. Having noted the different opinions of several students on the subject, I am now placing before the readers the principles that deserve consideration in determining the exact time of death.

Lords of 8, 3, 1; 2, 7, 12; and 6, 10, 11 are normally the death inflicting planets in order and preference. Planets posited in these houses are more powerful to inflict death than their lords. (Occupants are stronger than owners.) Before proceeding to determine the period, i.e., dasa of the maraka of a native, it is imperative to know to which classification of longevity the native belongs.

Longevity is divided into 4 parts - small, medium, long and deergha, depending on the span of life ranging from 1 to 32, 33 to 62, 63 to 82 and 83 to 120. Having determined the class to which the native belongs, the dasa of death should then be decided. In this article, I propose to deal with the medium type of longevity, which is very important. Following are some of the important factors that go to show medium class of longevity :-

A. When :-

1. At last one natural benefic is posited in a trine and a natural malefic is posited either in 3 or 6 or 11 houses;
2. Jupiter is in 2 and a natural benefic is either in a trine or square,
3. Sun is in 11 and a natural benefic is in a trine,

4. Either Jupiter or Venus is posited in a square,
5. Natural benefics as lords of 8 and 11 are in 9 or 11,
6. Moon as lord of 8 is in 8 and either Saturn with Mercury, or Sun with Saturn or Saturn with Mars or Saturn with Venus or Jupiter with Saturn or Saturn with Rahu or Saturn with Kethu are in 11, so that Saturn squares and by its 10th aspect, aspects Moon in 8,
7. Either Jupiter with Moon or Venus with Moon or Mercury with Moon or Sun with Jupiter or Sun with Venus are posited in squares (konas) and a natural malefic in 3 or 6 or 11,
8. Mercury in 3 or 8 and Saturn and Moon in 7 or 10,
9. Jupiter or Venus or Full Moon in Kendra and Saturn in 3 or 6,
10. Jupiter or Venus or Mercury in Lagna and Moon in trine,
11. Jupiter or Venus or Mercury in 11 and Saturn in 3 or 6,
12. Jupiter or Venus in Kendra and Sun or Sun with Mercury in 3,
13. Lord of 11 in 10, Lord of 8 in 11, Lord of 8 and a natural benefic in 11,
14. Sun in 11 and a natural benefic in trine,
15. Jupiter or Mercury or Venus or Full Moon or Moon free from malefic conjunction in squares or trines and a natural malefic in 3, 6 or 11,
16. Saturn in 3 and Jupiter in Kendra,
17. Natural benefics in Kendras and Sun in 11,
18. Jupiter and Venus in trines,

19. Jupiter or Venus or Full Moon in Kendras and one of the three in 11,
20. Moon in 11, Jupiter or Venus or Mercury in Kendras or trines,
21. Lord of lagna as neutral to Sun,
22. Lords of 1 and 8 when one is in a movable rasi and the other in a fixed sign or both in common signs,
23. Lord of the lagna and the lord of the Moon sign are in a Kendra and Jupiter posited in one of the maraka places.

B. Following are some of the important factors to determine the Maraka Dasa :—

1. Malefics in 6 or 8 houses aspected by their enemies, more so when these happen to be their own houses,
2. Dasa of Mars as 5th, Jupiter's as 6th, Saturn's as 4th, Rahu's as 7th,
3. Dasa of a debilitated planet posited in an inimical house, eclipsed and associated, with a malefic who in turn happens to be lord of houses 3, 5 or 7,
4. Dasas of lords of 22 decante and 64th navamsa from Lagna and Moon,
5. Dasa of the Adhi satru of the lord of 8 house,
6. Dasa of the lord of the decante of the Rasi at birth.

C. Guiding factors to determine the period of death :—

1. When Jupiter in transit passes through houses 3, 5, 6 or 11 occupied by Saturn at birth and when the said houses are not then aspected by him and happen to be maraka places in turn,
2. When Saturn transits the house occupied by the lord of the Decante of the 8 bhāva or when

he transits the navamsa of the 8th lord,

3. When Venus during transit is at a distance of 150 degrees to Moon or Lagna and is aspected by Saturn,
4. When Jupiter transits 6 or 8 houses or a rasi in trines to them,
5. When Sun posited in a movable rasi at birth, happens to transit the dwadasamasa rasi originally occupied by him or its trines,
6. When Moon transits the sign occupied by Sun at birth,
7. When Moon transits the sign containing the least number of benefic dots in Sarvashtakavarga table,
8. Note the navamsa rasi occupied by the lord of 8. When Sun passes in transit through a sign owned by the lord of 8 or its trines,
9. Add the longitudes of lords of 6, 8 and 12. Planet with the same longitude in the sign indicated by the addition is the death inflicting one,
10. Convert the longitudes of Sun and Rahu into minutes and multiply. Divide the product by 21600 and again by 12. Note the remainder. When Sun transits this sign or its trines,
11. When Moon transits 2, 4, 5, 8, 9 or 12 houses from its natal position in rasi or navamsa,
12. When Moon in transit passes through naidhana tara to his natal star,
13. During the time indicated by the sign occupied by the maraka lords transiting the maraka signs; specially so in the signs of the lord of the maraka dasa when another maraka transits the maraka signs, death of the native is sure to take place.

WAVERING MOON

MOON IN THE THIRD HOUSE

Third house indicates short journeys whereas the 9th house denotes long journeys. Younger brothers and sisters are shown by third house whereas the 11th house indicates elder brothers and sisters. Fourth house shows his own permanent place of residence and those who live with him when the third house denotes neighbours. One's inclination, memory, the inherent propensities of the mind and intellect are indicated by the 3rd house whereas 4th house shows regular study in the school and the 9th house, the College course, higher studies and research work. Mental strength, 'Pourusham' or courage and heroism are also attributed to the 3rd house. Postal, telegraph, correspondence, communication, telephone, teleprint, telegram, letters, travel by land, bus, tram, railway, etc., crossing rivers and lakes, short air travel, publicity, agency, etc. are indicated by the third house.

3rd house is the 12th to the 4th; it shows separation from mother or loss to mother.

3rd house being the 11th to the 5th, it indicates pleasure, profit, partner, permanent tie of friendship and prosperity to children. 3rd house being the 9th house to the 7th, if the chart belongs to a girl, then the husband will go on a long journey, have higher studies and come in contact with strangers etc. If the chart belongs to a male, the wife may go on a long journey.

3rd house is the 7th to the 5th and it indicates maraka to father, i.e., father's demise.

3rd house is the 5th to the 11th house and it shows birth of child to elder brother. Third house also indicates friends, children, sickness to the higher officer-appointing authority; children's friends; mother's secret enemy etc.

Moon in the third house makes one curious, active, inquisitive and always alert for new information. One will be versatile and will have a fund of knowledge. One will try to have new food for thought and fresh material for action. As there cannot be sufficient continuity or steadiness, one will be wavering and indecisive. Peace of mind is not promised, if it is afflicted.

One will have many changes of residence and profession; salesman, agent, representative, messenger, postal runner, postal department, shipping, and publicity may be the departments in which one can serve. Railway travelling ticket examiners, travel hostess, nurses in the transport department will have Moon in the third house.

Moon in 3 is favourable for the study of domestic science and for taking part in social welfare. He will be a good writer. If Moon forms good aspect with Mercury, he will learn Mathematics. But if it is squared by Mercury, he will learn history.

Moon in 3 afflicted by Saturn makes one funky. Moon well aspected by Mars gives courage. Moon in 3 gives opportunities to make frequent short journeys. One can contact strangers, enter into a contract and take any agency or become a representative of another. It shows that one will try to become popular by publicity. Moon in 3 will give pearl necklace or ear ornaments or bangles to the hands. Mars aspecting Moon in 3 gives ruby necklace. Venus blesses with diamond necklace. Moon in 3 aspected by Venus gives wrist-watch also.

Moon in 3 well aspected by Sun, gives transfer and promotion during their mutual Dasas and Bhukties. He may be a medical representative.

Moon in 3 well aspected by Mars gives boldness, ambition, generosity, over-liberality, ability to run fast and win prizes in sports, games, etc. Inspector of boilers, industry, etc. are born with this aspect.

Moon in 3 well aspected by Mercury gives quick grasp, tact, diplomacy, etc. He will be best fitted to be a propagandist or a salesman. He will be successful in business. He may have fortune through crossword or yarn or cotton, etc.

Moon in 3 well aspected by Jupiter gives reputation, recognition of service and realisation of ambition. He may be a politician and be ever popular, unless afflicted by any other planet. Venus forming good aspect gives refined tastes, competence in music, fine arts, painting, etc. If afflicted, Moon in 3, will give a peculiar tone. While speaking, it will be varying and funny to hear.

Moon in 3 with good aspect from Saturn makes one careful and cautious. One will be industrious and dutiful. Petrol, kerosene and mines may pay him satisfactorily. Moon in 3, generally, will not allow him to be steady or to take any decision quickly. He will be ever wavering.

Moon in 3 afflicted by any planet causes misunderstanding with those neighbours whose ruling planet will be the planet that afflicts Moon; e.g., if Mars afflicts Moon, the neighbour who is born on a Tuesday

or in Mrigasirisha, Chithrai or Dhanishta star or in Mesha or Vrischika Lagna or Rasi will quarrel. Other neighbours will not.

Moon in 3 afflicted by Mars, shows partition of patrimony among brothers due to dispute and dis-harmony. Moon in 3, afflicted by Sun, may show the anxious time to father when their periods jointly operate. Moon in 3, afflicted by lord of 4, portends distress to mother during their joint period. Moon in 3, afflicted by Jupiter, threatens loss of money by pick-pocketing, or while making a short journey or while returning home etc. The thief may be born in Punar-pushyam 4th pada, i.e., Jupiter's star in Moon's sign. Moon in 3, afflicted by Saturn, makes one indecisive and wavering. He will be a pessimist.

Moon in 3, well aspected by Venus and Jupiter, makes one popular and wealthy and he will receive the blessings of Goddess Lakshmi.

Moon in 3, with good aspect from Mercury, will enable him to receive the blessings from Goddess Saraswathi.

Moon in 3, with good aspect from Mars, shows that Goddess Durga will protect the child.

✓ Moon in 3, with good aspect from Saturn, denotes that Lord Krishna will be prayed by him.

ARE YOU RUNNING MOON PERIOD?

KNOW WHAT TO DO AND WHAT TO AVOID

Period: Moon runs its period for exactly ten years. All the nine planets have their sub-periods in the order given below. Each sub-period has its own duration and the total period of ten years is not divided equally among the nine planets.

In Moon's major period or *dasa* :—

Moon's sub-period or *Bhukthi* or *apahara* runs for ten months commencing from the day when Sun *dasa* ends and Moon *dasa* starts.

Mars sub-period otherwise called *Bhukti* follows that of the Moon and it operates for seven months; Rahu's sub-period runs for 1 year and six months; then Jupiter's (*Viyazhan*, *Guru* or *Brihaspathi*). *Bhukti* rules for 16 months. Saturn's *apahara* is for nineteen months. Mercury (or *Budha*) governs for seventeen months. *Kethu* has only seven months, while *Venus* rules for twenty months. The last sub-period is ruled by Sun for six months and thus all the nine planets cover the ten years, in the order mentioned above.

Quintessence of the Moon period :

By Nature : In infancy and youth, all the responses to play, pleasure, pain, thirst and hunger are attributed only to Moon. In adult age, they do continue but in a more controlled form. It has a strong bearing on one's emotion, behaviour, reaction and also personality. It does bring about some changes: gives hopes and one can be both happy and also sorrowful which will be frequently and alternatively experienced. Occasionally, both feelings will occur at the same moment.

Constitution : The native's constitution will become weaker and weaker and he may be susceptible to infectious diseases. Especially it has greater influence in the woman's life, as Moon rules the periodical functions and shows either good or indifferent health according to the connections which Moon has, or the aspects which Moon receives. One may have only minor ailment; but, due to his own imagination, it will appear big. His mental strain, dreams, and astral experiences, will tell upon his health. In infancy, it causes vomiting and poor digestion followed by diarrhoea. In adult age, however strong he may be, it will lessen the vitality and cause deficiency of Vitamin 'B'. Though he may have rest from active work, yet his mind will ever be engaged and he will not feel alright, or he will have actually some ailment or other continuously.

MENTAL : Moon is said to be the nearest magnetic planet. During moon's period, one will be amiable, courteous, easy going, and receptive, unlike the previous period of Sun when he would have been forceful with active emotions. The sign in which Moon was at the time of birth and the aspect which it receives have chief influence on his mental qualities.

If Moon had been occupying any of the cardinal signs—movable or *chara* signs—Aries, Cancer, Libra or Capricorn, it indicates an ambitious and active person with aversion to ordinary routine service; he will desire to be a pioneer or an organiser and he will be able to make headway against odds and obstacles. He will always be planning to cut out a line in life

for himself. He will have independent spirit.

But Moon in a fixed sign (stbira), i.e., Taurus, Leo, Scorpio or Aquarius, gives a stubborn, rigid, unyielding and unbending nature. He will be patient, steady, calm, economical, dogmatic and obstinate. He will be plodding, persevering, thoughtful, thrifty and reserved. He will care much for discipline. He will be a faithful servant, a reliable friend and an unrelenting foe. He will follow his own principles, contract certain habits in life, follow them strictly and expect others also to get into that groove.

If Moon was in a common sign (ubhaya), i.e., Gemini, Virgo, Sagittarius or Pisces, he will have a changeful nature. He will have no set purpose. He will be a versatile and subtle person, often inconstant and imitative. He will yield to other's advice or suggestions and obey implicitly others' orders. He will be quickly influenced by his surroundings. The society in which he moves will modify his frame of mind. His nature will be sensitive, his feeling acute and his character weak.

The *Waxing moon* with a good aspect from benefics makes one buoyant, jubilant and optimistic. He will ever be a 'Bull' in the speculative share market.

The *Waning moon* with evil aspect from malefics shows that the person will be wicked or cautious, gloomy, and pessimistic. He will be successful as a 'Bear' in the share market.

Moon, receiving good aspect from the Sun, gives a steady mind, a great liking to medicine or mechanical engineering; Mars contributes for courage and a go-ahead spirit. Mercury shows that he will have quick grasp, retentive power, reproductive ability and research mind, a great liking to mathematics and civil engineering. Jupiter's beneficial aspect produces a free and frank mind. He will be true and honest, dutiful and law abiding, jovial and humane. Bad aspect of Jupiter to Moon shows that he will care for false prestige, will be a member of a charitable

institution without doing charity to the deserved, will be inclined to waste money only when he may command some respect in a society or a club or in public life. Saturn gives the desire for seclusion; it gives a thoughtful mind and anxious disposition. Rahu and Kethu will cause worries and bodily fears. Uranus confers originality or eccentricity; he may be inclined to romance; he may be determined and arrogant. Neptune contributes for imitative faculty and taste for mystical subjects. He may have mediumistic powers. It is difficult to rely on such persons, having Moon and Neptune conjoined together, especially in his Ascendant.

Further, one born with Moon in the fiery signs, Aries, Leo or Sagittarius will have inspiration: if it is in earthy signs Taurus, Virgo or Capricorn, he will be worldly. If airy signs, Gemini, Libra and Aquarius are occupied by Moon, the native will be intelligent. But if watery signs Cancer, Scorpio and Pisces are occupied by Moon, during Moon dasa, he will be either psychic or emotional or both.

Mars and Saturn, forming evil aspect with Moon in the fiery and masculine signs, gives too much of independence. In a woman's chart it causes unwomanly freedom. But Venus, forming adverse aspect, will make one look untidy though actually he will waste money on luxuries. If it is in a lady's chart, she will have no mind to put on costly dress or look bright using the fragrant materials which are all supplied to her by her husband. But, whenever she is called, she will appear with the spoon on hand, smoke on the face, with uncombed stiff hair and with a big caste mark, threatening the partner, as though "Badhra Kalf" suddenly gives Darsan to him.

Thus the mind of a native gets modified by various reasons and therefore one has to study thoroughly and give his opinion.

What can one expect?

- (a) If Moon receives favourable aspect,
- (b) if it is not afflicted,

- (c) if it owns a beneficial house,
- (d) if it occupies favourable constellation, and
- (e) if it is not weak in strength.

1. There will be peace and pleasure at home. Happy celebrations, reunion, followed by birth of children, visit to relative's places and good health to all the members of the family. Moon contributes for happiness.

2. He will appear before the public and be popular; he will have many friends and will create opportunities to come in contact with the public, especially with youngsters and will command much respect from them.

3. He will try to hold public office and undertake various honorary posts. He will have much support especially from ladies.

4. He will be having more and more ambition (contentment is out of question) and he will stick on to his own ideals and expect his colleagues also to follow him.

5. Unusually he will take to drinks. He will have the mind to deal in liquids, and may get into service in water supply. He may deal in milk or dairy farm products, kerosene, petrol, mercury, liquid paraffin and such of those animate and inanimate objects found in the tank, river and sea may be dealt with by one during Moon's periods.

6. His service will be recognised and his name will be suggested for promotion. His employers will have high opinion of him and will be inclined towards the person who runs beneficial Moon's period and support him. Those who back him, up will be governed by Moon.

7. He will have satisfactory social success and will enjoy much popularity.

Whom to approach for success: Wait for advertisement and promptly apply. Approach the employer through family friends or through his domestic servants, and those with whom he will be associating freely. Do not go personally. You will not be able to satisfy him. You will

lack courage and confidence at the time of interview. You can approach those who deal in liquids or employed in Navy, Port Trust, etc. Shipping agents will be helpful. The mother, the nurse and the young children also will recommend and contribute for your success. Sailors, salesmen, frequent travellers, travelling agents, female officials, receptionists and those who run public conveyance may be of help. So you have to approach any of these people. They will help you because they will be governed by Moon; i.e., the ruling planet at the time of their birth will be Moon.

How to approach?

Naturally, you will be modest. You will have pleasing manners. But, you will be able to gain your objects through a mediator. The higher official will be sympathetic. He who recommends will be tactful and win the favour of the 'appointing' authority. If you are already employed, he will appeal to him that you are trying for a change, more for security in service or for higher income.

Therefore, whatever is to be said and done by you will be satisfactorily undertaken and finished by the mediator.

(Moon has no light of its own. It does good to the living beings on earth by taking light from the Sun and reflecting it on to the earth. You are the earth and Moon is the mediator.)

If you approach personally, gradually the employer will begin to mistake you, as though you dictate to him. It will slowly cause bad relationship.

If you want to fix up the marriage of your daughter with a bridegroom, for God's sake, if you run Moon's period, don't approach directly. Arrange a diplomatic gentleman to mediate when it will be well-settled. Otherwise, the alliance will fall through as you yourself will quickly drop it due to difference of opinion.

Those people, who will support you, may be mostly born on Mondays or in Cancer sign or in Rohini or Hastham or Sravanam. During Moon dasa, Saturn

sub-period, people born in Saturn's sign Capricorn and Moon's star *Sravanam* will mediate or it may be one born in Saturn's star *Pushyam* and in Moon's sign Cancer.

During *Moon dasa*, *Mercury sub-period*, *Ashlesha* star-governed by Mercury in Moon's sign or *Hastham* star ruled by Moon in Mercury's sign will influence and fulfil your desire when you run *Moon dasa*, *Venus Bhukti*. People born in *Rohini* star, ruled by Moon in Venus sign *Taurus*, will bring you success. If *Jupiter Bhukti* runs, he or she who helps you would have been born in *Punarvasu* 4th pada.

Thus one has to make a selection among the friends whom you have to approach to influence the authority. It may be that you do not observe these before you request one; but later, for academical interest, if you study, the abovementioned indications will be very true.

How to act or what to do?

Be frank. Be practical. Take all steps to safeguard your interests. Before taking any decision, consider your duties to the members of your family, the comforts for others at home and all family affairs. If anybody suggests to you something which you may be aware of already or which may be absolutely new to you, never reject it. Consider well. Take the advice.

If Moon receives good aspect from other planets, whomsoever you approach, their advice or influence or action will be to your advantage; so you need not exercise much caution.

But if Moon is afflicted by adverse aspect, the advice may appear to be advantageous to you, but it will prove to be harmful. The evil results will be experienced on later dates. Mars' bad aspect shows that you may have to incur heavy expenses. Mercury suggests that he who gives you hopes will be a cheat, and not straightforward and honest. Jupiter afflicting Moon is incapable of benefiting you; the convention or the rules to be followed will be against your interests. Though the person may make honest attempts and speak truth. He will say that his hands are

tied up and he is helpless. Venus, afflicting Moon, threatens that any lady or any one born on a Friday or in *Bharani* or *Pooram* or *Poorvashada* star or in *Taurus* or *Libra* *Lagna* or *Rasi* will do harm. (*Mandaraj's*—a lady—mischievous and *Rama's* fate go to forest.) Saturn afflicting Moon indicates that he whom you approach will be funky, will utter falsehood, will tire you out by allowing you to visit his place many times and finally he will absent himself at the time when his presence is needed.

What to avoid?

You have to avoid timidity and shyness. But be active. Gather courage. Make attempts with confidence. Shed your fear. Think twice before you act. Only Martians will act first, speak next and then think.

Precautionary measures to maintain good health: Generally digestion will be upset. For ladies, their monthly periods will be unsteady. In old age, there will be kidney and urinary troubles.

Moon, afflicted by Sun, causes eye trouble, and occasionally blindness also. (*Moon dasa* *Sun Bhukti*, eye-sight will be lost.) If Mars afflicts, catamenial disorders, epilepsy, violence in lunacy, colic pain, chicken pox (Saturn also afflicting small pox because Saturn shows pusturation. In chicken pox generally no pusturation. For small pox, there must be pusturation.)

Mercury afflicting Moon indicates paralysis, beriberi, apoplexy, worms, intestinal troubles, dyspepsia. Jupiter afflicting Moon causes tumours, and dropsy. Venus forming bad aspect with Moon causes throat trouble, diabetes, troubles in ovaries, breasts etc. Saturn shows asthma, pleurisy, bronchitis, tuberculosis, dull liver, poor digestion, jaundice, cough etc. Avoid chills. Hence, find out which planet afflicts Moon. During *Moon dasa* in the sub-period of the afflicting planet one will suffer from the ailment indicated by the adverse relative position of Moon and the other planet.

Prevention is better than cure. Preventive measures taken and immediate treat-

ment given will reduce the virulence. There will be modified reaction only.

Finance and Fortune: One can expect financial gain through ladies. The income will be varying, even, as Moon will be waxing and waning.

In service, there will be temporary promotion as well as reversion depending on the sub-periods.

In business, during beneficial sub-periods, there will be speedy turnover and larger profits, while during evil sub-periods there will be neither satisfactory business, nor the realisation of money that is locked up. But the creditors will bring in pressure, and bankers will disallow overdraft facilities.

Agriculturists can have larger yield due to satisfactory water-supply during the periods of those planets which form favourable aspect with Moon. But evil aspects threaten that the crops will fail. Jupiter shows floods; Saturn indicates Kisan trouble or damage caused to crops by rats, insects and locusts. Mars foretells that the rains will fail, the field will be dry and the crops will not thrive.

If you buy a cow, adverse aspect of Saturn delays conception and a few attempts by the veterinary department is necessary. It will milk less. Mars threatens that it will either kick or keep some reserve for the calf. The cow will be a stealthy one: Sun afflicting will give you a cow which cannot have any more calf. In Tamil it may be said that Saturn, is ஸுரு: Mars திருரு: Sun மலரு.

Those who desire to establish contracts with foreigners, enter into contract with them, have foreign aid or their collaboration. Moon dasa is very helpful especially during the beneficial planet's sub-periods. Agents and representatives must expand their business now. You can take 'Export Import' business and State Trading Corporation will help you to a great extent.

If you serve in the Navy, you may have to make frequent journeys. You can increase the number of friends and you will be benefited by such friendship.

Those, who work in Petrol companies, may wait till Jupiter or Venus sub-periods commence when your services will be recognised and you will have satisfactory increase in your emoluments and improvement in your status.

If you serve in automobiles, look for status during Mars, Jupiter's and Venus sub-periods. You will have very large circle of customers and friends. You will become very popular; salt merchants can mint money during beneficial sub-periods. Evil sub- threaten with loss and difficulties.

If you serve in Port Trust, look for promotion in sub-periods of Jupiter, Venus, or Sun as these three planets indicate Port Trust. Clerks and all those who are connected with transferable posts are under the aegis of the Moon. They will be posted in a place where there is plenty of water, milk, etc., during beneficial sub-periods. Evil planets will give transfer to a place as a punishment, where one cannot get even water. Saturn will post him in such a locality where there will be impermissible limit of 'Fluorine' in water.

Generally, Moon in its dasa, in the sub-period of beneficial planets, will offer peace, popularity, promotion, prosperity and pleasure.

If you serve in any cine line or if you are a musician or an actor, Moon will confer on you name, fame and reputation. It is likely that you will be honoured. You may receive title; you may be featured in the Newspapers and magazines. If you are an actress, you may give the block of your photo for Advertisement Agents and gain without any effort at all.

If you are attached to beverage and bar, be sure that you will have satisfactory increase in your income during the beneficial Moon's period. But if moon is afflicted by Saturn, Rahu or Kethu, you will have a change in the Institution. If you are running any hotel, restaurant or tea-stall; you can expect much support from the general public and you will have many friends, patronising your concern.

If you serve in a Textile department, transfer, promotion and prosperity will be during Mercury Bhukti as Moon and Mercury indicate textiles, yarn, etc.

If you deal in pump-sets or boilers, remember that Moon will improve your sales, if he receives good aspects. But if Moon is afflicted, you will switch over to some other business. Moon, Mars and Saturn indicate pump-sets. Mercury conjoined with any of them shows that you may be a boiler inspector or engineer.

You can make money by dealing in any of the goods mentioned above or serving in any of the departments governed by Moon only when Moon has any connection with the houses 2, 6 or 10.

Connection means: (a) It may be occupying either the second or the sixth or the tenth house;

(b) it may be in the *Constellation* ruled by the planet occupying any one of the three houses 2, 6 or 10 mentioned above; or

(c) it may be the *owner* of any of these three houses; or

(d) it may be in the constellation ruled by the lord of 2, 6 or 10;

(e) it may be conjoined with those lords and occupy any house;

(f) it may be aspected by any of the lords of the houses 2, 6 or 10 and occupy any house; or

(g) it may be aspected by the planet connected with houses 2, 6 or 10.

Journeys: Even though Moon owns the 4th sign of the Zodiac and the fourth house generally indicates permanent place of residence, yet Moon by nature favours (a) frequent travel, (b) overseas, and long journey. It may either be on pilgrimage or on business tour.

To leave your place either on a Monday, or in Rohini, Hastham or Sravanam star days and at the time when Cancer lagna is in the East, will be advantageous. Do not start on the days when Moon is in the 8th or 12th rasi to the position of Moon at the time of your birth, unless the Nakshathra

on that day is ruled by a benefic or a Rajayogadhipathi (lord of 1, 5, 9 or 10).

Who will be your real friend?

Whenever you run a dasa, and its lord is a benefic, you can have pleasure and benefit through those who are born in any of the following conditions; e.g.,

1. The Nakshathra in which (whomsoever be the lord of the dasa-) Moon was at the time of his birth; (e.g.),

(a) if one runs Sun's dasa, Moon has to occupy Karthikai, Uthram or Uthra-shada star;

(b) if one runs Moon's dasa, Moon will occupy Rohini, Hastham or Sravanam ruled by Moon;

(c) if Mars rules the dasa, Moon will be in the horoscope of the benefactor in Mrgaseerisham, Chithirai or Dhanishta star ruled by Mars;

(d) if Rahu rules the dasa, Moon will be occupying any one of the three stars governed by Rahu, i.e., Arudhra, Swathi or Sathabeesha star.

Thus one has to judge; or

2. The day of birth may be ruled by the dasa lord. Rahu and Kethu days earmarked for them. Therefore, those born on the days governed by the lord of the sign in which Rahu or Kethu was or on Sundays, will be good friends if Rahu and Kethu are benefics by occupation.

3. Those born in the signs ruled by dasa lord; or 4. by those in whose horoscope the dasa lord occupies the lagna or is conjoined with Moon or aspects Moon sign, lagna or lord of Lagna.

Now one may say that he is running Rahu dasa and his good friend is born in Arudhra while his enemy's Nakshathra is Sathabeesha and ask "How". If you ascertain, he will say that his lagna is Virgo-Kanni. Then, what he says is true. Because Arudhra is ruled by Rahu and it is in Gemini owned by Mercury who is not only the lord of Lagna, but also the Rajayogadhipathi. Hence, Rahu's star occupied by Moon in Gemini, Arudhra native, has to be friendly and helpful.

The native born in Sathabeesha star will have his Moon in Aquarius, governed by Saturn who is evil by owning the 6th house and Rahu in its period, during Saturn's sub-period has to cause trouble through one of those born in Sathabeesha star.

There is no wonder in it; nor is the rule incorrect.

During Moon dasa, note which sub-periods are beneficial and which bhukties will be disadvantageous. Accordingly, the birth of the person through whom you have benefits or face difficulties, can be ascertained. So before choosing a friend and entrusting your personal affairs to him, or before appointing a private secretary, or before nominating an auditor, or requesting an advocate, or engaging a surgeon or a physician, or consulting an astrologer or selecting an actor or actress it is advisable to see his or her birth chart and verify. If the Moon occupies the Nakshathara of the lord of 12, it is certain that either you lose money by their conduct or transaction or they will turn to be scoundrels, betraying you and putting you to untold difficulties. Though it is generally wise not to take anybody into confidence to the extent of allowing him to go through your personal files, or to know your private affairs, yet it is absolutely necessary to avoid the following persons and never entrust any important work to them.

1. To Mesha Lagna, Jupiter rules 12th house. If in your horoscope, Jupiter and Moon were to form evil aspect, if you are an Income-tax assessee, or if you have any litigation at court, or if you are a trustee in a temple and if by chance, oversight or absent-mindedness, knowingly or unknowingly, you have committed a mistake, the person born with Moon and Jupiter as his or her ruling planets would have been taken by you in service and during Moon dasa, Jupiter sub-period, due to difference of opinion, or his discontent, he may have to leave the service or he may even continue in service but land you into trouble, by giving information to authorities against your interest.

2. To Rishaba Lagna people, Mars is lord of 12. Those governed by Mars will

prove to be unreliable and dangerous during Moon dasa Mars Bhukti if at the time of your birth Moon was receiving bad aspect from Mars, or was conjoined with Mars. He will write anonymous petitions, by phone, give information, etc., to your opponents

There was a broker and commission agent. He had a personal assistant. During the time when the proprietor was negotiating, his assistant was going on giving information to the opponent and thereby his business was deteriorating. The personal assistant was born, having Mars as his ruling planet.

3. To Mithuna Lagna, Venus is lord of 12. Hence a few born with Venus as their ruling planet will do much harm to Mithuna Lagna natives.

A lawyer may have a clerk who is very clever and cunning. Whenever new clients visit the advocate's house, this clerk will present a list of cases which had been lost and for which this advocate appeared. He may recommend another advocate and direct him to his room. When you see the chart, the truth of astrology will be well established, as the clerk was having Venus as his ruling planet.

To Kataka (Cancer) lagna people, Mercury is the lord of 12. Therefore it is advisable not to have Mercurians in your concern as, one day or other, especially during Moon dasa, Mercury Bhukti, he will be the person to bring you misfortune.

If you are a contractor and if you send tender quotations confidentially to the proper authorities, your assistant, the Mercurian, will give this information to your competitors whereby they give a lower quotation and secure the contract; this will happen to you, if Moon and Mercury were forming evil aspect at the time of your birth.

To Simha Lagna-Leo, Moon is lord of 12. Hence it is advisable to strictly follow the principle that "Silence is golden" during Moon dasa. Further, people born with Moon as their ruling planet will either borrow from you and will not

return or you may be forced to invest on any project which will ultimately end in a loss; or he may be pocketing daily a little of your profit. You should not allow at the counter such persons born with Moon as their ruling planet, to sit, collect etc., especially in hotels, provision stores, shops, etc. Without the proprietor's knowledge, money will be knocked away by them especially, if Moon was in the 2nd house, in your horoscope.

To those born in Kanni-Virgo, Sun is lord of 12. Never trust people born with Sun as their ruling planet. Suppose your colleague, junior to you in your office, is given information by you, that a vacancy arises in the same concern or in another, with better emoluments, he will surely get the better post by using all influence, and you will come to know that world has both good and bad people. You will also understand that those, who have beneficial Sun, gain through them, whereas Sun as a malefic does harm through those, having Sun as their ruling planet.

People, born in Thulam-Libra, have Mercury as lord of 12. Even when you speak some family matters with people born under Mercury's influence, the latter will carry tales to the other false ones and bring in enmity, bride's party and the bridegroom. If you have engaged him as he will produce wrong private the collection for some even months and also between the proprietor and

People born in Scorpio-Vrischikam, will have Venus as lord of 12. The Venusian may be your partner in business. What a hell it would be, if he leaks out confidential matters to those who should never be given the information. This will happen if Moon and Venus would have definite evil aspect at the time of your birth.

People born in Sagittarius will have Mars as lord of 12. If you are a touring officer, and if your attendant is born with Mars as his ruling planet, be careful. Always he may purchase you tickets for a lower class and travel with you. He will

be friendly. But, because you are having Moon and Mars forming evil aspect, he will, when you run Moon Dasa, Mars Bhukti, complain to higher authorities and you may be put to shame and consequent troubles.

If your lagna is Capricorn, Jupiter is lord of 12. Therefore those, born with Jupiter as their ruling planet; will try to bring you ill-repute, by carrying false propaganda during your Jupiter's sub-period. The person may not be born in Sagittarius, or Pisces; nor in Punarvasu, Visakam or Poorattadhi; not on a Thursday; it is enough if his lagna or lord of Lagna is aspected by or conjoined with Jupiter. Even though Jupiterians are honest, dutiful, etc., they will be good to those to whom Jupiter is a benefic and he will act in such a way that Capricorn people will avoid his society and call him an unreliable person.

If your lagna is Kumbha - Aquarius, your lord of Lagna is also lord of 12. Hence your own actions will land you in trouble.

For Meena - Pisces, Saturnians - will do both good and evil as Saturn owns the 11th and the 12th houses.

Thus you have to note and safeguard your interests. People, who have done enough of meritorious deeds in the previous birth, will surely take advice from the astrologers, or knowingly or unknowingly avoid such individuals. Better to consult. Prevention is preferred.

Business Partners: If Moon has any connection with the 7th house, then one will have partners in business during Moon's period. They will have Moon as their ruling planets.

Generally younger people may join you. Ladies may lend their names and be financial partners.

If there are a few, who would like to become your partner in business, select such of those who are born in Cancer ascendant governed by Moon or in Moon's star or with Moon rising in the ascendant.

It will be advantageous if the position of your Moon is in 3, 11 or 5 and 9 to the position of Moon in the partner's chart.

Harmony or disharmony, fortune or misfortune depends on your own luck as indicated by your horoscope. If one feels sorry due to loss in business and attributes it to the ill-luck of the partner or if one claims that the fortune was due to his will, ability and push, astrology teaches that he is not correct; but everything takes place according to his destiny.

Marriage and Married life: The partners will be of proper age. They will be very accommodative and adjusting. There will be good understanding. They will lead happy and harmonious lives, provided Moon is a benefic to the native and it has any connection with the houses 2, 7 and 11.

- (a) It may occupy the 2nd, the 7th or the 11th house;
- (b) or it may be in the Nakshathra of the occupants in 2, 7 or 11.
- (c) or in any other manner connected with these houses, their occupants and their lords.

Then Moon will bless you with happy wedding with a pleasant wife during Moon's period.

Lucky colour: Grey; white; sea green is suggested by a few authors.

Lucky metal: Silver; platinum; nickel.

Lucky Gem: Pearl; white stones.

Lucky numbers: 2, 11, 20, 29, 38, 47, 56, etc.
7, 16, 25, 34, 43, 52, 61, etc.

Lucky day: Mondays; Rohini or Hastham or Sravanam.

Star days, i.e., on those days, Moon will be transiting in one of the three stars.

Lucky time: When Cancer rises in the East.

Lucky place: Your place of residence;

Your village or town.

Lucky direction: North West

Produce which will bring luck:

- Sugarcane, and sugar;
- Fruits and vegetables;
- Oils, ghee and liquids;
- Milk and curd;
- Cocoanuts and cabbage;
- Plantains and palm trees;
- Flowers and fish;
- Horses and cows;
- Silver and nickel;
- Salt and silvery coloured alloys;
- Horticulture and Agriculture.

Whom to pray:

Moon:	Goddess Parvathi
Moon & Mars	Kali—
Moon & Mercury	Saraswathi
Moon & Jupiter	Rajarajeswari Lalitha
Moon & Venus	Lakshmi
Moon & Saturn	Rasakreeda Bajan Radhakrishna Ranganatha
Moon & Rahu	Naga Pooja
Moon & Kethu	Vallabha Gana- pathi.

NO MORE DOUBTS

Question: (1) I saw you opening an account in a new branch of a Bank on your daughter's name. You were very anxious to have it done immediately after it was opened. Is the moment so auspicious.

Answer: *The successful Sign—Sagittarius:* By Kayeska

"I have my own doubts, daddy, you may not".

"No, no, I will get you, come on, tell me quickly what book you want."

"I want only one book. I don't want anything else. Daddy."

"Come on, it is getting late".

"I want only a *cheque book on this bank*."

"Wonderful girl, wait a minute. I know that today it is very auspicious to open a bank. Let me find out whether it is also auspicious to the customers. Yes, it is good to you also. I shall surely open an account in your name and also get a cheque book for you". So saying I took cash to open an account and I got in a car and rushed to the bank.

I opened an account at the auspicious time.

I was getting ready to attend a function in the town. I was about to start. My young daughter appeared before me with a sweet smile and began to fondle me. I could easily anticipate that she would be requiring something.

She enquired, "Daddy, are you going towards China Bazaar or near about?"

"No, I am not going there now. A big bank is opening its new branch this morning. I am invited. So I am rushing there now. But I may go late in the evening that side. Do you want anything? Any book?"

"Yes, yes, I want one book."

"Then, give me particulars, I shall get you, when I return home."

"Will you surely get me, daddy?"

"Certainly, if that is possible."

I returned home in the evening with her cheque book and presented it to her.

The clever girl being a Mercurian, had her own curiosity. She wanted to know whether the (time) that was said to be auspicious was beneficial to the bank or to the customer, or to both.

So, she asked me, "Can you explain how you call the time propitious. If so, to whom?"

My dear girl, it is not easy to elect an auspicious time promising prosperity to both bank and the customers. Anyhow, they have done it at a time, lucky enough to both.

Those who consult astrologers for fixing a time for marriage are given the most suitable moment which is auspicious, both to the husband and the wife. There are a few who do not take pains to consult and elect a time. Yet they celebrate the wedding as it suits their convenience and lead a very happy and harmonious life. If an astrologer erects a chart for the moment when the marriage was celebrated, it will show that they had celebrated it at a very propitious time.

Similarly, a few may commence a business at a lucky time after consulting astrology. The lucky people may or may not consult at all. Yet, their time of action would portray happiness and happiness alone. Planets will not allow such persons to undertake anything at wrong moment. I don't know whether or not, this bank had consulted any astrologer. But they had opened it at a very favourable and auspicious time.

In either of the business partner's chart, the lagna indicates the person and the 7th house indicates the partner. The time elected should suit both. Similarly, the time when an office is opened, should be favourable both to the officers and to the customers. It is not like opening a bookie's shop where they can make money only when those who bet, lose. Such enterprises will be started when Capricorn will be the Ascendant. Because, Saturn, the lord of the sign will benefit the proprietor by bringing about loss to the other.

But here note the horoscope erected for the moment at which the bank was opened.

Jup. 16°-53' Moon 11°-49'	Fortuna 2°-55'		Rahu 18°-32'
	Nirayana Rasi Chakram at 8 A.M. on Tuesday 24-12-1963 at 13°-05' N and 80°-15' E		
Saturn 25°-24' Ven. 7°-07'			Uranus (R) 16°-47'
Lagna 20°-22' Mer. 27°-00' Mars. 21°-01' Kethu 18°-32' Sun. 8°-16'		Nep. 23°-44' M.C. 6°-35'	

Rahu Venus	Fortuna	Neptune	Sun
	NAVAMSA		
			Saturn
Mercury Lagna Jupiter M.C.		Moon Mars	Kethu Uranus

Look, where the ascendant is. It is Sagittarius or Dhanus, a powerful sign, a dual and a positive one. It is ruled by Jupiter, the Greater Fortune.

The exact degree is 29° 22' in Dhanus. Therefore the lagna both in Rasi and in Navamsa will be Dhanus. Mahadeva, in Jathaka Tattva, says 'Vargothama Angae Va Chandree Subham'. So, smooth and prosperous life is assured. If either the Lagna or Moon sign were to be Vargothama one will be crowned with success.

Dhanus or Sagittarius is governed by Jupiter. It is in its own sign Pisces-Meena, fruitful and prosperous one. It is in Revathi Nakshatram and in Navamsa, Jupiter occupies Sagittarius.

The constellation lord is Mercury, owner of the 7th and the 10th houses. Therefore, expansion, soundness, vast improvement, rapid progress etc., are promised as lord of 1 is in the constellation of lord of 10 and is very strong. Luckily, Jupiter which was in retrograde motion all along, is now direct and blesses the officers of the Bank and their customers (indicated by the 7th house) with fortune, ever increasing deposits, whenever needed, very speedy arrangement for overdraft facilities, etc., Jupiter, lord of the Lagna, in the constellation of the lord of 7, Mercury, portrays peaceful and pleasant business and good understanding between the officers and customers. For customers, which is indicated by the 7th house, i.e., Gemini, Jupiter, lord of 10 was in the constellation of lord of 1 and 4 ensuring to them larger earnings, satisfactory savings, honour, reputation, etc.

Moon indicates the object of the Institution. Moon is lord of 8 in the 4th sign and in the 3rd Bhava-House. 7th house indicates customers. Hence 8th house shows the finance of the customers; 4th sign from Lagna will be the tenth from the customers' sign (7th), 3rd Bhava is the 9th house to the 7th. Consider the most beneficial disposition. Finance of the customers will be swelling; they will have the fortune to deposit more and more money very frequently and withdraw a lesser amount, so that there will be the addition of profit every month. All customers will have long life; they will continue to have their accounts, and, due to expansion of their business, will open many new accounts also under different heads.

All those who have transactions in an Institution opened in such an auspicious time, will have this guarantee. It does ~~mean~~ others who have accounts ~~may~~ not enjoy these. They can; let the auspicious time, when a thing is done, guarantees these results and gives courage and confidence both to the authorities and the customers. This is one of the advantages of knowing Astrology.

As Sagittarius is the 9th sign of the Zodiac, those who have connection with

foreigners or travellers, will be successful by having travellers' ticket, etc. Their transactions with strangers and foreigners will be fruitful. Foreign collaboration can be easily obtained. Being a dual sign, in due course, one has to deposit money in his name, son's accounts etc., as Jupiter, the lord of the sign, is the chief Governor for money and children.

Moon and Jupiter in conjunction, causing Gaja Kesari Yoga, shows popularity and prosperity.

Moon, in the constellation of Saturn, indicates that people dealing in mines and mine ~~or~~ ~~are~~ benefited. It would be profitable for even those who would like to have savings or recurring deposits, to have dealings with this Institution. As Saturn is lord of 2, fixed deposits will be received by the bank, and it will give various types of services to the customers. Saturn as lord of 3 indicates that the customers will have it repaid according to the agreed terms.

3rd house is for agreement, ~~contract~~, correspondence, assistance, etc. Moon, as lord of 2 to the 7th house, is in the constellation of lord of 3 (counted from Ascendant) Saturn, and in that, in the sub of Moon; the customers will satisfy the authorities, by mentioning the proper purpose for which they want to borrow and their capacity to repay loan easily, according to the agreed terms. As Saturn represents the money of the deceased, one will have confidence to nominate this bank, as a Trustee. It assures safety.

Mars, the lord of 5, in the ascendant, shows that musicians, share brokers, share dealers, jobbers, cinema theatre owners, actors and actresses, financiers for films, speculators, those employed in races etc., will have dealings with this institution as Mars is also the lord of 11 to 7th house, (other than the 6th); these people can have fortune by following their impulse to open an account in this Institution. Mars, being Bhoomi Karaka, and also lord of 12 to the Lagna, this bank will buy a plot, construct and own a strong building from the end of 1965, and the Manager of the Bank may shift to better quarters within a couple of months.

Sun in Lagna, as lord of 9, indicates that it will offer all facilities to purchase, use and encash travellers' cheques.

Venus occupying Saturn's sign in Rasi and in Navamsa, gives wisdom. It impresses on you that, only out of your earnings and savings, you have to waste on many luxuries. You do enjoy; you meet all pleasant expenses. Waste alone will be reduced. You will plan for spending less, and saving more. Also, silk clothes, hotel keepers, caterers, dealers

in luxury goods, glass, diamond, plastic, etc., will have transaction.

Thus it can be seen that any enterprise, begun in an auspicious moment, promises further advancement, fortune, peace and prosperity, both to the business people and their customers.

That is why, I immediately agreed to open an account for you and I have done it. Good luck to you. Good Luck. Have your cheque book.

NEECHA BHANGA RAJAYOGA

D. V. SUBBA RAO

Neecha bhanga rajayoga is a class by itself. It has been found in experience that this yoga excels any other Rajayoga except the Pancha maha purushayogas. Let us know how this yoga is caused. Authorities or Hindu astrology have defined this yoga as under. —

Jataka Parijata :—A planet in debilitation attains neecha bhanga (a) if the lord of the house where the neecha graha gets exalted is in a kendra or kona either to Lagna or Moon; (b) if the planet that gets exalted in the house where the neecha graha is posited is situated either in a kendra or kona to Lagna or Moon.

Phaladeepika :—A planet in debilitation gets neecha bhanga (a) if the lord of the house where he is debilitated or (b) if the planet who gets exalted in the same house or (c) if the lord of the exaltation house of the debilitated planet is posited either in a kendra or kona to Lagna or Moon.

Jatakamritasara :—A planet in debilitation gets neecha bhanga if the lord of the house where he is debilitated or the lord of the house of his exaltation is in a kendra or kona. Whether the kendras or konas referred to are from Lagna or Moon have not been specified.

Jatakabharana :—A planet in debilitation gets its debility cancelled if the lord of the house where he is exalted is in kendra. Here konas are omitted and it is not known if the kendras referred to are from Lagna or Moon.

Lagna Chandrika :—A planet in debilitation gets its debility cancelled if the lord of the debilitated house or its exaltation lord are posited in kendras or konas. Here also it has not been mentioned if the kendras or konas are from Lagna or Moon.

Jyotisharnava Ratnavali :—The neecha graha gets cancellation of its debility if the

debilitation occurs in 2, 3, 4, 9, 10 or 11 bhavas. These positions are said to be from Lagna only.

Jatakamritasara :—Neecha bhanga is certain if the neecha graha gets exalted in Navamsa.

Jataka Tatwa :—Neecha bhanga results if the debilitated planet is in his own navamsa or exalted in navamsa.

Vasishta, Atri and Parasara :—Neecha bhanga is caused if the debilitated planet is in conjunction with any exalted planet.

Vandhyagiri and Phaladeepika :—If the lord of the debilitated house or the lord of its house of exaltation are in a kendra to the debilitated planet.

Neecha bhanga results (a) if the lord of the house of debilitation is in his own house or in the house of the neecha graha's exaltation, (b) when the debilitated planet is aspected by the lord of the house of its debilitation.

To confer Rajayoga, the conditions prescribed are:—

- a. Rajayoga results if the lord of the house of debilitation aspects the debilitated planet,
- b. A Maha raja yoga results if such houses happen to be auspicious or when they be the own houses of the concerned planet. It has to be ensured that such houses are not their inimical houses and that the planet is not eclipsed. Another important factor is to ensure that such houses are not dustanas, i.e., 6, 8 or 12, before pronouncing neecha bhanga rajayoga.
- c. If the lagna happens to be a movable sign, the lord of the

navamsa of the debilitated planet should be in a kendra or kona to lagna.

- d. When the lagna is either a fixed or common sign, its lord should be posited in a movable navamsa.
- e. When the debilitated planet aspects the lagna rajayoga is caused.
- f. Debilitated planets in 3, 6, 8 or 11 houses aspecting lagna cause rajayoga.
- g. Debilitated Mars to Aquarius as lagna, debilitated Sun to Taurus as lagna, debilitated Jupiter to Simha as lagna, debilitated Saturn to Scorpio as lagna, cause rajayoga. (Here the aspects are as per Jaimini.)
- h. Debilitated Saturn to Aquarius as lagna, debilitated Mars to Taurus as lagna, debilitated Sun to Leo as lagna, debilitated Jupiter to Scorpio as lagna also cause rajayoga.
- j. Debilitated lords of 6 or 8 houses posited in 3 or 11 houses and aspecting lagna also cause rajayoga.
- k. The dasa of neecha graha confers rajayoga when aspected by a benefic.

	Saturn Rahu Moon	
Lagna		
Venus		
Sun Mer.	Mars	Jupiter

In the above chart, neecha bhanga has been secured by Saturn for the following reasons:

1. Mars, lord of the house of debilitation, is in 10 to lagna.

2. Sun whose exaltation house is that of Saturn's debilitation is in 9 to Moon.
3. Venus, lord of the house of exaltation of Saturn is in 10 to Moon.
4. Venus, his exaltation lord is in 10 to Saturn.
5. Saturn is debilitated in the 3rd house from lagna.
6. Mars, lord of the debilitation house, is in his own house.
7. Debilitated Saturn aspects Lagna (Jaimini aspect).
8. Saturn had attained many auspicious vargas in shodasavarga.

Another issue where conflicting opinions are held is whether the planet that secured neecha bhanga or the planet that is responsible for securing neecha bhanga is the yoga karaka. Undoubtedly the planet that secured neecha bhanga is the one that confers rajayoga. The planet that is responsible for causing neecha bhanga is the next in order and rajayoga results in the dasa of the planet that is responsible for causing neecha bhanga and in the antara of the planet that secured neecha bhanga. A debilitated planet, normally in its dasa and antaras, indicates meanness, helplessness, lack of confidence, fear, cruelty, obstructions and obstacles, incompetence and inefficiency. The results of the karakatwa of the planet and its bhavadhipatya are naturally adversely affected. There is a doubt whether the debilitated planet in the 6th house attaining neecha bhanga confers rajayoga. No doubt rajayoga is conferred but the evil nature of the debilitated planet persists. A planet that secures cancellation of its debility posited in kendras, konas, 8th or 11 houses confers benefic results. When the lord of the debilitation house happens to be a benefic by his position either from Moon or Lagna, he confers good results. Planets securing cancellation of their debility in 2 or 3 bhavas shed their malefic nature.

Let us consider how this yoga affects persons born in KUMBHA lagna the so-called mystical sign and rendered inauspicious by many eminent vyants. It is known

to readers that divergent opinions exist on the potentialities of this lagna.

Satyacharya declared kumbha as inauspicious. Yavanas asserted that dwadasamsa of kumbha is only inauspicious. Varahamihira did not give his verdict. Srutakirti agreed with Yavanas. Vishnugupta and Chanakya confirmed the views of Satyacharya. Vatsayana felt that kumbha dwadasamsa cannot be inauspicious as it occurs in every rasi. Jaimini declared that kumbha is as good as any other rasi. According to Varahamihira, Venus in 4, in his own rasi, Moon in 9, Saturn in 1, Mercury in 3 and Jupiter in 11 or position of Sun, Mercury, Jupiter, Mars, and Saturn in 1 or 3 or 11 houses confers Maharaja yoga.

Kumbha is formed by the last two quarters of Dhanishtha, 4 quarters of Satabhishta, and the first three quarters of Poorvabhadra. One special feature of persons born in Kumbha lagna is that they possess undaunted spirits in spite of the fact they invariably face too many obstacles even for very simple actions, face many ups and downs in life and yet they are happy. They are usually hasty, indiscriminate, disliked by kith and kin, and lose finances. Most of them are denied the pleasures of family life. Their actions tend to please persons in power and so are branded unwilling workers. Normally weak, they are attractive.

Jupiter, lord of 2 and 11, and Moon, lord of 6 are malefics. Mercury and Saturn are neutrals. Sun confers results commensurate with his position, and Venus is on outright benefic and a yoga karaka. Natives of Kumbha suffer miseries either being childless, or sickness of wife or enmity with children, or quarrels with partners in life. The Aquarians are a mixture of ego and non-ego, self and non-self, addicted to double talk and yet above the duals. They cannot be easily understood. Their opinions contradict actions. People dislike to join them but are attracted. Their life is a curious blend of various ideals and potentialities. Discontentment with worldly life is not uncommon. They are trusted friends and comrades in the life's

path. They fare well in public bodies, associations and establishments connected with democratic set-up. The sensitive points of the sign are:—

2 degree—drink, immorality, suicide; 4—astrology and painting; 7—music; 14—oratory; 18—astrology; 20—stage and acting; 7 to 13 and 25—asceticism; 29—insanity; 3 to 6, 10 and 29, 11, 16, 17 and 28—diseases.

Benefic aspects between Jupiter and Saturn indicate constructive power. Trine of Jupiter and Mercury to Saturn is good. Venus in 2 confers wealth, in 4 and 9 luck; in 7 while Sun and Saturn are in 9 a Maha-yoga; with Saturn in 10 is Amla yoga; in 11 an Adhi yoga. I shall deal with this Lagna in greater detail separately.

Below is the horoscope of a Minister who could achieve that position due to Neecha bhanga Raja yoga. Born on 28th July, 1909 at 8-31 P.M. his chart is as under:—

Mars Saturn		Rahu
Lagna		Sun Mercury
Rasi		Jupiter Venus

Balance of Mercury dasa at birth is 15 years 3 months and 18 days. As seen

from the chart, Moon and Saturn are the planets that attained neecha bhanga. Mars and Venus are responsible for the same in respect of Moon while Sun and Mars are responsible for Saturn. Mars, the lord of the house where Moon is posited is in trine to Moon and Venus, the lord of Moon's exaltation house is in a square to Moon and Lagna. Jupiter is in conjunction with Venus and he is the lord of the exaltation house of Venus. Thus a harmonious contact is established between Mars, Venus, Jupiter and Saturn. In addition, Lagna Adhi yoga, Gajakesari yoga, Amsa yoga and Parvatha yoga are present. Conjunction of lords of 2 and 9 is dhana yoga. Position of malefics, Saturn, Sun and Mercury in upachayas is good. Relation of lord of 6 to karaka of 7th bhava is not good. Rahu's position in a kendra of Venus, the yoga karaka, is highly beneficial. Mars in 2 is responsible for the natives' achievements as a lawyer. Moon, the neecha bhanga planet as lord of 6 in 10, indicates enemies in the professional field. Position of kalatra karaka Venus, as lord of 9, in 7, indicates wealth through wife, and his conjunction with Jupiter, the dhana karaka, stimulates the aspect. Lord of 8 to Atma karaka, being the dhana karaka, indicates heavy unavoidable expenses. Position of Sun in 10 to karakamsa lagna which happens to be the house of neecha bhanga Moon, indicates ministerial position in Moon dasa. Conjunction of lords of 5 and 7 confers Raja yoga in the later part of life. Following are the positions held by the native:—(a) President, District Board in Venus dasa, Saturn antara, (b) Elected as M.L.A in Venus dasa, Saturn and Ketu antaras, (c) Appointed as a Minister in Sun's dasa, Venus antara, (d) Minister for the second time in Venus dasa, Saturn antara which position he is still holding. As per the normal rules, his appointment as Minister in Sun's dasa, Venus antara is justified as yoga karaka Venus had elevated him to the ministerial position on the eve of commencement of Moon dasa. Obviously Moon had taken control of the horoscope right from the last antara of Venus in Sun's dasa with whom he is very well connected as defined above. The second

term of Ministership commenced in Saturn antara of Moon Dasa. It would be interesting to note that he had won an exciting election on 19th February, 1962 by a very narrow margin when speculations tossed heavily on either side till the final announcement was made. The swing came in from 17th February, 1962, the day Saturn's antara commenced. The candidate that opposed him was one again with a neecha bhanga raja yoga. Let us examine his horoscope. Born on 4th July, 1914 at 3-59 A.M. the planetary position at the time of birth was as under:—

		Lagna	Sun Saturn
Rahu			Mercury Venus
Jupiter			Mars Kethu

Balance of Jupiter dasa at the time of birth was 3 years 8 months and 12 days. Moon is again a neecha bhanga raja yoga planet in this horoscope but was in the 7th house. Jupiter, another neecha bhanga raja yoga planet, was in the 9th house. On the date of election he was running Venus dasa, Venus antara and Moon bhukti. In the above case it was Moon dasa, Saturn antara and Saturn bhukti. There is a cordial contact for Moon in the 10th with Saturn in the 3rd (Jaimini aspect). Moon

attained neecha bhanga in Rajya bhava and Saturn who is vargottama attained neecha bhanga in the 3rd house and that of Mars who is responsible for securing cancellation of debility to Moon; while the planet that is responsible to get Saturn free from debilitation was in 10th to Moon (Venus). Mars position is clear. Thus Moon and Saturn are rendered very strong. In the second horoscope the native was not running the neecha bhanga graha dasa. No doubt it was the time of the yoga karaka related to neecha bhanga Moon whose bhukti he was running. However, this position is obviously inferior to that of the position in the above horoscope.

In case Venus antara of his own dasa is to be fruitful, it goes without saying that the rest of the dasa would be useless, as Venus was in aslesha at the time of birth. Hence he should not do any good in his own antara. However the inherent strength

of Venus and Moon prevailed to a great extent and till 17th February, 1962, it was said to be almost certain that he would win the election. It is no surprise that he lost by a narrow margin to one with better and powerful raja yoga during the period, as predicted by the author of the article who advised him not to contest and waste his precious funds. His defeat after heavy expenses is a writing on the wall.

A comparative study of the two horoscopes reveal very many interesting aspects, but as it is not relevant to the subject under discussion, I refrain from getting into those details. The salient features and the strength of the planet that attained neecha bhanga raja yoga have been brought out in detail to establish that such planets are sure to tide over any obstacles and confer raja yoga of the highest order specially when such neecha bhanga occurs in the tenth bhava.

VIRGO—KANNI

By

ARUDHRA

(Modern Astronomical and Astrological Research Institute,
13, Brahmin Street, Saidapet, Madras-15.)

Virgo is the 6th sign of the Zodiac. (The first sign is Aries—Mesha; the second is Taurus—Rishaba; the third is Gemini—Mithuna; the fourth is Cancer—Kataka; the fifth is Leo—Simha; the sixth is Virgo—Kanni and so on.)

This sign is also 30° in Longitude, and it extends from the 150th degree from Vernal Equinox (Aries—Mesha 0 degree) to the 180th degree.

Uthirapalguni second, third and the fourth padas, Hastham and Chithrai first and the second padas are contained in this sign, Virgo (Kanni).

According to Sayana system, nowadays, the Sun enters the sign Virgo (the Virgin) approximately on the 22nd August, and passes through the sign for over 30 days, and leaves it on 22nd September. If the date of birth of a person falls within these dates, he is called a *Virgoan*, according to Sayana system. Sun moves just less than a degree a day in this sign. Therefore, the date of birth will indicate the approximate degree occupied by Sun in this sign at the time of one's birth. For example, if one was born on 25th August any year, the Sun will be in the 3rd degree in Virgo according to Sayana system. If the birth would be on 20th September, the Sun will be marked at 28 degrees Virgo.

According to Nirayana system, Sun will throughout Kaliyuga, enter into Virgo—Kanni, on 17th September and after transiting the two and a quarter stars (nakshatras or constellations) found in this sign, will pass on to the next sign LIBRA—THULAM on 16th October. All those who are born between these dates will have their Sun marked in Virgo (Kanni), according to Nirayana system.

Therefore, according to Sayana system, people born between 22nd August and 22nd September, will have the Sun in Virgo, whereas, according to Nirayana system, people born between 17th September and 16th October any year will have their Sun in Virgo—Kanni.

Virgo is the sixth sign of the Zodiac, whereas it is the second sign of the Zodiac ruled by Mercury; also the second earthy sign. Just like the first sign of Mercury, Gemini is a common sign, and so also this sign, Virgo, is another common sign. It is a negative, feminine, barren, cold, dry, nocturnal and northern sign, and it is of long ascension.

Mercury is not only the ruler of this sign, but he gets exalted here. Venus, though a good friend of Mercury, gets debilitated in Virgo. Whenever Sun, Moon, Mars and Jupiter occupy this sign, they are said to be in enemy's camp. Saturn alone is in friend's quarters when it is in Virgo.

Mercury's exaltation in this sign and Venus' debilitation here confirm that Mercurians prefer wisdom to wealth. Goddess Lakshmi and Goddess Saraswathi do not live together in one place. Both cannot co-exist. Spiritual wealth and knowledge which Saraswathi bestows on us, is inexhaustible, and no devil can rob it. The possessor never becomes a bankrupt. It is ever full and, if at all, it improves. This wisdom leads one to immortality, whereas material wealth may lead to immorality.

Virgo is traditionally symbolised as Virgin—Mary. In the ancient Zodiac, it was symbolised as a Virgin, lying prostrate; in one of her hands, she holds Spica—seed—wheat and in the other a stem of a tree.

The capital of France still retains its name of Paris (Paras-Isis under the protection of Isis-Virgo). Its great Cathedral bears the name NOTRE DAME (Our Lady).

Leò French says "Light dawns on chaos, whenever a son of Mercury is born. He should be cherished and forfended from any materialising or coarsening influence, so far as possible, during childhood. The Virgo child shares this sensitiveness, though the expression thereof is somewhat different, the earthy element of Virgo, giving the native reserve and diffidence, whereas the aerial essence of Gemini in its true, pristine birth nature is free from the curse of matter, self-consciousness. Gemini is timid and elusive, evasive in decadence. Virgo is shy and self-conscious—Mercury swathed in swaddling-clothes of earth.

Gemini will deceive if terrorised. Virgo closes its petals and appears blind and dumb, awaiting the touch of Gold or Silver light, that opens the flower, drawing it up to the light-sacred nourishment of the soul away from the earth, Virgo's place of exile, though often loved as a second home to enlightened Virgo infant egos."

Even though Mercury may occupy its own sign, yet so different is Virgo from the other sign, Gemini, and so different is its effect on everything with which it comes in contact, that the casual astrological observer would not recognise the planet as the same Budha-Mercury.

Physical Features: The native will be tall with a slender body. He or she will have dark hair and eyes. The eyebrows will be curved with much of hair growth. The voice will be thin and even shrill. Ever they will walk quickly, and never they have pot-belly. ~~Due to their activity,~~ they often appear younger than their actual age. The nose will be straight, indicating that they are very clever, not necessarily cunning. The forehead near the eyebrows will be pronounced. The expression of their eyes will be honest and frank. Among the Westerners, most of the Virgo-borns will have beautiful blue eyes. (Venus is the ruler of the second sign.)

Characteristics: Virgo is ruled by constant Mercury. So change is always desired. Most of you are for ever changing your residence, or your jobs. Of all the people born in the 12 signs of the Zodiac, you, the Virgoan are very conscientious and very capable of handling even unfavourable conditions. You will mark time and get prepared to handle it wisely. You have the commercial instinct well-ingrained. You will be very brisk and very quick in your work, just like the fast moving planet Mercury. You will be expecting others to be brief in their statements and representation. You will expect others to be businesslike. But when once you begin to talk or explain, you pay your attention upon the details of things. You add such wealth of detail which will make others feel boring and vexed. You will rarely come to the point quickly. If you are a drawing-master, you will include it in all the conceivable details.

There is nothing haphazard and superficial about you. You are thorough and methodical. Your first thought and action will be most sensible and rational. You are practical and discriminative. You may be careful but you are severely critical. Self-pity is one of your vices. You will beat your best if you are an Inspector or Auditor or Income-Tax officer or examiner as you are very good and quick at finding fault with others. You are capable of picking on weak spots in the techniques of others. If you are having Mercury weak in your horoscope, you are prone to dissatisfaction and if the task is a difficult one, you will give it up in despair. But if your Mercury is strong, you will go-a-head, and try to do perfectly whatever you undertake. You will be a genius. You will analyse, dissect and go deep into the matter. If you are given a machine, you will break it down into its component parts to see how it functions and you have also the ability to reassemble it and allow it to run.

Being an earthy sign, you will have the desire to save money. You will be prudent and always will keep a small sum

of money that none is aware of. If you travel, you will keep a part of your cash in one pocket, something in the other, and safely some more amount, with the idea of not spending it, in your suit case.

You will be so over-careful that you will not mind to reopen the cover written by you, just before posting it. You will verify once, twice and even thrice before you finish a work. Thus, you will avoid mistakes.

If you have to consult a doctor, you will sit down for hours, write a big history-sheet about your constitution to the last detail, try to recollect your old complaints, and present a big file to the doctor, even though actually your complaint is very simple.

You are remarkable for keeping everything in its place properly and orderly. You will maintain accounts and the day-book with all details. You will keep personal files and all documents in perfect condition. Unfortunately, your subordinates or servants at home will not be born in Virgo and will not be equally brisk and brilliant. So to the extent to which you expect them, they can never keep up and satisfy you.

Virgo, being a feminine and earthy sign, you will take delight in horticulture, agriculture, gardening, etc. It is said that Virgo, Ceres (Demeter) is the goddess of agriculture and of legislation and social order.

You are governed much by intellect as Mercury gets exalted here. You will not be sympathetic, as Venus gets debilitated in this sign. Who? But you may be cynical and sceptical of those who are not scientifically demonstrable like the Science of Astrology.

Saturn, aspecting Virgo, will make you lazy, and fond of taking things easy. But you derive pleasure in driving others and be very masterful with subordinates. If you think for a minute, you will realise that such actions invariably cause enmities of a lasting nature. If you correct yourself, and try to make good friendship with them, you will treat them well, and

you will also be reciprocally respected by them. Being a common sign, there will be changes in your environments, and you will form new associations and friendship.

Mercury shows that you will be fond of studying science, and particularly about medicine, food, diet, hygiene, etc., being the sixth sign of the Zodiac. Mercury as lord of the 6th sign, called the hospital of the Zodiac, indicates that if ever you fall ill, you lack the will-power and will often brood over the disease, imagine too much, never cheer yourself up, to get you out of the clutches of your illness. Thus, you will be ruining your health. Further, you will always look for sympathy. But at the time when you are healthy, if anybody falls ill, you will prove to be a very good nurse.

Neptune in Virgo gives a scheming mind. No one can know one's character thoroughly. One may be a deceptive individual and be interested in illicit pleasure. Neptune in the exact cusp produces thieves, cunning, and most diplomatic scoundrels. Uranus in Virgo Ascendant, makes one clever, learned and versatile. You may be employed as a teacher or a writer, or a superintendent, or an excise officer.

Uranus always offers a research mind. Virgo gives analytical nature. Hence, many research scholars are born in Virgo, having good aspect with Uranus. Great musicians, statisticians, journalists, and scientists are also born under such favourable positions.

If Saturn were to be in your Ascendant in Virgo, your disposition will be melancholic. You will be slow to get irritated, but you retain the anger for a long period. You will be studious, reserved and determined. You are painstaking, and you will become a scholar. Whenever you read a newspaper, you will, first of all, see only the "obituary" column as Saturn is the chief governor for longevity; also if your relatives or friends come to your place after a long interval, you will furnish them with a list of those who passed away in their absence.

Jupiter, occupying Virgo Ascendant at the time of your birth, offers you ambition for higher studies. You will find pleasure in self-boasting. In your profession, you will be popular and clever. You will be able to handle any situation peacefully and satisfactorily. People who are successful professors, printers, publishers, lawyers, agriculturists, auditors, gardeners, and civil engineers are born with Jupiter in the Ascendant Virgo. They will be level-headed and calm. Late marriage is also indicated by Jupiter in the Ascendant, Virgo-Kanni.

Mars in this sign, in the Ascendant, offers hasty disposition. You will be proud and headstrong. You may be energetic and capable, but not affable. You will be very busy always, and you expect your servants to be equally active and intelligent. You will not mind passing caustic remarks, and easily offending the servants. Due to your rash action, you may meet with accidents or pick up quarrels, or get involved in any litigation.

Sun in Virgo, i.e., people born when Sun was rising in the east in the sign Virgo, will be ingenious and not ambitious. They will be self-centered. They are very severe with all those who act against their interest. If you have Sun in such a position, you will have the desire to be singing, or having pleasant recreations which will keep you ever cheerful. You will be modest, thoughtful and serious. You will be industrious and keen on acquiring knowledge. You are a good reasoner. You will have a good command of language. You have endurance and, though short-tempered, you will avoid litigation and quarrel. You will prefer arbitration. You will love order, art and literature. Even if you have to face difficulties, you will not be discouraged; you will handle the situation properly, and ~~get over them by your own efforts.~~ You will have good fore-thought; therefore you are cautious and careful. You may have the desire to have wealth, but the pity is that you cannot acquire wealth easily. You may be interested in hygiene and serve in the Public Health Depart-

ment as Health Officer or Sanitary Inspector, or Health Visitor, etc.

Venus in Virgo (Ascendant at the time of birth) offers ingenuity. You will be a good speaker. But Venus is unfortunate in one's undertakings. The disposition will be subtle and cunning. One can take care of one's own interests. If Venus receives good aspects, one will take special care to dress properly, whereas, when afflicted, he will be careless even about his dress and appearance. Venus endows you with a quiet nature, and deep sympathy. There may be delay, and disappointment in love affairs: At least, you will find your partner, always disagreeing with you, especially when Venus is afflicted. If you say that the Sun rises in the east, she will disagree, and argue that it rises some months in the south, and some months in the north. She will have the mind to say "NO", when you mention "Yes" to a question. Therefore, if you want to be successful, you have to act wisely. Suppose you have the desire to send your children to the cinema or circus, never mention to your wife that you have no objection to send them. But you tell your children confidentially, "I will simply argue as though going to cinema is not advisable, etc." then, the mother will interfere and say "No, No, you must send them. When are they to enjoy? They must go". You, my children, know that I am ever approving of your suggestions, and am always trying to please you all. You also know that your mother will invariably act against what I say". Thus, whenever a thing is to be done, simply show that you are not favourably inclined; then you can fulfil your desire. A person, having Jupiter forming good aspect with Venus, will conduct himself as mentioned above. Some persons may have secret connections with invalids, or employee, or a medical attendant. If one reads the newspaper, one will first of all see the matrimonial column, even though he or she is already married. People with Sun will look to the speculation column, and with Mercury will read from the first line to the last one without leaving any item.

Mercury in Virgo offers ambition which

will be generally lacking; it quickens the intellect. The native will have analytical study of all the subjects. He will be inventive, intuitive, prudent, and perceptive. He may be a good scholar, and linguist. He will be a well-informed and wide-awake worker. He will be a very good writer, capable of furnishing all details. He will be mostly critical, and sceptical. He will never be convinced, unless he sees, knows, and understands. Mercurians are in general like that, and especially, those born in Ashlesha star, ruled by Mercury in Cancer sign, and Hastham star, Moon's star in Virgo ruled by Mercury. It offers taste for mathematics, accounts, auditing, engineering, hygiene, prophylactics, first aid, nursing, and chemistry.

Moon in Virgo in the Ascendant, makes one ingenious. He may be both clever and cunning. He will have good mental ability, quick reception, strong memory, and very good reproductive ability. He will be capable of following any intellectual pursuit. There will be the desire to learn science in general and things occult. He may try to have success in clairvoyance and in intuitive faculty. He will be quiet and due to his talents, merit and virtue, he will earn his way through his ability. He will have fertile imagination, a liking to have changes, often travelling or doing research and investigating. Though he may appear to be reserved, he will have many friends, especially of the opposite sex. Usually the person, having Moon here, has secret sorrows through marriage. He is always precise in ideas, and neat and orderly in method. He will be a good and trustworthy servant, and will have larger earnings through those who serve under him. He may get employed in educational department, engineering, auditing or textile. One who has good bank position and can finance to any enterprise, will select him, having Moon in Virgo, as the native's advice will be to his advantage. He has to consider himself fortunate if the native assists him. The native will study literature and will be a teacher. He may have a stationery shop, or may deal in drugs or confectionary.

Thus, the planet occupying this sign, modifies the disposition, the desire and the characteristics of the native.

Characteristics to be corrected: The native's nature is to be very chatty. He will be very analytical, and in conversation, will give lengthy description, including all meticulous details which will be boring to others. He will be restless till he passes his remark, and pass criticism on others' faults, and idiosyncrasies. Even the members of his family will not relish, or appreciate his comments and criticism. He will have to avoid too much analysis over even minor things. He should not have nervousness and self-doubt. Even though he may be intelligent and have quick perception, he will really need steadiness in going after what he wants. He should avoid as much as possible, his changeability, when alone he can achieve the cherished goal. He should not proceed to another work, unless the earlier one is completed. He should not ask for everyone's advice about a situation, and get so confused, and uncertain that finally nothing is accomplished. He is himself a good judge, and an intelligent person. Why he should seek other's advice, is not known. Especially, when he consults a doctor or an astrologer, he should pin his faith on one, and take his advice. If he consults many, he will be confused. He should stick always to a single person's advice which will be the best. So, he should make the selection of the person whom he intends to consult. He should develop true consistency of purpose. He should learn to forget other's mistakes and forgive them for their faults. He should not have long-sustained resentment.

Health: You are normally a temperate person. You live sensibly. So you enjoy robust health with long life and healthy old age. When you are young, you will be very active, and will appear always much younger due to your activity. Also, you are always very particular about your diet. Hence, you do not fall ill often. But, planets, afflicting your Ascendant, will cause digestive and intestinal troubles. Generally, people, having male-

fics in Virgo, suffer from dysentery, typhoid, and sprue during their periods. Malefics in Virgo suggest that you need plenty of rest and calm surroundings. You must have lots of exercise, especially when your Ascendant is afflicted. Your weak points physically are your nervous system and your stomach. Both are sensitive. Hence, if you include much of Vitamin B in your diet, you can avoid these troubles, have regular meals. Also try to have balanced diet. Illness may be very minor. But, by your imagination, you exaggerate it and make yourself unhappy. As Virgo-borns have Saturn as lord of 6 and Mars as lord of 8, it is observed that they will have minor injuries very often, and it is likely that they meet with accidents. Hence, do not be rash. Be cautious and careful.

As Virgo indicates abdomen and bowels, and as it is ruled by Mercury which has influence over the nervous system, disorders of the bowels react on the mental condition. Further, disturbed mental status, business as well as domestic worries reflect adversely on the bowels. Hypochondria is indicated by this sign. The functions of Virgo are absorption, assimilation, selection and utilisation. Its action is Chylifactive. Vegetarian diet, well-proportioned, is preferred. Avoid worries, discontentment, irritability, and short temper. Normally, you will have few temptations for excess. High living, and deep drinking are also to be avoided. Be on guard against gall-stones. Avoid alcohol. But you will always remember "An apple a day, will keep the doctor away".

Finance and Profession: As you possess a sound commercial instinct, you are normally careful about your money. You have the great desire to become rich and hence, you are very conscious about the value of money. You do not usually come by fortune and much of wealth. You will work hard, and the remuneration will not be satisfactory, as lord of 6 is Saturn. Investments also will not prove to be good, as the returns will be poor. You may have many ups and downs. It

is only through your own talent and hard work, that you will be able to come to the top.

Sun, forming good aspect with lord of 2 or 6 or 10 in Virgo, indicates that you may be a successful medical officer. You may work in the Medical or Public Health department. Also, you can get into Government service in Engineering Auditing, Teaching, etc. Mars also, forming good aspect, denotes that one can have his or her own nursing home, or deal in scientific instruments, appliances, etc.

Moon, forming good aspect with lord of 2 or 6 or 10 in Virgo, shows that one may be employed in the Engineering or Accounts department, in Shipping, Port Trust or Navy, or in those concerns dealing in liquids, like petrol, mercury etc. Also it is shown that one may be serving in the Textile department. Inks, inkstands, pens may be manufactured.

Mars, forming good aspects with lord of 2 or 6 or 10, suggests that you may interest yourself in the Press, printing, editing, publishing, writing, or serve as a clerk in any industry or in the Defence department; be a surgeon or independent auditor or one working in the Military accounts, or be a mechanical engineer or a military engineer. It is also likely that you may serve in the expansion of plants for steel, fertiliser, agricultural implements, etc. If Mars is also afflicted, one will amass wealth by black-market or by committing theft or robbery.

A warning to such people is necessary. A few of your servants may have venomous tongue, and be doing propaganda of false libels. Somehow, they will manage to have confidential information from their friends in their unguarded moments, and be going on exploiting the friends who have to give money, simply to please such undesirable persons. Otherwise, you will get into trouble. Therefore, it is advisable to scrutinise the horoscope of at least the Private Secretary, so that you can avoid such troubles later, when Mars and Mercury conjointly operate. They will have

the courage even to come to the court, and give witness against you. It is a pleasure for such persons to turn hostile and spoil you and similar higher officials, if Mars forms disharmonious aspect with Mercury.

Mercury, forming good aspect, shows that you will be a broker, book-keeper, accountant, teacher, lawyer, or pharmacist. You may be the author of many books. You may become a good journalist. You may be an interpreter, Registrar or letter carrier. You will have the desire to study all problems in minute details, and solve them in your own way, as you are good on devices and systems. As a lawyer, you will be successful in cross-examination.

Jupiter, forming good aspect with the lords of 2, 6 or 10 in Virgo, indicates that you may have literary, scientific, or any other intellectual pursuit. You may be a publisher, editor, or a journalist. Religion, law, insurance, investment, or speculation, may also be your profession. You may work in Religious Endowment Board or temple or church, in law courts, banks, etc. It is likely that you will work in any embassy, or go out as an ambassador.

Venus, forming good aspect, shows that you will be a good musician, actor, painter, or artist. You may be engaged in making toilet accessories, manufacturing women clothing, etc. You may deal in all articles needed for personal adornment. Confectioners, caterers, bakers, restaurant keepers and perfumery dealers are also born in Virgo, having favourable aspect from Venus, or when it occupied Virgo at the time of birth, as Venus is lord of 2 indicating self-acquisition.

Saturn (lord of 6), forming beneficial aspect with Venus, lord of 2, with Mercury, lord of 10, in Virgo, or when Saturn was in Virgo at the time of birth, one will have competence in mathematics, statistics, accounts, physics, dynamics, etc. You will serve in mines, or engineering department. You may engage in exporting mine ore. You may hold responsible posts and positions of trust. As you will be industrious and methodical, you will

thrive in business. You are likely to serve in the Finger Print Office, if Mars also aspects, as Mars indicates Police and Crime.

Uranus indicates that one may serve in the railway or electricity or election, or nutrition research departments. Jupiter, forming strong beneficial aspects, will offer the native Finance Minister's post, and not Revenue Minister's post, as the latter is to collect money to the Government, whereas the former is to spend away, and also to borrow, whenever needed. Virgo, being the sixth sign of the Zodiac, and as the 6th house shows debts and dispute, he will be the minister for elections, or be serving in the Election department. A few may work in the Aviation department or Census office.

Neptune, forming good aspect with lord of 2, 6 or 10 in the Ascendant Virgo, indicates that you may serve in big industries, tea estates, export and import departments or in shipping.

People born in Virgo should make a correct choice of their financier or partner in business. He should be some one with much of enthusiasm and also courage. He will use short-cut methods; you will worry about minor details, and get discouraged now and then. But, the partner should be one who always cheers you up and makes the best use of your intelligence. Generally, you become a slave to your work; you are also a hard taskmaster. You will prefer to be left alone to carry out your work in a quiet place peacefully.

Domestic Environments: Wander-lust is your nature. Change of your residence, more to have a change in the scenery and in the neighbourhood, will be more frequent just like the Cancer-borns.

You want to keep everything in your home in order. You expect your people to work methodically, and put up a show when guests are invited. You will insist on your people to keep everything neat saying, "A place for everything and everything in its place". You prefer to entertain others in your home, but you do not return their visits. As Jupiter is the lord of the fourth

house, you will always be lucky in procuring houses to live in. Even, when you invest on buildings, you will be able to purchase them in a good locality. The value of the property will shoot up during the period of Jupiter. But Saturn, being the lord of the 5th and 6th houses, and Mars the lord of the 8th house, they show that there may be losses in investments during the joint periods of Saturn and Mars. It is advisable for Virgoans to dispose their holdings during their Jupiter periods, when the price will be higher, whether it is investment or shares or lands. Otherwise, a necessity will arise during the following Saturn's period, and it will be disposed of at a loss, and you will be depressed.

Jupiter is not only lord of 4th but also the lord of the 7th house. Hence, your partner in life will be God-fearing, religious, law abiding and true. Therefore you will have a peaceful and pleasant domestic life.

Friends and benefactors: You have your own peculiarities. You prefer only intelligent people who have a good future. You will have a great mind to offer your assistance only to them. The defect in you is that you expect them to say "Thanks," before you actually render your help, and also gain a "Thanks", after you have done it. You expect them to mention in many words that they want and appreciate your friendship. Normally, you do not mix with all people. You make your choice. You feel delicate to approach strangers for any help you need. You want friends and you cannot do anything for them with pleasure, unless they recognise, approve and appreciate. You need friends more for this purpose. Just as you have the desire to change residence, etc., so also you will form friendship with new persons. 11th house indicates benefactors. 11th house is ruled by Moon which is also inconstant. People born on Mondays, Rohini, Hastham and Sravana star days or in Cancer, will be good friends, indeed.

Romance and marriage: You have your own ideals. To find one suiting to your taste is difficult. Therefore, there will be long delay in choosing one to measure up

to your ideal, as everything must be perfect, as far as you are concerned. It is likely that, in the first few cases, you will be disappointed. Whenever you desire to make a selection, you attach more value to intelligence than to the pleasure in romance. Further, you are often shy, and do not demonstrate your affection. You should not be so touchy. For happy life with wife, to some extent, you should give expression to your affection. You should remember that love demands good understanding, and it cannot stand any criticism. Your temperament is to find fault with others. *That, you must give up.* Just as you expect others to appreciate your assistance or intelligence so also, whether the person, whom you love, is equally intelligent or not, you have to simply admire her beauty (even though she is not very fair) and her company and give expression to it. Virgoans are rarely passionate. By conversation, at least, they should keep the partner cheerful, and also get such books for her to read.

A male born in Virgo will lead the married life, more on partnership basis, as though it is a business or as a part of the social scheme. That is why many people, born in Virgo, postpone their time of marriage, and prefer to be a bachelor for a long time. Your desire is more to be studious, and to be doing research work in a peaceful atmosphere. But, when once you get married, you make all provision for your wife, and the other members of your family. It is likely that you may be often complaining about your health which you should avoid. As Mercury rules this sign, you have a nervous active manner. You will consider the nervous tensions as actual symptoms of some illness, and you not only worry within yourself, but cause more worry to your partner and others. Luckily, the partner's ruling planet will be Venus, lord of 2, or Jupiter, lord of the 7th house, or Moon, lord of the 11th house. As all the three are benefics by nature, and give fertile imagination to the partner, she will be able to understand you properly, and conduct herself wisely, giving always encouragement to you, whenever you need it. It is the good nature of your wife, i.e., adjustability, accommodation and good

understanding that will be responsible for our happy life with such a dutiful wife.

Virgo-borns will be peevish and occasionally mean; they are so thrifty that their husbands will become economical within a few years after marriage. Her idea of marriage is legal partnership, and that she should live in a business-like way. She will run the home in a very regulated routine manner, without herself wasting anything, nor allowing others to waste, or be extravagant. She will attend to her duties quickly and most satisfactorily. But, she will not be able to please her husband in spiritual life, or in keeping pleasant company. She will cling to the idea that sex is mean, base and one day or other troublesome. A clever partner has to change her frame of mind, and should not mistake her.

Children: People born in Virgo will have limited number of children, as the 5th house is ruled by Saturn. Also, they may have to spend much upon them for their studies, etc., necessitating the Virgoans to borrow, as lord of 5 is also lord of 6. It is also indicated that the Virgo people may borrow, and invest on landed properties which will be later enjoyed by their children. Even though you may not show your affection to them, yet you will never fail in your duty to train them, give proper education, and make them fit enough to hold any post admirably in their official career. Among your children, the eldest will be plodding, persevering, patiently working and prospering, whereas the second and the third children will be maintaining good health, and enjoying fortune, with less of efforts.

Handwriting: Virgoans are governed by strong Mercury. So you may write in between two lines, i.e., above the line. You will develop the upper parts of the letters. The lines written by you will be short, sharp, and also inclining upwards. You always use sharp pointed nibs, and hence, your writing will be thin. You do not waste ink by putting loops, etc. You avoid under-lining your signature, more to save time. If at all you underline, Mercury,

lord of the sign, shows that you will do it twice.

Lucky day: Your ruling planet is Mercury. He owns both the Ascendant and also the most powerful, effective, and successful house, the 10th, i.e., the meridian. Therefore, Wednesday, governed by Mercury will be the most lucky day for you. Even though Venus gets debilitated in this sign, yet as she rules the second and the ninth houses, Bagya Sthana, Fridays will bring fortune. Mars, ruling the third and the eighth houses, indicates that Tuesdays are inauspicious, especially for speculation, betting, short travels, or correspondence, and for signing any important document. Saturdays are not beneficial, as it threatens with delay, denial, and disappointment. Sundays will end in a loss. Mondays are good to meet friends, make new friendship, bet, speculate and ever gain. Thursdays are favourable to invest, to buy cars, etc. also to commence romance, or start family and life with wife in new quarters. It is also very good to form partnership in business and expand your enterprise.

Lucky colour: Green, white and yellow.

Avoid red and blue. You will find that you put on red and blue only, when your health fails, and when you meet with minor injuries and faced difficulties. The moment you give them up, there will be no more evil. Putting on white ones, shows fortune; green ones and emerald, promotion in official life, and also prosperity in business. Yellow ones are good for happy domestic environments.

Lucky numbers 5, 14, 23, 32, 41, etc.
2, 11, 20, 38, 47, etc.
7, 16, 25, 34, 43, etc.
6, 15, 24, 33, 42, etc.
3, 12, 21, 30, 48, etc.

Lucky stone: Emerald, pearl, diamond and yellow sapphire. Virgoans are generally fortunate in those years, when Jupiter gets exalted in Cancer. It is certain that Jupiter, transiting in the constellation, Ashlesha, will offer the most beneficial

results to you, as Ashlēsha is ruled by Mer-
cury, the lord of 1 and 10 and it is in the
11th house which promises pleasure,
profit, permanent tie of friendship, and
fulfilment of your cherished desires.

Object syndicated by Virgo: Gardens,
both wet and dry lands, corn fields, grana-
ries, grain elevators, restaurants, pantries,
places where fruits and vegetables are
kept, the store room, also book-shelves,
first aid box, medical box, libraries, closets,
dairies, etc.

Countries: Turkey, Croatia, Mesopota-
mia, Babylon, Assyria, the locality between
the Tiber and the Euphrates, Greece,
Livadia, Thessaly, Corinth, Morea, Condia,
Switzerland, Lower Silesia, Brazil, Virginia
and West Indies.

Towns: Jerusalem, Navarre,
Brasil, Padua, Lyons, Toulouse, Heidel-
burg, Reading, Baghdad, Cheltenham-
Maidstone, Norwich, Todmorden, Boston,
Brindisi, Corinth and Los Angeles.

Whom to pray: Lord Vishnu, Rama,
Goddess Lakshmi. Virgin Mary. As Saturn
is the lord of 6 and Mars is the lord of 8,
you will find that it is not possible to have
a programme, and, without disturbance,
you will not be able to stick to it or finish it.
Therefore, avoid reading for hours, or
meditating for a long time. Read short
stothrams, and concentrate for a short
time, when you will enjoy peace and pros-
perity.

SATURN'S TRANSIT AND ITS RESULTS

FOR THE YEAR 1964

On 26th January, Saturn passed on to Aquarius and up to 23rd March, it moves in direct motion in the Nakshatra Dhanishta; then it transits in the same direction in Sathabbhisha star ruled by Rahu—the Ascending node till 15th June, 1964. On 15-6-64, it commences to retrograde, and till 17th September, 1964, it is in Sathabbhisha. From 18th September, Saturn, by retrograde motion, transits in Dhanishta, governed by Mars in the same sign Aquarius—Kumbha. On 2nd November, it takes a direct course, and throughout the year, it is in Dhanishta.

Saturn is not the only planet which indicates what a person can expect in 1964. Every planet contributes to certain events in one's life according to (1) its lordship, (2) the position which it occupied at the time of one's birth, (3) the houses owned by the planet, (4) the house transited by the planet, (5) the various aspects it forms with the other planets, with its radical position, with the Ascendant, with the meridian, and also its conjunction with the planets in the sign in which it transits, and (6) the nakshatra or star in which the planet transits, and the lord of the nakshatra and its results. All the seven points are very important, and one has to consider them one by one. Both the nature of event and the time of event, will be correct only when all these are properly judged.

It may be said that good aspect from a planet to any other planet may get cancelled by the adverse aspect to another planet. It is not correct. Both the results will be enjoyed and experienced. If Saturn, as lord of 11 forms good aspect with Sun, lord of 5, and bad aspect with Venus, lord of 2 and 7, the latter adverse aspect will not rob away the former beneficial aspect. Actually, due to the favourable aspect to Sun, lord of 5, he may gain in races,

speculation, or betting, or be benefited by children, and because of the adverse aspect with Venus, Saturn may indicate ailment to wife, some worries at home and also uncommon expenses. The day will not pass, without all these events; one will not cancel the other. It may be that, whatever he gained, he had to spend away. But he ought to have felt happy for the success in speculation or gain through children, and miserable, due to wife's ill-health, and in his ledger, he should make two entries, the first is the income through speculation or children and also the expenses of the medical bill, etc., due to the adverse aspect.

So, also if a planet forms good aspect with any other planet which also receives evil aspect from a third planet, then also both the results will be enjoyed by the person.

Thus, when an individual's chart is taken, and the transit results are offered; after considering all these vital points, the prediction will come true, and be helpful; but for a general prediction all these points cannot be included, as either lagna or Moon's or Sun's position alone is taken; that is the main reason why the transit results, given in general, do not come to pass, and this gives room for the sceptics to ridicule the science.

Saturn, forming good aspects with other planets, will make one sober, thoughtful, and contemplative; will be careful and attentive. There will be an increase in one's popularity and prosperity. Saturn will offer self-reliance. One will be able to re-organise, and systematise his work or business. He will advance, to a good extent, and find much progress due to his sincerity, methodical approach and tact. One can look for a position of trust. One may not have rapid progress, but yet success will be slow, steady, sure, and well secured. It will be long-standing. One may purchase land, begin to

construct a building, lease out one's building or land, or enter into a long-term agreement. It is also likely that one takes excavation work, or get employed in mines, or deal with plumbers, shoe makers, hide-and-leather dealers, masons, gardeners, agriculturists, coal and fuel dealers, and also be benefited through aged persons.

Saturn, forming evil aspect with planets, shows that the person will be unfortunate. One will be discouraged due to failures in one's enterprises. Even petty problems will appear to be big and difficult. The depression and the melancholy feelings will gain possession of the person. However much one guards his speech or controls his tongue, yet he will be mistaken, if he speaks out anything; if he keeps quiet, and observes silence, that too, will be mistaken. What a pity it is! His judgment during this period will be poor and there can be no intuition. Even if he tries for a change of place, or job or if he tries to start a new business, the impediments and obstacles will so much depress him that he will be inclined to give up his projects, and find himself helpless. Further, as Saturn represents elderly people, only aged persons or those born on Saturdays or in Makara—Capricorn, or Aquarius—Kumbha Lagna or rasi, and those born in Pushyam, Anuradha, or Uthairatadhi star, will do harm to him.

So you should deal carefully with old people. Also, if you are living in any old house, not at all repaired by the owner, try to shift from those quarters. If you work in a mine, you should be careful. Those who deal in the business governed by Saturn, will incur much loss. Compensation for the loss of the life of a servant, is also threatened. You have to take all precautionary measures to avoid falls, injuries, and accidents. Try to keep company with people who are witty, and who will cheer you up. Be reading Tit-bits, Ananda Vikatan, Kalki, Kumudam, Swadesmitran weekly etc., more for light reading and humour. Join those clubs where many younger and more active people assemble. Even though you cannot apply your mind and concentrate, you will

be witnessing it you will laugh; when they laugh, and be counting days, when the evil effects of Saturn will be over. You will again become active and more wise than before, when the evil aspect is over, and Saturn forms good aspect with a benefic.

SATURN'S TRANSIT

26- 1-64 to 11 -2-64 (1°-53'-20")	Mars Mercury
11- 2-64 to 18 -2-64 (2°-40'-00")	Mars Kethu
18- 2-64 to 7 -3-64 (4°-53'-20")	Mars Venus
8- 3-64 to 13 -3-64 (5°-33'-20")	Mars Sun
13- 3-64 to 23 -3-64 (6°-40'-00")	Mars Moon
23- 3-64 to 12 -4-64 (8°-40'-00")	Rahu Rahu
12- 4-64 to 5 -5-64 (10°-26'-40")	Rahu Jupiter
5- 5-64 to 15 -6-64 (11°-47'-Retrograde motion commences)	Rahu Saturn
15- 6-64 to 27 7-64 (10°-26'-40")	Rahu Saturn
27- 7-64 to 21- 8-64 (8°-40'-00")	Rahu Jupiter
21- 8-64 to 18- 9-64 (6°-40'-00")	Rahu Rahu
18- 9-64 to 9-10-64 (5°-33'-20")	Mars Moon
9-10-64 to 2-11-64	Mars Sun
2-11-64, 2-29 A.M. Direct.	
2-11-64 to 25-11-64 (5°-33'-20")	Mars Sun
25-11-64 to 15-12-64 (6°-40'-00")	Mars Moon
15-12-64 enters into Sathabisha star.	

From 26-1-64 throughout the year, Saturn is in Aquarius. Hence, Sign Lord is Saturn. Between 26-1-64 and 23-3-64 it is in Dhanishta star, governed by Mars. Between 23-3-64 and 18-9-64 it is in Sathabisha, ruled by Rahu. Later it is again in Mars' star Dhanishta between 18-9-64 and 15-12-64, when it enters Rahu's star, Sathabisha, again. The above statement furnishes the Nirayana Longitude of each sub, its lord and the time of transit of Saturn.

Aries—Mesha: This refers to people born in the Ascendant—Lagna Aries or in Aswini, Bharani and first pada of Kartikiki Nakshathra when Moon was in Mesha—or between 14th April and 13th May any year. When Sun was in Mesha i.e., for those whose Lagna or Moon Sign, or Sun was in Aries—Mesha at the time of birth.

When Saturn transits between 26-1-64 and 11-2-64 from 0° Aquaries, Kumbha to 1 degree 53 minutes and 20 seconds, it will be Mars' star, Dhanishta and in the sub of Mercury. Mars is lord of 1 and 8; Mercury is the lord of 3 and 6. Hence, one may receive annoying and irritating letters,

reminder and even notice for the repayment of loan: pressure from bankers, or summons from the court. Or one may make short journeys and incur loss: or one may have misunderstanding with brothers, effect partition, and receive his share of property from his brother. But one may gain through editing and publicity. Efforts will be successful after getting over some difficulties or meeting with some accident or after hot discussion.

Saturn between 11-2-64 and 18-2-64 will be transiting between 1 degree 53' 20" and 2° 40' governed by Mars and sub Kethu. This is a time for visiting holy places, or disposing of landed properties, or worrying oneself with the difficulties which crop up then. Separation from family members during this period due to travel on duty, is also indicated. A few business people may suffer from the troubles caused by their subordinate staff and labourers.

Saturn between 18-2-64 and 7-3-64 will transit between 2° 40' and 4° 53' 20". It shows reunion, pleasant life, gain through partner, receipt of bonus or fixed deposit: facilities to overdraw from banks: larger profits, social and financial success: new friends and grand success to those who deal in the leather industry, mine products, motor spare parts; silk, soap, tailoring, etc.

When Saturn transits between 4° 53' 20" and 5° 33' 20" (between 8-3-64 and 13-3-64), unexpected advantages will accrue: Government officials will be favourable; there will be larger profits in speculation. Quick buying and selling will amply reward you in this short period. Children will co-operate and help you. Even though normally you may not attend cinema, drama, etc., you will be taken by your children. They may complete the construction of any building or purchase a plot of land.

Saturn between 5° 33' 20" and 6° 40' will be under the sway of Mars and sub of Moon, between 13-3-64 and 23-3-64. Hence, you may gain through landed properties and permanent investments: To come out successful in the examination, to acquire a new conveyance, or have the old

one repaired, and mostly renewed, to have some benefits through mother or mother leaving her permanent place of residence and joining you, all these are presaged.

Saturn now enters Sathabisha governed by Rahu on 23-3-64. Depending on the effects of Rahu to each individual, the results will vary. In general, when it transits between 23-3-64 and 12-4-64 in Rahu's star and Rahu's sub, between 6° 40' and 8° 40' one may have some difficulty or other. One may not come out successful. One gets dejected. There will be misunderstanding, disharmony and dispute with others: also rheumatic pains near the knee cap, calf muscles, etc. chronic sufferers have to adopt prophylactic measures; filarial patients must observe hygiene, and should not exert much. If Rahu would have been in Leo, at the time of birth and if one has heart trouble, he has to keep his blood pressure under control by taking the sedative, regularly and avoiding exertion.

Saturn transits in Jupiter's sub, in Rahu's Star Sathabisha from 12-4-64 to 5-5-64, i.e., between 8° 40' and 10° 26' 40". Those who desire to go overseas for higher studies will proceed now. Business people will go on long journey and come in contact with foreigners and enter into contract with them. They can have foreign collaboration, and improve their exports; politicians and administrators will be helpful, and they will receive quota for imports. Father may have a transfer to a desired place. Mother may fall ill and cause anxiety. A few may enter into service in any foreign embassy. Elder brother will enjoy beneficial results in these days and realise his ambition.

Saturn then proceeds on till 15-6-64 in Saturn sub: A few may have positions of trust. Some will be promoted. New friendship will be formed. It is a troublesome period for mother. Her health will run down. Wife may go to her native place for delivery and beget a child.

Saturn retrogrades on 15-6-64, and continues to be in Saturn sub till 27-7-64. Labourers may cause trouble. In speculation, there may be a little loss; or money

may get locked up. Obstacles and hindrances will not allow you to complete any work. Around 26-6-64, health of mother will be critical, and even expert medical aid may fail.

On 27-7-64 Saturn enters into Jupiter's sub, and it is a period when one can return home after a long journey, or rejoin duty, or reunite with relatives and friends. You may invest money on landed properties, or celebrate the marriage of children in the 3rd week of August. Younger brother will be transferred in his service. Donation for religious functions, or for temple renovation, is also indicated within 21-8-64.

On 21-8-64, Saturn passes on to Rahu sub and on 17-9-64 enters into Dhanishta star. Saturn indicates ill-health, but there will be larger profit, and anxiety to recover the entangled money.

Between 17-9-64 to 2-11-64, Saturn retrogrades in Dhanishta and becomes direct or 2-11-64; throughout this year, it is in Dhanishta. Therefore, the results mentioned under Moon-sub for a period between 13-3-64 and 23-3-64, will be repeated. When Saturn is in that position, the experiences between 8-3-64 and 13-3-64 when Saturn is in Sun's sub, will be similar between 9-10-64 and 2-11-64, when Saturn will be in Sun's sub. On 2-11-64, Saturn takes a direct course, & is in Sun's sub till 25-11-64. This result will be similar to what is experienced between 8-3-64 and 13-3-64.

Between 25-11-64 and 15-12-64, Saturn will be in Moon's sub, and the results will be the same as were experienced between 13-3-64 and 23-3-64. On 15-12-64, Saturn enters into Sathabisha Star, and the end of the year is similar to the period between 23-3-64 and 12-4-64.

Thus, the transit results are to be read according to "Krishnamurti Paddhati".

In general, without considering the various changes in the same sign, one will normally predict that Saturn in 11 to Aries, will be very good.

But, if at the time of birth, Saturn would have occupied Taurus-Rishaba, Leo-Simha, or Scorpio-Vrischika, and form

Square or opposition, the native will have adverse results and will be disappointed. But if Saturn would have occupied Aries, Gemini, Libra, Sagittarius, Capricorn or Aquarius, they can expect brilliant results.

Taurus—Rishaba. This refers to people born in Taurus Ascendant or in the Nakshatra, Karthikai second, third and fourth quarters, Rohini, and Mrigasirsha first and second pada, when Moon would have been in Rishaba at the time of birth, or born between 14th May and 15th June, any year when the Sun would have been in Taurus.

Saturn shows vast improvement in one's financial position, frame of mind, etc. Unnecessary fears will come to an end. A new cycle of bright life will start. Partner in business may go on a long journey. You may have short tours. A few, having Sun in Taurus, will dispose of their landed property or car. Moon in Taurus indicates that the brother may have some difficulties, and his health may fail, though he may have to overwork. He may be transferred, or he may be touring between 26-1-64 and 11-2-64.

When Saturn proceeds further, you will have larger gains but yet you will be mentally engaged. Much of planning and scheming is shown. You may meet any sage, or visit any holy place between 11-2-64 and 18-2-64.

Between 18-2-64 and 7-3-64, Saturn indicates that you may borrow easily to meet extra demands. Health is restored. There may be social function at home. Success in efforts, or improvement in business, or increase in salary is portrayed. One may make long journeys in connection with his business, and fulfil his desire. The partnership deed will be renewed. Wife may come back from her tour, and domestic life will also be pleasant. Musicians and actors may have new contracts. Those, who deal in skins and hides, will gain much, by exporting large quantities. Between 8-3-64 and 13-3-64, advance payment for the purchase of a plot, or building, or vehicle is indicated. Advantages from Government officials, benefits to mother, and journeys of

children, are also likely. Any one of your children may have minor injury, while playing.

13-3-64 to 23-3-64 is a brilliant time to receive encouraging letters, get back locked-up money, and earn larger profits. Assistance from brothers, gains by editing, publicity, etc., and improvement through salesmen, brokers and agents, are promised. Health will be normal.

23-3-64 to 12-4-64 will be a busy period. Name, fame, and reputation will increase. Dullness in mind, or in business will disappear. You will entertain hopes, and will be optimistic about the future. Fresh enterprises will be launched. There will be much activity, and boldness in all undertakings, coupled with popularity. Bank position will improve.

12-4-64 to 5-5-64 is a prosperous time for making money in life. Success in litigation, contentment and gain in speculation, are assured. Business people can speculate to their maximum, and gain immensely. There will be no loss, nor any quarrel with anybody. New friendship will be formed. There will be vast increase in their list of customers. Lawyers, bankers, and professors will have advancement in their career.

Between 5-5-64 and 27-7-64, Saturn shows that some may go on long journey. They may make arrangements with foreigners and have foreign collaboration. A few may invest much money on business. Some will sit for departmental examination, and come out successful. Those, who work in foreign concerns, or embassy, will have satisfactory increase in their income. Good relationship with higher officials and their support will be had in this period. Later, between 27-7-64 and 21-8-64, success will be slow. The gains will be less than what you had between 12-4-64 and 5-5-64 when Saturn was in the same position as it is in this period.

Whenever a planet is retrograde, if it transits in evil sub-lord's portion, the malefic results will be aggravated and if the sub-lord in that star is a benefic in

retrograde, the advantages and advancement, during that time, will be less than normal. A planet in direct motion in a beneficial sub-lord's portion in a constellation, gives satisfactory gains. When it is *vakra* or retrograde in the same position, gains are assured, but it is much less remunerative for the same extent of pains. Hence, Saturn, a benefic to Taurus-Rishaba, will not be adverse at all, in this portion in Aquarius, ruled by Saturn; in Sathabisha Star governed by Rahu and in the sub of Jupiter between 8° 40' in Aquarius to 10° 26' and 40".

Similarly, when it further retrogrades in Rahu sub, between 21-8-64 and 18-9-64, the results will be favourable. There will be speedy turn-over in business, and profit in every transaction, but yet the margin of profit, will be very little, and unsatisfactory. If you are a pumpset dealer, and if you normally gain seventy rupees per pumpset when the planet was in direct motion, now when it is retrograde, you will be able to make only ten or fifteen rupees. The profit will be booked but the amount will be little and unsatisfactory. One will come out successful in examination, but will not have a rank. In an interview for service, he will be one among the many applicants selected, but he will not be considered to be the best in the lot. A few may shift their residence, if Rahu would have occupied Leo-Simha or if Rahu would have been in Karthikai, Uthiram or Uthiradam star in their horoscopes. Those having Rahu in the 7th house, or in the constellation of Mrigashirsha, Chithrai or Dhanishta ruled by Mars, the lord of 7, will get married, especially those who had Saturn in retrograde motion at the time of their birth.

Between 18-9-64 and 9-10-64, arrangements to go overseas will fall through. There will be much of correspondence, etc. Brothers may go on journey. Those who deal in liquids or in publicity, etc., will have less of gains. There will be some obstacle or other in one's efforts. Salesmen and representatives will be paying visit to the customers who will not be able to help them in this period.

Between 9-10-64 and 2-11-64, delay will cause worry, and money may get locked up. Any reminder, written in this period, will have no response. Assistance from Government officials will be absent. Those who work in the Defence department will be transferred or will proceed on leave. It is a dull period for business people. Pleasant expenses and purchases will be rare, and it will far outweigh the income in this period. There may be the necessity to arrange for over-draft accounts by the industrialists.

Once for all, evil results, rather the dullness, will come to end, and people born in Taurus-Rishaba, will have again prosperous period, commencing from 2-11-64, when Saturn becomes direct. Between 2-11-64 and 25-11-64, these people will have such results as they enjoyed between 8-3-64 and 13-3-64. Later, the results between 25-11-64 and 15-12-64, offered by Saturn will be similar to what they had between 13-3-64 and 23-3-64. The end of the year will be as good as it was after 23rd March, and before 12th April, 1964.

(Students are requested to follow this system, and be pleased with the correctness.)

Gemini—Mithuna: This refers to people born with their Ascendant Lagna in Gemini or to those born in Mrigasirisha 3rd and 4th quarters, Arudhra, and Punarvasu 1st, 2nd and 3rd padas when Moon was in Gemini or to those born between 15th June and 16th July any year when Sun was in Gemini.

Between 26-1-64 and 11-2-64, it will pass from 0° Aquarius to 1° 53' 20" which portion is governed by Mars, as lord of Dhanishta star, and the sub is governed by Mercury. Hence, Saturn, lord of 8 and 9, will transit in the 9th house, in the constellation of lord of 6 and 11, and the sub of 1 and 4. Therefore, success in litigation, victory over enemies, realisation of money that had been entangled, escape from accidents and injury, investment on landed properties, borrowing loan from a Society, change of residence, acquisition of a vehicle or at least sanction of officer to make use of the office conveyance, are

indicated. Reunion with relatives is also shown. Between 11-2-64 and Saturn transits between 1° 53' 20" and 2° 40' which portion is governed by and Kethu. Heavy work, anxiety, uppromises, inability to have minor ailment, irritation and excitement, visit to a sacred place or meeting any elderly, religious person, and donation to religious functions, are portrayed.

Between 18-2-64 and 7-3-64, Mars and Venus rule the portion between 2° 40' to 4° 53' 20" in Saturn's sign, Aquarius when the person born in Gemini will have unexpected gains and advantages accruing, as regards finance is concerned. But, if he drives any car or vehicle, he has to exercise care, be slow, and try to avoid accidents. A few may fall down and enter hospitals for treatment.

Some people may have to appeal to higher authorities as, in this period, success is indicated only for subsequent attempts. Some may repair their houses or conveyance or pay the medical bill due to mother's ill-health. Those who deal in shoes, skins and hides will invest more and realise very good profit.

Saturn, during its transit in Sun's sub between 8-3-64 and 13-3-64, portrays sanction from Government for any licence etc., applied for. One will have pleasant correspondence and also assistance from men in power. Short journeys will be fruitful. Editing and publishing will bring honour. Advertisement will be a good source of income. Salesmen and representatives will be able to show unusually large turn-over.

Saturn in Mars star, Dhanishta, and in Moon's sub between 5° 33' 20" and 6° 40' shows that one will receive a large sum of money even the so-called bad debts will be realised. Bank position will improve. One will be successful in all his efforts during this period between 13-3-64 and 23-3-64 and he will become popular, a brilliant period promising new cycle of bright life

(To be continued)

NO MORE DOUBTS

Question 2: My star is Dhanishta, 3rd pada. Moon at the time of my birth was in the beginning of Kumbam—Aquarius. I am informed that Jupiter—Guru, will pass on to Aries—Mesha in a few months and that the transit results will be harmful. It seems that Jupiter is very evil in the 3rd house and it is called Thritheeya Brihaspathi. CAN YOU KINDLY SAY WHETHER IT IS HARMFUL?

Answer: Transit results are offered by a few astrologers very easily, whereas it needs much of calculation and consideration. If, after careful scrutiny, thorough study and proper judgment, the transit result is given, it will come true. Otherwise, the general prediction will be correct only for a few, whereas it will fail and will be incorrect in many cases.

Hindus are of opinion that of all the positions of (1) the Lagna, (2) the Meridian and (3) planets, it is only the position of the Moon which is taken for ascertaining the effect of transits.

Further, it is calculated from the Moon's place and the several signs transited by the other planets. *Both are incomplete.* I have to state it with great humility. Why predictions, offered by strictly following the Hindu system of (Gochara Palan) tran-

sit results, fail in majority of cases is first of all explained by giving examples; then follows how to read the results, and finally I shall mention the various effects.

The Zodiac is divided into 12 equal parts. Each is called a Solar mansion, Rasi or sign. The same Zodiac is also divided into 27 equal parts, commencing from the same zero degree of Aries—Mesha. Rasis (Solar mansions) are called 1. Aries—Mesha; 2. Taurus—Rishaba; 3. Gemini—Mithuna; 4. Cancer—Kataka; 5. Leo—Simha; 6. Virgo—Kanni; 7. Libra—Thulam; 8. Scorpio—Vrischika; 9. Sagittarius—Dhanus; 10. Capricorn—Makara; 11. Aquarius—Kumba; 12. Pisces—Meena.

The 27 constellations (or Nakshthras or stars) are as under :

Aswini; Bharani; Karthikai, Rohini, Mrigasirisham; Arudhra; Punarvasu; Pushyam; Ashlesha; Makam; Poorvapalguni-Uthram; Hastham; Chittrai; Swathi; Visakam; Anuradha; Jyeshtha, Moolam, Poorvashada, Uthrabhada, Sravanam; Dhanishta, Sathabisha, Poorvapathrapada, Uthra pathrapada and Revathi.

Therefore, in each sign, there will be 2½ stars.

Aswini, Barani and Karthikai 1st quarter	Aries-Mesha	0°-30°
Karthikai, 2, 3, 4 padas, Rohini and Mrigasirisha 1st & 2nd padas	} Taurus-Rishabam	30°-60°
Mrigasirisha 3rd & 4th padas, Arudhra, Punarvasu. 1st, 2nd and 3rd padas	} Gemini-Mithunam	60°-90°
Punarvasu 4th pada, Pushyam and Ashlesha	} Cancer.	90°-120°
Makam, Poorvapalguni, Uthrapalguni 1st pada	} Karkatakam	120°-150°
Uthrapalguni 2, 3, 4 padas, Hastham and Chittrai 1, 2 padas	} Leo-Simham	150°-180°
Chittrai 3 and 4 padas, Swathi, and Visakham 1, 2, 3 padas	} Virgo-Kanni	180°-210°
Visakham 4th pada, Anuradha, Jyeshtha	} LIBRA-Thulam	210°-240°
	} Scorpio-Vrischikam	240°-270°

Moolam, Poorvashada and Uthrashada 1st pada	} Sagittarius-Dhanus	240°-270°
Uthrashada 2, 3, 4 padas, Sravanam, Dhanishta 1 and 2 padas	} Capricorn Makaram	270°-300°
Dhanishta 3 and 4 padas, Sathabeeshak, Poorva Bathrapada 1, 2, 3 padas	} Aquarius-Kumbham	300°-330°
Poorva Bathrapada 4th pada, Uthra Bathrapada and Revathi	} Pisces-Meenam	330°-360°

One is said to be born in Mesha Rasi (Aries Rasi), if Moon at the time of his birth was either in Aswini (in any one of the 4 quarters) or in Bharani (in any one of the 4 quarters) or in Karthikai 1st pada.

If Moon passes on to Karthikai 2nd pada, Moon will be marked in Taurus in his chart, and if Moon were to be in the 2nd or 3rd or 4th pada of Karthikai or in any quarter of Rohini or in the first two quarters of Mrigasirisha, Moon is said to be in Taurus and the native is said to have been born in Taurus Rasi or Rishaba Rasi. Thus in all the twelve Rasas, one is to insert Moon carefully and call him or her that he or she is born in that Rasi, in which Moon was at the time of birth.

Why prediction fails?

1. While giving the effects of transit, it is not at all taken into consideration whether Moon was in the beginning or in the middle or in the end of the Rasi.

2. It is also not taken into calculation whether the transiting planet is in the commencement of the sign, in the middle or in the end. (There are many more aspects to be included which will be mentioned after giving a few examples.)

Further, the truth is not brought to the notice of the readers. If it is well explained, they will never ridicule the science. They will surely study well, and will be benefited by correct prediction.

Here are some illustrations for consideration: Suppose you are born in Bharani. Your friend is also born in Bharani Star. You lend money to him on 3-1-64. On 3-1-64, your bank position deteriorates, whereas the same rasi person's bank position improves.

If you are an officer and if your birth is in Hastham star in Virgo sign, you feel happy about your promotion and draw more salary from the day on which another Hastham star officer retired or resigned.

Two people born in Sathabisha star (in Aquarius sign) play cards. One Sathabisha native wins; the other loses.

A lady for curiosity asked a beggar, "What is your star? Why should you beg?" She replied that her star was Moolam and added that as many used to say that Moolam star girls means "Nirmoolam" i.e., poverty, she was also suffering. The landlady was first frightened with the auntie's proverb. Then she gathered courage and told her, "My star is also Moolam. I am really very happy, peaceful and prosperous. I have become very rich. There is nothing wanting in me or for me. What is this dirty universal proverb." Now consider: one Moolam native begs and the other Moolam donates.

The father of a girl, born in Karthikai star, requested two other Rohini star boys to see his daughter before fixing up the marriage with either of them. Both of them were much impressed. Both the boys were very anxious to fix up the marriage.

But the girl outright rejected one of them and selected the other. Look at the results of the two Rohini boys. One is disappointed and dejected whereas the other is successful and happy.

On 19-10-1962, a Swathi gentleman sold Indian Iron, Hindustan Motor and National Rayons to another Swathi person. Suddenly the share market collapsed. The prices of shares tumbled down; one Swathi minted money, while the other lost and suffered.

In an interview, to select only one candidate for a coveted post, four Poorvapalguni people contested. There were some more candidates born in other stars. Of the 4, only one got appointed, whereas the other three returned disappointed.

Thus in our lives we see that

- (a) An Aswani Nakshathra native is admitted in a hospital at the time when another Aswini Nakshathra person gets discharged after treatment.
- (b) A Pushya Nakshathra Inspector of Police arrests another Pushya Nakshathra criminal. The Inspector is happy, because he was able to trace the culprit and to discharge his duty while the other is within bars.
- (c) An Anuradha Nakshathra car driver runs over another Anuradha Nakshathra pedestrian.
- (d) Sravana Nakshathra person has a legal dispute with another Sravana Nakshathra native. The judge born in Sravana Nakshathra passes a judgment by which one gains and the other loses.
- (e) Poorvashada star native owns a house. Another Poorvashada star native is a tenant. The owner occupies on the day the tenant vacates.
- (f) A Jyeshtha star native sells a car due to pressure for money, while another Jyeshtha person purchases from him.

Thus, you will see that the same star people experience diametrically opposite results.

So, to predict the Gochara or transit results taking only the star position into consideration, is incomplete.

That is why, the Rasipalans published in the dailies, weeklies, and monthlies vary even in essentials so widely and so erratically that they give room to the readers for ridiculing this noble science.

Now, one may say, that one has to take into consideration the dasa and bhukti

one runs. This also is not complete. Because when twins are born, they have the same star. Moon position, i.e., rasi is same as also lord of dasa and lord of bhukti the same. Yet one scored good marks and passed the examination, while the other failed. Both bet and play; one wins and the other loses. Both run a race. One wins; the other loses. Both stand for election. One loses; the other wins. Consider. *That method, which can explain this, will alone be useful and correct.*

There is a fool proof and accurate method by which correct predictions can be offered. (Krishnamurthi Paddhathi will complete this system.)

You may ask "Why then, is such an incorrect prediction handed down to us?" Is the western system preferable? We say, it is complete. It is not totally incorrect.

Westerners also take the position of Sun for general predictions, find out the relative position of the transiting planets and offer the effects of those transiting planets. This is also incomplete.

Further more, we have to understand that, in the Hindu system, the sages have declared that beneficial effects will be given, when

- (a) Sun transits in 3rd, 6th, 10th or 11th house counted from Moon sign;
- (b) Moon passes in 1, 3, 6, 7 or 10th house from its sign in the birth chart;
- (c) Mars passes in 3, 6 or 11;
- (d) Mercury is in 2, 4, 6, 8, 10 or 11;
- (e) Jupiter is in 2, 5, 7, 9 or 11;
- (f) Venus in 1, 2, 3, 4, 5, 8, 9, 11 or 12;
- (g) Saturn, Rahu and Ketu are in 3, 6 or 11 counted from the position of Moon at the time of birth.

Let us take the effect of Jupiter during his transit. It is said that when Jupiter passes through the second house, the per-

son will acquire wealth and will enjoy domestic happiness. He will command respect and will be influential.

Actually one lost his job when Jupiter was in 2 to Moon. Every one shunned his society. None came forward to help him; but he appealed. The paper did not move favourably for months. In the meanwhile, Jupiter passed on to the third sign.

It is said that Jupiter in the 3rd house throws obstacles to business and causes disease in the body; it shows separation from friends and loss of position.

After Jupiter entered the third sign, he came out successful and was reinstated. Back arrears of pay were also received.

The above is a fact.

This incident forced us to do research. A girl born in Anuradha did not get married when Jupiter was strong in his own sign in the second house. But when it passed into the 3rd sign, she got married. Instances are many.

In the south, people call the transit of Jupiter in 2, 5, 7, 9 or 11th house from Moon sign as "Guru Balam" or "Viyaaya Balam"—They say that one can have his or her marriage when there is Guru Balam, i.e., when Guru transits in 2 or 5 or 7 or 9 or 11th house counted from Moon sign. It is evil and the marriage will not be celebrated during other periods.

If one goes round the town on any day, he can find nearly a hundred places where marriages are celebrated. Let him collect the horoscopes of the couples. He will find that all the 27 star borns are getting married on that day. Does it not mean, that Jupiter would be occupying the 1st, 2nd, 3rd and so on till 12th house or any one of them. To one, it will be in Janma. To another, in 2 to Moon; to another in 3 and so on. Hence, the above rule should not be strictly observed. Let us note the Nakshathras of students who have passed the examination. We will find that all the 27 stars are the birth stars of one or the other. So also the Sun will be in all the twelve signs. It means Jupiter in all the 12 houses has given pass to them.

Let us turn to those who have to appear again for the examination. They are also born in all the 27 Nakshathras.

Therefore, to offer a general prediction that Jupiter in 3 will do harm, is not wise or correct in all cases.

The various points to be noted are very briefly mentioned below. In our April issue, it will be explained in detail.

1. Note your Lagna.
2. The house of which Moon is the lord.
3. Of which house the transiting planet is the ruler.
4. The house in which it transits.
5. The star in which it moves, the planet which rules over the star. Of which houses this planet (i.e. the lord of the star) is the owner.
6. Is it in direct motion or retrograde?
7. Is it strong or weak: is it eclipsed?
8. Where was the planet transiting at the time of birth.
9. Find out the aspect formed by the transiting planets, etc.

1. A planet may be the owner of the 11th house, promising profit, whereas the same planet may be the owner of the 12th house for people born in the previous lagna and it will show loss, fraud, etc.

Though the name of the planet may be the same, yet the results will vary. To Virgo (Kanni), Moon is lord of 11 ensuring success. To Leo (Simha), Moon is lord of 12, threatening deception. So to each, the result of Moon must vary.

2. Moon may be lord of 2, denoting acquisition of wealth. To another, it may be lord of 8, indicating difficulties. If the transiting PLANET forms same aspect with Moon, one will have a large income, while the other may suffer.

Thus if one studies the various aspects, he will come to the conclusion, that the whole chart is to be taken for consideration and all the transiting planets positions are to be referred to, all the positions of

the various planets, Ascendant, Meridian and Fortuna.

1. Therefore, Doctor, send your chart.
2. Don't be carried away by these proverbs,
3. Read the April issue and you yourself will be your own astrologer.

Question 3: I have heard your lectures. Often you make it clear that the monthly, weekly or daily predictions published are only general. You also add that they may come true only in a few cases. My friends also agree with you. They say that they do not come true in some cases, or they find that, in some magazines, both good and evil are published for the same Rasi, in the same issue. Can you say, why they still continue to be read?

Answer: Suppose you have a strong palate for sweet dishes. But doctors have advised you not to include it in your diet in the interest of your health. Yet, now and then, because of your weakness, you do take them.

Sage Viswamithra closed his eyes tight and was ever praying. But yet, he had a glance at Menaka. You know that his daughter was Sakunthalā.

Those who go to races, or gamble regularly and lose invariably take a vow, that they will never go again, when they leave the race course or when the game is over. But on the next race day, they borrow, pray the same God and attend races or play cards once again to lose. All these show human weakness.

After all, it is our mind which governs us. Mind is represented by Moon. Is not Moon waxing and waning? Is it not bright on some days and dark on other days? Is it not fast moving and therefore unsteady? So also, the mind is never steady. One may take a decision. Yet, after some time he amends it or gives it up. Such is the nature of one's mind, wavering, unsteady and vacillating.

Though some people say that the predictions given by a few astrologers do not

come to pass, yet they await eagerly the arrival of the postman to deliver the weekly or monthly on the scheduled date. Even though the postman delivers many letters, including one from his wife or daughter who had gone to a far off place, he or she hurriedly opens the magazine and straightaway turns over the page where the prediction is published and rushes to read the results, given for the concerned rasi. That is the weakness of many.

For a few it comes true. They want to make the best use of this knowledge.

Majority of the people gather courage by reading encouraging predictions. These keep them cheerful in the coming week. If nothing has happened, he consoles himself, saying that some one born in his rasi would have had this result.

If the prediction offered for a month is discouraging the same person will say, "The prediction has generally failed in my case. Now also, it may not come to pass." So saying, he gives away the magazine to his children and friends.

A month passes.

Mind you, the same gentleman, eagerly waits for the postman. Post may be delayed due to the late arrival of plane or train. Yet, he stays at home though it is getting late to his office, receives the magazine, goes through the prediction offered to his Rasi, hands over all letters to his children even without opening the covers and rushes to his office, saying "Keep all the letters. I will return from office and answer them". That is our weakness—weakness of many. It is only to satisfy the general public, by giving as far as possible correct results, the monthly and weekly predictions are published.

Most of the people need it. There are also equal number of astrologers to offer their services and cater to their needs.

Why then, should the editors deny this opportunity to them?

HUMAN-PREDICAMENT DESTINY

By

K. S. ANANTANARAYANAN

There is no branch of knowledge which is so thoroughly comprehensive, all absorbing and enlightening, encompassing all Sciences and Arts, and yet so much misunderstood and misconstrued, and misinterpreted as Astrology, because its dimensions are so stupendous, and extensive, covering the whole realm of Cosmos and its Manifestations, in all aspects. The fortunes and misfortunes of an individual as delineated from a study and interpretation of the Natal chart is but incidental, though it is often the most sought-after quest even by the so-called sceptic and the sophisticated especially when they have to pass through narrow scrapes or through a series of baffling, none-too-pleasant experiences, the causes of which they cannot find an explanation or solace except from the mouth of an Astrologer as to the duration, effects, redress and relief from the current or impending portent. It is generally conceded that planets in their courses indicate events to happen in the lives of the individuals; the lay man thinks that the planets themselves are responsible for bestowing on him affluence, wealth, and prosperity or shower heaps of misery of all sorts when they are ill disposed. There is also one school of thought that, because what must happen must happen, why bother about this subject at all by anticipations or fears which may or may not come to pass because of the difficult and unfathomable terrain through which the Astrologer has to pass to give any definite indications one way or the other.

There is no aspect of Human life (or of any creature) that is left out of consideration by this Supreme Science. From the moment of its descent into the mother's womb at the moment of conception to its exit again to join the Universal Mind, from the cradle to the grave, the whole period of development of the encased Ego is marked out; we normally take the arrival of the baby and its delivery on to Mother

Earth (Bhupathanam) as the moment of birth; and this is called Lagna or Ascendant, and we note the relative positions of the Luminaries, the Sun and the Moon and the various planets in their Zodiacal, and Stellar mansions (the Star groups) at this moment, and these various positions of the Heavenly bodies represent the Radical, or Radical Chart. These positions in relation to the Lagna describe every possible information about the descended 'Jeeva'; and the progressed positions of the various planets, of the Sun, and Moon, the Meridian Point, and many other sensitive points at any moment of the Life's journey indicate what events are likely to take place then and in times to follow, as if in fulfilment of the potentialities of the karmic forces built up by 'Jeeva' in its eternal cycles of birth and death.

Man, being the most individualised type of Ego in the system of Creation, is quite different from another in various aspects, and so each horoscope differs from that of the other in many respects. Considering the Radical chart which is specific in each case and in all respects, the first house, (that is the part of the Zodiac comprising the lagna point to any extent of nearly thirty degrees,) indicates the nature, physical characteristics, disposition, etc., of the Jeeva that has come into being. Family, speech, eyes, riches, etc., are gleaned from the second; courage, ears, brethren, anger, etc., the third; education, mother, vehicles, relations, etc., from the fourth; children, intelligence, strength, etc., from the fifth; disease, enemies, debts, and danger from the sixth; wife, marriage, passion and animal gratification, business partner, etc., ~~from~~ the seventh; death, means of subsistence, partner's money, insurance, etc., from the eighth; virtue, piety, father, higher education and knowledge, wealth, etc., from the ninth; fame, action, political success, employment, and status in life, etc., from the tenth; friends, profit

from business, elder sisters, gain, pleasure etc., from the eleventh, heaven, waste, charity and charitable institutions, hospitals, expenditure, etc., from the twelfth.

Planetary forms and characteristics are also given, and how these get modified in effect to particular lagnas, and also in respect of their placements in the various zodiacal and stellar mansions, is also explained in this Science of Sciences.

Thus scores of factors of the radical chart furnish every possible information about every creature that has taken its birth in this planet, and that is strutting about this earthly theatre for a while in its sojourn. Further, the unfolding of the destiny of the concerned 'Jeeva' is marked by so many and varied experiences and happenings throughout its life, and indicated by the progressed positions of the radical factors, and examination of hundreds of horoscopes reveal that Humanity is just a pattern in Cosmic Existence of the Supreme, with the ego struggling against the Environment for fuller development and union with its Supreme Self.

While Astrological factors clearly indicate many an important aspect with regard to the 'Jeeva' and the events in its cyclic journey, no one will be satisfied if the subject stops with indications only. It would be just like a doctor examining a critical patient, noting the symptoms in a piece of paper, and just handing over the paper to the anxious relative, and march off.

We would like to divert a bit in our examination of the real utility of this super-science in relation to man and his predicament. First of all in any scheme of enquiry, one must feel sufficiently keen and agitated as it were, to probe into the subject fully and thoroughly and must have the burning urge to get at the root of the matter. In these days, there is nothing more urging and more important than finding out the real cause for the ever increasing tension in man's mind and in his environment. The urge for the probe into the structure and properties of matter, of the Outer Space, has been so keen, sustaining and devoted, that within the last two

decades remarkable progress has been made in the unravelling of the mysteries of the objective and outer world by systematic investigations and research by scientific methods, which are quite different from vague surmises, and deductions. Nothing is left to chance but scores and scores of changes, transformations, actions and reactions, and chain reactions, in Physical, Chemical, Medical and other Sciences have been probed into, analysed, and assessed with the aid of powerful instruments, highly developed techniques and by highly trained devoted scientific talents. Correlations have been made, hypotheses drawn, and finally valuable laws have been established and new and newer discoveries are being made from time to time as to the laws governing the objective pattern of the Universe.

Man's mind is now on the threshold of not merely of curiosity, but is in the path of enquiry and investigation, and he is not willing to accept anything on face value or take anything for granted, though of course Man's attention is towards the Objective and Environment. A definite scientific approach to all subjects and problems is in the mental make-up of the modern educated and there is also a pronounced sceptical attitude developing side by side, towards all matters pertaining to established customs, religious observances, rituals, etc. Even the illiterate layman, who has not developed any scientific outlook or training, is now not willing to accept the tenets of Dharma or quotations from Ancient Wisdom, because his mind has either sunk low or clouded, or he has often found out that, to his disillusionment, preachers in any platform do not practise what they often preach. Anyway, the mind of the ordinary man is sufficiently confused to appreciate any mode of life.

Again the exigencies of modern life are increasingly compelling every day on the individual and man's mind is almost always sieged with the economic problems of daily life; most of the people are driven to work like machines and they are unable to rest at oars even for a time; many square pegs have had to contend themselves

being driven into round holes. Further, there is a general tendency towards regimentation and brainwashing of the masses in some of the so-called civilised nations and so much diversion is taking place in the mind of man towards objective life and utilitarian outlook. There is no balance being maintained between Science and Art in life, and every encouragement is given for a mechanical, materialistic outlook to develop only selfish interests with the result that a mass psychosis is often set up. Moral laws and solemn undertakings are flouted with impunity and the only thing that seems to inspire awe, admiration is the physical and mechanical might, Technological and scientific developments of the respective nations and *nations*. With all these advances apparent in modern civilisation, the whole humanity is gripped with an unknown fear of uncertainty about future existence by unexpected calamities and crises from the possible use of Nuclear Power that may be released by warring nations especially when all standards of morality, ethical living have fallen, and negative thinking has taken possession of men's minds. Disillusionment stares face to face ~~in our daily~~ transactions and intercourse with one another in almost all walks of life; Trade, Profession, Industry, Domestic atmosphere, and Administration of Governments as selfishness, greed, betrayal, cowardice, superficialism, egoism, vanity are growing fast more as a rule, than exceptions. Idealism has given place to the commonplace, cheap, vulgar and unsustaining, and there is a universal tendency to revert to the herd and animal instincts and tastes, and animal pattern in creation. Make the hay while the Sun shines; for the morrow may not be certain of conferring anything brighter. Man is leading a fast life and nothing seems to matter with him except to get on somehow and get over others at

Naturally therefore there are only a few who pause to think of changes taking place in and around man's mind and environment. Either most of the people have no time, urge, patience, or serious outlook or any sensibility enough to feel that anything is amiss or wrong at all.

And the very few who are sensitive to the increasing tension prevailing in almost every household, industrial establishment, governing body and administration, by unjust acts and malpractices, of strange indoctrinations and conceptions adumbrated from every pulpit—only these people will revolt against the existing state of affairs, and only these can, and will direct their attention, and probe into the complications for this universal degradation and degeneration and unrest and they alone will be capable of finding the cause and remedy.

From time to time, thinking men have set for themselves these problems of Humanity and offered suggestions of various measures and reforms in Religious, Social, and Political aspects of life. Of course, all these measures work for some time after awakening a section of the Humanity, and then gradually wane and vapourise, if the Basic Reality of the Supreme has not sufficiently been impressed on their minds, and the supreme Light has not been kept burning by the progeny.

Though there can be nothing new under the Sun, considering the times in which we live, the Old Nectar has to be filled up in new bottles of modern standards, and Humanity must be made to consume the same in a "Scientific" way to enable them to get at the root of the matter of all tensions, discontent, and misery. In a way, the present tempo of the modern enquiring mind is best suited for diversion into the Subject instead of the Object, in which it is coming off with signal success by astounding discoveries regarding outer space, for instance. If the keen student can find out the real cause for the present confused state of the present world, and suggest remedies that every one of us can follow, he deserves to be hailed as a Saviour in his own way. It would seem that he would have to follow the same path that the Ancients of all lands have followed; he will recognise the Supreme Presence of Supreme Power, the all-pervading Absolute Reality, by taking the whole mechanism, activity and dynamism of all Creation and Manifestation and he will treat the matter scientifically. In this

Universe, nothing is left to chance and nothing is misplaced by the Original Designer.

Now the whole question is, as in everything else, to what extent Astrology is useful to Humanity in solving all its problems and ills? Apart from indicating lucky and unlucky periods in a man's life and giving him alternate doses of sanguine hopes and object despondency striking at the same time a note of compelling submission of the subject to the unavoidable and apparently inevitable, is this Science of any use to meet the challenge of daily problems disturbing the equanimity of the mind? Further, as Astrology is not concerned with the fortunes or misfortunes of individuals only, but of communities, nations as well, with which these of the individuals are also closely linked, what is its real purpose, unless it provides measures for universal relief?

Now that is exactly the function of Astrology as the Science of the Supreme; it is the only Science that covers the Subject, Predicate and Object, that is everything, and for all times. We cannot fully appreciate the usefulness of this branch of Knowledge, which is praised as Vedanga, unless we probe into the Metaphysics of Life and Existence.

It is just as well at this juncture to acquaint ourselves with a few of the important fundamental conceptions, words, terms, definitions, and their import, used in Hindu Thought and Philosophy. One Supreme Idea is expressed in Vishnu Suktha in the following stanza and this is the clue for All Creation and Manifestation.

"Yaccha kinchit jagat sarvam drisyathe sravya-
thepti va, Anthar bahischa tatsarvam vyapa
Narayana sthithaha."

The Supreme Being is all Pervading, All-Present, in and out of every infinitesimal particle of matter, being, and in and out of everything seen and unseen, heard and unheard, in the whole realm of Creation. He is the Supreme Soul, Parainaiman, Supreme Ego, Parabrahman, Eternal Bliss, The Primary Cause, The Sublime Truth, The Eternal Flame,

Omniscient, Omnipotent, and devoid of all gunas and nature. He is the Supreme Light and Enlightenment. He is the Supreme Absolute Subject; Absolute Reality.

Parasakthi: Is the Divine Consort, is the Supreme Power, inseparable from the Supreme Being just as light rays cannot be separated from the light itself. She is the primary cause of all motions and dynamism and power. Her position is in his Being. She is the Absolute Subjective Force.

Adhara Sakthi or Mula Prakrithi: The Nuclear Power of all Matter, and Nature, and she builds up the Architecture of the Objective Universe. She is the Absolute Object, the repository of all forces of Elements.

Maya Sakthi or Illusive Power: She is the resultant power and energy system emanating from the Eternal Union of the Supreme Power, Parasakthi and Adahra Sakthi of Universal Nucleic Power. She is the Universal Mind and represents a system of constant change, motion, combinations and separations, formations and transformations; she represents the field of Karma of all creatures; of relative causes, effects, actions, reactions and chain reactions. She is the Predicate. She has illusory dimensions of Time, Space and Consciousness. She is the Shadow force resulting from the union of Parasakthi and Adharasakthi forming clear or distorted impressions on the individual's mind based on the evolution of the ego enclosed by the vasanas, just as the shadow from an object is twisted or straight depending upon its distance from the source of light and on the surface on which it falls. Maya Sakthi is relative and dualistic in nature based on the composition from the Absolute Subject and Absolute Object. She is the inseparable component of the Supreme Soul that she envelopes, and in individual's life, is the spiritual consort of the 'jeeva', and is the Kshetra or Field for procreation and fertility, and preservation and final disillusionment of the ego, for the ephemeral.

PURE RELIGION AND PRACTICAL ASTROLOGY

What everybody wants but none gets is peace of mind. The only method by which one can try to have peace is by strictly following any religion. Clear and sound knowledge in the higher thought subjects is to be gained from a wise Preceptor or Guru. One should have absolute faith, trust and confidence in him. He has to plod, persevere and patiently work in the same line as directed by the Guru and never doubt or waver; but be sincere, severe and regular. He has to be an embodiment of fixity, humility and purity, avoiding avidity, audacity, instability and eccentricity. Mind you, irritability, jealousy and greed are the real evils. Never feel dejected if there is long delay in realisation; nor become desperate. We are sure that you will have eternal peace, sooner or later in this birth or in the following one, depending on your Karma. You must have it if you are directed properly and you also carry out the instructions regularly.

Astrology is the science which throws light, enabling one to remove the darkness or ignorance and understand the unknown. A wise astrologer can reveal the truth. He is the only proper person to guide and direct you, to follow the correct path and reach the goal, offering you perfect peace of mind.

Astrology is based on the truth that a person has his birth at a particular moment to particular parents, in a particular locality according to the meritorious deed or sin committed by him in the previous birth. Suppose, one goes to a picture while a play is being screened in a theatre; when he enters, he will see a particular portion of the picture. Some portion had been already shown and some more will follow. For how long a time and how many more acts, one has to see depends upon the time of the visit. If you enter in the very beginning of the play, you have to be patiently waiting till all the acts are over. But if you attend in the far end of the show, very soon, it will come to a

close. Similarly a person's birth now, is generally after he had some births previously. This birth may be the last or he may have some more births. Astrology helps with an insight into future.

If one does not admit the above philosophy, Karma and Reincarnation, then what explanation or argument, can one advance for the inequalities in life? Is God partial? No! Then, if God is impartial, why is one born blind or dumb or deaf or poor, whereas the other is born with all comforts to lead a life without any wants at all? A TRUE ASTROLOGER, will say—(whether one admits or not)—that every person had many births already, and will have many more to come; the results he or she is to enjoy depends on the Karma done by the person in the previous birth.

God, the object of worship, is the JUDGE to deliver judgment according to one's meritorious deed in his credit or sin and also to see that the same person in the next birth (which He alone knows) receives the punishment or reward according to the judgment already delivered by Him before his birth. In the judgment, the moment of birth, the place of birth, the parentage etc., are included. God is the Judge and also the executor.

Astrology is the science which had been expounded by the Hindu sages to know our previous birth, the present birth, the results in this birth and also the next birth or Moksha-Emancipation.

Astrology gives knowledge by taking into consideration the Zodiac and the Planets, wandering in it. The Zodiac is divided into twelve equal parts, called Solar mansions: The first is Aries, the second Taurus and so on up to the twelfth, Pisces. Also the Hindu Sages and the Savants in the Western Countries have found that each house counted from the part that rises in the East, called Ascendant, signifies certain results. ₂₁

In one's life, according to his destiny one may try to have Ika-Loka-Sukha; that is to lead animal life with legalised modern amenities, claiming "This is mine, That is mine" and so on, and ever laying stress on 'I'. This law is man-made and calling 'I', 'I', 'I' is one's egoism.

There are only a very few people who strenuously work for and aim at Para-Loka-Sukha, i.e., eternal peace without having any attachment in the worldly pleasures.

This can be judged by dividing the Zodiac into two parts; that is, the houses 1 to 8, denoting pleasure and pains in this world; houses 9 to 12, indicating Sadhana to have peace and pleasure in the Heavens.

The first house shows one's birth, health, individuality, and egoism. Manickavasagar says, "I am again born in the sorrowful sea of life; every year I save my gains. My life is varied, off and on. In the morning I work, at noon I take food, and at night I go to sleep. As days pass on, I fall into the worldly love... Thus, I live in that sorrow which all call wealth; I lived in varied forms and fortunes and I spent my days."

The second house indicates one's self-acquisition to call it as "Mine, My estate, My family, My finance, etc."

The third is a common sign called Gemini. An intellectual, airy and dual one. So one will have dual ideas; the desire to have both Ika-Loka-Sukha and Para-Loka-Sukha. Here comes the conflict. He is not able to take any decision. He lacks it.

The fourth house shows that one remains at home with mother enjoys comforts by possessing lands, buildings, conveyance, etc. His mind will ever be wandering, like the moon. He cannot concentrate. He will be fond of changes.

The fifth house is Leo. It is governed by Sun. It shows the fruits of your action in this world; also the initiation by a Sadh-Guru. Who can throw light? Sun in the Heavens removes the darkness enveloping the earth, so also a wise and learned person who has the capacity to remove the darkness, who is steady in his action, in a fixed position alone can remove. Sun

moves among the stars, in the ecliptic, steadily, with more or less in uniform speed, ruling the 5th sign of the Zodiac which is fixed. For Ika-Loka-Sukha, 5th house shows children and for Para-Loka-Sukha it indicates intuition and initiation of mantra.

The sixth house is for detrimental ideas and actions, difficulty and disease, debts and depression.

The seventh house shows that one gets entangled in this life with a partner-opposite sex. One finds pleasure or purchases pain according to his Karma.

Having led the life in this world as long as one is allowed to live, by God, which is indicated by the 8th house, he or she leaves this body to receive judgment from God to have another birth in a particular place, to a particular parent and at a particular time.

But in one's horoscope, houses 9, 10, 11 and 12 are auspicious. These houses are above the horizon at the time of birth. He will also rise above the horizon, if everything is favourable, and reach the Heavens of Bliss. Actually, everyone will struggle against the bondage of physical nature and the lack of physical gratification: Swami Vivekananda says that out of this lower consciousness grows and broadens the higher conception of a mental or moral bondage and a longing for spiritual freedom. 9th house is Dharma, 10th Karma, 11th Kama and 12th Moksha. Thus Dharma, Artha, Kama, Moksha—the four are indicated by the 9th, 10th, 11th and 12th houses in the above order.

9th house, the house of Dharma and the 12th house, the house of Moksha are allotted to Jupiter. By that, one is to understand, if one observes Dharma and does his duty wisely, he will be fortunate to have a brilliant, wise Guru, as indicated by the House Sagittarius. Also Guru will instruct him to avoid evil deeds, just like a wealthy person carrying money will avoid dangerous roads and a man who wants to live long will avoid poison. If a man commits a sin, let him not repeat it again. But if he does good to any, let him repeat such deeds again and again to all.

The 10th house Capricorn shows, by his continuous and steady practice (the 10th house—Karma—owned by Saturn) one can meditate with patience, perseverance and faith and proceed. Calvin Coolidge has said "Nothing in the world can take the place of persistence. Talent will not; nothing is more common than unsuccessful men with talent. Genius will not; unrewarded genius is almost a proverb. Education will not; the world is full of educated derelicts. Persistence and determination alone are omnipotent. The Slogan "Press on" has solved, and always will solve the problem of the human race.

Samuel Johnson says "All the performances of human art, which we look with praise or wonder, are instances of the resistless force of perseverance: it is by this that the quarry becomes a pyramid, and that distant countries are united with canals. If a man was to compare the effect of a single stroke of the pick-axe or of one impression of the spade with the general design and last result, he would be overwhelmed by the sense of their disproportion; yet those petty operations, incessantly continued, in time, surmount the greatest difficulties, and mountains are levelled, and oceans bounded by the slender force of human beings."

The 11th house owned by Saturn gives him the steady mind and the strong desire—Kama—to reach the Goal. It also shows the *permanent tie of friendship* between you and God. Benjamin Franklin says, "And have we now forgotten that powerful Friend? Or do we imagine we no longer need His assistance? I have lived a long time; and the longer I live, the more convincing proofs I see of this truth: that God governs in the affairs of men. *And if a sparrow cannot fall to the ground without His notice, is it probable that an empire can rise without his aid?*"

The Goal is the 12th house. It is Moksha-eternal Bliss. It is to be sanctioned only by God according to our action. That is why the 12th house is ruled by Jupiter who represents God and who removes the confusion in the mind caused by Gemini, by owing the two houses which oppose and square Gemini.

Hence to an Astrologer, Religion is doctrine preaching various methods to attain perfect peace. One has to take the correct route guided by a well-experienced Preceptor. He must have absolute faith, and persevere till he reaches the Goal; just like one taps water from under the ground, sooner or later, if he does not give up his attempts, and if he goes on making efforts in the same lines in which the diviner has directed. Also real pleasure can be had only when one enjoys peace. For peace, pray, pray, pray till you achieve your aim.

To Correct

1. Aries ... Audacity which is egoism, arrogance.
2. Taurus ... Avidity, greed to possess—to call mine, mine, mine.
3. Gemini ... Turbidity—dual thoughts—indecisive.
4. Cancer ... Unstability—wandering of the mind.
5. Leo ... Attachment—
6. Virgo ... Eccentricity—moody—whims and fancies.
7. Libra ... Cupidity—lust passion.
8. Scorpio ... Stupidity—delusion.

To Cultivate

9. Sagittarius ... Charity and purity
10. Capricorn ... Sincerity and regularity
11. Aquarius ... Adaptability
12. Pisces ... Equanimity and real entity which is Bliss.

Tolstoy says, "I remember one day in the early spring-time, I was listening to the sounds of a wood, and thinking only of one thing, the same of which I had constantly thought for two years. I was again seeking for a God.

I said to myself, "It is well, there is no God, there is none that has a reality apart from my own imaginings, none as real as my own life—there is none such. Nothing, no miracles can prove there is, for miracles only exist in my own unreasonable imagination."

And then I asked myself, "But my conception of the God whom I seek, whence comes it?" And again life flashed joyously through my veins. All around me seemed to revive, to have a new meaning. My joy, though did not last long, for reason continued its work: "The conception of God is not God. Conception is what goes on within myself; the conception of God is an idea which I am able to rouse in my mind or not, as I choose; it is not what I seek, something without which life could not be." Then again all seemed to die around and within me, and again I wished to kill

After this, I began to retrace the process which had gone on within myself, the hundred-times-repeated discouragement and revival. I remembered that I had lived only when I believed in a God.

As it was before so it was now; I had only to know God, and I lived; I had only to forget Him, not to believe in Him and I died. What was this discouragement and revival? I do not live when I lose faith in the existence of a God; I should long ago have killed myself, if I had not had a dim hope of finding him. I only really live when I feel and seek him. "What more, then, do I seek?" A voice seemed to cry within me. "This is He, He without whom there is no life! To know God and to live are one. God is life! Live to seek God, and life will not be without Him". And stronger than ever rose up life within and around me, and the light that then shone never left me again."

Thus to all, whether one is a politician or a piousman, God is Love, and man has to be true and sincere.

MARRIAGE

1. Of all our enterprises, the most serious one is our marriage. This world itself will be a Heaven or a Hell, depending on one's state of married life.

Marriage is a matter of more worth
Than to be dealt in by attorneyship.
For what is wedlock forced but a hell
An age of discord and continual strife?
Whereas the contrary bringeth bliss,
And is a pattern of celestial peace.

—Shakespeare.

Only astrologers can certify this statement as wholly true, as many married couples individually meet the astrologers, narrate their difficulties and try to find out a solution. Also, the brides as well as the bachelors, consult the astrologers to know (a) when they will get married, (b) whether the partner will be healthy, wealthy, accommodative, adjusting, etc. Look at the anxiety of most of the married people to be freed from bondage, and also that of the unmarried, to get a good partner. When one witnesses the horrible life of a few married couple, one would prefer to remain a bachelor: but when one finds the disadvantages of the bachelor's life, one would welcome marriage. In both, there are advantages and disadvantages; pleasure and pain.

Yet married life is preferred, as

1. Marriage is not based on sentiments but on religious, moral, social and scientific principles.
2. It has an immense potency and contributes for long span of life.
3. The holy Vedas teach us that the married life is superior to either life-long celibate or an ascetic.
4. The wife is the presiding goddess of the house called Graha Lakshmi.
5. The wife is not for mere pleasure and enjoyment. It is she who bears children, performs household duties, partakes in religious

functions, nurses all relatives whenever they are ill.

That is why, in the religious scriptures, the Aryans had repeatedly said that the family in which the ladies are unhappy and dissatisfied, will perish, whereas the family in which they are honoured, respected, well attended to, and the ladies are happy, will prosper year after year. One is considered to be fortunate if one has a pleasing and accommodative wife: But if she happens to be arrogant and argumentative, adamant, and atrocious, how can they lead a harmonious wedded life? What an unfortunate fellow he is?

Astrologers, in their experience, come across with many a marriage, speaking more of matrimonial miseries than of harmony and happiness.

System of marriage: Amongst the Aryans, there were eight forms of marriage, whereas these differ amongst the other civilised nations.

Of the 8 forms which were in vogue long ago, only one at present exists. It is called Prajapatya form. According to this, the bride is given to a bridegroom, saying that they will ever remain as partners to do religious duties, and lead a happy married life. It was strictly prohibited to give or to take money from the bride's party.

A person is not allowed to marry during his student life. After completing his studies, he has to obtain permission from his Guru-Preceptor and parents, and marry a good girl of his own caste, and not own Gothra. Sapindya was in force.

Further they made selections after thoroughly examining the Girl's family and also finding astrologically whether the bride and bridegroom will lead a happy, harmonious and healthy life for long number of years.

Girl's family: The bridegroom is not allowed to marry a girl born in the HUF-NAKARI FAMILY in which the members

do not observe the religious rites or in the family, where all members are illiterates, called Nischanda family or in Nishpurusha family, where the bride has no brother or in the family in which the members suffer or suffered from T.B., Hysteria, Asthma, Leprosy, etc.

Also it is advised that the girls who are named after a bird, tree, hill, star, or river, are given another name.

Among the ancient Aryans, there was no early marriage. Nor any person was allowed to marry a girl older than him. Manu preferred the difference of age between the husband and the wife to be ten years.

Regarding the selection of the bridegroom or the bride, it varied widely. In India,

1. The princess was allowed to have her marriage by "Swayam Varam", making her own choice among the princes assembled in a hall.

2. The prince may meet any bride, fall in love with her and immediately take her as wife by "Gandarva Vivaham".

3. Others celebrated the marriage by observing any one of the following:—

(a) The parents are informed that there is a mutual agreement between the bride and the bridegroom. If they really love each other so much, as Mandavya Maharishi observes "Mano Jayanthu Mandavyo", the parents used to fix the marriage and celebrate it on an auspicious day at an auspicious time.

(b) A few used to bring to the notice of a good-natured, god-fearing and law-abiding "Vibra" gentleman, "BRAHMIN", and on obtaining his approval, they celebrated the marriage of a couple, following Janardhana Maharishi's advice. "Vibra Vakyo Janardhana:"

(c) Brahmaspathi stressed on Sagunam—Omens—So "Sagunanthu Brahmaspathi" is followed by some people. When the parents desire to fix and celebrate the marriage, they observe the omens. If it is good, they proceed and celebrate. But if there is ill-omen, the alliance naturally falls through.

Those who have completely surrendered to God, and those who have more faith in Him than in anything else, pray to God and place some coloured flowers, pick out one of them and if the desired colour is obtained, the marriage is celebrated. Otherwise, it is stopped without any other consideration.

Most of the people in India used to consult the astrologers to find out the longevity, prosperity, progeny, harmony, happiness, health and agreement among the couple, and whether there is Dasa Porutham between the two. Only when the astrologer approves, they consider the alliance and proceed further. The truth is that according to one's fate whomsoever one is destined to marry, is selected and the marriage is celebrated. In India, after marriage, the bride leaves her parents and lives with her husband in the husband's quarters.

There are a few uncivilized people in hilly tracts. The proposed bridegroom will be requested to live with the bride for a year and he is given a trial. If he proves to be alright, the bridegroom is allowed to marry her. Otherwise, he is rejected and this procedure will go on, till she finds a suitable partner. Look at the lot of the person. Only when a girl approves, he can have his wedding.

But amongst the Congo and some more tribes, the bride is taken upon trial for twelve months, and if she is not found to be good she will be sent back to her parents. In Formosa, the bride will take up the lead. She goes out, selects a person, marries him and takes him to her father's house. The bridegroom is considered to be one of the family members. So also, the boys born in that family will be selected by other girls, married by them and taken away by them to their families.

In other nations, the boy and the girl will fall in love with each other, have them engaged and later get married.

In Lapland, the selection of the partner is funny. The male and the female are asked to run a race. The girl will be given a handicap of one-third the distance. If the boy wins her in the race, he can have

her. Otherwise he loses the chance with this girl. If the girl does not like the boy, probably, she will run very fast, with strong determination to see that the boy is not able to overtake her. But if the girl likes the boy, she, probably, will adjust her speed and allow him to overtake her.

There are many funny ones like this.

Nowadays, some people may marry for love, some for position and rank, some for fortune, etc. If one understands the partner and tries to adjust, then it will be possible to lead the married life without losing one's prestige and honour which also is under the pattern of destiny.

In our experience we have found that he who loves a girl and marries her, takes her as his wife. But if he marries for fortune, then she will behave like a mistress. If the selection is made more for position and rank, then she will pose herself as a lady. A real wife will return your love. But the mistress will have some regard to you, whereas the lady whom you married for position will tolerate. The loving wife lives for you and she is your wife. But a mistress attends to the house and her friends, and the lady will lead a social life and spend much of her time in the society. Your wife will never differ from you but ever comply with your request. You will be ruled by the mistress and managed by the lady. Consider how the real wife whom you loved and married takes care of your household, whereas the mistress will look after your house and the lady your appearance. Even if you feel lazy to have the hair dressing, the lady will force you to attend to it; if you put on any old and torn one, she will give you a good dress and once for all dispose of the torn ones to the eversilver hawkers, in the street.

If your health fails and you are admitted in a nursing home, you cannot get a better nurse than your wife; but your mistress will pay visit during the hours allowed for the public, and your lady will inquire about your health through the car driver or office attendant, etc. Generally the loving couple will find pleasure by having evening walk, whereas the mistress will give you a ride in her car, if the time suits

her and if you make a request, whereas the lady will take you to a party given by her. If you are in distress, your wife will share the grief. The mistress will share your money and the lady will contribute to your debts. You cannot observe the following but it is a fact. If you die, your wife will cry and weep; your mistress will lament. But the lady will put on the mourning dress for some hours.

Bacon says: "Wives are young men's mistresses;
companions for middle age;
and old men's nurses".

According to Varahamihira,

Loving wife will clear her throat loudly, laugh only in the presence of the husband, rise towards him from her seat, request her husband to get her trivial and easily available articles, embrace and kiss their child in the presence of her husband, cast glances at her husband when he looks anywhere else, be mentioning his virtues, speak sweetly with him, spend that money which she has for his sake, feel very happy and delighted on seeing him, forget her anger, wink over his mistakes, extol his good qualities, pay much respect to her husband's friends, hate his foes, give expression to her gratitude to her husband for all the good he had done, feel lonely and miserable in his absence, offer him whatever he wants without any delicacy, embrace him, kiss him first, etc. Only lucky people can have such a wife.

But a living lady will put on a frowning face, turn away her face from the husband, or at least hold open a newspaper preventing her from seeing him, forget all the benefits done by him to her, neglect the presence of the husband, ignore him, mingle with her husband's enemies, be harsh if he interferes, assume arrogance, but help her husband whenever he goes away, feel more happy and free in his absence, wipe off the mouth if ever he kisses or spit away without delay, go to bed first and get up last. Unless one has committed enough sin in the previous birth, one cannot have a woman of this type as wife who lives only to enjoy her life. This is his fate.

Even though marriage is pre-ordained by the Almighty Providence and one has no

control at all, over the selection of one's partner in life yet, there are many who consult Astrologers to find out the probable bride or bridegroom, the time of marriage and the state of married life.

Of them, a few do not know even the year of birth. For them, our sages have given out a simple method of ascertaining his or her nakshathra, by taking the first alphabet of their names and then judging the compatibility by applying "Dasa Porutham". It should not be given much importance, as nowadays the names are not given by the parents taking into consideration the Nakshathra or Star or the constellation in which Moon was at the time of birth.

Another method also cannot be much relied upon. Horoscopes are erected for the time of maturity of the bride and they are compared with the birth charts of the bridegrooms. How far the time taken to cast the horoscopes, can be correct is left for you to consider.

But it is advisable to cast the horoscopes of both the boy and the girl using "Drik" method of calculations; or by using Raphael's ephemeris and then erecting Nirayana charts by deducting Ayanamsa from the Sayana chart.

The horoscope of each has to be judged individually for longevity, health, finance, fortune, children, harmony, mutual, affection, temperament etc.

This deep study is more important than Dasa Porutham. If the charts promise long life with health and happiness to both, then even if dasa porutham is lacking, the married life will be absolutely satisfactory. But if the strength of a horoscope is unsatisfactory and either longevity or harmony, is denied, even if all the poruthams—the so-called dasaporutham—is excellent, how can one expect happy married life for at least some years? Is there any meaning in painting a collapsing wall? How can one erect superstructure when the foundation is very weak? If the beautiful tuft of a lady can be compared to the longevity and happiness in married life, a flower can be compared to dasa porutham;

is the tuft. When there is no tuft, how can you make use of the flower? Similarly dasa porutham alone cannot give happy life for a long period if the horoscopes are not good, individually.

1. **Longevity:** Therefore, before proceeding to observe Dasa porutham, find out whether long span of life is promised to both of them. Is it not foolish to marry one who is short-lived?

2. **Health:** What is the use of inviting colic patients for a feast; or, taking a blind man to an exhibition or park; or taking a deaf fellow to a music concert or offering him a stenographers' post; or presenting an elephant to a beggar? So also, giving a girl in marriage to an unhealthy boy is not wise. Still worse will be to marry an unhealthy girl.

3. **Finance:** It is said that money makes many things. At least by having satisfactory bank position, one can try to please the partner and purchase peace. If there is no income, poverty will cause miseries in married life. People, having income much less than the minimum necessity to run a family, can better remain unmarried than to spoil the life of the partner. Therefore, astrologers will scrutinise this point also.

4. **Future:** One might have been born poor. But yet, the future will be much promising. In such cases, the parents will be informed about the bright future of the couple and the alliance will be recommended.

5. **Children:** Just like trees with beautiful flowers and fruits, tanks with lotus, and the sky with full Moon can offer pleasant feeling to one, so also the children at home will contribute for the happiness of the couple. Our sages believe in the production of many children, and hence they bless the couple to have ("Bahu Puthra Labham"). A person may have all comforts in this life. Yet the life is incomplete, if he has no child. Especially in his or her last days, he or she will have a feeling similar to an occupant of a hotel room, vacating it, leaving behind all those com-

forts be enjoyed there temporarily, as long as he stayed there.

6. **Harmony:** One can have long life. He may also maintain robust health. But his or her life is a Hell, if there is no good understanding among themselves. They should know that unity is strength. They should realise that each should contribute happiness to the other. If there is no understanding, mental worry, financial trouble, debts, difficulties etc., will be ever increasing. We have seen many instances where the couple will be ever quarrelling but never failed to have children once in 18 months. What a life it is?

Therefore an astrologer has to scrutinise the horoscopes individually for the above six points. When all the above are satisfactory, then alone, it is advisable to look to the Dasa Porutham.

Dasa Porutham :-

'DINAM GANAMCHA MAHENDRAM
SITHREE DHEERGA YONIREVACHA
RASI RASADHIPATHI BOWVASYAM
RAJUR VEDHACHA DHE DHASA'.

The ten agreements which are generally observed are

1. Dhina Porutham
2. Gana Porutham
3. Mahendra Porutham
4. Sthree DheerGa Porutham
5. Yoni Porutham
6. Rasi Porutham
7. Rasyadhipathi Porutham
8. Vasya Porutham
9. Rajju Porutham and
10. Vedhai Porutham.

1. Dhina Porutham :-

"Dhinath Ayushyam Arogyam"

"Brahmanam Dhiam Sreष्ठam"

If there is Dhina Porutham between the bride's star and that of the bridegroom, if they get married, they can have health for long number of years. Whether other agreements are satisfactory or not, Brahmins give more importance to Dhina Porutham.

(If according to an individual chart, long life is not promised, but he or she

marries on the strength of Dhina Porutham, how can this agreement offer him long life. That is why, we emphatically, suggest to look to the longevity, health, prosperity etc., in each horoscope separately.)

2. Gana Porutham :-

"Sobhanam Ganamevcha"

"Kshathriyaram Ganam dhutha"

To lead a pleasant and happy life with social and pleasant functions etc., this agreement is necessary. Kshathriyas consider this as very important.

3. Mahendra Porutham :-

"Mahendrabrath Puthra Vendhisraya"

If there is Mahendra Porutham among the couple, it indicates that they will have children. If a boy's horoscope denies birth of children to him how can he have any, even if he marries a girl with Mahendra Porutham.

4. Sthree DheerGa Porutham :-

Sthree DheerGa Sava Samuth.

If there is three DheerGa Porutham, they can enjoy all the fruits of life in this world.

5. Yoni Porutham :-

Yoni tho Dhaspathi Sambhava.

Soothranam Yonir evacha

For good understanding, happiness and harmony among the couple, this agreement is necessary. Non-brahmins consider this agreement to be more important than others.

6. Rasi Porutham :-

Rasacham Vamsa Viddhi.

Rasi mantranthe Val Syanam.

If there is Rasi agreement, the couple will be blessed with children. Business people desire this most.

7. Rasyadhipathi Porutham :-

Santbanam 'Rasi adhipathi'. This agreement also indicates birth of children and prosperity.

8. Vasya Porutham :-

Vasyachamvaya Vahyakam.

Mutual attraction and affection promising inseparable temperament is shown by this agreement.

Rajju Porutham:—

Rajju Mangalya Vidhisayath.

This Porutham gives courage to the girl that her husband will outlive her after leading the wedded life for long number of years.

10. Vedhai Porutham:—

"Vedhaya Soka Nasanam."

If there is no Vedha, there will be no evil effects in married life. They will not feel sorry for having had such a match.

Thus, there are ten methods of ascertaining the various aspects of married life.

Half baked knowledge is dangerous.—A few are under wrong impression that every porutham indicates harmony among the couple. It is incorrect. Further, these agreements are given in the local almanacs. Some people go through only those mentioned briefly in the almanacs, find out whether there is agreement or not and give freely their opinion. Honestly we feel that they cannot commit a worse sin than this. They are strongly advised not to offer any opinion unless they have a thorough knowledge and vast experience.

Which Panchang to follow to erect the horoscopes.—In India, innumerable almanacs are available. The authors follow any one of the 18 Siddhantas. Therefore charts erected to the same birth using different almanacs differ much. The Nakshathras will be different. There may be change in the rasi. The dasa bhukti balance at the time of birth do not agree. Thus no two almanacs give the same position of planets.

As Drik System is astronomically correct, follow Drik System alone and erect the horoscopes, of those which are to be matched for matrimonial purposes.

Defect in Dasa Porutham.—While judging the horoscopes one does not take into consideration, the Ascendant—Lagna and the position of other planets. Only the star's position (i.e.,—the star and the rasi alone) is considered. It is incomplete and the prediction offered cannot come true in the state of married life.

This method is useful only for those

who do not know the correct time of birth but somehow remembers his or her star.

1. Dhina Porutham.—Here, "Dhina" means Nakshathra or star of the bride and bridegroom.

In Kalaprakasika it is observed that one has to count the Nakshathra of the bride as 1, the next star to her star as 2, the next 3 and so on; count up to the star of the boy include his star also. Suppose a girl is born in Karthikai and the boy in Rohini, then you have to count Karthikai as one and Rohini as 2: So the boy's star is the second from that of the girl. If the girl is born in Karthikai and the boy in Punarvasu, one has to count Karthikai 1, Rohini 2, Mrigaseerisham 3, Thiruvadhirai 4 and Punarvasu 5, thus including both the stars of the bride and bridegroom and say that his star is the 5th from that of the girl.

Whether to count from the star of the girl or from that of the boy is also in controversy. Some count from that of the bridegroom and most of the scholars count only from that of the bride. In Kalaprakasika it is said that the counting must be commenced from that of the Girl ("Sthree Janma Dharam Arabya") Another author observes as "Vathoo Nakshathram Arabya". Therefore we have to count only from the star of the girl.

There are totally 27 stars. So the boy's star, may be either the same star of the girl or any one between 2 and 27.

For Dhina Porutham, it is easy to divide the 27 stars into three groups. The first group will commence from the girl's star and end with the 9th, then again the 10th is counted as one, 11th as two and so on till 18. The 19th star from that of the girl is counted as one, the 20th as 2 and so on and the 27th will be counted as the 9th.

The stars from 1 to 9 are said to be in the first pariyaya; Those between 10 and 18 are said to be in the second pariyaya; 19th to 27th stars are in the third pariyaya.

The star of the person is said to be Janma Nakshatra; the 10th star is called

Anujanma Nakshathra : the 19th star is Thrijanmam. If Aswini is the star of the boy or girl, Makam will be Anujanma and Moolam Thrijanma.

If Barani is the star of either, Poorvapalguni is Anujanma and Poorvashada is Thrijanma.

If Karthikai is the star of one, Uthrapalguni is Anujanma and Uthrasada is Thrijanma. Thus one has to observe.

Suppose one is born in Poorvashada. Then Poorvashada is Janma, Bharani Anujanma and Poorvapalguni Thrijanma.

If one is born in Makam star, Makam is Janma, Moolam is Anujanma and Aswini is Thrijanma. The following table may be useful :

Janma	Anujanma	Thrijanma
Aswani	Makam	Moolam
Barani	Pooram	Pooradam
Karthikai	Uthiram	Uthradam
Rohini	Hastham	Saravananam
Mrigasirisham	Chithrai	Dhanishta
Arudhra	Swathi	Shayam
Punarvasu	Visakam	Poorattadhi
Pushyam	Anusham	Uthirattadhi
Ashlesha	Jyeshtha	Revathi

The star of a person is called Janma : The second is "Sampath" (Prosperity); the third Vipath (danger); the 4th Kshemam (happy); the 5th is Prathyaram (undesirable); the 6th is Sadhakam (favourable); 7th is called Vatham (Torture, massacre); the 8th is Maithram (friendly) and the 9th star is parama Maithram (intimate friendship). Thus in each pariyaya, the 2nd is sampath, the 3rd Vipath, the 4th Kshemam and so on.

How to judge whether there is Dhina Porutham or not?

The Best agreement—(Uththamam)

Count the star from that of the girl. The star of the boy may be in the first or the second or the 3rd pariyaya. Whatever be the pariyaya, if the star of the boy is the Sadhaka 6th or Kshema the 4th or Paramamaithra the 9th they agree most satisfactorily.

[6, 15, 24; 4, 13, 22; 9, 18, 27 stars agree];

Maddhimam—Moderate agreement:

Janma, Anujanma, Thirujanma stars.

Sampath the second, Maithram the 8th are auspicious.

[1, 10, 19; 2, 11, 20; 8, 17, 26 stars also agree]

Special rules: If the boy's star is 3 or 5 or 7 in the first pariyaya, they do not concord.

If the boy's star is the 3rd in the second pariyaya, reject only the first quarter of the star i.e., the boy's star may be 12 from that of the girl. If his birth would have been in the first quarter, discord it. If the birth were to be in the 2nd, 3rd or 4th pada or quarter of the star, you can match them. They agree. If the boy's star is the 5th star in the second pariyaya, only the 4th pada is to be rejected. So also do not match if the boy is born in the 3rd pada of the seventh star in second pariyaya counted from that of the girl. Other padas agree.

If the star of the boy is in the 3rd pariyaya reject if the star of the boy is in the 8th pada. A few authors allow the 7th star in the 3rd pariyaya and a few reject it.

But, we consider the whole horoscope and if the lord of the 7th star is a benefic, we do match it but if the lord of the 7th star rules evil houses, we reject it outright.

(e.g.) Suppose one is born in Leo or Simha Lagna. Her star is either Barani or Poorvapalguni or Poorvashada star. Then the lord of her star is Venus-Sukra. The seventh star in the third pariyaya to Barani is Uthirattadhi; the seventh star in the third pariyaya to Poorvapalguni is Pushyam and that to Poorvashada is Anuradha. These three stars Pushyam, Anuradha and Uthrapathrapada are governed by Saturn. As Simha or Leo is the Lagna-Ascendant, Saturn rules the 6th and the 7th houses, it is evil to those born in Simha. Hence reject.

But if the Lagna-Ascendant is Taurus-Rishaba, for which Saturn is a benefic, match the horoscopes.

Suppose Uthrapalguni first pada was the star of the bride. Moon will be in Simha.

The trine stars, Karthikai, Uthiram and Uthiradam are ruled by Sun. The seventh stars in the third pariyaya to these three stars are Revathi, Ashlesha and Jyeshtha. If the Lagna of the girl, is Taurus, Gemini, Leo, Libra, Sagittarius and Capricorn, we say that Mercury the lord of Revathi etc., is a benefic to these Lagna-borns; hence the girl born in Uthrapalguni first pada can marry one born in Ashlesha; or one born in Uthirashada first pada will concord with Jyeshtha; or one born in Karthikai star will agree with Revathi husband. But if the Lagna is Mesha, Mercury is the lord of 3 and 6. To Scorpio, Mercury is lord of 8 and 11 and so on. Hence Mercury is definitely an evil and we do not approve the matching of the brides born in Sun's star with the bridegroom born in Mercury's star.

Twenty seventh star:—Special rule :

“ Sapha Vimsadhipam Thyajyam
Binna Rasi Gatham Yathi ”

If the star of the boy is, the 27th when counted from that of the bride and if Moon were to be in the same sign in their horoscope, they concord ; But if the Moon sign of the boy is the 12th to that of the girl they do not concord. Suppose one is born in Makam star. Then the Moon will be in Leo-Simha. If the boy is born in Ashlesha, Moon will be in Cancer-Kataka. According to this rule they do not agree. But if the bride is born in Ashlesha having Moon in Cancer, she can marry one born in the 27th star Pushyam with Moon in Cancer according to this rule. One has to reject a boy born in Chithirai first half having Moon in Virgo, but select a boy born in Chithirai second half with Moon in Libra-Thulam, for girls born in Swathi Nakshathra when Moon will be in Libra-Thulam.

If the star of the bride and the bridegroom is one and the same, a few can be matched and some are not approved by our sages: Even here, there are some controversial statements.

Uthamam-Excellent: If their stars were to be either Rohini or Arudhra or Makam or Hastham or Visakam or Sravanam or or Uthirattadhi or Revathi the agreement is excellent.

Maddhimam-Moderate: If both are born in the same star and if it were to be either Aswini or Karthikai or Mrigaseerisha or Pushya or Poorvashada or Uthirashada, the agreement is moderate. They do agree.

Athamam-Useless: If both are born in any one of the following stars, reject.— They are Barani, Ashlesha, Swathi, Jyeshtha, Moolam, Dhanishta, Sathabisha and Poorvapathrapada. Therefore, if the nakshathras of the boy and the girl is same, the first mentioned 8 stars are excellent, the next 11 stars are fair whereas the 8 stars in the third group are to be ignored.

Same star: But Moon in different signs: Suppose Karthikai is the star of both the bride and bridegroom. Moon may be in Aries-Mesha or Taurus-Rishaba. You can match (a) if both have Moon in Aries or (b) if both have Moon in Taurus or (c) if the bride has Moon in Aries and the bridegroom in Taurus. You should not match a girl having Moon in Taurus in Karthikai star with a boy born in Karthikai star but having Moon in Aries.

“ Vatham and Vainasikam : ”

If the boy's star is the 7th when counted from that of the girl, it is termed as “Vatham”. Naturally the girl's star is 22nd when counted from the star of the boy and it is called “Vainasikam”. Such a combination does not receive the approval of the sages. But there is some exception and the effect of celebrating such a marriage is exhaustively dealt with by Kasyapa Maharishi.

He warns the girls born in the six stars Karthikai, Ashlesha, Chithirai, Anuradha, Dhanishta and Sathabisha not to marry the boys born in the 7 stars, Ashlesha, Swathi, Poorvashada, Dhanishta, Barani and Karthikai. He expects the married life to be very short.

But he approves the match between a girl born in Arudhra, Poorvapalguni and Pushya and the boy born in the 7th star counted from them.

Also he adds:

1. Happiness and birth of children are

promised if Punarvasu girl marries Hastham boy.

2. Just opposite results will be experienced by a Jyeshtha girl if she takes a Sathayam boy as her husband.

3. Mrigaseerisham girl will lose early her husband born in Pooram.

4. So also Hastham girl should not venture to marry a Moolam boy.

5. Many children are born to Rohini girls by marrying Makam boy.

6. Similarly, Poorattathi girl will be the mother of many issues if her husband is born in Rohini.

7. Aswini girls get dejected by having many daughters, one after the other, by accepting a Punarvasu partner.

8. Swathi girls give consolation to Aswini girl as she also brings forth many daughters as her husband would have been born in Uthiradam star (the 7th).

9. Revathi girls with Arudhra boys, and Uthrapattuni girl with Jyeshtha boys do not lead a happy life. There will be no understanding among the couple. Gradually, they develop hatred and sooner or later decide once for all to be ever enmical. A few will get separated. In other countries, they will have frequent divorces.

10. If the girl's star is Makam, she will have children. But they will be wicked.

11. Visaka girl will hate Sravanam husband.

12. Sravanam girls will divorce Aswini boys.

13. Uthirattathi girls lose their husbands early by marrying the boys born in the 7th star.

14. Uthiradam girls enjoy all the fruits of life in this world by marrying the boys born in the 7th star.

15. Poorvashada girls develop more and more of affection towards their husbands and lead a happy life.

16. Barani star girls, when fortunate, take Pushyam star boys.

Thus sage Kashyapa has given his findings so that one can boldly select or reject the 7th star.

Auntie's Proverbs: Learned astrologers have observed that no evil result is indicated whatever be the star of the Boy. His star may be any one of the 27 stars. There is no malefic effect.

But girls born in certain nakshathras indicate certain undesirable results. Such stars are only four in number. They are Moolam, Ashlesha (Kettai)-Jyeshtha and Visakam. Even then, only when Moon was in a particular pada or quarter of the nakshathra it is considered to be evil.

Danger to father-in-law is threatened by Moolam first pada bride. Evil to mother-in-law is indicated by Ashlesha 1st pada girl. Jyeshtha 1st pada bride is dangerous to her elder brother-in-law. But Visakam 4th pada girl shows anxiety to her younger brother-in-law. The other padas are not harmful. That is all, what our sages have said.

But certain wicked people compose some dirty proverbs and reject the offer of a bride born in any one of the 4 stars. They do not consider anything else. Let me quote one or two proverbs.

"Pen Moolam Nir Moolam". That is, girls born in Moolam star are very unfortunate and wherever she goes, she will take with her "Misfortune." In reality, there is no truth in such proverbs.

They used to add "Aun Moolam Arasalum". That is, boys born in Moolam star will rule the kingdom. One in 27 of the population will be born in Moolam and half of them may be males. We do not know to which kingdom they are the lords. Let us ask them whether they had taken pains to verify a few cases at the least. We boldly say that actually the Moolam bride is happy and rich whereas the Moolam boy is leading a miserable life. Moolam girl is the landlady and Moolam boy is a servant. Moolam girl lends money to Moolam boys. Moolam girl gives lift in her car, to a Moolam old man who walks on the tar road, in the hot sun, even without chappals. Moolam boy sells his wife's jewels to a Moolam girl who purchases them for her use.

Let us pose some questions.

Some boys lose their father immediately after marriage. Have all of them married girls born in Moolam? Some boys complain a lot of difficulties to their mother, soon after their marriage. Have they married the brides born in Ashlesha 1st pada. A few say that they lost their elder brother immediately after marriage, had they married Jyeshtha girls. Similarly collect facts and consider. You will find that the fathers-in-law passed away even though the girls are born in all the 27 stars. Similarly some lost mother-in-law, some brother-in-law, and so on. Therefore to attribute any such occurrences only to the nakshathra of the bride is not wise. Suppose a girl is born in Moolam first pada; she marries a boy. Is it certain that her father-in-law will pass away. Should not his horoscope indicate that his end will be immediately after his son's marriage with a Moolam girl? If his horoscope promises long span of life, how can this bride shorten it, by marrying his son? If the

father-in-law does not die, will she administer poison? Are there not many Moolam girls having fathers-in-laws for many decades after marriage? Do girls born in other stars promise long life to father-in-law.

Therefore, do not pay heed to all these proverbs. To reject the horoscope of girls born in Moolam or Ashlesha or Jyeshtha or Visaka is not wise. One has to judge the whole horoscope and find out the results. To select or reject on any one point, taking only Moon's position into consideration is not correct.

A few exceptions:—If the star of the girl or the boy is either Mrigaseerisha or Makam or Uthiram or Hastham or Swathi or Anuradha or Uthrashada or Uthiratadhi, one need not see dasaporutham at all. They can marry even when there is no dhina porutham. etc. (Yet the special rule to the 7th star is to be considered)

(will be continued)

ERECTION OF HOROSCOPE

By

JYOTISHA VISHARATH K. GANAPATHY

In our issue of June 1963, it was explained how to find out the sidereal time at birth with reference to a birth at 6-30 P.M. Indian Standard Time on 15th May, 1963 at Agra while the method of fixing up the exact position of the 12 cusps was explained in detail in the August issue.

Now, we will explain how to find out the planetary position for the above birth with Raphael's Astronomical Ephemeris, which is to be followed to have a correct chart. What Ephemeris is, has been explained already.

You all know that the Standard time followed in India is 5½ hours in advance

of Greenwich Meantime. The position of planets, i.e., the longitude of planets printed in the Ephemeris is worked out for 12 Noon at Greenwich for each date, or 5-30 P.M. I.S.T.

The example taken here is the birth at 6-30 P.M. which is 1 P.M. G.M.T. (i.e., 6-30 P.M.—5-30 hours = 1 P.M.)

You turn over the pages 10 and 11 in the Ephemeris where the planetary position for the month of May, 1963 is given. Find out the position on 15th and 16th as the birth has taken place in between these two dates. The following are the positions of planets:—

Planets	Symbol	Position on 15-5-63	Position on 16-5-63	Motion for a day
		deg. mt.	deg. mt.	de. mt.
Sun	☉	23 ½ 56	24 ½ 54	0—58
Moon	☾	10 = 50	24 = 04	13—14
Mars	♂	21 ½ 09	21 ½ 35	0—26
Mercury	☿	(R) 27 ½ 58	27 ½ 25	0—33
Jupiter	♃	9 ½ 18	9 ½ 30	0—12
Venus	♀	25 ½ 43	26 ½ 55	1—12
Saturn	♄	22 = 49	22 = 51	0—2
Rahu	♊	23 = 34	23 = 31	0—3
Uranus	♅	1 ½ 10	1 ½ 10	Nil
Neptune	♆	(R) 14 ½ 2	14 ½ 00	0—2

(R) indicates that the planet is retrograde)

The motion of each planet for a day, i.e., 24 hours is given above. As birth has taken place 1 hour after 12 Noon, Greenwich or 1 hour after 5-30 P.M. I.S.T. for which the position of planets is given, you have to find out proportionate movement for the interval and add the same to the position on the 15th, if the planet is in direct motion or deduct it if

the planet is retrograde. Rahu's position is given on the top of the right hand side on page 11 as Moon's Node. You have to add 180° to fix up Kethu's longitude.

Sun moved '58' in 24 hours and in 1 hour it would have moved 58/24' or 2-10/24 mts. So add 2 mts. to the position on 15-5-63. Moon, moved 13°-14' or

794 mts. in 24 hours. In 1 hour, Moon has moved $794/24 = 33\frac{2}{24}$ mts. So add 33 mts.

Mars has moved only 26' in a day and in an hour it would have moved only 1' which is to be added.

Mercury also has moved only 33' in 24 hours. So in 1 hour it has moved 1.9/23 mts. So 1' is to be deducted from the position on 15th as Budha was retrograde (Vakram).

Jupiter has advanced only 12' in a day and in an hour it would have moved $1/2'$. So we can add 1' to the position given for 15th. Sukra (Venus) had a motion of $1^\circ 12'$ or $72'$ for 24 hours. In 1 hour Sukra would have moved $72/24 = 3'$ which is to be added.

As Saturn, Rahu, Neptune moved $2'$, $3'$ and $2'$ only for 24 hours, you can take the same position for them as on 15th Noon

G.M.T. Uranus did not move at all. Thus we have worked out the exact movement of each planet for the birth time. The following are the planetary positions:—

Sun	☉	$23\ 8\ 56 + 0 - 2 = 23\ 8\ 56$	
Moon	☾	$10 = 50 + 0 - 33 = 11 = 23$	
Mars	♂	$21\ 09 + 0 - 1 = 21\ 09$	
Mercury	☿	$27\ 58 - 0 - 1 = 27\ 57$	
Jupiter	♃	$9\ 18 + 0 - 1 = 9\ 19$	
Venus	♀	$25\ 43 + 0 - 3 = 25\ 46$	
Saturn	♄	$22 = 49$	$22 = 49$
Rahu	♊	$23 = 34$	$23 = 34$
Kethu	♋	$23 = 34$	$23 = 34$
Uranus	♅	$1 = 10$	$1 = 10$
Neptune	♆	$14 = 2$	$14 = 2$

The above is Sayana position. You have to deduct the Ayanamsa $23^\circ 15'$ to find out the Nirayana system.

		Nirayana Position	Constellation	Pada
Sun	deg. mt.	deg. mt.	deg. mt.	
Sun	$23\ 8\ 50$	$-23-15$	$0\ 8\ 45$	Krithigai 2
Moon	$11 = 23$	$-23-15$	$18\ 08$	Sraavanam 3
Mars	$21\ 09$	$-23-15$	$27\ 55$	Ayilyam 4
Mercury	$27\ 57$	$-23-15$	$4\ 42$	Krithigai 3
Jupiter	$9\ 19$	$-23-15$	$16\ 04$	Uthirattathi 4
Venus	$25\ 46$	$-23-15$	$2\ 31$	Asvathi 1
Saturn	$22 = 49$	$-23-15$	$29\ 34$	Avittam 2
Rahu	$23 = 34$	$-23-15$	$0 = 19$	Punarpushyam 4
Kethu	$23 = 34$	$-23-15$	$0 = 19$	Uthiradam 2
Uranus	$1 = 10$	$-23-15$	$7\ 55$	Makam 3
Neptune	$14 = 2$	$-23-15$	$20 = 47$	Visakhham 1

The next stage is to erect the Rasi and Navamsa Chakra from the Nirayana position as follows:

Now you have to find out the Dasa balance at the time of birth from the Nirayana Position of Moon. Each star is $13^\circ 20'$ in longitude; i.e., 360° is divided equally for 27 stars. Here the birth star (Janma Nakshatra) is Sraavana which is ruled by Moon and its total Dasa period is 10 years. If the birth had taken place at the start of Sraavanam, then the balance of Moon Dasa at birth will be 10 years. As the birth had taken place after Moon

had advanced $8^\circ 8'$ in Sraavanam, it has to move only $5^\circ 12'$ more to complete its transit in that star and enter into Avittam. So the period is to be calculated i.e., $8^\circ - 8' = 488$
 $\frac{488}{13^\circ 20'} \times 10 \text{ years} = \frac{488}{800} \times 10 \text{ years} = 6 \text{ years } 1 \text{ month } 6 \text{ days}$. So you deduct this from 10 years to find out the exact period of Moon Dasa to be enjoyed during the native's life.

10 years 0 month 0 day
 - 6 years 1 month 6 days
 = 3 years 10 months 24 days

Now you have arrived at the figure, which you have to write below the nirayana rasi, amsa chakram as follows:

At the time of birth, balance of Moon Dasa is 3 years 10 months and 24 days. (கரப்பச்செல்லு போக மீதியிருப்பு.)

The last item to be calculated for the above birth is the position of "FORTUNA", the symbol is ⊕.

This you will get by adding the longitude of Moon and Lagna (Ascendant) and by deducting the longitude of Sun as follows:

Moon's position is 11° 23' (Sayana) 311° - 23' +

Jupiter 16°-4'	Venus 2°-31'	Sun 0°-35' Mercury (R) 4°-42'	
			Rahu 0°-19' ⊕ 13°-6' Mars 27°-55'
Saturn 29°-34'	RASI CHAKRAM		Uranus 7°-55'
Moon 18°-8'			
Kethu 6°-19'		Lagna 25°-33' Neptune 20°-47' (R)	

Add Asc.'s position is 18° 48' (Sayana) $\frac{228^{\circ} - 48'}{540^{\circ} - 11'}$

Deduct Sun's position 23 8 - 50' $\frac{53^{\circ} - 50'}{486^{\circ} - 21'}$

As it is more than a circle deduct $\frac{360^{\circ} - 00'}{}$

Fortuna's position at birth (Sayana) $\frac{126^{\circ} - 21'}{6^{\circ} 21'}$

Deduct Ayānamsa to find out Nirayana position $6^{\circ} 21' - 23^{\circ} - 15' = 13^{\circ} 06'$

This also is to be included in the rasi, amsa chakras and in the place where the position of other planets are given.

Mars	Venus Neptune (R)	Lagna	Moon Uranus
Mercury (R)	NAVAMSAM		Rahu
Sun Kethu			
	Jupiter	⊕	Saturn

The other birth examples will be explained in the subsequent issues.

HUMAN PREDICAMENT DESTINY—(Contd.)

By

K. S. ANANTANARAYANAN

(Soul) & 'Jeeva' is the Soul enclosed or encased in the sheath of *vasanas*, the reaction product of all *gunas* of the material and universal mental mould. *Vasanas* are just like petals of lotus flower that open up at the sight of the Sun and close up at its setting. (The crossing of latitudinal and longitudinal forces at any point results in cyclic formations, as waves, and *vasanas* close up the ego as if enclosed in a bud.) Soul is the theoretical representation of a fraction of the Supreme Soul, and Jeeva minus *vasanas* is the Soul. In Reality Soul is same as the Supreme Soul. (Aham Brahmosmi is Absolute Truth).

Karma: The necessary concomitant activity and dynamism of the Universal mind surcharged with actions and reactions of the Pure and Qualified Maya Sakti at every instant. Karmic reactions are infinite chain reactions transferring their centres from one individual to another, just like money circulating systems, where the recipient of a particular result or experience is already prepared to receive the same from the previous Karmin. Here we are concerned with a dynamism of forces of action and reaction, and not with individuals. For instance, when a curse or blessing is experienced by an individual as a punishment or as an award, the forces emanating from that experience of that individual does not stop with him altogether, the laws of karma provide a recipient for further transfer of the good or the evil in the environment of the individual, which crops up at a suitable moment in the individual's life. (This is indicated in the natal chart of the individual, and also in the progressed positions of the planets). From the point of view of the Subject, karmic reactions and actions are taking place simultaneously, in the 'small' subject, Man or in the Bigger Subject, the

Supreme, always trying to bring about the Equilibrium and Detachment of the Supreme, (in the individual's case, making him a Jeevan Muktha). Considered from the Objective point of view, Karmic reactions are eternal, because the Object is the Environment, in which the Supreme Soul is split, as it were into multi-million tiniest components as it were, of infinitesimal magnitude called the Universal Mind, the Relative Existence, the Maya Kingdom, in which every tiny creature is just a toy in the interplay of Supreme Power & Prakriti, being kicked about here and there, but all the time being governed by infallible, though inscrutable laws.

Vasanas: Refer collectively to characteristics or nature, and tendencies that cover the Soul, as an envelope, making it a jeeva and this covering and encasing of the Supreme as already mentioned is the Maya of dualistic nature, the resultant of Supreme Power and Prakriti. The Supreme Being is split as it were by the vast expanse of Maya Sakti into infinite 'sparks of flame' clouded by the Maya, the Universal Mind. In addition to this universal clothing, the individual Jeeva might have developed his own encasement and fettering by the application of his egoism in the field of his own environment and objects, which may be likened to latitudinal forces of attraction of the material world, as he is also made of the same material mould. *Vasanas* refer to *Objec...* only.

Manushyaha (Man): In the hierarchy of Creation, Man occupies the highest rung of Evolution in the physical, mental, and spiritual planes. He is made up of the Universal three components; the Subject, Predicate, and Object. His subject is the tiniest fraction of the Supreme Soul, called *Athma* or Jeeva *Athma*. His Object is the Environment,

including his Mind, and His Predicate is the destined Karma, he has to accomplish. The Universal Mind or Maya is inseparable from the Supreme Power, for its existence is partly due to the Supreme Power and Prakrithi Sakthi, and Supreme Power itself is inseparable from the Static Supreme Being. According to Vishnu Suktha, the Supreme Being is situated in every conceivable particle of matter or being, of the seen and unseen, heard or unheard. So Man is made up of the Subject, Supreme Being, (with its own Parasakthi which is inseparable), his Mind (which is a combination of the Universal Mind fraction and his own developed tendencies by the application of his own egoism) which is the Object which includes his material mould as well, and his Karma is his Predicate. We use the word 'I' to connote possession of the body and the mind when we say, it is my mind, and it is my body. We do not identify I with Body or Mind, and this sense of 'I' is something alien to Body or Mind. This refers to the Soul; the imaginary part of the Supreme Soul, or the Supreme Ego. That 'I' is Reality, and is neither the Mind nor the Body, for it is the Supreme Being and Supreme State, in which all the Supreme Power is contained.

The different capacities of men and women physically, intellectually, and spiritually, though varying in degrees (as may be easily deduced from analysis of hundreds of horoscopes) and though individuals pass through different vicissitudes of life, and experiences, yet Humanity is a pattern by itself in the hierarchy of Creation. Man is a miniature Universe, in that, in his physical make-up, he has all the characteristics and functions of everything of the Objective Universe, Prakrithi; he has a part of the Universal Mind; and above all, he has the 'I', which as we have mentioned is the Supreme State. That would mean, that Man is at a particular stage of the Divine Evolution in Man, and is on the way to Absolute Divinehood, the exact stage depending upon his own realisation of the 'I'.

Further it is an interesting fact, that cannot escape anybody's observation, that

in the hierarchy of Creation, there is a certain sign of superiority or leadership in every species and each species take directions or training as it were from the next higher evolved being. Even among men, some men are born leaders while others follow. Of course that is ascertaining tendency of the developed Ego; (if the development is along the latitudinal, or Objective direction), then Egoism is rampant and if towards the Subject, longitudinal, then there is purity and power in the right direction). Thus Man has attained a stage in the evolutionary ladder, that he is in a position to carve the destiny of the lower species, and even amongst them, the more developed Ego is able to command, lead and carve the destiny of the underdeveloped. It must be noted in passing that the Direction of Development of the Ego,—towards the Subject or Object is the Most Important, as the following will make the point clear.

Why should there be a gradation in evolution, and what is the ultimate destiny of all creatures?

The simple and most sublime truth is the Realisation that 'I' is identical with the Supreme Being, when Truth is realised; the Universal Sankalpa or Supreme Destiny is to make every Jeeva realise this truth, and lead the same to Divinehood; of Supreme Being, from which no Power is dissociated.

Good and Evil (Papa & Punyam):

Throughout the Science of Astrology, which deals with Human Karmic reactions, fortunes and misfortunes of individuals are attributed to the good and evil done by the subject in the past; and it is said that these are reflected by the positions of the planets in certain uncongenial houses with evil aspects by the Krura grahas such as Saturn, Mars, Rahu, Uranus, Neptune, etc. With bad dasas of planets in debilitation, and retrogradation, subjects of certain lagnas experience series of troubles, difficulties, obstacles in respect of the various houses of the horoscope, governing personal health, wealth, profession, family, children, debts and diseases etc. and these are all common experiences. No question

of any one saying whether he believes in Astrology or not; he will have proof of his own experience of good or bad during the times indicated in his horoscope.

We have mentioned in the foregoing that Man has attained a special point in his evolution towards Divinehood, the Ultimate Sankalpa of the Supreme; that is to say, the ego, or 'the spark within' has reached a particular plane, which gives the Man, the capacity to enquire into his environment and make deductions intelligently from his observations, that he has also attained a degree of discrimination or Viveka in respect of his own position and that of his neighbour by specific characteristics of his own nature and those of his neighbour. Further, there is a definite individuality developed in each man, and this individuality is the more striking the more he is cultured and refined in tastes and manners.

We have said that Karmic actions and reactions are part and parcel of Maya Existence or Relative Existence of duality; if we consider these actions and reactions, just as we might consider Heat or Electricity or Magnetism, then there is no point in classifying them as good or bad. For one thing, these Karmic forces are not, purely material, but are a combination of the Spiritual and Material; again, these forces encircle and enclose the 'spark' of Divine, which is present everywhere; and this 'spark' or ego is on the ascent towards Divinehood as its Ultimate Destiny, and this spiritual phenomenon is reflected in Man's mind in varying degrees according to his own degree of evolution in the same human pattern, as Discrimination.

Man has developed a sense of enquiry in and around him, and gets an inkling into the Scheme of Cosmos, its scientific and methodical workings, in the midst of apparent diversity of all manifestations, including members of his own fraternity. He notes a progressive gradation in the culture, refinement in the mental, moral output of men and women and also the development of personalities, human and divine, who have the power to attract and hold the individuals, and the audience.

We begin to see the hand of the Supreme Destiny in carving out its Grand Designs, and Avatars are no less than Divine Personalities in mundane moulds, with all the Truth, Peace and Wisdom radiating from their very presence. This Divine personality is developed unconsciously and automatically on the subject, who is entrusted with the Basic Truth of all existence, of all karma, and whose fixed Ego has shorn off of all its vasanas by Wisdom, and who is always in communion with the Supreme Ego, and who has understood that 'I' is the reflected Reality in the living Being.

Discrimination of Viveka is the asset with which Man is set in his further journey towards divinehood. It is the compass by which the developed Ego in Man is helped to steer the ship of his being in the ocean of Samsara; — the Relative Existence of the Maya Kingdom, where Karma is the Law. Discrimination opens up two courses of action to avoid whirlpools, storms, and undercurrents that may sink the self to unfathomable depths; the attractions of the objective environment on the individual, who has a mental and material component, susceptible to such attractions coupled with built-up vasanas of the past cycles of births and deaths, that unless the individual has developed a will to keep on applying discrimination, he may be all lost in the whirlpool; we mean that the individual may lose track of his path and may have again to trek through labyrinths and circuitous routes with great labour and discomfort.

Discrimination will enable the Searcher after Truth to adopt either of the two methods; to take the path indicated by the Natural Law of Divinehood as the Ultimate Destiny and adopt the process of Yoga, the most mystic, simplest, and easiest being Nama Yoga; another method would be to steer clear of the compelling environment of danger by conscious attempts in the discharge of duties, and performing all karmas in an unattached manner. The first course is mystic, and though faith in the Supreme is essential, it is capable of bestowing its benefits and lifting the dormant, fixed and tainted ego

to supreme heights of Evolution by shearing off the vasanas even when one is a disbeliever, but is persistent in application of Nama Japa. For the same reason, even if the man's mind is unsettled, confused and disturbed, his sustained attempts to remember the Divine Name always and under all circumstances, gradually clears the mind of all confusions, depression, worry, and present before it enlarged and enlightened vision of the Cosmos and its workings, and a stage is reached when the enlightened subject attains peace within himself, and there is no doubt that passeth his understanding. The Divine Anesthetic of Nama Yoga saves the patient all the gruesome pains of operation of the Karmic surgeon's knife, and leaves no after-effects towards decay or deterioration. Nama Yoga, while it enables the subject to cross the path of Samsara quite unconsciously, nevertheless enlightens the subject fully and thoroughly into all the intricacies of Karmic existence, the pitfalls to avoid the real meaning of moral laws, and ethical values, Upanishads, Ten Commandments, Scriptures, Puranas and Itihisas, and the Truth underlying in all these experience of the Ancients. Nama Yoga produces a Gnani, and the Gnani is certainly the Guru of the Karma Yogi. Nama Yoga has the potency of the Supreme Law.

We are all born as Karma Janmas, enveloped by Maya which is the kshetra for encasing the ego or the 'supreme spark' fosters it in this earthly existence, and finally allows the spark to escape with disillusionment partly or completely. The ego is first of all encircled by the Universal Mind or Maya. As the Supreme Power goes on acting on the Universal mind, the encased ego or the fixed ego, or the living creature, as in Nama Yoga gets more and more enlightened; that is noticeable from the inanimate to the animate, and from the insentient animal to the most developed animal, the Man, who is further assisted with the power of discrimination power of direction, and power of improving himself. All this time, the Prakrithi component of which his material mould the body is made, is also subject to the power of the

Prakrithi Sakthi of the Objective Universe, setting up possessive instincts and developing animal nature. Thus at any moment, the fixed spark or ego is subject to two powerful forces on opposite directions and crossing planes; Latitudinal objective forces and Longitudinal subjective plane. The Subjective Divine plane is eternally stationary, so that we have to worry about the latitudinal forces only coming from the Objective and Environmental; from material attractions and vasanas, that gather round the 'Jeeva' trying to extinguish the 'spark' within, if the fixed ego, the Jeeva, fixes his attention only on the Environment and not on himself.

A very important spiritual phenomenon marks the evolution of the Jeeva to Divinehood: to the attainment of the position of Jeevan Muktha. In this connection, we have to explain, what is Yoga and what modifications do take place in the Karmic and Gnana paths. We have also to understand the distinction between Yoga and Possession, as they are diametrically opposite in their functions, and in the field of their operation.

Possession connotes two parties participating. The Subject and the Object, the former or the latter trying to possess the other. Even inanimate objects, like money and properties, possess the minds of the individual subjects. In the case of developed beings like human beings, one may be attracted to the other, physically by animal magnetism, or mentally by intellectual accomplishments, and one or the other may like to possess the other physically and mentally, and treat the other as an article of value owned and used. Here the Subject and Object are different physically in features, in shape, size etc., and they may have different outlook on life also. Still the attraction may take place. Possession of one by the other mutually is more enduring than if it were one-sided where the desire to possess the other is persisted by one party alone. Even in the case of mutual attractions and mutual possession, much misery is experienced if one loses the other, and in the case of one-sided possession and domination of the other unwilling partner, who may be look-

ing elsewhere for possessions, the consequent tension produced in the disappointed subject would be unrecountable. Thus possession is quite different from union, the entire meaning of Yoga, and Yoga in the accepted sense means only the union of the Evolved Ego with its Super Self. Possession being Karmic phenomenon, is subject to the stresses and strains, susceptibilities, doubts, and disappointments, disillusionments of the Maya Sakthi. Physical attraction and animal magnetism alone may not sustain mutual possessions for long, and mental incompatibility is a powerful factor for disturbing the even running of initial felicities. In many cases, public scandal, vanity, involution of responsibilities by birth of children, and economic necessities make the man and woman, the Subject and Object, the possessor and the possessed to maintain an apparently calm domestic atmosphere, with all outward smiles in an under-current of suppressed tensions. Only mutual adjustments, sacrifices, and understanding by free and unrestrained exchange of thoughts make the Subject and the Object—the possessor and the possessed, lead to a sustained life of love and affection.

Union is the word that connotes a merging in the Spiritual Plane of the Ego and the Super Ego; of the evolved Jeeva or Soul with the Supreme Soul; it refers to the attainment of the supramental plane by the Soul, and its instantaneous dissolution with the Supreme Being. Here the Subject and Object merge together, the object being becoming critical with the subject becoming the Absolute Being. Here it refers, to the enlargement of the 'spark' to become the whole Supreme Flame, when considered in the same plane, burning off all dross of vasanas; alternatively the moving away of the vasanas of shadow from the enlarging enacting Enlightenment. In whatever way it is considered, it is the 'spark' within developing into the whole and the Indivisible.

Possession is synonymous with a keen urge to own, and use exclusively for oneself. The keynote is desire, and desires spring up in the individual's mind by the millions. In the field of Karma, it is

often stressed that Desires must be controlled and limited, but this cannot be achieved unless we analyse our own self; our inborn traits and tendencies and strong urges; how we react with regard to other's desires, their possessions, and acquisitions, and ambitions and achievements, even under very provoking situations; whether we are or are not disturbed in our minds regarding our status, or economic position, and in the fulfilment of our desires on comparison with those of others. Can we attain a state of mental equilibrium without being the least affected by depression, jealousy, anger, or despondency? And can we attain such a state in the disturbing conditions of the modern times when storms are raging fiercely in and around every individual due to so many causes amongst which our own mental make-up itself is primarily responsible to become ever more susceptible to the tantalizing illusions and attractions of the modern Environment.

We are not here preaching Ethics and we are not crying down modern civilisation with the many benefits bestowed on Mankind by Scientific advances, discoveries in the field of Medicine, Nuclear energy etc. They have no doubt made the individual live more and more comfortably, though the advantages of such advancement has not sufficiently seeped through to the whole of Mankind. But with all this, and even if the advantages and benefits of all discoveries, innovations, and inventions are all distributed equally and equitably can Man lead a life of equanimity? As it is he is very much disturbed. Will the possession of material benefits alone make him lead a life of contentment? We can definitely say the answer is a definite Negative. Desires and urges for possessions do not stop at any place, and are never satiated, because of the very nature of their origin; they emanate and operate in the expanding Objective Universe, the theatre of Maya or illusions, of strife, struggle and disappointments, and it is the area of the multi-millions, and above all, of Shadows.

(It will be seen from horoscopic delineations of hundreds of horoscopes, that

Neptune, the planet governing illusions, shadows, hallucinations, mediumship etc., is becoming more and more prominent, as the rays of this borderland planet are being more and more felt and experienced in highly 'civilised' countries, making individuals depend more on make-believe, than even on the objects themselves thus drawing Humanity more and more into the realm of the unreal, and the confused. Remember that the shadow of a being or thing is very much more elongated and twisted depending upon the fact that the more the object is away from the source of light, and more the rugged, the surface on which the shadow falls. Thus Humanity is on the threshold of the region of the Shadows, even beyond the region of the objects, when even that is not very desirable for attaining mental equanimity.)

From what has been said already, it would become clear that Man himself over ages has been deteriorating in his outlook, has been moving farther and farther away from the Supreme Ideal, forgetting that in his own self the Divine has its abode of being. He has to take all the responsibility for such a miserable state in which he finds himself today because he has attained a plane in the pattern of creation, and Evolution of the Ego, by which he is endowed with the torch of Discrimination which he can direct into himself or in his Environment. This torch of discrimination is the 'attention' of the 'I' and under no circumstances this should be made to die, or clouded, because Discrimination is the prana of 'I' as it were. Our own inborn tendencies, and the external forces of Environment are there to cloud and smother the enclosed 'spark' every instant, and it is discrimination and awareness of the 'I' in us that should prevent such a state of affairs developing in our mind. We have taken too much, and exploited Nature so much, that the Natural Power, Prakriti Sakthi is also trying to exploit us; that is to say, the more we direct our 'attention' towards material objects, and the more we are attracted to possess them, the more we make ourselves susceptible to the innate, devilish, inhuman, dark, sthula

forces of the Nuclear Power of Nature, and indeed, those who display extraordinary urge in possessing, preserving, augmenting material possessions, objects, including Wealth, are certainly votaries of the Devil, the very antithesis of the Divine. They become gradually heartless, unsympathetic, and insensitive to the feelings of others. Thus they move towards a path exactly opposite to that marked out by Divine Sankalpa, of Divinehood, in which the evolving Soul becomes Cognizant that every being is travelling in the same path towards Supreme fulfilment, and crossing anybody's path by creating mental and physical disturbances would be tantamount to obstructing his own.

Yoga of any form, the simplest being Nama Yoga, brings about detachment in a mystic manner as we have mentioned elsewhere. Detachment means that the 'enclosed and encased' Jeeva, has freed himself from vasanās—attachments, desires, tendencies for fresh experiences—of the past and the present. That is, his 'I' shines in Divine Light all the time, the Jeeva feels, that its will is synonymous with His Will, is not in the least perturbed by any event or circumstance or provocation from the Environment. Such a state is attained only by revelations and enlignment which bringeth understanding to the yogin floodlighting the whole arena of his mind, clearing of all doubts and falterings on every aspect of life and Existence, and making him more dynamic in the execution of his Karmas, removing from his mind the sense of the 'I' existing separately from any other being. Such an evolved 'Jeevan Muktha' automatically develops Divine Magnetism, attracting the whole Universe to himself, but remaining himself unattractable, radiating peace all round, clearing off all doubts tormenting the afflicted individuals who come to his presence, and radiating nothing but positivism and life all round.

It is a pertinent question to ask incidentally whether such an Evolution is only selective or is a Divine Benefit, conferred on all Humanity. From all observations of the Cosmos and its systematic work-

ings and its Manifestations, it must be admitted that the hand of the Supreme Power is behind the whole Creation, and as per Vishnu Suktha, a fraction of the same is in every being; that is to say, the unsplitable appears split in a multimillion ways by the enveloping and intervening Universal Mind or Maya Sakthi. (We have already mentioned the origin of Maya.) Thus the Supreme Being is in us also, as 'I' and as the reflected Reality. Whether we wish it or not, or will it or not, consciously or unconsciously; by thousands of cycles of births and deaths, experiences, disillusionments, we have reached a plane and place in the Evolution towards Divinehood, and we are endowed with the most important weapon of Defence or Offence, namely Discrimination. We have the full liberty to direct this attention either inwards or outwards; in the former, we are enlightening our encased 'I' and enlarging its sphere of enlightenment; in the latter, we are enabled to assess the real purpose of all Creation; only in this case, we must be cautious not to be caught unawares by environmental attractions, the affinity for which is ever present in our own 'ego' as vāsanās of our past karmas, the latter being Movable objective, there is every chance to become entangled in the current, and the struggle for extrication may become, longer and time consuming in the form of several births and deaths cycles. In the case of subjective concentration and attention, which is also given to man, he can always choose this path. In both cases, complete faith in the Ultimate Destiny of Man is essential. Faith is just like a cue in detection, investigation and ultimate discovery. It is an indication towards certainty, and is a catalyst in the attainment of the Ultimate Goal, though even, without any deep faith, this may be achieved but achieved with tears.

Thus the individual has sufficient free will to achieve whatever he wants, and whatever he desires from the objective or subjective in virtue of his special position of power and place in the hierarchy of creation, and from which he is in a position to mould, alter, and modify the des-

tinies of the lower species of Creation. The same is also the case of the Dictator leaders in world Arena who have developed the capacity for bringing about mass movements by regimentation, brain washings etc., suppressing, crushing the inward development of Man towards Divinehood and consequently there is positively a terrific undercurrent of discontent, and suppressed tensions brought about by the stifling environment on the legitimate and natural enfoldment of the ego. Thus the free will of man, even to fulfil his daily wants and desires, is subject to the over-all will and ambitions of the Dictator—who is taking shape by the hundreds in every community, and Nation in the world—and thus a collective Karmic force of tension is built up, as if in a gigantic pressure vessel, which may any time burst, because the forces concerned are mostly Objective and Material, relentless, and devastating in the extreme when released. The Supreme Being, which is the collective Being of all Creation, may choose its own time and manner of its release. The laws of Karma, by their very nature, shift their centres of operation incessantly from individual to individual and being to being to maintain equilibrium and if they are wantonly obstructed individually and collectively, centres of tension are formed all round the globe. We have reached a stage, when the fence itself kills the crop by growing over the crop and suffocating its growth. Terrible taxation, suffocation of civil rights, and suppression of free thinking by calculated propaganda—all these go on a mass scale, squeezing out the individuality of the individual, attained by him and conferred upon him by the Supreme for the ultimate fulfilment. Thus it has become extremely difficult for man to disentangle himself from his own confused mind acted upon by the environmental forces of compulsion, and he is willy nilly made to carve out his own baneful destiny which, from what we have outlined above, cannot but be cruel and exacting even in his next birth. It is time, therefore, that the individual applies his discrimination or free will to conform with the ultimate Divine Goal by conscious karmic practices or by the mystic process of Nama Yoga.

It is only when we ascend more and more, we see greater and greater of the enlarging horizon of understanding, as, to the frog in the well, the circular wall is the limit of its world. Thus superior understandings comes to the ego only on a higher plane and Supreme Wisdom and Truth dawn on the evolved only when the ego reaches the Supramental, when it is in samadhi with the Supreme Being. Thus knowledge about the Cosmos and its Manifestations, the Primary Cause, the Supreme Being etc., are all Revelations to the devoted seeker ego, in its supramental stage reached by Yoga, and they are available in the Universal Mind just as reflections, clouded by Maya forces. The region of Gnana or Supreme Wisdom is synonymous with the Supreme Being, Absolute Subject, and the Absolute Truth. All we see, hear, or experience is relative, and at any time only partly true, partly just, and partly correct. No wonder that we are unable to assess the real merits of Puranas, Vedas, and Ancient Sayings of Wisdom, as the Truth is permeated therein in the region of clouds. While individuals wedded to modern ideas and ideals, may dispute as many times and in as many ways, as there are creatures, the evolved ones, at the supramental state attained by Yoga, have seen the same Truth in all ages and in all climes. That is the best proof of the reality, which can be experienced even by us if we only apply our free will in the direction of the Subject by Nama Yoga.

Volumes could be written on Karmic complications which are getting multiplied every passing moment, and a very clear indication of these are available from the science of Astrology, which describes the individual and environment of his past, present and future. The application of Astrology is not so much in divining the future with a utilitarian outlook, but rather it is for examining the physical, mental make-up and characteristics, that have built up around the 'fixed ego,' the Jeeva; it is intended for the analysis of the self in relation to the Super Self; of the environment of his birth, opportunities, circumstances concerning his self, and

examining the same in relation to his Communal and National Karma; of the past, casting its shadows on his onward path as deep desires, urges, tendencies, and tensions created by curses from the ill-treated victims of his past actions. As the ego drifts more and more towards the Objective, the Supreme light is getting more and more split into multi-million parts each getting enveloped by vasanas—unsatisfied desires and affinities—naturally there is an increase in population, population of weaklings, and of confused and mentally deranged individuals, taking birth aided by Nuclear release deforming the very physical features and mental functions.

Thus the whole situation seems desperate and nothing but a bleak future is yawning its gruesome mouth for the living and for those to come to life in this beleaguered planet.

But there is one silver lining in the clouds. It is possible that, in these days of confusion and compulsion, when the individual has lost all his individuality by his own actions, and by the collective force of his environment, when he has lost all confidence to regenerate himself or correct the degeneration of the environment, awakening it is just possible for a general spiritual upheaval and towards the Supreme Reality by the disturbance caused in Cosmic Conscience such as the assassination of the Leaders who work for the general welfare and peace of Mankind. There is likely to be a collective revolt of man against forces of his grosser and lower mind, and there is likely to be simultaneous collective yearning for Peace. 'Sarve Janah Sukino Bavantu' will enlighten their minds with its full meaning.

The body is perishable by age, decay and death; the mind is unstable, unsteady, confused and unreliable and the only static hold is Supreme Being reflected in each individual as 'I' the Reality. Hence Subjective concentration on the Supreme 'I' by Nama Yoga is the safest method for correct understanding of ourselves and the Universe. Without this correct knowledge, no correct action is possible, and without right actions, no right results will

result either to us or to others. Further, every individual is linked to the other fundamentally because everyone possesses the 'spark' which is intrinsically inseparable, but separated only by bodies and vasanas built up by each individual ego; but as these vasanas are susceptible to transformations, changes, and are shorn off by enlightenment by the evolving ego. Certainly there is no difficulty in appreciating the identity of the goal and destiny of all living creatures, who are in the Supreme Sense, One, and who are many and diverse only in the Objective sense. This lays down the Truth of the Law of Karma for all to follow: Treat thy neighbour as you would like to treat yourself.

The various Deities in the Hindu pantheon have their own Divine functions. Thus Maha Vishnu is the Protector of the Jeeva from Maya Sakthi, the necessary committant of all Actions and Forces in the theatre of the Universal Mind. He is enveloped as it were by the Power of illusion, and he remains detached as the Supreme Being in Yoga, in Himself. Mahalakshmi, is the Supreme Power, is represented as occupying Vakshasthala, His Heart, and Bhu Sakthi, the Adhara Sakthi, (Nuclear Power) of Nature and Supreme Architecture is represented as standing separate from Him. The same situation holds good for every human being. His body, the material mould, is

under the domain of Prakriti Sakthi. His 'Ego' is in his being with the Supreme Power; and his Mind is imaginary fraction of the Universal Mind enveloping him and modified in its contents by the individual's own karmaic potentialities.

By Nama Yoga of Maha Vishnu, the individual ego attains the Supreme State and as Maha Vishnu attains a State of Detachment in the samsara of Maya Sakthi, and unaffected by the attractions and disillusionment of this Power, which is the concomittant factor for entrapping the ego, fostering it as the close consort, and finally bringing in disillusionment to the ego, and enabling it to search for the Real in itself, in the Subject, making possessions vanishing, and union Real.

When this Detachment is attained, the evolved Ego loses all consciousness of a separate existence, or separate self-directed karma, but becomes the direct instrument of the Supreme Being, which is certainly the Supreme Truth and the Universal Truth. This sublime result of Nama Yoga is adumbrated in the Supreme Admonition to Mankind by Sri Krishna, when he said:

"Ananyaschinthayantho mamye janah paryupasat ||
Thesham Nithyabi Yukthanam Yoga Ksbemam
Vahamyaham ||"

MARS IN THREE SIGNS

(Scorpio, Sagittarius and Capricorn)

Mars owns two houses—Aries and Scorpio. Aries is a fiery sign whereas Scorpio is watery. Aries is a positive one but Scorpio is negative and feminine. The former is barren whereas the latter is fruitful.

Mars, a fiery planet in a watery Sign, will be like coal. So you will have the capacity to undertake any task and work hard. You can accomplish much. Your energy is stored. It does not go waste. Since it is a fixed sign you will be firm and determined. You will have opportunities to show your executive power and originality. Just as the fire will burn anything to ashes without any regard to the feelings of others, so also, people having Mars in Scorpio, during the period of Mars, will be revengeful, rash, self-centred, passionate, acute, and even diplomatic. They will take up any enterprise with intensity of purpose and action. It is also likely that they are liable to accidents and tragic end. They may have romances and they will be bold to go-a-head. Mars gives long journeys. It shows that the partner will be helpful and one can gain through him or her. Mars in Scorpio offers indomitable courage and inexhaustible energy. If Mars is afflicted in Scorpio, one will be very passionate and addicted to solitary vice which will sap the vitality.

Chemists, surgeons, assayers, mechanical or dam construction engineers, navy officers and such posts, needing dominant authority, will be the profession. Mars, when afflicted in Scorpio, produces people who are quarrelsome, unreliable, ungrateful and most selfish. Accidents, drowning, severe ill-health, surgical operation, bleeding piles, fistula etc., will cause trouble.

Mars in Sagittarius: Sagittarius is a fiery, masculine sign. Hence, you will be frank and generous. You will be enthusiastic, quick in speech, or retort, speedy in action and of an active mind. These will

offer you grand success. You will have good humour, originality and independent spirit. You will be a good conversationalist. You will appear well in the eyes of your relatives and friends. You will have the desire to go on long voyages and study philosophy and religion. You will be a keen observer, and will have good memory. You will be anxious to tell others your experiences which will be interesting and instructive. You will be a leader of out door-games, and be a captain of a team. Mars will sharpen and quicken your mental and oratorical faculties. So you will be a successful advocate. Also, explorers, Surgeons, and mechanical workers are born with Mars in Sagittarius. You will hold a good position in the Defence department. Mars indicates gain through marriage. The native is likely to have more than one union as Sagittarius is a dual sign. In business, you will have a few partners. In any dispute, you will have success. Judges and advocates are your benefactors. To become the agent of a bank or the head of any religious institution Mars in Sagittarius is auspicious. If Mars is afflicted, there will be difficulties by travelling. You cannot have assistance from foreigners; whereas there may be enmity. In the Court of law, one unknown to you will appear and give witness against your interests. There may be litigation to acquire your share of property or profit in business. You will miscalculate, overestimate your capacity, trade beyond your ability, take undue risk and thus, invite trouble. If Mars is afflicted, you may not be friendly with brothers, sisters and cousins. If Saturn afflicts, that particular brother or sister born in Saturn's star and Mars' sign Anuradha or in Saturn sign and Mars Star, Dhanishtha, will disagree with you and there will be the dispute. If Jupiter afflicts, one born in Visakam 4th pada will differ from you. If Venus afflicts, one born in Bharani or Mrigasirisham first half or Chithirai latter half will

pick up quarrel. Thus you have to find, which brother or sister will not agree. You will have unorthodox ideas and you will be sceptical.

Mars in Capricorn-Makara : This sign is owned by Saturn and is a movable or charasign. Mars gets exalted here whereas Jupiter is debilitated.

Mars gives the native courage, push a go-a-head spirit, independence, self-reliance, etc., you will never hesitate to undertake any venture. You will be rash and through your utter disregard of danger and risk, you will invite accidents. You are ambitious, and you possess good organising ability. You are enterprising and you desire to become popular, and lead a public life. By your energy, you will occupy a prominent position with authority, virtue and merit. You will be patient and persevering. You will be at your best, only when there is some obstacle. You will be happy, only when there is a wide scope of action. You will command the

respect and esteem of your people. owners, rich landlords, managers of industry, estate brokers, C.I.D. officials, Superintendents of Police, chief in the military, administrative heads, and ministers, are born with Mars exalted in Capricorn.

Afflicted Mars causes difficulties through colleagues and friends. People in power will mistake you, find fault with you and pick up quarrels. There will be a dispute between you and your employees. You will get irritated. You will be impatient and will create enmity. There will be opposition. Your honour will suffer. You gain ill-repute and discredit. Your parents, especially, your father may not maintain good health. There may be difference of opinion between father and son. Do not be rash: conserve energy. Proceed patiently. You can lead in whichever sphere you are.

PLANETS—FRIEND OR FOE

Planets other than the luminaries, Sun and Moon, own two houses each. One of them is considered as its *day house*, otherwise called *Moolatrikona* house, while the other is called *night house*.

Mars is the ruler of Aries and Scorpio. The Moolatrikona house to Mars is *Aries*. Venus owns Taurus and Libra and the Moolatrikona house to Venus is *Libra*. Mercury has *Virgo* as its Moolatrikona house; it gets exalted also here. Jupiter's Moolatrikona house is *Sagittarius*. Saturn's Moolatrikona house is *Aquarius*. Moon, not only gets exalted in *Taurus* but it is also its Moolatrikona sign.

Planets in Moolatrikona are only next in strength to exaltation ones, according to Hindu System. *There is nothing as Moolatrikona for Westerners.*

As regards friendship and enmity, one can memorise the following and ascertain. Always one has to count from the Moolatrikona sign of the planet, to find out its friend or enemy. According to our sages, "Swa, Swanthya, Dhi, Dharma, Swachha, Ayu and Sukhapals" houses are to be counted from the Moolatrikona sign of the planet, i.e., 1, 2, 12, 5, 9 exaltation, 8th and 4th house lords are friends.

Generally the first house, i.e., the Moolatrikona house, is one of the two houses of the planet. But only in the case of Moon, Moolatrikona sign is Taurus which is not owned by Moon but it gets exalted in Taurus.

The owners of the houses 2 & 12; 4 and 8; 5 and 9 counted from the Moolatrikona sign of a planet and the planet which gets exalted in this Moolatrikona sign are friendly with it. Therefore it follows that the lords of the other houses 3, 6, 7, 10 and 11 counted from Moolatrikona signs become the enemies of the planet.

Suppose one wants to find out the friends and enemies of Mars. Aries is the Moolatrikona sign of Mars. Hence lords

of 2, 12, 4, 8, 5, 9 and that which gets exalted in Aries are the friends of Mars. Therefore Venus, lord of 2, Jupiter, lord of 12, Moon, lord of 4, Mars, lord of 8, Sun, lord of 5 and Jupiter, lord of 9 and Sun who gets exalted in Aries are friends.

Enemies are Mercury, lord of 3, and 6, Venus, lord of 7, and Saturn, lord of 10 and 11.

It will be observed that Sun and Moon, each owning one house only, is a friend. But Venus as lord of 2, is a friend and as lord of 7 is an enemy. So he is called a *Neutral*.

Mercury is inimical as he owns both inimical houses 3 and 6, and hence, Mercury is definitely an enemy.

Jupiter, owning both friendly houses 9 and 12, is a good friend.

Saturn ruling both the inimical houses 10 and 11 is definitely an enemy.

Hence, if the planet owns 2 houses and both are friendly, the owner is a friend, also, if a planet owns 2 houses, and both are inimical, the owner of these two houses, is an enemy.

But if a planet owns a friendly sign (one in 1, 2, 12, 4, 8, 5 or 9) and also another sign which is either 3, 6, 7, 10 or 11, then this owner of a friendly sign and an inimical one remains a *neutral*.

This is what is followed by the Hindu Sages.

The following table gives the relation among the planets:—

Planets.	Friend.	Enemy.	Neutral.
Sun	{ Moon Mars Jupiter	Saturn Venus	Mercury
Moon	{ Sun Mercury	None	All other planets

Mars	{ Sun Moon Jupiter	Mercury	Venus Saturn
Mercury	{ Sun Venus	Moon	{ Mars Jupiter Saturn
Jupiter	{ Sun Moon Mars	{ Mercury Venus	Saturn
Venus	{ Mercury Saturn	{ Sun Moon	{ Jupiter Mars
Saturn	{ Mercury Venus	{ Sun Moon Mars	Jupiter

From the above table you will note that Moon's friend is Mercury and Moon has no enemy, whereas Mercury's enemy is Moon. So also Sun's friend is Jupiter, whereas Jupiter's enemy is Sun. Does this not appear to be funny. No. But it is to be judged as under.

Whenever Sun occupies either of the signs ruled by Jupiter, it will offer the results to a good extent as though it is in a friend's house. But when Jupiter occupies Sun's sign, it offers results to a less extent as if it is in enemy's camp.

So also Moon in Mercury's sign offers results from a friend's house whereas Mercury in Cancer in Moon's sign will give results as if it occupies an enemy's place.

Westerners do not classify in this manner. But the following table shows how they judge:—

Sign	Owner	Exalt:	Debilit:	Debilit:
Aries	Mars	Sun	Venus	Saturn
Taurus	Venus	Moon	Mars	Ura
Gemini	Merc	Rahu	Jup	Kethu
Cancer	Moon	Jup	Sat	Mars
Leo	Sun	Nep	Ura	Ura
Virgo	Merc	Merc	Nep	Ven
Libra	Venus	Sat	Mars	Sun
Scorpio	Mars	Ura	Ven	Moon
Sagi	Jup	Kethu	Merc	Rahu
Capri	Sat	Mars	Moon	Jupi
Aquar	Sat	Ura	Sun	Nep
ices:	Jup	Venus	Merc	Merc

Hindus further say, that planets may be friendly or inimical by nature, but due to its relative position in the chart, it gets modified. If a planet is friendly by nature (being the lord of one of the houses 1, 2, 12, 4, 8, 5 or 9 counted from the Moolatrikona sign of the planet) if it is in 2, 12 or 3, 11 or 4 and 10 counted from the position occupied by the planet in the horoscope, the planet is very friendly.

A neutral planet in the above position becomes a friend.

The enemy becomes a neutral. But if the natural enemy is in 1, 5, 9, 6, 8 or in 7 then it becomes a bitter enemy. A neutral planet in 1 or 7, 5 or 9, 6 or 8 counted from another planet becomes its enemy.

A friendly planet in 1 or 7, 5 or 9, 6 or 8 counted from another becomes its neutral.

Thus the Hindus note the natural relationship among the planets and their temporary relationship according to their accidental position at the time of birth or at the time of query.

But Westerners take the aspects and are able to read more correctly the results.

A planet in friend's quarters gains strength to offer either good or bad those results which the planet indicates. It is likely that you gain or lose through friends.

A planet in enemy's quarters loses its strength and the extent to which it can offer its beneficial results if it is in a beneficial house, will be less and one will be dissatisfied. The favourable result may be caused by enemies themselves. But if the house is also evil then the undesirable results will be increased; enemies may cause much trouble.

Whether the lord of a sign is friendly or inimical is noted only to ascertain how a planet occupying the sign at the time of birth will behave; whether it gains strength or gets weakened; whether one will be satisfied or not; whether the prosperity is caused by friends or even by enemies; the planet in friend's quarters can shower it:

good effects next in strength to exaltation and Moolatrikona.

This is one of the Various factors to be taken into consideration to judge *the strength of a planet*.

The result may be advantageous or otherwise. To ascertain whether a planet will offer agreeable results or not, needs thorough analysis :

- (a) Whether the ascendant is strong ; or the Moon sign is strong ;
- (b) To which house, the planet is the lord ; whether it is beneficial to you or not ?
- (c) In which house it is posited ?
- (d) Whether it will improve the matters indicated by the house occupied by the planet ;
- (e) Whether it can offer to the full extent, the matters indicated by the house which it owns.

- (f) Whether it is in 6, 8 or 12 to the house owned by it or in favourable ones.
- (g) Whether it is in 6, 8 or 12 to the Lord of Dasa, the lord of Bhukti etc.
- (h) Whether the aspect between a planet and the Dasa lord and Bhukti lord is beneficial or adverse.
- (i) In which constellation and in it, in which sub it is, etc., are to be considered.

The last four items are the most decisive factors. The friendship or enmity by nature and the temporary modification by its accidental disposition in the horoscope, are all very insignificant.

How, to judge the results of a planet will be dealt with in the issues following.

MOON IN THE FOURTH HOUSE

Fourth house indicates Mother according to Hindus and Father according to the scholars of other nations. It shows the place of birth, residence, one's landed property, sites, gardens, buildings, treasures hidden under the ground, mines, permanent possessions, also those holdings which one takes on lease, rents, conveyance, transport; private and secret life, sincerity or unreliability, contentment or dissatisfaction, peace, prosperity, progress, partner's profession as it is the 10th house to the 7th; difficulties to father and danger to him as it is the 8th house to the 9th, life in a foreign place or house or investment by children as 4th house is the 12th to the 5th house. Also, fourth house indicates the education of the person, and his qualifications and the self-acquisition of the younger brother or sister as it is the second house to the third. Fourth house will indicate debts, disease and dispute of the elder brother as it is the 6th house—house of ill-health, enmity, etc. from the 11th house, indicating elder brother. 4th house shows the last part of one's life.

Hindus consider that to the matters governed by the fourth house, Moon, the luminary, is the significator. Also, it is said that the significator spoils the matters of a house if that house also indicates similar ones, "Karako-Bhava-Nasaya". In the majority of cases, this does not come true. Why it is so and what the correct method of approach is, will be found at the end of this chapter.

Westerners are of opinion that Moon in the 4th house, receiving good aspects, indicates happy domestic life, fortunate home conditions, especially when one is old. If Moon receives evil aspects, the reverse will be the result.

There may be the tendency towards psychic experiences, if Moon is in any of the fruitful watery signs. Changes of residence will prove to be lucky. You will gain and receive benefits from parents.

You will enjoy favour from the opposite sex. There are chances of inheriting property. Ultimate success and gain through buildings, property and permanent possessions, are also indicated.

If Sun afflicts the Moon by adverse aspect, one suffers through tax, rentals, etc. Mars, afflicting Moon, denotes loss by theft. Mercury, forming bad aspect with Moon, threatens loss by deception, fraud, forgery, etc.; Jupiter forming adverse aspect, is very bad, as one can neither have peaceful domestic life, nor satisfactory bank position. There will be lack of opportunity and much of obstacles in all undertakings. Neither law will help him to purchase peace, nor will religion offer him solace. Bankers and creditors will be causing worry.

Saturn, afflicting Moon, portends much delay and ultimately disappointment. Those, having Saturn, forming unfavourable aspect with Moon and Venus, will believe one after another, and every person will marry anybody else and leave you helpless. You cannot expect desired success. So, you have to be careful while choosing a partner. Finally, affairs will not be to your liking; there will be great difficulty to keep away from poverty and unpleasant conditions of life.

Uranus, afflicting Moon, indicates frequent and sudden changes, both in the residence and in fortune. There will be unexpected losses and reverses. Mother may not co-operate. Separation from mother or unexpected losses through her, may also be the undesirable result of Uranus, forming disharmonious aspect with Moon. Danger in water, accident to the vehicle, collapse of building, and risk, while crossing a river, etc., are also to be feared. Failure in examination is quite common.

Neptune, forming adverse aspect, shows much difficulty and complication in family

life. It threatens with danger in water. You may be cheated in your purchase of land or building. Education will be a problem. Mother's health and behaviour will cause worry. If you do transport business or hire taxi or lorry, or if you have any shipping concern, you will incur loss and you may have to wind it up.

But if these planets form good aspects, you will have these results reversed. Thus, the Westerners view the position of Moon in the fourth house.

Hindus view that it is unfavourable to mother's health but Moon will make one happy and liberal in donations. You can have conveyances and also many friends.

But the correct method of reading is as follows: (We have to include the opinion of the Westerners according to the various aspects.)

Mesha (—Aries Ascendant) Lagna: Moon in the 4th Sign can occupy Punarvasu 4th pada, Pushya or Ashlesha star. Punarvasu is ruled by Jupiter, lord of 9 and 12; Pushya is governed by Saturn, lord of 10 and 11; Ashlesha is ruled by Mercury, lord of 3 and 6. Hence one born in Aries Ascendant, with Moon in Punarvasu 4th quarter, will have higher studies, long journey during Moon's subperiod, life in a foreign place and will have a very pleasant period. If you have your Moon in Pushyam, you will have grand success in your undertakings, promotion in service, prosperity in business, a large number of good friends, substantial profit in your enterprises and cautious dealings with all. Subordinates and workmen will cooperate. But if you are born in Aries Ascendant and have Moon in Ashlesha, you will have enmity with all, will never agree with your younger brother, pick up quarrels even when you make short journeys by bus, tram or train, and borrow money more for the journeys to be made by your mother and your wife. Also, you will cause trouble to the owner of the house, where you live, promising to pay rents regularly, and as long as you stay, it is a headache on one side to him and even

when you vacate, you give information to Rent Control Officer well-in-advance, and cause headache on both the sides.

Taurus Ascendant: Moon in 4 can be in Makam governed by Kethu or in Pooram ruled by Venus—Sukra or Uthiraphalguni governed by Sun. Those born in Rishaba Lagna and in Makam star will have unpleasant domestic life during Moon's period; also a fall in rentals; worry with the kisans: there will neither be proper income nor will they be able to dispose of the property at any price. Moon in Pooram star indicates that you may borrow money, erect a building, or possess a garden, or acquire a vehicle. Also, you may enter into service, in the transport, music or chemistry department. You will prove to be a good medical representative during Moon's sub periods. Moon in Uthiraphalguni star indicates that you may get Government service or Government quarters to live in or you may receive benefits through parents. You will gain through permanent investment and Government. You may be a broker for houses, buildings and land. Moon is favourable in Leo in Uthiraphalguni.

Gemini: Mithuna may be your lagna. Moon has to be in Uthiraphalguni second, third or fourth pada or in Hastham or in Chithrai first half. Moon in Uthiraphalguni shows that you may be a salesman, an agent or a representative and may be touring often. You may be employed in the Transport department or in Tourism. You may be appointed as Deputy Secretary or Ambassador. Moon in Hastham star will make you a brilliant textile engineer or a good servant in textile, publicity or in export import department. You may serve in Port Trust, Shipping or in any concern dealing in liquids, as Hastham is ruled by Moon. Moon in Chithrai star indicates that you will have unnecessary quarrels and always you will have to fight for your right and come out successful. Moon indicates that you will be very bold and your mother may meet with accident, or pass away due to profuse bleeding. Moon in Hastham is benefic for mother. But Moon in Uthiram shows loss of money, status, and even the place

of residence. Moon in Uthiram is malefic. Mother may suffer, and she may need hospitalisation.

Cancer-Kataka—Ascendant or Lagna: You can have your Moon in 4, either in Chithrai 3rd or 4th pada, in Swathi or in Visakam 1st, 2nd or 3rd pada.

If Moon were to be in Chithrai star in Libra, you will have gains through speculation and children. You will also be tipped for promotion. In business, you will have easy gains. You will become popular. If your mother is a career-woman, she will have promotion and prosperity. This position is indeed very good to yourself and your mother; your children may borrow for their higher studies or for long journey or with a view to help you.

Moon in Swathi star will offer such results as Rahu in your horoscope indicates. Even if you own many houses during Moon's period, you may have to reside in some other's house. This position will not offer peace of mind.

Moon in Visakam star indicates ailment to mother. She may make frequent short journeys, and incur expenses. She may write letters, etc., which will irritate others and cause enmity. You will borrow money, as your father may lose in speculation or betting. You may have to help him or your younger brother's wife, or younger sister's husband. (Younger brother is indicated by the third house. His wife is the 9th. To him Moon, lord of 5, is in 8 in the constellation of Jupiter.)

Leo-Simha: Moon will be in Visakam 4th pada or Anuradha or Jyeshtha: If Moon is in Visakam, the native will lose money through speculation; there will be much of expenses through children, payment of Insurance amount, compulsory savings deposit or recurring deposit or purchase of property to children, etc. But to mother, it is an excellent time and she will have peace, pleasure, prosperity and also progeny.

Moon in Anuradha is neither good to you, nor to mother.

Moon in Jyeshtha star shows that your income will increase satisfactorily, and

that you will spend also more and invest on movable properties. To mother, it shows lot of difficulties, worry and ultimately success and gains. You may have your conveyance repaired, and made perfect after meeting with an accident, and your gains will be through insurance companies.

Virgo-Kanni Lagna: Moon will be in Moolam or Pooradam or Uthiradam first pada in 4 in Sagittarius. If Kethu is ill-positated, you will incur loss. If it is occupying good position, you will gain. You may purchase property and receive larger profits. New friendships will be formed. It is really very beneficial.

If Moon were to be in Poorvashada star you are lucky. You will enjoy good fortune for a long period of 10 years and more so in Moon's dasa, Venus Bhukti (sub period) of 20 months. Moon shows gains without pains to you. To your mother, it is bad. Her health will fail. She will undergo treatment and will survive. It shows much of opposition, and difficulty to her during the period when you run the conjoined periods of Moon and Venus. Moon in Uthiram indicates investment, purchases, gain in a place other than your permanent place of residence: it is not evil to mother. She may borrow money, go on pilgrimage and satisfy herself.

Libra-Thulam: Moon in Uthiradam 2nd, 3rd or 4th pada, Sravanam or Dhanishta star 1st and 2nd pada. It is favourable to you. When Moon is in Uthiradam, you will make new friendship, will enjoy the good support of higher officials, will get promotion, will become popular and will maintain prestige. But to your mother, it is either an unhealthy period or misunderstanding with father and cause some worry or other.

Moon in Sravanam star is equally good to you as it would be in Uthirashada. But to your mother, it will not be adverse. She will also have peace of mind and progress.

Moon in Dhanishta star in the first or second pada is favourable to your mother

to have a house or conveyance of her own. She will have the most pleasant domestic life. You may get yourself married or may be offered a post by father-in-law or you may have a good financier as your partner.

Scorpio-Vrischika: Moon in the 4th house will be in Dhanishta 3rd and 4th padas or in Sathabhisha or in Poorattadhi 1st, 2nd or 3rd pada.

When Moon is in Dhanishta, during Moon sub-period, you may borrow money and go on a long journey or invest it on landed property away from your place of residence or serve somewhere and also have higher studies. To your mother, it gives cure for her ailments. Even if she has a chronic disease, in the sub-period of Moon, she will not suffer, but have it under control, including blood pressure or hysteria.

Moon in Sathabhisha will prove to be auspicious to you and to your mother if it had occupied a favourable position in your horoscope.

Moon in Poorattadhi star in the 4th houses shows that you will acquire property, your son may come by fortune, your mother will gain and will be leading a happy and harmonious life. It is an excellent position.

Sagittarius-Dhanus: Moon may be in Poorattadhi 4th pada or Uthirattadhi or Revathi.

Moon in Poorattadhi 4th pada is not auspicious to you. But your mother will be fortunaté. She may even gain through lottery, etc., or come by a treasure during the period of Mercury and the sub of Moon. So also it is very good to your wife.

Moon in Uthirattadhi star shows up-hill struggle for you to make money; your partner will have easy gains; your labour and his fortune will be the result—To your mother, the results will be mixed. She will have gains on some occasions and equal loss during other occasions. Her health will be good.

Moon in Revathi is splendid to you, to your mother and to your wife. You will gain through insurance; you may have unexpected income by legacy. Your mother may gain by speculation or she may bring forth a lucky child. Your wife may have promotion or receive substantial amount from her parents.

Capricorn-Makara: Moon in Aswini or Bharani or Karthikai 1st pada will be in 4. Moon in Aswini does not allow you to have happy domestic environments. Even friends may keep themselves away, and may not come forward to lend their assistance to you. Your partner may be confused in his business or profession. Your mother will be worried at home. She may meet with an accident.

Moon in Bharani promises fortune, sudden unexpected gains, promotion, popularity, prosperity, etc. To mother it is auspicious to have satisfactory bank position, good relationship with every body. Wife also will be lucky to have a new house to live in, and benefactors close by, to help her and keep her always cheerful.

Moon in Karthikai star is malefic to you; it will bring easy success and profit to mother and promotion in service to your wife. If she is not a career woman, she may purchase some gold ornaments in the sub-period of Moon.

Aquarius-Kumbha: Moon in Karthikai 2nd, 3rd or 4th pada, Rohini, Mrigasirisha 1st or 2nd pada will be in 4 to Aquarius. So to you, Moon in Karthikai indicates that you will have bank facilities, that you will gain much, due to the loss of the opponent, that you will win in election or competitive examinations, and that you will be assisted by Government servants. Moon in Rohini, though exalted, is not benefic to you, as it threatens ill-health, debts and difficulties. To your mother, it is in a way good, as it shows short journeys and also success in her attempts. To your partner, it shows either separation or long journey during your Moon's sub-period. Moon in Mrigasirisha star shows that you may be transferred, or you may have to go out on camp or become

an inspector or the leader in squad. To your mother, it is not benefic. But to your partner it is very beneficial; he will go on long tour and have success in the foreign place.

Pisces-Meena: Moon in Mrigasirisha 3rd and 4th padas, Arudhra and Punarvasu 1st, 2nd or 3rd pada will be in Gemini,

Moon in Mrigasirisha is beneficial if the native serves in a share market or in any export import business or telegraph, postal, mechanical, engineering or military accounts. To your mother, Moon shows that she will have a cure after surgical aid.

Moon in Arudhra will be good or bad according to the position of Rahu.

Moon in Punarvasu star will help the native to become suddenly rich, to be popular, to have promotion, and to enjoy grand success. To your mother, Moon is equally beneficial. To your wife, it is still better.

Thus, one has to read the detailed results of Moon in the fourth house.

It is advisable to forget all the general rules which are not applicable to most of the people.

In our April issue, Moon in 5 will be dealt with and the exact position of Moon in the horoscope of prize winners, successful speculators and lottery winners will be given and explained.

SATURN'S TRANSIT AND ITS RESULTS—(Contd.)

Saturn between 23-3-64 and 12-4-64 passes on, to Rahu's star Sathabissha and in that star the first sub governed by Rahu, between 6° 40' and 8° 40'.

Those, who could have had Rahu in a favourable position at the time of birth, will be happy. They will enjoy peace and prosperity. But if Rahu had been in a bad position in the natal chart, one has to exercise much care, to avoid difficulties.

Anyhow, from Tamil New Year's day for some weeks, the time is very brilliant, between 12-4-64 and 5-5-64. When Saturn transits between 8° 40' and 10° 26' 40" promotion, progress in one's undertakings, partnership in business, gain through partners, new customers, bulk orders, satisfactory margin of profit, bankers' voluntary assistance, purchase of property to wife, if the native is a male or acquisition of property by husband, if the person is a woman, and good understanding between the couple, and between the higher authorities and the Gemini-borns are promised. This is a very good period.

Between 5-5-64 and 15-6-64 and between 15-6-64 and 27-7-64 there will be uncommon expenses, both pleasant and also unnecessary ones. There will not be as much enthusiasm as it was before. One will be very careful. Pick-pocketeers will select only Gemini-borns in this period and deprive them of their holdings. Cashiers have to be careful. A few will escape such losses proceeding on leave. Lazy, lethargic days do not permit to be reduced. Business turn-over will be dull. Unlawful actions will face difficulties. Minor injuries and misunderstanding with old people are threatened. Between 27-7-64 and 21-8-64, the results will be favourable and will compensate for the previous bad period. One may over-work. Yet there will be good gain and satisfactory bank position; success in examination, admission in colleges for higher studies, and scholarship are indicated. New customers will increase the income of the advocates. A few may

get into service. Extension of the building and expansion of the business are indicated. Agents of banks will feel happy on their achievements. The period between 21-8-64 and 18-9-64 will be similar to that between 23-3-64 and 12-4-64; the period from 18-9-64 to 9-10-64 shows that the benefits enjoyed during 13-3-64 and 23-3-64 will be repeated but the amount of gain will be less. The period from 9-10-64 to 25-11-64 will be similar to that between 8-3-64 and 13-3-64. Then one can have favourable orders from the Government; contractors will realise their profits. Agents show much progress. Representatives will push the products and increase the sale. Advertisement bills will be received, and Bank position will be satisfactory. Health will be normal, relatives and friends will be frequently visiting. A good period indeed! Contentment is necessary. The time from 25-11-64 to 15-12-64 is a still better period. Grand success, vast improvement in status, pleasant purchases, and gains with very little effort are promised.

At the end of the year, results will be brilliant for those who could have had Rahu in a favourable position at the time of birth.

Cancer—Karkata: This refers to people born in Cancer as Ascendant or in Punarvasu 4th Pada or Pushyam or Ashlesha star when Moon was in Cancer or if the date of birth was between 17th July and 16th August any year when Sun was in Cancer.

Saturn passed on to Aquarius on 26-1-64. It was in the sub of Mercury up to 11-2-64. Between 11-2-64 and 18-2-64, it is in Kethu sub.

For people born in Cancer, when Saturn transits in Dhanishta star, as lord of 7 and 8, passing in the constellation of Mars, a Rajayogadhipathi, normally the results will be brilliant. During the sub of only evil planets, the results will be adverse.

Between 18-2-64 and 7-3-64, the sub is ruled by Venus; a Bhadhaka sthanadhipathi, and also lord of 4 and 9, when Saturn moves from 2° 40' to 4° 53' 20". One may acquire a new vehicle; occupy new quarters; or gain through mother; returns from investments will be satisfactory; new friendship will be formed; financial partners may assist; gains through friends, and renewing old friendship are indicated.

It also indicates that around 2nd and 3rd March, when Moon transits in Mars star, health may not be alright.

Between 7-3-64 and 13-3-64, there will be much of activity; you will concern yourself more with financial problems. Luckily, you will receive the arrears, your bills will be paid, your claims will be approved, and you may expect promotion. This is a short period in which you can have many pending problems solved. Government will be helpful.

When Saturn moves between 5° 33' 20" and 6° 40' it is under the sway of the sub lord Moon, who is the lord of the sign Cancer. You are concerned with your health, and the new efforts that you may make. You will be contemplating, planning and scheming. Health conditions need rest. Financial position will not be satisfactory. You may have to pay many bills. In business, you have to be issuing cheques, whereas the receipts will be less. Those who desire to go overseas, can have the permission, etc. You may meet foreigners and enter into an agreement.

On 23-3-64, Saturn enters into Sathabhishta star and till 12-4-64, it is in the sub of Rahu. Depending on Rahu's position at the time of birth, the results will be enjoyed. If Rahu had occupied favourable position, and has to offer beneficial results, even though Saturn may transit in ashtama, the unfavourable eighth house, yet the results will be good. You may not be satisfied or pleased. Yet success is promised. When Saturn transits in a favourable house, success will please you. In evil houses, though you are able to complete your undertakings, you do

not feel contented or pleased. Suppose, you purchase one 'win' ticket, and one 'place' ticket in the races, when Saturn transits in favourable constellation, and in 8, your win ticket will pay 15 rupees for every ten rupees you bet. But, when Saturn transits in a favourable house and star, even though you have a 'place' ticket for Rs. 10, you will have a return of Rs. 100 and more. Thus, planets will offer results.

If Rahu was in an unfavourable position at the time of your birth, when Saturn transits in Rahu's constellation, in the sub of Rahu or Saturn, you have to be very careful. You should avoid driving a car; you should not venture to cross a busy road; you have to observe hygiene. Chronic sufferers will have the relapse of the disease. Patients with heart disease, and those, who suffer from general nervous debility, should not exert much. It is better to be on leave and be cautious.

Between 23-3-64 and 12-4-64, when Saturn is between 6° 40' and 8° 40', health will not be normal. There may be misunderstandings with subordinates and colleagues. Income will be reduced. There may be ill-repute or scandal. Secret inimical activities will come to light and this will irritate you. Short journeys will not be fruitful. Money will get entangled.

Between 12-4-64 and 5-5-64, you will be able to accomplish some of your desires. Bills will be paid. Receipts of old arrears will improve your bank position. You will come out successful in litigation. Arrangement to go overseas may be made. It is likely to have a short stay outside. Your partner may fall ill, and you may have to take him for treatment to a far-off place. Your wife may lose her health, and will need proper medical aid. Thus, in this period, there will be grand success on one side, and worry on the other.

After 5-5-64 till 15th June, Saturn proceeds in direct motion, and between 15th June and 27th July, by retrograde motion. It is in the sub of Saturn: you will feel dull. You become pessimistic. You find much opposition. Your servants may go on strike. What-

ever appeals to you, now, will prove to be detrimental. Avoid disputes. You will find that you are not able to stick to any single programme. You may even give up your principles. Business will be discouraging. Health will be causing worry or anxiety between 19th and 30th June. Your attempts to expand your business will not be fruitful. You will have to face a lot of obstacles and impediments. Financial position will be very tight.

Luckily, you receive Providential help between 27-7-64 and 21-8-64, when again, you are normal. You have success in every walk of life. You will attend to your work with zeal. Turn over in business will be satisfactory. You will come out successful in litigation, or at least by arbitration and compromise, you will get rid of the worry. Children will have grand success. They will show vast improvement

in their status. They will have promotion and prosperity. You will also gain by speculation. Your partner will show rapid recovery. You will be, once again, entertaining hopes for further advancement in your life.

Between 21-8-64 and 18-9-64, results will be similar to those you had between 2-3-64 and 12-4-64. Between 18-9-64 and 9-10-64, you will enjoy as much as you did between 13-3-64 and 23-3-64. Between 9-10-64 and 25-11-64 better results, for a longer duration, can be had, similar in nature, to what you had between 8-3-64 and 13-3-64. Between 25-11-64 and 15-12-64, your health will cause worry. After 15-12-64, Saturn offers the same results as he did between 23-3-64 and 12-4-64.

For the other rasi bhoras results will follow.

KRISHNAMURTI PADDHATHI

Let us pray Lord Ganesh to grant us grand success. May Goddess Saraswathi bless us with wisdom.

We have thoroughly studied both the Western and the Hindu System. We have gained sound knowledge and to the best of our ability applied both the methods and in our experience, we have found that both the systems are incomplete though not incorrect. So Prof. K. S. Krishnamurti, Founder and President of the Modern astronomical and astrological Research Institute has done real intelligent research work and has formulated certain rules, which are based upon sound principles of astrology; students will find this method to be very simple and quick to follow; also it is very convincing. To a great extent, it completes the incomplete portion of the science.

Who copied whom?

Some are under the wrong impression that the Westerners borrowed knowledge from the Hindus; some others say that the Hindus gained knowledge from the Chaldeans, Hebrews, Greeks and so on. Both the views are not correct. The sages and the scholars in each country gazed at the stars thousands of years ago and they discovered the relation between the celestial phenomena and the terrestrial incidents. They established some methods to fix the position of planets in the Zodiac and the consequent effect on the animate and inanimate objects on the earth. Each followed certain methods to predict the events. If one has studied both the systems, one will declare that neither the Hindus followed the Westerners, nor vice versa.

Suppose some students appeared for mathematics examination: copies of the question paper were distributed to them. All were answering them. The superintendent caught hold of a student, called him as one who had been copying the answers written by another student, seated in front of him. He took this student

and complained to the Headmaster that he had been copying in the examination hall. On enquiry, the student repeatedly said that he had not copied at all. The Headmaster called for the answer papers of both the students and compared them. He declared that the student had not copied at all and the complaint was baseless.

Why?

The student who was accused to have copied had answered the 1, 3, 5 and 7 questions in the question paper whereas the other student had answered 2, 4, 6 and 8 questions. Hence, the headmaster who had gone through both the papers alone could know the truth. The superintendent who saw this student writing fast, and also, off and on, looking at the other student's table, had mistaken him as both answered the same Mathematics paper.

Similarly only when, one studies both the Western and the Hindu systems, one will confirm that the methods followed by either is absolutely different from the other. Let me explain a few points.

1. **Zodiac:** For both, the Zodiac is the pathway of the planets. But for Westerners, the commencement of the Zodiac i.e., Aries 0° retrogrades at the rate of 1° in every 71 years whereas for the Hindus, for astrological purposes the Zodiac commences always at a fixed point which is about 180° from the Star Spica-Chithirai. The Zodiac of the Westerners is called Sayana Zodiac whereas that of the Hindus is called Nirayana Zodiac. Therefore as years pass on, in about 480 years, it will be found that the Sign Aries-Mesha called by the Hindus will exactly coincide with Taurus—Rishaba by the Westerners. The portion of the Zodiac called by the Hindus as Taurus—Rishaba will be called by Westerners as Gemini-Mithuna and so on.

2. **Mansions:** Westerners have divided the Zodiac into 12 equal parts and call them as Solar Mansions or signs. So

also, Hindus have divided it into 12 equal parts and call each division as a Rasi. But there is the difference in the commencement of the signs, as explained above.

The Hindus have another method of dividing the Zodiac. They have divided it into 27 equal parts and call them as Lunar mansions, Nakshathras or stars. The Hindus give greater importance to this division. They have found that planets transiting in the same sign but in different Nakshathras cause different effects. Just like, each rasi or sign is said to be ruled by a planet, so also the Hindus say that each star is governed by a particular planet (e.g. Aries Sign—Mesha is ruled by Mars—Sevvai; Taurus sign—Rishaba is governed by Venus—Sukra; and so on. This is common to both the Western and the Hindu systems. But, after discovering Uranus and Neptune, the Westerners have allotted Aquarius—Kumbha to Uranus and Pisces—Meena to Neptune. The Hindus did not include this allocation. As regards the Nakshathras, the first division commencing from Aries—Mesha 0° is Aswini ruled by Kethu; the second is called Bharani governed by Venus; the third star is Karthikai, ruled by Sun; the fourth Rohini, lord of which is Moon and so on.

Day: The Hindus consider that a day commences only from the moment of the Sunrise in that locality and that it extends till the next sunrise in the same locality. The sun may rise at 4-30 A.M. or 5 A.M. or 7-30 A.M. If a child is born at 7-20 A.M. and the sun rises only at 7-40 A.M. to that locality on that day, then the child is said to have been born on the previous day. Suppose the Sun rises at 4-50 A.M. and a child is born at 5-10 A.M., the Hindus consider that it is born on the next day. They take the lord of the day for judgment and it proves to be correct.

Westerners do not attach value to the name of the day. They follow only the date which changes at midnight.

[That is why, when some astrologers cast the horoscope of a child born between 12 Midnight and the time of Sun rise, they

mention the name of the previous day but give the date according to the Western System which is a little confusing.]

Horoscope: While erecting a horoscope and offering prediction the Hindus attach much importance both to the houses and Navamsa position. But the Westerners attach importance to the Signs and Houses. They have no "Navamsa" chart at all.

1. **Cusp of the Houses i.e., Bhavas:** Differ widely between Eastern & Western systems of calculation. As it needs exhaustive explanation, it will be dealt with separately in the following issues.

Prediction Udodasa: Vimshothari, Ashtothari, Kalachakra dasa etc., are the various dasas advocated by the Hindu sages to predict events in one's life either to himself or to his relatives and others, with whom he or she has transaction. The Westerners have no dasa system at all.

Progression: There is no clear and exhaustive method of "Progression" given by the Hindu sages though it is simply mentioned by only one sage. Westerners follow only this method to predict events in one's life and have advanced the study of this subject.

Transit: Westerners take the position of Sun in the Sayana chart to offer transit results. The position of the transiting planets is referred to the position of Sun at birth. But the Hindus take the position of the transiting planets and refer to the radical position of Moon in the horoscope. Further the Hindus give the results according to the Sign occupied by the transiting planet and not the house transitted by it; but the Westerners take into consideration both the sign and the house transitted by the various planets.

Aspects: The Hindus are of opinion that all planets aspect the 7th house whereas Saturn has special glance on the 3rd, and 10th houses counted from the sign occupied by it; Jupiter aspects 5th and 9th houses from its position; Mars aspects 4th and 8th houses, counted from the sign it occupied.

But the aspects followed by Westerners

are calculated correctly. They call that the longitude between one planet and another planet or one planet and the cusp of one house if divisible by $22\frac{1}{2}$, the aspect is disharmonious, harmful and adverse. Also they say "If the longitudinal distance among two planets or between one planet and the cusp of another house is divisible by 18° or 30° (except 90°) is considered to be harmonious, favourable and advantageous.

Parents: Westerners consider that the fourth house indicates father and the 10th house the mother. But the Hindus take the fourth house as the mother of the person and the 9th house as the father. We follow the latter which is found to be correct. Our findings to establish that the Hindu System is correct, will be published when we deal "Houses".

Strength: Hindus estimate the strength of the planets by Shadbala etc., after laborious work whereas the method adopted by the Westerners is very simple and they do not have any such calculation.

Ashtaka Varga: Is a method followed by the Hindus which is not known to the ancient astrologers of the west.

Thus, many instances can be given to show that each follow their own system which differ much from the other.

(Yet knowledge of both the methods will minimise percentage of the incorrect predictions.)

Astrology is an incomplete but not an incorrect science. Krishnamurti Paddhati contributes important information and advances simplest methods

(a) Why both the methods are considered to be incomplete etc.,

(b) How to ascertain the favourable and the unfavourable disposition of planets,

(c) What nature of results one can expect from a planet.

(d) The exact time when they will be experienced.

(e) To predict the different results enjoyed by twins born in the same locality, but with an interval of few minutes even though the ascendant, Lagna is in the same sign, the position of planets in the Zodiac, in rasi, in Navamsa etc., remains the same, the *dasa* and *bhukti* is similar etc. As per progression the aspect among the planets will also be similar. So, it would be a problem both for Hindus and Westerners (i) to estimate the longevity of each as in some cases, either of the twins passes away early in infancy and the other lives long, (ii) one gets married, the other remains unmarried, (iii) one has sterling character whereas the other is always after the opposite sex, (iv) one has children, the other has to adopt, (v) one enters Government service, the other takes up business, (vi) one is a lawyer, the other is a surgeon, and so on. The common aspects are (a) the same mother, father, uncle, aunt etc. But the number of brothers and sisters will vary in those instances where one of the twins is a male and the other a female.

Astrology can be declared as a science, only when these differences can be explained properly, at least after knowing the results. It will be considered to be a perfect science, if it is made easy and the students having the ardent desire, understand it thoroughly, apply it properly and offer correct predictions. Herein comes the need for further research.

Sri Krishnamurti Paddhati improves the present available methods of prediction and to a great extent satisfies the consultants as it enables one to offer precise predictions, even in the cases of twins born at an interval of a few minutes.

Indeed, it is simple: It does not entail any laborious work. Very quickly, the nature of the planets can be ascertained.

VENUS—SUKRA

THE FORTUNATE BRIGU

Goddess of Love and Beauty

Astronomy: Hindus considered Venus as the most brilliant planet even at the dawn of history, even though it appeared some months as the evening star, and some months as the morning star. But by other nations, Venus was given two names Phosphorus and Hesperus, as they thought that the morning star Venus was different from the evening star Venus. But around 500 B.C., Pythagoras, the great Greek geometer, confirmed that both the morning and the evening stars are identical.

Venus presents a brilliant disc especially in the early morning, when the agriculturists in the villages begin their routine work in the lands and the Vedic Brahmins begin their daily routine prayers, etc. Venus is the brightest planet and it can, at her best, outshine Sirius, by 12 to 13 times.

Venus is much closer to the Sun than the earth. Therefore, on some occasions, Venus will be between Earth and Sun, and on some occasions Sun will be between Earth and Venus. The average distance between the Sun and Venus is 67 million miles. The variation is very little, as the orbit of Venus is almost circular. The distance between Earth and Venus, during inferior conjunction, will be only 25 million miles. The size of Venus is similar to that of the Earth. Venus has a diameter of 7,600 miles, while that of the Earth is 7,900 miles. Its period is 225 days. The atmospheric layer around Venus is thick, peculiar and fascinating. The brightness of Venus is due to the reflecting power of its atmosphere.

For the observers on the earth, Venus can never be more than 48 degrees from the Sun. Therefore, when Venus is the evening star and is 48 degrees away from the Sun, we can see it in the heavens for about 3 hours and 12 minutes after sunset.

Mythology: Venus is considered to be the Goddess of love, marriage, beauty and comforts. It is called Maha Lakshmi, wife of Lord Vishnu. Venus is also called as one-eyed. The story is to impress upon the mind that if Venus is ill-positioned, the eye will be affected.

Bali Chakravarthi was ruling both the Earth and the Heavens. The Devas and Indra appealed to Lord Vishnu to free them from Maha Bali. So, Lord Vishnu took the form of a dwarf. He approached the emperor Bali and begged him to give three feet of land for his use. Bali had a wise preceptor, named Sukracharya. The Guru understood the trick of the Lord and hence advised the emperor not to grant the request. In spite of it, Bali granted the request by pouring water in the hands of Lord Vishnu appearing in dwarf form. Sukracharya blocked the passage of the water by one of his eyes. Lord Vishnu took a grass and pierced through the eye of the Guru as though he was removing the obstacle. Thus Sukracharya lost an eye.

Venus is also known as Lucifer and Hesperus. Greeks call it the Aphrodite; the Babylonians call it NANA; the Hebrews named it as Istareth; Assyrians called Venus as Ishtar and the Phoenicians

Venus rules Yajur Veda and Vasantha Rithu (April and May). Venus is called Kama, for one's passion depends on the strength of Venus and the aspects it receives, as Venus is chiefly concerned with the emotional outlets and character.

Astrology: Venus is a feminine planet. It rules the signs Taurus-Rishaba and Libra-Thulam, the second and the 7th signs of the Zodiac. The former is an earthy and a fixed sign, whereas the latter is an airy and a movable one. Being a feminine planet, it governs the gentle and refined attributes. That is why people, ruled by Venus, are kind and sociable. Taurus suggests that the native will be endowed with a pleasant and handsome countenance, as it is the second sign of the Zodiac; for the second house indicates one's cheek, eyes, etc. Libra shows that one will have symmetrical form, graceful manners, will be inclined to purchase peace at any price, and level-headed and will try to lead a happy and harmonious wedded life. By their pleasing personality, calmness, patient hearing to what others say, and refined nature, they will soften the ruffled feelings of others, change their attitude and prove to be real peace-makers. Also Venus furnishes the bond between all members of the family, whatever may be the relationship. Libra, being the seventh sign of the Zodiac, Venus shows Love. Mr. Max Heindel says, "Venus vaunteth not herself, is not puffed up, seeketh not her own, rejoices not in iniquity but in truth, beareth all things, believeth all things and endureth all things."

Venus gets exalted in Pisces—Meena. Its Moolatrikona sign is Libra—Thulam. It gets debilitated in Virgo—Kanni. Aries and corpio are the houses of detriment to it.

Pisces is the 12th sign of the Zodiac. 12th house indicates Suka Sayana, or conjugal bliss. Hence, strong Venus in a chart is a testimony that the native will have attraction to the other sex early in his life; also he will have attraction to all matters contributing for amusement and gratification of the senses.

Pisces is a dual sign. Hence, plurality of persons is likely. This is promised in those cases, where they have the conjunction or aspect from both the planets, Mars and Saturn, as Saturn is to deviate from the man-made law and Mars is to give opportunity, courage and strength to avail. In Taurus, Moon gets exalted, whereas in Libra, Saturn is exalted. No planet is debilitated in Taurus; but Sun is debilitated in Libra. This is a testimony that Venus is for Iha-Loka-Sukha and it can bestow on one all comforts, enabling one to lead a pleasant life in this world.

Physical Features: Venus produces people of average height, plumpy body, round and dimpled face, or oval and very attractive one, bright, kind and pleasing eyes, pleasant voice, sweet smile and curly hair. If Venus is afflicted adversely, it bestows less beauty. Generally, Venusians are the winners in any competition, especially when they apply for the reception department, as private secretary, salesman, propagandist, etc., other than the occasion, when a choice is to be made among a few competitors for marriage.

Part of the body: Venus governs eyes, generative system, throat, chin, cheeks, kidneys, etc.

Diseases: Affection in the eye, irregularity in the catamenia, diseases of the ovaries, mucous diseases, skin disease, Bright's disease, cysts swelling, Goitre, Gout, Anaemia, and other complications due to over-indulgence in amusements, eating, drinking, etc., including Gonorrhea and Syphilis. If Sun and Venus get afflicted, eye disease will result. If Mars, Moon and Venus are ill-positd in a horoscope, then the native will have discharge for a larger number of days and the quantity also will be profuse.

If Saturn afflicts, then the discharge will be scanty, but the pain near the chest and the lower abdominal region will be for some days before and after the period.

If Mars, Venus and Sun are afflicted, then the native will have to undergo treatment by a surgeon to have a child.

If Saturn afflicts Sun and Venus, one may have fibroid tumour. Jupiter, afflicting Sun and Venus, indicates cancer.

If Mercury afflicts by the semi-square or semi-demi-square aspect with Venus, one may have nervous disorders which may lead to Hysteria.

As Venus represents the beauty of the skin, when afflicted by Saturn or Kethu, one will suffer from Eczema, Leprosy or Leucoderma.

Thus, considering the adverse aspect to Venus, one is to judge the nature of the disease.

Injuries may be caused by an accident through any vehicle, car accident, plane accident, cart running over one, cycle, etc. They may also be caused through the animals and the birds which are governed by Venus, e.g., panther, bull, cow, buffalo, goat, etc. Those, who have been keeping birds and animals as hobby, may have dove, peacock, sparrow, etc.

Plants and Herbs: Cotton, pomegranate, gooseberry, sandal, dandelion, jasmine, musk, punugu, nutmeg, condiments, Asokha tree, cherry, white poppy, chestnut, fig, apple, and all juicy and tasty fruits, rubber, tobacco.

Places: Red room, dancing and dining room, cinema theatre, drama hall, garden, nursery, fountains, banqueting hall, scent manufacturing factory, automobile industrial places, shipping yards, aerodrome, etc., chemical industrial areas, silk and rayon industrial quarters, mica mines (if Saturn is conjoined with, or aspecting Venus), glass manufacturing places, etc.

Political: Cease fire, peace, prosperity in the country. No more necessity for control or permits but opportunity for Free Trade. Laws favourable for transport, railway, shipping etc., for cine people, musicians and ladies, expansion programme and export facility for silk, textile, rayon, toilets, perfumeries, mica, chemicals, cinema films, women welfare, etc.

Economic: Satisfactory relationship among the partners and shareholders. Issue of bonus shares. Improvement of the industry and much prosperity. Rise in the prices of the shares. Floatation of new companies dealing in any of the products, governed by Venus.

Products: The finished goods of the textile, silk and rayon products, silver, copper, glass, mica, toilets, perfumery, fancy goods, photograph films, hosiery for ladies, confectionery, sandalwood oil, fruits, flowers, sugar, chemicals, rubber, cars, ship, aeroplane, embroidery, tailoring machines, musical instruments, radio, paints, milk, petrol, etc.

Profession: Musicians, gamesters, cinema actors, actresses, film producers, etc. Similarly in drama, dealers in musical instruments and in all the products mentioned above. Those employed in transport, automobile, railway, bus, taxi, lorry, air travel, shipping, food department, animal husbandry, slaughter house, agriculture estates, coffee, tea, rubber, etc., opticians, glass, mica and plastic, linen drapers, tailors, painters, jewellers, players, embroiderers, those employed to make-up, dress, comb, etc., fiddlers, pipers, engravers, perfumers, diamond and white stone dealers, pimps, etc.

If the second house is strong, and Venus indicates one's profession, he will be a vocal musician, a singer, or poet as Venus is called Kavi.

If the third house has connection with Neptune and Venus (who is the significator for one's profession), he will be using string instruments. If the sign is a short one as Aquarius, he will be a fiddlist. But if it is Gemini or Libra, a sign of Long ascension, he will have Veena. If Venus is in the third or the ninth house and is having beneficial (18 degrees, 30 degrees, 36 degrees or 60 degrees) aspect from Mercury, and if either is in an airy sign, he may be good in Flute or Nagaswaram. Short sign like Aquarius indicates Flute. Long signs show Nagaswaram.

Watery signs portray fertile imagination and he may be interested in Jaladharamam.

A strong Mars, receiving good aspect from Venus, shows that he will be acquainted with Gatam.

Saturn, Venus and Mars indicate that he will be an expert in Mridangam, as Mars is for manual labour, Venus for skin, Saturn for the dead and hence, Venus and Saturn for leather. Therefore this combination is necessary for them. Thus the trade or profession, in which one will be proficient, can be predicted.

Rulership:

Venus is called KALATHRA KARAKA, i.e., he is the chief governor for marriage. It shows whether one will be faithful in love and allow the partner to enjoy life, or one will be trouble-some and unreliable making the married life a hell on earth.

Venus also indicates the partner in business, if it has any connection with the second, sixth and tenth houses in the horoscope.

Venus is the chief planet connected with vehicles—Vahana. The fourth house and Venus indicate whether one can have the comforts through conveyance, etc. It is Vahana Karaka.

For those born during day time, Venus is the Karaka for mother. (The fourth house and its lord also signify mother.)

Lucky Colour:—White, cream, ivory.

Lucky numbers: 6, 15, 24, 33, 42, 51 and so on.

Lucky day: Friday.

Lucky metal and stone: Copper, Silver, Brass, Beryl, Coral, Jade, Diamond, Alabaster.

Lucky star day: On the days when Moon transits in Bharani, Poorva Parguni and Poorvashada stars.

Modification and Aspects to Venus:

Sun's aspect to Venus: As Venus is never more than 48 degrees away from the Sun, the only aspects which can be formed with the Sun are :—

1. **Conjunction** when both are together either within 12 degrees when Venus approaches the Sun, or within 17 degrees when Venus gets separated from the Sun. (Good)
2. **Parallel:** Equal distance from the celestial equator north or south; or one north and the other south. (Good)
3. **Vigintile:** 18 degrees away which is moderately good.
4. **Semi-demi-square** when both of them are 22 and a half degrees away which is evil.
5. **Semi-sextile** when they are 30 degrees apart which produces favourable results due to harmonious aspect.
6. **Semi-quintile or decile,** 36 degrees, will be the longitudinal distance between them which is also a favourable one.
7. **Semi-square** or 45 degrees distance between them which is evil. Thus seven aspects are possible and according to the aspect, one can expect beneficial or adverse results in their joint periods; i.e., in their dasa and bhukties and also when they form aspects during progression and transit.

For those who have Venus as ruling planet, Sun, forming good aspect with Venus, indicates that the native will be delighting in sociability, pleasure, easy life, comfort, luxury, clubs, societies, places of entertainment, etc. One will be fond of company, especially of the opposite sex. He or she will be hospitable. It gives a generous, courteous and cheerful nature. It calls out the artistic nature. It makes the person fond of art, music

and poetry. It is a positive testimony of unalloyed marital bliss. If Venus indicates one's earnings, good aspect promises gain of money through business partners, wife or husband, through profession, speculation and holding public office. There will be success in every enterprise with fresh opportunities for increase in income and improvement in status. One will enjoy good relationship with one and all. Good aspect promises that one will be a successful musician or a film producer.

Sun and Venus in close conjunction and also occupying the 5th, the 7th, or the 9th house, indicates either the wife is defective or she may have some disease in the generative system.

Adverse aspect indicates that one will be amorous in nature. There may be delay in marriage or disappointment. Happy and harmonious life is denied. All the beneficial results mentioned for favourable aspect will be absent, whereas just opposite results alone will be experienced. Domestic life will not be pleasant. For a few, it will be a problem. The extent to which it can do harm, depends upon other bad aspects also.

The above results will be experienced in their mutual dasas, bhukties and antharas. If Sun happens to be the significator of marriage, the partner's star may be Karthikai or Pooram.

Moon forming good aspect with Venus : The person, who has this beneficial aspect and to whom Venus is the ruling planet, by being born in one of his signs or in an Ascendant with Venus strong therein, will, by nature, be polished and refined. He or she will be inclined to develop art and will appear beautiful by their neat dress and also by the use of fragrant scent, powder, etc. to a limited extent. They will be fond of music, pleasure, light literature, cinema, drama, and other entertainments. They will be affectionate and attractive, gentle and good, sociable and sympathetic. They will be treated with respect in the company of young people of the opposite sex. If

Venus is the significator of his or her earnings, it promises splendid earnings, probability of rich inheritance through mother or wife or both, possession of luxurious and costly articles, furniture, and vehicles, etc. Naturally, the intelligence and imagination will get improved, and this will contribute to the happy and harmonious life. The following proverb will prove to be true in their cases. "The gown is hers that wears it, and the world is his who enjoys it". They may have satisfactory earnings, by catering to public tastes and needs, by running confectioneries, restaurants, boarding and lodging houses; or dealing in perfumeries, music, cinema, petrol, transport, shipping, etc. One will not over-indulge in pleasures, nor will be careless in habits and manners. The relationship among the partners will be very cordial; they cannot suffer scandal and unpopularity. If Moon is a significator of marriage, the partner's star may be Rohini and 23rd May to 6th June will be lucky. Adverse aspects will give the most undesirable results and will make the native's life horrible and not worth living.

Mars forming good aspect with Venus : Mars owns Aries and Scorpio, while Venus owns Libra and Taurus, both opposing each other, as both the planets are antagonistic in their qualities. Mars represents masculine, bold, militant, and rash action, while Venus indicates peace, harmony, calmness, and courtesy. Hence this aspect portrays that one will be courteous, well-behaved with pleasing manners and attracting all by his personal charm. It gives courage and confidence. One will be fond of adventure, amorous and ambitious. One may be proficient in instrumental music. His hobby may be to deal in cars. He may be extravagant.

Mars aspecting Venus promises greater earning capacity and ability; it will not allow him to save as much as one who has the good aspect of Saturn to Venus. Mars gives enough of energy, authority, responsibility, tact, push and activity. If Mercury also forms good aspect, one will not mind spending money on advertisement, display, show and propaganda.

Also they are the patrons for most of the clubs, societies, sabbas, etc. They will be able to make good gain through sports; by being good sportsmen, they may get lucrative posts in any office, though they may not be fully qualified for it, practical artistic ability or mechanical skill, automobile engineering, tailoring, singing, dancing, owning cinema theatres, or producing films, salesmanship, dress, jewels, ornaments, diamonds, textiles, photography, agriculture, coffee and tea board, etc.

Adverse aspect of Mars to Venus leads one to immoral life. But rivalry, spite and jealousy create many enemies and life will not be smooth. Passion cannot be controlled. Due to rash and violent action, there may be separation and dispute. It may even end in divorce. Saturn also forming evil aspect, will lead to the murder of the other partner. Worry through women-folk, over-indulgence, deranged health, loss of money, scandal and ill-repute are the unfavourable results. A few may meet with accidents through conveyance.

In the case of those who have good aspects, if Mars is the significator of marriage, the partner may be born in Bharani star or Mrigasirisha first half or Chithrai second half and the lucky period may be between April 26th to 10th May, between 8th June and 14th June, and between 17th October and 23rd October.

Mercury forming good aspect with Venus: Mercury and Venus can never be more than 76 degrees apart. Therefore they can form only a few aspects which are moderate in strength in giving the results. The strong aspects like square and trine cannot be formed.

Good aspects make the native good-natured. They will keep all the members cheerful by their pleasant and humorous talk; they will be good artists, developing taste in fine arts, music, etc. They will have keen imagination and proficiency in literature, Sanitary Engineering, poetry, comedy drama-writing, and will have contact mostly with literates. They will not hesitate to stand surety for anybody without getting entangled later.

They will have plurality of interests and will gain money mostly as agent, salesman, broker, manager to ladies well-placed in life, or as assistants to actresses, musicians, etc., or by playing second fiddle and ever pleasing the employer, as sanitary engineers, electric light and fan dealers, etc. If Saturn also forms favourable aspect, the natives will deal in Frigidaire. Mars, by lending its beneficial aspect, indicates that they may deal in electric heaters, motor batteries, etc.

If there were to be adverse aspect, the native should never stand surety to anybody, nor sign cheques, etc., without properly scrutinising it. Mental worry and ill-repute are threatened. Any confidential letter written to an intimate friend belonging to the opposite sex will fall into the hands of others, and the secret activities will be revealed. As Mercury represents the postal authorities, the letter may be, by mistake, delivered to a wrong person or at a wrong moment. If Jupiter is not favourable, one may be sure that one day or other, the person will have to pay penalty to the Income-Tax department, especially during the joint periods of Mercury and Venus.

Jupiter forming good aspect with Venus: These two planets are the brightest and are very strong benefics by nature. Hence, the persons will be polite, dutiful, honest, chaste and faithful. They will have faith in occult science, in God, etc. They will follow tradition and will never dare to break the law, nor will they contribute to breach of peace. They will cultivate universal love, both brotherhood and sisterhood. They will be just in their actions, and very hospitable. Charity, purity, piety, equity and equanimity are bestowed on the persons having this beneficial aspect. One will have the desire to have higher studies with facility and opportunity to study. Success is also assured in their ventures. Good health and smooth life for a long number of years are also presaged.

One will be able to get a good financier, who will be honest and ever helpful.

Much gain and success in business are assured. One can prosper in a court of law, income-tax, sales tax, etc., bank, women's college; honour and reputation will be on the increase; one may become the trustee of a temple; director of any company dealing in luxurious commodities, manager or cashier in the Transport department. By marrying one in high circle, one's position and finance will suddenly improve. One can enjoy all fruits of life in this world and also be pious and God-fearing; useful investments, rise in career, birth of child, and good luck are indicated.

If Jupiter happens to be the significator of wife or husband, she or he may be horn in Poorvashada star or Visakam first three quarters in Libra sign. The lucky period will be between 26th December to 10th January, or 7th November to 17th November.

Saturn forming good aspect with Venus: The native will consider deeply before launching an enterprise. Fertile imagination and far-sightedness, steadiness and perseverance, honesty and sincerity will make one very good to plan and scheme. The native will hold any responsible position of trust. He will meet all expenses which are reasonable. He will be economical, prudent, and frugal, and not miserly. Legacy through marriage, gain through investment on lands, garden, nursery, stocks and shares, business relating to coal, mine produce, leather, skin and hides, cotton textiles and prosperity in mine-engineering, etc. Good aspect of Saturn to Venus shows marriage in proper age and also mutual love between the couple. But adverse aspect will threaten either with delay in marriage, denial or dis-appointment, or both the partners may seek satisfactory pleasure with strangers, old people, widows, widowers, etc. The moral backbone will be lost. There will be financial loss, domestic worry, separation, bereavement, disappointment, etc. Ill-health, eczema, venereal troubles and leprosy will be contracted. There will be great difficulty in inheriting property. There may be the appointment of a guardian. Or the father may write out a

will and leave the property in the names of the person's children and will deny the native all rights. The native's position will be lost. There will be scandal. Reversals and downfall are certain. Even good friends will shun the native's society. One may be charge-sheeted for bribery, dishonesty, falsification of accounts, favouritism, etc. One may be prosecuted for debauchery or drink. The native may have litigation, and divorce the partner.

Generally, those, who have the bad aspect between Venus and Saturn, will first have a spectacular rise in life, and finally they will suffer from a greater fall. Saturn represents grave. So, the evil Saturn will see that the person is one foot in the grave.

Venus receiving good aspect from Rahu and Kethu: As Rahu and Kethu do not own any sign, find out in which star and in which sign they are. The lords of the star and the sign are to be considered. Consider as though the lords of the star and the sign are individually aspecting Venus. Both the results will be enjoyed, especially in the period of Rahu or Kethu and the sub period of the lord of the star and the sign during Venus Dasa or Venus Bhukthi.

Venus receiving good aspect from Uranus: The person will have an attractive personality. He or she will be exceedingly magnetic, especially to the opposite sex. The native will also attract a host of friends who are in power and who will be helpful to him. In any competition, he will come out successful due to his magnetic and charming personality.

Mentally he will be always alert, active, bright, intuitive, quick and also inspirational. This aspect gives love of art, music, poetry, discovery and research; when the native meets a person suddenly, he will fall in love with him or her and be happy as though Gandharva Vivaham has taken place; Uranus will assist him or her by this aspect. For very quick and sudden consummation, this favourable aspect is

needed. One will be much attached to the other as the eccentricity of Uranus is toned down by the soft and peaceful Venus.

Marriage will be a happy and harmonious one. There can be no trouble or jealousy through courtship or wedding. One will not be so hasty as to commit a mistake and divorce later, like Dhusyantha who ought to have had both the beneficial aspect of Uranus to Venus and also evil aspect from Mars and Saturn to Venus.

Railway, air travel, research, fine arts, investments speculation, etc., will be the sources through which one will be able to make money. It is also likely to have a windfall when Uranus forms again good aspect with Venus during its transit, and at the time when Venus dasa or Venus bhukti and a favourable sub period operates.

Venus receiving good aspect from Neptune: The person will be versatile; Neptune gives fertile imagination and deep emotions. He will be pure and will maintain a sterling character, provided there is no evil aspect from Mars and Saturn to Venus. Neptune indicates that the partner is reliable and faithful, mostly due to the kindness, sympathy and love. One may have interest in the mystical subjects, or be a successful speculator or a good musician, if Neptune is in the 5th house. Neptune

gives proficiency in instrumental music, especially, stringed ones. One will be able to produce very fine, sublime, melodious and pleasant notes, especially when one does Raga Alapana. For Swaram, Mercury also must form good aspect. Cinema film producers are very successful through those pictures which are released at the time Neptune, by transit, forms strong beneficial aspect with both its original position at the time of birth, and also with Venus in the radical chart. Neptune gives confidence that there can be no disappointment, complication, deceit or danger of scandal in love or marriage. Even in the business the partner cannot be playing fraud. Only when Neptune forms evil aspect, one has to exercise care in food and drinks. One is to avoid narcotics. There is always the danger from ptomaine poisoning. Misplaced confidence will land one in trouble. There will be danger through secret organisations. It is advisable not to have a partner and also any private secretary in business, as they may be cheats and bring in mental worry, financial loss, illrepute, etc. One will be wasting money through ladies without any benefit or pleasure.

But Neptune, forming good aspect, shows that the native will be successful, join happy society, spend a mirthful time, engage in devotional practices, and enjoy extreme prosperity.

MARS IN THE LAST TWO SIGNS

Mars in Aquarius makes one intellectual, as this is an airy sign. He will be prudent, quick-witted and a ready debater. Depending on the aspects of Mars, he may be impulsive or rash, headstrong and abrupt. Aquarius shows that he is humanitarian. He will be interested in the reform to do good to the poor. He may be ambitious, enterprising and also independent. Being a fixed sign, he will be steady and cannot be changed by others. If the circumstances appeal to him that the change will be to his advantage, he will not hesitate to change. It will be a complete, sudden and abrupt one.

Advocates, having Mars in Aquarius, have established a very good name during their Mars period, as it makes them a good reasoner, forcible and convincing speaker, capable of summing up facts and arguments very clearly, so that the opponent and the judge can arrive at correct conclusions in the advocates' favour. Aquarius suggests that one can gain through invention, machinery, electricity, aerial matters, medicine, surgery, or by floating a company, becoming the managing director of the same and running it to the advantage of the shareholders and customers. One may take interest in public work and also enter into Government or Co-operative service. Air-pilots, having Mars in Aquarius, will have sudden rise in their career, because of their merit, sincerity and ability.

If Mars is afflicted in Aquarius, one has to correct himself. He should not be too independent and selfish, and should avoid hasty actions. He should consider the consequences. He should not be brutally blunt in his speech and invite trouble. Otherwise, he will lose many good friends and suffer through opposition and hostility. Early death of parents will deny him many opportunities for rise in life. He should not be bombastic and resentful of authority. Speculation will end in

loss. If he has any slight trouble with the circulatory system, he should immediately consult a heart specialist. Some authors say that Aquarius governs either, and hence Mars can cause eye trouble. We are of opinion that only when it is afflicted by an evil planet from either Taurus, the second, and Pisces the 12th sign of the Zodiac, or by the planet occupying the second or the 12th house of a native, one may have eye trouble and a few had their cataract removed during Mars period.

(When one compares the horoscopes of the bride and bridegroom, if Mars is found to be in Aquarius-Kumbha, one is to consider that there is no *dhosha* as is mentioned in *DEVAKERALAM*.)

Mars in Pisces—Meena: The person will not be as bold as those who have Mars in the other signs. He may be somewhat timid and also slow or cautious, but if he loses he will become bold and audacious. He will be sympathetic and affectionate. He may be open to the influence of others, quiet, vacillating, indecisive and easily depressed. He will be ambitious, desirous of popularity though he will be dissatisfied with the poor result. He will have a tendency toward secret love affairs. He will be able to hide it from the public eye. If Mars is afflicted in this sign, he will be landed in trouble by indulging in clandestine intercourse. The person will be untruthful if Mars is afflicted, even though the sign is ruled by honest Jupiter.

Mars gives ability as a surgeon in hospital. He is best fitted for detective work. People with authority and power in places of segregation, isolation, hospital and jails, will have Mars in Pisces and Mars will be the significator for their profession by occupying the houses 2, 6 or 10, or by occupying the constellation of the planets in 2, 6 or 10 or Mars being

the lord of 2, 6 or 10 or by occupying the constellation of the lords of these houses. Sailors, Marine Engineers, fishermen, hotel-keepers, C.I.D. Police, Navy Police, and those who work in warships will have their Mars in Pisces.

If Mars is afflicted, there is always the danger through water. Accidents and injury in the foot, or danger through drowning or poison may be expected during the period of Mars. In business it threatens with many misfortunes, difficulties, theft, secret inimical activities, false reports, false accusations, scandal, etc.

Being a common sign, afflicted Mars gives many changes in the occupation, plans and schemes to become enmeshed in the net of the law and suffer imprisonment, making him a ward of the community. Mars is to be adversely aspected or conjoined with evils. He should avoid strong drinks.

(These are the general results of Mars in each sign. But the correct and precise results can be had only when one follows Krishnamurti Paddathi, an improved method of stellar astrology.)

MOON IN THE FIFTH HOUSE

By

ARUDHRA

Fifth house indicates children, progeny, the first child of a native, rather the first conception or pregnancy, and the general health of all children, pleasurable pursuits of the native, lottery, speculation, betting, sports, music, cinema, public entertainments, amusements, games, dance, merri-ment, etc. Fifth house also indicates the younger brother or sister to the next younger, mother's finance, bank position and movable property, father's father, success or failure of the messengers, maternal uncle's loss, investment and expenses, gain to partner in life or profit to the opponent, father's higher studies, long journey, contact with foreigners and their friendship, death of the ruler, or danger to him; there is no difference of opinion among the Hindus and the Westerners, in considering the 5th house as that which indicates the birth of children to one. Hindus consider this as a Kona, and thereby they declare it to be a strong sign, promising beneficial results to the native, if it is occupied by a benefic. Jupiter therein is said to be unhelpful to have a large family, though its aspect to the 9th, 11th and first houses is auspicious.

Moon in the fifth house generally indicates that one will have fondness for pleasure, will be cheerful in the midst of children and young girls, and will be successful in sports, games, music, opera etc. If the fifth house is a common sign, the affections of the native will be ever changing, and he will be an unsteady gambler. The marriage will prove to be fruitful. It is said that Moon in the fifth house will surely bless the native with children, even if the sign be a barren one; experience teaches that one should not give prediction regarding the number of children without

considering the wife's chart also. Correct results can be had only on scrutinising the lady's chart. If Moon receives good aspect, and, it is in the constellation of a benefic, it is certain that one of the children will be famous and prosperous. If the fifth cusp, the lord of the fifth house, is afflicted, but if Moon receives good aspect from Neptune, one will have a child by adoption. Moon in the fifth house, well aspected by Uranus or Neptune, is favourable to have intuition, clairvoyance, or have the benefit of YAKSHINI. Goddess may be worshipped to ward off evil.

Moon, receiving good aspect from the Sun, shows that one can have honourable and successful attachments. One can gain through speculation, and investment. The family will be small. If Sun afflicts, the native will have trouble in courtship, sorrow through love, trouble with children and also loss in speculation, gambling, etc.

Moon, receiving good aspect from Mars, indicates that one can have pleasure through strenuous sports and muscular exercise and sudden attraction towards the opposite sex. If it forms evil aspect, the native will be subject to sensual emotions and over-ardent affections; too much indulgence in pleasure; financial and social loss; danger to first child.

Moon, receiving good aspect from Mercury, refines the native's pleasures and makes them more mental than muscular. It is more of the mind than of the senses. One may gain through speculation in cotton, in forward business, or in betting of cotton prices. Intuition will be correct and action also will be prompt.

There will be success in connection with travels and also correspondence. AGENCY, contract, etc., will be a source of sudden and substantial income. Adverse aspects threaten worry, anxiety and agony. There will be nervous breakdown due to disappointment in love affairs or due to the death of a child.

Moon, receiving good aspect from Jupiter, indicates that the children will be good and dutiful. They will be helpful in contributing to the comfort of the native. One will be successful in his love affairs and may gain through the opposite sex also. One can speculate, using other's money and gain thereby. One may have the assistance of bankers and banks, and make money through cinema, music, etc. Bad aspect from Jupiter will give the same desires and chances; but finally there will be trouble, loss and litigation. One may become a bankrupt.

Moon, receiving good aspect from Venus, will bless the native with fruitful and pleasant union as also with beautiful children who will be endowed with artistic and musical talents. Girls born to this native will contribute towards peace and comfort. Gain through speculation, theatres, music, painting, milk and dairy forms are also indicated. If Venus afflicts Moon, health will fail due to over-indulgence in pleasurable gratification. Gonorrhoea, diabetes and such diseases may pull down the native's health.

Moon, receiving good aspect from Saturn, shows attraction towards people older than the native or towards maid servants, or girls employed in his office. Occasionally one may fall in love with a widow or a widower. If it is a lady, she may have irregular monthly periods and there will be delay to have a child, and during pregnancy, there will be false pain on many occasions. Speculation in petrol and mine shares will be profitable. If Saturn afflicts, there will be loss of children, the first child may be emaciated, still-born or short-lived. Loss by speculation and in games of chances are threatened. Danger from animals, drowning, foul gas in the septic tank, drain, etc., are to be feared.

Uranus, forming good aspect with Moon in the 5th house, gives unconventional ideas with regard to sex union. It will be uncommon, strange, romantic, impulsive, inconstant and secret one. Unexpected gains in speculation, betting, or lottery, and intelligent or eccentric children are indicated by Uranus. If it forms evil aspect, the native will have a troublesome child who may leave the house without leaving behind any information and causing much anxiety. Never speculate, as Uranus squaring Moon will give incorrect intuition, impulsive action which will land the native in trouble.

Neptune, forming good aspect with moon in the fifth house, gives strange experiences in connection with one's feelings, emotions and affections. It gives proficiency in stringed instruments and brings good reputation. Speculation in shipping shares, petrol, etc., will result in profit. But, if Neptune forms evil aspect, it denotes troubles, confusion, and disappointment. There will be loss in the transactions due to treachery and deceit. Those who become bankrupts by dealing in oils have the evil aspect between Neptune and Moon in 5.

For those born in ARIES :—Moon can be in Makam or Poorvapalguni or Uthrapalguni first quarter. If Moon is in Makam, it is not auspicious. It denotes confusion, indecision, ill-health to children, loss in speculation, etc. Success in his college course is not promised. There will always be some difficulty or other with the house owner or one may own a house in a slum area. Moon in Poorvapalguni indicates birth of beautiful and lucky daughters. The native will speculate and also be a good musician or get employed in any business, dealing in luxury goods, or those needed by ladies. Perfumeries, scents, etc., or taxi hire, and petrol business will be advantageous. Venus as lord of 2, indicating profession, and also luxuries of the ladies, aspects Moon who owns the 4th house counted from Aries. Moon in Poorvapalguni first pada indicates that one will study medicine and he will marry one who is not already related but born in a stranger's family, as

Sun, the lord of Uthrapalguni is the lord of a kona, i.e., the fifth house.

Taurus-born natives will have Moon in Uthrapalguni 2nd, 3rd or 4th quarter, or Hastham or Chithrai first half, in Virgo. It means that lord of three is in the constellation of lord of 4, Sun; or lord of 3, Moon in its own star Hastham; or lord of 7 and 12 Mars, in Chithrai. Hence, when Moon is in Uthram in Virgo, the person may be a salesman in any chemical or medical concern, or a touring officer in the Government, or an Inspector, or he may work in the communication department. If it is a girl's chart, her husband may go on long journey, come in contact with strangers and foreigners and enter into profitable contracts. If Moon is in Hastham, the person may have good friendship with brothers, sisters, and neighbours. A few may have romance with the co-tenant or neighbour or one living close by. As Moon is lord of three and occupies the second house to the fourth as lord of 12 to the fourth it is unfavourable to mother; it threatens loss and also hospitalisation during the period of Moon. But to children, it is an excellent position, as it is lord of 11 in its own constellation in the Ascendant to the children which is the 5th house to the native. If Moon is in the 5th house to a girl, then the 7th house indicates husband, which will be Scorpio. Moon happens to be lord of 9 in 11 in its own constellation and it indicates

that the husband will have higher studies, come out successful and also be benefitted with this qualification. Or he may come in contact with strangers and foreigners and gain, or he may go on a long journey which will prove to be fruitful.

Moon in the first or second quarter of Chithrai star will be in Virgo which is the fifth house to Taurus-Rishaba. It means that Moon, the lord of 3, occupies the constellation of Mars who is lord of this star and also lord of the 7th and the 12th houses counted from Taurus. It denotes that there may be loss of money through robbery while travelling, or expense on those with whom one comes in contact during the voyage, or in the settlement of marriage by making a short journey or by correspondence. Anyhow the union will not be fortunate if Moon is also afflicted. As lord of 7 is also lord of 12, people born in Taurus will have their partner born in a stranger's family or there may be separation during the periods of Moon which is under the sway of Mars. A few will be transferred to a neighbouring place and may have to live away, leaving the permanent place of residence. There will be a change in the surroundings and environment, as lord of 3 is in the constellation of lord of 12.

Thus one has to analyse and offer prediction for each planet, in each sign and house. Krishnamurthi Paddhati gives more details.

after marriage. Have all of them married girls born in Moolam? Some boys complain a lot of difficulties to their mother, soon after their marriage. Have they married the brides born in Ashlesha 1st pada. A few say that they lost their elder brother immediately after marriage, had they married Jyeshtha girls. Similarly collect facts and consider. You will find that the fathers-in-law passed away even though the girls are born in all the 27 stars. Similarly some lost mother-in-law, some brother-in-law, and so on. Therefore to attribute any such occurrences only to the nakshathra of the bride is not wise. Suppose a girl is born in Moolam first pada; she marries a boy. Is it certain that her father-in-law will pass away. Should not his horoscope indicate that his end will be immediately after his son's marriage with a Moolam girl? If his horoscope promises long span of life, how can this bride shorten it, by marrying his son? If the

father-in-law does not die, will she administer poison? Are there not many Moolam girls having fathers-in-laws for many decades after marriage? Do girls born in other stars promise long life to father-in-law.

Therefore, do not pay heed to all these proverbs. To reject the horoscope of girls born in Moolam or Ashlesha or Jyeshtha or Visaka is not wise. One has to judge the whole horoscope and find out the results. To select or reject on any one point, taking only Moon's position into consideration is not correct.

A few exceptions:—If the star of the girl or the boy is either Mrigaseerisha or Makam or Uthiram or Hastham or Swathi or Anuradha or Uthrashada or Uthirattadhi, one need not see dasaporutham at all. They can marry even when there is no dhina porutham. etc. (Yet the special rule to the 7th star is to be considered)

(will be continued)

By

JOYTHISHA VISHARATH K. GANAPATHY

In our issue of June 1963, it was explained how to find out the sidereal time at birth with reference to a birth at 6-30 P.M. Indian Standard Time on 15th May, 1963 at Agra while the method of fixing up the exact position of the 12 cusps was explained in detail in the August issue.

Now, we will explain how to find out the planetary position for the above birth with Raphael's Astronomical Ephemeris, which is to be followed to have a correct chart. What Ephemeris is, has been explained already.

You all know that the Standard time followed in India is 5½ hours in advance

of Greenwich Meantime. The position of planets, i.e., the longitude of planets printed in the Ephemeris is worked out for 12 Noon at Greenwich for each date or 5-30 P.M. I.S.T.

The example taken here is the birth at 6-30 P.M. which is 1 P.M. G.M.T. (i.e., 6-30 P.M.—5-30 hours = 1 P.M.)

You turn over the pages 10 and 11 in the Ephemeris where the planetary position for the month of May, 1963 is given. Find out the position on 15th and 16th as the birth has taken place in between these two dates. The following are the positions of planets:—

Planets	Symbol	Position on 15-5-63	Position on 16-5-63	Motion for a day
		deg. mt.	deg. mt.	de. mt.
Sun	☉	23 8 56	24 8 54	0—58
Moon	☾	10 2 50	24 2 04	13—14
Mars	♂	21 2 09	21 2 35	0—26
Mercury	☿	(R) 27 8 58	27 8 25	0—33
Jupiter	♃	9 7 18	9 7 30	0—12
Venus	♀	25 7 43	26 7 55	1—12
Saturn	♄	22 2 49	22 2 51	0—2
Rahu	♈	23 2 34	23 2 31	0—3
Uranus	♅	1 2 10	1 2 10	Nil
Neptune	♆	(R) 14 2 2	14 2 00	0—2

(R) indicate that the planet is retrograde)

The motion of each planet for a day, i.e., 24 hours is given above. As birth has taken place 1 hour after 12 Noon, Greenwich or 1 hour after 5-30 P.M. I.S.T. for which the position of planets is given, you have to find out proportionate movement for the interval and add the same to the position on the 15th, if the planet is in direct motion or deduct it if

the planet is retrograde. Rahu's position is given on the top of the right hand side page-11 as Moon's Node. You have to 180° to fix up Ketu's longitude.

Sun moved 58' in 24 hours at 1 hour it would have moved 58/24 = 2.4167 mts. So add 2 mts. to the position on 15-5-63. Moon moved 13°-14'

MARRIAGE

(DASA—PORUTHAM)

By

KAYESKA

The Ten agreements are :

'DINAM GANAM CHA MAHENDRAM
STHREE DHEERGAM YONIREVA CHA
RASI-RASYADHIPOW VASYAM
RAJJUR VEDHA CHA DHAE DHASA:'.

i.e., Dinam, Ganam, Mahendram, Sthree Dheergam, Yoni, Rasi, Rasi-adhi-pathi, Vasyam, Rajju and Vedhai.

Of the ten, the first Dina-Porutham was dealt with in the last April issue. The next is Ganam.

1. Gana-Porutham :

Gana might have been otherwise called as "Gunas." The nature of a person may be broadly classified into three groups : Rajasic, Sathvic and Thamasic. Our sages have expounded that it is the in-born nature of the couple which is mainly responsible for good understanding between themselves and for leading happy and harmonious wedded lives.

If the husband is Rajasic, that is, if he is of a fiery nature, short-tempered, rash and violent, and if he understands that the wife is also equally militant, they will agree satisfactorily. "Rajasic" means "Rakshasa".

If both happen to be gentle, true, law-abiding, god-fearing, and modest, they also will have Gana-Porutham and will lead pleasant lives, "Sathvic" means "Deva". If both are dull, lethargic, feeling happy when supported or grumbling when the other is negligent or reluctant which is the nature of most of the people, then too, understanding that the partner is in no way better or worse than himself or herself, they pull on with pleasure. This type is called Manushya Ganam."

If husband and wife are both born in the same group—Ganam, they will agree.

If the husband is born in Deva Ganam and the wife's star belongs to Manushya Ganam, both horoscopes will agree.

The agreement is said to be passable, if the husband is born in Manushya Ganam, and the bride in Deva Ganam.

If either of their stars is in the group of Rakshasa Ganam, and the other in Manushya Ganam, they will not agree. There will be no pleasure in their wedded life.

There are some exceptions.

(1) Suppose the bride is born in Rakshasa Ganam. Then count the star of the bride from that of the boy. If it is above fourteen, the evil effects will be warded off. They can be matched.

(2) If the sign, in which Moon was at the time of birth of the couple, happens to be the same or if the lords, of the different signs, in which moon was at the time of their birth, happen to be friends, or if they are in Sama-Sapthama, then even if there is no Ganam, can be matched.

The following nine stars belong to 2. Rakshasa Ganam :

Karthikai, Ashlesha, Makam, Chithrai, Visakam, Jyeshtha, Moolam, Dhanishta and Sathabishak.

Manushya Gana stars are also nine in number. They are Bharani, Rohini, Arudhra, Poorvapalguni, Poorvashada, Poorvapathra pada, Uthrapalguni, Uthrashada and Uthrabathra pada. The remaining nine stars are grouped as Deva Ganam, and they are Asvini, Mirgasirisham, Punarvasu, Pushyam, Hastham, Swathi, Anuradha, Sravanam and Revathi.

The above agreement is observed mostly by Kshathriyas.

3. Mahendhra-Porutham :

This also might have been named as Maha Kendhram. Because, by Kendhra, we mean the houses 1, 4, 7, 10. Similarly in this porutham, it is said that if the bridegroom's star is the same as the bride's or the 4th, 7th, 10th, 13th, 16th, 19th, 22nd or 25th counted from that of the bride, it agrees.

A hasty student will ask, "How is it that the sages in one Porutham, advocate the rejection of a star; while in another porutham they consider it as good. For example, in Dina porutham, they have condemned the 7th star; i.e., if the boy's star is the seventh when counted from that of the girl, they do not match. But under Mahendra porutham, they have selected the seventh star. How are we to reconcile this?"

It is a fact, that under Dina Porutham, the seventh star is discarded, whereas under Mahendram, it is approved.

All poruthams do not indicate the same result; i.e., happy life with wife; harmony between them; prosperity; progeny, etc. Each porutham shows a particular result.

By Dina Porutham, one can understand that the couple, having this agreement, can maintain good health and live together for a long period. But, by Mahendra Porutham, it is to be presumed that the couple, having this agreement, will have many children. Suppose the husband's star is the seventh from that of the wife. Then she may bring forth children and either of them may die very early. Are there not instances, wherein the couple had all young kids and they pass away? So Mahendra Porutham has given children, and the lack of Dina Porutham indicates short life to either or both. If there is Dina Porutham and no Mahendhra Porutham, then they will live long, and the family will not be big. If Dina Porutham is absent and there is Mahendhra Porutham, in the short period of married life, maximum number of children will be born. If both agreements are absent, neither will they have long span of married life, nor will they have children.

N.B.: Even though, there may be Mahendhra Porutham (7th, 16th and 25th stars) it should be read along with the special rules and information given by the sage Kashyapa. If Kashyapa Maharishi has not approved any group—(7th star), never match it. Once for all, reject outright; e.g., he had said that if girls born in Sravanam marry persons born in Asvini, the seventh star, they cannot have harmony and will get separated. So, a girl born in Sravanam, by marrying a boy born in Asvini, saying that there is Mahendra Porutham, will get separated, after having a child or two. Do we not hear many divorce cases after they had a few children?

4. Sthree Dheerga Porutham :

This agreement between the couple denotes satisfactory increase in their bank position after they get married.

It is declared that there is Sthree Dheerga Porutham, if the boy's star is 13th and above, i.e., between 13 and 27, when counted from that of the bride. Some sages have said that there is Sthree Dheergam, if the male's star is between 8 and 27, that is above the seventh star.

5. Yoni Porutham :

This shows that the husband and the wife will have good understanding and harmony. Probably this may be mistaken as though they will unite like animals or reptiles mentioned against each star. It is not so. It is only to impress upon the mind of the astrologer and the consultant whether a group of stars promise friendliness or enmity.

Stars	Yoni
Asvini, Sathabishak	Horse
Barani, Revathi	Elephant
Karthikai, Pushyam	Goat
Robini, Mrigaśrisha	Snake
Arudhra, Moolam	Dog
Punarvasu, Ashlesha	Cat
Makam, Pooram	Rat
Uthiram	Camel
Hastham, Swathi	Buffalo
Chithra, Visakam	Tiger

Anuradha, Jyeshtha	Deer
Poorvashada, Sravanam	Monkey
Uthradam, Uthratadhi	Cow
Dhanishta, Poorattadhi	Human

Thus, whether one is a male or female, yoni is allotted to each star.

If both are born in the same yoni, it is an excellent agreement. For example, girls born in Visakam star will be considered as one whose yoni is "Tiger". If she marries a boy born in Chithrai star whose yoni is also "Tiger", both will agree well; and this agreement promises peace and prosperity which everybody wants. An Ashlesha girl, marrying Punarvasu, both having the yoni of cat, will lead a calm and peaceful life, as both have the same yoni. Because the yoni is compared to cat, one should not mistake that like cats they will be creating a terrifying noise when they want to have pleasure. Nor will Arudhra and Moolam star people behave like dogs. This agreement is judged to find whether they will have a prosperous married life or not. Also, it indicates whether one likes the other or not.

Have we not heard boys saying, "I don't like the girl. I don't know why. On looking at her, somehow, I have a repulsion. She is no doubt, fair, good-looking, well-behaved, etc. Yet I am not attracted." In such cases, there will be no yoni Porutham. If the boy and the girl are born in such yonis which are inimical, they will not agree. Prosperity and peace are not promised by this method of judgment. Further they cannot have the desired conjugal bliss. There will be dissatisfaction.

(1) Monkey and goat, i.e., Pooradam or Sravana girl or boy marrying Pushyam or Karthikai boy. A girl born in Pooradam has Dina Porutham with Karthikai and the 1st, 2nd and 4th padas of Pushyam. A girl born in Sravanam has good Dina Porutham with Karthikai. But Pushyam star is in Cancer. There is 'Sama Saphthamam'. As is said that Saturn and the Luminaries, Sun and Moon do not agree, the "Sama Saphthamam" is not approved. Hence Sravanam and Pushyam cannot be matched. Thus Dina

Porutham indicates health and longevity, while yoni shows satisfaction and prosperity. Hence people having inimical yonis will be dissatisfied.

- (2) Goat and elephant have no concord.
- (3) Horse and buffalo are inimical.
- (4) Cow and tiger disagree.
- (5) Rats and cats need no explanation.
- (6) Snakes and rats are also evil.
- (7) Deer and dog cannot be dear friends.

Therefore one has to mention that this porutham is absent, even though other agreements may be encouraging. As it is said that marriages can be celebrated if there are more than five-agreements out of the ten, even if this is absent, one can proceed. It is advisable to enlighten the couple, so that they can try to adjust themselves.

6. Rasi Porutham :

What is meant by Rasi? Generally by 'Rasi' one means a Sign, i.e., Aries-Mesha, TAURUS or Rishaba, Gemini or Mithuna, and so on. But the correct meaning of Rasi is the sign occupied by Moon at the time of birth. One may have his Lagna-ascendant in Leo-Simha. But his star may be Barani, thereby Moon is in Mesha-Aries. Hence his Lagna is Leo and Rasi is Aries. Suppose one's ascendant Lagna is Libra-Thulam and Moon is in Swathi star which is also in Libra-Thulam. Then his Lagna and Rasi are one and the same Libra or Thulam. Rasi means the sign occupied by Moon.

(a) If the moon sign-Rasi of the husband is the second counted from the sign of the bride, long span of married life is not assured.

(b) If the rasi is third from that of the girl, the married life will not be pleasant. Due to ill-health, lack of understanding, etc., they will feel sorry for having been matched together.

(c) If the rasi of the boy is the 4th from that of the girl, even the possessions

prior to marriage may be squandered, and they will lead miserable lives.

(d) If the rasi is the 5th from that of the girl, the husband is not assured of long life. She may have the most undesirable event in her young age. Exception: If the girl is born with Moon in Aries or Cancer and that of the boy is the fifth therefrom, the above evil result will be warded off. They can be matched.

[The opinion of the Westerners as regards the 5th sign is just opposite. They consider it to be very auspicious. How Westerners match, what are the various aspects they consider, will be dealt with, after this Dasa Porutham, Sakunam and Nimitham.]

(e) If the rasi of the boy is the sixth, there will be loss of children. Astrologers call this as "Shasta-ashtama". They threaten the poor parents, [By 'poor,' it is meant, poor knowledge in astrology] saying that the Moon sign of the bride and that of the bridegroom are in shashta-ashtama. They add that their opinions will ever differ. They will always be quarrelling. Their married life will be unpleasant, and so on. It is not correct. The sages have said that such a Shasta ashtama position indicates short life to one or the birth of a few children; it is certain if they have Saturn, Rahu or Kethu in the ascendant or the 5th house.

Further there is exception for Shasta-ashtama. The twelve signs are divided into two groups: Aries-Mesha; Gemini-Mithuna; Leo-Simha; Libra-Thulam; Sagittarius-Dhanus and Aquarius-Kumbha: these are called Oja Rasi or odd signs or masculine or positive ones. The other six signs are the second, fourth, sixth, eighth, tenth, and twelfth: these are termed 'Yugma' rasi or even signs or Feminine or Negative ones.

It is declared that girls born in Oja Rasi or in the signs, Aries, Gemini, etc., have no Shashta-Ashtama Dhoshas. Further if the lords of the sign in which Moon was in bride's horoscope is either Taurus-Rishaba or Scorpio-Vrischika, then the 6th house to them are Libra and Aries. As the lords of Taurus and Libra as well as Scorpio and

Aries happen to be the same, there can be no Shashta-Ashtama Dhoshas.

Further, it is mentioned that if the boy's Moon sign falls in Taurus-Rishaba; Cancer-Kataka, Virgo-Kanni, Scorpio-Vrischika, Capricorn-Makara and Pisces-Meena, and if it is second to that of the bride, the evil results will be warded off. They can be matched and they will have long life.

7. Rasyadhipathi Porutham :

This agreement indicates whether one will have fortunate children.

The following table is given according to Kalaprakasika; Kala Vidhana, Brihat Jataka and the views of Sathyachariar. If the lords of the signs in which Moon was in the horoscopes of the bride and the bridegroom happen to be same, it is very good. If they are friends, it is good. If they are neutral, the agreement will be moderate. If they are enemies, they are not desirable.

Planets	Friendly	Neutral	Inimical
Sun	{ Moon Mars Jupiter	Mercury	Saturn Venus
Moon	{ Sun Mercury	Mars Jupiter Venus Saturn	None
Mars	{ Sun Moon Jupiter	Venus Saturn	Mercury
Mercury	Saturn	Sun Mars Jupiter Venus	Moon
Jupiter	Sun Moon Mars	Saturn	Mercury Venus
Venus	Saturn Mercury	Mars Jupiter	Sun Moon
Saturn	Mercury Venus	Jupiter	Sun Moon Mars

(Vasyam, Rajju, Veda, etc., will follow.)

DHANUR LAGNA (SAGITTARIUS)

By

SHRI D. V. SUBBA RAO

Dhanus is a fiery masculine, human, odd, and common sign. By nature, it has been said to be cruel. Jupiter, its lord, has his moola trikona in 1 to 10 degrees. Its sensitive degrees are from 1 to 5 and 11 to 18. The inauspicious part is from 26 to 30 degrees. This rasi carries with it a certain amount of versatility which makes prediction of career of persons born in the rasi a bit difficult. They are generally interested in freedom. Teaching, organising and preaching are their chief avocations and attract them often with considerable ease. They adopt a strenuous type of life and are always for a game bent on winning it while striking first. They are apt to believe easily with an element of daring and optimism and as such, sometimes reckless. They are frank and blunt in speech and, if need be, they can also be reserved and sensitive. Thus they make more enemies than friends, consequent on being easily misunderstood. They are unconventional, sensitive, enthusiastic; God-fearing, honest, humble, brilliant, with affable manners and are deeply interested in arts and literature. They are prosperous and famous in their own fields. They are conversant with the art of getting on in life and conscious of their knowledge which often leads them to trouble when divulged. They are conspicuous with a long face and neck with big nose and ears. Commonly they are favourites of the ruling classes; liberal and eloquent they are endowed with great strength to destroy enemies, their hobby, but are won over easily with kind treatment. Following are the indications of the sensitive points: 1°- Dance; 2°- religion; 3°- sensitivity, suicidal nature, ambition; 5°- consumption; 6°- imitation, acting and occultism; 9°- scientific intellect; 10°- solitude and dignity; 11°- music and medicine; 14°-

oratory and organising ability; 15°- paralysis and criminology; 17°- pessimism; 19° and 21°- economics and finances; 23°- sense of duty; 28°- hypnotism, specialisation and 29°- astrology.

According to Hindu System, Sun and Mars are benefics; Moon, Mercury, Venus and Saturn are malefics and Jupiter is a neutral to those born in this sign. Sun in conjunction with Mercury causes Raja yoga.

Disposition of Planets

Sun—Lord of 9: In 6 or 8 houses he causes good Raja yoga. In 3 or 12 the yoga is a bit less. In conjunction with Mercury in kendras or konas, he causes awayoga. In relation to Venus he alone causes some good in dustanas while Venus remains neutral. Identical is the relationship of Venus and Mars. In 11 his conjunction with Saturn enables both to cause yoga, since Sun attains neecha bhanga raja yoga. Conjunction with Mars in 5 and 9 is bad and in 1, 4, 7 or 10 they do bad to a limited extent. Their parivarthana in 5 and 9 is rather bad as well as their conjunction in these places but 5 is preferable to 9. Conjunction of Sun and Mercury in kendras or konas or their parivarthana in these houses or their stay individually in their own houses is also bad. When posited separately in dustanas, i.e., 3, 6, 8; 11 or 12 they cause good. Position of Sun in 11 causes a free flow of fortune. Conjunction of Sun and Mercury in 6 or 8 is very good with preference to 8th bhava. In 9 or 10 this conjunction reduces the Raja yoga. It is always preferable they are separated and posited in dustanas. Conjunction in the 2nd house is good for high status with ruling powers, but the native is sure to lose his...

ancestral properties. With Venus in 12 to this conjunction, it is highly beneficial for attaining higher status with ruling powers. In the 12th bhava they confer high education.

Moon—Lord of 8: She causes avayoga when posited in kendras and konas. Full Moon in 12 causes a special yoga, the unique feature to this lagna. In other dustanas she does not confer any yoga. Her relation with Sun is generally bad, except when in Mesha where Sun alone confers yoga. Her relation with Mars in kendras or konas is good where Mars remains dormant. Conjunction with Saturn in dustanas is avayoga while this conjunction in kendras is good. Relation with Venus in kendras is very good. Conjunction of Moon and Saturn in 10 creates ambition of a new order, conferring fame and dignity. Conjunction of Moon with Mars in 12 confers high academic distinctions, happiness and success with little obstructions. Moon as a temporary friend of Jupiter is good to start with, but bad in the end. As a temporary enemy she is very bad.

Mars—Lord of 5 and 12: In kendras or konas or in the 12th house, Mars is no good for yoga, while in 3rd, 6th or 8th house he is positively a yoga karaka. Posited in the 2nd house he is no better, while in 11 he is of average benefit. In conjunction with lords of 6 or 8 in kendras, he causes good.

Conjunction with other lords in konas is better. Relation with Sun in 3, 6, 8 or 11 is good, while such relation with Saturn in these houses is bad. In conjunction with Venus in the 2nd house, he creates great abilities in music, raising the native to enviable heights. Conjunction with Mercury in lagna confers great mental energy, straightforwardness, honesty and sincerity, but the native figures to be a controversialist. This conjunction when opposed by Saturn makes one detached to life and altruistic. Mars in exaltation causes raja yoga and dhana yoga.

Mercury—Lord of 7 and 10: His position in kendras is bad, while in konas it is preferable. In 3, 6, 8, 11 and 12 he confers benefits. When it happens to be in his

exaltation sign or in the house of Mars, it is very good. Conjunction with Jupiter in kendras or konas is considerably harmful, but when such conjunction occurs in dustanas, it is doubly beneficial. Conjunction with Saturn in lagna is also good, but a bit less when compared with the conjunction of Jupiter with Saturn in lagna. Conjunction of Mercury with Jupiter in kendras, causes good, when lords of dustanas join them. Sextile aspect between these planets makes one simple, frugal, undogmatic. He will be of a retiring nature, steadily pursuing his own ideals which aspect is often found in the horoscopes of controversial politicians. Conjunction of this nature in the 8th house results in getting sudden wealth.

Jupiter—Lord of 1 and 4: His stay in lagna causes Hamsa yoga but is not very helpful for material prosperity. In Chandra lagna when it is even in the 8th house, he causes Hamsa yoga. As lord of kendras his stay in dustanas is very helpful. When these happen to be his exaltation or houses of Mars, the benefits to be derived are many more, or rather unlimited. A debilitated Jupiter is always harmful to this lagna. His conjunction with Saturn in lagna is very good for yoga. He is best in the 6th house for purposes of raja yoga and 8th and 12th come next. Jupiter in 4th with Mars in 10 is a positive indication for domestic worries and separation with wife. Venus in trine to Jupiter confers grace in expressions and endows popularity and public esteem. His stay in kendra or kona to Sun in conjunction with Mercury or in 2nd or 11th house from this conjunction is highly beneficial. Exaltation of Jupiter causes Lagna-adhi-yoga.

Venus—Lord of 6 and 11: Though a malefic, by owning 6th and 11th houses, yet it confers good, by being posited in kendras or konas. Even while debilitated in the 10th house he is good. In dustanas no yoga is caused.

While in kendras, his relation with Jupiter, Mercury, Sun or Mars is, no doubt, good but he alone confers yoga, while the rest are rendered helpless. His relation with Saturn is not congenial in

general and in dustanas it causes positive ava-yoga. His relation with Jupiter or Mercury is helpful since the malefic nature will be mitigated. Conjunction with Saturn in kendras is good, as both will cause yoga. Exalted Venus is highly beneficial. Conjunction with Moon in kendras or konas is very good. Conjunction with Sun in 3, 6, 8, 11 or 12 betters the position of Sun, while Venus turns to be a benefic though to a lesser degree.

Saturn—Lord of 2 and 3: Posited in 6, 8 or 12 houses causes no yoga. In 11, 9, 5 and 1 he is a yoga karaka. In kendras or konas he confers Raja yoga independently and not when aspected by natural benefics as Jupiter. When Jupiter and Mercury occupy dustanas, his dasa coming in between the dasas of these kendrahipathis causes Prabala yoga, specially when he is posited in 3, 6, 8 or 12 houses. Saturn in 11, with Sun in 5 causes amatya yoga but his political life would be restless. In 5, when neecha, with bhanga, he confers yoga of a high order.

Rahu and Ketu: Both those nodes in kendras or konas, when not conjoined with any planet, is good. Their relation to Mercury or Jupiter is not helpful. Relations with Saturn or Mars is good. When posited alone in 3, 6, 8, 11 or 12, they are sure to confer benefits. "Sanketanidhi" observes that Rahu in 11 with Saturn is harmful. Conjunction of Rahu with Mars in 9 enables Rahu to confer yoga, while Mars causes ava-yoga during his periods. Ketu causes yoga independently when posited in 3 or 12 houses. His conjunction with Venus in dustanas causes yoga bhanga. Conjunction with Saturn is good for yoga.

Mercury in 2nd, 3rd or 7th house makes the native learned, high-minded and foremost in having truth and virtues as ideals. He will be possessing noble qualities, will become famous and merciful. His position in the 2nd house is said to confer specially good results, such as high education, fame, kingly riches and promotion to the highest ranks.

Other general features are: Sun, Mars, Mercury, Jupiter and Saturn cause yoga,

when posited in dustanas or when related to lords of dustanas. Without relation with malefics, these planets cannot confer yoga in dustanas. Conjunction of Moon, Mercury and Jupiter is good to a certain extent in kendras. Relation of Mercury or Jupiter to Sun, Mars or Saturn in dustanas is good. Saturn in 2nd house aspected by Jupiter, with Mars in 9 and Sun in lagna bestows continuous prosperity and good luck. Conjunction of Moon, Mercury and Venus in 8 makes one warm hearted, and artistic. He would be famous as a poet, but his married life is disastrous. Conjunction of Venus with Mercury and Sun in 2, with Moon in 10 makes one calm and critical in outlook with great organisational abilities and balance of judgment. Sun in conjunction with Venus in 9, with Saturn in 3 confers fame and wealth in the dasa of Saturn. Conjunction of Sun, Mercury and Jupiter in kalatra bhava is a sure indication to acquire riches through wife. Conjunction of Sun, Moon and Mars in the 3rd bhava aspected by Jupiter from 9th confers luck, self-acquired wealth and proficiency in astrology.

Births take place under the five tatwas, viz., Akasa, Vayu, Agni, Jala and Prithvi. Planets have rulership on these tatwas. Akasa tatwa is governed by Jupiter, who in turn is the lord of Dhanus and Meena. Dhanus happens to be an agni tatwa rasi which, under rulership of akasa tatwa. Jupiter, functions for the purposes of astrology. It is obvious that akasa and agni tatwa do not get on well together but the virtues of Deva Guru governing both the aspects makes one born in Dhanus conspicuous by certain traits of character and ability. It would thus be interesting to study the horoscopes of persons that are born in Dhanus in akasa tatwa.

Persons born in akasa tatwa as enunciated in "Brihatsamhita" are optimistic, cheerful and generous. Variations in their temper, mind and aptitude, are conspicuous. Under congenial conditions great traits of character manifesting intellect of a high order, grit, energy, broad-mindedness and generosity are revealed. Facing adverse circumstances, they often tend to

lose faith and become pessimistic, doubting their own trusted friends. They are generally clever, open-mouthed and possess divine nature and are devoted to friends. Being firm in their views, with capacities to adjust themselves to environmental conditions, they are clever in attracting people and making friends whom they trust without proper probe and with full confidence in their abilities. Quick temper, grit, ability coupled with lurking suspicion, ambition and over-confidence in their abilities, often lead them to experience mixed results. They love power and friends, while being a terror to enemies. Persons born in Dhanur lagna in akasa tatwa are famous for their grit, self-earned wealth, uncompromising nature and enmity with kith and kin. They are often cheated by their own friends, subjecting themselves to sorrows and miseries.

With the above principles in mind let us now consider the horoscope of one born in Dhanur lagna in Akasa tatwa.

The native was born on 19th May, 1913 (Monday) at 10-9-28 P.M. The planetary position at the time of birth was as under:—

Mars Rahu	Mercury Venus	Sun Saturn	
	Rasi		
Lagna Jupiter		Moon	Kethu

Kethu		Venus Saturn	Moon
Sun	Navamsa		
	Lagna Mars Jupiter		Rahu Mercury

Lagna 8-24-2 and MC 6-3-30. Bhava chart shows changes in the planetary positions as compared with the rasi chart. For the sake of accurate predictions the bhava chart only is to be considered. Balance of janana kala Guru Mahadasa was 6 years 11 months and 8 days.

As stated earlier Sun and Mars are benefics, Jupiter is natural and Mercury, Moon, Venus and Saturn are malefics. From Chandra lagna Moon, Mercury, Mars, Venus and Saturn are benefics. Sun is neutral and Jupiter is the single malefic.

Following are the adhi yogas that are to the vantage of the native: Vasumati yoga caused by Moon, Jupiter and Venus as natural benefics in upachayas to Chandra lagna confers raja yoga and prestige. Budha Aditya yoga caused by Mercury and Sun being in Mesha, confers raja yoga, dharma karmadhipathi yoga. Beri yoga caused by the same two planets as lords of 9 and 10 posited in kona confers raja yoga and prosperity. Maha bhagya yoga caused by lagna, Sun and Moon posited in odd houses confers reputation, happiness, charitable disposition and kingly status. Pushkala yoga caused by Jupiter and Venus posited in kendras confers wealth and prominence with governmental favours. Kala yoga caused by Mars and Saturn exchanging houses confers alternating luck and ill-luck. Parvatha yoga is caused by Jupiter and Venus occupying kendras, while 6th and 8th houses remain unoccupied confers wealth, prosperity, liberality, and leadership. Hamsa yoga caused by Jupiter being in kendra, his own house, confers comforts, merits and devotion to virtues. Chandradhi yoga is caused by Venus, Sun, Mercury and Saturn posited in 6 and 7 houses from Moon. In addition, the following are the raja yogas caused: Mercury, lord of 10 aspected by Jupiter from lagna; Venus being the lord of Chandra lagna posited in a kendra; Jupiter the lord of lagna by his position in navamsa lagna; Venus transiting the constellation of Aswani at birth; Conjunction of the lords of bhagya and rajya in a kona that happens to be the exaltation sign of the bhagya lord.

Life started with the dasa of Jupiter followed by that of Saturn. Ketu's relation to karma sthana is responsible to the native's high devotion to God. In Trimsamsa lagna, Ketu was again in the karma sthana, indicating success of the cherished desires. Dhana and Vahana Arudhas are in 10 to Lagna arudha. Karakamsa lagna was again in 10th to dhana and vahana arudhas; and these happen to be the houses of Mercury, the lord of Rajya bhava. Karakamsa lagna is being aspected by Jupiter, the lagna lord who caused Hamsa yoga. Janma and Arudha lagnas are the same with Jupiter. Jupiter and Mercury posited in trimsamsa lagna are being aspected by Mars from rajya bhava. Considering all other salient features Saturn, Venus and Jupiter are rendered weak in order. Sun and Moon are detrimental to Rajya bhava being natural enemies of Venus who happens to be the maraka for Rajya bhava as lord of 2 and 9 and in turn a malefic to Dhanur lagna, being lord of 6th and 11th houses. Moon as lord of 8 to lagna and lord of 11 to Rajya bhava is detrimental, positively to Rajya bhava. His position in 2 to Rajya bhava as atma karaka in the constellation or Jupiter is a positive indication of decline of the Rajya bhava during the period of Venus in whose house he is posited and with whom he is in conflict being in conjunct.

As revealed by the adhi yogas the rise started from the 2nd half of the mahadasa of Mercury exalted in Navamsa chart (posited in an odd sign conferring the effects of the moola trikona house in the second half only). The native became a minister in Rahu bhukti or Rahu antara of Budha mahadasa. During Mars bhukti he was elected President of the Andhra Provincial Congress Committee. During the antara of Saturn of Budha dasa, he became the Deputy Chief Minister with the commencement of Kethu Mahadasa. Remarkable progress was noticed. It would be interesting to note that Kethu was transiting the constellation of Sun and was posited in Leo at birth in bhava. From Chandra lagna he was in the rajya bhava independently, thus ensuring success during his period. During his own antara, the native

was elected leader of the legislature party and in the succeeding antara of Venus, was honoured with the position of Chief Minister of one of the important States in the country. As indicated by kala yoga, his fortunes are bound to fluctuate. He had to leave the position of Chief Minister to take up the Presidentship of the All-India Congress Organisation, during Rahu antara which is obvious by his conjunction with Mars, lord of 5 and 12 in 3 which in turn is the 7th to the dasa lord. Both the planets were transiting the constellation of Saturn at birth who happens to be the lord of 6th to Rajya bhava. The position of Rahu and Mars in the moola trikona of Saturn, an adhi satru to Mars is a pointer. During the antara of Saturn when it was impossible to forestall politically, that the native would again be the Chief Minister in the following antara, he was assured of the honour to be conferred on him which took him by surprise. As predicted, he became the Chief Minister during the sub-period of Mercury, and formed his cabinet on 12th March 1962 against astrological advice.

The maha dasa of Venus as stated earlier is not so powerful as that of Mercury and Kethu. At birth, Venus was transiting the constellation of Kethu, a shadow planet which entirely depended on Sun for all results, the bitter enemy of Venus, and who in turn became powerful, being posited in his own constellation. Sun is the lord of 12 to Rajya bhava. Venus the lord of 2 and 9 to the said bhava was in 7 to the bhava and in 12 to Sun a dwidwadasa position, indicating conflicts and set-backs. Venus is also the lord of 7 and 12 to Rajya Arudha, the house of Mars and in whose other house was posited Mercury, the lord of Rajya bhava. Mars was transiting the constellation of Saturn at birth which is obviously harmful. Venus dasa started with his own sub period, proving fruitful which is again detrimental to the interests of the native as Venus was not in his own constellation. With the commencement of the sub period of Sun, clouds started gathering foreboding evil, and gradually they gained momentum. The native was

OM SRI GURUPYO NAMAH

THE HOROSCOPE OF A SAINT

In the astrological field, many phenomena strike the researcher who is interested only in corroboration of the theories expounded by the great Maharishis and their followers with the actual facts when cases are coming along their path.

Illustrious are they who deal with a variety of topics, and we are interested only in a particular field which even today is not discussed much, nor could we come across in ancient texts many theories, so that they could be analysed with advantage.

The topic may not be of interest to many as it relates to PARIVRAJA YOGA, otherwise known as Sanyasa yoga. Recently we have had the pleasure of getting the horoscope of His Holiness Sri Jagadguru, Kanchi Sri Sankaracharya, Sri Chandrasekhara Saraswathi Swamikal, who not only follows what he preaches but is a great spiritual Yogi and a beacon light to many. It was one of the Mutts established by Sri Adi Sankaracharya to propagate Advaita Philosophy in the South. We got the birth particulars from his life history published in 1957 in Tamil where

a rough chart is also included in the annexure. We, therefore, feel it should be correct.

Born at Villupuram (S. India), at 1-16 Noon, local time, on 20-5-1894 on Sunday, Constellation Anuradha IV. Balance of Sani Dasa at birth 3 years, 10 months and 5 days. The planetary positions are as under:

Venus Rahu		Budha Ravi Guru X 25° 39'	
Mars	Rasi		
			ASC 24° 40'
	Moon		Kethu Saturn (R)

Venus Rahu		Mercury Sun Jupiter	
Mars	BHAVA		
			Asc.
	Moon		Saturn (R) Kethu

Mercury Sun		Kethu	Jupiter
Mars Venus	AMSA		
	Lagna Moon Rahu		Saturn (R)

Sun 36° 52'
Moon 223° 58'
Mars 314° 50'

Jupiter 47° 58'
Mercury 36° 41'
Venus 352° 12'

Saturn (R) 176° 53'
Rahu 345° 25'
Kethu 155° 25'

The ascendant is Leo, an imperial sign, aspected by Mars, Yogakaraka for this Lagna. The following Yogas are present in the nativity. 1. Gajakesari Yoga, 2. Amala Yoga, 3. Srikantha, 4. Rajayoga, 5. Neecha Bhanga Raja Yoga, 6. Budha-Aditya Yoga, 7. Sanyasa Yoga.

Such births are very rare, and perhaps one in a lakh is ushered under such planetary conditions by the Almighty for the benefit of mankind in particular.

First we shall consider the Lagna, then the Sun (Soul), Moon (Mind), 10th house (Karmasthana), and 12th house (Mokshasthana). The other houses are left out completely as they are irrelevant to our subject.

Sun, the lord of Lagna, is in the 10th getting Digbala and it gives noble character, majestic appearance, courage, and commanding and dominating personality. His Holiness was taken to the Holy Order at the tender age of 13, and had to work hard without anybody to guide him in such life, and in his order, but he has not deterred. He acquired knowledge all by himself and studied Vedas, Vedangas, Sastras and Puranas with an enthusiastic mind and with great will-power to master arts. Mark the position of Moon who is Vargottama, and having full paksha bala. She is aspected by Jupiter, Mercury, Sun, and by Saturn (R). She is also occupying 4th house and getting Digbala. It is interesting to note that Saturn (R) is also Vargottama, and hence very powerfully posited in his friend's house aspected by Jupiter. He is again aspected by exalted Venus from 8th house, thus receiving very beneficial aspects. Mars as Yogakarka is also casting his 8th house glance upon Saturn. It is stated in Phaladeepika Adh. XXVII, Sloka 1: When the lord of the 10th house conjointly occupies a Kendra or Trikona position with 4 or more planets posited in kendras, the persons will attain emancipation.

If the end of a rasi be rising and the same be owned by a benefic planet and Jupiter occupies a Kendra or Trikona,

then also will the person born attain emancipation.

Sloka 2: If, at a birth 4, or more planets occupy a single house, the person should be said to become an ascetic of the class signified by the strongest of them. These two theories justify the present case as the 10th kendra is occupied by 3 planets, benefics, and aspected by Yogakaraka, Mars and the 12th lord, (Moksha).

Sloka 3 runs as follows: If the Moon occupies a Navamsa of Mars (in this case it is Vargottama, occupying Scorpio in Rasi and Amsa), and be aspected by the planet Mars.....incomplete.

The whole strength of the Moon and Saturn (R), has influenced His Holiness much in following rigorous penance, and has given a philosophic mind and persevering nature. It has given great will-power and frugal habits.

Coming to Karmasthana, 10th house, we find that Jupiter is occupying it, with his friends Sun and Mercury, who are the lords of Lagna and 2nd and 11th house. In addition to this, the 10th lord is exalted. Mars too casts his 4th house glance as a yogakaraka on 10th house. There is exchange of houses by Jupiter (lord of 5th) and Venus lord of 10th, lords of kona and kendra respectively, creating Rajayoga. All these have created a first-rate Rajayoga but aspected Moon, lord of 12 which turned into Sanyasa Yoga.

Sloka 7, Adhya. XXVII Phaladeepika says Ascetic Yoga combined with Rajayoga will pull up by the roots all the bad effects and then make him a lord of earth initiated into asceticism and virtuously inclined, at whose feet other kings make salutations with their head bent.

Jathaka Parijatha Adh. XV, Sloka 17 says: If 3 planets endowed with strength be posited in a good house, the person born will seek admission into the Holy Order and become a successful ascetic. If the planets forming the group, contain more benefics and occupy a good house, the holy order will be the one that is respected by all and honoured by the great.

Due to the close conjunction of Sun and Mercury, Budha-Aditya yoga is formed, which makes him clever, intelligent, famous and happy. Venus, exalted in the 8th house, aspects the 2nd which gives a sweet tongue, amiable qualities, besides proficiency in poetry, arts, and music. Lagnadhipathi is aspected by Rasyathipathi which is another Rajayoga. Benefics, occupying 10th house, form Amalayoga, and make him virtuous, pious, kindly disposed, amiable, highly revered by the sovereign, gentle and affable in speech.

Phaladecpika, Adh. XXVII, Sloka 6 speaks of Srikantha Yoga: If the lord of Lagna, Sun and Moon being in Kendra or Trikona, occupies exaltation, own friendly houses, the yoga arises. The person will be decked with Rudraksha rosary with his body white, by the besmearing of sacred ashes; he will be magnanimous, and will be always meditating at heart on God Shiva. He will rigidly observe prescribed rites and will consecrate himself to the worship of God Shiva. He will help the virtuous. He will be free from malice towards the creed or religious beliefs of others. He will become powerful and his heart will become delighted by the worship of God Shiva.

Venus, occupying the 8th house with Rahu exalted, gives good longevity and aspect of Saturn (R) is also there. The combination of Jupiter and Mercury made him proficient in scriptures and code of laws.

Jathaka Parijatha Adh. XV, Sloka 11 says: If the 9th or 10th house be occupied by beneficial planets and the lords of these houses as well as Jupiter and the lord of Lagna are strong, the person born will be imbued with faith born of the performance

of such excellent works as are ascribed on custom and morality and will be reckoned as the foremost among the sacerdotal class. Sloka 18 reads: If the Sun occupying a benefic Amsa, should have the aspect of the planet causing the ascetic yoga and occupying its highest exaltation point, the person concerned will become a lordly ascetic in his youth or even at a much earlier age. His Holiness became a Sanyasi at 13, which fact proves the truth of the sloka.

Sloka 19: If the lord of the Lagna be aspected by several planets conjoined in one sign, the person born will consecrate himself for ascetism. Here, Sun is the lord who supports this theory.

Sloka 20: If the Moon occupies a drekkana of Saturn in a Rasi of Mars and also be aspected by Saturn, the person becomes an ascetic. Here, Moon occupies Scorpio, and is aspected by Saturn both in Rasi and Amsa.

Brihat Jathaka, Adh. XV, Sloka 1, says: If the Sun is strong, he will take the Vanyasana order leading a simple life, high thinking, denoting high intellectual and spiritual development. Sloka 3 says: The rasiadhipathi unaspected by any planet, aspects Saturn, the person becomes an ascetic.

With the foregoing conjunctions in the horoscope, and several other combinations for Sanyasayoga, His Holiness took to Sanyasa at an early age itself and to-day shines as a lord among his class. The above subject is chosen since research is made only on this yoga which ushers magnificent spiritual personalities who enlighten mankind from time to time.

By R. NARAYANAN, BANGALORE.

MOON IN THE SIXTH HOUSE

Sixth house indicates disease, the real state of the disease, recovery from it, whether it is of long or short duration, etc., as this house forms quincunx—shasta ahstama—aspect with Lagna or Ascendant, which shows one's health. Expenses outweighing one's income and taking money from another for one's use is indicated by this house. The seventh house indicates the person who lends money and also one who borrows money from the native. The sixth house is the twelfth to the seventh and the twelfth shows giving away money or loss. Therefore sixth house indicates income by way of loan or because of losses to the opponent. The service or servants of a native are read from this house. The pet animals, small cattle, etc., is indicated by this house. As sixth house is the third from the fourth, it indicates the younger brother of the mother, i.e., maternal uncle, or aunt. It represents the tenants of the native. Sixth house being the 4th house counted from the third, shows one's younger brother's conveyance and permanent possessions, mother's short journey and her publications; being the 2nd house to the 5th, it shows the bank position of children; being the 12th house to the seventh, it indicates the loss to wife, or her secret enemies, or the partner giving away his share of profits or the partner's life in a foreign place; 6th house being the tenth to the 9th, it indicates the occupation of father; it shows danger to elder brother or sister, as it is the eighth house to the eleventh which represents elder brother.

Moon in the sixth house, in general, gives one the desire to include much of sweets in his dish. Moon will lessen the vitality. It is not a favourable position for health, especially when one is young and the star in which he is born is either Rohini or Hastha or Sravanam—Thiruvonam. He will be better suited for

service than for independent business. This cannot be said as a favourable position for either finance, health, popularity or reputation. Especially in a woman's horoscope, indifferent health is indicated by Moon in the 6th. She will be ever changing the servants and no servant will stick on.

But these undesirable results will be warded off by those planets which form good aspect with Moon. One can make efforts to maintain health and the aspecting planet will assist him; he or she will be successful with small animals, servants, etc. Let us suppose that Moon receives both good and bad aspects from other planets; for example, good aspects from Sun and Mars and evil aspects from Venus and Mercury. Then, he or she will have permanently the following of faithful servants and also some servants frequently joining him or her, and leaving after a short period. Those who are governed by Sun and Mars will be permanent servants. What is meant by "governed by Sun or Mars"? Those are said to be governed by Sun or Mars, who are born on Sundays or Tuesdays, or those born in the stars ruled by Sun, i.e., Karthikai, Uthrapalguni or Uthraashada stars, or those born in Mars stars, Mrigashirsha, Chithrai or Dhanishta stars, and those born in Sun's sign Leo (Simha) as Ascendant—(Lagna), or in either of the Mars signs—Aries (Mesha), or Scorpio (Vrischika). But the planets, Venus and Mercury, forming evil aspects, show that those born on Fridays or Wednesdays, in Bharani, Poorvapalguni, or Poorvashada, stars governed by Venus, or Aslesha or Jyeshtha or Revathi stars belonging to Mercury or those born in Venus signs, Taurus (Rishaba), or Libra (Thulam), or in Mercury's signs, Gemini (Mithuna), Virgo (Kanni) will never stick on, but will cause some trouble or other and leave their jobs frequently.

Moon, receiving good aspect, especially from Mars, Venus and Jupiter indicates that one will be very successful with small animals. Milk vendors, and Poultry-farm owners, invariably have this disposition of planets. Venus and Moon, forming good aspect, will give decent gain through milk. Jupiter's good aspect will give female calves, whenever the cows or buffaloes deliver. Vegetarian eggs will be laid by the hen and one will not lose the hen due to any epidemic.

If Moon were to occupy any fixed sign in 6th at the time of birth, one may suffer from bronchitis, stone in the bladder, etc. If Moon would have been in any of the movable signs, there will be vitamin B deficiency, nervous debility, poor digestion and stomach trouble. Moon in a common sign portends lung trouble and chronic diseases.

Moon afflicted by Sun (i.e., if the distance between Sun and Moon is either $22\frac{1}{2}^{\circ}$ or multiples thereof say, 45° , $67\frac{1}{2}^{\circ}$ etc., i.e., if Moon occupies the position which will be occupied by Mandhi) the native's vitality will be weak. Whenever he suffers from a disease, recovery will be very slow. Digestion and assimilation will be poor. - The person will be hyper-sensitive.

Moon afflicted by Mars is evil, especially to ladies. They will have troubles during their monthly periods. It will cause inflammatory diseases in all. One may be a drunkard. Fever, accidents, and surgical treatment of the generative organs are indicated. Moon, afflicted by Mercury, causes indigestion, headache, trouble in the teeth, and also irregular bowels. Poor memory, liability to brain storms and much of worry will depress one and cause ailment.

Moon, afflicted by Jupiter, gives liver and blood trouble. Enlargement of liver is indicated by this aspect. But dull liver is due to Saturn's evil aspect. Venus, afflicting Moon, indicates skin trouble, eczema, dhobi's itch, ringworm, etc.

Saturn, afflicting Moon, causes poor circulation of blood, chronic disease, fair

complex, hysterical trouble, etc. Here the patient will be dull, moody and gloomy, and he will avoid company. Mars produces hysterical patients who are violent, whereas Mercury shows that the patient will ever be talking aloud, will be making noise and causing nuisance. Uranus forming evil aspect with Moon, shows that, if these people are employers, nobody will work for them, and if they are employees, nobody will have them. One will not actually suffer from any disease, but will imagine that something is wrong and be ever complaining about some ailment or other. Only when Moon is also afflicted by the *dasa-natha* according to *Vimshottdhari Dasa*, there will be mental derangement or at least neurasthenia.

Neptune, forming evil aspect with Moon, shows that the person will have indisposition through Sychic conditions. He may become the prey of spirit controls and subjected to mediumship. He should avoid seances.

Moon, conjoined with Sun in 6, confers on the native a creative spirit, and he will be skilled in machinery and stone work. Where Moon conjoins with Mars, the person will enjoy *sasimangala yoga* and he may be a dealer in hammers, ploughs, agriculture instruments, earthen jars, drinks, and may also gain through women. He will not have harmonious and happy relation with mother. There may be enmity and troubles through mother. Moon conjoined with Mercury will bring fortune to him; by his sweet tongue, clever and cunning action, he will be endowed with good luck and fame. He may be employed as an interpreter, agent or salesman. He may serve in any textile department. Moon, conjoined with Jupiter in the 6th house, shows that he will come out successful in litigation, and will enjoy easy over-draft facilities. If either of them happens to be the lord of 5, the native will have unexpected gains all his undertakings. He may gain in lottery, speculation, etc. It causes *Lagna-Adhi-Yoga*. If Moon is conjoined with Jupiter, he may work in a finance, or law, or religious department or Bank.

But Venus in conjunction with Moon, causing the same Lagna-Adhi-Yoga, shows that one may gain in arts, music, painting, tailoring, silk, scent, and perfumery; or he may be an adept in weaving, dyeing, etc. It indicates acquisition of vehicles, landed property, etc., especially if one is born in Libra (Thulam). Moon, in conjunction with Saturn in the 6th house, puts always in want, and he will be going on borrowing and increasing the debts. It is bad for finance. One may be forced to borrow from a person who will inform others that he had lent money and he will further be reminding the borrower now and then. The creditor will make his life miserable. One may deal in mine produce, kerosene, coal or be a porter, cooly, rickshaw puller or a menial.

Aries—Mesha Lagna: For people born in Aries or Mesha, Moon will be in Virgo or Kanni in either Uthara Parguni star 2nd, 3rd or 4th pada or quarter, Hastha, or Chithra—first half or the 1st and the 2nd padas. Therefore one born in Aries, Moon in Sun's constellation in the sixth house, will give the results of lord of 4 in the constellation of lord of 5 in the sixth house. So, one may have proper education and training in speculation, share business, music, cinema, opera or drama. His children may lose money. If this is the female's chart, the husband will have a change in his profession and he will have satisfactory increase in his income; as to the seventh house, Moon is lord of 10, and is in the constellation of lord of 11 occupying 12th house. Thus, one has to read the result. To the father of the native, Moon will prove to be unhelpful in his profession and business.

Moon in Hastha star indicates that he may have education in textile engineering, shipping, etc. He will be a good publicity officer or salesman. He may be a medical representative and take up agencies also. Mars' aspect will give service in Navy. For the mother of the person, it gives short journeys; for the children, it threatens loss; for wife or husband, it promises promotion in another institution, and for father loss, danger and enmity.

Moon in Chithra star shows loss, litigation, worries and failure in one's attempts. Mother will have unexpected gains and enjoy a fortune. Children will go far away and prosecute their further studies, as to the 5th house the lord of Chithra star is Mars who rules the fourth and the ninth houses, counted from the fifth house indicating children. The husband or the wife will be incurring unexpected expenses and cannot enjoy peaceful life with partner. The father will have a speculative mind and he will invariably be losing his fortune in games, betting, and races.

Taurus—Rishaba Lagna: People born in Taurus-Rishaba Ascendant or Lagna will have the Moon in Libra (Thulam) in the 6th house. So, one is to read the results as follows: Moon owns the third house. The stars in Thulam (Libra) are Chithra 3rd and 4th quarters ruled by Mars, lord of 7 and 12, Swathi ruled by Rahu and Visakam 1st, 2nd and 3rd padas governed by Jupiter, lord of 8 and 11. So, one is to read the results as lord of 3 in the constellation of lord of 7 and 12, or lord of 3 in the constellation of Rahu (note the house occupied by Rahu) and lord of 3 in the constellation of lord of 8 and 11.

If Moon is in Chithra 3rd or 4th pada, for those born in Rishaba (Taurus), there is the danger of robbery while travelling. Correspondence will widen the gap and one will become more and more inimical with partners in business or life. It will lead to litigation. The mother of the native will have similar experiences of losing money, while making short journeys; or she may be pickpocketed. Or she may invest money on publications. The children may come by a treasure. Sudden and unexpected advantages will accrue for them. To the father of the native, there will be expansion in his business, and he will be able to get a partner for the business.

Moon in Swathi star gives the results, depending on the position of Rahu in the horoscope.

Moon in the sixth house in Visakam star in the constellation of Jupiter, the

lord of 8 and 11, indicates that there will be sickness and demise of cousins and brothers. One may have to make short journeys due to such incidents. There may be false accusations, etc. Also new friendship will be formed, and there will be legacy or unexpected gains through brother. One may enter into any agreement with friends or take up any contract.

Gemini—Mithuna Lagna: For people born in Gemini, Moon is the lord of the second house and will be in Scorpio in the star Visakam 4th pada when Jupiter, lord of 7 and 10, will rule it, or in Anuradha star governed by Saturn, lord of 8 and 9, or in Jyeshtha star governed by Mercury, lord of 1 and 4. Hence, those who had Moon in Visakam 4th Pada will have increase in their income, promotion, improvement in their status, gain by marriage, contract, business, and in all dealings with others, especially with women. But if Moon is afflicted, there will be trouble in unions, and through open enemies, competition and theft. To his brother, it indicates disposal of permanent possession, as lord of 12 is in the fourth house and in the constellation of lord of 5 and 8 to the third house. To mother it shows pleasure and profit in her enterprises. To children peace, promotion, and prosperity are promised. To wife it indicates pleasant expenses and purchases. To father permanency in his service and some opposition in his office is indicated.

Moon in Anuradha star indicates that there will be much of expenses due to partner or wife, especially due to their short journeys, or, one may have to send money for their use. Also, one may gain through books, by trading at sea, long journeys, philosophy, religion, science, and through brother-in-law. Brother will spend away money, whereas younger sister's husband will have promotion. Mother will worry herself due to certain unpleasant correspondence and notice. Children may invest money on lands and buildings, or purchase a car, mostly the former. Wife will open a fixed deposit account in Bank, as the planet is in 12 to the seventh house and it is the lord of

the second house (12 is for investment, locking up of money, thus reducing the cash on hand, whereas the second house shows bank position). Father will have a transfer in his profession.

Moon in Jyeshtha star indicates that the lord of 2 is in the constellation of lord of 1 and 4, and is occupying the 6th house. Therefore, the native will acquire land or conveyance, and he will enjoy satisfactory bank position. If overdraft facilities are needed, he can have it easily. Money comes readily. It will not be hard to accumulate money. One can expect good returns from the estate and investments. Brother will have larger income and also an equal increase in the expenses. Mother will have substantial gains, especially in any betting, lottery, etc. Those who are born in Gemini, having Moon in Jyeshtha star, can expect such gains to mother during Mercury Dasa, Moon Bhukti, Mercury Anthara and also during Moon Dasa, Mercury Bhukti. It is advisable to purchase prize bonds, etc., in her name. To the children of the Gemini borns, Moon indicates that they may go overseas for higher education, or they may come in contact with foreigners and enter into contract with them. The partner in business will gain much, and will be receiving his share of profit. Father will be running a dangerous time, or there will be difficulties in his business or profession due to secret inimical activities.

Cancer—Kataka Lagna: For people born in this sign, Moon is the lord of the Lagna—and it will be in Sagittarius-Dhanus in Moolam star or Poorvashada star or Uthrashada 1st pada. Moolam is ruled by Ketu; Poorvashada is governed by Venus and Uthrashada by Sun. Therefore, the lord of Lagna will give the results of Ketu or Sukra or Sun.

If the birth were to be at a time when Ketu was in Moolam, the results of Moon will be similar to what Ketu indicates to the native, by its occupation. For those born with Moon in Poorvashada, it is very good. For, he will be able to come out successful in all his attempts without any obstacle or delay. He will gain in all the transactions. He will gain

through lands, mines, inheritance, vehicles, taxi, transport, hire purchase, Finance Corporation, etc. Late in life he will be more successful. He will have a large number of friends in high circles, and will receive much assistance from them; he will enjoy much pleasure in life. He will be able to realize his hopes and wishes. Lady friends will be more helpful. Brothers will have similar results. Mother may lose money in her transactions. Children will also incur loss. Wife will gain by speculation, and will enjoy real fortune. Father will find it difficult to meet both ends and will be expecting assistance from others. He should not venture and risk money in games, betting, etc. Invariably, he will lose. Marriage of any member in the family will take place, and money will be spent in entertainments.

Moon in Uthrashada star promises good luck to the native. He cannot lose in any competition. Lord of 1 in the constellation of lord of 2 and in the 6th house is the strongest promise that the native will surely gain through speculation, etc. Such people must necessarily buy lottery tickets, prize bonds, etc. During the conjoined period of Moon and Sun, they must win, especially through Government prize bonds, as Sun represents Government. If one is not already in service, he can expect a decent appointment, mostly in Government—Finance department, Reserve Bank, commerce, international trade, external affairs, courts, legal department, etc. Brother will be able to invest on landed properties and also gain most satisfactorily in his transactions. Mother gains by publication or by short travels or through her brother. Children will obtain scholarship from Government to go overseas and prosecute further studies, or they may submit any thesis and come out successful. It is a good position for them to enter into foreign service and be popular. Wife may not maintain good health and it is likely that hospitalisation may be needed. Father

will have good understanding with higher officials and can look for improvement in his position.

Leo—Simha-Ascendant or Lagna: Those who are born in the sign Leo will have Moon in the sixth house in Uthrashada star 2nd, 3rd or 4th pada governed by Sun, or in Sravanam star governed by Moon, or in Dhanishta star ruled by Mars. Sun is the lord of the Lagna Leo, Moon is lord of 12 and Mars is lord of the fourth and the ninth houses.

Therefore, for those, Moon in the sixth house in Uthrashada star shows that the native will have fortune in a place other than his own native place and that he will find it difficult to overcome his animosity. There will be troubles; but he will face them boldly and come out successful. He may get into service in any isolation hospital, asylum, jail, intelligence department, etc. A large circle of friends in the profession and much profit in the business, are indicated to his brother. Mother will go on long travels and she will be benefited by them. Children will be meeting uncommon and unnecessary expenses through strangers. Wife will be suffering from disease and she will be admitted into the hospital. Father may have larger returns from permanent investments.

Moon in Sravanam star is unfavourable for Leo-borns as they will be losing heavily in every transaction. There will always be someone to harm them. Secret inimical activities are indicated. In the Court of Law, his own witnesses will turn hostile. Such people should never stand for election. All those persons on whom he depends for support will give false hopes and will work only for his opponent. Any person can stand for election, and without exertion, come out victorious, if he understands that his opponent has Moon in 6, in Sravanam star.

Thus, one is to judge the results of Moon in 6, to the persons born in other rasis.

MERCURY, THE MESSENGER

Mercury in the Ascendant or Lagna will make a person intelligent, quick-witted and sharp as it rules the central nervous system. Mercury absorbs the character of the planets with which it is favourably connected, by contact or aspect. So, it is convertible and it is necessary to pay close attention to the sign it occupies and also the aspect it receives from other planets. Mantreswara says that Mercury (Budha) in the Lagna makes one clever. He can speak sweetly, learn all sastras and be long-lived. Mercury will give these results according to its nature only when it is in Gemini-Mithuna or in Virgo-Kanni. But, one in Aries and Leo, will be impulsive due to the fiery nature of the sign. In watery signs Cancer-Kataka and Pisces-Meena, generally it produces a little dull-witted people. But in the other watery sign, Scorpio-Vrishchika, Mercury produces people who will be fiery, with the energy given by the lord of the sign Mars, and he will also not mind to wound others, as he will be having the venomous sting of the Scorpion. Mercury mostly gives the person, the inquiring mind. One can adopt himself or herself to circumstances. He will be resourceful. He will grasp quickly, retain it for a long period and reproduce the same very ably. Students who get by heart from the first line to the last in the books, will be having Mercury in the Ascendant. He will be studious. He may take up any art as hobby; he will become a great artist. As he is endowed with fertile imagination, he can show his originality. As a lawyer, one will be able to cross-examine the witnesses of the opponent and get answers suitably so that he can win the case. Mercury is a fast moving planet. It owns the common signs indicating that one will never take a decision quickly, but waver, vacillate and try to have many changes. He prefers journeys, as Gemini, owned by Mercury is the third house of the Zodiac indicating short travels. Mercurians are always quick in thought. They will consider the pros and cons. There is much delay in finalising. But when once he decides he will be very quick in action. It is more like a car which gives trouble to start with,

but later picks up speed satisfactorily. Planets conjoined with Mercury will modify results. Mercury and Sun are beneficial for physicians, engineers, mathematicians, and judges.

Mercury and Moon may give taste for textile engineering; marine engineering and psychology.

Mercury and Mars-Mechanical engineering, military engineering, publication, press.

Mercury and Jupiter—a good theologian; banking, cost account, journalism.

Mercury and Venus indicate music, singing, art, sculpture, sanitary engineering, radio.

Mercury and Saturn produce statisticians, engineers, those who commit forgery or an expert to find it out, detective work, mine engineer.

Mercury and Uranus indicate invention, discovery, research, originality.

Mercury and Neptune indicate astrology, foresight, prophecy by the control of devils, by clair-audience, Yakshini, etc.

Mercury in the twelve signs: Mercury in ARIES makes one quick in thought and hold in speech, impulsive and argumentative. One will exaggerate things unconsciously. Mercury makes one broadminded, generous and liberal. One will be studious. He can grasp the situations and ideas very quickly but his opinions will not be steady. General restlessness, lack of order and method are his weaknesses. Saturn's beneficial aspect to Mercury will offer stability, and his mind will not be vacillating. But if Mercury is afflicted, one will be unreliable, irresponsible, antagonistic, disputative, cunning, indecisive and rash.

Taurus occupied by Mercury shows that the person will have pleasing manners, liking the company of the opposite sex, music, art, refined amusement, recreation and pleasure. The mind will be determined. He will not change often. But to arrive at a conclusion and to form an opinion or pass an order, he may take much time. But when once a thing is done it is final. The sign Taurus, being the second

sign in the Zodiac which indicates speech, etc., Mercury in this sign makes the person less talkative. He may observe the proverb "Silence is golden". Occasionally his speech will be witty or funny. He is best fitted to be an arbitrator or a judge, as he possesses good reasoning power. He may be obstinate and persevering. He has his own likes and dislikes. He will have great desire to save money and improve his bank position, in spite of being liberal in giving donations.

Gemini occupied by Mercury makes one ingenious, very clever, resourceful and sympathetic. He will be quick to grasp and also to give out his opinion on any subject. New things will attract him. He will not lose his temper, nor will he get prejudiced. He will prove to be a good orator, lawyer, professor, messenger, salesman, propagandist, publicity officer, businessman, contractor, etc. He will be fond of short travels. He will be inclined to speculate. He can give information in meticulous detail on the topics of the day. He will be up to date and thorough.

Cancer occupied by Mercury produces one with clear intellect and good memory. One will be diplomatic, discreet and adaptable. He is best fitted to be the Personal Assistant or Secretary of a High Official, holding a transferable post. This person will adjust himself to the opinions and ideas of his successor even though he who is transferred and the other who has taken charge, are diametrically opposite in their views. If one who has Mercury in Cancer becomes the officer, anybody can have things done through him by simply flattering him in his presence. Even though he may like frequent changes, journey, etc., he will have the desire to reunite with his family members and take them to picnic or to any refined amusement.

He may be spiritually inclined and also interested in psychic matters. Crossing the river or the sea will be much liked by this person.

Leo occupied by Mercury gives the person ambition, lofty mind and high ideals. He will be positive and persevering, persistent and confident. He may be sympathetic and kind-hearted. He is short-tempered but he has the mind to forget and

forgive. He hates mean actions. He is outspoken and frank. He is capable of organising and controlling others. He can concentrate and take any decision. He will pursue in any one line. He will be fond of his children. Leo, being the fifth sign of the Zodiac, he will interest himself in music, drama, cinema, sports, fine arts, etc. He will find great pleasure in mingling with the opposite sex. He will prove himself to be a good gambler or a share-broker. If Mercury is afflicted in Leo, he should never gamble, especially during periods of Mercury. If Neptune afflicts, there is always the danger through drugs which will affect the heart as Leo indicates heart.

Virgo occupied by Mercury indicates that the person is indeed very, very intelligent, and occasionally cunning, too. He will be cautious and comprehensive, practical and prudent. It gives a scientific mind. One can be very eloquent and logical. It is likely that one can express himself in many languages also. He will be a well-informed and wide-awake worker. He will prove to be a good journalist, writer, author, novelist and critic. As it is an earthy sign, he will look before he leaps. Mercury gives taste for mathematics, hygiene, engineering, accounts, auditing, prophylactics, nursing, etc. As years pass on, during the period of Mercury, his ingenuity, originality and capacity will be recognised, admired and appreciated. If Mercury is afflicted, he will ever speak ill of others, will always find fault with them, pass criticism and incur their displeasure.

Libra occupied by Mercury indicates that one will be level-headed, well-balanced and broad-minded. He will have dispassionate disposition, a mind which will reason out, and will be just and good to all. As it is an airy sign, he will be fond of music, art and all mental pursuits. Venus, being the Lord of Libra, he will be social in all clubs. He will take keen interest in social welfare work. He will be a platform speaker. If Mercury is afflicted, there may be trouble with partner in life or in business. Law suits are not ruled out. His partner will be clever and cunning; he may also be unfaithful.

Mercury in Scorpio: The person will be witty and will have a sharp tongue with

caustic remarks and biting sarcasm. He will be determined and forceful, bold and dauntless. There will be the desire to gain more and more knowledge and pursue the hobby till he becomes an expert in it. He may develop mesmeric ability and study occult and mystical subjects. Painting and sculpture may attract him.

If Mercury is afflicted, the person will be curious, cynical and critical. Hence he cannot have many good friends. Also he may have many chances to come up in life ; but due to his weaknesses, he will not avail of them and will repent later. His partner in life will be lucky.

Sagittarius occupied by Mercury indicates that one will be generous, just, sincere, ambitious and impulsive. One may be religious and dutiful ; law-abiding and honest. Though he may have ultra-modern views, yet he will follow tradition. He is ever progressive though somewhat changeable. Both mentally and physically, he will be active. He enjoys the natural scenery ; may wish to lead a natural and pleasant life ; will gain much through journeys. He will be able to give in detail the customs and manners of the people, living in the various parts of the world, after having personal contacts. He will be fond of mathematics and journalism. He may be good in sports, and will enjoy his life with his family members. He may have many pet animals. He will be much respected by his relatives and friends.

Mercury in CAPRICORN gives a sharp and acute mind. The person will be tactful and diplomatic. He will be curious and critical. He has a suspicious mind. He may be peevish and fickle-minded. Saturn ruling the sign Capricorn, gives discontentment. He may be economical, prudent and painstaking. He cannot keep quiet. He will be ever busy, doing something or other. Unless his object has been gained, he will not give up his undertaking. This sign gives a love for literature, science, chemistry, and philosophy. He will not waste. He will hold on to what he gains and always keep something for the rainy day. He will have organising ability. If Mercury is afflicted, he will be miserly, vindic-

tive and spiteful. He is prepared to do anything to have his desires fulfilled. He will be aware of what mean action he does, but he will not hesitate to do it.

Aquarius, occupied by Mercury at the time of birth, makes the mind original and refined. He will be penetrative and critical. It gives the qualities of Uranus. He will have his own ideals ; he will not care for tradition ; he will repudiate all the social conventions. Even in dress, he will have his own way ; his style will be different from others. Probably, he may preach and advocate ideas on subjects which may come up after many decades. He will develop his spiritual life ; he will be able to concentrate and meditate. He will be a great reader, deep thinker, and intelligent adviser. He will be kind to all and loyal. He will be fond of science, occult and metaphysical subjects, etc. He will be good at mathematics. He is best suited for research work, business management, political and social work. He will mix only with the intellectuals. He will have elderly persons as his good friends.

Pisces occupied by Mercury is said to be debilitated here. But yet, Pisces being the watery sign and an occult one, the person will be endowed with psychic faculty. He will have correct intuition and good imagination. One may not have deep and profound application to study. He will be kind and sympathetic. He will be liberal and generous. He is adaptable and adjusting. He is best suited to be the private secretary. But he will be changing the master very often. He will be fond of pleasure, recreation, etc. He likes boating and travel across water. He may interest himself in navy, nursing, hygiene, occult subjects and philosophy. He prefers to be alone and attend to his work. He may undertake research in nutrition or prophylactics. Retrograde Mercury in this house gains strength, and if it is afflicted by Neptune, he should not attempt for psychic powers. It is dangerous. Saturn, afflicting Mercury in this sign, makes one a pessimist. He will always be gloomy and will fall a victim of never ending worry. Good aspect to Mercury in this sign helps the native to make money without much effort.

LUCK BY LOTTERY

FINANCE AND FORTUNE

In the January issue of our magazine, the chart of a high official who gained a decent sum in a sweep was furnished. He was born on 23rd November, 1899. (By mistake the year of birth was printed as 1879 in the January issue. Kindly carry out the correction.) His ascendant was Thulam (Libra). The sudden gain was during the period when he was running

Moon Dasa, Moon Bhukti and Jupiter Anthra, on 8th May, 1955. But the money was received on 9th May, 1955. (Monday, Jyeshtha star, and in Cancer lagna.)

Given below are two charts, namely, (1) the native's birth chart and (2) the chart for the moment when he received money:

Venus 24°	Sun 24°-30'	Mercury 11°-44' Mars 25°-49'	Kethu 6°
Chart for the moment of the receipt of Money at 10-30 a. m. on 9-5-1955			Lagna 1° Jupiter 0°-34'
Rahu 6°	Moon 19°-35'	Saturn 24°	

	Kethu 28°-53'	Nep. 3°-56' Fortuna 23°-13'
Birth chart: Born on 23-11-1899		M.C. 16°-42' Moon 13°-2'
Saturn dasa balance 5 years, 2 months and 4 days		
Sat. 6°-49'	Mer. 28-56 Rahu 28-53 Venus 25-20 Mars 22-3 Uranus 15-27 Sun 8-7 Jup. 0-33	Lagna 18°-18'

Generally it is said that houses 2 and 5 offer one the opportunity to make money by speculation, lottery, betting, etc. The other houses do not indicate such sudden gains. If that is so, how can Moon in its dasa especially, in its bhukti, give gains without pains? 10th house indicates profession. Moon rules the 10th house. It also occupies its own rasi. How then has it given unexpected fortune?

The prediction was based on Krishnamurthy Paddhati. A planet may own any house. It may occupy any house. But the sources of one's income and his efforts in any direction are indicated by the lord of the star in which it was posited and also through the lord of the sub-portion in the star. Moon was in Pushyam star ruled by Saturn. Pushyam

extends from 3 degrees 20 minutes to 16 degrees 40 minutes in Kataka. But Moon was in 13 degrees 2 minutes. If you refer to the table furnished by the author of the Paddhati, Prof. K. S. Krishnamurthy, in the January issue under the title "Krishnamurthy Paddhati", you will note that between 12 degrees 53 minutes and 14 degrees 53 minutes in the star Pushya ruled by Saturn, Rahu rules the sub. Therefore Moon is under the sway of both Saturn and Rahu. Saturn is lord of 5 and it is in the second bhava though in the third sign Dhanus. Hence it gives the mind to speculate. Seven planets are in the sign Scorpio (Vrischika). Mars, Venus, Rahu and Mercury alone are in Scorpio and also in the second bhava. It is a truism that Rahu or Kethu will ever be stronger than the lord of the house in which they are

posited and also the planets with which they are conjoined. Hence, Rahu in Vrischika is to give the results of the lord of the sign in which it was posited (which in this case is Mars), and also the results of the other planets with which it was conjoined. Rahu is stronger than the other planets in the second house and its lord, Mars. As Moon was in Saturn's star Pushyam and the sub of Rahu, Moon derives the power to give its results through the affairs indicated by the 5th and the 2nd houses. Thus, Moon has to offer the results indicated by the 5th and the 2nd houses.

When Moon's dasa was on, the planet in the Moon's star or Moon's sub can offer those results indicated by Moon. The only planet thus gaining the strength of Moon is Jupiter which was in Scorpio (Vrischika) in its own star Visakam and in the sub of Moon.

If one is to gain in a competition or in betting, the opponent will lose much. The opponent is indicated in all horoscopes by the seventh house. Loss is indicated by the 12th house. Therefore, the 12th house to the seventh is the 6th house to the native. Therefore the lord of the 6th house and the planet in 6 will bring about loss to the opponent and the native will gain. Jupiter is the lord of the sixth house. Hence Jupiter and Moon alone can give this result. That is to bring about loss to the opponent and gain suddenly to the native through betting etc., provided the dasa lord has anything to do with the fifth and the second houses.

According to the Udu dasa system and according to Gochara, why should he have the beneficial result on 9-5-1955. All along, it was discussed that the planets, Moon

and Jupiter, promise gains by speculation. That swabhukti will be indifferent or bad, is generally predicted by astrologers who simply reproduce the slokas without doing research based on actual facts. It should be noted that during the time when Jupiter transits the sign ruled by the lord of dasa, the dasanatha will confer favourable results. Therefore, in the present case, at the time Jupiter transits in Cancer (Kataka) ruled by Moon, lucky time has to be predicted. According to Krishnamurti Paddathi, the sub-portion should be ruled by Moon. Actually, on 8th and 9th May 1955, Jupiter was in 3 degrees 25 to 30 minutes in Cancer and according to Western system it formed exact trine aspect with its original position at the time of birth.

One may ask why this native should not again similarly secure such a gain in Moon dasa, Jupiter sub-period and Moon or Jupiter sub-period. He is correct but hasty. He has to note whether, at that time, Jupiter will transit in the sign ruled by dasanatha Moon or bhuktinatha Guru. This position will not be repeated. But during that period, the native had larger income from his permanent possessions and improvement in service.

Unless the dasa system, Gocharam, etc. agree, one cannot enjoy the results.

At the moment the native received the cash, the lagna was the first degree in Cancer and Moon was in Jyeshtha Mercury's star in Mars sign Vrischika. The day was Monday ruled by the dasanatha Moon.

Hence one can understand that a correct prediction can be given by following the stellar system and much better still by adopting Krishnamurthi Paddathi.

MARRIAGE

[DASA-PORUTHAM—(Contd.)]

By

KAYESKA

8. Vasyam:

If this agreement is found between the charts of the bride and the bridegroom, they will have a very happy and harmonious wedded life and there will be good understanding between themselves. They will have peace and pleasure.

Bride's Rasi	Bridegroom's Rasi
Aries	Leo and Scorpio
Taurus	Cancer and Libra
Gemini	Virgo
Cancer	Scorpio and Sagittarius
Leo	Libra
Virgo	Gemini and Pisces
Libra	Capricorn
Scorpio	Cancer and Virgo
Sagittarius	Pisces
Capricorn	Aries and Aquarius
Aquarius	Aries
Pisces	Capricorn

9. Rajju Porutham :

Generally astrologers give much importance to RAJJU, because if there is no

agreement according to this method of judgment, they say that the partner will be short-lived and she may have to survive the husband which no lady will like.

One has to open three columns as under: In the first column, write down the nine stars counting from Aswini. In the second column, write down the nine stars counting from Makham. In the third column, write down the nine stars counting from Moolam.

In each column, the first four nakshathras are called *Aroha Rajju*. The fifth star in each column is termed *Siro Rajju*. The remaining stars, six to nine, are classified as *Avaroha Rajju*.

Thus, Aswini, Bharani, Karthikai and Rohini are *Aroha Rajju*. Mrigasirisham is called *Siro Rajju*. Arudra, Punarvasu, Pushyam and Ashlesha are included in the *Avaroha Rajju*. Similarly in the other columns, one is to sort out and declare to which Rajju each star belongs.

Rajju

Aroha Rajju	Aswini	Makham	Moolam	Pada (foot)
	Bharani	Poorvapalguni	Poorvashada	Thodai (thigh)
	Karthikai	Uthrapalguni	Uthrashada	Nabhi (navel)
	Rohini	Hashtam	Shravanam	Kazhuthu (neck)
Siro Rajju	Mrigasirisham	Chithrai	Dhanishta	Siro (Head)
Avaroha Rajju	Arudra	Swathi	Sathabhisha	Neck
	Punarvasu	Visakha	Poorvapathrapada	Navel
	Pushyam	Anuradha	Uthrapathrapada	Thigh
	Ashlesha	Jyeshtha	Revathi	Foot

Therefore, the 1st, 10th and 19th stars belong to Aroha and the 9th, 18th and 27th stars to Avaroha of 'foot'.

Stars 2, 11, and 20 belong to Aroha and 8, 17 and 26 to Avaroha of Thigh.

Stars 3, 12 and 21 belong to Aroha and 7, 16 and 25 belong to Avaroha of Navel.

Stars 4, 13, and 22 belong to Aroha and 6, 15 and 24 belong to Avaroha of Kazhuthu or neck.

Stars 5, 14 and 23 belong to Siro Rajju.

1. If both the bride's star and the bridegroom's star belong to the same group, is said that *they do not agree*. For example, if the girl is born in Rohini Kazhuthu (neck) Rajju and the boy is born in Hastham or Sravanam which also belongs to the same Aroha Kazhuthu Rajju, then one should not predict that they concord. According to this rule, they should not be matched. But if the stars of the bride and bridegroom belong to different groups, i.e., if the Rajjus are different, e.g., one Kazhuthu and the other nabhi etc., they agree satisfactorily according to this rule. This is considered as very good.

2. If the stars of both the bride and the bridegroom belong to Arohana in different groups, it is excellent.

3. Even though they may belong to different groups and one is Arohana and the other is Avarohana, the agreement is fair.

4. If the stars of the couple belong to different groups but both are in Avarohana, it is not satisfactory.

5. Even if they belong to the same Rajju, if one's star is in Arohana and the other in Avarohana, they may be matched. It is classified as fair.

If the couple are destined to marry and the stars belong to the same pada (foot) Rajju, what would be the evil result? Does it threaten short life to the husband? No. But the husband will be ever touring and thereby there will be temporary separation. Is this Rajju evil, if one considers that the temporary separation is welcome, especially between the couple who do not have good understanding and quarrel occasionally? Will not this temporary separation set right their difficulties? Let us consider the families where the husband has no other go, except to remain at home for ever. Then, naturally, there will be more occasions to quarrel whereby harmony is denied. Therefore, this Rajju does not threaten danger to partner, and if at all, it shows frequent journeys to them.

But if they belong to Thigh (Ooruthodai) Rajju, it shows that there will be

financial loss. Suppose a person's chart shows that he will become rich. Then, how far this agreement will affect his fortune needs consideration. This agreement will never reduce his income, nor increase his expenses. Actually, a native was born in Pushyam star, and she married one in Poorvapalguni star. He entered service as a stenographer in a firm and he retired as one of the Directors of the Company. His prosperity is not prevented by this Rajju. He was all through life economical and never incurred a loss, nor had he any occasion to meet any uncommon or unnecessary expenses. The wife was more thrifty and she assisted her husband to save much. Therefore, as long as this Rajju does not indicate danger to life, one need not discard a horoscope on this score.

The next group is Nabhi (navel) Rajju. The results mentioned by our sages are that there may be danger to children and a few may pass away. When we examine the horoscopes of the parents who had lost the first, the second issues, etc., and then name the third issue, Kuppu, Pitchai, etc. we do not find that they have this Nabhi Rajju. Therefore, loss of children, is not indicated only by this Rajju, but it must be found in their birth charts. Hence, this Rajju is neither evil nor strong.

The only Rajju where one has to necessarily scrutinise the charts of the couple for longevity, etc., is Siro Rajju. It is threatened that the husband may not live long and the wife may have to outlive her husband. The stars belong to Mrigasirisha trines. In our research, we have not seen horoscopes of the couple belonging to the same Siro Rajju. So, we cannot state anything definitely except that we have to accept this.

A few astrologers reject the horoscopes of the bride and bridegroom, both born in Mrigasirisham or Chitra stars, saying that there is Siro Rajju and that Rajju porutham is very important. True. But we have to consider that our sages were aware of all the rules, when they framed them. So a question arises whether the same sage would have considered this point also, while discussing Eka naksha-

thra—same star—agreement ; it is declared that the partners, both born in Mrigashirsha star or in Chitra star, can marry and the Dinaportham is satisfactory. Dinaportham also indicates health and longevity. Our opinion is that both are correct. Dinaportham shows that they both will live long. But Rajju shows that after having led a married life for a long number of years, the husband will pass away first and then only the wife. Have we not heard a few couples living upto 80 years of age and longer and then the wife surviving the husband ?

Special rule : If the couple had Moon at the time of their birth in the signs ruled by planets which are friendly, or if the Moon signs of the couple were to be in Sama saphama, i.e., one opposite to the other (i.e., Mesha to Thulam, Rishaba to Vrischika, and so on) or if they are born with Moon in the same sign, then such a position wards off the evil results indicated by Rajju-porutham. When we apply this special rule, we will find that the trine stars are mostly in the house ruled by bosom friends and the trine stars are said to be in the same Rajju. Here also confusion will arise in the minds of the students.

For example, you take a girl born in Aswini and a boy in Makham. It is said that, if the boy or girl is born in Makham, then Dasaportham need not be considered. But if you consider Rajju porutham—where it is said that Rajju porutham is very important—you find that they belong to the same Rajju. When you apply the other special rule, you will find that one belongs to Aries—Mesha—and the other belongs to Leo—Simha—which are ruled by Mars and Sun who are friends. So according to this rule, there can be no evil due to Rajju. Similarly when we apply to each star, we will find that the trine stars are *mostly* in the friends' quarters except the following :

Karthikai's first pada in Aries will not agree with Uthrapalguni 2nd 3rd & 4th padas, and similarly, Uthrashada 2, 3, and 4th padas, as they are in enemies' camp.
Karthikai 2nd, 3rd and 4th padas

do not agree with Uthrapalguni and Utharashada first pada, as the signs are ruled by the enemy, Sun or Jupiter.

Punarvasu 1, 2 and 3 padas are in Mercury's sign, Gemini; Visakam 4th pada and Poorvapathrapada 4th pada are in Mars sign Scorpio, and Jupiter's sign Pisces respectively, which alone do not come under this special rule, and so we have to say that they do not agree.

Excepting the few mentioned above, all other stars are in friends' quarters. So if one applies the special rule, then this Rajju does not play much part at all.

Again let us take the horoscopes of the unfortunate widows and get from them their husbands' charts also. In most of the cases, there is no Rajju at all, and according to Rajju porutham, the horoscopes do agree most satisfactorily. Then, one is to consider also the horoscopes of those where there is Rajju, but yet the bride pre-deceases and the husband remains a widower. The analytical study and research show that the longevity, the health, the number of years of married life, and who would survive whom, are to be carefully studied from their individual horoscopes and this Rajju porutham has no final say in the matter. Rajju cannot change the results indicated by the individual horoscopes.

Also if one studies the stars classified in one group, it will be seen that the lords of the stars are bosom friends. Saturn rules the stars Pushyam, Anuradha and Uthratadhi. The three stars which belong to the same Rajju are Bharani, Poorvapalguni and Poorvashada stars, which are governed by Venus. Both are friends. Similarly, Karthikai trine stars are ruled by Sun and the same Rajju belong to the friend Jupiter, i.e., Punarvasu trine. Hence, in our opinion this Dasa porutham is not a strong indicator of any result in the married life.

There are many general rules, and also innumerable special rules. When all are applied, then all the horoscopes can be

matched, or quoting any one rule, they can be rejected. Thus, the rules suffer in the hands of the students of astrology. Our strong advice is to study the individual horoscopes and pass an opinion. Do not commit any sin, by saying that a particular pair of horoscopes agree, and the other pair do not, without understanding the strength of their horoscopes separately.

10. Vedhai :

- (a) If either of the couple is born in Aswini star, do not match with one born in Jyeshtha or Kettai.
- (b) Bharani star native does not agree with Pushyam star born.
- (c) Karthikai and Visakam stars do not match.
- (d) Rohini star does not concord with Swathi.
- (e) Arudhra and Sravana stars disagree.
- (f) Punarvasu and Uthraashada disagree.
- (g) Pushyam and Poorvashada show vedhai.
- (h) Ashlesha and Moolam do not concord.
- (i) Makham and Revathi are unsatisfactory.
- (j) Mrigasirisha and Chithrai do not concord.

For Poorvapalguni or Pooram stars there is no Vedhai. This agreement indicates that if the above group of couple get married, they cannot pull on peacefully; there will be repulsion, and hence, they will always disagree, and their married life will not be harmonious. It cannot give pleasure to them.

Thus, these are the Ten agreements considered by the parents of the couple before the marriage is fixed.

There are a few more agreements which are also observed. Especially in North India, Nadi Porutham is taken into serious consideration. They divide the stars into three groups, namely :

- (a) The stars Karthikai, Rohini, Ashlesha, Makham, Swathi,

Visakam, Uthraashada, Sravana and Revathi, these nine belong to *Vama Parswa Nadi*.

- (b) The stars Aswini, Arudhra, Punarvasu, Uthrapalguni, Hastham, Jyeshtha, Moolam, Sathabisha and Poorvapathrapada belong to *Dakshina Parswa Nadi*.
- (c) The remaining nine stars, Bharani, Mrigasirisha, Pushyam, Poorvapalguni, Chithrai, Anuradha, Poorvashada, Dhanishta and Uthrapathrapada, belong to the middle, *Madhyama Parswa Nadi*.

It is said that if the bride and the bridegroom belong to different Nadis, they agree very favourably.

If they both belong to Madhyama Nadi, it is evil to the husband.

If they belong to the same Parswa Nadi, it is undesirable to the bride.

If one refers to "Kalaprakasika", a standard text-book, one will find many more agreements observed by our ancestors before fixing up a marriage. Thus :

1. The stars are classified into three groups :

- (a) Male or masculine stars ;
- (b) female or feminine stars ;
- (c) effeminate stars.

Female stars are Ashlesha, Makam, Pooram or Poorvapalguni, Uthram or Uthrapalguni, Arudhra, Bharani, Chithrai, Swathi, Visakam, Poorvashada, Uthraashada, Jyeshtha, Dhanishta and Sravanam.

Effeminate stars are Mrigasirisha, Sathabisha and Moolam.

All other stars are masculine ones, i.e., Aswini, Karthikai, Rohini, Punarvasu, Pushyam Hastha, Anuradha, Poorvapathrapada, Uthrapathrapada and Revathi.

If the bridegroom is born in the masculine stars and bride in the feminine stars, they agree satisfactorily. But if the bride is born in masculine stars and the bridegroom in any one of the feminine stars, they will not match. If one is born in any one of the effeminate stars

and the other in any one of the feminine stars, the agreement may be classified as fair. So also, if the effeminate star and the male star borns are combined, the result will be moderate.

If both the couple are born in masculine stars they can be matched; so also, if both are born in feminine stars, they also concord.

Nowhere is it mentioned what the result would be, if a girl born in a masculine star marries a boy in a feminine star. Nor has it been said what for this agreement is considered.

Gothram

Originally, our ancients selected 28 stars and they had the star Abhijit included along with the 27 stars now in vogue. Abhijit is given a place next to Sravanam.

They took the seven stars and called them by the names of seven Rishis—Saptha rishis—Marichi, Vashista, Angirisha, Athri, Pulasthiya, Pulaha and Krithu. They distributed the 28 stars among the seven rishis, each 4 stars in the same order, i.e., Aswini, Bharani, Karthikai and Rohini belong to Marichi; Mrigasirisha, Arudhra, Punarvasu and Pushyam belong to Vashista; Aslesha, Makham, Poorvapalguni and Uthrapalguni belong to Angirasa; and so on.

In "Kalaprakasika" it is said:

Ekagotrhae Bhavain Nasoe
Binna Gothrae Subhavana "

Hence, couple born in any of the four stars belonging to the same group, i.e., to the same rishi, should not get married, as it threatens danger to either and it brings misfortune to both.

Caste according to Astrology

Katakam or Cancer, Meenam or Pisces, and Vrischikam or Scorpio,—or all the three watery signs—belong to the Brahmin Caste.

Leo—Simha, Saggittarius—Dhanus, and Libra—Thulam belong to Kshatriya caste.

Mesha—Aries, Mithuna—Gemini, and Kumbha—Aquarius rule the Vaishyas.

Rishaba—Taurus, Makara—Capricorn, Kanni—Virgo, belong to Sudras.

The rank is given in the order, Brahmin, Kshatriya, Vaishya, and Sudra.

It is said that a bridegroom should not marry a girl born in the rasi belonging to the higher caste. It is threatened that the person, marrying a girl born in the higher caste, will die within a short time after marriage.

Thus, one can see the various methods by which one makes a selection. He will be puzzled to see that if one method agrees, the other does not agree. If the special rules are applied, most of the horoscopes agree, etc., indeed, it is neither a correct method to declare how long the couple will live, whether there will be harmony or not, and so on, nor is this method clear without any contradiction between one rule and the other. Under one method, they will agree and under another rule they will not.

Just as marks are given in the mathematics paper, a few astrologers give marks. There also, they do not take into consideration which sum is hard, and how much the total mark for that sum should be, and so on. They give equal marks to all. Finally, they declare that the two horoscopes agree, as more than 5 agreements are found in the charts.

We do not attach much importance to these. In the end of the article, one can read the chapter *Nimitham and Sakunam* which are more dependable: (a) to know whether the marriage between any two persons will be fixed and celebrated or not; and (b) whether they will have a happy and harmonious life, or not.

Without examining the horoscopes, certain facts can be predicted by following the methods given below:

1. Will the marriage take place between A and B? Suppose this is the question put by the consultant. You can say that the marriage will surely take place between them and there will be no disappointment, if to the Lagna that rises according to the number given by the consultant, (any number within 108—between 1 and 108), Moon is posited at

the time of the query in any of the houses 3, 5, 7, 10 or 11 and it receives the beneficial aspect from the benefic Jupiter. Otherwise, it will fall through. If both Guru and Sani aspect, after some delay, the marriage will be fixed. If Guru is retrograde, this will fall through.

2. Will I be able to get a girl for marriage? This question will be put generally by one who had been much depressed and dejected and who would have grown old without getting married for a long period.

If Libra—Thulam, Taurus—Rishaba or Cancer—Kataka happen to be the Ascendant according to the number given by the consultant (any one number within 108), if Moon and Venus have any connection to the Ascendant, then the querist can be informed that he will get a girl, and the marriage will take place.

But if the question is put during waning Moon, Krishnapaksha—Theipirai—if Moon occupies either 2, 4, 6, 8, 10 or 12th house from the Prasna Lagna, he can see the girls walking here and there, in the market, in the bus, at the cinema theatre, etc., with their husbands, but he will never have one girl for his marriage and he cannot enjoy like them. If Moon were to be in 8 and if evil planets aspect, he will ever be worrying himself but will never get married.

If a query is put by a girl confidentially to find out whether she will be able to marry a particular person whom she has in mind, you have to note whether the Moon is in 3, 5, 7, 10, 11 and it receives aspect from Jupiter—Guru; if this condition is satisfied, she will marry; but if Moon were to be in 5, receiving Jupiter's aspect, the marriage will take place, but there is danger to either within 8 years after the marriage.

If, at the time of the query, the Lagna is occupied by Mars and in the seventh house, there is a beneficial planet, either her character is not satisfactory, or she may lose her children during her lifetime, and she will lose her husband in 8 years.

If Mars is in the seventh house counted from the Prasna Lagna which is occupied

by Moon, it is certain that she will lose her husband within 8 years after marriage.

If there is a debilitated planet in the fifth house counted from the Prasna Lagna, and if it receives aspect from any malefic, the girl may have bad character and her children may not have long life.

Marriages fixed by sakunam (Omen)

The parents get vexed when they go on collecting horoscopes and getting examined them by a few astrologers. They complain that the astrologers have agreed to disagree with each other, just like clocks in the same compound. They are already worried in finding out a suitable boy for the girl. Secondly, there are so many other considerations in the selection of the boy. In their anxiety, they are confused. When they approach the astrologer in a confused state, they are still more confused, so that, in course of time, they decide not to consult any astrologer, and they pin their faith in God, look at the Sakunam or Nimitham, and fix up the marriage, which is really good.

Such people and even those who have faith not only in astrology, but also in the astrologer whom they consult, can follow *Sakunam*. It is the real Divine guidance. *It will never fail*. Sakunam is more important than the Dasaportham. This is our honest and sincere opinion.

He who has to take a decision after noting the Sakunam, should pray to God or Goddess in whom he or she has faith. Then, what one hears or sees at that time will offer the correct prediction. One should not artificially create a Sakunam, e.g., at the time you start, you should not instruct your child to turn the key of the alarm time-piece and allow it to ring; nor ask any Sumangali, a young girl, leading a good life with her husband to come in front of you. But you allow the Sakunam to nature.

If the cat were to come before you, once for all forget the matter and give up the attempt. If a cow comes, proceed. If anybody brings the idol of God, proceed. Even if you are sure that you will come by fortune, if you make an attempt

in any direction and if at that time a widow were to come, be sure that you will be disappointed and misfortune will surely be the result.

If you hear the sound of a bell, etc., you may proceed. If the light is put off by strong wind or if the electric light fails due to 'fuse of the wire' or failure of the current, it foreshadows evil results, and that the alliance in consideration will fall through. Similarly, there are hundreds of omens—Sakunams.

Varahamihira says that an omen reveals the fruition of his deeds, according to the good deeds and bad ones done in the previous birth. Omens are not superstitious beliefs. Actually they are very correct indications. Sa-gunam means good quality. That is why this method of finding out the truth is called Sakunam.

There are many other omens which are rural, wild, aquatic, terrestrial, heavenly, diurnal, nocturnal, and kiurnal nocturnal. All these will be explained separately in later issues.

Nimitham :

Nimitham needs intelligence to interpret. But if it is properly interpreted, this is superior to Sakunam and will be more appropriate and explanatory.

It will not be out of place if a few instances are given. Once a Guru was teaching the students as how to interpret incidents and understand the future. At that time, the Guru's wife went out of the house to fetch water from a common well provided with a pulley alone. She had to take the rope and the bucket. She did carry them along with her. In the meanwhile, a gentleman approached the teacher and requested him to offer a prediction.

The Guru asked him "What is your difficulty? What is it that you want?"

The person said: 'My wife and I did not pull on amicably. She went to her native place a year ago, and in spite of my repeated reminders and registered letters, she never cared to reply. I am really worried. I would like to know

whether she will divorce me, desert me and leave me in the lurch, or at least, after some time, she will come to her senses and join me.'

As he was saying this, the Guru's wife returned empty handed and waited for the visitor to finish his narration. The moment he completed his story, she said to her husband that the rope, she used gave way, while dragging the water and hence, the pot has fallen into the well.

Now, the Guru asked the students to interpret his wife's report to the query of the visitor.

All the students except one told the Guru: 'Sir, we call marriage, as a bondage: we tie the saffron thread around the neck of the bride to show, that she is married. We call it as Thali, or Mangalya saradu. As your wife complains that the rope has given way, we have to take that the mangalya saradu has become weak; it will be cut off shortly, and hence she will not join him. It will end in a divorce.'

Only one student remained silent and was hearing the explanation of all the others. Even the visitor was upset, when he heard the lady saying 'the rope has given way'. He called her within himself 'as Saturn: wherefrom this Saturn is come now, and so on'. The Guru asked the student 'What is your opinion? What have you got to say? Do you agree with them or do you differ from them?'

This intelligent student said "Sir, it is a fact that Mangalyam is a thread and tying it around the neck of the bride is the custom to say that the bride is married to him. Traditionally, it is done by us all. But now, we have to consider as follows. The rope used for pulling the water from the well is the evil force which tries to separate a part of the water from the large quantity of water in the well. This potful of water belongs to the well. The rope tries to separate this water from its kin. But the evil period is over. The rope has given way. There is no more evil. Hence, shortly, she will come and join him; just like the water in the pot which belonged to

the well again joined in that well and is safe."

The wise teacher agreed with the student, who gave the verdict that the wife would come and join, encouraged the visitor, and declared that divorce was out of question, and that his wife would surely come and join him. Also he advised him to wait for some time, till the evil period was over, so that automatically she would come and join him.

Actually after the lapse of some time, the wife joined her husband.

Thus, the incident may be one and the same, but the interpretation may be both ways. The wise interpretation alone will come true.

A few more instances are given to impress upon the minds of the readers how God helps the astrologer and gives him confidence and courage to predict correctly from the Nimitham.

The editor had been teaching the students of Astrology at Saidapet under the auspices of the Modern Astrological Research Institute for which he was, and continues to be, the founder-President. At that time, a young man produced a slip of paper to the Professor in which he had written that his wife was in the family way, and according to calculations, she was running the 11th month. There was no labour pain and the date of delivery could not be guessed by him. He was much worried. The professor asked him: "Give me a number within 108". He mentioned the number 27. After calculations, he had to predict twin-birth. He wanted to gather courage to declare this prediction, especially in the presence of many students. Wherefrom can he have the confidence? He looked outside. At that time, an old lady was carrying on her waist a bag, and a cow ran by her side. She got terrified. She let loose the bag. While falling, the bag which appeared to be one, fell as two separate ones. Immediately the teacher predicted that his wife will give birth to twins on Wednesday. The prediction was given on Sunday. It is a fact that he had twin birth on the next Wednesday. The lady, carrying one

bag, represents his wife in the family way. When the bag fell, it was found that she had been carrying both the bundles in one waist. What more guidance can the astrologer have?

One day, a gentleman asked the astrologer to tell him whether his son who was in London for the past two years, would return home soon after his examination, or whether he would stay there itself. Even though, according to Prasna, the astrologer decided to say that he would go to a place still farther away from London, and that he would not return then, yet he waited for guidance. A bird, which was sitting on the ground about 100 yards away from the professor, flew farther away from the professor and did not fly towards him. So, he said boldly that his son would not remain in London, or that he would return home, but that he would proceed farther. In a fortnight, he heard that his son had left for America.

A college girl asked the astrologer to describe the physical features of the person whom she might marry. At that time the professor looked outside and an elephant was passing by. Guess what the Astrologer would have told. He said that at the time of query, Moon and Jupiter were together in a watery sign and that he hesitated to say that the husband would be plumpy. The appearance of the elephant gave him the confirmation that the prospective husband would be stout, with very small and sharp eyes. Also it was mentioned that he would be very intelligent and dutiful, which proved correct; but this prediction is offered more as a consolation and compensation for the pot-bellied husband.

One of the students, who had been observing such predictions, wanted to test the professor. He requested the professor on another day to describe the physical features of the girl whom his father had selected for him. At that time a school-going girl came with a letter and delivered it to the professor. The girl was black, not so much as the crow; she was squint-eyed. She was lean and tall. According to Prasna, he had to offer similar prediction. This girl's visit at that time was

helpful to describe the bride selected for the student. It was really a surprise for him to see that the bride resembled mostly this girl.

When a boy asked the astrologer whether he would pass the examination, the astrologer took a newspaper and in it was printed boldly: 'Grand success to... ..in the election at.....' In the next column it was published 'Relief to tax'. Why should the astrologer look to Prasna? He has to offer similar prediction, and give relief to the boy's worry. That is why, in olden days, people used to turn

over the page of a holy book, read the contents and interpret it according to their query.

Thus, instances can be multiplied. But let us be content with these. Therefore, we have to understand that SAKUNAM AND NIMITHAM ARE TRUE INDICATIONS. One should consider the individual horoscopes, study for longevity, harmony, happiness, prosperity, etc., and should not confuse oneself with Dasa porutham and Mars (Angaraka or Sevvai or Kuja) Dosham.

WHAT SHALL I DREAM ?

If you remain unmarried and if you desire to have a very soft husband dream in the night that you had a tailor for your beau. Also dream that you are pleased with him. Then this dream indicates that you will marry a gentle, modest and soft person who will allow you to be both mistress and also master from the time of

marriage. There is a popular rhyme which runs as follows:

The maid who dreams a tailor she would
wed
Will marry one who'll be a log in bed;
And she'll be master, too, of all his riches,
And in the vulgar parlance, 'Wear the
breeches'.

MOLES AND THEIR MEANING

Shin: Moles in the shin indicate that one will not suffer even in adverse periods but he will have the Providential Help to enjoy his life. During favourable time, he will be more lucky than other people. He will be liberal, and hence he may not become very rich. Yet, he will never be in want. Whatever he desires, will be satisfactorily fulfilled.

Shoulder: Moles on the right shoulder indicate that he will marry a lucky partner. There will be good understanding between the couple or among the partners in business. He will have both social and financial success. Due to the influence of the large number of good friends he will have a successful career. He will be benefited by them. He can make long journeys. He will not waste money; every trip will be fruitful. He will not feel sorry that such good chances come in his old age or when he was an infant. It will be in his adult age when he can enjoy to his satisfaction. The moles in the right shoulder promise much prosperity. If the mole is on either of the shoulders, one will be economical, prudent and frugal. He will be patiently working without getting tired or dejected before he comes out successful in his efforts. He will be industrious. He is neither dull, nor very intelligent. He will not be frank and outspoken.

Side: On either side of the body, near any of the ribs, if there is one mole or many, the person lacks courage and confidence. He may be cowardly in disposition and fond of easy life. He will not be ambitious. He will have no inclination to amass wealth. He is contented even though he may remain poor. Therefore, he is not respected by his own relatives and friends. Even his wife will not co-operate with him. Due to her disappointment and dissatisfaction

in having him as partner, she will show her disagreeable temper now and then. Will the children, at least, be obedient and dutiful? No. It is a pity that he is denied that also. Can he be without difficulties? How is it possible when he is lazy and lethargic, and at the same time, he does not work for the improvement of the bank position? It is the bank position and the income of a person that makes one a man; then alone he will be respected by all. That is why he will be disliked by his kith and kin. Further he will be given to drinking and will thereby waste the money. He will have no pleasures of love, etc. Anyhow, a bad position for the mole is the side of the body.

Stomach: The mole in the pit of the stomach indicates that the person will become rich. He will be industrious. He may not qualify much. But with his common sense, he will be able to carry out his work to the entire satisfaction of his superiors. He will have pleasant manners and an accommodative temperament.

If the mole is in the lower part of the stomach, he will never hesitate to give promises to help others by using his influence, and he will not actually do anything; e.g., he may promise to donate Rs. 100, but finally may give nP. 50. If he is rich, then the persons who approach him to lend money will be visiting his place many times and every time he will give some excuse or other, and continue to give further hopes. Only the person who believed him all along has to forget him, after he has become dejected. Because of his riches, it will appear as though he is respected by others outwardly even though inwardly everybody will curse him. It would have been helpful to the people if the mole which indicates such a character is in the face or so, so that on looking at the mole, one can judge how far

one can rely on that person. Unfortunately, the mole in that lower part of the stomach indicates this kind of person.

Throat: The mole in the throat is a very good position. It indicates that one may not be personally fortunate; but he will have a lucky and rich partner in life. It is observed that ladies, having such a mole, find that their husbands, though born in an obscure family at the time of marriage, yet they become rich from the time of marriage, and they come to the front of the public, be popular and pros-

perous. In most of the cases, rich boys marry poor girls, who have moles in the throat or in the chin.

(Moles in the body, the lines in the hand, and the positions and relation of the heavenly bodies at the time of birth, reveal the life story of every being. How the presence of moles in the body can be connected to the position of planets in one's horoscope and similar results are promised by the planets, also will be explained. Moles indicate the nature of the result but not the time of event.)

SATURN'S TRANSIT AND ITS RESULTS

Libra—Thulam: This refers to people born in Libra as Ascendant (i.e., Thulam as Lagna), as also to those who are born in Chithirai star 3rd and 4th padas, Swathi, Visakam star 1st, 2nd and 3rd padas. People who are born between 17th October and 15th November any year have to refer to this sign, if the Lagna is not known.

Saturn passed to Aquarius (Kumbha) on 26-1-64. It was in the star Dhanishta in the sub of Mercury according to the table furnished in the January issue 1964.

To Libra-borns, Saturn rules the fourth and the fifth houses. It transits in Dhanishta, the star of Mars; it governs the second and the seventh houses. Therefore the results are to be read as the lord of 4 and 5 transiting in the star of the lord of 2 and 7 and not as Saturn an evil planet transiting in another evil planet's constellation. So when Saturn was in this sub, the effect of Mercury, lord of 9 and 12, would have been enjoyed. Saturn as lord of 4, in the constellation of lord of 2, indicates that one will have the receipt of money already lent on mortgage to a person, or one will acquire property. Also it is likely that one changes his residence. As lord of 5 in the constellation of lord of 2, 7, 9 and 12 it indicates that he who takes risk in gambling will make a profit. Opponents are indicated by the seventh house, and so Saturn, lord of 11, will transit in the constellation of Mars, lord of 1 and 8. Lord of 5 gives the mind and the opportunity to bet. That is all. Houses 2, 6 and 11 alone indicate gains. Reunion in the family and celebration of marriage to children are also indicated.

Between 11-2-64 and 18-2-64, Saturn was in the sub of Kethu; depending on its position, one is to offer the results. If Kethu would have been well posited, one will surely gain. But if it is in an evil house, mental worry, disharmony, irritation and ill-health to wife are

threatened. Between 18-2-64 and 7-3-64 the sub is ruled by Venus, lord of one and eight. It is not beneficial and threatens loss in the transactions. Overwork and unsatisfactory returns would have been the result then. One might have disposed of one's property. Officially due to pinpricks, one might have been depressed. The owner of the house might cause worry. But for his mother, it was an excellent period to have her desires fulfilled. Between 7-3-64 and 13-3-64 Saturn will be in the Sun's sub. Either permanency or promotion may be looked for. Arrears of pay may be received; or the long pending bills will be passed for payment. Government officials will be helpful.

From 13-3-64 to 23-3-64, Saturn is under the sub of Moon. Brokers of landed properties will have larger turn-over and will have substantial gains. A few may go on long journeys to improve the business. Returns from permanent possessions will be more than normal. But children may fall ill. Temporary separation from the members of the family is indicated.

On 23-3-64 Saturn passes 6 degrees 40 minutes and enters the star Sathabhishta ruled by Rahu. One is to note where Rahu was, at the time of birth in the birth chart. If he is a benefic, such of those favourable results indicated by Rahu will operate. The transiting planet and the house it transits indicate which house matters will be enjoyed by one. The lord of the star indicates the source and decides whether it is favourable or unfavourable. Hence depending on Rahu's position, good and evil are to be judged. Generally, the results will not be favourable. Health of children will be indifferent. Mother may lose her movable property. Brothers may get their partition and get away. Only the wife will have necessary expenses, accruing in this period, of Rahu in one: will enjoy mixed result nature. As for

Between 12-4-64 and 5-5-64, Saturn will be in the sub of Jupiter and the person may mortgage his property and raise a loan. Or he may have overdraft facilities to construct any building. He may take up land on lease. Short journeys will prove to be successful. Editing and publishing in this period will be profitable and popular. One may take up agency or may be appointed as a representative of any business. This is the period when children can give peace of mind to the parents. They may get into service or be selected for any higher post. If it is a lady's chart, then it is likely that her husband goes on a long journey and comes in contact with foreigners who will be helpful for expanding his business.

From 5th May to 15th June, Saturn will be in direct motion in its own sub. Later till 27th July, it will be retrograde in the same sub. Therefore one will be concerned with matters relating to mother, lands, conveyance, children, speculation, pleasurable pursuits, and change in occupation. The health of mother will be indifferent. Cars will often give trouble and there will be double expenses. There may be Kisan trouble, too. Servants will not co-operate. They may demand more wages. Subordinates may write anonymous pamphlets or carry tales and cause anxiety and irritation. Forget speculation in these days. Saturn who is called "The Temptor" will tempt you and if you fall a victim, you are sure to lose. The Partner may go away for a short period, and there will be temporary separation.

This state of affairs will not continue long. On 27-7-64 Saturn again enters into the sub of Jupiter when you will receive the help from lawyers, judges, politicians and professors. You will tide over difficulties and regain peace of mind. There will be reunion with partner in life. Depression will end. You will attend to your duties with great enthusiasm and will be optimistic. Compromise with the servants and labour is also promised. Children will come out successful in their examinations. Some will take up new business. In the father of the native may have prosperity.

All-round success is promised up to 21-8-64.

Between 21-8-64 and 18-9-64, similar results as you could have had between 2-3-64 and 12-4-64 will be again enjoyed. Whatever effects Saturn had produced between 13-3-64 and 23-3-64 will again be repeated between 18-9-64 and 9-10-64. For a longer duration, much better results will be enjoyed by you between 9-10-64 and 25-11-64 and the nature of result will be similar to what you had between 8-3-64 and 13-3-64. Because, on both the occasions the sub in the constellation of Mars, was ruled by Sun, lord of 11. Thereafter, till the end of the year, the same results enjoyed by you between 23-3-64 and 12-4-64 will operate.

(Always the nature of the result and the source are strongly indicated by the lord of the star and the sub. The sub-lord clearly indicates the exact period when one can expect.)

Scorpio—Vrischika: People born with Scorpio as Ascendant (or Vrischika Lagna) have to refer under Scorpio. It is also applicable to those born in Visakam 4th pada, Anuradha and Jyeshtha constellations when Moon was in Scorpio at the time of birth. Also, it refers to those born between 16th November and 15th December any year, when Sun was in this sign according to Nirayana system.

On 26-1-64, Saturn came to Kumbha and was in the sub of Mercury in the star Dhanishta ruled by Mars, lord of 1 and 6. It is an evil one. Health of the native would be causing anxiety. Those who had piles or blood pressure could have had expert medical aid to avert the danger. The pressure from the creditors and the necessity to meet many demands also might upset one. Therefore between 26-1-64 and 11-2-64 it was an unfavourable fortnight.

Between 11-2-64 and 18-2-64 Saturn had proceeded to the sub of Kethu. Hence the threat of the creditors would have disturbed your peace of mind and caused worry. A few might have entered into litigation. Tenants would have given trouble. There

might have been loss through short journeys. Silly quarrels with brothers and neighbours are indicated. Or it would have ended in separation from them. Brother might purchase a car with your assistance. Wife also could have gone on a journey but she had neither difficulty nor loss.

Between 18-2-64 and 7-3-64 Saturn will be in the sub of Venus. This is the period when one will be able to repay debt and regain peace. Assistance from friends will come uncalled for. In a way, you will get over difficulties. If you take up any venture now, you can be sure of success shortly. You can depend on those whom you approach. Brothers also will enjoy most beneficial results now. They may have substantial gains without pains. Children alone may not maintain normal health. Father may buy a car or land.

Between 7-3-64 and 13-3-64, the sub transited by Saturn is governed by Sun. Therefore he who had been trying to enter into Government service so far, will now secure one. Those in business will be successful in obtaining the licence, for the import, etc., from Government. A few may start new business. It is likely that the tenders of contractors, born in this sign, are accepted and in the future they may have to supply materials or erect buildings. Young and active people may become the representatives of any medical and chemical concern. To become a liaison officer, this is indeed, a good period.

Between 13-3-64 and 23-3-64 Saturn will be under the sway of Moon. Hence, one may make attempts to go on a long journey and also borrow. Or one may try for higher education and go overseas. Connections with strangers and foreigners will prove to be fruitful. Editing, publishing, etc., will also be popular and receipt of money that had been locked-up for long will help to avoid unpleasantness. It is likely that mother falls ill and brother gets married. Generally during the period of lord of 3, transiting in the sub of lord of 9 and in the constellation of lord of lagna, one can expect younger's marriage; because, lord of 3 represents younger brother.

9th house is the 7th from the 3rd and the lagna of the person is the 11th from the 3rd. Always the younger brothers gain whenever lords of 1, 3, 4 and 9 jointly operate.

Between 23-3-64 and 12-4-64, Saturn enters into the star Sathabhissha which is ruled by Rahu. If one had already enjoyed the period of Saturn Dasa, Rahu Bhukti in his lifetime, then he can expect the same type of results to a much less extent than what he enjoyed then. Note whether Rahu is good or bad. If it is well posited in your chart, then you can expect agreeable results; otherwise the results will not be agreeable. If Rahu had occupied the 10th house, you will have expansion of the business, larger profits, benefits from Government, etc. This result will also be enjoyed if Rahu had occupied the stars Karthigai, Uthrapalguni or Uthrashada star ruled by Sun, the lord of 10. If Rahu had been occupying the 12th house, it indicates monetary loss, change of place, litigation and secret inimical activities. Between 12-4-64 and 5-5-64, Saturn transits in the favourable sub of Jupiter. It will help much to have speedy turn-over in business, to get back the money that had been entangled all along, to have a child or any son getting into service in a high place, etc. But it is not good for gambling or making money in the share-market. It is helpful only to the opponent. Even in election or in any competition, one may have to lose. But the person will be courageous and will not feel sorry for the failure. In these days, one may purchase costly jewels for his wife. Or if the chart belongs to a lady, the husband will get a decent position in his career, by coming out successful in any competitive examination or interview. Partners will be able to expand the business.

Between 5-5-64 and 15-6-1964, Saturn transits in its own sub in direct motion. Then till 27th July it is retrograde and is in the same sub. If Rahu had been bad, this sub period will prove to be very bad. Hence it is necessary to 'judge' properly the results of Rahu in one's chart. Saturn is evil by nature. As lord of 3 and 4, it

does not improve. Rahu is another malefic by nature and if he occupies undesirable houses, one has to be careful in these days. Labour trouble may crop up. The vehicle and the house will be requiring urgent and unavoidable repairs. Money position will become more and more tight. In the office, higher officials may not appreciate the arduous nature of the work and give relief; whereas unnecessary pin-pricks will depress the native. In business, the turn-over will be poor. It will be dull, and money will get entangled.

Life is like a wheel and one will neither suffer long, nor enjoy uniformly. Again Jupiter comes for rescue. Good-natured people or those who have Jupiter as a ruling planet will lend their assistance and help you to get out of the troubles. Your son also will assist you. Normal conditions in business will again prevail. The dues long outstanding will be received. If the native is a contractor and has some difference of opinion with the engineers and if his case is taken up by the arbitrator, this is the season when he can expect favourable orders and payments made in his favour. If there is any litigation in a court of law, it is better you enter into a compromise as it will be beneficial to you. It is a lucky period for your daughter to get married.

Between 5-5-64 and 15-6-64, Saturn passes on its own sub in direct motion and between 15th June and 27th July, it is retrograde. It is again a dull, lethargic one. But there will be frequent short journeys. Neighbours will be helpful. Writers and authors will be able to complete their books and release them. Brother gets promoted. Mother goes on a journey and there will be temporary separation. Children also will be touring. Partner in business is capable of improving the business and arrange for further expansion. He may go overseas and make efforts to take up agency or obtain foreign collaboration. He may try for international trade.

Between 27th July and 21st August, all matters take a favourable turn. Reunion in the family, return of the partner, or his or her grand success will contribute to

your peace of mind. You will attend to your duty with greater zeal. Bank position will automatically improve. Popularity will also increase. It is a jolly good time for a short period just like the bright sunny day in the continuous rainy season. A few may have Grahapravesam into their new house. The brokers of landed properties and cars will book larger profits. Those in the cinema line or music will also gain much in these days. They should make all efforts to come out successful, especially those who were not fortunate in the examination on the last occasion. Shortly, you will come out successful.

From 21st August to 18th September, Saturn will be in Rahu sub. Those, to whom Rahu was good, can expect decent promotion to partner, long journey and success in higher studies. Those who work in mine-ores, will have larger profits and greater transport facilities. Those in the transport department can have a change for the better. Dealers in automobiles, motor spare-parts, etc., will expand their business. The financial position of the younger ones will be satisfactory. Mother may go on a journey. Father's health may cause anxiety which is the only evil result. Between 21-8-64 and 18-9-64, Saturn again enters into the star Dhanishta governed by Mars and the sub is ruled by Moon. Hence the results which will be enjoyed now will be more or less similar to what you had between 2-3-64 and 12-4-64. It is a desirable one. Next, Saturn will be in the sub of Sun between 18-9-64 and 9-10-64 and the benefit will be just what it was during the Sun sub period: it is favourable for the fulfilment of your hopes and desires. Between 9-10-64 and 25-11-64, the results will improve.

Thereafter, between 25-11-64 and 15-12-64, your partner's health may not be alright. You may have to pay medical bills and loans previously outstanding. Short journeys will not bring immediate fruit. You may have some trouble with brokers or servants. Your colleagues will not cooperate with you now.

After 15-12-64, Saturn will offer such results which it gave between 23-3-64 and

12-4-64, and the next year will be a happy one, much better than the present one.

Sagittarius—Dhanus: This refers to people born in the ninth sign of the Zodiac Sagittarius as their Ascendant, or to those who are born while Moon was transiting in the constellations Moolam, Poorvashada or Uthrashada first pada, at the time of birth, or when Sun was passing in Dhanus when the birth date was between 16th December and 13th January any year.

The so-called Sade-Sati came to an end on 26-1-64 when Saturn left the sign Capricorn and entered into Aquarius-Kumbha. This is mentioned by those who predict the transit results taking the position of Moon at birth. Such a method of prediction is not offered by Westerners. Many who follow the Hindu system will be happy to note that the evil period has come to an end and that better period will follow especially after Jupiter enters Aries, the fifth sign from the position of Moon in Sagittarius. In their experience, they will observe that it is an approximation to some people and not exact one to all. In many cases the opposite results will be experienced.

The explanation is that:

1. the radical position of the planets is not taken into consideration. One might have been born in Aries and he may have a friend and a foe born in the same star. The person may have Saturn in Taurus, whereas the friend or enemy may have Saturn in Aries. For the native, when Saturn transits in Aquarius, it will square its original position, whereas for the other it will form harmonious aspect. Hence, the results must be just opposite to each other.

2. the constellation and the sub in which a planet is transiting is not considered. When Moon is given importance for transit results, the lunar mansion is somehow omitted. In practice, it will be seen that the lord of the constellation alone offers the nature of the results and the sub is more important for fixing the exact time.

Saturn on 26-1-64 entered Aquarius and was in the sub of Mercury till 19-2-64. It is a period when some would have had

changes in the institution with satisfactory increase in salary. A few would have received arrears of pay. The contractors might have received the amount which was long pending. New contracts would have been signed by the cine actors. Increase in the income of the musicians during this period was also promised. To come out successful in all the efforts and to have the benefit from the government, this period is propitious. The birth of a child is also likely. The health of the native will improve.

Between 11-2-64 and 18-2-64 Saturn was in the star of Mars and the sub of Kethu. It indicates visit to holy places and meeting great sages. One may donate for the renovation of a temple or spend money on religious functions. Though there is no adverse result in this week, something or other would have caused unnecessary worry.

Between 18-2-64 and 7-3-64, the sub is ruled by Venus, lord of 6 and 11. Those who are having litigation may enter into a compromise which will result favourably. Younger brothers will have some improvement in their health and thereafter it will not worsen. They will start attending to their normal duties. Children will come by unexpected fortune. The partner in business may proceed on a long journey. Merchant's health may cause anxiety. Speculators will make satisfactory gains in their transactions, especially when they are "Bears".

Between 7-3-64 and 13-3-64, Saturn will be in the sub of Sun who is lord of 9. As Dhanishta is ruled by lord of 12, it is likely that a few may enter into foreign service, while a few may go overseas and enter into a contract with foreigners. Advantages from the Government and high officials are also indicated. Students sitting for competitive examinations and those who are interviewed for any selection will be successful. Providential help is promised.

13-3-64 to 23-3-64 is the period when Saturn would be in the sub of Moon. This is an anxious time. Worry and difficulties will increase. In spite of all comforts and success in his own personal attempts,

unavoidable troubles will lessen his enthusiasm. It is likely that he will differ from officials and incur their displeasure; health of younger ones will again cause anxiety. A few may invest money on landed properties or change their residence.

On 23-3-64 Saturn enters into the star Sathabhisha, ruled by Rahu. If Rahu would have occupied a sign other than Cancer (Kataka), and Scorpio (Vrishchika), or if Rahu had not occupied Moon's star Rohini, Hastham, or Sravanam or Mars star Mrigasirisham, Chithrai or Dhanishta, the native can expect financial improvement, peace of mind, prosperity in business, success in his efforts and vast advancement in his career which was denied in the past two years when Moon was transiting in Sravanam star governed by the lord of eight.

Between 23-3-64 and 12-4-64 only, those to whom Rahu was ill-posed as mentioned above, will face many problems and they will be saying that even though seven and a half years Saturn is over, the trouble had not come to an end, whereas fresh ones also crop up. If Rahu is beneficially posited, health of brother will improve. The partner will return after her short tour. Litigation will end in a compromise. There will be no more waste of money, in the near future.

Between 12-4-64 and 5-5-64, the sub-period is very good. Happy celebrations at home, change of residence and construction of a new house, partner's promotion in service, and partner joining a new concern are all likely. There will be many social functions. Popularity will increase. Pleasant expenses also will go up equally in this period. Those who expect the facilities from bankers will have them to their entire satisfaction without any further delay. Those who would desire to study further will have their wish also fulfilled. It is a pleasant time.

After 5th May till 15th June, Saturn will be in direct motion. Thereafter it is retrograde and is in the same sub of

Saturn till 27th July. In this period, all worries will come to an end. Health of all the members will be satisfactory. Unnecessary expenses and waste will be reduced. Financially one will be economical and will save, unlike in the previous sub-period when for prestige much money would have been spent. Many short journeys may be made and the trips will prove to be fruitful. Editing, publishing or taking up any agency in this sub will be advantageous. Generally Saturn transiting in the third house is considered to be beneficial. It will certainly be beneficial when it transits in its own sub. Therefore those born in Sagittarius have to make the best use of this period.

The following one is also favourable, as between 27-7-64 and 21-8-64 it will be under the sway of Jupiter. Even certain matters which would not have been finished earlier within 27th July will be completed now. Those who have been erecting any building during the past few months may celebrate "Grahapravesam". Some may get married though betrothal alone could have taken place during the past sub period. Thus one may note that the native will enjoy material welfare in this period and the future will appear to be bright.

God never allows one to be ever happy or feel dejected. So he gives a break now and then, when Saturn by retrograde motion enters into the sub of Rahu, which will not be agreeable. In the coming months, the results that one may enjoy will be similar to what he had in certain periods in the previous sub as follows. Whatever result one had between 2-3-64 and 12-4-64 will again repeat between 21-8-64 and 18-9-64. Results between 13-3-64 and 23-3-64 will again be felt between 18-9-64 and 9-10-64. Saturn produces the same effect between 9-10-64 and 25-11-64, as it did between 8-3-64 and 13-3-64. The end of the year shows some worry similar to what you had between 23-3-64 and 12-4-64. The New Year will be a pleasant and prosperous one.

..(Will be continued)

ARE YOU RUNNING MARS PERIOD?

KNOW WHAT TO DO & WHAT TO AVOID

Mars' Major Period: Mars (Sevvai-Kuja-Angaraka) runs its period for exactly seven years. All the nine planets, Mars, Rahu, Guru (Jupiter), Saturn (Sani), Mercury (Budha), Ketu, Venus (Sukra), Sun (Ravi) and Moon (Chandra) have their sub-periods in the order given. Each sub-period has its own duration and the total period of seven years is not divided equally among them; but they are allotted in the proportion in which they are given the major period in the Vimshothari, i.e., in the total of 120 years. Mars' major period in the Udu (Nakshathra) Dasa of 120 years is 7 years, so Mars sub period (bhukti) in Mars major period is 7/120 of 7 years or 4 months and 27 days.

In Mars' Major period or dasa, Mars' sub period is the first. Likewise, the bhukthies of the other planets in Mars Dasa or major period are worked out. Always the first sub period is governed by the lord of the dasa. Then all of them, one after another, follow in the same order as mentioned above. On the day when Mars dasa commences Mars sub period commences. The following gives the sub period or bhukti ruled by each planet in Mars Dasa.

Mars sub period: 0 years 4 months and 27 days.

Rahu sub period: 1 year and 18 days.

Guru-Jupiter: 11 months and 6 days.

Saturn-Sani: 1 year 1 month and 9 days.

Budha-Mercury: 11 months 27 days.

Ketu: 0 year 4 months 27 days.

Sukra-Venus: 1 year and 2 months.

Sun-Ravi: 4 months 6 days.

Moon-Chandra: 7 months. Thus the seven years of Mars Dasa is distributed.

Quintessence of the Mars Period

By Nature: Mars symbolises the senses. It rules over the animal instincts in everybody. It is considered to be a malefic as,

in the charts of the majority of people, either it will occupy evil houses or it may receive evil aspects and hence it makes one rash, a spendthrift and a squanderer of money, commit anything on an impulse and then repent, use sharp instruments without exercising care and get injured, talk very bluntly and invite trouble, be fool-hardy, adamant, aggressive, argumentative, assertive and atrocious. But if he owns beneficial houses and also occupies favourable signs and receives harmonious aspects, it gives one courage, confidence, boldness and a go-a-head spirit. It offers strength of mind and also physical strength. He will be able to do all heroic deeds. Mars is just opposite to Saturn. It gives activity. One will not be lazy, idle and lethargic, like the Saturnian. He will have force of character and organising ability. He will be determined and will have a great desire to come out successful in the material field. He will never relish suggestions from others. He will act according to his own conscience. He will always try to lead and pioneer while he hates subordination and to carry on routine and monotonous work. He will not be rash. Nor will he be short-tempered. He will be a self-made person.

Mars should be a benefic especially in the horoscopes of the ladies. It plays a very important role in their career. Bodily they should not suffer from injuries, boils, hysteria, troubles during monthly periods, operation (caesarian) etc., during delivery time, and so on. Mentally they should not be masculine; otherwise, they will command the partner, lose temper, and will not mind quarrelling and occasionally be very violent also. The poor husband will be a victim to such a militant wife. To lead a happy and harmonious life with the wife, Mars should occupy a good position in the horoscopes of both. Then it will offset sickness and weakness and instead, offer health and wealth.

Constitution: Mars gives a strong and well-built body. He will have proper muscular development. It gives enough of immunity and resistance against infectious diseases. It has very great influence in the woman's life. It rules the periodical functions and shows either good or indifferent health according to the connections which Mars has, or the aspects which Mars receives. One may have ailment, but due to courage or foolhardiness, may leave it unattended and then get into a major trouble, if Mars is afflicted. It rules the muscular system, urino-genital organs, the forehead, the nose, the blood vessels, the testes, etc. If Mars has connection with any planet, evil by nature or with the lord of 6 or if it is aspected unfavourably by a planet, during the conjoined period of the evil planet and Mars, the disease indicated by them will flare up and cause trouble to the person.

Mental: One will be ambitious and aspiring; bold or brutal; confident and courageous; daring or destructive; energetic or exciting; ferocious or forceful; generous and gallant; headstrong or hectic; industrious or impulsive; mechanical and machine-like; oppressive and obstinate; positive and provoking; quarrelsome and quick; resourceful or reckless; strong and turbulent; violent and venturesome; and warlike and wilful.

What can one expect during Mars' period:

Mars in the Ascendant or Lagna, when well aspected, gives the native rapid recovery from any ailment which he had previously suffered from, even though it may be a chronic one. It is considered to be strong not only in its own sign but also when it is exalted and when it occupies the other two fiery signs, Leo (Simha), and Sagittarius (Dhanus). It will infuse sufficient energy into the body. He can tide over the critical periods. One will not shun any effort to come out successful in his attempts. Mars ushers energetic phase with tension in the background. One will be able to face any situation and act immediately without wasting time. Even if any challenge is thrown, he will boldly undertake to do it and prove that he can

accomplish anything without much exertion and that he can undertake high-spirited moves as his courage will reach a fine level. He will not mind the risk or danger inherent in such actions. He will not give room to lethargy; nor will he miss the bus like a Saturnian and then feel sorry. Sun, afflicting Mars in the Ascendant, causes fever during Mars Dasa, Sun bhukti. Moon afflicting Mars causes boils, eruptive fever, inflammation, bleeding, etc. Mercury produces dysentery, hysteria, nervous tension, fits, etc. Jupiter threatens liability to fracture or accident while travelling or by rolling stock. Venus shows diseases caused by indulgence of the passionate nature, venereal operation of the sex organs etc. Saturn indicates fall and bruises. Uranus shows sudden and unexpected danger, whereas Neptune indicates risk in water.

Mars in the second house receiving good aspects shows that the person will be free and generous in financial dealings with others. He will have splendid opportunity to acquire more and also spend equally. One can make money by using fire, iron, instruments, machinery, etc. He may receive inheritance or legacy. But he will be outrageously extravagant. He can never learn to be careful with money and be less extravagant. He is liable to repeat financial shipwreck. He will be frank, outspoken and blunt. His eyes may be reddish and he may have bleeding in the gums. Accidents to the eye may be caused during the conjoined period of Mars and Sun or Moon.

Mars in the third house gives the native courage and confidence. His mind will be keen and alert. It will be fond of argument and will be resourceful. If it is afflicted, one is liable to accidents on short journeys: there may be misunderstanding with the brother. Partition in the family will come up. Mars, receiving bad aspect, shows that the native is generally critical towards all and hence others will avoid his company and they will not take him into confidence. He will act as a Naradhar and will create enmity among neighbours or cousins. Injury to the ears or arms, and throat trouble or tonsils are also indicated.

(Will be continued)

due to conveyance. During the first fortnight Saturn being in direct motion in Sathayam indicates improvement in your financial position. Contract and agency business will flourish. Letters will have encouraging response now and then. Short trips will end favourably with the help of your benefactors. Later, when Saturn is retrograde, you may have to meet with uncommon expenses or invest more money in book publishing, or agency business. There may be delay to have response to your communications. Mars, lord of 5 and 12 being in Krithigai till 22nd portends satisfactory gain in speculation and investments you will not have any worry by secret inimical activities. Later, when Mars is in Rohini ruled by lord of 8, it is advisable to be cautious and avoid gambling. Venus, lord of 6 and 11 being retrograde throughout this month threatens loss through litigation and physical strain in social activities. Mercury, being in Krithigai till 11th, offers improvement in your status and emoluments. Later when Mercury transits in Rohini, you may have to work hard in your office. In business dullness may prevail. Some may have change of place. Some will invest more on landed property. Sun, lord of 9 being in Mrigasirisha and Arudra from 7th promises success in competitive examinations. There will be greater facility to continue higher studies. Long journeys will be successful. Artists and musicians will have increase in their income with greater exertion on 13th and 14th. Attempts to obtain licence, or permit will be crowned with success after 7th.

Your younger brothers will have satisfactory improvement in their financial position. Briskness in contract and agency work is assured. Encouraging letters will be received. The later half shows much physical exertion and worry due to secret inimical activities.

Mother will maintain normal health. From 3rd her financial position will improve and there will not be unnecessary expenses. In speculation and gambling she will not gain much.

Children will have alround success. Easy success in competitive examinations

is promised. There will be delay in securing financial assistance. Pleasant expenses will prevail. If they indulge in contract and agency business quick turn-over is indicated. Litigation will continue in their favour. The later half of the month shows heavy work in their career.

The partner in life or business will have success in their attempts without much delay. Improvement in business is indicated as also change of place. Quick response to their letters will cheer them up. They will become very popular through social activities. Litigations will continue in their favour.

Father will have increase in income till 11th. Later he will have to spend more on religious and pleasant functions at home. He will repay the debts. He will maintain normal health and success in attempts is promised. In service heavy work is indicated as also delay in replies to his communications. The later half shows expenses and worry through litigation. Speculation and gambling will yield satisfactorily. Dealings with Government will be profitable.

Capricorn (Makara Rasi): Relates to persons born in Uthradam 2nd, 3rd, 4th padas Sravanam, Avittam 1st and 2nd padas, or in Makara Lagna or with Sun in Makara:

Saturn, lord of 1 and 2, being in 2 in direct motion till 14th promises success in your enterprises without any delay. Free flow of cash and peaceful atmosphere at home are indicated. Later when Saturn is in retrograde motion there will be unnecessary delay in your attempt and you may have to incur uncommon expenses which will drain your purse. Guru, lord of 3 and 12 being in Bharani presages improvement in contract and agency work, realisation of entangled amount, quick response to communications, and monetary gain in short trips. You will not have any worry through secret inimical activities. Yield from investments also will be satisfactory in this month. Mars being in Krithigai star from 3rd to 22nd indicates that you may invest money to buy a new conveyance or house. Exertion in social activities is indicated. Later when it

moves in Rohini, you will have success in public activities and more pleasure through your vehicles at minimum expense. Venus, lord of 5 and 10, being retrograde throughout this month, portends heavy work-load at desk and much strain to have a very meagre profit in business. In speculation and gambling you should be very careful to avoid loss. From 11th Mercury being in Rohini indicates a favourable turn in litigation, facility to continue your higher studies without much expense and success in competitive examinations. Attempts to collect long standing arrears will be successful in the second week. During the first fortnight you will not have any difficulty to obtain licence, permit etc. Artists and musicians have to work hard in the later half to complete their old contracts.

Your younger brothers will have free flow of cash from 3rd. There will be some impediments in their attempts. Delay to have replies to their letters will irritate them. Entanglement of cash in contract, and agency business is indicated. Speculation and gambling will yield satisfactorily on all days except 20th and 21st.

Mother will maintain normal health throughout the month. As the pleasant expenses continue, she may have financial strain. Encouraging letters will cheer her up. In speculation she will have satisfactory gains.

Children may worry themselves due to litigations and delay in coming out successful in their attempts. But they will have increase in income. During the first fortnight they will have improvement in their status and emoluments. Easy success in competitive examinations is indicated. The later half of the month shows heavy work with responsibility.

The partner in business and life will be buoyant as their attempts will be crowned with success and as peaceful atmosphere at home will prevail. They will have the support of officials to improve their business. Before 10th they will have encouraging response to their communications.

The father of Makara borns will have success in his attempts from 11th instant.

His work-load will get speedy turn-over with satisfactory gain is promised, but he will again invest the same. Heavy exertion and expenses in long trips are indicated. He will realise after 22nd the amount entangled in contract and agency work. The last week promises alround success. Dealings with government will be profitable. Speculation will not yield much in the later half.

Aquarius (Kumbha Rasi): Refers to persons born in Avittam 3rd and 4th padas, Sathayam, Poorattathi 1st, 2nd and 3rd padas or in Kumbha lagna or with Sun in Kumbha.

Sani in Janma being in direct motion during the first fortnight, assures success in your enterprises without any delay. You will not have any worry through secret inimical activities and will have satisfactory yield from investments. Later when Sani is in retrograde motion, delay in your attempts will worry you unnecessarily. Guru, lord of 2 and 11 being in Bharani in 3 will improve your financial position. Social success is promised. Mars, lord of 3 and 10, being in 3 and 4 portends improvement in contract and agency business. You will have quick replies to your letters. Short trips will be profitable. In service peaceful atmosphere will be experienced with the support of officials. In business, speedy turn-over is promised. Sukra, being in retrograde motion, presages unnecessary expenses to maintain your conveyance, house etc. There will be delay in securing the assistance of your friends if you undertake long trips. You may have to strain much to come out successful in competitive examinations and spend more to continue higher studies. Mercury, being in 3rd and 4th house offers satisfactory gain in speculation, gambling, etc. During the first fortnight you can realise a part of arrears. Litigations will continue in your favour. On 17th and 18th you may have to spend more on your servant and on pet animals. Artists and Musicians will enter into fresh contracts on a profitable basis in June, 1964. By your own efforts you will have success in dealings with government.

Your younger brothers will have success

in their attempts and maintain good health in this month. Even though they will realise a part of the amount entangled in contract, and agency business yet financial strain may irritate them. Litigations will continue without any change. During the first fortnight they will have improvement in their career. The later half shows heavy work.

Mother may have unnecessary worry as litigations continue. Delay in the success of her attempts, and exhaustion through social activities are also indicated. She will have improvement in her financial position and a peaceful atmosphere at home. Speculation and gambling offer more profit than expected. Correspondence will have response now and then.

Children will have promotion and a change of place in this month. In contract and agency business satisfactory profit may be expected in the later half of June. In speculation and gambling great care is needed to avoid any loss. In the last week they will be more popular through social activities.

Partner in life and business will have satisfactory improvement in their financial position till 11th instant. Dullness in business is indicated later. From 7th their attempts will be successful. They may boldly venture in speculation and gambling and have satisfactory gain.

The father of the native will have delayed success in his attempts and exhaustion due to over-work. Even though financial assistance may be available now and then, he will invest the same in contract and agency business. During the first fortnight he will have more pleasure through vehicles, and gain through speculation and gambling. From 22nd dealings with Government will end favourably. There will not be any loss in litigations.

Pisces (Meena Rasi): Relates to persons born in Poorattathi 4th pada, Uthratathi, Revathi star or in Meena Lagna or with Sun in Meena.

From 7 litigation will take a favourable turn as Sun, lord of 6, enters in Mrigashirsha star. Even though Guru, lord of 1.

and 10, is in 2, as it is in 2, there will be unnecessary delay in your enterprises and heavy work-load at office. Business will yield good profit. You may undertake short trips frequently to expand your business. Mars being in Krithigai and Rohini from 3rd, assures improvement in your financial position and the uncommon expenses will come to an end. There will not be any pressure from your creditors. Peaceful atmosphere at home will cheer you up. Long trips undertaken by you will prove profitable. Easy success in competitive examination and greater facility to continue higher studies are indicated. Venus, lord of 3, being retrograde throughout the month, shows dullness in contract, and agency business, delay in receipt of replies to your letters, and delay in securing the assistance of friends in short journeys. Mercury being in 3 from 5th, offers more pleasure through vehicles, house, etc. You will have satisfactory gain in speculation and gambling. It is advisable to avoid gambling on 20th and 21st. During the first fortnight, Sani being in direct motion in 12 presages that there will not be any worry through inimical activities, the native is assured of satisfactory income from investments. Social success is promised. Later when Sani is retrograde, the native will have to strain much in social activities, and will have unnecessary worry through inimical activities. Artists and musicians will have improvement in their financial position. Dealings with Government will be successful without much delay.

Younger brothers will spend more on litigation. There will be unnecessary delay to have success of their attempts. Financial position will improve gradually during the month. Even though there will be support of superiors and recommendation for promotion during the first fortnight the later half indicates heavy work. In speculation and gambling, they will have more gains than expectation.

Mother will maintain normal health and will have success in her attempts. Peaceful atmosphere at home and increase in financial position will cheer her up. She will

OUR LATE PRIME MINISTER JAWAHARLAL NEHRU

APPLICATION OF KRISHNAMURTI PADDHATHI

In our January 1964 issue, we furnished the correct horoscope of Shri Jawaharlal Nehru which is reproduced below for ready reference. (Born at 11-30 P.M. on 14-11-1889 at 25°-26' N. and 81°-52' E.)

	MC 21-47 Fortuna 16-12	Neptune 11-14	Rahu 12-49
	RASI		Moon 18-12 Lagna 28-12
			Saturn 10-54
Jupiter 15-17 Kethu 12-49	Sun 0-17	Mercury 17-15 Venus 7-29 Uranus 2-0	Mars 10-5

Lagna Mercury	Neptune Mars		
	Navamsa		Sun Saturn Kethu
Rahu			Jupiter Fortuna
Moon Venus	M.C.	Uranus	

Mercury dasa Balance at the time of birth 15 years 0 months 16 days. From 12-11-1962 Mercury sub period was running in the major dasa of the Ascending node-Rahu.

As we were confident that Destiny is stronger than one's will and desire, we specially mentioned in our January issue. "We are presenting his horoscope with a fervent prayer to God to bless him with Prosperity and Peace". Generally,

astrologers and well-wishers will write "Peace and Prosperity be unto you". But we put peace last, as we, in the present emergency should not bluntly mention that the world would be unfortunate in the middle of 1964 to lose our illustrious Prime Minister of India—the Peace-maker.

In February Issue, the editor had published the following:—

"Notes to Students in the article Good-bye to Saturn."

How to Judge the Transit results of Saturn?

Two people may be born in Cancer-Kataka. One may have Rahu, say in the second house; Leo; the other may have it in the 12th house Gemini. (Note where Rahu is in Panditji's Chart. He is born in Cancer and Rahu was in 12.) For the former, Saturn while transiting in Sathabisha star will give the results indicated by the 2nd house, whereas for the latter, the results will be EVIL. The former will gain, whereas the latter may lose money, or position or even life. As 12th house indicates secret inimical activity, if Rahu were to be in the 12th house in the horoscope of a person, whenever Saturn transits in Rahu's star, scandal, ill-repute; sudden tragic end are to be predicted, especially when Rahu dasa runs and Saturn transits in 8 or 12 to one's Lagna or rasi (Actually Panditji was running Rahu dasa and Saturn is in 8). If lagna and rasi happen to be the same, and Saturn transits in Rahu's star and if it happens to be the 8th or 12th house, the person has to exercise care. (This sentence in toto refers to Panditji and people born under similar conditions, i.e., Cancer Lagna-Cancer rasi and Rahu in 12). People born under the planetary dispositions mentioned above, even if they happen to be non-believers of astrology and Sceptics, will eventually become votaries of astrology.

* This year Saturn entered Sathabhissha star on 23-3-1964 and moved on only 5°. In Sathabhissha, the first two degrees are evil. Then 2° to 3°-47' it is not bad. Again it is evil between 3°-47' to 5°-54'. Hence Saturn will prove to be definitely evil between, 23rd March and 18th September.

In the April issue, in the article Saturn's transit to Cancer-borns in page 46, the evil effects of such a transit were indicated in no unmistakable terms. It was emphatically stated. "If Rahu was in an unfavourable position at the time of your birth, when Saturn transits in Rahu's constellation in the sub of Rahu or Saturn you have to be very careful. You should avoid driving a car. You should not venture to cross a busy road, you have to observe hygiene. Chronic sufferers will have the relapse of the disease. Patients with heart disease and those who suffer from general nervous debility, should not exert much. It is better to be on leave and be cautious. In the same April issue, it was published as follows:—

"After 5-5-64 till 15th June, Saturn proceeds in direction motion..... It is in the sub of Saturn, you will feel dull. You become pessimistic. You find much opposition. Your servants may go on strike. Whatever appeals to you now, will prove to be detrimental. Avoid disputes—you will find that you are not able to stick to any single programme. You may even give up your principles. Business will be discouraging. Health will be causing worry or anxiety".

These observations were made always bearing Nehruji's chart in mind and using the most accurate method known as "Krishnamurti Paddhathi".

Readers are advised to use the Ayanamsa published in ASTROLOGY AND ATHRISHTA in 1963 and also follow KRISHNAMURTI PADDHATHI for correct results.

People using other Ayanamsas cannot explain the passing away of Nehruji on a Wednesday, ruled by Mercury, on Jyesta star day governed by Mercury, and in the Lagna Virgo owned by Mercury. If the Bhukti is not ruled by Mercury, he

would not have had his end at the hour ruled by only Mercury (the day, the star and the Lagna).

According to the Dasa-Bhukti system, Nehruji had been running Rahu dasa Mercury Bhukti from 12—11—1962. He entered into Rahu anthra on 27—1—1964 and it had to run till 14—6—1964. Actually he fell ill in January, recovered in the middle very slowly and finally had a sudden end.

According to Krishnamurti Paddhathi, Rahu was in 12°—49' in Gemini. So, it is said to be in Mercury's Sign-Gemini, in his own star Arudhra, and in the sub of Mercury (i.e., between 12°—33' to 14°—26'). Hence the combined period of Rahu and Mercury must prove to be evil.

Rahu was in the 12th sign. It was in 11th house. As his lagna was in a movable sign—chara rasi—the 11th house is considered to be Bhadhaka sthana. Hence Rahu in the 11th house is to cause Maraka.

Budha (Mercury) as lord of 3 and 12 is evil.

Hence during Rahu dasa, Mercury Bhukti, Rahu anthra on Mercury's day—Wednesday, in Jyesta star day governed by Mercury, in Virgo (Kanni) Lagna owned by Mercury, he passed away.

According to transit, Sun, lord of 2, the marakadhipathi was in Rohini, the star of the lord of lagna, Moon and in the sub of Rahu from 12 noon on 26—5—64. It is in Rahu's sub till 28—5—64 afternoon. At 6-20 A.M. on 27—5—64, Sun was in the sub of Rahu and in the sub of Saturn. Saturn is to cause pain—rheumatic or sharp pain (18+16+19). So

after 9-29 A.M., Sun entered into Mercury sub sub i.e., 12°—46' in Taurus. It was passing on in Mercury sub sub. It would take 6 hours 48 minutes to completely pass Mercury sub sub. But unfortunately in that Rahu's portion again came between 67 and 85 of 6

hours 48 mts i.e., 3 hours 47 mts after 9-29 A.M. and 4 hours 45 min after 9-29 A.M., that is between 1-16 P.M. and 2-14 P.M. Actually the unfortunate moment

tell in this period. That no other method can so precisely fix the time, is our finding.

One may ask "Panditji had lived for 75 years. Hence Saturn ought to have transited the same degree, at an interval of, roughly, 30 years. Why has not Saturn affected his life then? At least, had he any evil result then?"

Answer: Saturn was in Sathabhisha star by transit throughout the year 1935. When Sun transited the same position, in Taurus in May 1935, Kamala was sent to Europe for treatment as the disease was beyond cure. Our Premier, at that time was in prison. He could not see her. But he was released on 4—9—35, when her condition was worsened, so that he could be with Kamala. Around Christmas 1935 (Saturn was exactly in the same position, as it was at the time of the death, in the last week of May 1964.) Kamala had the period of crisis—What a mental torture he could have had then, may be imagined by the readers. He was not running Rahu dasa at that time: otherwise it would have affected him. The period was Sun dasa Mercury Bhukti Sun as lord of 2 indicates family which includes wife. Sun as lord of 8 to the 7th house and Mercury as lord of 6 to the 7th house, gave serious ailment and ended the life of wife, Kamala. In Moon dasa throughout Mercury Bhukti he was in prison (as Mercury was lord of 12 and Moon was lord of 1agna).

During Mars (a Rajayogadhipathi) dasa Mercury Bhukti, he had great honour in foreign land and very frequent tours, as indicated by lord of 3 and 12. [3rd house shows travels; 12th house, life in a foreign place.]

During Rahu dasa, Mercury Bhukti, end of life came.

Therefore in every Mercury Bhukti, he had been separated from kith and kin. Either separation or bereavement is offered by Mercury. Rahu in Mercury's sign is stronger than Mercury and he passed away.

In 1905, Nehru embarked on England for study. If was the first time when he left all his relatives and went to a foreign land. At that time Saturn was transiting

in Sathabhisha star as it did in the last week of May 1964. Actually it was in the same exact position on 16—2—1906. At that time he had been running Kethu dasa, Venus Bhukti—Kethu was in the 6th sign 5th Bhava. Malefics in the 6th sign show success in competition, sports, etc. Venus, lord of 11 indicates grand success etc. Actually at that time he won the half mile race, and received the prize. (Whenever Rahu is evil in a horoscope and it has to cause death, the node just opposite to it, will offer long life and good results.)

When there was a rumour of postal strike, the students of the Modern Astrological Research Institute wanted to find out whether the strike would come up and if so, when. The Premier was at that time running Saturn Bhukti according to the Ayanamsa used by the editor of this magazine. Saturn shows labour trouble. Therefore the strike was sure to come up. As the dasa was ruled by Rahu, the strike would commence on the day when moon transited in Sathabhisha star, ruled by Rahu, in Saturn's sign.

Further Sani in the second house means that it is in the Ashtama Bhava to the 7th house, indicating those who oppose the Premier. Hence the strike was bound to be a failure. As the dasa is ruled by Rahu and the strike was to commence on a Rahu star day, it would end on the day when Moon transited in Kethu's star. (Kethu always opposes Rahu) and especially in the 10th house ruled by Mars. "Actually, the strike was withdrawn on Asvini star day ruled by Ketu in Mar's sign which commenced on Sathabhisha star day."

Hence, the Chart furnished in this magazine is correct. Astrology is a science which could be made perfect by conducting research when alone it will be useful to all.

The late Prime Minister was indeed a jewel among men. Though we were sure of this inevitable event we were greatly moved to learn of his sudden end. That his soul may rest in peace is our earnest prayers to the all-pervading Lord. OM SHANTI.

MOON AND MARRIAGE

MOON IN THE SEVENTH HOUSE

Seventh House indicates :

- (a) Marriage, description of wife or husband, the state of married life, happiness in conjugal life and the partner in business,
- (b) the opponent, the law-suits, quarrels, litigation, description of the thief, the competitor, partnership in business etc.,
- (c) relations with the general public, society, the doctor who attends on the patient, the engineer who enters into contract with the person, the person from whom money is borrowed or the person to whom money is lent, how one will deal with others, and whether he will come out successful or not etc.,
- (d) the contracts, the agreements, the legal bondage,
- (e) one's influence in foreign countries and his reputation in foreign lands.
- (f) commodities dealt with in the public market, stock exchange, speculation etc. (Satya Sambita),
- (g) younger brother's first issue, mother's permanent possessions and her conveyance, second issue of the native, uncle's bank position, father's elder brother, friend's father, and secret enemy's demise.

In Prasna, Seventh House denotes whether the property lost will be recovered or not: The runaways and the offenders escaped from justice. Seventh House indicates cultivation, the profession of artists. Speculation and arts are indicated both by the fifth and the seventh houses.

MOON IN THE SEVENTH HOUSE

Marriage. Moon in the 7th house indicates that the person will have union with one whose affections are not steady. One who may be moody may marry the native. The partner will be jovial and jubilant if

Moon in 7 receives good aspect from Sun, will be generous, bold and ambitious if Mars forms favourable aspect with Moon in 7; will be very unsteady and highly loquacious where aspected by Mercury; Jupiter shows that he will be having hopeful disposition, excellent imagination and noble ideas; will be fond of comfort, luxury, music, scents and dress if Venus throws beneficial aspect; Saturn makes one careful, cautious, industrious, honest and economical. Uranus shows that the partner will be intelligent, independent and original; Neptune makes the partner popular and proficient in fine arts.

Evil aspect to Moon in the 7th House (Bhava) from Sun indicates unsteady service, rolling stone, always vacillating; headstrong. Evil aspect to Moon in 7

From Mars, indicates impulsive rash action, reckless partner ill-disposed, ill-reputation, ill-health:

From Mercury, wavering, eccentric, moody, quarrelsome, always worried.

From Jupiter, extravagant, false prestige, waste of money, overstepping the bounds of his capacity, a fraud:

From Venus, inconstancy, excesses in habits, ill-health; Venereal, Lavish expenses on women:

From Saturn, funky, fear complex, inferiority complex, pessimistic, neither he is happy, nor will he allow others to be happy; reckless gambling and loss:

From Uranus, perversion, hasty, rash, inconstant, of impulsive conduct, extravagant unpopular.

From Neptune, perverse habits, neurasthenic, hysterical, immoral.

Generally good aspect of the planet in the 7th house, especially Moon, shows that one will be favoured with early marriage.

Moon receiving harmonious aspect brings public favour, honour, popularity and social success.

Description of wife or husband: Moon in 7 indicates that the wife or husband may be born on a Monday; the Ascendant may be in the sign Cancer—Kataka: the Moon or Ascendant may be in the constellation of Rohini or Hastham or Sravanam. Good aspect from Venus to Moon indicates Rohini Nakshathra. Harmonious aspect from Mercury to Moon shows Hastham star. Favourable aspect from Saturn predicts Sravanam constellation of the partner.

Moon indicates that the partner will have unsteady fortune; he or she will never stay in the same residence for a few years; they prefer always changes. The partner will be sensitive and ingenious; he may have the inclination for public life. The wife may have minor troubles in the monthly periods. If Moon is afflicted, especially by Neptune, there is danger to him from water or from liquids. Even in his occupation, there is no security of service, and he will change often from one job to the other.

Moon in 7 in a lady's horoscope indicates that the husband will be old and hence the difference in age will be more than normal. But in a male's horoscope Moon shows that the difference in age will be less, as the girl would have grown up.

State of married life: All that is indicated by Moon in 7, due to various aspects it receives, will be enjoyed or experienced during the periods and sub periods of Moon and also, whenever Moon receives aspect from the other planets by progression and by transit. Sun forming evil aspect causes ill-health and anxiety.

There will be discord in the married state. There may be a death in the family. Mars forming bad aspect shows extravagant expenses, loss, dis-harmony, quarrels, violence, separation, etc. Mercury forming adverse aspect with Moon in 7 by transit or by progression, indicates deception, fraud, annoying correspondence, useless travel, waste, etc. Jupiter forming dis-harmonious aspect threatens litigation, law-suit, domestic trouble, ill-health of children, debts and disease.

Venus portends the danger of breaking off the tie between husband and wife,

waste of money, ill-repute, some disease in the generative system, etc. Saturn indicates that the unfavourable aspect to Moon in the Seventh house, may cause disease to partner, death of an old lady in the family pressure for finance, depression, disappointment and various other difficulties.

Uranus shows that the partner may meet another lady to whom affection is given after marriage; there may be sudden misunderstanding between the partner and the third person; this will cause worry and irritation. Hence, family life at home, will not be smooth. He may be gloomy. He will not be inclined to attend to normal duties, etc. Neptune threatens matrimonial worries, deception, fraud and sudden tragic end.

But good aspect to Moon offers pleasant results promising peace and prosperity during the period, when Moon receives beneficial aspect from the planets.

Conjugal bliss: Sun forming good aspect to Moon during transit or by progression indicates attraction and satisfaction, whereas bad aspect denotes repulsion. Similarly good aspect from planets to Moon in 7, promises pleasure, whereas evil aspects show pains, displeasure and dissatisfaction.

Opposition: Moon in the 7th house in the constellation of the lord of 1, 2, 3, 6, 10 and 11 assures success in the election, competition, law-suits, litigation, etc. But Moon in the 7th in the constellation of the lords of 4, 5, 7, 8, 9 and 12 threatens loss and failure.

General public: Good aspects to Moon indicates that he will have good relationship with the public. He will be liked by all. Evil aspect to Moon warns one to be careful, whenever he has to undertake any public activity.

Theft: If Moon in 7 occupies the constellation of Lord of 8 or 12 or Mars and if Moon owns the evil Houses, the person will lose by theft. The person will have Moon and the constellation Lord as his ruling planets. In the conjoined period of Moon and the Lord of the constellation, one will lose by theft. Lord

of 3 forming bad aspect with Moon in 7, threatens loss by pick-pocketing.

Contracts: Agreements and legal bindings are indicated by Moon in 7. If Moon is in the constellation of Lord of 3 or Lord of 11 or if it receives favourable aspect from Lord of 3 or 11 or Jupiter or Mercury, in the period of Moon and the aspecting planet, the agreement will be signed. There will be legal binding.

✓ Influence in foreign lands depends on the aspect which Moon in 7 receives. During the conjoined period of Moon and the planet which throws harmonious aspect, one will have name, fame, reputation, grand reception and influence. But if he remains there during the period of the planet that throws adverse aspect to the moon, he will lose his influence and be depressed. Third house indicates short journey; ninth house shows long journey; and seventh house denotes that one will break his long journey on his way. For example, one proceeding from Madras to Bombay may be said to be the result of the planet governing third house. If he has to go to America, it is indicated by Lord of 9 or any planet having connection with the ninth house. If he breaks his journey on his way at Paris, it is indicated by the planet connected with the seventh house.

Commodities: Moon in 7 in Leo or Sagittarius shows that one will deal in bamboo, teak, cane, etc. If Moon in 7 occupies Taurus, Cancer or Libra, it indicates grapes, and the produce of the creepers. Moon in 7 in Aries and Scorpio indicates produce from dry lands. Pisces indicates Sugar-cane, Syrup, Sugar, etc. Moon in 7 in the houses of Mercury shows produce from the plants without thorns, pulses and those which contain large quantity of Vitamin B. It also includes produce from wet lands. If Moon were to be in 7 in Capricorn or Aquaries, it indicates thorny trees, and their produce. Moon receiving good aspect from Jupiter, shows oils, ghee, etc., containing Vitamins 'A' & 'D'.

In general, Moon indicates Plantains; if it receives good aspect from Jupiter, it

refers to coconuts; Saturn's aspect shows palm trees. Moon governs bulbs, melons, etc. One may deal in oils, liquids, salt, things found in the sea, fish, white sesame, pearls, scents, paints, etc., orange, cucumber, fruits, ghee, curd, milk, cow, saffron, betel-leaves, maize, nickel, silver, ever silver, camphor, alum, horses, aquatic animals, cooked food, coffee, tea, etc.

Speculation: If Moon is Lord of 1, 2, 3, 6, 10, or 11 and if it is in 7, the native will have the tendency to speculate and gain. But if Moon is the Lord of 5, he will have the desire to speculate, and take the risk, but unfortunately he will be losing. Because, 7th house shows the opponent. 5th house is the house of profit (11th house) to the opponent. So, Moon as Lord of 11 in 1, indicates easy gains to the opponent. For people born in Pisces, having Moon in 7 in Virgo, chances to stand and contest in election will come. They will make all efforts. Yet, they will be defeated, when they run Moon Bhukti.

For Agriculturists: The Lagna indicates the owner, the 4th house his lands, the 7th house, the cultivation, and the 10th house, the produce and the plants. Cultivation will be easy and the returns will be satisfactory if Moon is the lord of, or in the constellation of the lords of 1, 2, 3, 6, 10 or 11. If one lets the land on lease, Moon in 7 indicates the tenant; the 10th house shows how he will pay the rents. The fourth house shows the termination of the agreement. If Moon owns evil houses and occupies the 7th house, the tenant will cause trouble.

For people born in Aries (Mesha): Moon in the 7th house can be in later half of Chithrai, Swathi or Visakam star 1, 2 or 3rd pada.

Chithra is ruled by Mars, lord of 1 and 8. Jupiter ruling Visakam star, owns Houses 9 and 12. Swathi is governed by Rahu. Depending on the occupation of Rahu, in one's horoscope, the reading is to be given.

If it is in Chithra, it means lord of 4 is in the constellation of lord of 1 and 8

and is in 7. So, the person will have many obstacles and difficulties to execute his studies. He is destined to buy a car which will always cause trouble and need repair. The house which he can erect in a few months, will take long time. There may be the difficulty to get men and material. If one lives in a rented house, the owner will be increasing the rent frequently and yet giving trouble often, without attending to the repairs and providing facilities.

One beneficial aspect of Moon in Chithra in 7 is that the mother will gain; if she is a career woman, she will have increase in income and improvement in status. If she has shares in her name, not only the price will move up, but she will also receive larger dividends.

If Moon is in Swathi, according to the position occupied by Rahu in the horoscope, one is to judge the results; e.g., if Rahu is in Leo—Simha, the person will speculate and lose money; if Rahu is in Aquarius, he will be popular and pros-

perous and he will gain in his undertakings.

If Moon is in Visakam, ruled by Jupiter, it means that lord of 4 is in the constellation of lord of 9 and 12 as Jupiter owns Sagittarius and Pisces (Dhanus and Meena). Hence, the person will have higher education, long journey and life in a foreign place. He will construct houses (4th house owned by Moon) invest on them (investment—12th house) in a place far away from his native place (9th house). He may purchase a car from a stranger (9th house). His mother will fall ill or she may be a medical graduate, receiving larger amount during the joint period of Moon and Jupiter.

Moon in 7 to Aries indicates that the partner whom the person is to marry or whom he takes for business is either related already, or living in the same place, where the person resides.

Thus to each sign, the results are to be read.

ARE YOU RUNNING MARS PERIOD?

KNOW WHAT TO DO & WHAT TO AVOID

Mars' Major Period: Mars (Sevvai-Kuja-Angaraka) runs its period for exactly seven years. All the nine planets, Mars, Rahu, Guru (Jupiter), Saturn (Sani), Mercury (Budha), Ketu, Venus (Sukra), Sun (Ravi) and Moon (Chandra) have their sub periods in the order given. Each sub period has its own duration and the total period of seven years is not divided equally among them; but they are allotted in the proportion in which they are given the major period in the Vimshothari, i.e., in the total of 120 years. Mars' major period in the Udu (Nakshatra) Dasa of 120 years is 7 years, so Mars sub period (bhukti) in Mars major period is $7/120$ of 7 years or 4 months and 27 days.

In Mars' Major period or dasa, Mars' sub period is the first. Likewise, the bhuktis of the other planets in Mars Dasa or major period are worked out. Always the first sub period is governed by the lord of the dasa. Then all of them, one after another, follow in the same order as mentioned above. On the day when Mars Dasa commences, Mars sub period commences. The following gives the sub period or bhukti ruled by each planet in Mars Dasa.

Mars sub period: 0 year, 4 months and 27 days.

Rahu sub period: 1 year and 18 days.

Guru-Jupiter: 11 months and 6 days.

Saturn-Sani: 1 year, 1 month and 9 days.

Budha-Mercury: 11 months 27 days.

Ketu: 0 year 4 months 27 days.

Sukra-Venus: 1 year and 2 months.

Sun-Ravi: 4 months 6 days.

Moon-Chandra: 7 months. Thus the seven years of Mars Dasa is distributed.

Quintessence of the Mars Period

By Nature: Mars symbolises the senses. It rules over the animal instincts in everybody. It is considered to be a malefic as,

in the charts of the majority of people, either it will occupy evil houses or it may receive evil aspects and hence it makes one rash, a spendthrift and a squanderer of money, commit anything on an impulse and then repent, use sharp instruments without exercising care and get injured, talk very bluntly and invite trouble, be fool-hardy, adamant, aggressive, argumentative, assertive and atrocious. But if he owns beneficial houses and also occupies favourable signs and receives harmonious aspects, it gives one courage, confidence, boldness and a go-a-head spirit. It offers strength of mind and also physical strength. He will be able to do all heroic deeds. Mars is just opposite to Saturn. It gives activity. One will not be lazy, idle and lethargic, like the Saturnian. He will have force of character and organising ability. He will be determined and will have a great desire to come out successful in the material field. He will never relish suggestions from others. He will act according to his own conscience. He will always try to lead and pioneer while he hates subordination and to carry on routine and monotonous work. He will not be rash. Nor will he be short-tempered. He will be a self-made person.

Mars should be a benefic especially in the horoscopes of the ladies. It plays a very important role in their career. Bodily they should not suffer from injuries, boils, hysteria, troubles during monthly periods, operations (caesarian) etc., during delivery time, and so on. Mentally they should not be masculine; otherwise, they will command the partner, lose temper, and will not mind quarrelling and occasionally be very violent also. The poor husband will be a victim to such a militant wife. To lead a happy and harmonious life with the wife, Mars should occupy a good position in the horoscopes of both. Then it will offset sickness and weakness and instead, offer health and wealth.

Constitution: Mars gives a strong and well-built body. He will have proper muscular development. It gives enough of immunity and resistance against infectious diseases. It has very great influence in the woman's life. It rules the periodical functions and shows either good or indifferent health according to the connections which Mars has, or the aspects which Mars receives. One may have ailment, but due to courage or foolhardiness, may leave it unattended and then get into a major trouble, if Mars is afflicted. It rules the muscular system, urino-genital organs, the forehead, the nose, the blood vessels, the testes, etc. If Mars has connection with any planet, evil by nature or with the lord of 6 or if it is aspected unfavourably by a planet, during the conjoined period of the evil planet and Mars, the disease indicated by them will flare up and cause trouble to the person.

Mental: One will be ambitious and aspiring; bold or brutal; confident and courageous; daring or destructive; energetic or exciting; ferocious or forceful; generous and gallant; headstrong or hectic; industrious or impulsive; mechanical and machine-like; oppressive and obstinate; positive and provoking; quarrelsome and quick; resourceful or reckless, strong and sensual; troublesome and turbulent; violent and venturesome; and warlike and wilful.

What can one expect during Mars' period:

Mars in the Ascendant or Lagna, when well aspected, gives the native rapid recovery from any ailment which he had previously suffered from, even though it may be a chronic one. It is considered to be strong not only in its own sign but also when it is exalted and when it occupies the other two fiery signs, Leo (Simha), and Sagittarius (Dhanu). It will infuse sufficient energy into the body. He can tide over the critical periods. One will not shun any effort to come out successful in his attempts. Mars ushers energetic phase with tension in the background. One will be able to face any situation and act immediately without wasting time. Even if any challenge is thrown, he will boldly

accomplish anything without much exertion and that he can undertake high-spirited moves as his courage will reach a fine level. He will not mind the risk or danger inherent in such actions. He will not give room to lethargy; nor will he miss the bus like a Saturnian and then feel sorry. Sun, afflicting Mars in the Ascendant, causes fever during Mars Dasa, Sun Bhukti. Moon afflicting Mars causes boils, eruptive fever, inflammation, bleeding, etc. Mercury produces dysentery, hysteria, nervous tension, fits, etc. Jupiter threatens liability to fracture or accident while travelling or by rolling stock. Venus shows diseases caused by indulgence of the passionial nature, venereal operation of the sex organs etc. Saturn indicates fall and bruises. Uranus shows sudden and unexpected danger, whereas Neptune indicates risk in water.

Mars in the second house receiving good aspects shows that the person will be free and generous in financial dealings with others. He will have splendid opportunity to acquire more and also spend equally. One can make money by using fire, iron, instruments, machinery, etc. He may receive inheritance or legacy. But he will be outrageously extravagant. He can never learn to be careful with money and be less extravagant. He is liable to repeat financial shipwreck. He will be frank, outspoken and blunt. His eyes may be reddish and he may have bleeding in the gums. Accidents to the eye may be caused during the conjoined period of Mars and Sun or Moon.

Mars in the third house gives the native courage and confidence. His mind will be keen and alert. It will be fond of argument and will be resourceful. If it is afflicted, one is liable to accidents on short journeys: there may be misunderstanding with the brother. Partition in the family will come up. Mars, receiving bad aspect, shows that the native is generally critical towards all and hence others will avoid his company and they will not take him into confidence. He will act as a Naradhar and will create enmity among neighbours or cousins. Injury to the ears or arms, and throat trouble or tonsils are also indicated.

Mars in the fourth house gives the native a very strong constitution which will not be impaired even in old age. One can save much property during the sub periods of the planets which form good aspects, and dispose of, or lose by fire during the periods of the planets which form adverse aspects with Mars in the fourth house. The native may suffer from injuries caused by fire accident at home or from fever, etc. Westerners are of opinion that those who have Mars in the fourth house should leave their home as early as possible to avoid troubles in their native place. Mars in the fourth house threatens vomiting of blood, due to the disease in the lungs. If it is afflicted by Saturn and lord of 6, the native is liable to suffer from chronic T.B.

Mars in the fifth house gives one the desire to be an athlete. He will be good in sports. He will have a muscular body. He will be an excellent disciplinarian. If the aspect to Mars is bad, his physical condition will be dangerous due to over-indulgence in things of amorous nature. In the horoscopes of ladies it shows difficulty in parturition. It also indicates that the first child will be rash and there is always the danger to his life. If Mars is afflicted in the fifth house one should never gamble. He will invariably lose and he may turn bankrupt during the period of Mars and the sub period of the planet which afflicts Mars. One's heart may get weakened and he may suffer from cardiac thrombosis, etc.

Mars in the sixth house receiving good aspect shows that the native will be a good servant and that he will enjoy promotion often and will be given much authority and power. This good aspect also shows that Mars will burn out and thus eliminate the poisons from the body and offer him good health. If afflicted, there will always be quarrel with the master, the health also will fail and life will be a hell. Risky jobs, accidents during one's office hours while on duty, danger of burns, etc., are due to Mars in 6. One may suffer from duodenal ulcer and colic pains.

Mars in the seventh house gives a good partner who will work for the welfare of

the family. He may have a strong personality. Good aspect to Mars makes one to do everything in a gentle way.

If Mars is in the seventh house of a male and is also afflicted, his wife will be masculine, and will take the reins of running the family in her hands. It threatens sudden demise to the partner due to any accident only when it is strongly afflicted by evil planets and it is devoid of beneficial aspects from Jupiter and Venus. If Mars were to be in any watery sign and if it is afflicted, the partner will be addicted to drinks and he will be quarrelsome and violent. Better he is removed to a "Dry area". Another risk is also there; if he does not drink, he will be a sex addict. Such an action brings on inflammatory diseases of the genitals. Jupiter afflicting Mars indicates appendicitis and hernia.

Mars in the eighth house, receiving good aspect, brings money through partner either in business or through wife or through legacy. He will come out victorious in law suits. If Mars is afflicted, the financial position will be worse after marriage due to the extravagant expenses of the partner. The partner in business may squander. He will incur much loss which the other partner may have to share. Now the question will arise, "Will my wife be extravagant and I may have to lose money or will my partner in business rob away?" The only method to find it out is as follows. Note down the ruling planets of your wife and also the ruling planets of the partner in business. If either of them is ruled by Mars, then the person to whom Mars is the ruling planet will be responsible for the loss to you.

Suppose one's wife is born in the sign ruled by Mars (Mesha or Vrischika), or in the star governed by Mars or on Tuesday-ruled by Mars, she will incur loss which will be transferred to your account.

But if your wife is neither born on a Tuesday, nor if her Lagna is Aries—Mesha or Scorpio—Vrischika and if the Moon sign at the time of birth was not ruled by

Mars, then during Mars Dasa she cannot be the cause for the loss.

Look at the chart of the partner. If he is born on a Tuesday or in the stars Mrigasirisha, Chithrai or Dhanishta governed by Mars or in the sign Aries or Scorpio as Lagna or as Moon's sign, then he is the person who will incur much unnecessary and uncommon expenses and be very extravagant and he will be responsible for the loss.

ONE OF THE FINDINGS OF THE EDITOR is that during a particular dasa and bhukti if there is either gain or loss, new friendship with one or enmity with a person or the new transactions done with a person, then the planets which rule the dasa and bhukti running at that time will be the ruling planets of the person through whom you gained or incurred loss or with whom you made friendship or you had troubles, etc. For example, during Mars Dasa Venus bhukti, suppose you meet a person and make new friendship. He or she would have been born on a Friday ruled by Venus or Tuesday governed by Mars, in Bharani Nakshatra ruled by Venus in the sign Aries owned by Mars or in Mrigasirisha (star governed by Mars), Anuradha or Rohini (owned by Venus), or Chithrai 2nd half in Thulam. Or she may have Mars and Venus conjoined in lagna. Unless she has Mars and Venus as the ruling planets, you cannot make new friendship with her during Mars Dasa—Venus Bhukti. Suppose one is born on a Wednesday but in Bharani star, then you may have acquaintance during Mercury sub period in Mars dasa, whereas intimacy will be from Venus sub period. During Mercury sub period you may come in contact with one and be negotiating for a business and during the following Venus sub period it will materialise and you may take him as a partner. This is also included in Krishnamurti Paddhati.

Let me give another example. A person had been asked to submit his explanation, now and then, by a hard taskmaster who hated this person. The servant got much vexed and consulted the astrologer. He

was consoled by saying that he was running Saturn sub period in Mars Dasa and that the officer who teased him ought to have been born in Dhanishta star ruled by Mars in Saturn sign or in Anuradha star ruled by Saturn in Mars sign and that the trouble will continue throughout his Saturn sub period. He added that, when the person runs Mercury sub period, the officer will be transferred and another officer born in Jyestha star governed by Mercury in Mars' sign or Mrigasirisham later half or Chithrai first half will take charge. As Mercury promises peace and prosperity, the new officer will be gentle and good to him. Honestly, when we tried to find out the truth for academical interest, the previous officer who gave trouble to him was born on a Saturday and in Anuradha star whereas the successor was born in the first half of Chithrai star. The truth is that a planet indicates good or evil according to one's horoscope. The planet will not come down to the earth to do him harm. But the planet influences the person born under its power to act as its agent and give the results indicated by the planet.

Mars in the ninth house makes one liberal-minded and blesses him with broad views. The person will be interested in the social and spiritual upliftment of mankind. He will be fond of travelling and gaining more and more practical knowledge. This person will prove to be a good missionary in whatever line of propaganda he takes up. Those who have Mars in 9 afflicted, should not undertake long travels. There is always danger while travelling. If he feels that he is not liked by his people and if he prefers to go away and try his fortune outside, he can be sure that his life at home is thousand times better than what it will be outside. Mars in the 9th house causes death in a foreign place or at least accidents. Thigh and lungs may be affected.

Mars in the 10th house, receiving good aspect, indicates that he will be successful in life. He will have an inexhaustible fund of energy. He will not mind the obstacles, hindrances and impediments and

will wriggle out of them. He will be successful and reach the top rung of the ladder provided for him according to his horoscope. All cannot become rulers. Yet he will be the master over many subordinates. With or without qualification, he will gain authority and power due to Mars in 10:

Mars in the 11th house gives youthful appearance throughout life. The native will feel younger and younger as he grows old. He will be more and more enthusiastic in pleasurable pursuits as age advances. He will be a leader in the social set up, and will be able to realise his hopes. Good aspects to Mars make one popular. He will gain in all transactions, as, according to Hindu system, it aspects the second house also from the house of profit, the 11th.

Mars in the 12th house promises that one may serve in prisons, jail department, isolation hospitals, in far-off places other than his birth place, charitable institutions, asylums, etc. Or he may be employed in detective work. He may invest on wastelands and later during the sub period of the beneficial planet gain much. If Mars is afflicted, one will be liable for loss, waste, sorrow, trouble and even imprisonment. He will incur the enmity of all, become unpopular and proceed on leave on medical grounds due to the pressure brought by superiors. If Mars is afflicted by Venus and Saturn, his vitality will be sapped through sex or self-abuse. Mars afflicted by Jupiter will make him a social outcaste during the sub period of Jupiter in Mars Dasa.

Therefore depending on the house which Mars rules, occupies etc., one is to expect the results during its dasa. The sub-period when one can enjoy a particular result is indicated by the sub-lord which decides the nature of the result according to the aspect which it forms with Mars and the lord of the constellation in which the sub-lord was.

If at the time of birth, Mars was in the constellation of a planet, say, Jupiter, by occupying Punarvasu or Visakam or Poorvaphalga pada, then one can be sure that, during Mars Dasa, Jupiter Bhukti, all the

matters indicated by Mars, will come to pass.

If a planet forms good aspect with Mars, during its sub period in Mars dasa, you can be bold and go-a-head with your programme; even if you risk, you will have the providential help to come out successful. But if a planet forms evil aspect, then whatever be the favourable circumstances, you cannot fulfil your desire. An officer may be very well inclined towards you. He can give an outstanding certificate, and a very good confidential report. He may strongly recommend, yet success cannot be had. Therefore it is necessary to note the relative position between Mars, the Dasanath and also the Bhukti lord.

During Mars Dasa cultivate self-confidence. Be ready to change tactics and take up any enterprise. Boldly undertake independent action. You can launch on any new venture. Do not over-indulge. Do not be impatient. Avoid rash actions. Words may cause heat. Be constructive. You will achieve your aim.

Whom to contact for success? Generally approach males, as Mars is a masculine planet or those ladies born with Mars as their ruling planet. If you have opponents, competitors, etc, Mars period is the best to deal with them. Surgeons, mechanics, cooks, hardware dealers, engineers and young people will be helpful to you. If you desire to have a small job, approach the officer through his cook, who will also be having Mars as his ruling planet.

How to approach? Be ardent and pushful. Be assertive. You should have an energetic and determined attitude. Boldly state what you want. Emphasise it. Define it properly. Boldness will pay you. But do not be disheartened if, at the first instance, you do not have proper response. Always pursue; do not get hot and do not bother about the delay. You do not want other's influence. You can yourself personally undertake. Never hesitate to demand what you want. If you are the secretary of any association and if you have to make a representation to redress the grievance, forget for a moment that you are placing the facts before the officer;

consider the officer as your equal. Speak out clearly. You are sure to succeed. Martians can have springs even in rocks. It is the determination and inexhaustible energy which will crown them with success.

— What to avoid? — Do not be impulsive and rash. Even when there is a fair cause, do not take offence. Your passion will be easily foused now and then; but control it. You will be able to control others. You may not know how to control yourself. Cultivate it. If you do not agree with others and if you do not like, do not take any destructive course. There is no meaning in increasing the number of enemies. Never be violent. Do not stir up new opposition. Avoid dangerous places lest the planet afflicting Mars in your chart should bring misfortune to you. Be careful when you use sharp instruments and when you are near fire. You may have to join the fire brigade, if Mars governs your profession. Be cautious. Mars will help you.

Finance and Fortune: If one takes up profession, he will have competence in mechanical and civil engineering (Mars denotes metals and also land); surgery when favourably aspected by Sun or conjoined with Sun, riding and training horses if the planet aspecting Mars is in the 5th house or Mars is in the fifth house, or if Mars is in the star ruled by lord of 5. Circus management, shooting, hunting, forest department are indicated by Mars when it receives aspect from Venus, especially from the 8th house. One may be employed in cardite factory, fireworks, match factory, heavy acid manufacturing industry, defence production, fertilizers, in reclamation of waste land, in agricultural department, police, military, defence department, etc. One may do business and be a brick manufacturer, be the Director of certain firms, industry, factory, supplies to the departments mentioned above, be a gambler, sharebroker (Mercury to aspect), be an agriculturist, farm owner, etc. Or one may deal in tobacco, coffee, ragi, iron and steel, all nuts, mustard, ginger, etc. and all produce in red colour. Rubies, red stones, red paints etc. are also indicated by Mars.

Sun, forming good aspect with Mars, shows that one may have the appointment in the Government mostly in the police, military, factory, etc. In that case, he has to expect a promotion during the conjoined period of Mars and Sun.

Moon, forming good aspect with Mars, indicates that the native may serve in the bar, hotel or one who deals in parboiled rice, cooked food, or in boilers, steam engines, etc. He will be promoted during Moon sub period in Mars Dasa, or after serving in Sun sub period in any other department, during Moon Bhukti he may be transferred here, because one can be transferred to another department only when he enters or runs the period and sub period of the planets which indicate the new profession. If one was working in Animal Husbandry from Mars Dasa, Jupiter Bhukti, Venus Anthra, then he may be transferred during Mars Dasa, Venus Bhukti, Saturn Anthra to the slaughter house. In both the places he may work as the Sanitary Inspector. But the combination of Mars-Jupiter-Venus indicates Animal Husbandry, whereas Mars, Venus and Saturn show the end of life of the animals. Thus one is to analyse and then judge the results.

Mars receiving good aspect from Mercury indicates that, during the conjoined periods of Mars and Mercury, one may be appointed in the press or in the military engineering or mechanical engineering or be a salesman in any factory, or a liaison officer or a representative or a contractor supplying goods to the departments belonging to Mars. The tailor supplying dress to the police, military, etc. will have Sun, Mercury, Mars and Venus as the signifiers of his profession. But one who supplies shoes will have Mars, Venus and Saturn as the planets who are concerned with houses 2, 6 and 10 and any of them may rule the 12th house also; 12th house shows that which is used for the foot. If those planets have connection with the third house, he may supply leather bags, carried by hand or, postal bags: if they are connected with the seventh house also, they may supply belts, which are used around the waist. (7th

house shows waist.) Those who supply caps will have the significators including Mars. Any of them may own the lagna (the first house) which indicates head.

Mars, forming good aspect with Jupiter, offers during their joint periods the post like the agent of a bank, or an administrator, principal of a college, officer in the Religious Endowment Board, finance or legal departments, etc. Promotion can be expected during the conjoined periods of Mars and Jupiter.

Mars, forming good aspect with Venus or vice versa, shows that, during the dasa of Mars and the sub period of Venus one may be employed, promoted or transferred to agriculture department, in the industry manufacturing the perfumery powder, etc., to ladies, automobile department, transport, railway, airways depending on the sign which Venus occupies. Leather factory, breeding of animals, forest departments are also indicated by Mars and Venus.

Mars, receiving aspect from Saturn, indicates that one may be employed in the mines and fuels. Another planet aspecting these two indicates the produce of the mine whether it is coal, or copper, or magnesite or gold etc. Watery sign indicates kerosene and oils. Moon forming aspect with them indicates the same. Sun forming aspect with them indicates copper or gold. Jupiter indicates gold. Venus indicates chemicals.

Those who have adverse aspects will have difficulties while working in the departments mentioned above.

Journeys: If the planet that forms good aspect with Mars owns either the 3rd or the 9th or the 12th house or throws aspect from those houses, it is advantageous to proceed on a journey. Please note whether there is any evil aspect from any planet to Mars at the time of birth. If there were to be any, avoid the sub period of the planet from any planet forming bad aspect to Mars in the natal chart. Just as the nine planets have their sub periods during each dasa, so also all the nine planets have their sub periods in the Bhukti of every planet. Hence when you

go on a journey, it will be pleasant and successful as long as the sub-sub-period of the evil planet does not operate. But during that period it will bring some danger. Have we not heard that one had covered all the distances and only when he is about to land there was the accident. Till the moment of the accident the good aspect of the beneficial planet operated. The accident took place only when the evil planet started to function. If the journey is commenced and finished during the sub-period of the planet promising beneficial results, one will have favourable results, the reception will be good, and he could fulfil his desire. But if the evil planet intervenes, there will be either delay, suspense or difficulty. During journey never take a risk. Avoid rash driving. Exercise extra care. Success is yours.

Who will be your real friend? If according to your horoscope Mars is a benefic and it promises pleasure, profit and prosperity, then your good friends would have been born on either Tuesdays or in Mrigasirisha or Chithrai or Dhanishta stars or in the signs Mesha or Vrischika. But if Mars is evil to you, those who are born in these stars will cause you trouble.

For everybody the lord of the 11th house and the people born with the ruling planets which occupy the 11th house or the Nakshathra of planets occupying or owning the eleventh house, will be the benefactors.

During Mars period, do not yield to outbursts of temper. Do not dictate to others. Put everything boldly but gently. There will be occasions to get irritated. You may be frank and this may not be relished by others. So do not allow any one to pick up quarrel, even though you are sure of success. It is because of Martians alone there is the proverb in Tamil, "பொறுத்தார் பூமி ஆள்வார்."

You are capable of handling everything well; yet patience is necessary. For you everything must be done as soon as you desire to have it. Yours is action first, speech next, and thought last. Though on

some occasions it is advantageous, yet if you work with a little care and caution, you will become the leader..

Partners in business also will be helpful to you if they are ruled by Mars and if Mars is a beneficial planet to you. House 7 indicates partner in business. Planets occupying the sign, planets owning the 7th house and the planets in the constellation of the occupant and the owner indicate the birth of the partner and also his characteristics, etc. If Mars is in any manner connected with the 7th house and he is the significator of partner in the business, if it occupies a beneficial sign, you will gain through him. The beneficial houses to bring profit and success are 1, 2, 3, 6, 10 and 11. If Mars occupies 4, 5, 7, 8, 9 or 12th house counted from your lagna, your partner will gain much by your efforts. Generally younger people will join you. They may own lands, buildings or factories. Or they may serve in any of the departments governed by Mars. It is also likely that according to the subperiod, the partner may change. A friend started a business during Mars Dasa, Jupiter Bhukti (sub period). He was assisted by a banker and the banker was his financial partner. His star was Visakam fourth pada, i.e., Jupiter's star in Mars' sign Scorpio. When Saturn subperiod in Mars Dasa was running, this partner began to give trouble and he got out of it. Later, during Mercury-Budha sub period, another gentleman came for rescue and financed him. This person owns a press. His lagna was Kanni and Mars in his chart was in the 10th house. So Mars aspects the lagna which was in Chithrai star governed by Mars in Mercury's sign. Thus it can be seen that the partner joining a person will be having the ruling planets which rule the period of the person then.

Marriage and Married Life: Mars is an extremist. Either the couple will have inseparable temperament and they live very happily or Mars causes violence and both get separated. How the life would be, depends on the lord of the constellation in which Mars was at the time of birth. Mars may occupy any house. But it is the lord of the constellation which clearly and

correctly indicates happy and harmonious wedded life or such a friendly life like cat and rat. That is why the South Indians are giving much importance to Mars and its evil results. But after doing much research, it was found that divorce cases have come to the court and people had divorce even though there is no Mars dhosha in their charts. Nor did one divorce the other during Mars Dasa. The finding was that the planet which occupies the constellation of lords of 6, 8 or 12, connected with the 7th house and afflicted by evil planets, Saturn, Mars, etc., causes disharmony and leads to divorce. This will be dealt with separately with plenty of illustrations.

If one is to run Mars dasa, he can note the following truths:—

If marriage comes up during Mars Dasa or Mars Bhukti, the partner would have been born (a) either on a Tuesday, or (b) in Mars star, Mrigasirisham, Chithrai or Dhanishta, or (c) in the signs governed by Mars, i.e., Mesha or Vrishchika. If Mars Dasa Rahu Bhukti operates at the time of marriage, then the partner will be ruled by Mars and Rahu may be conjoined with Moon or it may occupy the Ascendant. Mars Dasa, Jupiter sub period indicates that the partner may be born in Visakam 4th pada or he or she may have Mars and Jupiter as ruling planets. Mars Dasa, Sani Bhukti indicates that the birth may be in Anuradha or Dhanishta star having Mars and Saturn as the ruling planets. Mars Dasa, Mercury Bhukti indicates that the partner is born in Jyeshtha or the latter half of Mrigasirisham or the first half of Chithrai. Mars Dasa, Kethu Bhukti shows that the partner may be born in Aswini star ruled by Kethu in Mesha ruled by Mars. Or Mars and Kethu may be in the Ascendant or conjoined with Moon. Anyhow, both should be the ruling planets of the partner.

Mars Dasa, Venus Bhukti indicates that the partner may be born in Bharani or Mrigasirisha first half or Chithrai second half. Mars Dasa, Sun Bhukti shows the birth of the partner in Karthikai nakshathra first quarter in Mesha Rasi.

Mars Dasa, Moofi Bhukti indicates that the native may be born with Moon and Mars as the ruling planets.

The editor will be grateful to the readers if they could send the horoscopes of the people who got married in Mars Dasa along with the partners' horoscopes addressed to the President, Modern Astronomical and Astrological Research Institute, 13, Brahmin Street, Saidapet, Madras; or to the editor, Astrology and Athrishta, 12/1, Karol Bagh, WEA, New Delhi, 5 (which is the branch office in Delhi).

LUCKY COLOUR indicated by Mars is pure red, deep red, scarlet, vermilion, crimson, cherry and coral.

Lucky metal: Iron, steel, copper.

Lucky Gem: Ruby, bloodstone, jasper, coral.

Lucky day: Tuesday. Also the days when Moon transits in the stars Mrigasirisha, Chithrai and Dhanishta.

Lucky time: Whenever Mesha or Vrishchika or Mrigasirisha, Chithra or Dhanishta rises in the East. That is, when the rising sign or the lunar mansion is ruled by Mars. The sign is called Solar mansion; the nakshathra is called Lunar mansion.

Produce which will bring Luck: This has been discussed in the chapter, Finance and Fortune.

Whom to pray: Mars Lord Shanmugam, Kumaraswamy, Subramaniam, Murugan, etc.

Westerners consider this as God of War and the Commander-in-Chief of the celestial bodies. If Mars is not connected with

any other planet but has connection with the fifth house, one can pray to Lord Muruga.

Mars, conjoined with Moon or in the constellation of Moon, shows that one can pray to Goddess Gowri, Lalitha, Kali (Parasakthi), etc. Mars, connected with Mercury, shows Narasimha.

Mars, Mercury and Venus indicate Lakshmi Narasimha.

Mars, Mercury and Saturn refer to Anjaneya.

Mars and Jupiter denote Rama, Narayana, Vishnu.

Mars and Venus govern Maha Lakshmi.

Mars and Saturn denote Venkatachala-pathy, Venkatasubramaniam.

Mars, Saturn, Moon and Venus indicate Lord Krishna.

Mars and Rahu denote Ayyappan, Nagalingam, Puja to Cobra.

Mars, Saturn and Rahu denote Dharma astha.

Mars and Kethu denote Lord Ganesh.

Mars, Venus, Saturn and Kethu indicate Uchista Maha Ganapathi.

Mars and Sun indicate only Suryanarayana, Vishnu. Thus, according to one's horoscope, one is to find out which prayer will bring him fortune. He has to approach a Guru, be initiated and pray. Homa done to them will be more fruitful. During Moon Dasa, Tharpana is good. During Mercury, Gyana Yoga, repetition of Mantra and prayers will be propitious. During Jupiter one may read Ramayana and such holy Puranas or hear them from the learned scholars. Thus one is to decide which will do good to him and act.

Then you are sure to enjoy your life satisfactorily.

MERCURY AND MONEY

MERCURY IN THE SECOND HOUSE

Second House indicates :—

- (a) The self-acquisition of a person; it includes the income by various sources; the financial position; movable property.
- (b) The family; it includes all relations—father, mother, children, brothers, sisters, etc., and it does not indicate any particular relationship; state of family life.
- (c) The right eye-vision, speech, imagination.
- (d) Profit or loss—Prosperity or adversity. Trade, according to the nature of the planets therein. Rich or poor.
- (e) Money either borrowed or lent.
- (f) Face, cheeks, chin, eye, mouth, teeth.
- (g) Money employed in speculation.
- (h) Law suits, money left with a Guardian, Trustee, etc.
- (i) Wife or husband. (g, h and i are common both to the second and the 7th Houses, including teeth, mentioned in (f))

The Second House also indicates :—

- (a) Loss to the next younger brother or sister; or their separation or purchases made by them or investment by the youngsters. Troubles through secret inimical activity to the brother or sister.
- (b) Gains to mother; her friends—her elder brother.
- (c) Appointment, occupation or business of children. Their name and fame.
- (d) Danger to wife as it is the 8th House to the Seventh. Second marriage to the person.
- (e) Father's illness or service.
- (f) Elder brother's conveyance, permanent possession or Friend's mother.

- (g) Secret enemy's brother or his short journey.

Self-acquisition: Mercury by nature is a dualistic planet. Being the winged messenger of God, it cannot, generally, act independently. Being an intelligent planet, the person will be supremely intelligent, if Mercury was in direct motion, or perverted if it was retrograde in the second House, at the time of birth. He will be clever, tactful and diplomatic. He is best fitted to be a Personal Assistant, Private Secretary, Adviser and Consultant. If Mercury receives good aspect from lord of 2, he is a Speaker, Orator, Salesman, Propagandist.

If lord of 3 forms favourable aspect, one will earn by writing, correspondence, communication; Postal, Radio, Travelling Agent, Contracts, Commission Agent, Broker, Advertising, Distribution, Stationery, Paper, Books, Note-books, Journals, Art, Music, etc.

If lord of 4 has any connection with Mercury in 2, he will be a Building or Land Broker, Car Broker, Furniture Hirer or Tourist Agent or Guide.

If lord of 5 is connected with Mercury, he earns through Music, as the junior to a Senior in double Nagaswaram or as one of the two in Vocal music or as the Assistant to the Principal Musician. (Saturn in Airy sign as lord of 5 forming good aspect with Mercury in 2 indicates the person who, from the beginning to the end of the Concert, uses Thamboora or one who steadily and uniformly blows the wind (ஒத்து ஊதுபவர்). One may be a Share broker dealing in Stocks and Shares.

If lord of 6 forms good aspect, he will be a broker who arranges overdraft facilities in a Bank or arranges to lend the money of A to the needy person B and have his commission.

If lord of 7 is connected with Mercury in 2, one will be a petition writer; a clerk;

oc. one who has business with a partner. He may gain through wife or husband.

If the 8th House lord has connection with Mercury, it shows that he may be a Life Insurance Agent or a Canvasser or he may gain by legacy, inheritance, will; etc.

Lord of 9 having connection with Mercury indicates that one may work as a Counsellor, Ambassador or serve in Embassy, serve in foreign places, or in International Trade, deal with, strangers and foreigners, act as an Agent, to arrange for Foreign collaboration, Preacher, Purohit, Orator, Philosopher, Teacher, Bhagavathar, etc.

Lord of 10 connected with Mercury in 2 shows unsteady fortune.

Lord of 11 shows that one will have gains without pains; fortune favours them; there will be no loss, nor any waste.

Lord of 12 connected with Mercury indicates investment in Paper, Press, Publication, Engineering Contractor, etc. Profit or loss depends on other connections. One may be an Optician if Sun is also in 2. One may be a Dentist, if lord of 7 also aspects.

Mercury shows that his Bank position will be frequently changing. Thus, during the period of Mercury, now one can make money is indicated by Mercury in the Second House.

Family: Mercury, as lord of 6 in the Second house, shows that he may not be friendly with such relatives who are born either on a Wednesday or in Gemini or Virgo as Ascendant (Lagna) or Rasi or in the stars (Nakshathras), Ashlesha, Jyeshtha or Revathi. Mercury as lord of 8 in 2 indicates that he will ever have family troubles. If it is also adversely aspected by Saturn, he will find that his home-front is horrible; if at all, he fixes a day to celebrate any function, death of a person, just prior to that day will cause lot of trouble; nothing can be done according to programme. Also, the family will be unfortunate due to the demise of an important person. Mercury, as Lord of 12 in 2, shows that he may have to shoulder the responsibilities of the family. Many pleasant or unpleasant events will

happen during Mercury period and he may have to meet all expenses. His bank position will deteriorate. He may run into debts. Mercury as the Lord of 1 in 2 shows that he will have a large family. As lord of 3 in 2 it indicates partition among brothers or gain of money through younger brother.

Vision: Mercury connected with lord of 6 indicates eye-sore. If Sun or Venus owns evil Houses 6 or 8 or 12 and is conjoined with Mercury, one may lose vision and will need the use of spectacles. If lord of 12 is Mars and Mercury in 2 is connected with it, injury to the eye or loss of vision due to cataract is threatened. Occasionally, a few may complain that, if the Teacher writes 1 (one) on the Board, it appears as 11 (Eleven), one Zero will appear as two and so on. Even the Teacher may appear to be two (Budha means double, as it rules dual sign Gemini). Good aspect to Mercury promises proper sight.

Speech: Mercury is a talkative, sharp and witty planet. It produces humorous people. Bhagavathars having Mercury in 2 will be able to remember and reproduce innumerable quotations from various authors. They will describe in meticulous detail. They will speak according to the circumstances. They are capable of speaking with double meaning. Very clever messengers will have Mercury in 2. They can adapt themselves; find out the auspicious time, when they can represent their Mission and come out successful. Mercury in airy signs makes one a great conversationalist. They cannot keep quiet. They are best suited to entertain others, being versatile with a fund of knowledge and humour. Moon forming good aspect with Mercury gives fertile imagination and while conversing, they will use examples, quote short stories, etc. We are sure that the oldest Statesman, now alive, has Mercury, Moon and the second house favourably connected.

Business: Good aspect to Mercury shows larger profit due to speedy turnover. It gives correct intuition and prompt action. Bad aspect to Mercury threatens fraud, litigation, loss and difficulty. False

reports and thereby worry through those who inspect the accounts. (Sales tax, Income tax, Licence issuing officers) are also indicated.

Money: If Mercury in 2 is in the constellation of lord of 2 or 6 or in any manner connected with lord of 2 or 6, one will borrow money. If Mercury in 2 is in the constellation of lord of 8 or 12, or in any manner connected with the planets occupying 8 or 12 or owning 8 or 12, repayment of loan or lending loan to another is shown.

Physical: If Mercury is conjoined with a malefic, there may be moles in the cheek or chin, or near the eye or on the lips. Malefics and lord of 6 conjoined with Mercury indicates that the Retina cannot accommodate quickly. It leads to the need of spectacles. Mercury afflicted by Saturn and Moon causes mottled enamel due to fluorosis intoxication. Saturn forming good aspect with Mercury and evil with Venus indicates profuse hair growth in the face and the person will look ugly and awful. Mars afflicting Mercury causes injury and produces scar in the face. Strong Mars gives disorderly teeth and a few will project outside. Venus forming good aspect with or conjoined with Mercury not only gives beauty but also offers impressive eyes with pleasant smile and attractive nose.

Speculation: Mercury conjoined with lords of 1, 2, 3, 6, 10, 11 Houses or in the constellation of the occupants of these Houses or in the constellation of the lords of these Houses, show substantial gains in speculation. If it is connected with the lords of other houses, loss is threatened.

Litigation: Generally, minors who lose their elders or who are selected as the Peetadhipathi for Mutis, etc., have a Guardian, or the property is under the Government receiver or a Trustee. If Rahu or Kethu were to be in the Second House at the time of birth, in the sign owned by Mercury, either Gemini or Virgo, one will have the same results, as the nodes offer the results of the Lord of the House. The person may be running Mercury Dasa and in the latter part of it, he may lose the father or the elder or the

senior. Before he attains majority, Kethu Dasa will be running; as Kethu is in 2, in Mercury's sign, the inherited property will be under the supervision of a Guardian. Mercury indicates the same results.

Marriage: Second House, indicating family, includes wife. If Mercury is lord of 6 and is in the second house, the partner will have loss and difficulty. In a few cases, the native will lose the life, so that the partner becomes a widow or a widower. If Mercury is lord of 7 and is in 2, it indicates loss of money to the partner and after having lived his time it threatens end of life to the partner. Sages have declared that lord of 7 in 2 gives money through partner. If partner gives money, does it not mean loss to her. In business, the partner will give away the share of profits to the native. If Mercury is lord of 11 and is in 2, one will come in contact with a boy or a girl, develop friendship by writing letters, phone, etc., also by making short journeys or travelling together in two-wheeled vehicles (like scooter) and finally marry her when their friendship has become intimate. A few may marry friend's daughter and both will have good understanding and inseparable temperament.

This is the general principle.

Notes to Students: To each Lagna (Ascendant) find out of which house Mercury is the Lord. (Mercury owns two Houses, Gemini and Virgo). Also note in which Star, in the second house Mercury was, at the time of birth. Then the results are to be read as lord of the houses A & B in the constellation of the Planet owning the houses C & D, i.e.,

- (a) Lord of the House A, in the constellation of the Lord of the House C.
- (b) Lord of the House A, in the constellation of the Lord of the House D.
- (c) Lord of the House B, in the constellation of the Lord of the House C.
- (d) Lord of the House B, in the constellation of the Lord of the House D.

Further take into consideration, the planets conjoined with Mercury or aspecting Mercury, etc.

THE JUBILANT JUPITER

Jupiter also known as Guru, Viyazhan, Brahaspathi, in the Ascendant (Lagna) will make a person jovial, jubilant, buoyant, optimistic and dignified. The person will be magnanimous, noble, true and dutiful.

As it governs law, the native will be law-abiding. He will earn by fair means. He is an honest tax payer producing correct accounts. He can never be a "Black Marketer." He will have high reasoning, ability and proper judgment.

As Jupiter rules education, it offers one success in his scholastic career. He may take up law, religion, philosophy, banking, company administration, economics, politics as the subject, in which he may specialise.

Jupiter is the chief governor for children and as it can aspect the fifth house, it gives dutiful, healthy and fortunate children who may be born on a Thursday or in Sagittarius or Pisces (Dhanus or Meena) Lagna or rasi or in Punarvasu or Visakam or Poorattadhi star.

Jupiter also shows that one will respect tradition. The person having Jupiter in the Lagna will be faithful and obedient and will have faith in God. He may be reading Puranas and Upanishads. He will try to be religious.

As Jupiter owns the 9th and the 12th houses of the Zodiac, he will have the desire and opportunity to make long journeys, stay in far-off places, earn good name and fame due to his quiet, unassuming, sociable temperament. Honesty, integrity and truth are his chief traits.

The signs belonging to Jupiter either square or oppose the signs ruled by Mercury. So, Jupiterians will not be wavering. He will like to manage others, will not be an assistant to another. He will observe hygiene and if at all he falls ill, he will have the cure by a physician. Surgeon's aid will not be required by him.

If Jupiter owns beneficial houses to one (according to the lagna at birth)

he will have much progress and prosperity in his business; he will enjoy peace. Bank position will be sound. There can be no labour trouble. Cooperation from subordinates keeps the atmosphere congenial. Recognition of his service by his superiors keeps him cheerful and makes him work with great enthusiasm.

If Jupiter owns houses which are unfavourable, the native will spend money beyond his limits. To maintain prestige, he has to incur expenses far out-weighting his income. He will act on an impulse, be over-liberal and donate beyond his capacity. All these will happen during Jupiter's period. As Saturn follows Jupiter, he will realise his folly during Saturn's period. He will gamble, using other's money and lose it. So he will be losing the friendship and assistance from others. He will try to have cheap popularity. Misjudgment and miscalculation will land him in trouble.

Jupiter, as lord of the Ascendant in the Ascendant itself, will give good health; he will acquire property; own vehicles etc., and will be prosperous in his profession. It will be a task for the doctor to give intravenous injection as the person will be so fatty.

Jupiter, as lord of 2 and 5, or as lord of 2 and 11, will increase one's bank position. Family and finance will offer him peace of mind. There will be social functions and celebrations at home, frequently. Children will be healthy and also lucky. As 11th house indicates son-in-law and daughter-in-law, they also will have prosperity when this native runs Jupiter's periods and sub periods especially when they are born with Jupiter as their ruling planet, i.e., born on a Thursday or in Jupiter's sign or in any one of his stars, Punarvasu, Visakam or Poorattadhi.

If Jupiter owns houses 3 and 6, or 3 and 12, it indicates that he may incur debts due to his dealings in paper, press, publication or by making frequent

short tours or by losing money by pick pocketing, etc. or by standing surety for another. Also he may suffer from liver complaints, jaundice, dropsy, flatulence, dyspepsia, abscess, hernia, skin troubles, cerebral congestion, catarrh and carbuncles. He may own horse, ox or even elephant, at least ride on elephant, while young, by paying a few pias to the Mahout. He may donate money for the renovation of the temple, erection of mutts, for bajbana, etc. for child welfare centres, schools, building for religious discourses, asylums, isolation hospitals, bank buildings, etc.

If Jupiter owns the houses 4 and 7, it is considered to be a Kendhrathipathi. It is considered to be evil. A few are under wrong impression that it is wholly evil in all walks of life. It is an incorrect interpretation. As Kendhrathipathi, it can affect one's health and longevity. It needs proper judgment. One should not immediately say that during Jupiter Dasa, whatever be the age then, whether young or old, it will affect one's longevity. It is not wise and also not correct. Longevity, whether full or medium or short has to be judged properly. Then during the major period—dasa—of the death—inflicting planet, during Jupiter sub period or sub sub period it will happen. One should not fix Jupiter Dasa alone as bad. If one would have been born in Saturn's star, Pushyam, Anuradha and Uthirattadhi or born in Mercury's star Ashlesha, Jyeshtha and Revathi, he cannot have Jupiter Dasa till he becomes very old. Also one born in Virgo-Kanni having Jupiter as lord of 4 and 7 might have been born in Rahu's star, Arudhra or Swathi or Sathabhisha. They will have Jupiter Dasa in their youth. Unless the planets show that he is short-lived, one need not entertain any fear during Jupiter Dasa.

On the other hand, one will acquire new conveyance easily, purchase property, possess lands and also a healthy and wealthy wife having Jupiter as her ruling planet. Marriage will take place in Jupiter's period and sub-period. Therefore, all the good results indicated by a planet as lord of 4 and as lord of 7 will be enjoyed during Jupiter's period and

sub periods and after having lived the age indicated by all the planets, he will have his end when Jupiter will rule the Bhukti or anthra or Sookshma. The rule is not wrong. Interpretation needs correction.

Jupiter, as lord of 5 and 12, indicates that he will have faith in Karma Yoga, and spend much on pooja and pay visit to holy places etc. He will repay his loans and try to be free from debts. He will speculate and invariably lose; yet he will be hopeful and happy.

Those, who have Jupiter as lord of 12 occupying lagna, generally open a share broker's office and due to their personal jobbing, lose much and the business started in a flash will end in a crash. Or he may take interest in the film lines, start taking any picture, be borrowing money from friends, giving them a very good rosy picture, and investing till he would have finished half of it. (Jupiter's period will come to an end. Saturn's period will commence.) Then, he will find that neither the distributors nor the bankers lend their assistance. The picture will be at a standstill. You can imagine his position. You cannot recognise him because Saturn, as the lord of the hair, will give him the determination to grow hair, and make him fit to act as a sanyasi. In Tamil, it is said that "Sani Pinam Thani Pokadhu," i.e., if there is a death in a street on a Saturday, the dead body will take another from the same street shortly for company. Similarly, not only he will become a sanyasi, he will be the cause for making the creditors also sanyasis like him.

Therefore, bankers, before lending money should see whether the borrower is not born in Aries or Capricorn and Jupiter does not occupy the lagna or Jupiter is not conjoined with lord of 12 in lagna. If you lend money to people born in these two signs with Jupiter rising, it is certain that all those mentioned above will be experienced by you.

Jupiter, as lord of 6 and 9 in the Ascendant, indicates that he will have facilities to make up money whenever needed. For a businessman, it indicates satisfactory assistance from bankers.

They will accommodate to a great extent. The person will have opportunities and also facilities to continue his studies and become a post-graduate or get a Doctorate. He will never mind about expenses. He will lead an aristocratic life. Many of them will face various difficulties as people born in Cancer—Kataka alone, can have Jupiter as lord of 6 and 9. Jupiter is exalted here—Yet for Cancer-borns—Karkata Lagna people, in the ascendant, the stars are Punarvasu, Pushyam and Ashlesha. Punarvasu is ruled by Jupiter who owns the 6th house; Pushyam is governed by Saturn who is the lord of 8th house; Ashlesha is ruled by Mercury who governs the 12th house. Thus the three lords are lords of 6, 8 and 12. Therefore for Karkata—Cancer-borns, planets in the ascendants have to offer either mixed results or adverse ones.

Jupiter, as lord of 7 and 10, will offer most brilliant results, provided it is in its own constellation. Otherwise, it will cause mixed results.

Jupiter, as lord of 8 and 11, will throw many obstacles. After facing lot of difficulties, one can come out successful. People born in Taurus will have people born in Dhanus or Meena—Sagittarius or Pisces as partners. For example, people born in Rohini will have Poorvashada-born natives either as wife or husband or as partner in business.

Thus, whenever the result of Jupiter in the ascendant is to be judged, take into consideration:

- (1) the nature of Jupiter,
- (2) to which houses Jupiter is the lord,
- (3) the lord of the constellation (Star or Nakshathra) in which it was at the time of birth and the house or houses, which the lord of constellation rules,
- (4) what that lord indicates.
- (5) the aspect received by Jupiter, and
- (6) planes conjoined with it.

SATURN'S TRANSIT AND ITS RESULTS

SATURN'S TRANSIT

26-1-64 to 11-2-64 (1°-53'-20")	Mars Mercury
11-2-64 to 18-2-64 (2°-40'-00")	Mars Ketu
18-2-64 to 7-3-64 (4°-53'-20")	Mars Venus
8-3-64 to 13-3-64 (5°-33'-20")	Mars Sun
13-3-64 to 23-3-64 (6°-40'-00")	Mars Moon
23-3-64 to 12-4-64 (8°-40'-00")	Rahu Rahu
12-4-64 to 5-5-64 (10°-26'-40")	Rahu Jupiter
5-5-64 to 15-6-64 (11°-47'-00")	Rahu Saturn.

(Retrograde motion commences)
15-6-64 to 27-7-64 (10°-26'-40") Rahu Saturn

27-7-64 to 21-8-64 (8°-40'-00")	Rahu Jupiter
21-8-64 to 18-9-64 (6°-40'-00")	Rahu Rahu
18-9-64 to 9-10-64 (5°-33'-20")	Mars Moon
9-10-64 to 2-11-64	Mars Sun

2-11-64
Direct Motion at
2-29 A.M.

2-11-64 to 25-11-64 (5°-33'-20")	Mars Sun
25-11-64 to 15-12-64 (6°-40'-00")	Mars Moon
15-12-64	enters into Sathabishta star.

From 26-1-64 throughout the year, Saturn is in Aquarius. The lord of the sign is Saturn. Between 26-1-64 and 23-3-64, it was in Dhanishta star governed by Mars. Between 23-3-64 and 18-9-64, it is in Sathabishta star ruled by Rahu. Later by retrograde motion, it retraces to Dhanishta on 18-9-64 and is retrograde till 2-11-64 when it takes direct motion and leaves Dhanishta on 15-12-64 and enters into Sathabishta star.

Capricorn (Makara)

This refers to people born in Capricorn as Ascendant (i.e., Makaram as lagna), as also to those who are born in Uthrashada star 2nd, 3rd and 4th padas, Sravanam star and Dhanishta 1st and 2nd padas when Moon would be in Capricorn, and also those people who are born between 14th January and 13th February any year, when Sun would be occupying Capricorn-Makaram, in his chart.

Saturn was in Mars' star and Mercury sub between 26-1-64 and 11-2-64. Mars is lord of 4 and 11; Mercury is the lord of 6 and 9; Saturn is the lord of 1 and 2. This would have been a favourable time, to own a car, to repair any conveyance,

to make a journey, to come in contact with strangers and also to have sudden gains through them. New friendship could have been formed. Partner's health might have been affected.

Between 11-2-64 and 18-2-64, Saturn was in the sub of Ketu. So one might have visited holy places, had initiation of mantra by meeting sages. One would have booked larger profits if Ketu at birth occupied favourable houses. But, if it was in an evil house, loss, worry, confusion; dispute, separation, irritation and relapse of chronic ailment are threatened.

Saturn was in the sub of Venus between 18-2-64 and 7-3-64. It is a lucky time to have satisfactory success in enterprises. Celebration of marriage or appointment to children will be offered by Venus, lord of 5 and 10 in the constellation Lord owning 11th house. Always pleasant functions or marriage to children will take place whenever the conjoined period of lord of 5 and 11, or 6 and 11 operate. Reunion with family is also shown.

Between 7-3-64 and 13-3-64, the sub transited by Saturn is ruled by Sun. It shows purchases to partner, opening fixed deposit account in a bank (lord of 2 in the sub of lord of 8), to have advantages through Government officials. A few may get into service in Insurance Corporation, Land Mortgage Bank, Housing, Planning or in any Surgical or Military Department. Saturn is under the sub of moon between 13-3-64 and 23-3-64. A period of ailment to wife or husband. The person may go on a journey, break it on the way and make substantial gains. A few Capricorn-borns may have their marriage fixed up. Litigation will end favourably. A new partner may be taken in to improve the business. Overdraft facilities may be arranged.

New Saturn enters into Sathabishta and it is Rahu's sub between 23-3-64 and 12-4-64. Note in the Birth chart of the person where

Rahu was. If it is occupying beneficial sign, it will offer good results. If it were to be in evil sign, loss of an elder member or dangerous ailment, loss of money, ill-repute and scandal are threatened. But if it were in the beneficial house, one can expect such favourable results as Rahu indicates. If Rahu is in the 5th or 11th house, one will purchase property, gain by speculation and lottery, make new friends and become more and more popular. Rahu in 10 indicates promotion and prosperity. Rahu in 9 or 12 will give long journey, contact with foreigners and life in foreign land. It may allow one to have higher studies.

From 12-4-64 to 5-5-64, Saturn will be in the sub of Jupiter. It indicates journey, expenses, investment on publications, availability of phone, repayment of loan, increase in one's popularity, assistance from elders and frequent visit to hospital to see friends, etc.

From 5-5-64 to 15-6-64, Saturn will be in the sub of Saturn. Health will be normal. Bank position will improve. Business will expand. Those who suffer from cataract, may have it operated. Those who suffer from tooth-ache will have it removed and have relief. Those members who had been away will return and lead a pleasant life. Physicians will have good opportunity to establish a good name. Engineering contractors will have a large number of big contracts. The predictions of astrologers (lord of 2, Sani, in the second house) will come true, especially when they predict the longevity of a person.

From 15-6-64 to 27-7-64, Saturn will be retrograde in the same position and similar results will be repeated. One will have enough of comforts and convenience unavoidable and necessary. Expenses will be uncontrollable. A few may have a change in their avocation. Musicians can have larger income and unexpected investment on property on an impulse. There can be no labour trouble. Materials for construction will be had, whenever needed. There will be no loss, nor deception.

Between 27-7-64 and 21-8-64, the results will be similar to what one had between

12-4-64 and 5-5-64. Long journey, higher education, repayment of loan, respect from elders, greater popularity and lack of understanding with brother are indicated. Brother may shift his place of residence. He will have peace and prosperity which would have been denied till July.

From 21-8-64 to 18-9-64, the results will be similar to what one had between 23-3-64 and 12-4-64. Those who had Saturn retrograde at the time of birth and Rahu in a favourable sign will come by fortunate results. Providential help is promised. Visit to holy places and enjoyment of peace of mind are indicated.

The period between 18-9-64 and 9-10-64 is similar to the one between 13-3-64 and 23-3-64. Long journey, separation from kith and kin, popularity and prosperity in the places of visit and substantial gains are shown.

From 9-10-64 to 25-11-64. The results will be similar to what one would have enjoyed between 8-3-64 and 13-3-64. The sub is ruled by Sun. Raising loan to meet unavoidable expenses, delay in realising the locked-up money, and labour trouble are indicated. Extravagant expenses by partner, promotion and birth of children are also indicated.

25-11-64 to 15-12-64. The results are similar to those enjoyed between 13-3-64 and 23-3-64 and again between 18-9-64 and 9-10-64. Ailment to partners, hospitalisation and medical expenses will be unusually great. Waste of money is also threatened.

After 15-12-64, the end of the year will be pleasant and smooth.

For people born in Capricorn, the so-called, Sade Sathi, 7½ years' Saturn is in the third and the last phase. Fortunately, the lords of the constellation in Aquarius are Mars, Rahu and Jupiter. To whomsoever these 3 planets occupied favourable position at birth, they will surely enjoy beneficial results. If they occupied such houses which are disadvantageous, this transit portends evil. All results depend on the position of these three lords ruling the Nakshathras Dhanishta, Sathabhisha and Poorvaphtrapada.

Aquarius (Kumbha)

This refers to people born in the 11th sign of the Zodiac, Aquarius as Ascendant—Lagna, and also those who had Moon in their chart at the time of birth in Aquarius when Moon would have been passing in Dhanishta 3rd and 4th padas, Sathabhisha or Poorvabathrapada 1, 2 or 3rd pada.

Those whose birth had been between 14th February and 13th March any year, will have their Sun in this sign and they have to refer here, if they do not know either the Lagna or Moon sign.

Saturn entered this sign on 26-1-64. It has to transit in Aquarius, the three stars Dhanishta, Sathabhisha and Poorvabathrapada. In 1964, Saturn does not reach Poorvabathrapada. It passes through Dhanishta and transits in Sathabhisha about 5°, retrogrades and again enters Sathabhisha on 15-12-64.

Between 26-1-64 and 11-2-64, Saturn was in the constellation of Mars, lord of 3 and 10 and in the sub of lord of 5 and 8. Hence the native will have a transfer. He may be posted as a touring officer. Those in the film line will have larger income from the distributors. Both will gain. Musicians can have good fortune and popularity. Those dealing in stationery and publication will have the chance to take a partner or to have satisfactory financial assistance.

Between 11-2-64 and 18-2-64, the sub is ruled by Kethu. Industrialists may face the non-co-operation of the subordinates. They may cause trouble and create confusion. Enmity with brothers, cousins and neighbours, loss of money by pickpocketing, anonymous petition against the native and thereby both fear and irritation are threatened.

Venus sub is transited by Saturn between 18-2-64 and 7-3-64. Though the period is short, one will have grand success. This compensates for the previous undesirable experiences. A few may invest on lands. Some may be provided with car in their office. Some may get married as Venus is the chief governor for marriage and Mars is to fix up urgently and celebrate. Some

may go overseas for higher studies or for foreign collaboration. Separation from kith and kin is also shown. From 7-3-64 to 13-3-64, Saturn was in the sub of Sun. It shows short journey: pleasant life: purchases for partner: minor ailments to husband or wife, settlement of accounts and favour from Government. Contractors can have new tenders accepted. Agency of foreign concerns may be taken up, especially drugs, chemicals, etc.

13-3-64 to 23-3-64: Extravagant expenses: Separation among partners under pleasant circumstances, ill-health to the native, have medical expenses, etc., are indicated. The children of a few Aquarius-borns will gain money or come out successful in any competition. They will come out victorious in litigation. Thus Saturn passes the end of Dhanishta star. From 23-3-64 to 12-4-64, Saturn transits in Sathabhisha. The first sub of Rahu will be transited in this period. Depending on the position of Rahu, one will experience the results. If Rahu were to be in the beneficial signs, one can expect good luck. If Rahu is ill-placed, loss, difficulty, secret inimical activity and worry will be the result. If Rahu would have been in Venus, Mars or Jupiter's sign, the person will enjoy his life, even though the astrologers may say Janma Sani, Thrithiya Branaspathi, and so on. Actually people can verify and satisfy themselves how the Gochara-palan given by Hindu sages does not agree with the practical experience of these people. But, if you adopt KRISHNAMURTHI PADDHATHI, i.e., to divide a star and to read the result modified by the lord of the sub of the star the results expected alone, will actually come to pass.

Between 12-4-64 and 5-5-64, the native may take a new post. A new cycle of life will start. He can have larger income. A few may have the birth of a child. Both the financial position and the family circumstances will be satisfactory, offering peace of mind. New friendships will be formed. Partner also may get into service. A few may start a new business. Overdraft facilities will be had easily. Popularity increases.

From 5-5-64 to 15-6-64, Saturn is in direct motion and then up to 27-7-64 it is in retrograde in the same area. This indicates that the person may invest more money on business, or change the residence or make purchases more for comfort and convenience. If Rahu would have occupied an evil sign, ill-health, enmity, separation, agony, loss of friends and also money are threatened. The servants will non-co-operate. Rheumatic pains may cause worry. Heart patients have to be careful. They should not neglect even when the trouble appears to be bearable.

From 27-7-64 to 21-8-64, again Saturn is in Jupiter's sub.

These persons can go ahead with any programme. Providential help is promised. Rahu in the 11th house promises sudden unexpected gains. Children come by fortune. Even if a child could not have had admission in the college at the first selection, in this period he is sure to get. Those who would have been interviewed for appointment in between May and July will receive appointment order. Licences from the Government can be had. Permit and pass will be received. A successful period, indeed!

21-8-64 to 18-9-64. One may go on long journey or change residence: One may spend money on land, building, conveyance, furniture, etc. Change of car is also indicated. Pleasant functions at home, speedy turn-over in business, larger returns from investments and satisfactory yield from lands are also indicated. The results between 18-9-64 and 9-10-64 will be similar to those which would have been enjoyed when Saturn was transiting in the same sub of Moon in between 13-3-64 and 23-3-64.

Similarly results between 9-10-64 and 25-11-64 will be more or less the same enjoyed between 8-3-64 and 13-3-64. The results given in the periods 13-3-64 to 23-3-64 and 18-9-64 to 9-10-64 repeat between 25-11-64 and 15-12-64. After 15-12-64, Saturn enters into the sub of Rahu. Depending on the position of Rahu, one can expect either favourable or unfavourable results.

Notes to Students : Suppose two people were born on the New Moon day in the later half of February and the first half of March, at the time of sunrise; and the year of birth was different. So that they may have their ascendant in Aquarius, Sun in Aquarius and Moon in Aquarius. But, the position of Rahu and Sani at the time of their birth were different.

Suppose to one, Rahu was in Sagittarius in Poorvashada star. And to the other, Rahu was in Virgo in Hastham star. To the former, Rahu at first promises peace, pleasure, permanent tie of friendship, prosperity, etc. To the latter, Rahu threatens ill-health, accident, danger, pressure for money, trouble through creditors, payment of taxes (most in advance), etc. Therefore when Saturn transits in Sathabhisha—Raghu's star—to the former it brings fortune and to the latter misfortune. If both play cards, the former wins invariably, the latter loses. If both stand for election, the latter faces miserable defeat.

Similarly, suppose one had Saturn in Taurus in Rohini star and the other had Saturn in Libra in Chithrai Star. When Saturn transits in Aquarius, it will square its original position at the time of birth for the former, whereas it forms the favourable trine aspect with the Saturn in Libra. As Saturn rules the Ascendant, the former will fall ill. Hospitalisation is portended. He may worry himself much, as there are none to carry out his work. So he may incur loss. For the latter, health will be excellent and he will have grand success in all his enterprises and will gain much.

Thus, it will be seen that the results enjoyed by people born in the same sign Aquarius differ widely and they are diametrically opposite. Therefore the general predictions offered are only the trends indicated by them according to their nature, without taking into consideration the strength and occupation of the planets in the horoscopes of the individuals. That is why, a few experience such results as are indicated by the transiting planets and a few just opposite ones.

MOLE : WHAT DO THEY MEAN ?

ASTROLOGICALLY EXPLAINED

Vaidyanatha Dikshita in Jataka Parijata, says : "An ulcer or wound will leave a scar in the part of the body indicated by drekkana occupied by the malefic planets in one's horoscope.

If a benefic planet is conjoined with the malefic, it prevents the ulcer, but produces a mole in that spot.

If the planet is either conjoined with Saturn or if it were to be in his own sign (Swakshethra), the mole will be found from the time of birth itself.

If there is no connection with a benefic, the malefic planet at the time it runs its period (according to Vimshothari System) produces the ulcer and leaves a scar.

If the period is ruled by Saturn, the scar will be formed due to the wound caused by a fall—(either the person falling down, or some material falling on him).

If the period is governed by Mars, it will inflict an injury : it may be due to fire accident or through any instrument. Or one may suffer from small-pox or undergo any operation. Thus, a permanent scar will be formed.

Mercury indicates the scar due to a fall, just like Saturn. (But here, the scar will be more than one, as Mercury is a planet for plurality.)

Sun causes it due to the injury caused by animals. (Those who ride horses, mules, or donkeys, will fall down, and receive injury, if Mercury or Saturn is conjoined with Sun.)

Moon indicates that the scar comes up due to the hurt caused by horned animals or acids. (Buffaloes, deer, bulls, etc.)

There cannot be a mole or any scar in the part of the body indicated by the Drekkana occupied by the benefics. Benefics are Jupiter, Venus, waxing Moon and unafflicted Mercury, which are not afflicted in any manner.

But if the benefics happen to own the evil houses 6, 8 or 12, and if they are in any manner connected with malefics, they cause the mark in their periods in the portion indicated by the Drekkana occupied by the benefic.

If the benefics own evil houses, and occupy their exalted sign or their own houses, or if they are Vargothama and strong, the moles will be round.

Prithuyasas says in Horasara, "The signs of the Zodiac represent the various limbs of Kalapurusha—which is to be applied to one's body—Note which signs are occupied by benefics ; except in those limbs, some moles are caused by these planets". Benefics cause moles, marks, scars, and ulcers.

Also Prithuyasas adds that people born in Rohini will have marks or moles on the face, back and sides. (Rohini constellation is in Nirayana Taurus.)

Mantreswara in Phaladeepika, agrees with this statement. He mentions "If Taurus be rising at birth, the person will have moles on the back, face and sides".

Mantreswara in Phaladeepika : in Adhyaya II, sloka 32, adds "Sun, Mars, Mercury, and Jupiter cause marks or moles on the right side of the body. The other planets give moles on the left side.

Sun has marks on the hips : Moon on the head Mars on the back, Mercury on the arm-pit. Jupiter on the shoulder, Venus on the face and Saturn on the leg".

Ramadayalu in Sanketanidhi declares, "The human body is represented by the Zodiac divided into 36 equal parts, called Decanates. If a beneficial planet occupied a particular Decanate, a mole of the size of a sesamum will be found in the limb corresponding to the Decanate.

If an evil planet occupied a Decanate, accordingly in that part of the body indi-

cated by the malefic, an ulcer will crop up and leave behind a scar.

In that particular portion of the body signified by the Drekkana occupied by Sun or Moon, a mole will be seen.

If Rahu or Saturn occupy the sixth house, there will be a black spot on the buttocks.

If Sun or Mars be in the 6th house, his (wife or husband-partner) will have a mole in the neck or right leg or shank.

If Saturn and Mars are in the 7th house,

his wife will have moles and scars in her buttocks.

Malefics in the 8th house indicate moles in the private parts of the person or his wife.

• Saturn or Rahu in 10 causes moles in the bodies of husband and wife, especially on the knee cap. Mars causes ulcer and leaves a scar there. Wise men have said that in the order given below, the three Drekkanas-Decanates indicate the portion of the body where one can find a mole or a scar.

	1st Decanate 0° - 10°	2nd Decanate 11° - 20°	3rd Decanate 21° - 30°
Ascendant (Lagna)	The head	Neck	Pelvis
II house	Right eye	Rt. shoulder	Right side of the generative organ and anus
III house	Right ear	Rt. arms	Rt. testicle
IV house	Rt. nostril	Rt. side	Rt. thigh
V house	Rt. cheek	Rt. side of the heart	Rt. knee
VI house	Rt. jaw	Rt. side of the chest	Rt. calf
VII house	The mouth	Navel	Two feet
VIII house	Left jaw	Left chest	Left calf
IX house	Left cheek	Left side of the heart	Left knee
X house	Left nostril	Left side	Left thigh
XI house	Left ear	Left arm	Left testicle
XII house	Left eye	Left shoulder	Left side of the generative organ and anus.

• Mahadeva, in Jataka Tatva, has declared, "In that limb signified by the sign occupied by Mars and the Sun, there will be a red mark." The sign occupied by Rahu and Saturn indicates black scar or mark. Moon, Mars, or Venus in the Lagna—Ascendant—indicates a mark, or mole, or scar on the head—Venus in the Ascendant and Rahu in the 8th, indicate mole or scar on the head or in the right ear. Mars in the Ascendant and Saturn in a Kona show the scar or mole in the organ of generation or near the anus. Jupiter in 8 causes a mole on the belly. Saturn or Mars in Lagna indicate scar or mole in the foot (if they would have risen just before the birth); Rahu and Venus in the fourth house produces the same effect.

Those people who have the Rajayoga in their horoscopes, pure and simple, will have a royal mark or mole on the hand or on the foot."

Varahamihira in Brihat Sambhita says that the existence of a mole in the face of a lady is an indication of one in her private parts.

Thus the Hindus have discussed the existence of moles in one's body.

Westerners are of opinion that the sign in which the Ascendant—Lagna, falls, shows a mole on the part ruled by that sign.

The sign in which the lord of lagna

was at the time of birth, signifies the part of the body where another mole will be.

The sign in which the VI Cusp falls will give one more mole ; so also the sign occupied by lord of 6, will offer one more mark.

The sign occupied by Moon denotes another. Uranus, Saturn, and Mars, if afflicted, give marks in those parts of the body indicated by the sign where they were.

The American Astrologers are of opinion that the signs alone cannot influence and correctly indicate position.

If the sign and the planet be masculine, moles will be found on the right side of the person. But if they happen to be feminine, then the person will have the mole on the left side.

In our experience, if moles are found in the right side of a male due to be mascu-

line sign and masculine planet, under the same conditions, in females they are found on the left side. If the male is asked to stand before a mirror how it will appear, so also it will be found.

In twin births where one happened to be a boy and the other a girl, the above statements were verified and after complete satisfaction, our experience is published in the above paragraph. Only such experiments can give correct ideas as the Ascendant happens to be the same to both the twins and the position of the planets remain the same.

The planets in the houses which are above the horizon, i.e., houses 12, 11, 10, 9, 8 and 7, the moles will be on the front of the body. Probably, planets in these houses are visible. Houses 1 to 6 are below the horizon and planets therein cannot be seen. So also, planets in the houses 1 to 6 indicate moles on the back side, which the person cannot see directly.

HORARY ASTROLOGY OR AROODAM

In a daily newspaper, in the daily forecast, it was mentioned that the person born in Mesha Rasi will have "Dhana Labham", i.e., gain of money on a particular day. He thought that he could make purchases on that day, so that he can secure them at a cheap rate. No doubt, he bargained with the retail dealer. He was very much pleased. All the articles, he wanted to buy, were available. He asked them to bundle them up. When the shopkeeper gave the bundle and the bill, alas, the person born in Aries—Mesha Rasi found that his purse was pick-pocketed. He made a thorough search of his pockets. "Ayaiyo" cried he. A crowd gathered in no time. With tears in his eyes, having both the hands on his head and tearing off his hair, he cried "Someone has pick-pocketed my purse—What a forecast it is—He had mentioned Dhana Labham—gain of money—Look at my fate." His friend consoled him and said. "The forecast may be correct. You have lost. But the man who took it might have been born in your star itself. He, too, may be an Aries person and therefore this prediction of gain of money to Aries-born has come true to him.

But it is a pity that another Aries-born was responsible for this mishap.

Thus it will be seen that persons born in the same sign will have opposite results due to the disposition of the planets in their birth chart.

On 21-4-1964 at 6-30 p.m. when the Editor of this magazine was about to take up the class for the students of astrology in Bharatiya Vidhya Bhavan at New Delhi, one of the students said "Sir, last year in April (1963) when you had been to Delhi, you examined my horoscope and told me that I would have a female child in the month of April, 1964. It is coming correct. In this month, I expect my wife to deliver. April is coming to an end; Today it is 21st; so I request you to tell me when I can expect the delivery."

Tell me any number within 108."

Without any hesitation "108 itself, Sir".

A chart was made out for the moment and the Arooda Lagna was fixed as Pisces-Meena, since the number given was 108 showing Revathi 4th pada which is in Meena.

The chart is as follows :

Mars 24-23 Arooda Lagna	Sun : 8-11 Jupiter 8-58 Mercury 17-16 R	Venus 23-24	Rahu 12-12
Saturn 9-27			Moon 7-00 Uranus 12-52
Kethu 12-12			
Neptune 23-27			

The reply given by the Professor (the Editor of this journal) is given below :

"You know very well that your wife was in the family way when you sent her to her native place. But you do not know whether she had already delivered or she is yet an expectant mother. Therefore two questions arise now : (a) whether she had already delivered and you were not yet informed about the delivery, or (b) whether she is carrying still.

108 means Revathi—fourth pada.—The idea of asking the querist to give a number within 108 is to take that number mentioned by the consultant as the Arooda Lagna. The Zodiac is divided into 27 stars and each star has 4 padas. So the Zodiac is divided into 108 equal parts and the number mentioned fixes the Lagna.

Birth of children is to be read from the fifth house. There is no planet in

the fifth sign; but Moon is in the fifth house as the Lagna was Revathi fourth pada, i.e., between 356°-40' and 360°. Moon is lord of 5 and is in the fifth Bhava. Generally the Lagna indicates success or failure whereas Moon indicates the matter about which you have the urge to consult, as Moon is called Mathi and it indicates your mind and your query. So Moon, being lord of 5, you want to know about the offspring. As Moon is in the barren sign, Simha-Leo, and also in the constellation of Kethu, now your wife does not continue to be pregnant. She had already delivered. If you take the Moon sign as the first house and offer the prediction, even then the lord of the fifth house is Jupiter and he occupies the 9th house, aspects the 5th and Moon, as Jupiter also is in a barren sign, Mesha-Aries. Therefore your wife has

Further Jupiter is conjoined with the two planets which rule the barren signs, i.e. Mercury and Sun. It is definite that she has given birth to a child already and she does not continue to be pregnant.

Counting from the Lagna, Moon, in the fifth bhava, is aspected by Saturn, and also by Jupiter. Therefore the child's ruling planets should be Jupiter, Saturn and Moon. Hence, when Moon was transiting in the Moon's sign and on the day ruled by Jupiter or Saturn, she ought to have given birth. When we refer to the Almanac, we find that on the last Saturday, i.e., 18th April, 1964, the star was Punarvasu. Hence, I am sure your wife would have delivered on 18th April, in Punarvasu star ruled by Jupiter on Saturday governed by Saturn.

As the Lagna has fallen in the constellation of Mercury, Revathi ruled by Mercury which indicates correspondence, postal etc., and as Mars indicating instruments, machinery and so on, is very near the Ascendant, you will get a telegram as soon as the parents give her "Pathyam" on the third day after delivery.

Since the lagna in both the rasi and Navamsa falls in Meena, you will have a daughter. It falls in a Vargothama feminine sign.

Actually on Wednesday, the person

received a message saying that his wife has already delivered a girl on Saturday in Punarvasu star and that the mother and the daughter were safe.

Question No. 2. Two questions were put on 22nd April, 1964. The number mentioned by the person was 28. His questions were: (a) What am I? (b) Can I expect a transfer or a thorough change in my career or will I continue in the same place where I work?

Answer: The number 28 indicates that the Ascendant is Cancer-Kataka. You have asked me to find out your occupation.

Mars	Sun, Jupiter, Mercury	Venus	Rahu
Saturn	72-4-64		Lagna
			Moon Uranus
Kethu		Neptune	

Houses 2, 6 and 10 indicate one's self-acquisition, service and occupation. House 2 is occupied by Moon and is in the constellation (Pudba or) Poorvapalguni ruled by Venus. The second house is owned by Sun who is exalted in the tenth house. The sixth house is occupied by Kethu and its lord is Jupiter who is also in the tenth house, in Aries. Lord of 10 is Mars and is in the 12th house to the 10th and it is weak to give the matters connected with the tenth house. The tenth house is occupied by Sun, lord of 2, Jupiter, lord of 6 and Mercury, lord of 3 and 12. Sun is called *Dhanvanthri*. Jupiter is Physician and Mercury indicates as lord of 12, hospital asylum etc.; Sun for Government, Jupiter for Finance department and Mercury is to inspect the accounts. As all the planets are in Mesha you will be an officer in the finance auditing department; or Mercury represents nervous system; Sun, the medical depart-

ment; Jupiter a physician and Mesha shows head. Therefore you may be attached to mental hospital or you are an expert in psycho-neurosis. If you let me know what you are, then I shall tell you whether you will continue to be here or you will go out of Delhi. He replied that he was attached to a hospital and that he was a psycho-neurologist.

Now I tried to find out his profession using Krishnamurti Paddhati, considering the TENTH cusp or meridian at the time of query. It was exactly 22 degrees in Meena or Pisces. According to his Paddhati, it falls in Jupiter's sign, Meena, in Mercury's star, Revathi and the Sun's sub which covers 21 degrees 33 minutes in Pisces to 22 degrees 33 minutes. As Meena is the sign in which it has fallen, the department will be one of asylum, hospital, jail, etc. But the sub is ruled by Sun which decides profession. So he must be a doctor or a government servant. Mercury again indicates accounts, engineering, or one who treats neurasthenic patients or the patients who complain of nervous breakdown.

As regards his transfer, one is to find out where the cusp has fallen. It is in an Ubhaya or common sign. It indicates that he will have a transfer. If the cusp would have fallen in a fixed sign, he will stick on to the same place where he works. But if the meridian at the time of query would have fallen in a movable sign, he will, once for all, leave the place and also the institution. Common sign is just like a pendulum, whereas movable sign is like Newton's first law; it will be similar to the rain water flowing from the cliff of a hill to the plains which can never retrace its course and reach the catchment area.

The date of transfer will be at the time when the strongest of the significators passes the twelfth cusp, indicating life in a foreign place. This will happen when the exalted Sun, the chief significator of the medical department, comes to 2 degrees Mithuna or Gemini. Therefore, on 16th June you will be transferred.

(The result will be let known as soon as he is transferred and informs the Editor.)

RECTIFICATION OF BIRTH TIME

By

SHRI D. V. SUBBA RAO

Astrology is an ancient science, the secrets of which have been explained by great sages like SATYACHARYA, BHRTGU, VARAHAMIHIRA, PARASARA, JAIMINI, BADARAYANA, GOUTAMA, NARADA, SOUNAKA, BHARADWAJA, VASISHTA, KALIDASA, YAVANAS and the like. Many great works of these sages have been lost and a stage has come when people begin to doubt its veracity and question its validity. Reasons are obvious. The present-day so-called astrologers not being conversant with the established principles OR not being in a position to devote the time needed to work out the details in full and give its deserved attention, dabble with the help of an error-ridden meagre chart and proceed to pronounce emphatically all sorts of yogas and calamities in store, in a single breath with the result that consultants, after a time, finding nothing turning up as predicted, lose faith in astrologers and in turn, in astrology also. The pitiable plight is self-explanatory. In order to arrive at correct conclusions, a careful preparation of the chart in accordance with the time-old principles is an inescapable necessity. The mighty preparation involved would easily take considerable time which indicates that a conscientious astrologer could scrutinise only limited charts and attend to limited clients in his life and this is seldom done. In consideration of the above and to let the readers of this valuable magazine know the correct approach to astrology, I propose to explain the basic principles, starting with the correction of birth time which is absolutely essential for any to read a chart correctly, cast.

Almanacs available in the market are based on Vakya, Siddanta and Drigganitha

principles of working. As experience tells us, no two almanacs agree, even in a single respect. Added to this, the eternal doubts on ayanamsa, and determination of birth time are there. Are we to take the commencement of flow or presentation of head or Bhupatana or the first breath as the birth time? Deliveries, conducted with surgical assistance, pose another problem. In this direction, it has been said that Bhupatana should be treated as the final word on the matter. To determine this is also another problem, as intimation of birth is often given after a few minutes, as the first attention is to be given, even in the best run hospitals, to the new born and the mother before any other matter can be thought of either by the nurse or the doctor in attendance. So the need for correcting the time of birth before preparing the chart is indispensable for any astrologer, as predictions pronounced without rectification prove to be misleading in a majority of the cases seen. In cases of deliveries conducted with surgical assistance it is fair to note the time of birth as indicated by Bhupatana and subject the same to the principles of rectification of birth time enunciated by the sages.

Mutual aspect or conjunction of Moon with Mars results in causing the normal monthly periods at regular intervals of months in women. A period to be followed with a fruitful conception occurs when Mars aspects Moon in anupachayas. Conception takes place when Sun and Venus are posited in upachayas in rasi chart and their own navamsa chart of the male partner while the female partner's Moon and Mars should occupy upachayas and be located in their own navamsas. Thus importance is given to the navamsa charts which help in determining the date

of conception from the date of birth. It has been stated that the rising sign and Moon should have the relation of benefics at the time of conception and the aspect of Sun to achieve the fruit of conception, birth of a healthy child. It is also stressed that some benefics be posited in 2, 4, 7, 9 and 10 houses either from lagna or Moon at the time of conception. There has been a difference of opinion on the aspects of either Sun or Jupiter to lagna or Moon. Majority of the Rishis are of opinion that the aspect of Sun is primary though the aspect of Jupiter may be present. Varahamihira says that when natural benefics transit 1, 2, 4, 5, 7, 9, 10 houses individually or in groups with Moon and with malefics in 3 or 11 or when Jupiter aspects the adhana lagna, conception is sure. The birth of a child takes place normally in the tenth month in the sign indicated, by knowing the dwadasamsa occupied by Moon at conception. Suppose she occupies the 3rd dwadasamsa of a rasi, it is to be known to which rasi the said dwadasamsa belongs and the third house from the above rasi would be the position of Moon at birth. That goes to say that the rasi of moon at birth would be the rasi indicated by equal number of dwadasamsa to the rasi indicated by the moon's dwadasamsa-rasi at conception. When moon is in the 5th dwadasamsa of Kataka at conception, the rasi indicated is Dhanu. Moon at birth would be in Vrishaba, the 6th from Dhanu. Kalyanavarma and Varahamihira do not agree on this line of thought. According to Kalyanavarma, the dwadasamsa is to be counted from Mesha and the child would be born in the tenth month when Moon transits that rasi so indicated by the dwadasamsa elapsed at the time of conception counted from Mesha. In the above example, the moon at birth would be in Kanya the 6th rasi from Mesha. Thus it is possible to know the position of Moon at birth or conception. Then again the difficulty is in determining the date of conception or birth as the case would be, as Moon's transit in any rasi is two and a quarter days approximately, and any rasi comprises of 9 quarters of any three constellations. Each quarter of a constellation

has 200 kalas and 150 kalas. When Moon dwadasamsa of Dhanu, transiting kalas between 1200 to 1350 indicating that the constellation would be Poorvasadha and its 3rd quarter. Then the birth of the child would take place in the rasi indicated by the position of moon as explained above at the time when 1200 kalas have passed in that rasi. Thus the time of either conception or birth can be determined with reasonable precision.

Normally, when moon transits the 7th house of her position at adhana navamsa, delivery takes place or it may be when the moon transits the rasi of the lord of adhana navamsa lagna. Again on this issue as well, Ramadayaalu and Varahimihira differed. The former states that birth would take place in 5th or 7th rasi to adhana lagna while the latter opines that birth is sure to take place in the sign with moon which is as many rasis distant from the rasi indicated by her dwadasamsa position at the time of adhana. Kalyanavarma says that the 10th constellation from that of the one at conception would be the constellation at birth. I would like to refer readers to slokas 9 to 13 of Sanketa 1 of Sankatanidhi. The method explained is to add 240 days to the exact number of degrees that lapsed in lagna at birth plus the Moon's longitude at birth which sum would indicate the number of days intervening from the time of conception to that of birth. Please note to add one day for the leap year if it intervenes. Other versions are that janma lagna would correspond to that of moon at adhana and vice versa. Note the bhava having planets on either side. Distance between the two nearest planets is to be added to the longitude of the preceding planet and subtracted from that of the succeeding planet. The point so reached indicates the correct longitude of the birth lagna. Find out the strongest of the lords of the janma lagna, lord of the lagna at the time of sun-set on the previous day, the planet presiding on that part of the day, the lord of the hour and the lord of the rasi occupied by Sun for day births and Moon for births at night. This should be identical with the navamsa of janma lagna or the

10th from above, thus indicating the correct birth time. Another authority says that Moon should be at a place equidistant from adhana and janma lagnas or the distance between the chandra lagna and Janma lagna or adhana lagna should be the central point of janma and chandra lagnas at birth or between Sun and Moon lagnas at birth.

According to Vaidyanatha Dikshita, the child conceived on all the even nights would be a boy and on odd nights would be a girl of which children conceived on 6th, 9th, 10th, 12th, 14th, 15th and 16th nights after menses would be fortunate. He further proceeds to say that Sun in 3 or in trines to adhana lagna indicates birth of a boy. The lagna of conception, Sun, Moon and Jupiter being powerful at the time of conception, if posited in odd rasis and navamsas, indicate birth of a male child. If they happen to occupy even signs, the child to be born will be a girl. It is not possible to see agreement of all the four factors in any given horoscope. As such, determination of the sex of the child to be born can be assessed from the strength of Jupiter and Sun for boys and Moon, Mars and Venus for girls. The final pointer would be the position of Saturn in odd or even signs when birth of boys or girls would take place respectively. Note to leave lagna from the odd signs.

When moon is posited in one of the male constellations, the ascendant being a male rasi with Jupiter in its trine or with like relation in amsa, conception takes place leading to the birth of a boy. When Moon is found to occupy female constellations and the female rasi happen to be the lagna or its navamsa with a female planet in trine to the lagna, birth of a girl should be expected. From adhana lagna Jupiter and Sun should be in odd rasis or navamsas or Jupiter with moon should be in lagna or Jupiter and Venus should be in a kendra to lagna being in trine or square to moon with malefics in 2, 3 and 6 and Mercury in 7 and 9 houses, or Mercury, Venus, Jupiter in 7, 1, 9 houses from lagna or Jupiter and Moon in 2 and 5, or Moon, Venus and Jupiter in 9, 5, 1 houses for birth of boys..

For births in Sukla Paksha, Janma Lagna will be the Moon Lagna at adhana while. in case of births in Krishna Paksha, Moon will be in the 7th from janma lagna,

Depending on chandra kalas, the chandra rasi at birth will be rising or setting at adhana.

According to Varahamihira, lagna is $2^{\circ} 30'$ plus (Moon longitude $\div$ 12) and that lagna should be the 9th dwadasamsa to moon at conception for births in the same fortnight.

JUPITER, THE GREATER FORTUNE

Jupiter in the second house :—

Jupiter, the mighty planet and the giant of the Solar System, is brighter than all the other planets except Mars and Venus. Not only it shines brilliantly but it is also the planet of dignity, promising satisfactory fulfilment of all our desires. It gives Sathvic nature to persons and keeps them jubilant. Being a fiery and fruitful planet, persons having beneficial Jupiter, will be optimistic, noble and jovial. They will be generous and will have the belief that, as they do more of charity, God also will be merciful and helpful to them.

Jupiter is the Chief Governor for finance and children. Everybody is concerned with his family and bank position. Hence, a person is said to be fortunate to lead a peaceful life, only when Jupiter is well posited in his horoscope and is not afflicted by adverse aspects from other planets. Jupiter is by nature very strong to ward off the evils indicated by other planets and to offer desirable results.

Jupiter governing law makes the person honest and sincere. He will speak only truth and will be law-abiding. Hence he will not err or commit any mistake which itself offers peace of mind. He will be held in high esteem and will be respected by all. Because of his honesty, integrity and sincerity, he will lead a pleasant and successful life without any trouble from the bankers, judges, and the tax collectors.

Second house indicates according to Uththara Kalamritham "speech, wealth, belief in sacred tradition, mind to support others, nails in the fingers, enjoyment of life, truth or falsehood, the tongue and the eyes, the garment, pearl, gem, copper, diamond, perfume, determination, perfume, family relationship, liberality, friendship, trade, clear and convincing speech, scholarship, gold, pure silver, a close dependent and modesty."

In Jathaka Parijaththa, Sri Vaidyanatha Dikshitha says that the second house governs wealth, visual power, ease, learning, speech, household and food.

Westerners are of opinion that the second house represents throat and ears, whereas Hindus declare that the second house stands for face, tongue, cheeks, eyes, mouth and teeth. The latter have allotted the third house for the ears and the throat. Our experience clearly shows that the allocation made by the Hindus is correct.

(Malefics in the second house cause moles in the lips, cheek, etc., and not in the ear or the throat. But malefics in the third house produce moles in these parts. Also whenever an injury is caused, the part of the body indicated by the Hindus alone is affected and so it is advisable to follow the Hindu system.)

As regards profession, the second house indicates self-earning capacity, the outcome of one's efforts, the bank balance, purchases and sales, promissory notes, bonds, the shares of various concerns and securities.

In Horary Astrology, second house indicates the money that had been lent, one's movable property, his worth, whether rich or poor, loss or profit by traffic, money locked up in speculation, money entangled in law-suits, prosperity or otherwise.

Second house also shows matters concerning loss to the younger brother or his life in a foreign place and secret inimical activities to him or his investments. It indicates the elder brother to mother, her profits and friends. Children's occupation and reputation are referred to the second house. It also indicates the danger to the partner and to the person himself. It is a maraka sign to the native and Ashtama Sthana to the partner. As seventh house

indicates public enemies and opponents, it may show death to the rival. Second house governs the disease and debts of father. Second house shows second marriage.

Jupiter, as lord of the Ascendant in the second house, indicates that a person need not exert much and do hard work or spend much time to make money. He may become the director of an industry and improve the business with satisfactory increase in the profit. He will be able to command respect from his subordinates and labour and there will be no labour trouble as the sixth house indicating labour receives the beneficial aspect from Jupiter. If Jupiter were to occupy the constellation of a benefic and if it receives favourable aspects from other planets, the native can arrange overdraft facilities easily. But if it is in the constellation of a malefic, loss in transactions is threatened. So also adverse results will be experienced if the aspect is disharmonious.

Jupiter, as lord of 2 in the second house, indicates that one can gain money as an advocate. He may be a teacher, a lawyer or a preacher. He can serve in a bank or in a company or in the Public Works Department or in the Reserve Bank or in the Finance Board. He may take up a job in the finance department or in any educational institution. He may own the shares of a few industries, as Jupiter in his own quarters has to offer multiplicity of interests, since the houses, Sagittarius and Pisces are dual signs. Jupiter makes a person an orator and he may enter politics. Jupiter in the constellation of Venus, lord of 7 promises gain through partner. If it is in the constellation of lord of 10, the person has progress and prosperity in the profession: If it is in its own star he obtains money through personal ingenuity and business. If the constellation lord owns houses 11 and 12 (Saturn), the person will have no savings. He will always face an unbalanced budget. If lord of 5 and 8 rules the constellation, he will be tempted to speculate and lose. If Jupiter occupies Kethu's constellation, Moolam, he will be religious. He will have benefit from that relative indicated by the house occupied by Kethu in that horoscope.

Jupiter, as lord of 3 in the 2nd house, indicates that one will have studious habits; inclination to study all subjects, a desire to be a good writer, publicity officer, editor, correspondent, salesman, touring officer, etc. He will learn music. During the periods of Jupiter, the native will gain through brothers, cousins, neighbours, etc. Short journeys made to expand one's business will prove to be profitable. Jupiter in his own constellation in Visakam 4th pada forebodes enmity, litigation, law suits, loans and unavoidable worries. As lord of 3 in his star Poorattadhi, it shows that he will invest on properties in the neighbourhood. His brother will also invest along with him. Short journeys, publications, etc., will result in loss of money and prestige. As lord of 3 in 2 in Saturn's constellation, it portends litigation about landed properties and enmity with children who may claim their share of property. Jupiter in the constellation of Mercury promises higher studies, long journey, life in a foreign place, contact with strangers and their aid. Jupiter in Dhanishta, the constellation of Mars, promises decent gains from permanent possessions, landed property, conveyance, automobile etc. and also through friends and mother. Jupiter in Rahu's star, Sathabisha, in the second house will offer such results as indicated by the lord of the sign in which Rahu was, at the time of birth.

Jupiter, as lord of 4 in the second house, indicates satisfactory yield from the field; good returns from land and property; purchases of estate, conveyance, furniture, etc., gain to mother who gives a part of it to the native. As lord of 4 in 2 in Chitra star, it indicates sale of property or car after some difficulty or accident. As lord of 4 in Visakam star in Libra in the second house, it indicates that he will have a large dowry, landed property, etc. through wife. But if it is a lady's chart, she can expect a house to be constructed by the husband in her name and be given as a gift. Jupiter, in Uthrashada as lord of 4 in 2 in Capricorn, shows that the native will have higher studies, long journey and service in a foreign embassy or under a stranger. One may work in medical or Government departments or in mines. Jupiter in

Shravnam star portends evil results. He may have difficulty in enjoying his rights. There may be law-suits about his landed property. He may meet with accident while travelling. There is also danger through water. Jupiter in 2 in Dhanishta star indicates that his children will have higher studies, chances to go overseas, etc. The person will lose invariably in speculation. We have a friend who has lost all the properties during Jupiter period, even though Jupiter happened to be lord of Lagna, as he is born in Sagittarius. It was in Dhanishta and in the sub of Mars at 23°—40' Capricorn. Loss is indicated by Mars, lord of 5 and 12. 5th house shows his madness to speculate and 12th house shows loss.

Jupiter, as lord of 5 in 2, generally indicates satisfactory and substantial gains through investment, speculation, lottery, etc. His possessions will be increased by such gains and also through the efforts of children. An old person born in Scorpio, having Jupiter at 26° 48' in Sagittarius, had been living in a small cottage till he retired. A year later, when his Jupiter dasa commenced, he joined his son who was offered good quarters by the Government. Jupiter is lord of 2 and 5 to the person. 5th house shows his son. Therefore Jupiter becomes lord of 1 and 10 to the 5th house, and it was in the constellation of Sun who is lord of 6 (service) to the 5th house (son). Jupiter can be lord of 5 and occupy the second house only to Leo (Simha) borns and Scorpio (Vrischika) borns. If Leo is the Ascendant and Jupiter is in Uthrasada star, the native will gain by speculation, betting, music, cinema, etc. Also, through partners he will make money. But Jupiter in Hastham star ruled by Moon threatens loss in all attempts. Jupiter in Chitra gives grand success in studies, larger profits from permanent possession and much assistance from strangers. Jupiter, in the constellation of Venus, also indicates loss.

Jupiter as lord of 6 in 2, shows steady income by service; it gives an inclination to study medicine and be a Veterinary Surgeon. A person may obtain money by

dealing in pet animals. He will tame and train the animals. Jupiter in the constellation of evil planets indicates loss, limitation, litigation, sickness, etc. There will be labour trouble, scandal, ill-repute and waste of money.

Jupiter, as lord of 7 in 2, is a strong indication that the person will have advantages by marrying a wealthy partner. One can expect satisfactory share of profit, gain by union, success in law suits, danger to public enemies, and gains by entering into any agreement with another. If lord of 7 is afflicted and if it occupies the second house, there will surely be loss through the other sex, partners, etc. Partners may pass away. Second marriage is likely.

We may recollect now, that Jupiter owning Kendhra houses and occupying the maraka (death inflicting) sign—2, will prove to be dangerous. It is termed as Kendhra-adhipathi and is therefore evil. The evil effect is only for longevity and nothing else. Actually when we collect the horoscopes of people born in the signs of Mercury, Virgo and Gemini, having Jupiter in the second house, a majority of them have lived happily during Jupiter dasa for a period of 16 years, and they have survived that dasa and also Saturn. The percentage of people who died during Jupiter dasa will be only 10 to 12%. Of them, Mahatma Gandhi is one, who died in Jupiter dasa, though Jupiter was in the 10th house, (owning the Kendhra houses 4 and 7). Again, when we note the horoscopes of people who died during Jupiter dasa, in a majority of cases, Jupiter is neither a Kendhra-adhipathi, nor does he occupy the maraka signs, 2 or 7. It will be observed that Jupiter causes such unpleasant event only when it is in the constellation of evil planets, irrespective of the house it owns or occupies.

Jupiter as lord of 8 in the second house, shows that one may gain by Insurance, the money of the deceased, through the deed of will executed by the deceased, or one may receive bonus, gratuity, provident fund, thrift fund, etc. One may be fortunate in collecting debts; also in getting money through partners in business.

(Will be continued)

MOON IN THE EIGHTH HOUSE

Moon is generally mentioned as a planet in astrology. But, according to the definition given in the dictionary, it is not; it is one of the luminaries. It is the nearest to the earth and it alone revolves round and round the earth. Daily it moves nearly 13 degrees in the Zodiac.

It is a feminine and a changeable planet. Its effect is modified by the sign occupied by it, by the planets conjoined with it, and also aspecting it.

Moon is termed as "Mathi", meaning "mind". There are in all 12 planets. But astrologers have found it possible to predict the results of Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu, Ketu, Uranus and Neptune only, the results of Pluto are still being studied and it is in an experimental stage. Hence, leaving Moon and Pluto, the other ten planets may occupy some position in the horoscope. A few may form good aspect with Moon, and a few others may form unfavourable aspects. Those who afflict Moon, will cause trouble. As Moon governs the mind, a person will be worried with such matters, as are indicated by the planet forming disharmonious aspect. That is why, no man in the world has peace of mind.

Eighth house, according to Ramadayaalu, author of Sanketa Nidhi, is the house of mystery, and according to us, of misery also. It shows the fear and danger from enemies, danger caused by diseases, death, a hole, boat, imprisonment and the like, crossing a river, theft, robbery, siege of a fort, fighting, wrong actions, etc.

Kalidasa in Uthra Kalamritha says that the following matters are to be investigated from the 8th house:—

Longevity, happiness or sorrow, defeat, bonus, money of the deceased, affliction of the face (as this house opposes the second house indicating face), urinary disease (8th house shows bladder and genital organs), calamity, brother's enemy (as it is

the 6th house to the third), teasing a wife, tuft of hair, enemy's fort, laziness, punishment from Government (10th house shows Government, 8th house is the 11th to the 10th: Hence the fine paid by the native is the gain to the Government); fear, loss of money (only when evil planets occupy), giving a debt (when a benefic occupies the 8th house), others' money received without knowledge, permanent possession, wickedness, sin, murder of a living person, amputation, hearing bad news, chain of unlucky events, war, agony, etc.

The kind of death, wills, legacies, gratuity, provident fund, insurance business, money through partner and through wife are also judged from the 8th house.

It also indicates disease of the younger brother, speculative gains to mother, landed property and conveyance of children, enemy's younger brother, wife's movable property, her vision, danger to her life, father's life in a foreign place, or separation, honour to elder brother, or friends.

To a nation, it shows the conclusion of a peace treaty, public morality, deficit budget, as regards exports and imports, estate duty, encroachment by others, loss of territory, loss of the leader, national grief, calamities, earthquake, volcano, floods, fire, famine, infection, diseases, causing much mortality, serious accidents, etc.

Moon as lord of Lagna in the 8th house, Aquarius, Kumba in Dhanishta star actually causes Rajayoga, and offers most brilliant results, when one is in an infant stage, running Mars dasa and the sub of Moon. Later, in every Moon sub-period, he will have a rise in his career. Moon in Sathabisha causes worry and anxiety, unless Rahu, at the time of birth, occupied a favourable house. Moon in Poorvapathra pada star gives success after much struggle; it may cause anxious ill-health, it increases enemies; one can win in

election or competition. Partner may lose money. Otherwise, wife may cause worry due to her bad luck.

Moon, as lord of 2 in 8, in Uthrashada star, gives loss through brothers or while making short journey, or by editing books, or by Government officials, one may be pick-pocketed, especially in a public place, Government office, bus stand, railway, etc. Moon in Sravanam star gives wealth and not health. Moon in Dhanishta, governed by Mars, shows that one will have litigation and will be lucky to have grand success. One may suffer from any chronic disease during other sub-periods, whereas Moon gives cure in its period.

Moon, as lord of 3 in 8, causes anxiety and worry, if it would have been in Moolam star. But, one can make money, if it was in Poorvashada. He may become a partner, and give finance to run a show with satisfactory bank position. Moon in Uthrashada star indicates sale of landed property and reduction in the permanent holdings. Moon causes troubles through vehicles, mother, etc. A few will change their residence to avoid the persistent trouble given by the house owner if Moon was in Uthrashada star.

Moon, as lord of 4 in 8 in Visakam star, gives success in higher education, long journey and life in a far-off place, after experiencing lot of troubles. Separation from family, hospitalisation of father and sale of property are also indicated. Moon in Anuradha star indicates that one can have through legacy or inheritance landed properties, and one may serve in Insurance or Chemical Engineering Industry or in mines. It indicates enjoyment of life in decent quarters, erected by the Government, and also purchase of property at competitive prices through the influence of friends. Moon, in the constellation of Jyeshtha ruled by Mercury, threatens enmity, disease, frequent changes of residence, debts, purchase of property through any society or by raising loan. So also, one may buy a car under hire-purchase system.

Moon, as lord of 5 in 8 in Chithrai star ruled by Mars, indicates that the native

will lose money in speculation or by producing pictures, in cinema, drama or by betting. It also shows ailment to brother or misunderstanding with him. Moon, as lord of 5 in 8 in Swathi, threatens that one may divorce the partner who will never co-operate; or the partner may be ill. At least it gives separation for some time due to lack of understanding and adjustment. Moon in Vishakam star in 8 gives success in speculation, unexpected gains by betting, lottery, etc. One may serve in a maternity hospital or Stock Exchange or race club. One will become very popular and also rich, if the malefic planets do not afflict Jupiter, by forming adverse aspect.

Moon, as lord of 6 in 8, is most advantageous, only when it is in Hastham star. But, if it were to be in Uthrapalguni, the native will incur debts, suffer from abdominal trouble, indigestion, loose bowels, etc. Health will fail; bank position will deteriorate; enmity will increase. Moon in Hastham causes loss to the opponent and gain to the native. Health may fail, but the native will not lose money in his transactions. There will be law suits, but he will invariably come out victorious. Moon in Chitra star may cause gastric ulcer or leucoderma. One may serve as a medical representative, or deal in spare parts, instruments, etc. Health of brother also will fail and both cannot have good understanding. Separation and partition are threatened.

Moon, lord of 7 in 8 in Makam star, denies happy domestic life, especially in adult age, when one is to really enjoy peace of mind and be happy. It is dangerous to his partner's longevity. She may have fear complex or hysteria. Partner in business will be very wise and he may silently make up larger profits without the knowledge of the person born in Capricorn with Moon in Makam. Moon, lord of 7 in Pooram star in 8, makes one religious, and forces him to speculate. Invariably, he will lose. Venus rules Poorvapalguni. It is lord of 5 and 10; its star is occupied by the lord of the 7th house—opponent—com-

petitor—and Venus is lord of 11 to the 7th house. Moon, lord of 7 is in 2 to the 7th house. Hence the competitor wins. The native will speculate as Venus is lord of 5. Moon in Poorvapalguni gives opportunity for one to enter into cinema line or share broker's office or to take up music or deal in scents, petrol or milk. Moon in Uthrapalguni in eight causes ailment to partner; but much gain to him with minimum effort. Rather, he will be a partner assisting with finance alone, whereas the native is to work hard, earn and give away the major part to the financier.

Moon, in 8 in Cancer in Punarvasu star, shows disposal of landed property, hatred towards close relatives and loss of comfort, etc. One may sell away the conveyance. To his mother, Moon offers most desirable results. She may have popularity and prosperity. Moon in Pushyam is very bad, as the person will lose money, and have many enemies; he will be a pessimist. There may be fear complex, inferiority complex and failure due to his own laziness, reluctance, silence and negligence. Annoying letters and depressing messages will be received. He may incur debts due to business in petrol or mine products. Moon in his own sign, the 8th house, or in Aslesha star promises fortune, money through partner, house, property, etc., through wife or husband, as also, vehicle through them and promotion in one's profession. It offers advancement in one's career, inclusion of a Mercurian to expand his business, name, fame and reputation.

Moon in 8 owning the 9th house indicates that father will be fortunate in a place other than his native place; father will have mixed results by speculation, etc. if Moon was in Mrigasirisha star owned by Mars. He may purchase a property at a price, higher than the market rate. In the bargain he will lose. Moon in Arudhra indicates danger to father, failure in higher studies, unnecessary attempts to go overseas, etc. Moon, as lord of 9 in 12 to the 9th house in Rahu's star Arudhra, is definitely evil if Rahu would have been in the 3rd or the 10th house. Moon in

Punarvasu star gives satisfactory bank position, gain of money, success in pleasurable pursuits, chances of marrying one born in a stranger's family or "Love marriage", intelligent children and making money in cinema, music or speculation.

Moon, as lord of 10 in 8 in Karthikai star, will prove to be a Maraka. It may end his life even in youth, when other planets are weak and also afflicted, because Karthikai is ruled by Sun, who is a Bhadhaka Sthana-adhipathi. Planets in the constellation of Bhadhaka Sthana-adhipathi will give death in their period or sub period. As regards his profession, he will have satisfaction in his remuneration. He will be much respected. He can save money. He will have peace, pleasure, prosperity and permanent tie of friendship. Moon in the constellation Rohini indicates early demise of father, dissatisfaction in service, though well-paid, always thinking of a change, desire to go overseas, etc. Moon in 8 in Mrigasirisha in Taurus indicates success in enterprises, a very liberal partner, a spend-thrift wife or husband, delay in marriage, difficulty in the state of married life, profit by insurance or gaining money by legacy.

Moon, as lord of 11 in 8 in Aswini star, is definitely evil. The native can neither have pleasant life, nor friends to oblige him, or at least console him. He cannot think straight. He will be confused. He will be rash and will land himself in trouble. He may have friends in the Police or Military or in such departments where the officials have extraordinary powers. In his weak and unguarded moments, he may take them into confidence and may talk about his wrong actions. When Moon Bhukti operates, these friends will betray him and will give valuable assistance to the colleagues to spoil the person. Moon in Bharani star gives wealth, music, large circle of friends, much respect in society, separation from father due to the transfer in the father's profession, loss through paternal uncle, difficulty through son-in-law or daughter-in-law (5th house shows one's son or daughter and 11th house is the 7th therefrom. So their partner in life is indicated by the 11th house). Partner

VIMSHODDHARI DASA

To ascertain the time of event in one's life is very important. The methods adopted by the Hindus and the Westerners differ absolutely, one from the other.

The Hindus take the exact position of Moon at the time of birth, find out in which constellation (Nakshathra, star) Moon then was, the planet that governs the constellation, the total number of Solar years allotted to that planet, the position of the star already passed before birth and the balance of the Nakshathra that is to run; after calculation, find out the balance of the period that is to pass from the time of birth and then the order of the dasa is to be followed:

They call the periods of the planets as "Dasa". The Hindu sages have adopted and advocated many dasas of which three are largely in use. They are Vimshoddhari Dasa, Ashtottari Dasa, and Kalachakra Dasa. Of these, the Vimshottari is found to be very simple, most accurate and scientific.

They have taken the seven planets (who rule the seven days of the week) and also the nodes, Rahu and Kethu. It is not known why they have recommended to follow a particular order of the periods, and also why they have allotted each planet a particular number of years (Kethu 7; Venus 20; Sun 6; Moon 10; Mars 7; Rahu 18; Jupiter 16; Saturn 19 and Mercury 17 years).

Each planet rules many years. But it will be advantageous to know the exact time. So, they have divided the "Dasa" into 9 Bhukties (Apaharas—sub periods) and the 9 Bhukties are ruled by the 9 planets in the cyclic order. As the Bhukties also run for years, they are again subdivided among the same nine planets and this subdivision is called Antharas. Further, it is subdivided into Sookshmas, Prana, etc.

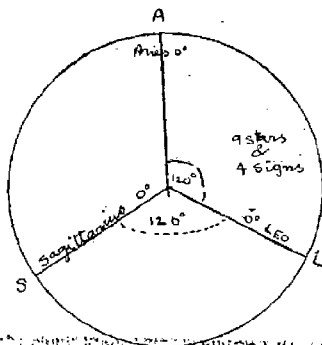

The Zodiac is divided into 12 equal parts; each is called a Solar mansion

(or Rasi or Sign). They are Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

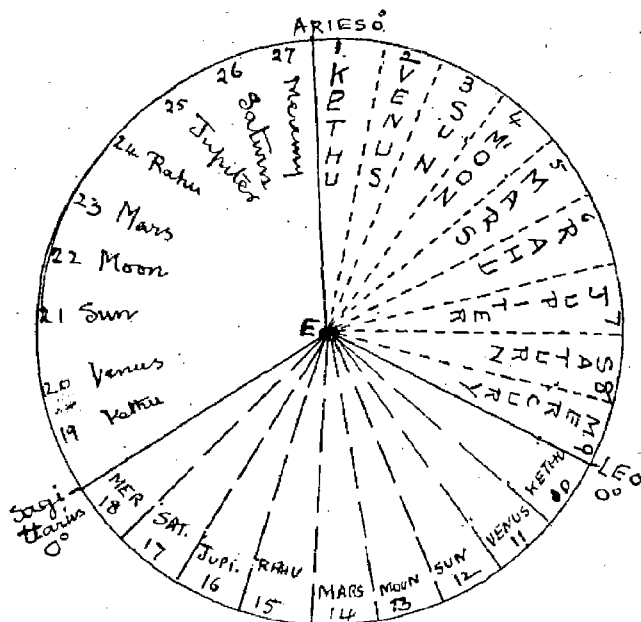

The Hindus have divided the Zodiac into 27 equal divisions; each measures $13^{\circ}-20'$. They commence from Aries 0 and end by Pisces 30° . The 27 divisions are called Lunar Mansions (Nakshatras, Stars—Constellations). They are called Aswini, Bharani, Kartikai, Rohini..... Uthrapathrapada and Revathi.

The following explains why they have taken 9 planets and divided the Zodiac into 27 Nakshatras, and whether all the thousands of stars in the Heavens influence or which of them exactly brings about modification in the results of the planets.

The Zodiac is 360° in Longitude. It is first divided into 3 equal parts of 120° each. The four signs, Aries, Taurus, Gemini and Cancer, make up 120° in the segment AEL. The next four signs Leo, Virgo, Libra and Scorpio form 120° , and they are in the segment LES; Sagittarius, Capricorn, Aquarius and Pisces are the last 4 signs in the segment SEA measuring 120° .

[A is Aries 0° , L is Libra 0° , S is Sagittarius 0° and E is Earth.]

Zones of planets and 27 stars in the Zodiac.

Planets moving from the point A (Vernal Equinox) Aries—Mesha 0 according to *Nirayana system*—get their results modified as they move in the Zodiac. In the first 13°-20' i.e. 0° to 13°-20' any planet transiting in Mesha (Aries) will be influenced by Kethu, and the constellation is called Aswini. Then when it passes on between 13°-20' and 26°-40', Venus influences it; this area is called Bharani. Between 26°-40' to 30° of Aries and from 0° Taurus to 10° Taurus, the planet's results will be modified by Sun. Karthikai is the name of the star. Then from 10° Taurus to 23°-20', Moon modifies the results of the planet occupying this lunar mansion called Rohini. Between 23°-20' in Taurus

and 30° Taurus, as well as 0° Gemini to 6°-40' in Gemini, the mansion called Mrigashirsha is ruled by Mars and the planet in this area will be under the control of Mars.

The next 13°-20', called Arudhra, is governed by Rahu; next Punarvasu is ruled by Jupiter (—Guru). It is followed by Pushya and Ashlesha governed by Saturn and Mercury respectively.

Similarly, from Simha 0° (Leo) upto the end of Scorpio, the four signs are divided into 9 lunar mansions: (called Nakshatras, Stars or Constellations) termed Makam, Poorvapalguni, Uthrapalguni, Hastham, Chithrai, Swathi, Visakam, Anuradha and

Jyeshtha which are ruled by the 9 planets in the same order, viz., Kethu, Sukra (Venus), Sun, Moon, Mars (Sevvai, Mangal, Angaraka, Kuja), Rahu, Jupiter (Guru), Saturn (Sani), and Mercury (Budha).

The remaining 1/3 of the Zodiac SA, contains the 4 signs Sagittarius, Capricorn, Aquarius and Pisces; and the nine constellations in it are Moolam, Poorvashada, Uthrashada, Sravana, Dhanishta, Sathabisha, Poorvathrapada, Uthra-pathrapada and Revathi. The planets Kethu, Venus, Sun, Moon, Mars, Rahu, Jupiter, Saturn, and Mercury rule the stars in the same order.

Hence planets in between $0^{\circ} - 13^{\circ} 20'$ in Aries (Aswini), $0^{\circ} - 13^{\circ} 20'$ in Leo (Makam), and $0^{\circ} - 13^{\circ} 20'$ in Sagittarius (Moolam) will be under the sway of Kethu; $13^{\circ} - 20'$ in Aries to $26^{\circ} - 40'$ Barani; $13^{\circ} - 20'$ in Leo to $26^{\circ} - 40'$ Poorvapalguni; $13^{\circ} - 20'$ in Sagittarius to $26^{\circ} - 40'$ Poorvashada are ruled by Venus and planets transiting in these zones are controlled by Venus and the results of Venus will be offered by the planet, transiting in this zone.

Thus, each planet governs three zones in the Zodiac.

If a planet were to be in Aswini, another in Makam and the third in Moolam, all are under the influence of Kethu and are in Kethu's zone. If the astrologer says that a planet is modified by the Lord of the constellation Kethu, then the statement is not complete and clear. He has to add, whether it is in Aries, or Leo, or Sagittarius, as one cannot locate the position of the planet correctly.

Suppose a father has three sons Brahma, Vishnu and Siva—presume that each son has nine children and every son gives the same order of names, Rama, Baratha, Lakshmana, Sathrugnan, Dharmaputhra, Bhima, Arjuna, Nakula and Sahadeva. The first issue of all the three are called "Rama", the second issue of each called "Bharatha" and so on, and the issue of them will be "Sahadeva". If postman has to deliver a letter with address Rama alone, how can he exactly

fix up to which Rama it refers. The moment, he calls out Rama, three Ramas will respond. Instead, suppose all the 27 children are given different names, how easy and exact it will be to identify.

Similarly, instead of calling each lunar mansion as Kethu 1 (Aswini), Kethu 2 (Makam), Kethu 3 (Moolam), Venus 1 (Bharani), Venus II (Pooram), Venus III (Pooradam), and so on, or as Kethu in Mesha—Aries, Kethu in Simha—Leo, Kethu in Dhanus (Sagittarius), and so on, the ancients gave different names to all the 27 stars (27 zones of $13^{\circ} - 20'$) commencing from Aswini and ending with Revathi.

They are aware that the stars are not elongated from 0° to $13^{\circ} - 20'$ and then another from $13^{\circ} - 20'$ to $26^{\circ} - 40'$ and so on. The Zodiac does not give the appearance of a circular wheel made of a cane with 27 rings in it. But the Zodiac is an imaginary pathway in the heavens, 360° in length and 15° in width with stars scattered all over, in and outside the Zodiac, and appear as dots and not rods. The constellations selected by our sages are either a group of stars or any single bright star, so that they can be first identified easily. A few of them are in the Zodiac itself; majority of the groups are around the constellations which are named after these groups. These stars may be very close to the 27 divisions of Zodiac (constellations) or far away, and they may be either to the north or south of the Zodiac. A few groups are very near or in the next constellation, and yet they are chosen simply for reference and calculation to locate where a particular constellation would be in the Heavens, as there is no other constellation within that zone which can be unmistakably identified. Therefore, these 27 stars are to guide us, so that we can calculate and ascertain the position of the 27 zones in the Zodiac.

These 27 constellations are governed by the 9 planets. Hence each planet rules over three Zones at an interval of 120° —Kethu—Aswini, Makam, Moolam, Venus—Sukra—Bharani, Pooram, Pooradam. These zones modify the results of the planets transiting in the Zodiac and not the stars, scattered in the Heavens. This is the

reason why they have selected only 27 stars, even though there are numberless stars in the sky.

Suppose (a) there is a light in the centre of a circular room provided with 12 glass panes of different colours, (b) around the room there is a verandah and outside it, there are 27 glass panes, the colour of which 1, 10 and 19, is the same; 2, 11 and 20 differ from 1, 10, 19 but these three are of the same colour; 3, 12 and 21 differ from others but these three are of the same colour as they belong to one group. Similarly, all the 27 panes are of 9 different colours.

If a person walks outside the circular verandah looking at the light inside, he will find the colour of the light getting changed according to the colour of the panes. Similarly, the results of the planets are changed by the lord of the sign and the lord of the Nakshatra.

If a planet is compared to a torch light, then the influence of the sign—Solar mansion occupied by it and the influence of the Zones of $13^{\circ}-20'$ called stars, change the colour of the light. You can take one slide of the colour indicated by the sign and another slide of the colour shown by the Lord of the constellation and interpose between the torch light and the observer. The light from the torch gets modified and the resultant will be absolutely different.

With this principle only, the results of planets are judged and Vimshottari Dasa is worked out.

The planet taken for calculating Vimshoddhari Dasa is Moon. So find out the position of Moon at the time of the birth of a child or the commencement of any project. Depending on the constellation position of moon, the dasa at the time of birth is chosen; then the exact position of Moon in that constellation gives the balance of the period of that dasa. Suppose Moon is at 0° Aries-Mesha. Moon is in the constellation Aswini. Aswini is governed by Kethu. Kethu's total period is 7 years. As at the time of birth, Moon has not passed any part of Aswini, it has to pass all the $13^{\circ}-20'$.

These seven years represented by $13^{\circ}-20'$ have to run from the time of the birth of the child. But if a child is born when Moon was in $6^{\circ}-40'$ Aries, Moon has moved before the birth (or before commencing any work) $6^{\circ}-40'$ in Aswini and is to run another $6^{\circ}-40'$ to pass through Aswini, i.e., Moon has passed exactly half of Aswini and is to finish another half. Therefore, in the total period of seven years, half of it, i.e., $3\frac{1}{2}$ years have passed before birth and $3\frac{1}{2}$ years are to run from the time of the birth of the child.

If Moon would have been in $3^{\circ}-20'$ of Aswini, Moon was in Kethu's star. It had passed $3^{\circ}-20' = (3 \times 60) + 20 = 200'$. The total number of minutes for each star of $13^{\circ}-20' = (13 \times 60) + 20 = 800'$. Therefore before birth, 200 divided by 800 Kethu Dasa had passed: $\frac{200}{800}$ is to pass. For

800', Kethu period is 7 years. Hence for $\frac{600}{800}$ of Kethu period, balance at the time of birth is $\frac{600}{800} \times 7$ years = 5 years 3 months.

Suppose Moon was in Punarvasu constellation in Gemini at 26° .

In Gemini 0° to $6^{\circ}-40'$ is Mrigasirisham, $6^{\circ}-40'$ to 20° is Arudhra 20° to 30° in Gemini and 0° to $3^{\circ}-20'$ in Cancer (Katakam) is Punarvasu.

If Moon would have been in 26° in Gemini at the time of birth then $6 \times 60' = 360'$, Moon had already moved into Punarvasu. It has to move 30° minus $26^{\circ} = 4^{\circ}$ and 0° to $3^{\circ}-20'$ in Cancer = $3^{\circ}-20'$ in Cancer = $4^{\circ} + 3^{\circ}-20' = 7^{\circ}-20' = (7 \times 60) + 20 = 440'$. Therefore Moon has moved 360'. It has to move 440'.

Punarvasu is ruled by Jupiter. The Vimshoddhari Dasa of Jupiter is 16 years. Hence for 800', Jupiter (Guru—Viyazhan—Brihaspathi) dasa is 16 years. The time to pass $440 = \frac{440}{800} \times 16$ years = $\frac{44}{5}$ years. That is, 8.8 years of Jupiter dasa is to run.

So, find out in which star (constellation) Moon was at the time of birth. Note the lord of the Nakshatra (constellation). Find out how many years that planet runs (refer to the table). Find how many degrees and minutes. Moon had passed already and how much more it has to transit to complete that particular Star (even though the star may extend to the next sign or the star would have commenced in the previous sign). The remaining portion alone may be taken for calculation. Convert the remaining portion into minutes. Divide by 800. Multiply by the number of years for the dasa (Dasa is indicated by the lord who rules the star).

Another example will clarify: Suppose one is born with Moon in 8° in Capricorn - Makaram: In Capricorn, 0° to 10° is Uthrashada. Uthrashada commences at

26°-40' in Sagittarius-Dhanus. Therefore, the last 3°-20' in Sagittarius and the first 10° in Capricorn is Uthrashada. Moon was in 8° in Capricorn. Therefore only 2° are left in Uthrashada.

Uthrashada is governed by Sun. The total period of Sun (Sun's dasa) is 6 years. So, the period of Sun's dasa at the time of birth, as Sun was in 8 degrees in Capricorn is $2 \times 60' = 120$ minutes divided by $13^\circ - 20' = 800'$, multiplied by six years = $\frac{120}{800} \times 6 = 0.9$ year = 0 year 10 months 24 days.

Thus one is to ascertain how much period of a particular dasa is left over at the time of birth. After this period is over, the other dasas will follow one after another in the order given and the number of years of the following dasas.

TABLE I

Total number of years of each planet and the stars ruled by the planets.

Planet	Stars	Position in the Zodiac	Dasa period
Kethu	Aswini	Aries	7 years
	Makam	Leo	
	Moolam	Sagittarius	
Venus (Sukra)	Bharani	Aries	20 years
	Poorvapalguni	Leo	
	Poorvashada	Sagittarius	
Sun	Karthikai	Aries	6 years
	Uthrapalguni	Leo	
	Uthrashada	Sag.	
Moon	Rohini	Taurus	10 years
	Hastham	Virgo	
	Sravanam	Capricorn	
Mars (Kuja)	Mrigasirisham	Taurus	7 years
	Chithirai	Virgo	
	Dhanishta	Capri.	
Rahu	Arudhra	Gemini	1.8 years
	Swathi	Libra	
	Sathabisha	Aquarius	
Jupiter (Guru)	Punarvasu	Gemini	16 years
	Visakam	Libra	
	Poorvathrapada	Aquarius	

TABLE

Planet	Stars	Position in the	Dasa period
Saturn	Pushyam Anuradha Uthrapathrapada	Cancer 3°-20' to 16°-40' 3°-20' to 16°-40' Pisces 3°-20' to 16°-40'	19 years
Mercury (Budha)	Aslesha Yeshta Revathi	Cancer 16°-40' to 30° Scorpio 16°-40' to 30° Pisces 16°-40' to 30°	17 years
Total 9 planets	27 stars	360 degrees.	120 years

If one is born in Rohini star, i.e., when Moon was between 10° and 23°-20' in Taurus, one will have Moon dasa at the time of birth. The period left over which is to run after the birth depends on its exact position in the star, Rohini.

After the balance in Moon dasa is over, 7 years of Mars dasa, 18 years of Rahu dasa, 16 years of Jupiter dasa 19 years of Saturn dasa, etc., will follow one after the other in this order.

If one was born in Pushyam star, having Moon between 3°-20', and 16°-40' in Cancer—Kataka, the balance of Saturn dasa depends on the portion of Pushyam to be transited. That portion which was transited by Moon is that part of the dasa spent away before the birth. But that portion which is to be covered by Moon to complete the star shows the balance of the Saturn dasa left out at the time of birth. Then follows after Saturn, the dasa of Mercury for the total period of 17 years, then the total period of 7 years of Kethu, followed by 20 years of Venus and so on.

If the birth was in Visakam star, commencing from 20° Libra and extending up to 3°-20' of Scorpio, the dasa at birth is ruled by Jupiter. The balance of Jupiter dasa at birth is the longitude in Visakam to be transited by Moon before entering into Anuradha divided by 13°-20' of star, multiplied by the total number of years of Jupiter, i.e., 16 years. Then follows the total period of 19 years of Saturn, 17 years of Mercury, 7 years of Kethu, 20 years of Venus and so on.

The following table may be useful to calculate, or to quickly verify the balance in the dasa at the time of birth. The formula is:—

The longitude remaining in the star, converted into minutes, divided by 800 and then multiplied by the total number of years of the dasa of that star.

(If Moon was in 12° Libra, it means that Moon was in the star Swathi. The ruling lord is Rahu—Rahu dasa extends for 18 years. Swathi starts at 6°-40' and extends up to 20° Libra. As Moon at birth was in 12°, Moon has to move 20°-12°=8° to complete Swathi 8° or 480'. Therefore the balance of dasa at birth = 480-300 and then multiplied by 18 years = 480 × 18 ÷ 800 = 10.8 years = 10 years 9 months 18 days. It means before birth, 7 years 2 months 12 days of Rahu had passed as Moon had passed 12°-6°-40' = 5°-20' in Swathi, before birth.

So one has to take that the person has to run 10 years 9 months and 18 days from the time of his birth.

Dasa	For 1° yr. mth. days.	For 1' Days
Kethu	0 6 9	3.15 days
Venus	1 6 0	9.00
Sun	0 5 12	2.70
Moon	0 9 0	4.50
Mars	0 6 9	3.15
Rahu	1 4 6	8.10
Jupiter	1 2 12	7.20
Saturn	1 5 3	8.55
Mercury	1 3 9	7.65

ASHTAMA SANI AND HONOUR

Is Ashtama Sani ever evil? No.

The honour and reputation conferred on a Hotel Proprietor and his success in the competition during Ashtama Sani is discussed.

The following is the horoscope of Sri A. R. Sethumadhavan, Proprietor of Hotel Ooty at Daba Gardens, Visakhapatnam.

		Jupiter, 10°5'	Kethu 5°38'
Sun 10°39'			Moon 5°7' Sani (16°46')
Mercury 26°17'			
Venus 21°25'			
Kahu 5°38'			

At the time of birth, the balance of Saturn dasa was 16 years 5 months and 20 days.

Rotarians are noted for their kindness, sympathy, pure and refined affections. They are fond of society and sociability. Like Gemini-borns, they are intelligent. Like Librans, they are very capable in proper assessment and correct judgment. Like Aquarians, they are most loyal to friends and they are the highest grade of humanity. They never act in a hurry and so they seldom have cause to regret their actions. Rotarians are generally rich in wisdom and wealth. They have the qualities of the three airy signs Gemini, Libra and Aquarius.

In Visakhapatnam, the Rotarians are very enthusiastic. They give life to the

people who have a routine and monotonous career. On 15-7-64, the positions of the planets were as follows:

	Jupiter	Mars Venus	Rahu Sun
Saturn Retn.	15-7-64 Evening		Mercury
Lagna			
			Moon

The Proprietor of the Hotel Ooty, was presented with a fancy and costly rolling silver cup by the Rotarians recognising his Hotel to be maintained in the best condition in that year (1964) the hygienic condition in which the hotel premises are kept, the absence of fly nuisance inside, preparation of delicious dishes, prompt service without any waste of time, the proper sterilisation of the utensils and the cleanliness of the kitchen, cooks and servers, etc.

On 15-7-64, according to Vimshottari Dasa, he was running Venus (lord of Lagna) Dasa—major period, Moon (lord of 10) bhukti - Apahara - Sub-period—and Sun (lord of 11) sub-sub-period—anthara.

Generally, lagna indicates the results enjoyed by the native of the horoscope. Lord of Lagna offers grand success to a native if it would have occupied the constellation of the lords of 1, 2, 3, 6, 10 or 11th house. The sub (according to Krishnamurti Paddhati) in that constellation must be ruled by one of the lords of

1, 2, 3, 6, 10 or 11th house. Then, in their conjoined period, one can look for success. Here, Venus—Sukra—is the lord of the lagna. It is in the constellation of Moon, lord of 10, and is also in its own (Venus) Sub (Krishnamurti Paddhatbi), as it was in $21^{\circ}-25'$, which is between $20^{\circ}-27'$ and $22^{\circ}-40'$ in Capricorn—Makara—ruled by Venus in Moon's star Sravana. So Venus will contribute for success.

10th house is owned by moon. It is in its own sign conjoined with lord of 4 and 5 and in Pushyam star, the constellation of Saturn, lord of 4 and 5 and in the sub of Mercury in Pushyam star. Therefore, Moon who is under the influence of Saturn and Mercury cannot confer any honour during the joint periods of Moon and Saturn or Moon Bhukti, Mercury Anthara. Venus aspecting Moon (lord of 1 aspecting lord of 10) gives beneficial strength to Moon to offer beneficial results, after Saturn and Mercury sub-sub-periods are over, and during Venus dasa Moon Bhukti Venus Anthara alone, it has to give.

It may be a fact that a few months prior, mostly in January and February 1964, the judges could have considered this hotel as one of the two to be recognised. Moon in conjunction with Saturn is called 'Punarphoo'. That is, in the first attempt, Saturn conjoined with Moon does not offer the desired results. Either it may be delayed or denied. Only on the subsequent attempts the native will be crowned with success. But the moment when Venus Anthara started after 5-4-64, this Lodging House could have impressed on the customers and Rotarians that his hotel is second to none in Vizag. Probably he would have improved the hotel from 5-4-64.

11th house is always for success. Lord of 11 contributes for social and financial success; also one can come victorious in any conflict, litigation, competition or war only during the beneficial sub-period of lord of 11. That is why, Ravana tried to keep all the planets in the 11th house to lagna when his son Indrajith was about

to be born. But Saturn stretched itself to the twelfth house to save the lives of the Devas by bringing misfortune to Indrajith. This is to commit to memory that in any horoscope, the 11th house promises success.

Lagna indicates the native. The seventh house shows the opponent. The sixth house indicates enmity—open inimical activity and also the loss to the opponent, as the sixth house is VRAYA to the 7th house. The eleventh house is for success. Tenth house brings honour, name and fame. Therefore, when this native was running the dasa of the lord of the lagna—Venus (Sukra), sub-period of the lord of 10, Moon bhukti, and lord of 11 (Sun) anthara, he had this honour and

According to transit followed by the Hindus, taking the position of Moon alone in the horoscope at the time of birth, one has to say that the native's chart shows that Moon was in Cancer (Kataka) and Saturn, on 15-7-64, was in Aquarius (Kumbha), which is the 8th house from Cancer. In Tamil Nadu, it is said that people who could have been uniformly happy for many years will suffer during the time when Saturn transits in 8 (அகாசம் வஜ்ரத்தி துன்பம்தருகின்ற காலம்). For example, one may be committing a crime for a great number of years. But he will be caught and punished during Ashtama Sani. This is the common saying in the south.

Also, it is said that Jupiter, transiting in the 10th house, portends a fall in one's career. It may bring scandal and ill-repute (10ல் ராஜபதவியைக் கெடுப்பான்). Such slogans should end. Proper application of the science alone is needed.

Astrologers may say that Ashtama Sani is evil in a few cases especially when the dasa is adverse. They may add that Ashtama Sani cannot prove to be harmful if the dasa is good. It is true. But the statement is incomplete. The (a) exact time when Ashtama Sani can offer agreeable results, (b) in which cases Sani is a benefic and (c) in which cases Ashtama Sani is evil, has not been discussed elaborately by any so far.

s of 1, 2, 3, 6, 10 and 11th houses, whenever they, during transit, form favourable aspects, offer desirable results during competition, election, litigation, etc. And, lords of 4, 5, 7, 8, 9 and 12th houses, whenever they form evil aspects, during transit, the native wins. Find out to which house Saturn is the lord.

The native will lose in the competition whenever the lords of 1, 2, 3, 6, 10 and 11th houses form evil aspect to their original position at birth and loss is also to be expected during the time when lords of 4, 5, 7, 8, 9 and 12th houses form favourable aspects to their radical position. This is the truth which the readers can confirm after application and verification :

- (1) Who is Saturn ? He is lord of 4 and 5 to the native born in Thula Lagna. Therefore, he is lord of 10 and 11 to Mesha (Aries) borns, which indicates the opponents. As 10th house and 11th house show reputation, success and profit, Saturn, the lord of 10 and 11 to the opponent, will do good to the opponent ; if Saturn forms good aspect with radical Saturn in Cancer, then the opponent will win and the native will lose. But if Saturn forms evil aspect with its original position, it is incapable of producing its beneficial results and hence the opponent loses and the native gains. Therefore, Ashtama Sani is bad to the opponent and not to the native (Ashtama to Moon sign). It is also worth doing research to confirm that those who are born with a planet in retrograde motion, have an advancement in their career when the same planet is again retrograde during transit.

When will he lose the Rolling Cup?—
Astrological explanation.

When Saturn transits in Pisces—Meena—and forms favourable aspect with its radical position, i.e., in the year 1967, after having had a "Hat Trick", the cup will leave his hands. At that time, the dasa will be ruled by Venus, and the sub-period (bhukti) will be ruled by Rahu. When Sukra and Moon have jointly done this good to him, the planet in 6 or 8 or 12 to these two planets will undo what they have done. This is one of the truths. If planets A and B in their periods give a result, then the planet in 6 or 8 or 12 to A and B will give the diametrically opposite results. If one joins a service during A dasa B bhukti, then he will lose or leave this post during C bhukti, if C is in 6, 8 or 12 to A and B and forms evil aspect with A and B.

Rahu is in 12 to Venus and it forms (45°) semi-angular aspect with Venus. Moon and Rahu are forming quincunx aspect (150°) and Rahu is in 6 to Moon. Therefore, the honour conferred on him during Venus dasa. Moon bhukti, will be withdrawn during Venus dasa. Rahu bhukti in 1967, as Rahu is in 12 to Venus and 6 to Moon.

Therefore, while judging the results, the following must be included :

- (a) take the radical position of the planets ;
- (b) consider whether they will contribute for one's success or not ; and
- (c) find out what aspects they form, during transit, with their original position.

Such a consideration will be a corrective method for the inaccurate findings.

CHARACTERISTICS TO BE CORRECTED

By

KAYESKAY

(1) Who is a great bore: One who will not come to the point, but will be talking continuously without a break, even by phone, is a bore.

(a) For such people, the ascendant (lagna) may be either Leo or it may be weak and Moon may occupy the sign Leo (Simha), Mercury, the lord of the second house, will have evil aspect from Mars, which makes one very talkative.

(b) People born in Uthrapalguni star especially when Moon occupied between 5° 26' and 7° in Virgo (Kanni) having Sun dasa, Mercury Bhukti (Apahara-sub-period) at the time of birth, will be very talkative. (Horasara by Prithu-yasa; Mars and Node afflicting Mercury make one a bore.

(c) So also, people born in Pushyam star with Moon in Cancer (Katakam) between 5° 26' and 7° 20' will be talkative especially when Mars afflicts.

(d) But a person may be talkative, yet he will sacrifice his life, be a protector of his community and be a favourite of the King. Such people will have subhobhayachari yoga having the benefics in 3 or 6 or 10 or 11th house, counted from the Ascendant. They are generally the famous people who become the M.L.A. or M.P. or M.L.C. or Councillor or Mayor, etc. But if Mars forms disharmonious aspect, they will speak much on the platform, freely make many promises, but they cannot keep up their word. Saturn

afflicting these benefics make them selfish. They will easily forget the past. If Jupiter forms favourable aspect, they will fulfil all their promises and thereby from the lowest rung of the ladder, they will be able to reach the highest rung, slowly, steadily and surely.

Mars and Ketu afflicting Mercury make one a bore. (Jatakadesa Marga-Podumanai Chomadiri.)

(e) If Jupiter were to be in Upavesa-navastha (Avasthas) will be explained in later issues) the person will be talkative, and he will be subjected to troubles from the Government and from his enemies (Sanketanidhi-Ramadayalu).

Jupiter afflicted by Mars, Mercury and a Node makes one a bore.

(2) Who is the greater bore? He who keeps on talking after he has made his point clear is the greater bore.

The second house indicates speech. Jupiter in the second house shows that one is capable of expanding a subject and deal with it exhaustively. (That is why Jupiter in the second house makes one a lawyer or a teacher.) Mercury makes one go into minute details, analyse and describe elaborately. So these two planets and the second house are to be considered.

If Mars afflicts them, one will not mind others' feelings; whether the other relishes or not, he will be talking non-stop. Even when he is repeatedly told 'enough', 'enough', he will never end his speech.

If Rahu or Ketu afflicts, he will carry tales and like "Naradhar" will be doing mischief.

If Saturn afflicts, he will be fully aware that he speaks a lie, but he will be happy only when he would have uttered falsehood. His worst habit will be to utter the same lie to many and try to make everyone believe that what he states is a fact.

Therefore, those people should understand that they have to cultivate the habit of:

- (1) speaking only the truth;
- (2) speaking to a person only when the other relishes;
- (3) coming to the point quickly and being brief; and
- (4) on other occasions, remembering that 'Silence is Golden'.

3. Who is the most dangerous person: The liar. In Phaladeepika, Mantreswara mentions that he who is born in a "Pamara" yoga will be a liar. That is, if lord of 5 occupies any of the three evil houses 6, 8 or 12 or if the lord of 6, 8 or 12 occupies the 5th house or if the 5th house is associated with, or aspected by, any of these three planets, without any effort, will be uttering lies and lie alone.

The fifth house indicates the 'mind' of a person. His thoughts and intuitions are governed by the 5th house. Moon is called 'mathi', the mind. Hence Moon afflicted by lords of 6, 8 or 12, is also undesirable, as it will be difficult for one to speak the truth. The second house indicates speech; if Lord of 2 is afflicted, one will utter lies, even though the lord of 2 may be a benefic.

The following is the horoscope of one who continues to be a liar. He is born in the Ascendant-Aquarius-Kumba, with Moon in Arudhra star, conjoined with Saturn and Mercury. At the time of birth he had Rahu Dasa. Then in his youth, he had 16 years of Jupiter Dasa. Later, when his adolescence commenced, Saturn (lord of 12 in 5) Dasa ran for 19 years; followed by Mercury Dasa (lord of 8 in 5 conjoined with lords of 6 and 12) which is now running.

Jupiter 6°	Mars	Moon, Ven., Sun, Mer., Sat.
Lagna		Kethu Neptune
Uranus Rahu		

Jupiter, lord of 2, is in his own quarter, a benefic by nature. Yet it is squared by a majority of planets from Gemini. Lords of 6, 8 and 12 are in the 5th house. (Vipareetha Rajayoga will not operate as Venus and Sun are also with them.)

The following matters will be dealt with in the succeeding issues so that one can correct himself and lead a happy life with all-round success and peace.

1. Which is the greatest sin or handicap? Fear and inferiority complex.
2. Which is the best day to act? Today. (Never postpone for tomorrow.)
3. Who is the biggest fool? He who indulges in idle gossip and wastes the precious life.
4. Which is the greatest evil?—Jealousy.
5. Which is the greatest secret of production?—Saving the waste.
6. Which offers the greatest comfort? The knowledge that you have done your job well.
7. Which is the greatest mistake?—To give up your attempts: and not to pursue till you succeed.
8. Which is the cheapest, most stupid and easiest thing?—Finding fault with others.

MOON IN THE NINTH HOUSE

Moon is the fastest moving planet in the Zodiac. It moves daily on an average about 13 degrees. It is a watery planet and owns the movable watery signs. Therefore its characteristic is changeability and its influence is often unsettling. If Moon is the ruling planet of a native, his desire will be to have changes very frequently. Neither will he live in one premises, nor will he stick on to any profession.

Moon signifies liquids, water ponds, lakes, rivers, sea, etc: Neptune indicates ocean.

Ninth house, according to Ramadayaalu, author of Sanketa Nidhi, is the house of prosperity, auspiciousness, etc., meritorious deeds. Temples, wells, circular reservoirs, sacrifices, pilgrimage, long journey to holy places and charity are indicated by the 9th house.

Revelation of Karma Kalamitha says that the following matters are to be investigated in the 9th house:-

Charity, virtue, visit to holy places, japam, respect to elders, medicine, good conduct, pure thoughts, worship of God, higher studies, conveyance, one's policy, dignity, mythology, long journey, association with good people, ancestral property, children, horses, elephants, buffaloes, coronation hall, vedas, circulation of money, etc.

Father and his qualities etc., according to Hindus are to be divined from the 9th house.

As 4th house indicates one's permanent place of residence, the 12th house counted from the 4th house, that is, the third house indicates short journey, the 6th house to the 4th is the 9th house. Hence it indicates long journey.

9th house indicates religion, philosophy, spiritual initiation, sea voyage, cross-

ing the sea, dreams and higher education, submission of thesis, research work, etc. One's success in publication, insurance and success of voyage are solved from the ninth house. Discovery, exploration, the previous birth and punyam, i.e., the luck due to meritorious deed in the previous birth are indicated by the 9th house.

In Satya Sambhita, the author says that the rest house and favour from others are investigated from the 9th house. One may be in danger; but in the last moment, he receives the aid which we call "Providential Help". This is due to the occupation of benefics in the 9th house or its lord situated in a favourable house.

In Phaladeepika, Mantreswara says that the 9th house shows one's Acharya, deity, father, meritorious deeds, previous luck, worship, tapas, grandson, etc.

9th house also indicates younger brother's wife or younger sister's husband, ill health to mother, pleasurable pursuits of children, wife's younger brother or sister and elder brother's friends.

Moon as lord of the Ascendant, Lagna, in the 9th house, in Poorvapathrapada 4th quarter, indicates that one will have higher studies, long journey and high parentage. He or she will be lucky after 45 years of age. One may get into service in External Affairs, Foreign Embassy, International trade, Foreign Exchange, Shipping, Export, Import, etc. Moon as lord of Lagna in Uthrapathrapada in 9, throws many obstacles in youth; one becomes dejected: but later he will have success in research work which needs perseverance. In the first attempt, he will face some problems. He will be able to solve them subsequently. He may be born in a poor family. But he will be able to get scholarship and other assistance to complete his higher studies. Moon in Revathi star in 9, shows that one will be

intelligent, will come out successful in examinations and hold transferable posts. He will be fond of travel and he will make his fortune in foreign land. He will have prophetic dreams or visions.

In whichever star, Moon as lord of 1 is in 9, it gives long journeys, psychic experiences, study of science, law, philosophy, etc. and also gain through partner's relatives. If Moon is afflicted, trouble through foreign affairs, exports and imports, and foreign exchange are to be expected. If one bets in horse races, he will invariably lose in long distance races, as ninth house shows long distance meeting. Because, Moon, as lord of Lagna, has to occupy either the constellation of Jupiter, the lord of 6 (Poorvapathrapada) or of Saturn, the lord of 8 (Uthrapathrapada) or of Mercury lord of 12 (Revathi). Hence, even though Moon is lord of Lagna, and the house it occupies is also a Bhagya Sthana—9th, yet the lords of constellation owning the Dusthanas 6, 8 or 12, spoil Moon and during Moon's periods, one cannot have peace of mind or pleasure. Worries and delay, to make attempts frequently to come out successful are indicated.

Moon, lord of 2 in 9 in Aquarius, shows that one comes out successful in competitions, if Moon would have occupied Dhanishta star; because Dhanishta is ruled by Mars which is the lord of 6 and 11 to Gemini-borns. Planets owning 6 and 11 show that they may have open enemy, and may have to fight due to 6th house and come out victorious as it owns 11th house also. So also in competitive or departmental examination, one gets selected. One may fall ill in a foreign place and be cured or one may go overseas for medical treatment. 6th house shows disease and the 11th house indicates the cure.

Moon, lord of 2 in 9, in Aquarius in Sathabhisha will offer such results which Rahu, the lord of Sathabhisha shows.

Moon, lord of 2 in 9 in Poorvapathrapada indicates that one can gain by publication, foreign travel, service in a foreign embassy, export, import, or as an

ambassador or in international trade, etc. To be an adviser, minister, secretary, etc., Moon is well posited.

Moon as lord of 3 in 9 in Uthirashada star indicates that one may dispose of his ancestral property, permanent possession, etc. One will ever be studious. If it is afflicted, he will be dull but hard-working during his high school course when he will be running Moon dasa followed by Mars who is the lord of the 12th house. Mother will fall ill and will be admitted in the hospital. There will be wastage of money through conveyance. Moon in 9 in Sravanam star indicates that one will go on long journeys, gain by editing, publishing, etc., or by taking agency of foreign produce, will have foreign collaboration, will be a representative of concerns managed by strangers, will occupy transferable posts and enjoy the goodwill of neighbours, cooperation of colleagues and assistance from brothers. One may be interested in business, in commodities usually, foodstuffs, oils, etc., in foreign liquor, in shipping agency, etc.

Moon as lord of 3 in 9 in Uthirashada ruled by Mars, lord of 7 and 12, shows that one may entertain hopes to get a neighbour which will fall through in later date. Long journeys made will be fruitless. If one takes a person, born on a Tuesday, or in Aries or Scorpio Ascendant or in Mrigasirisham trine stars as a partner and runs a show, it will end in loss and the partnership will get dissolved during the conjoined period of Mars and Moon.

Moon as lord of 4 in 9 in Moolam star causes confusion during Moon's periods. All matters will be in a liquid state. It will not be possible to take any decision and stick on to it. The partner will have promotion and transfer. Mother's health will fail. She may have fear-complex or suffer from hysteria. One may mortgage the property and raise loan. Moon in Poorvashada star indicates that one will gain money and also possessions, through partners. One may go on a long journey, contact foreigners and enter into an agreement with them. Happy life with wife and children and other pleasant domestic

Radix; (2) limitations arising from the stage of life in which directions occur. In the case of secondary directions, even after working all the directions that are formed, the delineation of events is no easy task. Till a certain maturity of judgment is fully developed, there must be something available in the directions themselves; some clue to the nature of an event. This clue is provided in the system illustrated below. Here all the angles and the bodies are progressed at a uniform rate in the Zodiac. 144 deg. aspect also produces important events. The twelve-fold division of the zodiac is a self-sufficient basis for the derivation of Directional Measures. As it is well known, each division stands for a certain type of human activity. In a horoscope the first house stands for health, body and general characteristics, the second for wealth, and so on. As 7/12 is the fraction which the 8th sign bears to the circle of the Zodiac, 7/12 is the measure to be used to find out the time in which the death of a person can happen. Similarly 6/12 degree = 1 year is the measure used to find the time of marriage. 3/4 degree = 1 year is a measure for profession. 5/12 for sickness and so on. Thus the measures obtained are 1/12 deg., 1/6 deg., 1/4 deg., 1/3 deg., 5/12 deg., 1/2 deg., 7/12 deg., 2/3 deg., 3/4 deg., 5/6 deg., and 11/12 deg., and one degree. Principal fractions that will lead all other measures in demarcating the life events are 5/12 deg., 1/2 deg., 7/12 deg., 3/4 deg. and 2/3 deg. Thus one particular aspect of a horoscope, say the profession, can be taken apart and judged; prediction can be made by working all the favourable directions, that will be yielded by the 3/4 degree = 1 year measure, to find when 10th house-matters will prosper.

The sensitive points that enter into the scheme are:—

1. 12 planets including Rahu and Kethu.
2. The first point of Aries.
3. Ascendant and 10th cusp.
4. Relevant cusp and relevant point of Zodiac.

5. Part of Fortune.

When 10th house matters are judged, 10th cusp and 270th degree are used. They are also progressed to determine if favourable or unfavourable aspects are formed.

Illustration:—

Nirayana Horoscope

Jupiter (0° 18')	Mars (2° 0') Venus (3° 35') Lagna (24° 20')	Sun (4° 16') Mercury (22° 30')	Saturn (8°—8') Pluto (8° 12') Fortuna (17° 84') Moon (27° 30')
			Neptune (5° 25') Kethu (29° 0')
Rahu 20° Uranus 23° MC (17° 0')			

Gurudasa Balance = 7 years

Nirayana Positions :

Sun	34°16'	Venus	3° 35'
Moon	87°30'	Sani	68° 8'
Mars	2°	Pluto	68°12'
Mercury	52°30'	Uranus	293°
Lagna	24°20'	Neptune	95° 25'
Jupiter	330°18'	Rahu	299°
Midheaven	287°	Kethu	119°
Balance of Gurudasa	7 years.	Pars For- tuna	77° 34'

Directional Investigation : Directions are derived from the natal chart which is the foundation. Directions can find fulfilment in results that are only appropriate to the nativity.

Owner of the horoscope was unemployed at the age of 24. To find the date when

the individual would be employed in a good condition of service, guidance from Dasa-Bhukti is taken.

Period of Sani Dasa-Guru Bhukti is from 23 years 6 months to the end of 26th year.

1st Step: 1 degree = 1 year measure is used and favourable aspects are noted as below :

1 degree = 1 year or 12 months.

Age 24 years 4 months = 24 deg. 20'.

When 0 degree Aries is progressed by 24 deg. 20' it forms a conjunction with lagna. This will create an event. Hence 24 deg. 20' is noted.

Similarly,

Uranus progressed by 24 deg. 34'—Trine Fortuna.

Mercury progressed by 25 deg. 4'—Conjunction Fortuna.

Venus progressed by 23 deg. 55'—Sextile Moon.

Lagna progressed by 22 deg. 40'—Trine Midheaven.

Neptune progressed by 24 deg. 35'—Trine 0 degree Aries.

Ketu progressed by 25 deg. 20'—Trine Lagna.

2nd Step: $\frac{3}{4}$ degree = 1 year measure is used.

This is the particular measure for profession as $\frac{9}{12}$ is the fraction which tenth sign bears to the circle of the Zodiac.

0 degree Aries progressed by 17 deg. 34'—Sextile Fortuna.

Sun progressed by 18 deg. 14'—Conjunction Mercury.

Pluto progressed by 19 deg. 18'—Moon.

Saturn progressed by 19 deg. 22'—Moon.

Ketu progressed by 18 deg. 34'—Sextile Fortuna.

3rd Step: $\frac{4}{3}$ degree = one year. This measure is used.

0 degree Aries progressed by 34 deg. 16'—Conjunction Sun.

Moon progressed by 34 deg. 30'—Trine Mars.

270th degree of Zodiac progressed by 30 degs.—Sextile 0 degree Aries.

Jupiter progressed by 31 deg. 42'—Conjunction Mars.

Jupiter progressed by 33 deg. 17'—Conjunction Venus.

The last aspect is explained for clarification thus: Jupiter's position in Natal chart is 330 deg. 18' from 0 degree Aries. Add 33 deg. 17' to 330 deg. 18'. You will get the position 363 deg. 35' or 3 deg. 35'. Aries which is the position occupied by Venus in the horoscope. Thus Jupiter when progressed by 330 deg. 17' comes to a position of conjunction with Venus. In the same way, all others are to be understood.

Now an average is struck thus:—

Where $\frac{3}{4}$ deg. = 1 year measure is used, the figures 17 deg. 34', 18 deg. 14', etc., to be multiplied by $\frac{4}{3}$ to get a figure which will correspond to the period of life in years and months, i.e., 17 deg. 34' will give 23 deg. 25'. Where $\frac{4}{3}$ measure is used, 34 deg. 16', 34 deg. 30', etc., are to be multiplied by $\frac{3}{4}$. Thus the average of 17 figures namely 24 deg. 20', 24 deg. 34', 25 deg. 4', 23 deg. 55', 22 deg. 40', 24 deg. 35', 25 deg. 20', 23 deg. 25', 24 deg. 19', 25 deg. 44', 25 deg. 49', 24 deg. 45', 25 deg. 42', 25 deg. 52', 22 deg. 30', 23 deg. 45', 24 deg. 58', is equal to 25 deg. 32'.

24 deg. 32' is 24 years 6 months 12 days.

The native entered Central Government service exactly on that day—at the end of 24 years 6 months and 12 days.

Only the Natal chart, accurately cast, is required. Guidance from Dasa Bhukti is needed. Simple arithmetical calculations are employed. Without knowing future position of planets in the coming years, it

HOMAGE TO NEHRU

By

RAM PRAKASH,

New Delhi

Much has been said about our beloved Panditji since he left for his heavenly abode on the 27th May, 1964. Much is being said even now but much will still be said in the years and by the generations to come. For, such a man among men rarely comes. In thought and in action he was pure as crystal, noble like nobility itself. He was the hope for the oppressed and the down-trodden among humanity. Who could excel him in intellect? Yet his intellectual superiority never clashed with his sense of humanity, his immense love for the children. It was amazing to find how diametrically opposite qualities could thrive and prosper side by side in one single man. He was a nationalist in mind, but international in outlook. He was an astute politician and at the same time, a great poet and visionary. He could always look far beyond his time like a Yogi but would never forget the living present like a practical man.

When such a great soul leaves its mortal frame, students of Astronomy & Astrology in their own way try to find out the truth behind the birth and death of the person. In this humble article which is a shradhanjali to the great man I would try to interpret the reasons for his death.

It may be of interest to know that the great Lord Rama, Lord Budha, as also Sri Adi Sankaracharya, Sri Ramanujacharya, Sri Thyagaraja, Sri Arbindo Ghose, Sri Lokmanya Tilak, Sri Sivananda belonged either to Cancer Lagna or Cancer rasi. The greatness of Panditji is accounted for by the fact that he too owed his origin to this rare Lagna and Rasi i.e., Cancer. As we know Cancer natives are masters of their thoughts, and are steadfast and firm like a rock in their missions of life; they do not budge an inch from their chosen paths. They would never be guided by any agency

other than dictates of their own conscience.

I do not propose to dwell on the powerful Yogas such as Malawa Yoga, Rajlakshna, Parijatha, Damini and Obhychari obtaining in this horoscope besides the graceful swakshetri Moon in Lagna imparting great strength to the horoscope and other aspectral influences of Venus, Mercury, Mars (Yogakaraka) and Jupiter especially on the tenth house which have capitulated him to the highest glory and eminence he enjoyed. They hardly deserve a mention here as even a casual observer knew about his greatness and popularity much more than even learned Pandits of Astrology could ever predict.

If we study the position of the planets in the Zodiac when Panditji saw the light of the day, we find that almost all the planets were below the horizon, i.e. within the first six houses. This leads to the feeling—if not to conclude—that once again the Supreme Lord was kind enough in sending his chosen representative down *below* for alleviating the miseries of the people and for establishing social and economic justice.

Having been born in the same Lagna & Rasi as that of Lord Rama, it is conceivable that Panditji must necessarily have inherited some of the noble traits of that illustrious, ascetic king. Mahatma Gandhi's cherished desire was to see Ram Rajya. Whom else could he select to establish such a Kingdom?

He fought relentlessly against social injustice. His life was full of ups and downs like that of Sri Rama, who too belonged to the same Lagna and the same Rasi, i.e., Cancer. Like him he carried out the war of Dharma against Adharma, completely neglecting his own comforts in life.

Now when the light has gone, the same strange phenomenon is observed again with the difference that *almost all the planets have gone above the horizon*, i.e., within the last six houses. It is as though he has been called back *above* by the Almighty for a better assignment, i.e., for setting things right in the Suryaloka. Rahu at birth and death in 12th house is a pointer to this fact.

Now let us discuss Pánditji's horoscope given below. He was born on 14-11-1889 A.D. at 11-30 P.M. (L.M.T.) lat. 25° 27' N. and Long. 81° 51' E. Balance of Mercury's dasa at birth is 15 years 2 months and 2 days.

			Rahu
	Birth 14-11-1889 A.D. 11-30 P.M.		Moon Lagna
			Saturn
Kethu Jupiter	Sun	Venus Mercury	Mars
	Jupiter Mars Mercury	Sun	Rahu Venus
Saturn	Death 27-5-1964 A.D. 2-00 P.M.		
Kethu	Moon		Lagna

It may not be out of place to say that for Cancer Lagna, Venus and Mercury are Marakas, as also Sun though to a lesser extent. Saturn being the Lord of 7th House & 8th House is also evil. Mars and Jupiter are benefics and Mars is also a Yogakarka.

A glance study of the horoscope shows the following Arishtas :-

1. A Kalasarpa Yoga (Saturn in dragon, Rahu is dragon's head and

Kethu is Dragon's tail). When all the planets are hemmed between Rahu and Kethu, a Kalasarpa Yoga is constituted. [Editor disagrees—Jupiter is on the other half.]

2. Rahu's situation in 12th house, i.e., the house of loss, Moksha etc. Rahu is Gemini, Mercury's sign, which is a first rate malefic for Cancer Lagna.
3. Saturn, the lord of 7th house and 8th house is in 2nd house (sade sati also).
4. Lagna and Rasi are subject to Papakartari Yoga.
5. Mercury's Mahadasa operating at the time of birth.

But a careful scrutiny of the horoscope reveals the following antidotes :-

- (i) Moon is swakshetri in Lagna.
- (ii) Jupiter is strong in its own house, besides being the Lord of 9th house (fortune). It aspects 2nd & 12th houses also.
- (iii) Venus and Mercury are in a Kendra to Lagna and Rasi. These entities have benefical & positive influence of planets to a great extent and blessed the native with Madhya Aya (middle wealth).

Saturn completes his revolution of Zodiac in 30 years and Rahu and Kethu each in 18 years. It is evident that Saturn subjected the native to Sade-Sati thrice and to Dhaya (2½ years Saturn) six times. Rahu and Kethu assumed the same position five times. It is, therefore, evident that Panditji continued his battle of existence against the planets also till he accomplished the task assigned to him by God.

A question arises how Panditji escaped death earlier despite the adverse positions of planets at times. This is because survival in a bad dasa would be possible if the Gochara is good. Conversely, survival would equally be possible in a bad Gochara if the dasa is good.

As none of the planets individually could cause death, so they united themselves in such a way in Krodhi year (wrathful year) of whom Saturn (Dragon) is the king, (Kalasarpa and worst Gochara) to inflict

the fatal blow at a time when the object was in the worst dasa.

When he had accomplished his job of setting up a stable democratic rule, Chinese Dragon attacked him and his country in October '62, i.e., when Panditji was running Rahu Dasa, Saturn Bhukti (Dragon's), i.e., Adharma attacked Dharma. Ultimately by declaring a unilateral cease fire, the dragon of Adharman had to acknowledge its defeat directly or indirectly. It was as though the coming events were casting their shadows before. Now the Time Dragon (Kalasarpa) has attacked him. Planets below the horizon at birth represent left side of the body; they also indicate that the native will become more conspicuous and enjoy life better in the later part of his life. At the time of birth as also of death, Rahu (Dragon's head) was in Gemini, a sign ruled both by Mercury and Rahu. Gemini rules shoulders and Sagittarius rules thighs. Gemini which is 12th house to Cancer, i.e., Lagna and Rasi is ruled mainly by Mercury, which controls nerves. On 3-12-63 an eclipse took place in Gemini. There was a Kalasarpa at birth and a similar Kalasarpa had also started again. The suspended Kalasarpa became active after the eclipse and afflicted the native with paralysis in the left side in January, 1964. Of course, the Moon, which completes a full revolution of the Zodiac in 27 days, gets out of the sinister clutches of the Kalasarpa for a fortnight.

Death takes place when the native runs a dasa of Marakas, i.e., Dasa of any one of the lords of 2nd house, 7th house or 12th house or of planets occupying these houses or when one runs a dasa of lords of 6th house or 8th house or of planets occupying these houses and at the same time Gochara (transit) also goes against the native.

At the time of death of Panditji, he was running Rahu Dasa and Mercury Bhukti. On the fatal date of 27-5-64, although the Moon, the lord of Lagna and Rasi was out of the Kalasarpa, yet it being in Vrischika sign, a house of its debilitation was too feeble to hold out the massive attack of Kalasarpa. The Moon also

conjoined with the Maraka Sun of birth. Rahu in 12th house, Kethu in the 6th, Saturn, the lord of 7th and 8th houses in the 8th house in Sathabisha star ruled by Rahu were certainly bad indications. Jupiter in the 10th house is also considered not good in Gochara. Nay, the entire Gochara (transits) went against Panditji.

Rahu and Mercury together brought about this great tragedy. Rahu is transiting Gemini (12th house, i.e., house of loss) which is governed both by Rahu and Mercury. Dasa operating was of Rahu and Mercury as stated above. At the time of Panditji's complaining of pain in body on 27-5-64 (6.30 A.M. approx.), it was a hora of Mercury. Day was Wednesday (Mercury day). The moon was in Jyestha star ruled by Mercury. The case was declared hopeless at Rahu Kala. At about 2.00 P.M. Panditji bade Jai Hind to Bharat Mata and his brethren, when Virgo was rising, which again is governed by Mercury. Three planets were transiting the 8th house counted from Virgo Lagna. There was a graha yuddha (planetary fight) among planets also in the 8th house.

As this Poonyatma (noble soul) lost itself in Eternity, there was a great commotion down in the earth; there was a gale followed by a 'quake'. The heavy down-pour of rain that night was a sure indication that while his soul was greeted by Devagana (Celestial bodies), the planets, too, wept bitterly on what they had done by snatching away our beloved Panditji from the earth planet.

Before I conclude, let me once again emphasize that he had no equal in his love for his countrymen and for humanity at large. The very fact that he wanted his ashes to be mingled with the dust particles of India, with the waters of its rivers, its ocean and its hills show unmistakably his profound love for his motherland. We have many failings and have a long way to follow his footprints but this did not even for a moment deter him from showing his paternal and godly affection on us. Who knows whether at times he did not mutter, "India with all thy faults, I love thee still".

ERECTION OF HOROSCOPE

By K. GANAPATHI

We will explain here how to cast a horoscope for the birth at 12-5 P.M. I.S.T. on 15th May 1963 at Ahmedabad, i.e., 23° 1' North Latitude, 72° 38' East Longitude. (Example taken from June 1963 issue.)

First we have to find out the Sidereal time at birth to calculate the cusp of Houses. So convert the time of birth given in I.S.T. to Local Mean Time, i.e., Birth at 12-5 P.M. I.S.T.—5 hours 30 min. = 6-35 A.M. Greenwich Mean Time.

Add 4 minutes $\times$ 72°-38' to get birth time = 290°-32".

Hence Time of birth = 6-35 A.M. + 4 hrs. 50 mts. 32 secs. = 11 hrs. 25' 32" A.M.

Take the previous noon to the birth as the L.M.T. is before noon.

Sidereal Time at noon on	Hrs. Min. Sec.
14-5-1963	3-26-02

Add the interval between previous noon and birth time in L.M.T.	= 23-25-32
---	------------

Add correction for the interval at 10" per hour	= 0-03-54
	26-55-28

Deduct—Correction for the East Longitude at 2 secs. for every 3° = 0-00-48
= 26-54-40

As the sidereal time arrived at is above 24 hours, deduct 24 hours. = 24-00-00

Therefore sidereal time at the time of birth at 12-5 P.M. I.S.T. on 15-5-63 2-54-40

Here you forget Local Mean Time to avoid confusion.

Now we have to find out the cusp of House for the sidereal time at birth = 2 hrs. 54' 40" at 23° 1' latitude. Refer to the book "Table of Houses" given for various latitudes. Turn over to page in which cusps are given for 23° 12' which is near the birth latitude.

On the left hand side in the second column they have given the position for the sidereal time 2 hrs. 54 min. 7 sec. and 2 hrs. 58' 7". As the sidereal time at birth falls between these two we have to calculate the proportion as follows:

Sidereal Time	10 θ	11 ι	12 ♊	Asc Ω	2 ♈	3 ♉
2-54-7	16°	18°	19°	17°-54'	14°	14°
2-58-7	17°	19°	20°	18°-47'	15°	15°
Difference	1°	1°	1°	0°-53'	1°	1°

The difference between the two sidereal times given in the book is 2 hrs. 58' 7" ; 2 hrs. 54' 7" = 4', or, 240 seconds. The difference between the sidereal time at birth viz., 2 hrs. 54, min. 40 sec. and the

sidereal time given, i.e., 2 hrs. 54 min. 7 sec. is 33 sec. So the fraction of $\frac{33}{240}$ is to be worked out and added to the position given for 2 hrs. 54 min 7 sec.

Now you have to find out the exact position of heavens which was rising at birth = $53 \text{ sec.} \times \frac{33}{240} = \frac{1749}{240} = 7\frac{69}{240} \text{ sec.}$ Add this to $17^\circ-54'$ Simha plus $7 \text{ sec.} = 18^\circ-01'$. Simha is the exact position of Ascendant - Lagna - Sayana position.

For the other cusps as the difference is $1^\circ = 60 \text{ min.}$, add $60 \times \frac{33}{240} = 8 \text{ mts.}$ to the position given for sidereal time 2 hrs. 54 mts. 7 secs. The Sayana position for the cusps will be as follows :

10th Cusp. $16^\circ-00'$ plus $0^\circ-8' = 16^\circ-8'$ Rishaba.

11th Cusp $18^\circ-00'$ plus $0^\circ-8' = 18^\circ-8'$ Mithuna.

12th Cusp $19^\circ-00'$ plus $0^\circ-8' = 19^\circ-8'$ Kataka.

Ascendant $17^\circ-54'$ plus $0^\circ-7' = 18^\circ-1'$ Simha.

2nd Cusp $14^\circ-00'$ plus $0^\circ-8' = 14^\circ-8'$ Kanni.

3rd Cusp $14^\circ-00'$ plus $0^\circ-8' = 14^\circ-8'$ Thula.

Add 180 degrees to the above cusps to find out the position of cusps for the other houses. Adding 180 degrees to the

cusps of the 10th house, otherwise called Meridian, Cusp of the 4th house will be obtained. Similarly adding 180° to the 11th cusp, the 5th house position can be had. Adding 180° to the 12th cusp, the 6th cusp will be obtained. 180 degrees added to the Ascendant gives the 7th cusp. 8th cusp is obtained from the position of 2nd cusp plus 180° and from the 3rd ascertain the 9th. Thus the position of all the twelve cusps is ascertained as follows :

Ascendant	$18^\circ-1'$	Simha	} Sayana position
2nd house	$14^\circ-8'$	Kanni	
3rd house	$14^\circ-8'$	Thula	
4th house	$16^\circ-8'$	Vrischik	
5th house	$18^\circ-8'$	Dhanus	
6th house	$19^\circ-8'$	Makara	
7th house	$18^\circ-1'$	Kumba	
8th house	$14^\circ-8'$	Meena	
9th house	$14^\circ-8'$	Mesha	
10th house	$16^\circ-8'$	Rishaba	
11th house	$18^\circ-8'$	Mithuna	
12th house	$19^\circ-8'$	Kataka	

Next we have to find out the planetary position at the time of birth. Refer to the Ephemeris in the pages 10 and 11 where the position of planets for May 1963 is given. The position printed therein against each date is for 12 Noon GMT. The birth is at 12-5 P.M. I.S.T. — 5-30-6-35 A.M. G.M.T. So take the position of 14th and 15th as the birth time falls in between these two dates.

Planets	Symbol -	Longitude Position on 14-5-63	Longitude Position on 15-5-63	Motion for a day
		Deg. mt.	Deg. mt.	Deg. mt.
Sun	☉	22 8 58	23 8 56	$0^\circ-58'$
Moon	☾	27 8 56	10 8 50	$12^\circ-54'$
Mars	♂	20 8 42	21 8 09	$0^\circ-27'$
Mercury	☿	28 8 30 R	27 8 58	$0^\circ-32'$
Jupiter	♃	9 7 06	9 7 18	$0^\circ-12'$
Venus	♀	24 7 31	25 7 43	$1^\circ-12'$
Saturn	♄	22 8 47	22 8 49	$0^\circ-02'$
Rahu	☊	23 8 37	23 8 34	$0^\circ-03'$
Uranus	♅	1 8 10	1 8 10	Nil.
Neptune	♆	14 8 3 R	14 8 2	$0^\circ-01'$

R indicates retrograde

In the Ephemeris, the motion for each day i.e., 24 hours is given. The birth is at 6-35 A.M. G.M.T. So find out the proportion of movement from the previous date position to the time of birth, i.e., 18 hrs. 35 min. $18 \text{ hrs.} \times 60 + 35 \text{ min.}$

$$\frac{24 \text{ hours}}{1440} = \frac{1115}{1440} \times 24 \times 60 \text{ mts.}$$

$$= \frac{1080 + 35}{1440} = \frac{1115}{1440}$$

Sun has moved 58 min. for 24 hrs. $\frac{1115 \times 58}{1440} = \text{nearly } 45 \text{ min.}$ Add this to the position on 14th, i.e., $22^{\circ} 8' 58'' + 0.45 = 23^{\circ} 8' 43''$

Moon has moved $12^{\circ} - 54'$ or 774 min. for 24 hrs. So add $\frac{1115}{1440} \times 774$ to the position on 14th, i.e., $27^{\circ} 8' 56'' + 10.00 = 7^{\circ} 56''$

Mars moved 27 min. for a day. So the proportion of movement till birth time is $\frac{1115}{1440} \times 27 \text{ min.}$ nearly 6 mts. which is to be added to $20^{\circ} 42' = 20^{\circ} 42' + 0.6 = 20^{\circ} 48''$

Mercury moved $0^{\circ} 32'$ for 24 hours. The movement till birth is $\frac{1115}{1440} \times 32 =$ nearly 7 mts. to be deducted from $28^{\circ} 8' 30''$ as Mercury is in retrograde and note as $28^{\circ} 30' - 07' = 28^{\circ} 23' (R)$

Jupiter moved $0^{\circ} - 12'$ for 24 hours. The movement till birth is $\frac{1115}{1440} \times 12 =$ nearly 9 mts. which is to be added to $9^{\circ} 06' \text{ i.e., } 9^{\circ} 06' + 0.9 = 9^{\circ} 15''$

Venus moved $1^{\circ} - 12'$ or 72' in 24 hours. So the fraction is $\frac{1115}{1440} \times 72 = \text{nearly } 56$. Add this to $24^{\circ} 31' = 24^{\circ} 31' + 0.56 = 25^{\circ} 7' 24''$

Saturn moved only $0.2'$ for a day. So you can write the position at birth as $22^{\circ} \approx 49''$

Rahu moved $0^{\circ} - 3'$ for a day. So $\frac{1115}{1440} \times 3 = 2 \text{ min.}$ Deduct this from 14th position i.e., $23^{\circ} \approx 37' - 0^{\circ} - 2' = 23^{\circ} \approx 35''$

Uranus had no movement. So write its as $1^{\circ} \approx 10''$

Neptune moved only 1 min. for 24 hours. So write the position at birth as $14^{\circ} \approx 2R$

For Ketu's position add 180° to Rahu's position, i.e., $23^{\circ} \approx 35' + 180^{\circ} = 23^{\circ} \approx 35''$

Now we have found out the position of various cusps and planetary positions at birth in the Sayana System. Deduct the Anamasa for the year 1963 which is $23^{\circ} - 15'$. The Nirayana System (i.e., Hindu method) will be as follows:—

1st Cusp	$18^{\circ} 1' - 23^{\circ} - 15' = 24^{\circ} - 46' \approx$
2nd "	$14^{\circ} 8' - 23^{\circ} - 15' = 20^{\circ} - 53' \approx$
3rd "	$14^{\circ} \approx 8' - 23^{\circ} - 15' = 20^{\circ} - 53' \approx$
4th "	$16^{\circ} 8' - 23^{\circ} - 15' = 22^{\circ} - 53' \approx$
5th "	$18^{\circ} 8' - 23^{\circ} - 15' = 24^{\circ} - 53' \approx$
6th "	$19^{\circ} 8' - 23^{\circ} - 15' = 25^{\circ} - 53' \approx$
7th "	$18^{\circ} \approx 1' - 23^{\circ} - 15' = 24^{\circ} - 46' \approx$
8th "	$14^{\circ} \approx 8' - 23^{\circ} - 15' = 20^{\circ} - 53' \approx$
9th "	$14^{\circ} \approx 8' - 23^{\circ} - 15' = 20^{\circ} - 53' \approx$
10th "	$16^{\circ} 8' - 23^{\circ} - 15' = 22^{\circ} - 53' \approx$
11th "	$18^{\circ} 8' - 23^{\circ} - 15' = 24^{\circ} - 53' \approx$
12th "	$19^{\circ} \approx 8' - 23^{\circ} - 15' = 25^{\circ} - 53' \approx$

Planets	Sayana position	Ayanamsa	Nirayana position	Star	Pada
Sun	23° 8 43	23° - 15'	0 8 28	Krithigai	2
Moon	7° = 56'	23° - 15'	14° 3 41'	Sravanam	2
Mars	20° 6 48'	23° - 15'	27° = 33'	Ayilyam	4
Mercury	28° 8 23'	23° - 15'	5° 8 08'	Krithigai	3
Jupiter	9° 7 15'	23° - 15'	16° 8 00'	Uthrattathi	4
Venus	25° 7 27'	23° - 15'	2° 7 12'	Asvathi	
Saturn	22° = 49'	23° - 15'	29° 3 34'	Avittam	2
Rahu	23° = 35	23° - 15'	0° = 20'	Punarpushyam	4
Uranus	1° = 10'	23° - 15'	7° 6 55'	Makham	3
Neptune	14 = 2'	23° - 15'	20° = 47'	Visakham	
Kethu	23° 3 35	23° - 15'	0° 3 20'	Uthiradam	2

Now we have worked out the Sayana and Nirayana position of various cusps and planetary position for the birth. This position is to be inserted in the Rasikuntali and Navamsa. The method to work out Navamsa is explained. There are 27 stars, each divided in 4 padas and this $27 \times 4 = 108$ padas are divided exactly in 12 signs. So each sign has total 9 padas starting from Aries (Mesha). In degrees each pada consists 3° 20', each star 13° 20' i.e., Total 360° divided by 108 padas. So

calculate from Aries 0° and find out in which part a planet or cusp is. For example here, the Ascendant or Lagna is at 24° = 46' which is in the 35th pada from Aries. In Navamsa each sign is allotted for one pada. Count from Aries 1, Taurus 2, Gemini 3, Cancer 4 and so on and you will find that this lagna will fall in Kumbha in Amsa. Thus for planets also count and fix up the Amsa position which will be as follows:

Jupiter	Venus Fortuna	Sun Mercury R	
	Rasi Kuntali		Rahu Lagna Mars
Saturn Moon Kethu			Uranus
		Neptune R	

Mars	Venus Neptune R	Moon	Uranus Fortune
Mercury Lagna R	Navamsa		Rahu
Sun Kethu			
	Jupiter		Saturn

The next stage is to calculate the position of Fortuna (a sensitive point ☿). This position will be arrived at by adding the longitude of Moon to the longitude of Ascendant and deducting that of Sun, i.e.,

$$\begin{array}{r}
 \text{Lagna } 24^{\circ} 46' = 114^{\circ} 46' \\
 \text{plus Moon } 14^{\circ} 41' = + 284^{\circ} 41' \\
 \hline
 399^{\circ} 27' \\
 \text{Minus Sun } 0^{\circ} 48' = 30^{\circ} 28' \\
 \hline
 368^{\circ} 59'
 \end{array}$$

As the sum is above one circle, deduct $360^{\circ} 00'$ and fix up the position of Fortuna as $8^{\circ} 59'$ (Meshā) Nirayana and in Rasi and amsa also write the position. For Sayana, take the positions in Sayana and calculate.

The final stage is to work out the balance of Vimshothari Dasa at birth. Here the birth has taken place in Sravanam star ruled by Moon and its Dasa period is 10 years in total, i.e. If the birth would

have taken place at $6^{\circ} 40'$ in Makara where Sravanam starts, you write the balance as 10 years. But the position of Moon at birth is $14^{\circ} 41'$ i.e. $14^{\circ} 41' - 6^{\circ} 40' = 8^{\circ} 1'$ Moon has moved in Sravanam. For the total length of Sravanam, i.e., $13^{\circ} 20' = 800$ mts. the period is 10 years. For the movement of $8^{\circ} 1'$ or $8 \times 60 + 1 = 481$ mts., calculate as follows:

$$481 \times 10 \text{ years} = \frac{4810}{800} = 6 \text{ years } 0 \text{ mths. } 4\frac{1}{2} \text{ days.}$$

	years	mths	days
This you deduct from	10	0	0
to find out the balance at birth	6	0	
Balance of Moon Dasa at birth is	3	11	25½

In the next issue we will work out one more chart so that students can follow this and cast the horoscopes without any confusion.

IS YOUR HOROSCOPE POWERFUL ?

In the present day democratic world there is no place for princes. We do not seekings by birth enjoying all royalty and royal comforts. Acknowledged leaders of the people are accepted as kings and all the supreme powers to govern are vested in them. Destiny of the country has a direct bearing on the destiny of such acknowledged leaders in position. There is a remarkable difference in their status, dependent on the sacrifices they make for public cause and prosperity of the common man. As such, the positions they hold are linked with their personality and sacrifice. Thus leaders occupy positions in the Government according to their stature, but some of them, though equal in all respects, fail to rise to the heights and yet they command affection and following of the public. It is a known fact that even the greatest of leaders occupy top positions for a few years in their life but instances, where such high positions are held for many years, though rare, are not ruled out. It is also noticed that leaders elected to high positions are not favoured for a second term and even among them some are found to vacate in the mid-term. Position is again conferred on a few amongst such persons while the rest remain to lead and guide the public. Variations of different magnitudes are thus obvious and are the results of the inherent and timely strength of planets—as revealed by their horoscopes. This aspect can never be denied by any, since the science of astrology had proved beyond any doubt to be the single source to forecast events, good or bad. When the predictions go wrong, people tend to blame the science. Reasons for errors in predictions are varied and many which cannot be sorted out in a single article. However, it is necessary to know at least the basic factors that contribute to the strength of a horoscope. From above, it would be noticed that Rajayogas possess different levels and their effects have

different extents. To estimate such levels, it is necessary to understand the strength of planets, bhavas and horoscopes in general.

Many text-books on astrology are available in the market and are in easy access to any common man. They all speak of planets, bhavas, being strong or weak, or possessing minimum strength or no strength, and planets being exalted, debilitated, occupying moolathrikonas, own houses, friendly houses, inimical houses, retrograde and astringent, etc., that go to contribute to the strength of the horoscope. Planets that are declared to be strong and favourable are not in a position to confer all the best during the entire period of their maha-dasas. Mixed influences are noticed giving mixed results, consequent on the relations between various lords of the dasa period and its divisions. It is also stated in the books that planets are either friendly, inimical, benefic or malefic, temporarily friendly or temporarily inimical. Another feature of common occurrence is that planets are beneficial to some inimical, to others and neutral to the rest. Such conflicting statements confuse not only readers but majority of the so-called astrologers as well, unless they have a clear picture of "who is who and what is what" for various lagnas, bhavas and planets. Hence it is apparent that, before any chart is taken up for consideration, due weightage has to be given to all such statements and the inherent strength, failing which confusion gets worst confounded.

Is a planet favourable or unfavourable?

First decide (a) which of the two; either janma lagna or moon rasi is powerful; (b) Lordship of the planet under consideration; (c) Bhavas occupied by the planets; (d) Nature and relationship of the bhava to the planet concerned; (e) Relationship

of the bhava occupied by the planet to the karakthva of the planet ; (f) Whether the planet under consideration is posited in dusthanas to its own houses, (g) His relationship to the lord of current Dasa and Anthara ; (h) His position in relation to the lords of dasa and antara ; (j) The constellation in which he is posited ; (k) His relation to the constellations in which the dasa and antara lords are placed ; (l) The gochara relationship.

Having considered the above factors, the extent to which the planet under consideration is favourable can be easily determined.

What is planetary strength?

Strength of the planet can be decided according to Sreepathy by estimating their shatbala strength which is the accepted method for correct judgment and secondly by considering the general features of the horoscope. As per the rules, Sun with 390, Moon with 360, Mars with 300 and Mercury with 420, Jupiter with 320, Venus with 330 and Saturn with 300 virupas are considered to possess the minimum strength. In addition, they should be strong under various heads indicated as under :

	<i>Sthana</i>	<i>Dig</i>	<i>Chasta</i>	<i>Kala</i>	<i>Avana</i>
Jupiter, Sun & Mercury	165	35	50	112	30
Moon and Venus	133	50	30	100	40
Mars and Saturn	96	30	40	67	20

Strength of the bhava and its lord are inter-related and so the bhava strength has to be viewed from the strength of its lord. Planets thus strong are considered to be capable of conferring their best results, while weak among them are not to the mark. The second principle of determining the strength is based on the following rules :—

(1) Consider the swavargas occupied by the planet under consideration in shodasha vargas. (2) If natural benefics occupy moon hora of even signs and natural malefics occupy ravi hora of odd signs where they are good. (3) Planets occupy-

ing kendras with preference to lagna are considered fairly strong. Planets in 7th house possess 3/4 strength while planets in 10th have half and those in the 4th possess a quarter, but this is not a general rule. Planets in panaparas possess half the strength while planets in apoklimas have a quarter strength. (4) Sun and Mars are strong in the 10th house, Saturn in the 7th, Moon and Venus in the 4th, Jupiter and Mercury in the lagna. (5) Males among the planets are strong at the commencement of the bhavas, female planets in the middle, and hermaphrodites at the end. (6) Planets that are retrograde and not asthangatha are strong. (7) Rahu is strong in Mesha, Vrishabha, Kataka, Vrishchika and Kumbha, while Ketu is strong in Vrishabha, Kanya, first half of Dhanus and Meena. (8) Planets in Upachayas, preferably benefics. (9) Planets aspected by Jupiter are fully strong ; those aspected by Venus possess half the strength while the aspect of Mercury confers a quarter of the strength. (10) Benefics in exaltation, Moolatrikonas, own houses, friend's houses, Enemy's houses and debilitation possess strength in order, while the reverse holds good in respect of malefics. (11) Saturn and Venus are strong when eclipsed while Mars gains strength in his inimical house. (12) Sun and Saturn are strong in the 9th bhava, Mercury in the 8th, Jupiter in the 6th and Venus in the 12th which should not be the house of Saturn. (13) Vargottamma planets. (14) Venus in Lagna and transiting in the constellation Aswini. (15) Mars in lagna when the lagna falls in fiery signs. (16) Moon in lagna as Vargottamma or when she attains Vargottamamsa or when she is in the Navamsa of Kataka. (17) Saturn in Tula, Dhanus and Meena as Lagna. (18) Sun in Simha navamsa.

Accepted relationship of planets :

(1) Parivarthana. (2) Conjunction/position in the same bhava. (3) Mutual aspect. (4) Position in simultaneous kendras. (5) Position in simultaneous konas.

Yoga karakas :

Planets in exaltation, moolathrikona, own house, friend's house, kendra, kona,

uttamamsa; aspected by benefics and posited in between benefics when they happen to be lords of kendras or konas or inter-related to each other become yoga karakas.

Rajayoga karakas

Lords of 9 and 10 when they do not possess lordship over 8 and 11 bhavas and when posited in 9 or 10 or when in benefic houses or in Parivarthana or with mutual aspect become Rajayoga karakas of the first order. When lords of 1, 4, 5 or 7, join with either of the lords of 9 and 10 or when lords of 9 and 10 are in 1, 4, 5 or 7, they become Raja yoga karakas of the second order. Lords of 1, 9 or 10, Lords of 5 & 6, Lords of 6 & 7 are Raja yoga karakas in order. When such yoga karakas are posited in a bhava or when they are in parivarthana, or when they have mutual aspect, they become Raja yoga karakas of the third order. There are many more Raja yoga karakas depending on their karakatwas.

Determination of benefics and malefics:

Jupiter, Venus, Full Moon and Mercury, in conjunction with Malefics, are benefics. Saturn, Mars, Rahu, Ketu, Sun, New Moon and Mercury in conjunction with Malefics are malefics. By Adhipaty, the planets become either benefic or malefic for the bhavas. Lords of kendras and konas are termed benefic and lords of dusthanas are considered malefic. Malefics for various rasis are as under:—

Mesha—Mercury; Vrishabha—Moon and Jupiter; Mithuna—Sun and Mars; Kataka—Mercury; Simha—Moon; Kanya—Sun and Mars; Tula—Jupiter; Vrischika—Mercury; Dhanu—Moon and Venus; Makara—Sun and Jupiter; Kumbha—Moon and Meena; Sun, Saturn and Venus. Saturn is a malefic karaka in 6, 8, 10 and 12; Mars is a benefic karaka for 6; Sun, Mercury and Jupiter are benefic karakas for 10; Sun in 9, Moon in 4, Mars in 3, Jupiter in 5, Venus in 7 are not auspicious for the prosperity of the bhava. Saturn in 8, and Mars in 6 mitigate the evil of the bhava and promote benefic results.

Following combinations confer yoga.

(1) Natural benefics as lords of konas

and natural malefics as lords of kendras not in conjunction in kendras. (2) Natural benefics as lords of kendras, natural malefics as lords of konas not in conjunction in 3, 6, 8, 11 or 12 confer better yoga than when in conjunction. (3) Natural benefics as lords of kendras in conjunction with malefics and placed in kendras or konas are good. (4) Natural malefics as lords of konas in conjunction with benefics when placed in kendras or konas are good. (5) Natural benefics as lords of kendras, and natural malefics as lords of konas in conjunction with lords of dusthanas, confer yoga, especially conjunction with lord of 8 is much preferred. (6) Any exalted planet posited in exalted navamsa or any planet in his own house and posited in his own navamsa or a planet in a friendly house in its friendly navamsa and planet in moolathrikona posited in his moolathrikona, navamsa is preferred for yoga. Under the above circumstances, even malefics turn to be benefics. (7) A planet posited in a neutral rasi and occupying an inimical navamsa of the lord of the house wherein he is posited and if the lord of such rasi and amsa possess sthana-bala, the planet turns to be a benefic and confers yoga. (8) Even a planet in depression gets benefic strength if such rasi happens to be in friendly sign and if a friendly planet occupying the navamsa of the rasi lord and if both happen to possess reasonable strength in shatbala, and the lord of the house becomes a benefic and confers yoga. (9) In the normal course 6, 8, 12 houses and their lords are considered malefics. But if these places happen to be either places of exaltation or friendly houses, or own houses of planets posited therein and when such planets are aspected by benefics, they turn to be benefics. (10) If the lords of 6, 8, 12 occupy inimical or debilitation houses and are also eclipsed, planets in 6, 8, 12 houses become benefics. (11) Natural benefics except in 12 are generally beneficial and natural malefics in upachayas are considered beneficial.

Bhava gains strength when—

(1) Its lord, the planet in the bhava and its karaka are strong. Its lord is strong

when posited in kendra or kona or in 3 or 11 or in his exaltation or own house or moonathrikona or friendly house or his own navamsa or placed in between benefics or when the lord of the house where he is posited is exalted or related to benefics. If on the contrary such lord is placed in an inimical house or debilitation or 6, 8, 12 or eclipsed or not related to benefics or related to malefics or occupies debilitated/inimical navamsas or defeated in planetary war becomes weak. (2) If the bhava is aspected by benefics or if its lord occupies the bhava or any planet strong in shodashavarga is posited therein; when malefics do not occupy the bhava or aspected; when kendras/konas and the second house are occupied by benefics or lord of the bhava is posited in kendras/konas/second. Even when no planet is found in these bhavas and malefics do not aspect, the bhava gains strength in order of precedence. (3) If the bhava happens to be the friendly house for the planet occupying the same or its own house or the place of exaltation or if the planet in the bhava is a benefic or if the bhava is occupied by the lord of lagna or if its lord does not occupy dushthanas; or if malefics are posited in 3, 6, 11 houses or if benefics occupy kendras/konas, the bhava bears fruit. (4) When the kendras are occupied by planets which are their own houses or planets in exaltation the bhava prospers. (5) Either the lord of lagna or the lord of moon rasi devoid of malefic influence occupy the bhava or aspect the same or posited in kendras/konas, to it the bhava is helpful. (6) In case the kendras/konas are unoccupied and if Jupiter or Venus as lords of kendras occupy 3, 6, 8, 11, 12 houses the bhava is good. (7) Lord of the bhava or the planet in the bhava or planet aspecting the bhava should be friendly to each other. (8) When the bhava happens to be a benefic rasi and is occupied by benefics or its lord or friendly planets and aspected by a strong planet or when the lord of the bhava or its karaka are strong then the bhava prospers. (9) If the bhava possesses benefics on either side or when benefics are posited in 4, 3, 8, 9 houses, the bhava is helpful. (10) If the malefic lord of the bhava is weak and occupies the bhava or

aspects the same, it is to a limited extent considered useful. (11) If the lord of the bhava is related to the planet occupying its own rasi and navamsa and if that planet is a friendly benefic and strong, the bhava prospers. (12) If a debilitated planet is eclipsed and retrograde and placed in 6, 8, 12 houses, that bhava is helpful. (13) If the lord of the bhava is in his own house of malefic adhipatya, the bhava is good. (14) Exalted malefic planets not having adhipatya of 6, 8, 12 houses render benefic results to the bhava they occupy. (15) Strong Mars when he is not a malefic by adhipatya, prosperity of the bhava he occupies is noticed. (16) Weak Saturn when he is not a malefic by adhipatya is equally helpful to the bhava he occupies. (17) If the bhava is occupied by lord of 9 and aspected by Jupiter: if the lord of 9 occupies 11; if the lord of 9 and the lord of the bhava occupy that Bhava; if the lord of 2 is in 2; the Lord of 4 in 4; the lord of 4 in 1; and the lord of 9 aspects 9, they give benefic results to the bhava. (18) Strong malefics when they possess benefic vargas and are aspected by strong benefics in subha vargas. (19) Debilitated lord of bhava or its karaka in eleven confer benefic results.

Aspects deserving consideration in judging the strength of a horoscope:—

A horoscope is strong when (1) the lagna, its lord, Sun, Moon and 9th bhava are strong; (2) the more the number of planets in common signs the better; (3) natural malefics as yoga karakas in debilitation or in the 12th house are good; or debilitated natural malefics in the 12th house are better; (4) Vargothama Moon in apoklimas to Sun in a friendly house or aspected by Jupiter; (5) horoscopes with Lagna and Moon adhiyogas; (6) benefics in upachayas to Lagna or Moon; more the better; (7) Planets excluding Sun in 4 and 10 houses; (8) Planets in mutual kendras (benefics) or aspecting each other; (9) More planets in own houses or aspecting their own houses; (10) Horoscopes with sunapha anapha and Andra dhruva yogas preferably caused by benefics; (11) Similarly with vesi, vasi or ubhayachari

yogas preferably caused by benefics; (12) benefics on either side to lagna; (13) Shubha mala yogas; (14) Pari varthana of lords of kendras or konas; (15) Sankha yoga horoscopes; (16) Parivarthana of lords of 2 and 11; (17) Males born during day time in masculine constellations having Lagna; Sun, Moon in old rasis; (18) Females born during night in feminine constellations having Lagna, Sun, and Moon in even rasis; (19) Moon in friendly vargas aspected by Jupiter in cases of day birth and aspected by Venus in cases of birth during night; (20) Lagna as Vargothama with benefics in vesi sthanas or in kendras or in konas; (21) karakas of bhavas in kendras or konas to Lagna or Moon; (22) Exalted lord of 9 in 1 or 3 or 9; (23) Planets in Vrishabha, Dhanu or Meena as kendras, (24) Saturn in 4 or 11; Mars in 6 or 10; Jupiter in 5 or 9 to Lagna or Moon; (25) Benefics in 1, 2, 3, 10, 11, 12 houses; (26) Mars in Makara with Sun in Kataka; Jupiter in Kataka with Sun in Makara;

Saturn in Tula with Sun in Mesha; (27) Saturn in Mesha or Makara or Kumbha as Lagna; (28) Jupiter in Kendras to Venus while Moon is in 5 and Sun in Kendra to Jupiter; (29) Moon in Kendras to Jupiter; (30) Moon aspected by Mercury or Jupiter or Venus when not debilitated or eclipsed; (31) Lords of 1 and 12 in mutual kendras aspected by friendly planets; (32) two strong benefics in kendras; (33) Horoscopes with more nabhasa yogas; (34) Lords of 9 and 10 related to 9 and 10 houses or exalted in 9 and 10 houses when not related to lords of 6, 8, 12 or the houses; (35) Sun and Jupiter exalted even when the lord of 9 is rendered weak and related to 9 and 10 houses; (36) Mars in relation to 3rd house; (37) Lord of 6 connected to the 6th; (38) Mars in exaltation.

Above are some of the important aspects. Items 34 to 38 are conspicuously noticed in horoscopes with amatya yogas.

MOLES: THEIR MEANING

ASTROLOGICALLY EXPLAINED

Ankle: People will have black moles in their ankle if Rahu or Kethu or Sani occupies the 11th house counted from the Ascendant, as 11th house indicates ankle and Saturn as well as Rahu and Kethu are the malefic planets causing moles.

As 11th house opposes the 5th [as per Western System] and opposition of evil planets is inauspicious, they do not favour the fertility of the native; he is effeminate; these planets are evil in this aspect. Hindus say that Rahu or Kethu in 5 causes Puthra dosha. If either is in 11, the other must be in 5. Saturn will prove to be definitely evil if it is in 11, in the constellation of Rahu or Kethu for the birth of children. Cowardice in a man is indicated by the mole in this area. If the ascendant is aspected by Saturn, he will not be bold. But the partner in life will be courageous, alert and active, as it is in 5 to the 7th house. When a person has Sani and Rahu in 11, if he takes his wife and consults an astrologer, the gentleman will be gentle and keep silent as though he is guilty, whereas his wife will put varieties of questions and expect some remedial measures to have a child, by praying to God or putting on a costly gem or by visiting any holy place.

As it is declared that planets in the 11th house, whether benefic or malefic by nature, promise happy and harmonious wedded life with satisfactory progress and prosperity, one can be sure of these results, if he has a mole in the ankle. Moles alone indicate and not the scars. The scars are the evidences for the suffering of a person in that particular part of the body. Nor a tattoo mark therein will bring about these results.

Planets in 11 portray name, fame, reputation, social and financial success. 11th

house indicates pleasure, prosperity, permanent tie of friendship, partnership, riches, etc. Hence the mole in the ankle presages the above desirable results.

Arm (Forearm): Third house occupied by the malefics from the Ascendant indicates mole in the arm, especially when it is a movable or common sign. The fixed sign indicates that the mole will be in the neck. Those who have moles in the arms will be courteous. They are industrious. They may have to face many difficulties yet they will pursue and ultimately come out victorious. In every enterprise, they are cautious and successful. Third house indicates inclination to learn everything. So they are versatile and gain sound knowledge to be competent enough to attend to their various undertakings. Third house indicates assistance from others (Sahaya Sthana) to lead a happy life.

Mole in the arm indicates that a person will be a widower at forty. The following is the chart which explains the truth:—

	Sani, Rahu	Mars	
Lagna	Thursday 21-9-1911		Neptune
Uranus	Poorvapalguni		Moon, Mer, Venus
		Guru, Kethu	Sun

At the time of birth 10 years of Venus dasa remained. When he was 40 years of age and was running Rahu dasa, Sani Bhukti, Rahu Anthra; his wife passed away.

[It is mentioned in Uthrakalamritham that Rahu or Kethu in 5 or 9 conjoined with, or aspected by, lords of 2 and 7 cause death. To the native, if you apply, Gurudasa (lord of 2) conjoined with Kethu will cause anxiety. But please apply in the following manner:

Lagna indicates the person. 7th house shows the wife. Rahu is in 9 to the 7th house, Leo-Simha. Sani is the lord of 7 to Leo. Hence Rahu in 9 conjoined with the lord of 7 caused sudden tragic end to his wife. This is how, every rule is to be applied.

For another example let us take "Adhi Yoga". Adhi Yoga is caused when the four benefics, Moon, Jupiter, Venus and Mercury occupy in any manner 6th or 7th or 8th house from the Lagna. If in one's horoscope, you find them in 8, 9 and 10th houses, then your younger brother or sister will have Adhi Yoga, as the 3rd house indicates younger ones and houses 8, 9 and 10 are in 6, 7 and 8 counted from the 3rd house. If the benefics are in 12, 1 and 2, your wife will have the Adhi Yoga as these houses are 6, 7 and 8 counted from 7th house.]

THE FOOD PROBLEM

AN ASTROLOGICAL EXPLANATION

The following chart is erected for the moment at which one asked the editor "Sir, when will the present food problem be over?"

The time of query is 8-30 P.M. I.S.T. on Wednesday, 26th August, 1964.

Place:—New Delhi 77° 12' East and 28° 38' N.

Moon 21.45 Lag. 14.22		Jupiter 2.16	Rahu 5.29 Venus 24.21 Mars 24.24
Sat. 8.17	Rasi		
			Sun 10.8 Ura 16.44 Merc. 22.20
Kethu 5.29		☉ 25.59 Nep. 22.4	

Lagna indicates whether the query will have a favourable answer or not. The Moon's position shows what the querist desires to know. 11th house indicates success. Houses 6 and 8 and 12 are the obstacles and hindrances.

Lagna is Pisces [Meena]. It is occupied by Moon, lord of 5, which is in the constellation of Mercury (Revathi) in the sub of Sun (21°-41'—according to Krishnamurthy Paddhathi—Reference is to be made to January issue). Moon in the watery and fruitful sign, in friend's quarters, portrays that the matter will be solved by friends, friendly nations and by Providence (since Pisces is governed by Jupiter). Moon is in Mercury's star and Sun's sub. Where are these two planets? They are in the 6th house and the 6th sign counted from Lagna. What does the 6th house indicate in Mundane

Astrology? Public Health: Labourers, Unions, strikes, and food supply are the matters signified by the 6th house.

Therefore the problem is any of the above matters or many of them.

Actually the query is about the food supply. No doubt, there are demonstrations. By whom? Saturn aspects the 6th house. Saturn is in Sathabisha star in Aquarius, indicating a group of people including mostly labourers and low-paid servants and some of them will gather together and demonstrate. Further Saturn indicates starvation. So, some may even threaten with hunger-strike.

Whatever it is, will the problem be solved? If so, when?

As mentioned earlier, the 1st and the 11th houses show whether this will be solved. Actually, the lord of the Lagna and the lord of the Rasi is the same Jupiter.

Lagna is occupied by Moon, the lord of 5. It is auspicious. 11th house receives aspect from lords of 1, 2, 9 and 10. They are the planets which cause Rajajoga. Therefore the problem will be solved by the Grace of God and by the person in power, whose ruling planets are Moon, Mars and Jupiter. The star of those persons will be Rohini or Hastham or Sravanam, born in Mars or Jupiter's sign as lagna, mostly in the first three degrees twenty minutes of Scorpio (in Visakam 4th pada in Vrischika, the Lagna should fall) as this area alone is ruled by Mars and Jupiter.

When will such a helping hand come to the picture and from when would the difficulty have commenced? The trouble should have started from the time when the significator of the scarcity of food-stuffs, Saturn, entered into Sathabisha star on 23-3-64. The intensity should have

been felt when it commenced to retrograde, i.e., around 15th June, 1964. The situation had worsened till 27-7-64, when Saturn transited in Saturn's sub. This position reveals that due to constriction of labour, etc., movement of food-stuffs would not be normal. As a corollary, the stocks remain stored in godowns and in-yards. Also, Saturn, in the 12th house in Aquarius, denotes that food-grains would be hoarded, actuated by profit motives, because Saturn, lord of 12 in 12 in a fixed sign opposing Sun and Mercury in the 6th house and squared by the law-abiding planet—Jupiter, presages sub-terranean activity. Jupiter is for plenty and Mercury for free movement and open market. When these two planets are either opposed or squared, fair deal cannot be expected. Also Jupiter being squared by Saturn shows that bankers will bring pressure on those who have borrowed money and restrict the overdraft facility. As Jupiter was in Sun's constellation, the Government Bank, the Reserve Bank, will bring the remedy to release the hoarded stock by limiting the overdraft. The helping hand comes when Jupiter entered Venus star in Mars sign—Bharani, i.e., in the middle of June 1964. And when Saturn enters into the Jupiter's sub between 27-7-64 and 21-8-64, rapid progress will be made by the Government. Benevolent countries will offer assistance to tide over the difficulty. But when Saturn again transits in Rahu's sub, between 21-8-64 and 18-9-64, there will be demonstrations, debates and difficulties. Luckily, Saturn passes on to Mars star—Dhanishta after 18-9-64. Even though Saturn is in its own sign, it will not be as strong as it was in Sathabisha—Does not Saturn get debilitated in the sign owned by Mars? Saturn in Mars sign and Mars star will be weak. Further Dhanishta is ruled by Mars, Rajayoga adhipathi. So, the situation takes a turn for the better and the prospects of solving the difficulties become brighter from 18-9-1964. Demonstrations, etc., will end. Peace and prosperity are to be expected. The 11th cusp falls between Makara 5° 39' to Kumbha 5° 39'. Saturn enters 5° 39' in the first week of October 1964. This sub is ruled by Moon which assures success to the Government

and satisfaction to the public. Saturn continues to be in Mars constellation till 15-12-64. Therefore, week after week, there will be progress and there will be no room for any grievance. The actual date on which the statistics of the stock and the satisfactory position of food-supply will be disclosed, will be on 2-11-1964 when Saturn becomes direct. No more evil is indicated.

Let us find out by another method, how far the above conclusions are astrologically correct and whether there is confirmation. According to the Modern Astrological Research Institute, Madras, India is represented by 12° 20' of Capricorn, though text books say that the entire sign of Capricorn denotes India and a few authors suggest Virgo.

Let us take 12° 20' of Capricorn. Saturn, lord of the ascendant, is transiting in the second house and is retrograde. It was in its own sub. between 5-5-64 and 15-6-64. It is said that Saturn is a Maraka to Capricorn-borns and it will be harmful while transiting in an evil star. So Saturn, during this period, brought an irreparable loss to India which is indicated by Makara. [Death of beloved Jawaharlal Nehruji.] Saturn was in Rahu's star. Rahu is in Gemini. It is the 6th house to Capricorn. Sixth house represents food-stuffs, labour, etc. Hence there will be trouble for food and for labour. These we are now facing. Now one may ask even next year i.e., 1965, Saturn will be in Sathabisha star: so will we suffer even in the next year? The answer is 'No'. Because, luckily Rahu moves from Gemini to Taurus on 7-12-1964. Therefore from 7-12-1964 it will indicate the results of Taurus, the 5th house to Capricorn.

It indicates birth control for a period of 1½ years when Rahu is in Taurus which will be advocated by Government and adopted by many, as Saturn continues to be in Aquarius, the second house to Capricorn—(Houses 2 and 5 are for progeny. Saturn is an effeminate planet and it is unproductive; Rahu is abortive.)

Therefore, even though Saturn may again transit, the same position will continue after 15-12-64, there can be no food

problem at all, as Rahu does not indicate food-supply.

In the 6th house Mars, and Venus are posited. They are in rapt conjunction. Hence Mars, as Lord of 11, indicating friends and friendly nations, and Venus, as Lord of 10, denoting Government in the 6th house show that the Government are fully aware of the situation and will make all efforts to cater to the needs of the people by receiving aid from friendly nations.

The query was at 8-30 P.M. I.S.T. or 3 P.M. G.M.T. According to the western

system at 6-56 P.M., G.M.T., i.e., 3 hrs 56 min. later, Mars conjoins Venus. A per progression 1 day = 1 year measure Mars conjoining Venus will give the result in $\frac{236}{4}$ or 59 days; i.e., by 25-10-64, the stock will be sufficient. Friends' help will be received. And India will have its own crop yielding much more than normal.

Therefore, one can be sure that the problem will get slowly solved from 18-9-64. It will improve much by 2-11-64 and will be absolutely alright thereafter.

CHARACTERISTICS TO BE CORRECTED

By KAYESKAY

Which is the greatest sin or handicap? Fear and Inferiority complex.

Man is called "Purusha" because he is expected to have "Powrusham". Courage is governed entirely by Mars. So those born under the Martian signs, Aries and Scorpio, or having Mars in the ascendant or in the meridian will be bold. Aries people undertake quickly and finish it rapidly and daringly whereas the Scorpio people will consider the merits and demerits, realise the risk and finally with their will-power fulfill their desire. Mars ill-aspected makes one fool-hardy, arrogant, aggressive and authoritative.

But fear or cowardice is due to the evil disposition of Saturn and Moon. There will be no ray from Mars. Also the mutable signs do not give courage. Generally fear and inferiority complex are found in persons born under poor circumstances. Anxiety arises due to inadequacy. But if one is born in a rich family or to the parents who are well placed in life, then the person indulges in boasting and posing superiority. If at school, the boy who has scored less marks, feels similarly in the presence of one who has scored high marks. A girl with moderate beauty feels delicate to be in the company of more beautiful girls. This is borne out by astrological considerations. Inferiority complex is mainly due to the affliction between Saturn and Moon. Also if the third house receives adverse aspect from Mars, one will have no confidence. If Moon is conjoined with Saturn, he or she is mostly funky and they suffer from complex.

Prithuyasas says that majority of planets causing Madhya Yoga give trouble by sheer fear to the native (because it is the 8th house to the third house indicating courage) (Adh 19, Sloka 37). He adds that Moon and Mercury should not occupy 3 or 6 or 8 or 12th house. (Adhyaya 13, Sloka 11.)

In Phala Deepika it is mentioned that waning Moon in Lagna causes fear. 6th house in a horoscope indicates the fear of a person, probably because planets in 6

and 12 will square the third house. Mantreswara says that the chief governor for fear is Saturn. Lord of Lagna, occupying evil sign when badly placed, indicates that during its period the person will suffer from fear. Even though the Dasa lord may be Mars, even then, if the sub period is ruled by Saturn, it causes fear.

Planets occupying a sign, where the number of "BINDHUS" in Ashtakavarga is less, causes fear. In Sanketanidhi it is said that Rahu in Sayana Avastha and in 2 or 11 or 12 produces fear in one. Another variety of fear may be termed as "Beethi" and it may be found in a person who has a malefic in his ascendant with Gulika in 5 or 9; or Gulika may be conjoined with Lord of Kendra or Kona or Rahu Kethu. Sani may be conjoined with Lord of Lagna. The person will not trust anybody. He cannot trust himself even. He will be terribly afraid of others as he imagines that they may cheat him. So that "Beethi" will always be found in him.

Better be cautious. But never suffer from fear and Vanchana chora and Beedhi yoga.

Use Ruby, or red stone or Coral.

Pray for Subramanya—Anjayneya—Narasimha or Durga—Lalitha.

Never use "Blue" colour.

The following is the horoscope of a person who suffers from fear and inferiority complex.

Jupiter Uranus	Mercury	Sun	Venus Mars Rahu
	Rasi		Neptune
Kethu	Moon Sani		Lagna

MOON, IN THE NINTH HOUSE (Contd.)

Moon as the lord of 7 in 9 in Uthrapalguni star, ruled by Sun, indicates that the native may marry a bride, born in a family, not already closely related. He will try to contract a love marriage. He will secure a job under strangers or in a foreign Government Embassy or International trade, Exports and Imports. The person will be pains-taking, sincere and honest and, by sheer labour, he will gain but comparatively much less than what his employer will be benefited by his service. [Lord of 7 in the constellation of lord of 8 means, lord of 1 in the constellation of lord of 2 when counted from the 7th house.] The person will not be successful in any competition or election during the period of Moon.

Moon as lord of 7 in 9 in Hastham star, gives marriage with a foreigner; in business, agreement with strangers; arrangements for foreign collaboration; frequent long journeys; working hard but ever trying to change the partner in business; unsettled state of affairs; service in Engineering departments, Textiles, Television, Agency, representative Consul-general's office, Liason officers, Broker etc.

Moon, as lord of 7 in 9 in Chittrai star, promises pleasure, profit, permanent tie of friendship, good yield from holdings, satisfactory returns from property, purchase of wet lands, service in Press, Publication, Army, Defence, Military or Postal Audit, Mechanical Engineer, Boilers, Steam Engines, etc. But it is inauspicious to father as Moon is in the constellation of lord of 8 to the 9th house.

Moon as Lord of 8 in 9 in Makham star is not in a favourable disposition. Confusion, fear complex, worries, and danger from poisonous drugs are indicated; gains to partner by editing, or by making frequent journeys is the only beneficial result. Father will incur loss.

Moon, as lord of 8 in 9 in Poorvapalguni star, shows danger in a foreign place accident during travel with family or friends, loss of money by partner, ailment to wife especially during pregnancy. Father thrives in a foreign place. Actually, a friend of mine born in Dhandlagna and in Poorvapalguni star, during his Moon dasa, Venus Bhukti, went to marriage party and all those who travelled in that car met with an accident.

Moon, as lord of 8 in 9 in Uthrapalguni star, shows that, during the period of Moon, he will face many difficulties and his attempts to go overseas or to execute higher studies will be in vain. Moon, as lord of 9 in 9 in Punarvasu gives good luck to wife or partner in business after initial troubles. Expansion of business, assistance from bankers, foreign collaboration, practice of Law in High Court, Supreme Court, etc., to have siddhi in Manthras, to be blessed by Goddess Parvati, Gowri, St. Mary as indicated.

Moon, as Lord of 9 in 9 in Pushyami indicates frequent short journeys, change of residence, profession, etc. One will feel depressed and dejected.

Moon, as lord of 9 in 9 in Ashlesha ruled by Mercury, indicates that one can link his fortune with another and make enterprises with a partner so that he can gain. Export, Import, agency, etc., will be advantageous.

Moon, as lord of 10 in 9 in Mrigashirsha, is auspicious to gain through Military, Police, Industry, independent auditing Editor, Press owner, milk owner etc. It indicates bold venture and grand success. One may have plurality of interest like printing newspapers in various parts with various titles, to have branches of repairing sheds, etc.

Moon in Arudhra star will give such results as Rahu in one's chart indicates. If Rahu is in 4, in the birth chart, as he would have been born in Libra Lagna, Moon shows change of residence, separation from father, life in a foreign place, etc.

One native was born with the following chart:—

	Venus	Sun Mars	Moon Merc.
Sanl	Born 13-6-1934		Kethu
Rahu			
		Lagna	Jupiter

During his Rahu dasa, Moon Bhukti, Rahu sub period, he had to go away in May 1942, during evacuation from Madras, leaving his father who had to attend to his duty, as it was declared to be "ESSENTIAL SERVICE."

Moon in Punarvasu star gives one service in Law, Religion, Bank, College, etc. and it is really lucky for service but causes ailment. The pulmonary system will be affected.

Moon, as lord of 11 in 9 in Karthikai

star, promises that one can be lucky in a foreign place. Even when a few may try to do harm to the person, the native will prosper. One cannot confide anything with friends. Moon appears to be exalted; it claims to be lord of 11—a Labha Sthana. It occupies Bagyasthana—Yet during the sub periods of Moon in Karthikai, one will realise the ingratitude of a friend. Ingratitude is stronger than traitor's arms.

Moon, lord of 11 in Rohini in its own constellation, portrays many friends, grand success, popularity, prosperity and much progress. All-round success and absolute happiness are presaged.

Moon, lord of 11 in 9 in Mrigasirisha, lands one into trouble and his own colleagues and neighbours, known and unknown will cause difficulties. He will spend away all his savings to get out of the danger.

Moon, lord of 12, in 9 in Aswini, threatens worry and danger in unknown places through unknown sources. It is an undesirable disposition.

But Moon in Bharani in 9 gives one service in close-by quarters under a stranger. It offers name, fame, reputation and satisfactory remuneration. He may be the private secretary or camp clerk and will visit foreign lands.

Moon in 9 in Karthikai star is fortunate to secure service in Medical, Military or Mechanical Engineering. He will be courageous and by his strong will, he will be a prominent figure in the world and will be enjoying a successful career.

MOON IN THE TENTH HOUSE

Moon is the fastest moving planet. Its characteristic is often changeability and its influence is often unsettling. Unless Moon receives good aspects from Saturn, steadiness of mind, same residence and any one permanent profession is out of question. One will be wavering and vacillating. Like a rolling stone, he will move from one avocation to another, especially when Moon occupies a movable sign and its period operates.

Moon governs one's intellect, disposition and reaction to the various incidents in one's life.

Kalidasa in 'Uttara Kalamritha' mentions that the following relate to Moon :

Liquids	Tank well	Saline
Honey	Good perfume	Flower
Silver	Diamond	Wheat
Curd	Long journey	
Royal insignia	Fruits	Fish
and Water-born creatures,		Silk
Women	Sleep, etc.	

Moon further indicates the stomach of the people and the breasts of the ladies.

Being a watery planet, it portrays shipping, navy, water analysis, salt, fish, corals, pearls, kerosene, petrol, milk, agriculturists, vegetable and fruit growers, nurses, cooks, stall managers, launderers, etc.

The products which are signified by Moon are cucumber, melon, oranges, poppy, palm, plantains, ghee, sugar, saffron, beetle leaves, nickel, ever-silver, cooked food, camphor, alum, horses, etc.

Politically Moon refers to the mass of people, the ladies and their societies, marriages, navigation, river projects, dam construction, bridges, swimming pool, agriculture, horticulture, etc. Moon also shows breweries, drinks, dance, music, commerce, trade, cinema and laundries.

Tenth house indicates, according to Kalidasa, trade, honour from Government, horse riding, athletics, service, agriculture, doctor, name, fame, depositing a treasure, talisman, mantras, mother,

morality, medicine, thigh, prosperity, adopted son, teaching and the intellect to command.

Bhattotpala says that one has to refer to the 10th house for kingdom, zeal of authority, religious merit, rank, one's father, rain, etc.

In Jatakapari Jata, Vaidyanatha Dikshita says Vyapara (trade), Meshurana, Madhya (median), Mana (prestige), Gnana (wisdom), Rajaspadada (kingdom) and Karma (duty, profession, work) are the indications of the 10th house:

Ramadayalu in Sanketanidhi discusses the 10th house and mentions that it represents the two knees and the backbone of a person. Also one's occupation, father, family, happiness, ought to be ascertained from this house.

In Satya Samhita, it is said that the 10th house refers to one's worldly standing, rank and eminence as well as the association with virtuous people.

The tenth house denotes the master, promotion, appointment, etc. It is to be considered as the house of danger to younger brother (being the 8th house to the third), partner in business, to the mother or the sickness of children or their open enemies or debts, (as 10th house is the sixth to the fifth) (being fifth to sixth) servant's children, wife's permanent possession or partner's conveyance, father's self-acquisition and the loss to elder brother.

In horary Astrology, 10th house indicates the property taken away by thieves, secret enemies of friends and gain by long journey or by higher studies or by science.

It also indicates the stewards of the race club, their President, the aristocracy of the owners of the horses and the trainers.

The tenth house, politically rules the Government and its chief administrator, eminent persons, the royalty, the nation's honour and integrity, its credit, its status when compared with other nations and the political situation.

Moon in the tenth house, if well aspected by *Jupiter*, will ensure smooth life, give popularity, political career, service in overseas bank, foreign exchange department, law department, religious institutions, etc. It inclines to public life. It offers long voyage if it is in a movable sign. Adverse aspects threaten unsteady profession, loss of money, honour, etc.

Moon in 10, aspected favourably by *Sun*, gives service in the Government and a steady rise in his career. He may work in Public Health Department, or may be a Mechanical Engineer. He will have good understanding with high officials and hence his claim will never be overlooked.

Moon in 10, receiving favourable aspect from *Mars*, denotes that one may deal in drinks, breweries, steamers, steam engines, navy, police (in harbour), wet lands, construction of dampits or a trader in all matters indicated by moon. One will not be wavering, but will be ambitious, brave and resolute. Occasionally he may be rash.

Good aspect from Mercury indicates that he may be an agent, representative, journalist, engineer, auditor or a worker in the Textile department. Bad aspect threatens that he may have fear complex and become more and more nervous. Those who work in publicity, advertising, mail service, reception office, or act as interpreters will have the beneficial aspect between Mercury and Moon.

Venus and Moon in harmonious aspect gives service in petrol, petroleum products, drinks, milk dairy farm, animal breeding, music, perfumery, scented oils, art, exhibition, drama, public function, catering to public tastes, bakeries, confectionery, hotels, etc., or deal in fruits, vegetables, etc.

Saturn and Moon in auspicious aspect gives one steadiness. He may serve in mines, kerosene, petrol or lands, or hold the position of trust.

Lord of 1, forming good aspect with Moon in 10, indicates that fortune will favour him and even if he is born in an obscure family, he will come to the forefront and be popular. He is self-made.

Lord of 2, forming good aspect with Moon in 10, gives increase in income and improvement in status.

Lord of 3, forming beneficial aspect makes one a salesman, agent, camp-clerk, touring officer, travelling ticket examiner, air-hostess, nurse, etc.

Lord of 4 in good aspect shows that he may gain in his own permanent place of residence. He may be a land broker, a broker, etc. He may live on his inherited property or on agricultural produce. Mother will be very helpful.

Lord of 5 shows gain by art, music, cinema, drama, paint, speculation, lottery, mantras, and through children.

Lord of 6 indicates gain by cattle, service in animal husbandry, dairy farm, milk depot, nurse, Medical and Public Health Department, election or to act as jury.

Lord of 7 shows increase in one's income through partnership, harmonious wedded life, purchase of property, gain through partner, promotion in service through his or her partner's influence, etc.

Lord of 8 shows service in Insurance, medicine, tonic, much of strain to have some gains, routine, monotonous career etc.

Lord of 9 offers peace, pleasure, International trade, commission, overseas, consulate, Embassy, gains without pains, shipping, export-import, foreign collaboration, etc.

Lord of 10 promises popularity, prosperity and pleasure.

Lord of 11 brings many friends. One will run a very smooth life, will be popular etc.

Lord of 12 forming good aspect with moon in 10 gives fortune in a place other than his native place. Even if one tries to do harm to you, it will finally end in your favour.

If Moon is lord of 1 and is in 10 in *Aswini*, it gives a career in the Navy, industry, boilers and breweries; yet he will have worries and difficulties. Moon as lord of 1 occupying 10 in *Bharani* offers service in military, police, welfare office

dairy farm, bakeries, biscuits, ghee, butter, etc.

Moon, as lord of 1 in 10 in Kārtthikai star in Arjes, gives service in navy, surgical department, ammunition, factory, steam engines, etc.

Moon, as lord of 2 in 10 in Meena-Pisces in Poorvapathrapada star, gives results, similar to Gaja Kēsari Yoga—Service in Bank, religious endowment, law, educational institutions, arrangement of marriage, Registrar, etc.

Moon in Uthrapathrapada, as lord of 2 in 10, causes anxiety, worry and also loss in trade, waste by undertaking long journey, etc. One will miss to insure and hence he will lose thereby due to his laziness and negligence.

Moon in Revathi star brings honour, transfer, promotion, permanency, advertising publicity textiles, art, music etc

Moon, as lord of 3 in 10 in Dhanishta, brings ill-repute and scandal. Partners will get separated; short journeys, advertisements and publicity will all become fruitless. Litigation with colleagues and neighbours will contribute for further loss.

Depending on Rahu's position, one is to state how Moon in Sathabisha will be.

But Moon in 10 in Aquarius and Poorvapathrapada shows that one will have much obstacle and hindrance. One will face them and by Providential help, he will come out successful. One may be an Insurance agent and mint money. Actually in his Mercury dasa; Jupiter Bhukti he will be fortunate. Similarly, one will be a broker and earn. Taurus Lagna people, with Moon in Poorvapathrapada receiving good aspect from Mercury will be fortunate.

Moon, as lord of 4 in 10 in Uthirashada star, gives service in Mines, Geological Department, Archaeological Department, fortresses, monuments, etc.

Moon in Sravanam indicates gains through property, land, inheritance, petrol bunks, dealings in old cars, vehicles, hiring them, submarine, corals, saline produce, pearls, etc. Also he will be a well-informed; wide-awake worker.

Moon in Dhanishta, as lord of 4 in 10, gives him very good lift and one becomes popular and rich. No doubt he is a painstaking and hard worker. Yet he has to exercise care and should never be impulsive or rash. He should not be obstinate and fool-hardy.

Thus one is to analyse and judge the results of Moon for the other houses also.

The following combinations are noteworthy for the results offered :—

1. Moon conjoined with Sun makes one a Mechanical Engineer or potter. It also offers service in Government.
2. Moon, Sun, Mars—Home Department, Navy, Estates.
3. Moon, Sun, Mercury—Textiles.
4. Moon, Sun, Mercury, Jupiter—Advertising, Publicity, Press Information—Reserve Bank.
5. Moon, Sun, Mercury, Venus—Music, Radio.
6. Moon, Sun, Mercury, Saturn—Geology, Archaeology, Mines.
7. Moon, Sun, Jupiter, Mercury—Commercial tax, Auditor.
8. Moon, Sun, Jupiter, Mercury, Venus—Income-Tax, Railway Audit.
9. Moon, Sun, Jupiter—Law, Religion, Bank, Education.
10. Moon, Sun, Jupiter, Mercury, Mars—Military Accounts.
11. Moon, Sun, Jupiter, Venus—Judge, Music College, Films.
12. Moon, Sun, Jupiter, Saturn—Philosophy, Religion, Famine Department.
13. Moon, Sun, Venus—Maternity Home.
14. Moon, Sun, Venus, Saturn—Mica Mine, Gold Mine, Leather Institute, Tanning.
15. Moon, Sun, Rahu—Jail Department.
16. Moon, Mars—Boiler, Breweries, Steam Engines.

Thus the nature of the planets is to be considered and the profession is to be judged.

VIMSHOTHARI DASA AND ITS SUBDIVISION

In 1964 August issue, it was explained why the Zodiac of 360° is divided into 27 equal parts and each part is governed by one of the nine planets (Kethu, Venus, Sun, Moon, Mars, Rahu, Jupiter, Saturn and Mercury in the order) and how each planet is allotted a particular period so that all the 9 planets in total rule 120 years which is considered to be the span of human life.

Explanation was given to understand why the 27 parts of the Zodiac is called after 27 different names called stars or constellation or Nakshathras.

Also it was illustrated how one is to calculate the balance of a dasa at the time of birth taking the position of Moon at birth.

Now let us take an example and work out, not only the balance of a dasa at birth, but also the order of the dasas to follow, their periods and their sub periods.

		Moon, 16°	

Suppose one is born with Moon in 16 degrees in Taurus—Rishaba, i.e., 46° from Aries—Mesha 0° .

Mesha 0° to $13^\circ 20'$ is called Aswini which is governed by Kethu. $13^\circ 20'$ to $26^\circ 40'$ is termed Bharani and is ruled by Venus.

The third zone is $26^\circ 40'$ to 40° , called Karthikai and it is influenced by Moon. Then 40° to $53^\circ 20'$ is governed by Mars and this zone is called Rohini. So position of Moon at the time of birth in Rohini star which extends from 40° to $53^\circ 20'$. The number of degrees passed in that star may not be taken for calculation.

We are concerned with the portion of the star that is to be transited by Moon to complete the star after the birth. The position of Moon was 46° . Therefore Moon had passed 40° to 46° or 6° . This need not be taken. But take only the portion to be covered. The star extends upto $53^\circ 20'$. Moon was at 46° . Therefore Moon has to pass $53^\circ 20' - 46^\circ = 7^\circ 20'$ to complete this zone.

For finding out the balance of the dasa at birth, note only the balance of the dasa to be covered. It is $7^\circ 20' = 440'$.

The name of the star is Rohini. It extends from 40° to $53^\circ 20'$. This zone is ruled by Moon. It has been allotted 120 years, out of the 120 years of Vimshothari dasa, namely,

(Kethu dasa	7 years.
Venus dasa	20 years.
Sun dasa	6 years.
Moon dasa	10 years.
Mars dasa	7 years.
Rahu dasa	18 years.
Guru dasa	16 years.
Shani dasa	19 years.
Budha dasa	17 years.)

$7^\circ 20'$ or 440' are to be passed. It is the portion to be covered by Moon to completely pass Rohini.

Each star extends for $13^\circ 20'$ or 800'. Therefore Rohini extends totally 800' and Moon, lord of Rohini, covers 120 years. It means that 800' of Rohini =

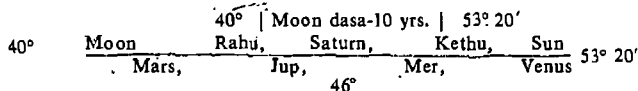

years of Moon dasa. If only 440' is left, then the balance of Moon dasa at the time of birth = $440 \div 800$ and the result is to be multiplied by 10 years.

$$\therefore \text{i.e., } \frac{440}{800} \times 10 \text{ years} = 5 \text{ years } 6 \text{ months.}$$

These 5 years 6 months are the balance of Moon dasa at the time of birth.

For new students, a doubt may arise whether the balance of 5 years 6 months of Moon dasa is to be distributed to all the 9 planets or they may be anxious to know how it should be done :

Rohini

Moon was in 46°
(Nirayana system)

In the Zodiac, 40° to 53° 20' (Nirayana system) is governed by Moon. It is called Rohini. In the total period of 120 years, Moon rules only for 10 years. Always the dasa lord rules the first sub period; then the other sub periods are ruled by the remaining 8 planets in the cyclic order, i.e., Moon followed by Mars, Rahu, Guru, Sanj, etc.

Therefore in the 13° 20' or 800', the first 10/120 is governed by Moon: the next 7/120 by Mars: the third sub period is ruled by Rahu, i.e., 18/120; Jupiter governs 16/120; Saturn 19/120, Mercury 17/120; Kethu-7/120; Sukra-20/120 and Sun-6/120. Therefore, referring to the January 1964 issue, page 38, you will note:

Moon governs 10° Taurus to 23° 20' Taurus; in that, Moon's sub period extends from 10° 00' 00" to 11° 6' 40". Mars 11° 6' 40" to 11° 53' 20" 5: Rahu 11° 53' 20" to 13° 53' 20": Jup. 13° 53' 20" to 15° 40' 00": Sat. 15° 40' 00" to 17° 46' 40": Mer. 17° 46' 40" to 19° 40' 00": Kethu 19° 40' 00" to 20° 26' 40": Venus 20° 26' 40" to 22° 40' 00" and Sun 22° 40' 00" to 23° 20' 00".

Therefore if the birth was in 6° Rohini, it means Moon was in 16° in Taurus. Therefore Moon was transiting in the sub of Saturn, in Rohini star ruled by Moon. Hence, at the time of birth, Moon dasa, Saturn Bhukti was running—the Mercury

sub will follow—later, Kethu, Venus and lastly Sun sub in Moon dasa.

The balance of 5 years 6 months should not be divided to all the 9 planets. The first sub is Moon dasa Saturn sub.

Saturn Bhukti will be $\frac{19}{120} \times 10 \text{ years}$ or 19 months or 1 year 7 months.

But Moon was not in 15° 40' where Saturn sub starts. It was in 16°. Therefore even in Saturn sub 0° 20' has passed. Only 1° 46' 40" is to be covered. So in this proportion, the part that is to be covered is worked out and for the portion 17° 46' 40" minus 16 degrees or 1° 46' 40", the period is calculated.

Total area of Saturn sub = 2° 6' 40".

Portion to be covered = 1° 46' 40".

For 126° 40" the period is 19 months or 1 year 7 months.

For 106° 40"—What is the period?

It is $\frac{106\frac{2}{3}}{126\frac{2}{3}} \times 19 = \frac{320}{3} \times \frac{3}{380} \times 19$ or 16 months.

Therefore at the time of birth, 16 months of Saturn sub is to run. Then 17 months of Mercury; 7 months of Kethu and so on. After the child completed 5 years 6 months of Moon dasa, Mars dasa of full 7 years is to run, followed by

18 years of Rahu; 16 years of Guru, and so on.

To calculate the sub sub period, called *Antharas*.

Suppose one runs Venus dasa Rahu Bhukti and it is to be sub-divided.

Venus dasa runs for 20 years. The first 40 months are ruled by Dasa lord Venus, the second sub is ruled by Sun for 12 months; 20 months are governed by Moon and 14 months are governed by Mars. Next follows the sub period of Rahu in Venus dasa. Venus rules 20 years in the total 120 years. Rahu rules for 18 years in the total 120 years. Therefore

Venus dasa Rahu Bhukti is $\frac{20}{120} \times 18$ yrs. or 3 years.

To find out the sub sub period or anthra in Rahu sub period of 3 years.

Imagine Rahu period is for 3 years and the first sub sub is to be ruled by Rahu (and not Venus dasa lord). Jupiter will follow. Next Saturn governs and so on.

These 3 years are to be divided in the same proportion commencing from Rahu. Rahu's sub sub period or anthara in Rahu sub period Bhukti of 3 years =

$$3 \times \frac{18}{120} = \frac{54}{120} \text{ year} = 5 \text{ months } 12 \text{ days.}$$

$$\text{Next Jup: } 3 \times \frac{16}{120} = \frac{48}{120} \text{ year} = 4 \text{ months } 24 \text{ days.}$$

$$\text{Sat. sub sub } \frac{3 \times 19}{120} = \frac{57}{120} \text{ year} = 5 \text{ months } 21 \text{ days}$$

$$\text{Mercury } \frac{3 \times 17}{120} = \frac{51}{120} \text{ year} = 5 \text{ months } 3 \text{ days.}$$

Similarly, in the same proportion, as they are allotted for Vimshothari dasa, the sub sub is to be distributed.

Again the sub sub can be sub divided in the same proportion among the nine planets which are called *shookshmas*.

Suppose one runs Venus dasa, Rahu Bhukti, Jupiter anthara and he sub divides Jupiter anthara. Venus dasa Rahu Bhukti runs for 3 years. Jupiter anthara commences after Rahu anthara of 5 months 12 days are over—Jupiter anthara is to run for 4 months and 24 days or 144 days.

If the total period is 120, then Jupiter has 16 out of 120; then Saturn has 19 out of 120, Budha (Mercury) has 17 out of 120 and so on.

Suppose in a public limited concern, there are 9 shareholders and the shareholder Jupiter has 16 shares, Saturn 19, Mercury 17, Kethu 7, and so on. Suppose 144 is the profit. How will you distribute it? It is done, in the proportion in which each holds the shares.

Similarly the 144 days are distributed. The proportion in which it is distributed is constant. Therefore Jupiter's *sookshma* is $144 \times \frac{16}{120}$ days or 19.2 days.

$$\text{Saturn's sookshma is for } 144 \times \frac{19}{120} \text{ days or } 22.8 \text{ days.}$$

$$\text{Mercury's sookshma is for } 144 \times \frac{17}{120} \text{ days or } 20.4 \text{ days, and so on.}$$

For ready reference and to avoid mistakes, the table will be published in the next issue.

TRANSIT—CORRECT METHOD OF PREDICTION

"Transit" otherwise called "Gochara Palan" by the Hindus is a sub-branch of Natal astrology. An improvement in the application of the general principles of astrology handed over to us by our ancient sages and scholars is indicated here.

According to the Western system, the astrologers take the radical position of the Sun at the time of birth, consider the relative position of the planets transiting the zodiac and give out their results. Whereas in India, according to our Hindu system, the position of the Moon at the time of birth of the native (Nirayana system) is taken as the starting and determining point to which the transiting position of the planets are related and according to the relative position, we read the results and say whether the time is auspicious or not. Both the methods are incomplete and the percentage of failures is therefore large. This is no doubt not desirable.

(a) The Western System: Let us take, for example, two persons who are born in different years but on the same date: say 10-8-1913 and 10-8-1916 respectively. Suppose the person born on 10-8-1913 asks an astrologer whether he will come out successful in the election. If the astrologer were to predict that, at the time of the election, the relative positions of the planets transiting the Zodiac being very favourable compared to the position of the Sun at the time of the birth of the native, success in the election was promised, then the same opinion must be offered to the other who is born on 10-8-1916. Suppose both of them stand for election to the same seat in the same locality; how is it possible for both to win? Only one can win while the other must lose. So we should consider how far this method of prediction will be of avail to the querist.

Again suppose one was born on 17th May, 1926 and another on 17th May, 1940.

Both play at cards or one borrows money from the other or one gives alms to the other; while at cards one should gain and the other should lose; while lending money, one should part with his money and the other should receive it, and therefore the lender's financial position deteriorates and the borrower's improves—similarly while giving alms one donates, and the other receives. Now, you will not say that all these people were born on the same date but in different years and the position of the Sun in every case was in the same sign and in the same degree. On the basis of the principles followed by Westerners, i.e., according to the relative position of the transiting planets to that of the Sun alone at the time of birth, diametrically opposite results cannot be foretold. There is no proper explanation when their rule on Transits, taking Sun's position alone, are strictly adhered to.

(b) The Hindu System: You will find the above similarity in the Hindu method also. We are not able to explain why quite opposite results are enjoyed or experienced by one and the same rasi births, i.e., people born when the Moon was transiting a particular constellation. For example, when the Moon was transiting Bharani star, i.e. Mesha Rasi, two people were born on different dates, even in different years. Now one born in Bharani star competes with the other Bharani native; one comes out victorious while the other gets defeated. Again suppose a plaintiff in a law-suit is born in Bharani, the defendant is also born in Bharani and the Judge also happens to have been born in Bharani. Now, look at the result. One of the two Bharani star's natives gets the favourable judgment, the other is vanquished, and the third Bharani star native delivers the judgment. So to predict the Gochara or transit results taking only the star into consideration is also incomplete. That is why the Rasipatans published in the

dailies, weeklies and monthlies vary even in the essentials so widely and so erratically that they give scope to the public for ridiculing this noble science. Therefore, there should be a fool-proof and accurate method by which a correct prediction can be offered. For doing this, a *complete chart is necessary* and the relative position of all planets transiting is to be judged with the position of all planets in the chart and especially the position of Lagna, etc.

The public may ask: "Why then such an incorrect one is handed down to us?" What is handed down to us is not incorrect but only incomplete. It appears that, if one knows only his date of birth or only his birth-star (Nakshatra) he too should, to some extent, get a prediction that will give him mental solace. Astrology includes also *psychotherapy*: it should be able to give mental strength to the people who are depressed so that they can work with enthusiasm, entertaining hopes of better times to come; even when suspense is threatened, such people will not worry any longer. They will wait with pleasure for better days. So astrologers offer predictions which may be true to a limited extent, especially to a few.

Actually, if the position of each and every planet in the chart of a subject is taken into account, the predictions offered *should not fail*. "A cent per cent success is assured by taking the lagna and the position of various planets including Uranus and Neptune, as well as that of the most sensitive point, *Fortuna*, at the time of the birth of the native and the position of the planets transiting in the Zodiac along with the several aspects that are being formed and then offering the results.

-- It will be observed that people born on the same date in different years with different positions of the planets enjoy different results. The readers will find this for themselves that, when all planets are taken into consideration and the results so derived are used and the general predictions are accordingly modified, only correct results are obtained.

For example, two girls, born in Rohini star, are taken of whom one gets married in a particular year and the other gets married the next year. In such cases, one can find that, according to the position of the lords of 2, 7 and 11th houses in each horoscope and to the relative position of the planets transiting in the Zodiac, the planets promise marriage of the former in a particular year; whereas, for the latter, they portray the wedding only in the following year. Thus one will find that even though both are born in the same star, the events occur on different dates. This is due to the relative positions of the relevant planets at the time of birth and transiting in the Zodiac.

If it were possible for any one to collect the charts of many couples who get married on a particular date in a given place, city or town, or at least note down their birth dates and birth stars which will reveal the positions of the Sun and also of the Moon at birth, it will be found that people born with the Sun in each of the 12 rasis and with the Moon in any of the 27 stars get married on that very same date. You will also not find that only Aswini star people get married on that particular day or only Bharani or any other star. You will find actually that people born in all the 12 months of the year and under all 27 stars get married.

Now let us see what the sages have declared. Jupiter, while transiting in 2 or 5 or 7 or 9 or 11th house counted from the Moon's sign, offers *Gurubalam* which is good and in all other positions, in relation to the Moon, there is no *Gurubalam* or *Viyazhabalam* or "Brishaspathi Balam". If to a girl, Jupiter transits in the third house, ordinary astrologers naturally will predict that, because Jupiter is transiting in 3, *Gurubalam* is not found and hence marriage will not materialise. Unfortunately, they will realise soon that their prediction has miserably failed when, fortunately for the girl, the marriage has come off. In 1961, Jupiter entered Makara. Only after Jupiter transited through Makara, many Anusham star girls got married even though it (Jupiter) was in the third rasi. When we follow

the principles that Jupiter in 2, 5, 7, 9 and 11th houses alone can give fruitful results, how can marriage take place when Jupiter is in the third house? Again in every year, if you collect the charts of the people born under the same star, you will find that, in all years, a few of the people born under the same star, e.g., Pushyam (Poosam) star get married or enjoy life or get promotion or otherwise realise their ambitions. So when you compare the position of the transiting planets with the position of the Moon or Sun at the time of the birth of the natives, you will find that, in all positions on different dates, wedding was celebrated to one or the other born under the same star or born on the same date. Here also, you will conclude that the science is incomplete. But when you apply the method described herein, you will understand that there is not even one per cent error but everything comes out very accurately and correctly, which will go to prove that astrology is really a mysterious and wonderful science, given only to the few who have the *Divine Grace*. So you have to consider the positions of all the planets and Lagna at the time of birth and assess them in relation to the relative positions of all the planets transiting in the Zodiac at any future predicted date.

It may be argued that the Hindu method is better than the Western. The Hindus, as stated already, take the relative position of the Moon, while the Westerners take the position of the Sun as the basis of computation. Probably the westerners take into consideration the vitality, health and the profession of the native, as being all important and this triad is governed by the Sun.

The Hindus take into consideration the Moon's position because of the following important reasons:

The Moon is called 'Mathi' or the Mind. The transiting planets may be harmonious or inharmonious in their aspects with the Moon and accordingly one feels elated or upset. Our ancestors always desired to have peace of mind and tried to avoid upsets. So they cared more for the steadiness of the mental

faculties so that they can meditate and concentrate and pray to God.

Another reason is really the most alarming. If one takes the pre-natal epoch it will be seen that the Moon's position at the time of the birth in the chart is exactly the ascendant (Lagna) at the time of the epoch in 50% of the cases. So, at the time of the epoch, a particular part of the Zodiac rose in the East. After roughly 9 months when the Moon transits in the position, birth takes place. Similarly that particular part of the Zodiac which rose at the time of the birth called the ascendant or Lagna was exactly the same position of the Moon at the time of the epoch of the child. Thus, Hindu scientists compare the relative position of the ascendant (Lagna) at the time of the epoch with the Moon's position in the birth chart. As the child grows from the time of the epoch, it would be really more appropriate and correct to take that into consideration. This may convince everyone.

Whatever be the reason, it is found that both the Western and the Hindu methods of prediction on the transiting planets fail in many cases, whether referred either only to the Sun or only to the Moon.

Let us analyse. If one takes the ascendant and the Moon's position (i.e., read separately and note the results, they are bound to vary. If both are taken, they can have the truth. Suppose a man born in a race and makes some money; then naturally he feels happy but in practical life he is found to be somewhat worried and dissatisfied because he had missed an important winner he was sure about. When his chart is examined, you will find that the ascendant (success or failure) had only a moderately beneficial aspect whereas the Moon (reaction—mind) had an inauspicious one. Therefore, if all attempts had been successful only to a certain extent, but made him mentally ill at ease. Another person goes to a race course and loses a few hundred. But he comes out merrily saying "Best of luck next time." Why? He had a particular horse in mind, but at the time he betted, he deliberately changed over

another horse, a fluke. This he did with the fullest knowledge that he was taking a chance! and he lost because his ascendant was in evil aspect. But the Moon was in a beneficial aspect and so he did not mind the loss and vowed to win later.

Again where both the ascendant and the Moon have evil aspects, the man's attempts fail and he mopes. If both the ascendant and the Moon's position are in good aspect, he wins and feels elated. It is one of the many fundamental points confirmed on series of researches made, that, even though the Moon's position be the same, if the ascendant were to be different, the results will be variable and therefore we have to take the ascendant primarily and then only the Moon, the Sun and the other planets, in order to know all the results accurately.

One more example will confirm that the 'Gocharapalan' offered by taking the date of birth, i.e., the Sun's position alone will not be correct in all cases. Take the date of birth and also the star of the students who are all declared successful in any given Public Examination—several thousands sit for the same examination on a particular date and their results are published all at the same time. It is no wonder that people born on all dates having the Sun in all the 12 rasis and born under all the 27 stars are found to have passed. If we collect the charts of those who have failed, it will be found that they were also born on all the days of the year and under all the 27 stars. This particular aspect has been the subject of detailed research by the editor and his students.

We should also take into our main consideration the position of Fortuna. Fortuna is otherwise called *Pars Fortuna*. This is the most sensitive and fortunate Zodiacal point. Its distance from the ascendant is as the Moon is from the Sun in longitude, i.e., if you add the longitude of the Moon to that of the ascendant and then deduct the longitude of the Sun, you arrive at the longitude of Fortuna—it is the position of *Thithi* added to Lagna. Always the position of all the planets and the Moon's node are readily obtained by referring to the ephemeris; but the place

of the Fortuna is to be worked out from the horoscope itself and it varies for every moment because every fourth minute, the next degree of the Zodiac rises in the east, and thereby the longitude of the ascendant is rapidly changing.

The Lagna moves very fast, about one degree in every four minutes. The fastest moving Planet is Moon; next comes the Sun. Therefore, all the three rapidly changing ones are taken for this calculation which confirms that the position of Fortuna changes every moment and each birth will have its position in different longitudes even though it may be within only a few minutes of each other. Unless both are born at the same time in the same latitude and longitude, the Fortuna cannot be in the same position for those births. Fortuna has no influence on character but is said to benefit the sign in which it is found to be.

For the transit results, in my personal experience, Fortuna deserves serious attention and it indicates certain results which are not shown by the aspects formed by the transiting planets to those in the natal chart. As long as we have found out that the results enjoyed by people born within a few minutes' difference of each other show diametrically opposite results, then one should try and find out what is it that is so fast moving as to cause opposite aspects and bring about such different effects. All research scholars will surely declare that the fast changing ascendant and Fortuna cause different aspects and produce different results. If, therefore, Fortuna is always included in all calculations and predictions offered, there can be no great room for disappointment.

So far, I have shown by specific instances that predictions made by applying 'Gocharapalan' taking the transit of planets and referring to the position of only the Sun or only Moon of a native at his birth are liable to serious gross errors.

I will now give instances to prove that identical results are enjoyed by people whose birth took place at the same minute in the same Latitude and Longitude. I place before the readers in a tangible and

a systematic form, my reasons. It is for them to accept or reject. I am sure it will be accepted.

My readers will do well at this stage to pause and ponder over the significant truth I have placed before them.

The first instance relates to two persons born at the same time and both got married to career girls who were earning. They had no children but both couples were very fond of domestic pets, cats and dogs. The two mates were lecturers showing identical interests in politics, social welfare, philosophy and religion. Minor events also in their lives were strikingly similar, as for example, both suffered from tooth-ache at the same time and period and had their infected teeth pulled out at the same time and on the same day. The two male partners were in no way related to each other and they hailed from widely separated places.

Another instance is about two men, born in the same village, who narrated their experience after they had lived there for a fairly long time. Their temperaments, behaviour and character were identical. Both had pleasing manners always with a smile and were never rude to anyone. Both were robust in health. Whenever one fell ill, the other also ailed from the same disease at the same time. Each of them got married in the same period and begot the same number of children of the same sex. Both of them lost a child in the same month, and brought up the same number of children. One was a journalist and the other was a writer of fiction. Mercury, Mars and Jupiter were the signs who ruled over their profession. The culmination of this extraordinary similarity was in the death of these two natives on the same day.

Yet another instance relates to a report that appeared in a foreign journal in 1820. It mentioned that Samuel Hennings died at the age of 82. He was born on 4-6-1738 at a place situated in the same Latitude and Longitude as King George III, who ascended the throne in October 1760. Mr. Hennings was then an independent businessman and on the same day Mr. Hennings took Elsie for his wife. Both had the same number

of children of similar sexes. Both were long-lived and died at the same hour on 2-9-1820.

Instances can be multiplied of such remarkable coincident happenings. The principles governing such events, will be explained in the book to follow.

It is recommended to judge the outstanding events and episode that would happen to natives taking the position of the Lagna. Only when it is not known, take the position of Moon. (Something is better than nothing.) If both are not known, take the position of the Sun. If one has not got his horoscope but knows only the date of his birth or the birth star, an incomplete prediction alone can be had.

Lagna, or Ascendant, i.e., first house, indicates health, longevity, success or failure in one's attempts, etc.

To different births having different houses as Lagna, lordship of Moon and Sun will vary; e.g., people born in Aries-Mesha-ta as Lagna, Moon is lord of 4 and Sun is lord of 5. If the transiting planets afflict Moon, it shows the difficulties to be faced by mother and not by the person. But, as Moon is the chief governor for the mind, he will not be happy due to the troubles to his mother. Similarly, if Sun, lord of 5 (according to date of birth), is afflicted by the transiting planets, the children may suffer, whereas the native will not have any adverse result. Take the following chart:

	Lagna Aries	Sun	
			Cancer
			Leo
			Virgo

The person is born in Aries—Mesha lagna. Sun is in the second house. When Sun transits in Aquarius, it forms favourable sextile aspect to Aries. But it squares radical Sun. Lord of 5 transiting in 11, favours the person's lagna, but lord of 5 squares the fifth house lord. Therefore the native meets with success, whereas the child suffers.

Always one should necessarily note of which house Moon is the lord and which house Sun governs. Good aspect to Ascendant promises good health and success to the person. If Moon is the lord of any particular house, one is to note down the matters governed by that house. Good aspect to Moon improves those matters. Bad aspect to Moon does harm to the matters indicated by that house. Similarly one is to note down the aspect to the Sun. Find out to which house Sun happens to be the lord. As each house—bhava—signifies certain matters, consider which are shown by the house which Sun owns, counting from the Lagna. Good aspect to Sun indicates improvement of those denoted by Sun whereas bad aspects spoil them.

Suppose one is born in Virgo (Kanni) as Ascendant, 2 hours before another born in Libra (Thulam).

			Leo
		Libra	Virgo

As Sun owns Leo, to the person born in Virgo Ascendant, Sun is lord of 12 indicating either loss or separation or hospitalisation or life in a foreign place or away from relatives and some changes.

But to the person born in Libra—Thulam—Sun is lord of 11; it promises peace, pleasure, profit, progeny, prosperity,

permanent tie of friendship, partne reunion, etc.

Therefore, for persons born on the same day due to the change in Lagna, the lordship of Sun changes. Therefore, it indicates diametrically opposite results.

If both refer to the dailies wherein the prediction is offered for the date of birth they understand that the astrologer has given the prediction taking into consideration the position of Sun at birth and the position of the planets transiting. Does it not appeal even to a common man that good aspect and good result mentioned will apply (a) to the person regarding the matters indicated by the 11th—to Libra-born, (b) to the good health and success of his elder brother—11th house shows elder brother. The same good aspect to Sun shows loss of investment, journey, separation, etc. to a Virgo-born native.

So the Libra-born will have re-union and profit whereas the Virgo-born loses and gets separated, though the Sun is in the same degree, in the same sign and all the other planets also do not change their signs.

Also it is worth the while to note the following:

- collect the horoscopes of those born with Moon in Cancer,
- sort out the Aries Ascendant Taurus, Leo, Virgo, etc. Verify the results.

To the person born in Aries Ascendant and Moon in Cancer, if a prediction is offered taking the Moon sign, the prediction will apply to mother. If it is said that people born with Moon in Cancer have Saturn in 8 and it will affect the health actually the Aries-borns find (a) the mother is unhealthy and not he or she; (b) the cat gives trouble, needing a mechanic's attention; and (c) the house needs some repairs. Another born in Taurus ascendant observe (a) he is not able to proceed on short journeys; (b) cannot edit any book; (c) brother or younger sister is ill, etc. On the other hand, a person born in Leo, incurs loss; one born in Virgo gains. One born in Capricorn says all the results read for Cancer sign agree

mostly with those enjoyed by my wife, the reason being that Moon governs the 7th house.

Therefore

- (a) predictions offered in this magazine refer to the various signs as Ascendant or Lagna.
- (b) if you know only the Moon's position, it will refer only to that relative and matters indicated by Moon as the lord of Cancer.
- (c) if you know only the date of birth, i.e., the position of Sun, it refers to the relative and matters pre-saged by Sun as the lord of Leo.

Better you know your Ascendant and refer.

(If you have a doubt or if your horoscope is to be cast very accurately, send

= (a) - the place of birth—nearest town ;

(b) time of birth ;

(c) date, month and year ;

— (d) sex ;

— (e) name ;

with a live-rupee postal order or money order to Mr. K. S. Krishnamurti, 13, Brahmin Street, Saidapet, Madras-15. (You will also be informed how to refer to your horoscope.)

It is common knowledge that various predictions are routinely given in the monthly and weekly journals based on 'Gocharapalan' and a rider that those who are running beneficent dasa and favourable bhukti will have a good time during the auspicious transit. They add further that, if the dasa 'bhukti' were to be favourable, the adverse transit during a favourable 'dasa' and 'Bhukti' will appear to be menacing, but actually it will not happen. If the transit and the dasa and bhukti are beneficial, then the native will get his desire fulfilled and will enjoy favourable results. If both the dasa and bhukti are bad and the transit is also adverse, the native will face untold miseries. This is what you find mentioned in these predictions.

It is necessary to point out in this context that the dasas which are adopted by astrologers are many. Among these 'Udu dasa', 'Vimsodari Astodari dasa', 'Kalachakra dasa' are generally applied. Which of these is to be followed is not stated by the predicting astrologers of today; Vimsodari is perhaps what they go by.

Let me pose to them the case of twins who have got the same lagna and the same position of planets, with more or less, the same dasa and bhukti, but running with a difference of 1 month and six days. Both are in Rahu dasa, Guru bhukti at the time they tried for a job. One was appointed and the other rejected. In this case, the dasa and 'bhukti' and anthara will be found to be more or less the same in both. But the results of the efforts have been diametrically opposite. A careful approach and a critical study will soon reveal the reasons for the same. What appealed to me and convinced me was that the Lagna and Fortuna and the relative position of Lagna to the position of all the planets as well as Fortuna to other planets indicated how, in one, a few favourable aspects were formed while, in the case of the other twin, adverse aspects were formed. Therefore, when success or failure in one's attempt has to be accounted for, only the Ascendant—the lagna—has to be considered.

Regarding a man's financial position and success in competition, one has to take the beneficial aspects to the lord of 1, 2, 3, 6, 10 and 11 as advantageous and also the evil aspects to Lords of 4, 5, 7, 8, 9 and 12, as favourable to the native. Similarly, the evil aspects to the Lords of 1, 2, 3, 6, 10 and 11 as well as the beneficial aspects to Lords of 4, 5, 7, 8, 9 and 12 are unfavourable to the native. This relates only to the financial position.

But the favourable aspects of a planet to the lord of any house improves the results indicated by the aspected planet. Similarly, evil aspects to the lord of any house portend evil to those indicated by that particular house of which the particular planet is the lord. Only for deter-

mining the increase or decrease in one's financial position, the houses 1, 2, 3, 6, 10 and 11 have to be considered as they make the bank position more sound while the other houses tend to reduce it. The explanation is that the ascendant represents the native while the 7th house represents transaction with a creditor or debtor of the native. Suppose the native borrows, then the lagna indicates the person; the 7th house denotes the banker; the 2nd house shows the financial position of the borrower. Since borrowing is to be ascertained from the 6th house and it is done during the period of the lord of the 6th house or planets in the 6th house or planets in the star of the occupants of the 6th house or planets conjoined with lord of 6 or planets posited in the star owned by lord of 6, they presage the time of borrowing. By borrowing, it is meant that the native gets money; the 6th house relates to improvement in the finances of the native. Similarly it can be shown that houses 1, 2, 3, 6, 10 and 11—the lords of these houses when being aspected favourably, increase the native's bank position either by self-acquisition, by borrowing, by service, by business or calling, profession or assistance from friends and relatives. The other houses indicate an increase in finance to the opponent.

Suppose the Lord of the 8th house is favourably aspected. It means that the 2nd to the 7th house gains; this shows improvement in the finances of the opponent or the banker.

If the native competes with another, then good aspect to lagna indicates success

in his efforts, whereas the good aspect the 7th house denotes the 'opponent gain'.

If the lord of the 8th house du transit forms a very favourable aspect to radical position or if any other planet forms a beneficial aspect with the lord of the 8th house, it would appear to show that the opponent gains and the native loses. Therefore the general principle, that all favourable aspects must be beneficial to the native, does not hold good in some cases. The example given shows that the beneficial aspect of the lord of the 8th house will benefit the opponent of the native. But if, according to the general principle, one were to predict that the native will gain, the prediction will fail, because it benefits only the opponent. So also, if each house is taken and the results are recorded, then everything will fully agree with my statement that the lords of the houses 1, 2, 3, 6, 10 and 11, when in favourable aspect, benefit the native financially, while the lords of other houses receiving favourable aspects indicate either drain or loss, or making investments or lending to others or returning loans or losing in litigation, competition, election, etc.

I wish here to impress upon the reader the imperative necessity of bestowing deep thought and mature consideration on analytical study and further research in order to predict correctly, and when necessary, to interpret modifications and variations that are bound to be noticed in the actual practice of this Science, just as is found in other sciences like medicine, etc., which concern and relate to human welfare.

The next stage is to calculate the position of Fortuna (a sensitive point ☿). This position will be arrived at by adding the longitude of Moon to the longitude of Ascendant and deducting that of Sun, i.e.,

$$\begin{array}{r}
 \text{Lagna } 24 \text{ } 46 = 114^{\circ} 46' \\
 \text{plus Moon } 14 \text{ } 41 = + 284 \text{ } 41 \\
 \hline
 399 \text{ } 27 \\
 \text{Minus Sun } 0 \text{ } 28 \quad 30 \text{ } 28 \\
 \hline
 368^{\circ} 59'
 \end{array}$$

As the sum is above one circle, deduct $360^{\circ} 00$ and fix up the position of Fortuna as $8^{\circ} 59$ (Meshā) Nirayana and in Rasi and amsa also write the position. For Sayana, take the positions in Sayana and calculate.

The final stage is to work out the balance of Vimshothari Dasa at birth. Here the birth has taken place in Sravanam star ruled by Moon and its Dasa period is 10 years in total, i.e. If the birth would

have taken place at $6^{\circ} 40'$ in Makara where Sravanam starts, you write the balance as 10 years. But the position of Moon at birth is $14^{\circ} 41'$ i.e. $14^{\circ} 41' - 6^{\circ} 40' = 8^{\circ} 1'$ Moon has moved in Sravanam. For the total length of Sravanam, i.e., $13^{\circ} 20' = 800$ mts. the period is 10 years. For the movement of $8^{\circ} 1'$ or $8 \times 60 + 1 = 481$ mts., calculate as follows :

$$481 \times 10 \text{ years} = \frac{4810}{800} = 6 \text{ years } 0 \text{ mths. } 4\frac{1}{2} \text{ days.}$$

	years	mths	days
This you deduct from	10	0	0
to find out the balance at birth	6	0	$4\frac{1}{2}$
Balance of Moon Dasa } at birth is	3	11	$25\frac{1}{2}$

In the next issue we will work out one more chart so that students can follow this and cast the horoscopes without any confusion.

LIMITATION OF THE ASTROLOGER

(A part of the speech given by the Editor on 1-8-64 at Bharatiya Vidya Bhavan, New Delhi, while he gave a speech on the "Necessity for Astrological course.")

Astrology is a Science. Yet, while applying the principles, the astrologer fails occasionally due to alternatives: because all the matters in one's life are indicated by only the twelve houses of the Zodiac, and hence each house has to signify many matters. To correctly select a few, in the many results shown by a house, depends on one's sound knowledge, vast experience, proper application of all the methods, deep consideration of each matter shown by the house and the Divine Grace which the astrologer and the querist should both enjoy. An astrologer may predict marriage to a native on a particular day. Actually the girl or boy may suffer from any serious ailment and even be in a coma stage. Why? Is astrology incapable of indicating such a dangerous attack?

No. The first mistake of the astrologer is that he does not take all the points necessary to decide one's marriage. All the three houses, 2, 7 and 11, the occupants in those houses, their lords, etc. and also Venus, might not have been considered. One may judge from the houses 2 and 7: the other from house 7 alone: the third may omit to note which other house the lord of 2, or 7 or 11 owns and what other results they can offer by owning another house also.

It is true that houses 2, 7 and 11 indicate wedding;

- (a) house 2 shows the increase in the number of the members of the family by marriage and then by birth of children;
- (b) house 7 signifies the partner in life with whom an agreement is made;
- (c) house 11 indicates the pleasure and the permanent tie of friendship or partnership with another.

Also, it is true that houses, 2 and 7, indicate death (Maraka sthana) as they are the Vraja houses to the houses of longevity 3 and 8.

Normally, when a girl is of marriageable age, the astrologer takes the conjoined periods (Dasa, bhukti) of the planets connected with the houses 2, 7 and 11 as the time of marriage. But one does not commonly note of which other house these planets are also the rulers and what else they can do—whether they are stronger to give the effect of the other house they own, than to give the effects of the houses 2, 7 or 11.

The following is the horoscope of a native who was actually on death bed on the day when her wedding was predicted.

	Uranus	Mercury, Mars, Ketu, Moon— 21° 20'
Sani	16-7-1936	Venus, Sun
		Lagna
Rahu	Jupiter	Neptune

At the time of birth, the prospective bride was having Jupiter dasa, 14 years, 4 months and 24 days.

When the astrologer tries to find out the time of marriage, he takes Mercury, lord of 2 and 11, as one of the significators and Saturn, lord of 7, as the other planet contributing to the marriage. So one decides that Saturn dasa, Mercury sub-period must give marriage. Actually, during that period, the girl suffered from Pleurisy. She was in the bed for some months due to complication, and on a later date there was the suspicion that she might suffer from T.B. She got married only in Venus sub-period, as it is the chief governor for marriage and occupies the 12th house indicating "SUKHA SAYANA" (enjoyment).

The reason for her confinement to bed, instead of enjoying in bed, was that

Saturn, lord of 7, was the lord of the 6th house also. It owns the maraka sign, that is the seventh house, which is also the house for wedding. Sixth house indicates disease. So instead of marriage, she fell seriously ill during the period of the lord of 6 and 7.

Such a serious mistake was committed by the Editor while offering prediction to his own youngest brother, Sri K. S. Gopalaswami. The native was born on 15-10-1916 at 6-12 P. M. in a village Kuthur next to Tanjore town. The chart is as follows:

	Ascendant 4° 23' Jupiter 8° 55'	Moon 20° 39'	
	15-10-1916		Kethu 1° 53', Saturn 7° 19', Neptune 12° 10'
Uranus 23° 14', Rahu 1° 53'			Venus 15° 58'
	Mars 2° 44', Fortuna 26° 2'		Mercury-11° Sun 29° 15'

At the time of birth, Moon dasa balance: 2 years, 0 month and 6 days.

He was working in Bombay as an assistant to a successful and brilliant share-broker. He found my brother to be very honest, sincere and true. When my brother's business was not as good as it was, he was offered a manager's post in a Tea Estate on a big salary in February 1964. When he consulted me, I wrote to him:

"As you are running Saturn dasa, Mercury sub-period from 24-10-1962, I expect you to leave Bombay once for all as your life in Bombay comes to an end on 28-6-64, when Sun by transit will be passing the sub of Mercury, in Rahu's star in Mercury's sign Gemini. I do not expect any change before 28-6-64. I will go over there at that time."

My reasoning is that his Moon's sign is stronger than his ascendant. Because the ascendant is occupied by the lord of 12 and the lord of the ascendant, Mars is in 8 to Lagna; whereas the lord of the Moon sign is in a kendra to Moon. So his horoscope should be judged taking Moon sign as the first house and Gemini as the second, Cancer as the third and so on. If his ascendant were to be strong, his name would be Subramania, etc. But his name Gopalaswami-itself suggests that Venus (Cow-Gow) and Moon-(liquid, milk) are strong. Lord Krishna was also called Gopala as his star was Rohini, Moon's star in Venus sign, Taurus.

Then, what can one predict during Saturn dasa, Mercury bhukti, Rahu anthara?

Saturn is lord of 10. Mercury is lord of 2: Rahu in an earthy sign is in 9, aspected by Saturn and in trine with Mercury. Hence, change of surroundings and environments, change of Institution, change of place, long journey, etc. are normally expected.

Even if one takes Aries as ascendant, then Saturn is lord of 10, Mercury is lord of 6 (for service) and Rahu is in the 10th house. Now also one has to predict improvement and change in one's career.

According to Krishnamurti Paddhathi, let us fix the date. As he runs Mercury bhukti, Rahu anthara, find whether Rahu's star is in Mercury's sign. Gemini is ruled by Mercury. Rahu's stars are Arudra, Swati and Sathabisha. Arudra is in Gemini. It extends from 6° 40' in Gemini to 20° in Gemini.

Then according to the Paddhathi, Mercury sub in Rahu's star is between 12° 33' and 14° 26'. So when Sun transits in between 12° 33' and 14° 26' in Gemini, the life in Bombay should end. Change must come. But, on 28-6-64, when Sun was in 13° 15', he passed away suddenly. Till 27-6-64, he was hale and healthy, attending his office. On Saturday afternoon, the moment Sun came to 12° 33' he became unconscious, after having had a pleasant conversation with his friends and relatives. He called the car driver after dressing himself up. Few minutes passed.

My brother had not come to the car. So the driver peeped in and noted that he had stretched himself on the easy chair and was drawing a long and hard breath. This happened, the moment Suh came to 12° 33'. He was removed to the hospital at once. But he passed away on 28-6-64 at 4-45 A.M. when Moon was in the sign of the lord of the dasa, Saturn.

But the Editor thought that on 28-6-64, Sunday, he may leave Bombay to take up another job. So the Editor replied in February "On 28-6-64, your life in Bombay will come to an end."

Now one may ask: "Is death indicated by these planets?"

The answer is "YES".

"Why have you not predicted?" may again be repeated by others.

When a letter is received saying that he would take up a job in the South, normally the Editor tried to note the time when he would change. Further, being a brother, the wishful thought and desire for a peaceful life to brother overshadowed the evil results. What is the explanation for the sudden end?

Let us take that Moon sign, Taurus is the first house. Then for people born in Fixed Sign, sthira rasi, lord of 9 is a Badhaka sthana adhipathi. Planet in 9 occupies Bhadraka sthana. So Rahu, the occupant, and Sani, the owner, are evil. Mercury rules the second house and so he is a Maraka sthana Adhipathi. Hence Saturn dasa, Mercury bhukti, Rahu antara caused death, when Moon transited in Saturn's sign occupied by Rahu, and Sun passed through Mercury's sign and Rahu's star.

Let us take Aries (Masha), as lagna. The lagna is in a moveable or chara rasi. For chara rasi-borns, 11th house indicates bhadraka sthana (danger to life). Saturn is lord of 11. It is said that Rahu or Kethu occupying a house is stronger than the lord of the sign. Rahu is in one of the signs ruled by Saturn.

Hence Rahu is one of the evil significators. Mercury is lord of 6, the house of disease. Hence Saturn, the lord of death dasa, Mercury, the lord of disease, bhukti,

and Rahu (the agent of Yama-Sani brought about his end.

To confirm that Rahu is a maraka, to Taurus-borns, if it were to occupy the 9th house Capricorn (Makara), a reference may be made to Uthara Kalamrita translated by Pandita Bhushana V. Subramania Sastri, page 40; chart 21.

A female was born on the 14th October 1916, the day prior to my brother's birth.

My brother was born on 15-10-1916. The following is the chart of the female born on 14-10-1916, at 9-15 P.M.

	Jupiter	Lagna, Moon	
			Kethu, Saturn
			Venus
Mars			Sun, Mer- cury

Balance of Moon Dasa at birth was 9 yrs. 11 months and 29 days.

The girl passed away in January 1934 when she was running Rahu dasa, Rahu bhukti, Budha antara.

The Lagna and the Moon sign is the same—Taurus. 9th house is Bhadraka sthana (danger to longevity). So Capricorn (Makara) is an evil sign. Rahu is a malefic, occupying the sign owned by another evil planet, Saturn, the chief governor for longevity. Mercury is the lord of the second house, a maraka sthana. Hence in January 1934, during the conjoined periods of Rahu and Budha, she passed away. Normally, one will predict either long journey and change of place for higher studies or marriage with one born in a family not already related.

Hence it is necessary to consider all the points before one passes a judgment. Again, taking my brother's horoscope and applying the Western system of prognostication, one can note that Sun, the life giver, squares Venus, the lord of the Moon sign.

According to transit, Dasanatha, Saturn transits in the Bhadhaka sthana, Rahu's constellation Sathabisha, and is in the sub of Saturn. Jupiter, lord of 8, was in 12 in the constellation of the lord of 6.

Hence, by applying any method, one will be able to find out the truth. As each house indicates many matters and each planet also signifies many matters, there will be alternatives. In the above instance, the alternatives are :

- (a) change of place ; change of institution, etc. or,
- (b) end of life.

To eliminate one, and to confirm the other, the horoscope of his wife ought to have been scrutinised to find out whether she will lose her husband and consider the horoscope of his children, whether they will lose their father or all will change the residence. After a thorough study, one will clearly state that the native born on 15—10—1916 has to pass away.

6 Post-mortem makes one a Post-graduate.

MAY HIS SOUL REST IN PEACE.

IS LAGNA STRONG OR MOON SIGN STRONG?

As soon as the lecture in Bharatiya Vidya Bhavan was over on 1-8-64, one of the students asked the editor to explain how the Ascendant Aries (Mesha) of the native, born on 15-10-1916, can be considered as weak, when its lord Mars occupies its own sign, Scorpio, and is strong. Further, the benefic Jupiter occupies the ascendant. The editor replied:

"It is absolutely necessary to note whether the Ascendant is strong, or afflicted and is weak. Then judge the strength of the Moon sign. Before one commences to pass any judgment, this must be determined.

The houses 6, 8 and 12, counted from Lagna—and-also-from-Moon—are called Dus-Sthanas. Planets owning those houses, whether benefic or malefic by nature, become evil. Planets occupying these houses (6, 8 or 12) also lose the strength to offer such favourable results which they can bestow due to their lordship of certain beneficial houses in the horoscope. Also those planets owning the houses, 6, 8 and 12, occupying any other house, weaken the houses occupied by them. These bhavas suffer annihilation even though by nature they are benefics.

Mantreswara in Paladeepika, Chapter XV, Sloka V, has mentioned: "When a Bhava has its lord in the 6th, the 8th or the 12th house, or if a Bhava is occupied by the lord of any of the three houses, it suffers annihilation, say those who are proficient in Astrology." (Subramanya Sastri's translation, page 183.) He adds in Sloka III in Panchadasa Adhyaya: "Of the Lagna and other Bhavas examined in succession, whichever bhava has its lord occupying the 8th place devoid of aspects from benefics, the result is the total destruction of such a bhava."

Aries is owned by Mars. It was in 8 to the native in Scorpio in the chart of the person born on 15-10-16. Therefore, to offer the results indicated by Aries, Mars is weak. It cannot contribute for the improvement

of the first house matters as it cannot aspect the Ascendant. The lord of a house should occupy the same house or be positioned in houses other than 6, 8, or 12 counted from that house or aspect the house which it owns to strengthen the house. Suppose one is born in Scorpio, and if Mars is in 6, in Aries, as Mars has the 8th house aspect and it can aspect Scorpio by that aspect, Mars will improve the matters of Scorpio by its aspect, even though it occupies the 6th house, counted from Scorpio.

	Aries Mars		
	Scorpio Lagna		

In this case, the lagna will be strengthened by Mars.

Again, it is said that a house gets spoiled if the 4th and 8th houses are occupied by malefics. In the horoscope of the native born on 15-10-16, malefics, Saturn and Kethu, are found in 4 and Mars is found in 8.

	Lagna		
			Sani, Kethu
	Mars		

Further, Jupiter is a benefic by nature. He is lord of 9 and so he is a baghyadhipathi

to Aries-borns. But he is also the lord of 12. As lord of 12 in the Ascendant, he will weaken the Ascendant" though Jupiter improves 9th house matters.

Thereafter, the student said: 'Is it not a fact that Mars as lord of the 8th house to Aries lagna (Mesha) is not evil? How can it be evil if it is in its own quarters?'

The Editor replied: "Probably, you refer to the principles given in Jataka Chandrika. It is said that if a planet owns both the ascendant and the 8th house, the planet does not lose the beneficial strength of the ascendant. It means that the lord of lagna will not affect one's longevity as the 8th house indicates one's span of life. It is also declared in Jataka Chandrika, that the Luminaries, Sun and Moon, owning each only one house, cannot become evil, by owning the 8th house counted from Capricorn (Makara) and also from Sagittarius (Dhanus) respectively. This applies only for longevity. For other matters, they are definitely evil.

The true interpretation is that, unless Sun and Moon are further influenced by Bhadhakasthana Adhipathi and Marakasthana Adhipathi, they will not cause any danger to the lives of the natives born in Capricorn or Sagittarius in their periods. So also for those born in Aries (Mars as lord of 8); in Libra (Venus as lord of 8); they cannot affect one's longevity simply because they own the 8th house. But one should remember that they will prove to be harmful if they are connected with Marakasthana Adhipathi, or Bhadhakasthana Adhipathi, or if they occupy their constellations.

Coming back to our point, Mars is not strong to give the results of Aries, when it occupies Scorpio. But it can give the results of Scorpio to a good extent. It is, no doubt, strong in Scorpio to give the 8th house results to Aries-born; but it is definitely weak for lagna results.

It is said by sages: 'If the lord of a bhava (lagna, 2nd or 3rd house and so on) occupies 6th or 8th or 12th house, counted from that Bhava, the effect will be reverse. If the planet is weak there, the result will be very harmful; but if it is strong, adverse results will be slight'.

In Sanketanidhi, Ramadayalu says that the lords of Kendras and Konas, though capable of causing very favourable effect will not prove to be good when either the two is placed in the 12th house counted from the other. Jupiter, the lord of t kona (the ninth house) is in 12 to Moo the lord of the kendra (the 4th house), a hence Jupiter cannot prove to be good. Jupiter is never genuinely good to a when it owns the 9th house, as it will r either 6 and 9, or 9 and 12th houses. O to Scorpio-borns and Aquarius-born Jupiter does not own either a kendra a dushsthana.

To Aries, it is the lord of 9 and 12;

To Taurus, it is the lord of 8 and 11;

To Gemini, Virgo, Sagittarius and Pis borns, it is a *kendraithipathi* and is considered to be evil.

To Cancer, it is the lord of 6 and 9;

To Leo, it is the lord of 5 and 8;

To Libra, it is the lord of 3 and 6; and

To Capricorn, it is the ruler of 3 and

(Only in Utharakalamritha, Jupiter considered to be a benefic when it owns the houses 3 and 12.)

Thus it can be seen that Jupiter nature is benefic. But to a majority of the people, it becomes a malefic by ownership as it rules two houses and either them is the 6th, 8th or 12th house, both the houses are kendra ones (1, 4, 7, 10). Similarly, Jupiter, though a Rajagadhipathi, will weaken the ascendant, if it owns the 12th house. In Utharakalamritha in Kanda IV, Sloka 14, the author says that the bhava containing the lord of 8 or 12 is lost or fallen. Bhattotpala Prasannagana has said: 'when the lord of one of the three houses 6, 8 or 12 occupies a particular bhava; it is destroyed.'

Therefore, (a) Lagna occupied by the lord of 12, (b) lord of lagna in 8 to the ascendant, and (c) malefic Ketu in 4 are the main reasons, why lagna is considered to be weak.

When Moon sign is considered, there (1) no evil in 4 or 8; but lord of the rasi in 4 to Moon, and (2) Moon is not connected with malefics. Hence Moon sign stronger than the lagna."

KRISHNAMOORTI PADDHATHI

By

K. S. K.

Health: The position of the ascendant, the situation of the Lord of the Ascendant, the planets occupying the Ascendant, those which are in the constellation of the occupants, the planets in the constellation of the lord of Lagna, those who are conjoined with, or aspecting them, indicate the health of a native. They contribute to one's health.

But the planets in the 6th Bhava (House), those in the constellation and sub of the occupants, the lord of the 6th house, planets in the constellation and sub of the lord of the 6th Bhava, those who are in any manner connected with them, portend disease and upset one's health.

The 8th house, its occupants, its lord and those in the constellation of the occupants of the 8th house and its lord, indicate end of life; therefore to me it appears that 8th house causes fatal disease. It

indicate the disease from which one will suffer during their periods and recover. The 8th house threatens danger and mostly the end, unless it is connected with the 11th house and its lord.

The 12th house indicates isolation, hospitalisation, etc., and also why one is confined to bed. It also indicates imprisonment to Moksha. The 12th house to any Bhava, spoils matters signified by the particular Bhava. Suppose Cancer-Karkata indicates one's education; then the 12th to Cancer, that is Gemini-Mithuna shows the end of the scholastic career. Similarly, when the 12th house indicates hospitalisation, the 12th to the 12th, i.e., the 11th house shows the discharge from the hospital.

Planets in 6 and 8 and in houses 6 and 8 to any house are detrimental to a Bhava. When the 6th house to Lagna is adverse to one's health, then the 6th house to the

6th, i.e., the 11th house is to put an end to the disease, and Lagna which is the 8th house to the 6th must offer health by effecting the cure. Therefore, houses 1 and 11 are always for the maintenance of good health, whereas 6, 8 and 12 are evil houses affecting one's health. (So also for litigation, loss, debts, danger, disharmony, dispute, difficulty, etc.)

In the following chart

	Kethu 1° 12' Venus 22° 57'	Lagna 23°	Sun 8° 18' Mars 10° 8' Budha 27° 20'
			Jupiter 19° 31' Saturn 20° 10'
		Rahu 1° 12'	

erected for the birth at 4-50 a.m. on 23rd June, 1921, in Uthraswathi Nakshathra with Sun dasa Balance 1 year 5 months and 3 days, the native was complaining of pain in his leg, between the calf muscle and the foot. First, it was considered to be filariasis. Night blood was repeatedly tested. There was no confirmation. Months passed. Pain continued. Then another expert was consulted. Treatment for rheumatism was suggested and it was found to be of no use. Another expert was approached. He said that the native can have a cure, if his leg bone was drilled and a few holes made. The extreme pain in the leg forced the person to submit to this experiment and luckily it proved to be successful. Pains vanished and he was happy for some months. Again, the same

mpplaint had relapsed. 'X' ray revealed at the holes were closed. Present advice to remove a bit of the bone, so that, for few years, calcium will not be deposited apidly and cover this portion again.

The above is the case.

In March 1959, when the native was unning Jupiter Dasa, Jupiter Bhukti, Venus thara and Rahu Sookshma, he started consulting doctors. His treatment for filaria was found to be not correct and helpful. In 1960 when he was running Jupiter dasa, Saturn Bhukti, treatment for rheumatism was given. Couple of years passed. He entered into Mercury sub period. Mercury gave correct intuition and diagnosis. He was operated on 11-2-64 on a Tuesday and the bone in one leg was drilled. Again on 18-2-64, the bone in the other leg was drilled. He had relief from the beginning of March till May 1964. Again slowly the trouble started.

In February, 1964, he was running Jupiter Dasa, Mercury Bhukti, Rahu Anthara. From 6-3-64 he had Jupiter Anthara. In that again the sub of Venus and Rahu came in May 1964 when pains slowly increased. Now it is for us to judge dispassionately and arrive at the correct conclusion.

I. Moon at the time of birth was in Uthrashada, ruled by Sun whose dasa period is the minimum of the periods assigned to all the planets, being only for six years. Even if the birth time may be 15 minutes erratic (Birth time given is correct. But for argument sake, even if it is 15 minutes either way) the dasa balance at the time of birth can err by $\frac{1}{4} \times \frac{1}{24} \times 6 \times 12\frac{1}{2}$ of a month, i.e., only 3 weeks and not more. Hence the dasa and bhukti cannot change.

II. Health can be affected by houses 6, 8 and 12. This is the general rule which is expounded by the Hindu Sages and Western Scholars. If we apply this rule, how can we predict such loathsome, fearful and chronic ailment, especially affecting the bones and proper treatment during Budha—(Mercury)—sub period. If one is to advance the argument that Jupiter is to

cause disease as lord of 8, it should be during Jupiter dasa, Venus Bhukti. Will not Saturn, the Rajayoga adhipathi, ward off the evil of Jupiter, lord of 8? When Jupiter is in Leo, normally one has to predict that the heart will be affected or Jupiter in the 4th sign and 3rd Bhava will affect the lungs. Actually, the bones in the legs are affected.

If it can be argued that the lord of the 6th house, its occupation, etc., indicate the part of the body to be affected and the nature of disease, one can say that the leg may be affected. Venus can cause eczema but how can it affect the bone. According to Krishnamurti Paddhathi,

(1) The lord of 6 indicates disease.

(2) It is in Aries 12th house (leg) ruled by Mars (to be treated by Surgeon in its own (Venus) star Bharani and in the sub of Saturn. The lord of the sign and house occupied by a planet indicates the part of the body affected; lord of the star shows health or disease; income or expenses; savings or borrowings; victory or defeat, etc. The lord of the sub indicates the system which will be affected.

(a) Venus, the lord of 6, is in the 12th house:

The 12th house indicates the leg and lordship of the 6th house shows disease.

(b) It was in its own star Bharani-Venus as lord of 1 shows health and as lord of 6 denotes ill-health. So the ailment, that he will suffer from, will be due to both Karma and one's own action; (not observing hygiene, reluctance about health, etc. It is applicable to Taurus and Scorpio). So this native will suffer from such diseases the cause of which cannot be easily diagnosed and that which will baffle the medical attendants.

(c) The sub-lord is Saturn. Venus was in 22° 57'. Refer to January 1964 Magazine where the table is given for ready reference. 21° 53' 20" to 24° 00' 00" is ruled by Saturn in the star of Venus.

(d) Saturn indicates bony (osseous) system. Therefore, Venus, lord of 6 portrays the common disease from which the

person will suffer. Where is Venus ? Which planets modify its results. Venus is in Aries owned by Mars. It is in Bharani governed by Venus. The sub is ruled by Saturn—So Mars and Saturn modify and indicate what Venus can do.

Venus can cause such effect, not only in its period, but also in the periods of the planets which are under the sway of Venus, i.e., those planets which occupy the star of Venus or the sub of Venus. So note down the planets which have such connection with Venus.

Jupiter is in Venus star, Rahu sub.

Saturn is in Venus Star, Kethu sub.

Mercury is in Jupiter's star, Venus sub.

Therefore, Mercury is in the constellation of the lord of 8 and sub of the lord of

6. It is the sub-lord who indicates the main results. The sub-lord is Venus. Venus is to cause disease, increase debt, separate him from the family, hospitalise and make him undergo surgical treatment in the leg and taking leave from his office. Normally one will say, Mercury, the lord of 2 and 5, gives unexpected advantages; gains without pains; increase in income; improvement in status as it is in its own sign and is in 11 to Jupiter, the Dasanatha who is Labhadhipati, owning the 11th house also. This is the brief of the reading, he had.

Alas ! His health had failed and the prediction had miserably failed.

But, if you follow this Paddhati, you can give a detailed picture of the horror in this period.

CHARACTERISTICS TO BE CORRECTED : (iii)

By

KAYESKAY

Which is the best day to act ? "Today" !

Never put off till tomorrow what you can do to-day. A time that is lost is ever again gained. Do not be lazy and lethargic. As is said in the old Testament, "Go to the ant, thou sluggard : Consider her ways, and be wise."

Astrologically the following disposition of planets indicate sloth and inaction :

1. Fixed signs show slow and steady action. But Cardinal or movable signs indicate immediate action whereas mutable signs denote activity.

If a majority of planets are in fixed signs, one will not be quick in action. If there is no beneficial aspect from the planets in movable and mutable signs and if there is adverse aspect from malices either to the ascendant or to the lord of the ascendant, one will be lazy. If Moon is so posited and it receives unfavourable aspect from evil planets, one will have very slow grasp and will be idle. Even though Venus is said to be a benefic, if it occupies its own fixed sign, Taurus, and receives adverse aspects, it will make the person easy going and idle. He will always miss the opportunities.

2. Mars, the most alert and active planet will not form good aspect to Lagna in the horoscope of idle people. So also, Mercury which may be called as a busy planet and Uranus, signifying mental and physical activity, will not throw harmonious aspect to the ascendant or lord of the ascendant or moon.

3. Saturn, the thamasic planet, afflicting the luminaries from the fixed sign or the ascendant, and the dasanatha make one lazy during their periods.

7. Mahadeva in Jataka Tatwa says that people, who have Jupiter and Saturn conjoined, will be lazy. In the horoscope taken as an illustrative one for Krishnamurti Paddhati, you will find that the person was born in a fixed sign as the ascendant—Taurus; Jupiter and Saturn are conjoined. They are also in a fixed sign. Both the planets square the ascendant. So one will normally say that this native will be lazy. Actually he is a very busy person in spite of his ill-health. Why?

Here the Stellar astrology will correctly offer prediction.

Jupiter and Saturn were in Venus star Poorvapalguni and Venus was in the movable sign—Aries, owned by the active Mars and in its own constellation. It is aspected (according to Hindu method) by Jupiter and according to western system, trine aspect from Jupiter and Saturn.

But if Jupiter and Saturn are conjoined together especially in a fixed sign and if they are in the constellation of a planet occupying a fixed sign and the stellar lord is in no way connected with Mars or Mercury or Uranus, Mahadeva's statement will come true. Experience says that not only he will be lazy, he will preach his own philosophy (as Jupiter and Saturn are philosophical planets) and quote what John Burroughs has said

"Serene I fold my hands and wait,
Not care for wind or tide nor sea;
I rave no more 'gainst time and fate,
For lo! My own shall come to me."

Mahadeva adds "If the lord of the ascendant be weak or associated with Saturn or if either the Lagna or the lord of the Lagna receives aspects from Malefics, the native will be either without energy or be inactive or lazy."

Prithuyasas in Horasara says what Varahamihira has mentioned in Brihat Jataka: "A person having Moon in the 6th house will be lazy". Varahamihira is of opinion that Moon in Makara also produces lazy people. Prithiyasas adds that the person born in Dhanu Navamsa will be lethargic. Also one born in Vasi yoga, having planets in 12 to Sun, will be indolent and weary. Similarly, people born in Sakata yoga having Moon in 6, 8 or 12 to Jupiter, will be idle.

Podumanai Chomadiri in Jataka-desamarga has said that people born in Vasi yoga and Gola yoga will be idle at all times.

—Vaidyanatha Dikshitha in Jataka Parijata says that people born in the hora belonging to Moon will be lazy. It means half the population will be lazy and the other half active. It is not so. If the Lagna is in Moon Hora, Saturn from fixed sign squares and the active planets do not favourably aspect the ascendant in Moon hora, then alone one will be idle.

—Venkatesa in Sarvartabhinchintamani confirms that Saturn symbolising "Thamasa guna" will cause laziness in one, if it either occupies Lagna or conjoins Moon or aspects Lagna. Here also, when we consider the horoscopes of people having Saturn in Lagna, we find that this is not true in many cases, especially when (a) Saturn is in the constellation of an active planet or a planet in movable

or mutable sign, or (b) when the ascendant receives aspect from Mars, Mercury or Uranus.

Kalidasa in Uthra Kalamritha has said "The planets, Saturn and Moon, as well as the 8th house are to be considered to find out whether one is lazy or not".

Saturn Moon 16°			Lagna
	Sun 8°		

The above is the horoscope of a person who is still idle. He used to miss the bus often. He will go to the Railway station always a few seconds alone late, after the train had left and will wait on the platform until he gets the next train. One day, when there was an interview for promotion, he arrived late and he lost the chance. So one should not be slow, idle and lazy. Should he not take any other conveyance and be in time?

One should make hay when the sun shines. For "There is a tide in the affairs of men, which, taken at the flood, leads on to fortune."

Those who believe in Gems,

(a) should avoid using blue sapphire but (b) use red, ruby, emerald or coral.

LIBRA

By

K. GANAPATHY

13, BRAHMIN STREET, SAIDAPET, MADRAS-15.

Libra is the 7th sign of the Zodiac. (The first sign is Aries—Mesha; the second Taurus—Rishabha; the third Gemini—Mithuna; the fourth Cancer—Kataka; the fifth Leo—Simha; the sixth Virgo—Kanni; the seventh Libra—Thulam).

This sign is also 30° in longitude and it extends from the 180th degree from Vernal Equinox (Aries—Mesha 0° to 210°. The commencement of Libra, i.e., 180th degree is termed Autumnal Equinox. It is a crossing place or intersecting of the ecliptic and celestial Equator. The Sun passes over from North to South declination and at the time when Sun enters 0° of Libra, the night and the day are equal throughout the world. Hindus celebrate this as Thula Masam. The old Mexicans and Egyptians also celebrate this and have feasts on this day.

Chitra, second half (Third and fourth padas), Swathi, and Visaka one, two and three padas are contained in this sign, Thulam.

According to Sayana System, nowadays the Sun enters the sign Thulam on 23rd September and passes through the sign for thirty days and leaves it on 23rd October. It is in Libra for a period just over thirty days. If the date of birth of a person falls within these days, he is called a Libran according to Sayana System. Sun moves just less than a degree a day, in this sign. Therefore the date of birth will indicate the approximate degree occupied by Sun in this sign at the time of one's birth; e.g., if one was born on 28th September any year, the Sun will be in the 5th degree. If the date of birth is 15th October, the Sun's position would be 22°.

According to Nirayana System, the Sun will, throughout Kaliyuga enter Libra—Thulam on 17th October and after passing

through the 2½ stars (Nakshatras or Constellations) found in this sign, will enter the next sign Scorpio—Vrichikam on 16th November. All those who are born between these calendar days will have their Sun marked in Libra—Thulam, according to Nirayana System.

Therefore, according to Sayana System, people born between 23rd of September and 22nd October (both days inclusive) will have the Sun in Libra, whereas according to Nirayana System, people born between 17th October and 16th November any year will have their Sun in Libra—Thulam.

Libra is the 7th sign of the Zodiac whereas it is the 2nd sign of the Zodiac governed by Venus; also the 2nd Aries sign. It is said to be the day house or Moola Trikona sign of Venus. The 1st sign of Venus, Taurus—Rishabha, is an earthly sign but Libra is an airy sign. Taurus—Rishabha is a fixed sign whereas Libra is a movable (chara) sign. Libra is positive one and not negative like Taurus. Alan Leo calls Libra, the equalising sign of the Zodiac. It is signified as the sign of the balance.

Venus is the ruler of this sign. Saturn gets exalted in Libra and Sun gets debilitated. Moon, Mars and Jupiter, whenever they occupy this sign, are said to be in the enemy's camp.

Libra is symbolised by a man stationed in a public market, holding a balance in his hand and dealing in his commodities. It is called the sign of Vyapari, Vaisyas—Businessmen. It is the human biped sign of long ascension.

Physical features: The person, born with Libra as ascendant, grows tall with well-proportioned body. His limbs will

be slender but strong. His appearance will be graceful with a sweet smile, and his countenance attractive. The eyebrows add to his beauty. In the adult age, the occipital region gets bald. The nose will be a little bent like the parrot.

Characteristics: As Libra is symbolised with Balance, the Librans will be level-headed; they can maintain mental equilibrium, weigh the merits and demerits, consider the pros and cons and pass a dispassionate opinion. They are the best judges. While they debate, they excel others in comparing and contrasting. They are constructive critics.

Venus, the ruler of this sign, makes the native courteous, modest and gentle. He is always for a happy and harmonious life. He will not rub on the wrong side. He will purchase peace at any cost. He will be upright and sympathetic. Even when he loses his temper, he will soon be quieted. He tries to lead a pleasant life enjoying all the fruits of life. He is fond of dress, perfumery, art and music. Venus shows that Librans will be having hobbies and being a movable sign, they will be changing from one to another. Photography, gardening, drawing, painting, embroidery, etc., may be their hobbies.

As Libra is the sign opposite to Aries, the Librans will forego their personal comforts but work hard for the benefit of others. Politicians born in Libra will be popular throughout life whereas Aries-borns will be in power during beneficial periods and be nowhere during adverse days. One can study correctly any sign, if he first learns the opposite sign.

Libra is an airy sign. So it confers fertile imagination, correct intuition, brilliant intellect, admirable refinement, supreme indemnity, pleasant nature, etc. He will be a proper adviser to plan anything with correct forethought. As Saturn gets exalted here, one can concentrate, meditate and reach a higher plane in spiritual life also. Sri Narasimha Bharathi, Sri Ramana Maharishi, the sages and the successful politicians who universally commanded all the people uniformly

throughout life, like Mahatma M. K. Gandhi, were born in Libra.

[One who may have in his possession, Uthrakalamritha translated by Mr. Subramaniya Sastri, will find the incorrect horoscope of Gandhiji, on page 69 whereas Sri V. A. K. Iyer has published it correctly in his masterpiece, 'Everyday Astrology' in page 147.]

Further, these people do not believe in hot discussions; but they will try to bring about compromise in all controversial matters. This is one of the main reasons why they come to the public, front and are popular and prosperous. Another good quality in them is that they have an unassuming nature and humanitarian instincts. Even when they commit any mistake, it is such that will be easily forgiven. They generally lean more to the spiritual side than to the pure physical one.

As Libra is a masculine sign and the seventh of the Zodiac (seventh house indicates marriage partner), the Librans have such strong conjugal affection that they do not consider anything else more important than this pleasure. This is the difference between Leo-borns and Librans. Librans are very affectionate and gentle. They are easy-going, and remarkably shrewd, and never hurt others' feelings. They will not bully and bluster. They are persuasive. Being a masculine sign, one cannot impose upon Librans who will defeat the opponent by adopting a peaceful and strategic plan. They are accomplished diplomats.

The Librans enjoy life immensely in the company of the opposite sex. Mercury, as lord of 9, gives intellect and Mars, as lord of 2, offers "no fears". Hence they argue with clarity and forethought. They have the capacity to handle any situation tactfully. Neat touch and fine finish are the traits of Librans. They have warmth and charming manners so that they happen to be the ideal peace-maker.

Venus, the lord of the sign, indicates that Librans will take interest in their dress, furniture, conveyance and other comforts. The number one concern for

them is to keep the partner always in good cheer. The partner will attach importance to the spirit of love among the two, whereas Librans care more for the surrounding conditions.

Venusians generally like music, especially, romantic music, if Venus or Libra receives aspects from Mars. Saturn, aspecting or occupying Libra, shows interest in tragic ones. Jupiter indicates prayers. Moon shows melody and they will keep the audience spell-bound.

Neptune in Libra shows that one will grow very tall. His ideals will be lofty and his notions visionary. He will be intuitive. He can compose songs. He may become a poet. If Neptune is afflicted, he will crave for sexual indulgence. Some people will have Neptune receiving both good and bad aspects. Such people will lead a reckless life in youth during the period of the planet which forms evil aspect and become a poet when the period of the planet which forms good aspect, runs.

Uranus in Libra gives good health and height. They are very intelligent and fond of science, especially Chemistry. If

Uranus is afflicted, they take to sexua Science. They lose their temper easily. They cannot have a happy married life owing to their perverted views.

Saturn in Libra shows that the natives will be above the average height. They may be reserved and ever mindful of their business. They are just and dutiful, sincere and faithful. Marriage comes late or it may cause some difficulties. In a male's horoscope, it shows that there will be much difference in age whereas in the lady's horoscope it indicates that the difference in age between them is a minimum.

Venus in Libra shows a fairly tall personality. He will have good disposition and will be ever courteous. It contributes to sympathy and kindness. One will have pure and refined affection. One will make friendship easily. It conduces to fruitful union and happy marriage. Venus indicates the desire to learn arts, music, painting, poetry, cinema, etc. It

shows a decent partner in business and also luck by linking one's fortune with a partner. One gains money through all matters indicated by Venus. It is a good position in a woman's chart.

Jupiter in Libra gives the native an average height. But the formation will be beautiful and graceful. The countenance will be bright and pleasant.

He will be honest and sincere and his disposition modest and mild. He will always co-operate and help anybody at a moment's call (especially when it is in the last 10°). He will be a conscientious worker, and a compassionate friend. He is best suited for the post of a Judge and to hold any exalted status. He is merciful and charitable. He will find pleasure in frequent travels. He may have costly conveyance, and also powerful friends in the opposite sex. He will gain through law, theatre, hospitals, commerce, public limited concerns, finance, religion, etc.

Mercury in Libra gives the native a moderate height. But he will be very busy, active and alert. His body will be neither stout, nor of thin-build. Long nose and piercing eyes are given by Mercury. He will be broad minded. He will never be partial: will consider both sides and will be just and dispassionate. Whenever he gives a speech, natives will always give quotations, comparison and contrast and will go into meticulous detail. He will prove to be an intelligent judge, inventor, assessor, etc. He will be good at Mathematics, accounts, auditing, company law and tax.

Mars in Libra gives a good height, muscular body and commanding appearance. The person will be always fond of the company of the opposite sex. But he will be a quarrelsome and disagreeable person. He will develop the faculty of perception as well as of observation. Mars offers a clear vision and an intuitive mind. The person will be a lawyer or a surgeon. It gives him the capacity to bend others to his will. He will command others. He will have much influence among people employed in Scientific institutes, religious centres, medical and legal departments.

He will always have enemies also : he may be dragged to the court of law. But he will get over all difficulties and outlive the foes. He faces competition everywhere. Even, just before fixing his marriage, there will be a strong rival. The person will be a little rash in love affairs. He may even get entangled through such activities. He may have to face trouble and difficulties. Mars in Libra gives the native early marriage. Disharmony is not ruled out. If the first attempt fails, Mars will delay the marriage. The interval between the two child births will be a minimum. If Mars receives adverse aspect from slow-moving planets, or lords of 2, 7 or 11, separation and even divorce is threatened.

Moon in Libra gives the native a little above average height and a lovable personality with attractive eyes and nose. He will be fond of pleasant society of young people. He will be happy in their midst. He will have good nature, a warm heart and an agreeable temperament. He will like dress, ornament, perfumery, etc. He will change his dress often. He will thrive more by partnership. He wants company always while reading, playing, walking, going to pictures, restaurant, etc. He will be good in music, painting, etc. He will gain through dealing in milk, transport, perfumery, luxury commodities, glass, mica, jewels, silk, rayon, etc.

Thus, the planet occupying the sign Libra, modifies the native's build of body, his characteristics, disposition, profession, ailment, etc.

Characteristics to be corrected : Generally Libra-borns gain materially either by fortune or through the good will and generosity of any affectionate and influential associate. So one has to keep his emotions in check. He has to resist temptation. He should not allow things to get out of hand. He should not appoint the opposite sex as his private secretary. Much of his time will be wasted. Librans will mix business and pleasure. This need not be elaborated.

Further, they should try to take quick decision as many ideas will flash in the

mind and will spring up one after another quickly.

They should avoid copying mannerisms from others as also gaudiness.

As Librans are unassuming and amiable, others may try to fool them ; they should deal with such associates carefully. Librans are always ready to forgive and forget. They may forgive but it is not wise to forget.

Librans will feel that every new occasion demands a new dress, and so they will spend much on costumes. They do not realise that God has given them charm and that adornment is not required in their case.

Health : Normally, their physical structure is good. But they do not have normal immunity and resistance against infectious diseases. So they are susceptible for such ones. They have to take prophylactic measures.

Kidneys, loins and spines are indicated by Libra. Therefore one can expect defect in the kidneys, pain in the spines, etc. In the case of ladies, Urus may be affected. Whenever the planets indicating disease occupy Libra, one may suffer from appendicitis, Lumbago, Polyuria, etc.

Sun is a Bhadrakasthana adhupathi. Jupiter is lord of 6 to those born in Libra and it will affect the native's health. Hence during the periods of the planets, Sun and Jupiter, and those in the constellation of Sun and Jupiter, it is advisable to adopt precautionary measures. In the case of a few Librans, their liver and intestines will be affected.

Finance and Fortune : Librans are the best-suited for business with a partner. Libran may be the adviser and his partner may look to him, consult and take a decision as Libran can suggest just the correct thing at the proper moment. For, Librans excel other people in matters of reasoning, logic, foresight and judgment.

Librans are also suited for law. They are admirable critics. 10th house ruled by Moon suggests that their occupation may include liquids. So blending both, it may

be said that Libra may be a druggist, chemist, painter, engineer in hydro-electric system, transport, navy or one dealing in liquid food or milk or juicy fruits.

Libra being an airy sign ruled by Venus, any one born in this sign or having Libra as one of the houses 2, 6 or 10 bounded from one's ascendant, may be a story writer, playwright, musician, architect, nursery owner or one in the fairways service.

As Librans' powers of persuasion are irresistible, they happen to be good salesmen, liaison officer, receptionist. As a salesman, they will sell more than what the buyer wants, because of their charm, pleasing manners, smile and sweet words.

Income: All the professions mentioned in the article "Venus" in May 1964 issue may kindly be referred to.

Expenses: Libra's idea of what is needed is different from that of other people. That is why, they are sometimes extravagant. They spend on luxuries, curios, etc. They are seldom economical. Therefore much money may pass through their hands. They will donate for good causes and will be generous and liberal.

Domestic environment: Their family life will be happy because Librans try to maintain peace. Their houses will be well furnished and all luxuries will be made available. Decorations, designs, paintings will be of high standard. Costly ornaments will be in their possession. They always prefer to lead such pleasant lives and enjoy all the fruits of life. They love their home, family and their property. Generally, the parents of natives born in Libra will rush home from their office, mostly to spend their time at home with their little group. They will not normally give interviews to their subordinates or customers at their residence. They will finish everything in their office.

Friends and benefactors: The Librans are ever-lasting, good friends to all those who come in contact with them. For they are honest, just, kind, courteous and generous, they easily make friendship with others. Without friends, they cannot pass

on their time. Sun, as lord of 11, shows that they will have much to do with Government servants, officials, etc. They will lead mostly a public life with both social and financial success. As they do not hurt others, even when their friends misbehave, they quickly forgive. So, naturally, they gain ultimately. Socially they are always in great demand. Well-aspected Sun gives them the benefit through those born on Sundays or in Leo Ascendant, or Karthikai, Uthra Parguni or Uthraashada star days. They will waste money on those born on Punarvasu, Visakha, Poorvapathrapada stars and Ashlesha, Jyeshtha and Revathi stars. For these people born in the six stars cannot be helpful.

Romance and marriage: Librans are the most lovable people for sex-life. For, they are experts in all love affairs. By their sincere love, they capture their partners. Besides, their dress, fashion, pleasant perfumery, and sweet smile are very enticing, Librans' passion grows suddenly dies out quickly as it is a movable sign. But, at the time the Librans enjoy, he enjoys immensely in the company of the opposite sex. Being a pleasant conversationalist, they put your arguments with clear vision as they find pleasure in good discussions. Girls born in Libra are ready to let the male do all the disagreeable ones. They like to do such acts and will never fail to thank them with a smile.

Librans marry early in their life. They preserve the tradition. They are happy both at home and also in social life. Their standard of living being high, sometimes they cannot have a partner who can satisfy them.

Libra girls are intelligent, tactful, and wise. They avoid hot discussions and try to maintain peace.

Libra ladies lead luxurious lives, they love and adore their partners.

Libra men are cheerful, happy, romantic and adjusting. They will accommodate to a good extent. They will provide the family with all necessities, comforts, luxuries and conveniences.

They are highly passionate and they reach the greatest heights in expressing their love. If, per chance, the response is not to their expectation, they feel very much disappointed. But generally, they do not seek for divorce but try to adjust.

As houses 2, 7 and 11 indicate the partner in life and the houses 2 and 7 are ruled by Mars and 11 by Sun, the partner in life will be short-tempered and rash. They may listen to the Librans but do just as they desire. They will be mostly of Martian type. Hence Libra-borns have to tone down their fiery nature and by their diplomacy and tact, maintain peace at home.

Those who are born in Gemini, and Aquarius will match the Librans very well. Pisces, Capricorn and Cancer will not agree with them. Librans will manage with others.

Children: Since the fifth house is ruled by the planet, Saturn, normally the Libra-borns will have limited number of children. As Saturn is a dutiful planet, the children of Libra-borns will help them in their old age. Librans, by their charm and pleasing manners, can see that the children carry out their instructions with pleasure.

If children are born in the exalted sign of Saturn, i.e., Libra - they will be renowned for their diplomacy. They will never quarrel. They will pay heed to others, understand their views and try to adopt them if they suit them. They are never 'Extremes'. They are moderate. They cannot be partial. They are very polite and modest. They know to say always 'Yes' and they avoid saying 'No' to anybody.

Lucky day: Sundays and Mondays are the successful days, when you will be fortunate.

Saturdays show ultimate and grand success as it owns both the Kendra and Kona houses and it becomes a benefic by lordship.

Tuesdays are auspicious for competition, litigation, election and speculation. Sudden and unexpected advantages will occur on those days.

Wednesdays show long journeys, contact with foreigners, feasts, social functions and pleasant expenses. Thursdays are evil.

[Generally people born in Libra do not have such younger brothers who are as useful, reliable and true to Librans, as Librans are to them. As lord of 3 is also lord of 6, the younger brother and neighbour will be inimical.]

There will be misunderstanding with cousins, colleagues and others. But this day is auspicious to apply for overdraft facility etc.

Fridays offer mixed results.

Lucky Colour: Orange, white and red, green and yellow should be avoided. Orange colour gives easy gain without any pain. Pearls and oranges are favourable for speculative profit. Do not use blue when you speculate. Blue will assist your opponent as Capricorn and Aquarius are the 10th and 11th houses to the opponent indicated by Aries.

Red colour is good for marriage and competition.

Yellow threatens misunderstanding and dispute. Green shows only withdrawal of money and deterioration of bank position.

Lucky number: 1, 10, 19, 28, 37, etc.

4, 13, 22, 31, 40, etc.

2, 11, 20, 29, 38, 47, etc.

7, 16, 25, 34, 43, etc.

Number 5 is for loss; 6 also threatens success to opponent; 8 indicates investment and profit to one with whom Librans transact. 3 brings in enmity. 9 may lead to litigation. But finally it promises success.

Lucky stone: Ruby and Pearls.

Some are of opinion that Venus being the lord of the ascendant, Friday, Number 6 and diamond are lucky. But the editor differs as Venus rules the 8th house also (although in Jataka Chandrika it is said that Venus does not become a malefic by owning the 8th house). Experience has shown that this rule applies only to longevity and not for any other aspect in

one's life. So Venus as lord of 8 will throw obstacles: one may have any danger due to the lordship of the 8th house. But as lord of the ascendant, it saves. But Venus does not give smooth success.

Objects indicated by Libra: Libra indicates the prices of cotton and textiles, silks, and fabrics like rayons, linen, nylon; and also the prices of wheat, jute, canes and grains. Finished goods and foodstuffs are indicated by Virgo.

Places: Libra denotes sawpits, ground near windmills, outhouses, inner chamber, sides of hills, places having a pure, clear, sharp air, mountain tops, etc.

Towns: Antwerp, Nottingham Leeds, Frankfort, Lisbon, Vienna, Charles Town,

Petrograd, Copenhagen, Spiries, Playenya Fribourg, Suessa, Johannesburg and Gaeta.

Countries: Northern Provinces of India, Burma, Indo China, China, Argentine Republic parts of Tibet, Upper Egypt, Libya, Uzbek, Savoy, Austria, Bactrianna and Livonia and also the parts near the Caspian Sea.

Whom to pray: Goddess Gowri, Lalitha, Suryanarayana, Venkatchalapathi, Ayyappa, Sastha.

As lord of 5 is Saturn, the native will have initiation more than once. He will find many obstacles, etc. But the above mentioned Goddess and Lord will bestow on him peace and prosperity.

MOON IN THE ELEVENTH HOUSE

Moon is a wavering planet. It is unsteady. Does it give the same appearance on any two consecutive days? Either it waxes or it wanes.

Moon and Mercury are in a way similar. They have no basic nature of their own. They will reflect the qualities of the houses they occupy and also those of the planets with which they are conjoined.

Moon gives an easy-going life. It promises social success and that is why it is easy for the native to have the friendship of others and to get along with them smoothly.

Moon is an yielding planet. It is not a bold and courageous one. It cannot assert.

But it gives fertile imagination. As it is feminine, the native will be timid, receptive and convertible.

Moon presides over the masses. It indicates journeys. Commerce and foreign affairs are indicated by Moon.

11th house signifies pleasure, profit, permanent tie of friendship, partnership, progeny, prosperity, progress in one's attempts, peace after fulfilling one's desire, realisation of ambition, social and financial success, etc.

Kalidoss in Uthara Kalamritha mentions that the following matters are determined from the 11th house.

"Profit in every undertaking, undesirable desire, all varieties of income, one's influence, elder brother, father's younger brother, devotion to God, respect to elders, gain of knowledge, possession of costly metals, ornaments, etc., high level of intelligence, father's property, the patella, the wealth of the employer, loss of interest on one's principal, presentation of costly ornaments to the partner, advice of others, brother-in-law, luck, easy gains, mother's longevity, left ear, attractive painting, arts, etc.

Varahamihira calls the 11th house as 'Aya' and names it as "Bhava". He calls the 11th house as one of the four Upachaya houses; i.e., 3, 6, 10 and 11. "Aya" means 'income'. Yavanas do not agree with Varahamihira as regards Upachaya. The editor confirms the truth in the classification and findings of Varahamihira. Further, the 11th house is also mentioned as a Panaphara house: Houses 2, 5, 8 and 11 are Panapharas which are weaker than Kendhras. Houses 1, 4, 7 and 10 which are stronger than houses 3, 6, 7, 9 and 12 are called Apoklipa houses. Hence the 11th house is a little weak house, but it fulfils one's desires. Probably, that is why, Ravana tried to have all planets in the 11th house when Indrajith was about to be born.

Mahadeva in Jataka Tatwa calls the 11th house as 'Labha'. Gain by good or bad means is ascertained from the 11th house. Mahadeva takes the 11th house to find out the type of vehicles also.

Ramadayala in Sankethanidhi says that the following are judged by considering the 11th house: The right foot, the left hand, one's knowledge, income, wealth, good actions, vehicles, horses, elephants, chariots; furniture, ornaments, clothing, beauty, decoration, etc.

In Jataka Chandrika, it is mentioned that the 11th house is the Bhadhakasthanā to the native born in chara-rasi, i.e., movable sign. It means that one's health will fail or one's length of life will give cause for anxiety during the period of the planet in the 11th house or of that which owns the 11th house. Hence, for people born in Mesha-Aries; Karkata-Cancer; Thulam-Libra; and Makara-Capricorn, the 11th houses therefrom are Bhadhaka Sthanas or evil houses. It will prove to be evil only for health and longevity; for other matters, it is auspicious.

Bhattotpala in Prasnaṅgana says that elephant, horse, conveyance, food, clothing, jewels, girls, wisdom and wealth are indicated by the 11th house.

In horary astrology, the 11th house is considered to find out "one's friends, hopes, flatterers, advisers, etc."

The 11th house, being the 9th from the 3rd house, indicates younger brother's higher studies, long journey, etc. Being the 8th from the 4th house, one may fear danger to mother from the 11th house. As it is the 7th house when counted from the 5th, it shows daughter-in-law and son-in-law. Being the 6th house from the 6th house, victory over enemies is indicated. One may have an open enemy, who will have himself another powerful enemy. Therefore at a time when a person A is afraid of his enemy B's evil actions, the enemy's enemy C will take such steps that B, the native's enemy has to divert his attention on the impending danger to himself from C; thereby B will be unable to do harm to A and thus A gains.

Suppose A stands for election. A knows that B is a strong opponent and so B will do anti-propaganda. But B's enemy C takes an action against B, so that B has to protect himself from C and will then be unable to do harm to A.

The 11th house also shows birth of children and the speculative mind of the partner.

The 11th house indicates the short journey of father and his younger sister or brother.

The native's elder brother is also denoted by the 11th house.

Politically, 11th house indicates the parties, Congress, Parliament, Houses of Representatives, Legislative Assemblies, State Legislatures, Corporation, Municipal Councils, International friendships, exchange of amenities among nations, Governments policies, proposals and plan, nings.

In races, the 11th house denotes the committee of management under the control of stewards. It shows the number of the winner.

In market forecasting, one has to consider the 11th house for Government Loans, Electric Companies, Gas, Museum, Agriculture, Estate Irrigation, silk, etc.

Moon receiving good aspect from Sun, or Moon occupying the sign or star or sub of Sun gives longstanding friendship with Government officials and enough opportunities to improve one's status and become more popular. Everything will be pre-arranged for him. Health will be good. Success in business and in daily transactions and happy domestic life are promised though the native may deny his own wants and comforts. One may save much and gain steadily through Government.

Mars forming good aspect with Moon in 11 or Moon in Mars sign or star or sub, and in 11th house gives robust health. He will enjoy a good constitution with enough immunity against infectious diseases. Physically, one will be always alert and active. Mentally, he will be bold and courageous. Financially, he will have success in business or in any occupation. He will gain authority, power and influence. He will not lose by theft, robbery, or cheating. He will have good relationship with his brother. He will acquire agricultural lands with copious supply of water. His friends will be serving in the Police or Military Department, or in any Industry.

Moon receiving favourable aspect from Mercury or in any manner connected with Mercury (by conjunction or occupying Mercury's signs, Gemini or Virgo or in Mercury's stars, Ashlesha or Jyeshtha, or Revathi) indicates that he will have friends in the textile, engineering, publicity, embassy departments, etc. One may gain by being a Liaison officer. He may mingle with learned scholars. He will be a good salesman. Both in business and in service, he will have satisfactory advancement. It is not unlikely that he will ever try and make his easy gains through crossword puzzles and will gain when both Moon and Mercury jointly operate. A colleague of mine earned a decent sum when he was running Moon Dasa, Mercury Bhukti at the age of 48 years and 6 months. His

Lagna, ascendant was Virgo. His Moon was in $112^{\circ} 57'$, i.e., $22^{\circ} 57'$ in Karkata—Cancer in the 11th house. Due to the good aspect between Moon and Mercury, he was never over-anxious.

Moon in 11 also shows that he will easily get through any examination. He will have good relationship with his elder sister or brother. He will undertake travels and will be successful in his attempts.

Moon in 11, receiving good aspect from Jupiter or in any manner connected with Jupiter, offers good health to the native. He will appear always cheerful with optimistic nature. His ideas will be magnanimous, his imagination fertile, his disposition hopeful and he will gain much by lawful and legitimate ways. The person will have friendship with judges, advocates, bankers and religious people, and will be good-natured and law-abiding. He will acquire wealth by his efforts. Moon does not portray much of inheritance; rather, self-acquisition will be much more than inheritance. He will be famous. He can realise his ambition. He will not spend lavishly—even moderately and he never loses. He will not be inclined to spend recklessly in any pleasant function. He will never care for vain glory.

Moon in 11, having good aspect with Venus or in any manner connected with Venus, gives good friends in music, opera, cinema, radio or with one who deals in cars, luxury goods, diamond, jewels, etc. He will spend much time on pleasurable pursuits. He will enjoy his life in the company of the other sex; will change his dress often and will use perfumeries. If the native is a woman, her husband will be an accommodative and pleasant gentleman ever smiling and never provoking her. The loving partner and beautiful children contribute for harmonious and happy family life. One can command all comforts in one's life. Venus indicate taste in arts, painting, music, etc. It is not unlikely that one gains through ladies, especially through wife or mother. One will take risk in all speculative enterprises and will be successful in such

efforts. Much of social and financial success is presaged.

Moon in 11, receiving good aspect from Saturn, or in any manner connected with Saturn, indicates that he will be steady. He will take all precautions: will be careful and cautious, will be faithful and reliable; sincere and honest; he will be pains-taking and will be gaining money in business. He will plod, persevere and patiently work. He will have unexpected sudden and substantial gains or legacy through old people. He will have good returns from permanent possessions. Gain of wealth through mine products, coal and lead, is also indicated. Success in Geology and mines, and service in kerosene or petrol departments or through good friends in those concerns is indicated. One defect in this aspect is that the person will never come out successful in his first attempt: nothing is pre-arranged for him. He has to make subsequent attempts and ultimately, he will be crowned with success. If Saturn is very strong in the chart, then he will be another Robert Bruce.

Moon in 11, receiving good aspects from Uranus, promises sudden and substantial gains. He or she will make friendship suddenly. Every good result to them will be attributed to luck. For without any effort, the native will realise his ambition. He will be highly intelligent. He will be a successful politician or a master in astrology. He will easily practise Hypnotism. Social and financial success are assured. He is best suited to be a Liaison officer or a marriage broker. He will have friendship with high officials and his status gets improved through such friends.

Moon in 11, receiving harmonious aspects from Neptune, makes one a great musician, especially in instrumental music. He will have taste for the fine arts. He may have contacts with the heads of religious mutts. He may gain through those who are spiritualistic. Wholesale business and big projects will be organised and controlled by him. He will be successful. Overseas journeys will prove to be fruitful. Help through foreigners

is indicated. There will be no accident while travelling by boat or ship.

Moon, as lord of the Ascendant in 11, will do much good as it will be either in the constellation of Sun, lord of 2 or of Moon, lord of the ascendant or in that of Mars who owns the most beneficial houses, Kona and Kendhra, 5 and 10. Hence, people born with Moon in exaltation in Taurus, or in 11 to their Lagna, will surely have very brilliant results during its periods and sub-periods. But, the 11th house, being the 6th to the 6th house, indicates maternal uncle. Moon will prove to be harmful to those who are born in Karkata Lagna and with Moon in Rohini, as Moon happens to own the 8th house from the 6th to Karkata and is in 6 to Dhanus. In other aspects, Moon is favourable. Moon in 11, within 10 degrees in Taurus in Karthikai star indicates afflux of wealth, birth of children, gain through Government servants, and through medical people, and good friendship with them as also with estate owners, rich landlords, etc. Moon in Rohini in 11, indicates tendency to stoutness, cold, sore throat, infection in the throat, defect in vision, grand success in enterprises, as also chosen friends, permanent tie of friendship, and gain through them. An easy going life, a smooth and successful career, a highly accommodative partner and lucky children are also indicated. The native will have fertile imagination and a good taste for music. He will be fond of changing dress often and using fragrant scents. He is a good conversationalist full of subtle humour.

Moon in the first half of Mrigasiras in Taurus, being in 11 to Cancer, promises grand success in all his efforts. There will be sudden gains and good lift in his career. He will have "Siddhi" in Mantras. He will enjoy benefits due to correct intuition and prompt action. In the speculative business, in a short period of Mars, the person will earn much more than what he can during other periods of his life time. He will have good friendship with estate owners, police, military and defence departmental staff and also with big industrialists. He will take up politics and will be popular.

Moon, as lord of 2, will be in 11 for Gemini people. If Moon is in Kethu, he will not have confidence in friends. He will not trust any one. He may be foolhardy. Moon in Bharani shows that he will spend much on pleasurable pursuits, speculation, etc. This position of Moon is highly suitable for Gemini Lagna peoples to do research to ascertain whether one gains during Moon period or loses in speculation. Normally, if one takes only the rasis (Solar mansion as Aries, Taurus, etc.), one will say that lord of 2 is in 11 and one must gain during Moon's periods and sub-periods. But if one follows stellar astrology, he will say that as lord of 2 is in the constellation of lord of 12, he has to incur loss; further, as lord of 12 is also lord of 5, he will lose through speculation, betting, races, etc. Also he will spend much on children. Moon in Bharani gives one opportunities, to be always in the midst of the other sex.

Moon in Karthikai star makes one a medical representative. He may be an agent of a medical concern, or he may represent any industry manufacturing drugs. Sun, lord of Karthikai star, shows, as lord of 3, that he will act as an agent or a representative of any industry, factory etc., as the sign Aries is ruled by Mars. Moon, as lord of 2, being in Karthika, will give the native service in the Navy as Moon indicates water, Sun stands for Government—lord of the star; and Aries sign ruled by Mars stands for the Defence Department. Further, Sun is lord of 3 and this indicates up and down journey.

Moon, as lord of 3 in 11, in the first 3° 20' in Pisces, shows success after facing many obstacles; ultimate gain; large profit in crosswords and income through wife. Moon in Uthirabathra pada star shows that he will be having frequent tours, long journeys, desire to go overseas for higher studies. He will come out successful in his subsequent attempts, will have contact with foreigners, will enter into an agreement with them, will be benefited by foreign collaboration, and will take in strangers as partners, etc. A few, while making short journeys, will make intimate friend-

ships with one, who is an absolute stranger, especially, when Mars and Venus aspect Moon in Uthirabathra pada. Moon in Revathi, as lord of 3 in 11, promises fortune. The native will be intelligent, clever, tactful, and diplomatic. He will rise far above the sphere in which he is born. He may make good friendship with people engaged in propaganda, publicity, communication, Postal, Telegraph, Television, etc. or serve in such departments. He will prove to be a good salesman or liaison officer.

Moon, as lord of 4 in 11 in Dhanishta star, gives gains through landed property or buildings and a mother who is lucky. But Moon in Sathabhisha is just the opposite. The native will live in a rented house: mother will be ill and conveyance will be a problem. Moon in Poorva pathra pada, gives high education, double degree, Doctorate, etc. Also it shows long journey, life in a foreign place, assistance from learned men and gain by publications, etc.

Moon, lord of 5 in 11, indicates debts, disease, disharmony, dispute and difficulty if it is in Uthrashada star; but victory in speculation and games of chances in Sravana. For those born with Moon in Pisces will have a large number of daughters and yet will continue the pleasurable pursuits. He will have taste for Music and he will try to be friendly with musicians, actors and actresses. He will be good at imitating others and keep his friends in good cheer. He will not have many permanent friends. His benefactors will often be changing. Moon in 11, as lord of 5, in Dhanishta in Makara, is in a fortunate disposition to give lucky children and a fortunate daughter-in-law. One will make substantial gains in the share market as house broker or by dealing in mine ores.

Similarly, one is to judge for other houses, considering the lord of the constellation in which Moon was in the 11th Bhava (House).

Let us now take the various matters signified by the 11th house and what Moon indicates by occupying the 11th house.

Moon presides over masses: So one is to predict that when Moon owns the third house or when Moon is in the constellation of lord of 3, he will be serving in Mass communication.

11th house shows partner. If Moon is in 11, if the native does business, he will include as a partner in business, one who would have been born on a Monday, ruled by Moon or in Rohini or Hastha or Sravanam star or in Cancer ascendant.

11th house indicates elder brother. If Moon is in 11, during the periods of Moon and of the planets in the constellations of Rohini, Hastha and Sravana it will indicate the health and longevity of the elder brother.

Left ear is determined from 11th house when Moon is in 11. If it is afflicted by any planet, during the conjoined periods, there will be some ailment in the left ear. For example, Moon in Rishaba Lagna, in Pisces in Uthirabathra pada star shows that one may have trouble in the left ear where there will be pus formation. 11th house shows left ear; Moon is for liquid; Saturn indicates pasturation; so pus will form in left ear during the conjoined periods of Moon and Saturn.

Thus thorough analysis is necessary. One has to follow Stellar astrology and for more precise prediction, one has to adopt Krishnamurthi Paddhati.

HOUSE TO DWELL IN

By K. GANAPATHY

13, Brahmin Street, Saidapet, Madras-15.

The fourth Bhava (house) in a horoscope signifies, the permanent possessions, viz., land, building or vehicle, the mother as well as one's education.

Let me first give the various rules given by our sages dealing with the subject "Houses".

Mahadeva in Jataka Tatwa says that a person will reside in many houses if the 4th house is a movable sign; or if its lord occupies a movable sign or the Karaka Mars is in a movable sign. It means that during the periods and sub periods of the planet in 4 which is a movable sign, one will change his residence; if the 4th sign is fixed, but its lord is in a movable sign, the person will change his quarters; or during the period of Mars, one has to change his dwelling, if Mars were to occupy a movable sign: In Sarvartha Chintamani, Venkatesa says that "movable signs indicate houses in many localities.

"If the 4th house, its lord or Mars were to be in a fixed sign, the person will live permanently in the same house." The 4th house may be a fixed sign. So planets in 4th Bhava and in fixed signs, will not allow one to change his quarters. If the lord of the 4th house, which may even be movable, occupies a fixed sign during his period, the native cannot shift. If Mars occupies a fixed sign, the native will remain in the same house during its period.

"If the lord of the 4th house is in a benefic Amsa, he will live permanently in one building. (Chap. III, Sl. 98 to 100).

He says "Find out who owns the first, second and 4th houses: Note how many of them occupy either Kendhra or Kona. (Kendhra means 1, 4, 7, 10;—Kona means 1, 5, 9.) Depending on the number of planets, one is to predict the number of good houses resided in and to be resided in by the person".

In Jataka Parijata it is said that the acquisition of houses is to be determined from the 4th Bhava.

He says: "If the fiery planets, Sun or Mars, occupy the 4th Bhava and be in depression or in enemy's camp, the person will not own a house."

"If the lord of the 4th Bhava is in the 12th house, the native will live in other's houses in a foreign place." "If the lord of the 4th house is in 8", the author says, "there will be no dwelling house owned or tenanted by the native." "If the lord of the 4th house be in the 6th house, he will lodge in a house owned by uncle, cousin, etc."

He adds "If the lord of the 4th house is in a Dus-Sthana (i.e., 6, 8 or 12) or if an evil planet occupies the 4th house, then the house owned by him will be haunted".

"The lords of 2, 4 and 12 in 3, 6, 8 or 12 indicate the number of houses to be lost by the native".

He encourages by saying that one will be lucky to own as many strong houses in good condition as the number of beneficial planets in the Trikonas and Kendhras.

Mahadeva is of opinion that the lord of the 4th house, in combination with the lords of 6 and 8, causes the destruction or loss of the house.

Varahamira in Brihat Jataka says that people, born with Moon in Cancer or in Virgo, will own houses. It does not mean that all those born in Cancer Rasi will build houses and those born with Moon in Virgo will own them. Here one is to note whether Moon was in a favourable sub and constellation. Also one should note the lordship of Moon. Otherwise, in many cases, it will not come true. But those born with Moon in Gemini or Virgo, Libra or Scorpio, Pisces or Aries, own good

Houses. If Moon is also strong and beneficial, it will give a house to the person during its period.

Kalidoss also has said in Uthrakalamrita, that beneficial Moon and Jupiter will bless one with a house.

Prithuyasas mentions that a person will acquire a dwelling house during the dasa of a planet, if the dasa commences on the day when Moon transits in Jupiter's sign.

One lives in others' houses during the period of Mercury, if it would have been debilitated at the time of birth. Also he says that persons, born in Meena Navamsa, live in other's houses. He is of strong opinion that people born in Karthikai Nakshathra will own many houses.

One can have a strong house, if a benefic occupies the third house and the lord of 4 is also strong.

— The house will have a compound wall if there is a benefic in the 3rd house and when the lords of 1 and 4 are both strong.

Thus, various authors have mentioned about the dwelling houses.

— But for practical application, the subject will be clearly dealt with, for the benefit of the readers.

(1) 4th Bhava signifies mother, vehicle, education and building.

— (2) Mars is the planet which governs buildings, Moon the mother, Venus the vehicle and Mars as well as Moon the land.

— Therefore planets connected with the 4th house and Mars will indicate house; 4th house and Venus indicate conveyance; 4th house and Moon govern mother; 4th house and Mercury indicate education.

So the planet occupying the 4th house or the planet in the constellation of the occupant, having connection with Mars, the lord of the fourth house, if connected with Mars, and planets in the constellation of the 4th house connected with Mars indicate buildings. If these planets are not connected with Mars, but are connected with Venus, one will have vehicles. If they have connection with Moon, the results refer to mother. If

Mercury has connection, it indicates education.

[By connection with Mars, it is meant that a planet may —

- (a) occupy the sign owned by Mars, or
- (b) occupy the star ruled by it, or
- (c) the sub (according to Krishnamurti Paddhathi) governed by Mars, whatever be the sign and the star].

Therefore, if one judges about one's house to dwell in, one has to consider the planets connected with the 4th house and also Mars.

- (1) The planets occupying the 4th house (whatever be the sign) and are either in Mars star or Mars sub,
- (2) planets in the constellation of such occupants,
- (3) lord of the 4th house in the constellation or sub of Mars,
- (4) Planets in the constellation of such lords,
- (5) and the favourable situation of Mars to the 4th house.

Acquisition of a house may be by inheritance, legacy or by purchasing a plot and constructing on it or straightaway purchasing one.

Hence, if the 4th house receives good aspect from the lord of 10, the native gets a building by inheritance. Here, he does not withdraw money from Bank or borrow, and then buy or build.

But if the 4th house has connection with the lords of 1 and 12, the native will invest the money he has, and convert liquid cash to a solid permanent possession. The second house indicates bank position, one's movable property, liquid cash, etc. The first house indicates that he makes efforts. Twelfth house shows that he spends and invests.

But if the 4th house has connection with the lords of 1, 6 and 12, one will borrow and invest or one may acquire a house through co-operative society, etc.

If the lord of 1 has no connection with Mars, but if the lord of 4 and the lord of 6 are connected with Mars, one borrows money by mortgage.

If the lord of 1 has no connection, but if the lord of 4 and lord of 8 are connected, he will sell away the property. The purchaser is represented by the seventh house; 8th house will be the second house to the purchaser. So he acquires.

If the lord of 4 is connected with the lord of 12 and also Sun, either he loses the house by fire accident or through public auction.

One uses much of wood if the planet which gives the house is connected with Jupiter; Kethu and Mars indicate that one will use well-burnt bricks. Saturn and Venus indicate cement; Saturn, Venus and Mars indicate re-inforced concrete. Sun, connected with the planet offering the house, shows that the roof may be thatched and grass may have been used; Moon indicates that there will be copious supply of wholesome water. Mercury indicates that he may have twin houses or servant quarters, outhouse, etc. Venus and Moon indicate that one will use lime and render it to give the appearance like marble. Mars and Venus indicate mosaic flooring. Venus gives garden, furniture, glass, etc. Saturn gives air-conditioning, frigidaire, etc. Mars improves the kitchen; Venus the bedroom; Jupiter the cash—treasury room; Mercury the reading room; Saturn indicates that he may have a locker, an underground room, cellar, etc.

When one lets the house for others, Sun indicates that it will be let to Government department or Government officials; Moon for nurses, midwives, Navy people; those who work in water supply, etc. Mars indicates Surgeon, industrialist, police, military, etc. Mercury shows business people, agents, journalists, post office, etc.; Jupiter for bank, school; Venus for hotels, silk shop, silver shop, for ladies; Saturn for servants, labourers, etc.

That is why, some people build houses and let them out for Bank; some let them out for silk and silver shops; some for laundry; some for saloon, etc. This

can be clearly seen in the horoscope of the native.

So also one can find that owner of the house where one lives, belongs to one of a particular caste or profession or the quarters belong to Government or local body, etc., by scrutinising the position of the lord of 4, the Dasanatha and Bhukti natha: i.e., the lords who rule the Dasa, Bhukti, Anthra, etc.

The following horoscope will explain the sale and purchase of house during the difficult dasa that operated:—

Mars 29° 48' Lagna 16° Venus 14° 57' Saturn 3° 9'		Moon 3° 11' Rahu 19° 46' Neptune 20° 2'
Budha 16° 23'		Jupiter 6° 33'
Sun 29° 34'		
Uranus 22° 31' Kethu 19° 46'		

Mars Dasa Balance 1 yr. 9 mths. 23 days. While this native was running Rahu Dasa Rahu Bhukti Mars sub sub period in the first week of July 1912, the house belonging to his father was sold away.

He purchased a house on 5-11-1940, when Jupiter Dasa Mars Bhukti Jupiter Anthra was operating. He sold this house on 8-6-1958 during Sani Dasa Rahu Bhukti Sani Anthra.

Again on 4-7-1960 he purchased a building during Sani Dasa Guru Bhukti Budha Anthra.

Explanation for the transactions.

- (1) Rahu was in the 4th house—Evil planets in the 4th house indicate loss of a house, if one possesses one

already. That is why, during Rahu Dasa Rahu Bhukti and later in Saturn Dasa Rahu Bhukti he had to dispose of the houses.

- (a) Rahu was in Rahu's star and Mars sub. That is why, during Rahu Dasa Rahu Bhukti Mars Anthra, his father sold away the house, when he was young.
- (b) Sani is lord of 11 and also 12; Therefore, during evil sub period, the results indicated by evil house 12 will operate. During the Bhukti of beneficial planets, during Sani Dasa, beneficial results will be enjoyed as lord of 11. If a planet owns both good and bad houses, one should not divide a dasa into two halves and then say first half is good, the other half is bad or the first half is bad and the other half is good. But the correct method of prediction would be (a) during the sub of beneficial planets (not according to

their nature, but judging whether one is a benefic or not, by considering its occupation and lordship) to declare agreeable results in the sub period of planets owning good houses counted from Lagna and occupying favourable houses counted from Lagna and Dasanatha house;

- (a) during Sani Dasa Rahu Bhukti Sani anthra he sold away the house on 8-6-1958 and
- (b) during Sani Dasa Guru Bhukti (in 4th Bhava) Budha Anthra (lord of 4th house) he purchased a beautiful house. During Sani Dasa Guru Bhukti Mars Anthra he extended the building.

Future Prediction: In December 1971, he will purchase one more house during Mercury Dasa Mars Bhukti Mercury Anthra, sell away one in Mercury Dasa Rahu Bhukti Sani Anthra and have one more in Jupiter Bhukti Mercury Anthra.

MOLES

Astrological Expla-

Breast: Mole will be found on the right breast if there are malefics in the 4th house or in the sign Cancer (Kataka). 4th house shows domestic environments, permanent possessions, landed property, conveyance, mother, later portion of life, treasure, etc.

Moles will be found on the left breast if malefics are in the 10th house or in Capricorn (Makara). 10th house indicates profession, occupation, business, inheritance, name, fame, reputation, etc.

Mole on the right breast portrays that one may be given to drink. He will be much attached to the love affairs. But at the same time it threatens much misfortune in life. One may have sudden reverse from riches to poverty. If the lord of the 4th house occupies the 6th or vice versa or if the lord of the Navamsa occupied by the owner of the 4th house is in 6, the person will have much pressure for money and he will mortgage his property. But if the lord of the 4th house is in 8 or if the lord of 8 is in 4, the native will once for all, sell away the property. Anyhow the person will lose possession of the property.

There may be many accidents. The 4th house indicates conveyance and building. If malefics are in 4, the old wall may fall and he may be injured or he may meet with accident while travelling and the vehicle may get damaged.

It is said that the partner will be industrious. Partner is indicated by the 7th house. Therefore, the 4th house to the person means, 10th house to partner. Is it not a fact that malefics in the 10th house indicate maximum labour and minimum wages. So the partner has to be industrious, pains-taking and persevering.

Some may pity the person as he will have many children and most of them

girls. No doubt the children will have high connections, get married in well-to-do families and will be helpful to parents. Malefics in the 4th house show such results; 5th house indicates children. Only when the 5th house is occupied by malefics, either there will be no children or children may be still-born or short-lived, etc. But 4th house is the 12th house to the 5th and hence it shows expenses to them. Hence they pay to elders.

The person will have such friends that will cheat the native and will do harm as the 4th house forms quincunx aspect with the 11th house which represents friends.

Moles in the left breast indicate that one will be hard-working. He will prefer to walk any distance. It shows success in one's attempts, and satisfactory improvement in one's status. Even in love affairs, he will find steady and smooth progress, harmony and happiness. He will accumulate wealth. Mostly boys will be born who may make their fortune by going overseas and establishing connection with foreigners. In ladies, this mole shows their sincerity in love and sterling character. It promises that they will become richer and richer as age advances.

Buttocks: Moles in the buttocks denote that one will be lazy and lethargic. 7th house signifies buttocks. So malefics in the 7th house oppose the ascendant and spoil the lagna. Hence the person will be idle. He will not be successful in his attempts and he will not be satisfied with his income. Expenses will exceed income. Saturn in 7 makes one idle. Mars in 7 indicates extravagant partner. Rahu or Ketu in 7 increases the medical bill due to the partner's ailment.

Saturn depresses one, delays every action, denotes success in efforts and invariably causes disappointment. Mars makes one foolhardy and arrogant, thereby losing very.

good chances to come up in life. The following is the chart of a neighbour who died recently.

Venus Jupiter			Saturn Moon
	16-2-1916 Wednesday		Neptune Kethu Mars
Lagna Rahu Mercury Sun Uranus			

(Jupiter dasa balance: 5 yrs. 8 mths. 2 days.)

This native, at the time of birth had blue patches all over the buttocks with one big mole. He got married late in Budha dasa Rahu Bhukti in 1952 and passed away in his Kethu dasa Sani Bhukti in 1963. All through his life, he was always in need and never had he the mind to work and earn more. His wife was short-tempered and extravagant. She had many abortions, and most of her time she spent in the hospital.

READERS ASK!

By

JYOTHISHA PRAVEENA K. S. KRISHNAMURTI

[This column is intended to answer the queries of the Readers. The Editor will take up a few varieties and give direct answer without explanation. One of two will be exhaustively dealt with to guide the students.]

Question 1: On 17-9-1964 (Thursday) at about 7 a.m., a gentleman came to me and put the query "Sir, my daughter complains of labour pains. When can the delivery be expected?". Immediately I asked him to give a number within 108. He mentioned '33' and added "will it be a boy? I would prefer to have a grandson".

My answer and explanation for the same are as follows:

The idea of asking one to mention a number within 108 is to fix the Ascendant (Lagna) for that particular moment correct to $3\frac{1}{2}$ degrees. The zodiac from Aries degree to Pisces 360 degrees is divided between 27 stars and each star has 4 padas or quarters. Therefore the zodiac is divided into 108 equal parts, 9 in each sign, each part having a longitude of $3^{\circ} 20'$.

If a person mentions the number '1', then the Lagna falls between 0° to $3\frac{1}{2}^{\circ}$ Aries (Mesha) in Aswini 1st quarter. If one gives the number as '6', then the Lagna is between $16^{\circ} 40'$ and 20° in Mesha in Barani 2nd quarter; if he says '9', the Lagna will be between $26^{\circ} 40'$ and 30° Aries, i.e., Karthika 1st quarter. If the number mentioned is '10', then the Lagna is Taurus (Rishaba) 0° to $3^{\circ} 20'$ and the constellation in which it falls is Karthika 2nd pada. If the number is '15', then the Lagna will be Taurus, the exact portion being between $16^{\circ} 40'$ and 20° , i.e., in Rohini nakshatra 3rd quarter.

If one gives the number '107', then Lagna will be in Meena in Revathi 3rd pada, i.e., between $23^{\circ} 20'$ and $26^{\circ} 40'$.

So to fix the exact position of Lagna in a sign, this method is advocated by Kalidasa in his work 'Uttara Kalamrita'.

If you divide by twelve and take the remainder to find the Lagna as is suggested by other authors, then why should you ask one to give a number within 108, take pains to divide it by 12 and find the remainder to fix the lagna. In that case, you can straight away ask one to give a number within 12. Does it not appeal to be better?

Some are under the wrong impression that the number is asked to offer a prediction based on numerology. It is not so. An astrologer works out the position of the planets and refers their position to the Ascendant (ascertained from the number given) and to the bhava which is concerned with the question. Numerology is never used.

Now, the number mentioned by the querist is 33. As in each sign there are 27 stars and each star has 4 quarters, i.e., in each sign there are 9 quarters, divide '33' by nine. It goes three times and the balance is 6. As many times the number mentioned is divisible by 9, so many signs have passed; the remainder indicates the quarter or pada where the Lagna falls in the next sign. Hence Aries (Mesha), Taurus (Vrishaba), Gemini (Mithuna) have passed. Six being the remainder, 6th pada in Cancer-Karkata (6th pada in Cancer is Aslesha first quarter) is the Lagna.

Lagna shows whether the querist will have a favourable reply and whether he will be satisfied or not. The query is about the delivery of a child to his daughter. Since

his daughter is his first issue, the 5th house denotes his daughter, her health, etc. (If she is the second issue, consider the 7th house which is the third to the 5th; 3rd issue means 9th house; 4th issue 11th house and so on.) The birth of a child to his daughter is indicated by the 5th house counted from the house indicating daughter. Therefore Scorpio indicates the querist's daughter, her health, etc. and Pisces which is the 5th house to Scorpio indicates the delivery. Erect a map for the time of query; the position of the planets is given as under:—

	Jupiter 2° 52'	Rahu 4° 17'
Sat. 6° 44' (Retro- grade)	Thursday 17-9-64 Number-33	Mars 7° 53' Venus 16° 2' Lagna 16° 40' to 20°
Moon 5° 52'		Merc. 13° 13' Ura 18° 5'
Kethu 4° 17'	Nep. 22° 31'	Sun 0° 58'

As the general principles enunciated have many alternatives and it is not possible to fix the exact time, we have to follow stellar astrology to find out the time of birth. As the native who put the question mentioned that *he would be happy* to have a grandson, one is to find out the answer taking the Lagna Navamsa and the lord of the Lagna at the time of query as the query relates to his pleasure. Lagna falls in Dhanur Navamsa, governed by Jupiter, a masculine sign ruled by a masculine planet. The lord of Lagna, Moon, is in Aquarius Navamsa, a masculine sign, and is in the constellation Uthrashada, owned by Sun, a masculine planet. The Lagna lord Moon aspects lagna. Hence the querist must be happy. His wish will be fulfilled. So he must have a grandson.

If you take Lagna as a feminine sign, its lord as feminine and you examine only 'sthoola', you have to predict a female child. If you examine by stellar method

'shookshma' by taking the lord of the nakshathra in which the planet is and offer prediction accordingly, you get the correct answer. Always a planet 'A' delivers goods according to the nature and quality of the other planet 'B' in whose constellation 'A' is situated. That is, the quality and nature are decided by the lord of the constellation. A planet in a constellation, whether it agrees with the lord of the constellation or not, must offer the results indicated by the lord of the constellation. Therefore, the first answer is that he will have his desires fulfilled by having a grandson.

Delivery means that the girl cannot have normal health, during, and immediately after, delivery. Hence note when she cannot have the usual health. So take the 5th house which shows the first daughter. It is owned by Mars. Mars is in Moon's sign and Saturn's star Pushyam.

The cause of ailment is already mentioned. It is delivery. It is indicated by Jupiter, lord of 5 to 5, i.e., lord of the 5th house counted from Scorpio (which indicates the daughter). Jupiter was in Sun's star and in its own sub. It is in Venus sign. So it shows easy delivery.

The query was put at the time when Moon was transiting in Sun's star in Saturn's sign, Uthrashada. Moon always indicates the nature of the query. So his query is indicated by the lord of the sign Saturn and the lords of the star Sun. They being the lord of the constellation in which Mars, lord of 5 and Jupiter, lord of 5 to 5 are posited, the question naturally is about his daughter's delivery.

Where and when? As lord of 5 is in the 12th bhava to Lagna, even though both Lagna and Mars are in the same sign, and since the 12th bhava shows separation, hospitalisation, etc., she will be separated from the querist. As Mars is in Saturn's constellation, and Saturn was in 4th to the 5th house (though in its own) and retrograde, she will be admitted in the hospital. Planets in retrograde motion in the fourth house show change of residence. So the place of delivery is not his house but the hospital.

When? If one wants to know the time when a matter will materialise, at once note the ruling planets for that moment, the moment of query. The permutation and combination of the same planets alone can fulfil it. What are the ruling planets at the time of the query?

- (1) The day of query is Thursday. Its lord is Jupiter.
- (2) Moon is transiting in Capricorn (Makara) which is governed by Saturn.
- (3) The lord of the Lagna, Cancer, is Moon.

Combination of —

- | | |
|-------------------------|---|
| (a) Moon and Saturn | Shravanam or Pushyam |
| (b) Moon and Jupiter : | Punarpushyam 4th pada |
| (c) Moon and Mercury : | Aslesha or Hastham |
| (d) Mercury and Jupiter | Revathi and Punarvasu 1st to 3rd padas. |
| (e) Jupiter and Saturn | Poorvapathrapada or Uthrapathrapada |

These are the probabilities. Since the delivery is expected by the medical attendant soon, i.e., on the same day or within a week or so, note the days ruled by these four planets alone and whether the probable stars coincide on those days.

- (1) Thursday-night Shravanam. So ~~there is the chance.~~
- (2) Friday. Reject as Venus has no connection.
- (3) Saturday Sathabhisha. It is not one of the many combinations worked out. Therefore reject.
- (4) Sunday. Reject as Sun is not one of the ruling planets at the time of the query.
- (5) Monday, Poorvapathrapada-Aquarius Rasi. All agree. The day agrees; the star is one of the probabilities; the rasi agrees.

Hence say that on Monday when Poorvapathrapada star is on and when Moon is in Kumbha, the child will be born. The day of birth is fixed.

- (4) Lagna fell in Aslesha star ruled by Mercury.

Therefore the matter will be fruitful at a time when only these four planets rule the day, the lagna and the constellation in which lagna falls, the star transited by Moon and the rasi (sign) transited by Moon. In other words, the lagna, the star, the rasi and the day of birth must be ruled by these four planets. Other planets will have no connection at all. Hence reject other days except Monday, Wednesday, Thursday and Saturday. Also find out the stars which are owned by these four planets and also the sign governed by them.

Now fix the time. Before the Sun rises on Monday, Poorvapathrapada commenced. Since before sunrise on Monday, the day is called Sunday by astrologers as Sun rules till sunrise on Monday, reject that time. Again in the evening, Moon leaves Saturn's sign Aquarius and passes on to Pisces when Saturn will be without any connection. Therefore between sunrise and sunset of Monday the child is to be born. As the lagna at the time of query was in Cancer and in Aslesha star, Mercury must have some connection with the time of birth. As, on Monday, Poorvapathrapada star was on, Mercury can have connection by ruling the lagna (Day, star and rasi are ruled by Moon, Jupiter and Saturn). Mercury owns Gemini and Virgo. In Gemini the first 6 degrees and 40 minutes are to be rejected as it is called Mrigasirisha governed by Mars. The next 13° 20' in Gemini are ruled by Rahu called Arudhra. Reject this outright. The last 10 degrees are called Punarvasu ruled by Jupiter. Chances are there. Again in Virgo, the first 10 degrees are ruled by Sun who had no connection with the time

The last 6° 40', Chithra ruled by Mars, has no connection. The star Hastham may be the Ascendant as Moon was a ruling planet at the time of query. As Poorvapathrapada will not last till Gemini rises in the east at the time of birth of the child, the lagna should be in Hastha constellation or in Aslesha ruled by Mercury in Moon's sign. Since Poorvapathrapada would end before Cancer Aslesha could rise in the east, it is out of question. Hence Hastha portion, i.e., 10° to 23° 20' in Virgo should be the time of birth of the child.

Actually the male child was born at 6-46 a.m. on Monday (ruled by Moon), in Poorvapathrapada star (governed by Jupiter), in Kumbha rasi (owned by Saturn) and in Virgo Ascendant at 14° 2' (lord of which is Mercury) in a famous hospital in Delhi 28° 40' North and 77° 12' East. The following is the chart:

		Jupiter 2° 48'	Rahu 4° 17'
Moon 26° 24' Saturn 6° 29'	Monday, 21-9-1964 6-46 a.m. (IST)	Mars 10° 21' Venus 26° 21'	
	28° 40' North 77° 12' East	Uranus 17° 20' Mercury 17° 21'	
Kethu 4° 17'		Neptune 22° 37'	Sun 4° 52' Lagna 14° 2'

The ruling planets are Moon, lord of the day, Mercury, lord of the lagna, Saturn, lord of the rasi, and Jupiter, lord of the janma nakshathra. So Moon, Mercury, Saturn and Jupiter again jointly operated at the time of birth of the child which alone were the planets ruling at the time of query.

Note to students:

Whenever a query is asked, you treat it astrologically. Pray for a minute. Then wait for any 'Nimitham', i.e., guidance from God to declare the results. GOD

DOES GUIDE. It is timely and very correct, provided the astrologer is a real 'Daivagyna'.

What guidance did I have? A few minutes passed for me to work, calculate and predict. After my working was over and before I could declare my result, there was the ringing of the calling bell. I found the postman with a letter saying "Express Delivery, Sir". At once I told the querist "Your daughter will deliver soon". I went through the letter delivered by the postman. It was written that a passenger coming from Madras to Delhi would deliver me some articles I needed on Monday morning which my people at Madras have sent through him. As Mercury rules postman, I was happy to pitch upon the Ascendant as Virgo ruled by Mercury.

Readers! astrologically you decided Monday morning. Providence confirms. Why then have we to think of any other alternative? Boldly I wrote that his daughter will deliver on next Monday in Poorvapathrapada star, Virgo lagna when the lagna is in Hastha. It did come out very correct.

Question 2: On Sunday, when the lecture was about to be over at Bharatiya Vidya Bhavan, a noble and influential lady stepped in and asked "Will Johnson win in the coming Presidential Election in America?"

When asked to mention a number within 108, the generous lady unhesitatingly, said '108' itself.

The following is the chart for that moment and for the number '108' mentioned by her:—

Lagna 26° 40' to 30°		Jupiter 2° 35' Moon 26° 49'	Rahu 3° 46'
Saturn 6° 5'		Mars 14° 14' Venus 27° 28'	
		Uranus 18° 41' Mercury 27° 10'	
Kethu 3° 46'		Neptune 22° 47'	Sun 11° 12'

1. The question is about the success or failure of a stranger—he who is not related—he who is not the employer—he who is not a neighbour—he who is not an acquaintance even: but he who is an absolute stranger. Therefore 9th house represents Mr. Johnson. If he stands for election we should take Meena as Lagna.

2. The Lagna according to the number is Pisces-Mesha. Therefore 9th house indicating Johnson is Scorpio-Vrischika.

Vrichika indicates him.

Moon's position shows the query.

Moon is in the 7th cusp counted from Scorpio 26° 40' to 30°.

So Moon indicates litigation, competition, election, etc. as it is in the 7th house. Moon is in the constellation of Mars. Hence, there will be the opposition and election and he will not be elected unanimously (as Moon is not in Jupiter's constellation). There will be a tough competition.

3. For questions relating to election, one is to consider taking the ascendant of a person and the 7th house counted from his ascendant and judge comparatively who has the stronger beneficial aspects.

Mr. Johnson is represented by Scorpio. His opponent, whomsoever he may be, is indicated by Taurus 26° 40' to 30°.

4. 11th house is for success. So Planets in direct motion in the constellation of the occupants of 11th house, planets occupying the 11th house, planets in the constellation of lord of 11 and the lords of 11th house are strong in this order to give the results. 11th Bhava is occupied by Neptune to Scorpio 26° 40' to 30° ascendant. Neptune is not allotted any star. So the question of a planet occupying Neptune's star does not arise.

Sun, in the 11th sign, goes to 10th Bhava. Sun was in the constellation of Bagyadhipathi Moon and sub of Lagnadhipathi Mars. Sun is auspicious.

Sun and Mercury are in Parivarthana-yoga. Mercury occupies Rajayogadhipathi (lord of 10 for name, fame,

reputation, honour and success); Sun's sign Leo; Sun's star Uthrapalguni and Sun's sub. Hence Mercury, Lord of 11 is under the sway of Sun promising grand success. Sun can never be in retrograde motion. Mercury is not retrograde at the time of the query. Therefore the results indicated by them will come to pass.

The opponent's Lagna should be taken as Taurus 26° 40' to 30°.

No planet is in the 11th house.

Owner of the 11th house is Jupiter. It is in the 12th Bhava to Taurus 26° 40' to 30°. Further, Jupiter was in retrograde motion. Hence, the lord of 11 in the 12th Bhava, in retrograde motion, indicates that the opponent shown by Taurus will lose miserably. Therefore Johnson will win.

Question 3: I am furnishing my birth chart. Can you tell me whether I will go overseas and if so, when?

Jup. 16° 44'		Rahu	Fortuna
Uranus 9° 42'		21° 21'	10° 19'
Lagna 28° 18'	Born 6-27 A.M. on 8-3-1928		
Sun 24° 29'			
Mercur. 3° 20'	8° 11' N and 77° 29' E		
Venus 24° 50'			
Mars 13° 54'	Neptune 4° 32'		
	Sat. 26° 1'		Moon 12° 26'
	Kethu 21° 21'		

Answer:—Overseas means long journey: it includes crossing the sea and having a thorough change in the surroundings.

4th house shows the permanent place of residence. Benefics in 4 allow one to continue to live in the same place when one lives.

12th house to the 4th indicates that he will leave the permanent place of residence either temporarily or permanently depending on the nature of the sign. If the third house is a movable sign, it indicates a

thorough change in the surrounding and environment as movable signs indicate Newton's First Law. It is more like the rains on the top of a hill which leaves the hill and cannot trace back to the original catchment area. But, if the third house is a common sign, one will go to any other place and come back. It is like a pendulum or a swinging cradle. In service, movable signs (Chara rasi) show that a person will leave one service and take up another. There will be thorough change in the institution, etc. But common sign indicates a transfer in the same department or institution or to lend service to another department having a lien in the parent department.

To any Bhava, the 6th and the 12th therefrom is evil to that Bhava house. As the 4th house indicates one's permanent place of residence, the 6th therefrom, that is, the 9th house should change. 9th house according to all authors indicates long journey and overseas.

Hindu sages and Western scholars have declared that 12th house, counted from Lagna, portrays one's stay either in a foreign place, hospital, asylum or jail. So if the 12th house and the lords of 3 and 9 have connection, one will go overseas. But if the 12th house is connected with 6th house or its lord, one will be admitted in a hospital. If the 12th house and lord of 8th house are connected, karagraha-pravesham or imprisonment is threatened.

Therefore one has to consider the houses 3, 9 and 12 to find whether a journey and stay in a foreign land is indicated.

Always the planets—

- (a) in the constellation of the occupants of these houses, 3, 9 or 12,
 - (b) which occupy these houses,
 - (c) those in the constellation of the lords of 3, 9 and 12,
 - (d) owning these houses and
 - (e) those in any manner connected with them, indicate long journey and life in a foreign place.
- The above rule applies to all questions.

Whenever one asks about overseas, the first question to be answered is whether it is promised or not; then only when the journey will materialise is to be considered.

Saturn, Lord of Lagna, is also lord of 12. It is in a fruitful, watery sign, in the constellation of Mercury who occupies 12th house. It is a strong significator. The 9th house extends from 3° 12' Scorpio to 27° 12'. It shows 9th house results. Further, 9th cusp also falls in Scorpio, ruled by Mars in whose sign, Saturn was at the time of birth. Hence Saturn is a strong significator.

Mars is the lord of the 9th cusp. It is in a movable sign and in the constellation, the watery planet of Moon. It is in Capricorn, the 12th sign, owned by Saturn and aspected by Saturn (Hindu system for the nature of results). Mars and Saturn are in Parivarthana yoga. Mars is further exalted and strong.

The 12th Cusp falls in 28° 12'. It is Saturn's sign, Mars's star Dhanishta and Saturn sub.

Hence life in a foreign place is clearly indicated and strongly promised by Mars and Saturn.

It is said that planets in the constellation of the occupants of the 12th house are the strongest significators. Mercury is in 12. Saturn and Jupiter occupy Mercury's star, Jyeshtha and Revathi respectively. Therefore Jupiter also must offer such results.

Further, any planet occupying Mercury's constellation will give results more than once as Mercury is for plurality. Therefore, there will be more than one tour. Overseas is promised.

When?

The results indicated by the planets, whatever they are will be offered only when those planets, (a) run their Dasa and Bhukti, (b) form favourable aspect by progression and by transit.

So, you have to wait till you run, Jupiter dasa, Saturn Bhukti, Mars anthra, and again during Jupiter dasa, Mars Bhukti, Saturn anthra, i.e., between 1-3-1965 and 24-4-1965.

As per Krishnamurthi Paddhathi, when one runs Jupiter Dasa, Saturn Bhukti, Mars anthra, Sun will transit in a degree which will be governed by all the 3 planets. So, Jupiter star in Saturn's sign, Poorattadhi, i.e., Poorvathrapada and Mars sub in it or in Saturn's star Jupiter's sign-Meena—in the constellation Uthratadhi or Uthrapathrapada and Mars sub therein can give. (If the sub period is to run in the beginning of December, then Sun will transit in Mar's sign Scorpio, in Saturn's star and Jupiter sub, i.e., last degree of Anuradha.)

So, either 13-3-1965 or 27-3-1965 will be the time when Sun will be transiting in Poorvathrapada or Uthrapathrapada star. The latter is stronger.

The time of departure will be governed by Saturn, Mars and Jupiter, i.e., their day, star day and Lagna. On 13-3-1965 Saturday, ruled by Saturn in Punarvasu star governed by Jupiter and in Aries ascendant owned by Mars before 9 A.M. you will leave to overseas.

By Horary : method for Question 3

The native put the query on 20-9-64 at Delhi and the following chart is erected for that time, for 28° 38' North and 77° 12' E.

		Guru 2° 49'	Rahu 4° 9'
Moon 14° 40'		Mars 9° 46'	
Sani 6° 32'		Venus 19° 22'	
		Budha 16° 6'	
		Uranus 18° 15'	
Kethu 4° 9'		Lagna 23° 44'	Sun 3° 57'
		Nep. 22° 34'	

The time at which the question is put, is taken and the result is given.

Lagna indicates whether the question will receive a favourable answer or not. Success or failure is indicated by the

Lagna Bhava and Labha Bhava, i.e., the first and the eleventh houses.

Lord of Lagna is conjoined with lord of 2 and is in a watery, fruitful sign which is a movable one. It is in the constellation of Mercury, lord of 9 and 12. Hence the lord of the ascendant promises success in the attempt to go overseas and be successful in the tour also, as it approaches the Meridian.

Moon indicates one's mind, and the position of Moon shows the nature of the query. Moon is in the 4th Bhava. It shows changability of surrounding and environment. It is in the sign ruled by Saturn and the star Satabhisha governed by Rahu and in the sub of Venus who is lord of Lagna and the strong significator.

Saturn, as lord of 4, in retrograde motion, also suggests a change of place.

Venus promises long journey and sta outside, as it is in 9th Bhava in movable watery sign.

Rahu in Mercury's sign, Gemini, the 3rd sign of the Zodiac and in the constellation of Mars in 9th Bhava—confirms this.

Therefore Saturn, Venus and Mars are the planets indicating the success in their conjoined period and all are connected with the 9th house, a watery sign and a movable one.

The finding of the Modern Astrological Research Institute, Madras, is that the planets which signify the results according to Horary astrology, will offer the result in the period and sub period of these planets in the native's life, according to Ududasa System.

Hence this native will have his desire, fulfilled when Sani, Mars and Venus jointly operate. The sub period of other planets will have no concern. Saturn Bhukti, Mars Anthra and Venus sub sub may be the period.

Always Sun, as lord of 11th cusp in the 11th Bhava, wards off the evil of other planets, and allows the native to realise his ambition. Therefore going overseas is strongly indicated.

The date of departure will be 13-3-1965.
[The result will be let known in the April issue.]

Question 4: In your table of Ephemeris for the year 1900, published in the October 1964 issue of your esteemed journal, you have shown February as having 28 days.

Since 1900 is divisible by 4 and hence a Leap Year, how is it that you have given 28 days to February. Is it a printer's error? A.R.G., Calcutta.

Reply: No. This is not a printer's mistake as you seem to think.

You may be aware that for one revolution round the Sun, the earth takes 365 days-5-hours-48-minutes-46-seconds. In other words, the solar year consists of $365 \frac{1}{4}$ mean solar days. For this purpose three successive years of 365 days and a fourth or a leap year of 366 days were fixed by Julius Caesar in 45 B.C. Thus in every 4 years, it will be found that the period of 4 years including Leap Year i.e., $(3 \times 365) + 366$ days, i.e., 1461 days. This is 11 minutes and 14 seconds longer than the time taken by the earth to make 4 complete revolutions around the Sun.

The Gregorian Calendar, now largely used, corrects this error by arranging that the century years shall be taken as Leap Years only when they are exactly divisible by 400. Thus for instance 1300, 1400, 1500, 1700, 1800 and 1900 were ordinary years whereas 400, 800, 1200, 1600 were leap years. Accordingly, 2000 will also be a leap year. The error is reduced by this means to less than one day in 3000 years.

Therefore the ordinary conception that a particular year will be a "leap year" only when it is exactly divisible by 4 is not correct.

You will thus see that 1900 was not a leap year since it is not divisible by 400, though divisible by 4.

If you refer to Raphael's Ephemeris, you will find that my statement is correct.

But if you refer to Panchangs, you may come across with any, who had actually printed and published showing 29 days to February 1900 and in the following months, omitting a date and thereby adjusting the error. The editor is in possession of such almanacs. Therefore, you are not the only one person having this doubt. Even a few compilers of Panchang had the doubt.

SCORPIO OR VRISCHIKA

By

K. GANAPATHY

13, Brahmin Street, Saidapet, Madras-15.

Scorpio is the 8th sign of the Zodiac. It is also 30° in longitude. It extends from the 210th degree from vernal Equinox (Aries Mesha 0°) to 240°. Sun will be moving away from the celestial equator towards the south.

The constellations or the nakshathras Visakam 4th quarter, Anuradha and Jyeshtha are contained in this sign, Vrischika. The concluding part of this sign (Kataka and Meena also) is termed Bha Sandhi and Riksha Sandhi.

According to Sayana System, nowadays the Sun enters Scorpio around 23rd October and leaves it around 23rd November. Sun is in Scorpio approximately for 30 days. Those who are born between 23rd October and 23rd November will have the Sun shown in Scorpio in the horoscopes erected according to Western or Sayana system. They are called Scorpio-borns or Scorpions and not *scorpions*.

According to Nirayana system, throughout Kaliyuga, Sun will enter Scorpio on the 16th November and leave it on the 15th December after passing through the 27 stars (Nakshathras) found in this sign. Those whose birth was between 16th November and 15th December will have the Sun shown in Scorpio in the horoscopes cast by those who follow Nirayana or Hindu system.

Scorpio is the 8th sign of the Zodiac; but it is the second sign of Mars; the first sign governed by Mars is a barren, masculine, positive, cardinal, movable (chara), fiery sign; the second is a fruitful, fixed, Sthira, feminine yet violent and a watery sign. It is of long ascension.

Mars is the ruler of this sign. No planet gets exalted in this sign. But Moon becomes weakened and is debilitated. Scorpio is the sign of detriment to Venus.

Modern scholars assign Scorpio as the exalted sign of Uranus. [But considering

the qualities of Uranus, it will be appropriate to allot Virgo as the exalted sign to Uranus, just like Mercury.] Sun and Jupiter are said to be in friend's quarter if they occupy Scorpio. Saturn, Mercury and Venus are considered to be in enemy camp when they pass in Scorpio.

[For those interested in research: Kanni and Vrischika-Virgo and Scorpio were once only one sign: Libra-Thulam was not at all existing. They had only ten signs and of the greatest authors Llewellyn George in "A to Z" Horoscope Maker and Delineator says.

"Much was made of the figures 1 and 0, indicating the generative principle in nature and the sex of male and female." He says that the symbols used for Virgo and Scorpio resemble much. Page 639-640]

Scorpio is symbolised by a Scorpion. In snakes, there are venomous and non-venomous ones. But in Scorpions, there is no non-venomous one. All are evil. That is why Vrischika is called "Kecca" meaning reptile, representing the poisonous scorpion. It is a certified sign. Hebrews ascribed scorpions to Dan-a serpent. Originally the banner of the Israel tribes was a Scorpion. Later it is replaced by an "Eagle". In Arabia it is called "Al Akrah". It means dispute and war: rupture and fall are attributed to Scorpio.

Scorpio represents two types. The higher Scorpion type people are the great idealists who have overcome the low qualities and have control over the senses. "Jithanthriyas". That is why, Lord Krishna stands on the venomous head of the "Kalinga" snake and keeps it under control. The lower type people will be jealous of others and rude. They are the indefatigable seekers after sensuous pleasure. They have strong will and they are irreconcilable. They know

to control others but they cannot control themselves and their senses.

Physical features: The body will be proportioned. Hands are generally long. The stature is above average. Broad face, commanding appearance, short and curly hair and muscular body are indicated by Scorpio. They have good personality.

Characteristics: Scorpio is a fixed sign. Therefore you are a particularly determined individual especially when you set yourself a goal, you will not beat about the bush. But straight you will plunge into the business. You cannot keep idle, nor can you afford to waste time till you hit your target. You are at your best only when there are obstacles and hindrances. You will never give up, nor surrender; but you will fight to the last being the ultimate result to God.

Being a watery sign, you have fertile imagination and sharp intelligence. You do not know your own ability. Actually it is latent in you. But if it is made known to you, if it is aroused and you are set into action, you will prove that you are full of dynamic energy and will complete your job without rest and relaxation.

Further, the watery sign shows that you will have intense feeling and emotion which comes from the water element. It gives remarkable intuition and so you can diagnose correctly. As a medical man, you can flourish. You are also a good critic. You are resourceful. In all matters pertaining to finance, as you have proper intuition and prompt action, you will be successful in buying and selling. You will enjoy life to your entire satisfaction from the low type carnal pleasures to the high poetical and mystical adventures.

Mars, the owner of the sign gives you self-assertion, impulsive action, courage, resolution, independence, excitement, forcefulness, etc. You will have likes and dislikes. You are an extremist. You have either practical business ability or you may be drawn to reckless habits. You may have the tendency to over-ride and keep others under your control. You are

unyielding, self-reliant and assured. You will not mind standing alone and fighting your own battle. You are self-made.

Due to Mars, you lose your temper quickly, you get irritated and become revengeful. The fiery planet, owning the watery sign, gives you the habit of drinking [probably to have warmth]. Mars threatens some ill-repute to you as you may be rash and you may go headlong. Scorpio is a highly sexed sign. You may evince unusual interest in the mysteries of nature as well as in psychic subjects. Scorpio produces excellent research workers of their own original lines. You will not accept any theory simply because it is antiquated. You want rational thinking, convincing argument and scientific explanation. You will not follow old customs though you do not disrespect them.

You hate gossip, loose talk, black mailing, etc. You are brief and your words are well chosen.

You generally put off things to the last moment. You prepare at the eleventh hour and come out successful. Scorpio horses start late but finish first.

You do not interfere in others' masters. You take interest only when it concerns

You will appear to be frank, plain and blunt. But actually you keep secrets and when you criticise others, you pass sarcastic remarks. You will invariably keep a trumpcard up your sleeve, more to save yourself from such of the wicked people who may take undue advantage of your bluntness and outspoken habit. You never under-estimate the inimical forces. You are fully aware and hence you keep one item of importance undisclosed.

Scorpios can be cunning also. You are always very true and loyal, faithful and reliable. You continue to be so, till you come to know that your friend or master tries to let you down or tries to do you harm. Then you will be revengeful and relentless.

Sun in Scorpio gives you penetrating mind, keen perception, good judgment, chemical research and the will to study

surgery, maternity, etc. or take up business or contract; or enter into the service in Navy or deal in liquids.

Moon in Scorpio shows self-confidence, determination and desire to satisfy your cravings. You will be attracted towards the other sex. Pleasure or pain, satisfaction or scandal depend on the aspect which Moon receives. There may be danger through water and if you are a lady, you cannot expect easy delivery.

Mars in Scorpio makes you practical, hard-working, painstaking and determined. You may appear to lack manners as you will openly accuse any without any regard to their feelings. You are best fitted for Government Offices and secret activities. You can be a surgeon. Butchers and barbers are also governed by this sign. You will never hesitate to undertake any hazardous enterprise. You are also likely to meet with accidents and have a violent end. You will have romantic courtship experiences and gain through the other sex. You will go to far-off places by sea.

Mercury in Scorpio shows that you are intelligent; you can take up research especially in Medicine, Engineering, Dam Construction, etc. You will be very shrewd. Yet you may be reckless. You will have the desire to gain knowledge in occult and mystical subjects. You may develop mesmeric ability. As a physician, you will heed the mental patients.

Jupiter in Scorpio gives you deep emotion, enthusiasm, ambition, generosity, etc. You will be impulsive and also over-liberal. You have self-confidence. You gain by litigation, insurance, legacy and solid investments. You may serve in a Court of Law, or Bank or Insurance Corporation, shipping, travels or medicine.

Jupiter in Visakam star shows bank or legal department. In Anuradha star it indicates Insurance, money of the deceased, legacy, etc. In Jyeshtha nakshatra it produces physician, criminal lawyers especially those who appear for 'rape' cases and contractors who build in dam sites.

Venus in Scorpio makes you very generous especially with the opposite sex.

It increases your passion. You will be emotional. You spend on luxuries. If it is afflicted, you will contract disease and seek the advice from V. D. experts. Avoid trouble with the ladies. You may be tempted. You may mistake every action of others and take it as though they are friendly. You will be disappointed. Scandal and ill-repute will be the result. If it is strongly and adversely aspected, you may not mind taking poison to commit suicide. Most of the people dealing in parboiled rice, gaining by legacy, receiving gifts or earning through liquids and catering the needs of others will have Venus in Scorpio. Sanitary Engineers, Mechanical Engineers working with boilers or in petroleum products or in automobiles or Railway engines, ships, etc. also will have Venus in Scorpio.

Saturn in Scorpio makes you cautious, resourceful, very very passionate and self-willed. You may have difficulties in love affairs or you may derive pleasure in secret romantic activities. One may concentrate and develop psychic ability. Geology or Chemistry will be the subject, in which you will have much taste. Mine Engineers and those who deal in mines or those who work in Insurance Companies may have Saturn in Scorpio.

Uranus offers courage: you may be fool hardy if afflicted: otherwise you are steady, stubborn and strong-willed. You are shrewd, secretive and sharp-spoken. You find pleasure in differing from others even though you agree with them, and to the last, you will argue. You will have mesmeric power. You can learn industrial chemistry. You may treat patients with radium, 'X' ray, etc. If strongly and unfavourably aspected, Uranus threatens death by electric shock, explosion and accidents.

Neptune is auspicious for invention. One can keep secrets: gain through legacy, shipping, dam construction, beverages, breweries, etc.

Thus the planet occupying the sign Scorpio, modifies your body-build, characteristics, profession, disease, etc.

Characteristics to be corrected: Do not pass sarcastic remarks. Don't expect all

our subordinates to be either as clever or hard-working as you are. So, do not be over-critical. Control yourself whenever you lose your temper. Try to avoid the secret enmity of the ladies. Do not stoop to foul play. Even if you lose, allow the loss; wait; shortly you will regain what all you lost. Do not be selfish. Mr. Max Heindel in "The Message of the Stars" says Scorpios "not only refuse to work themselves, but become demagogues who invite others to anarchy and lawlessness and destruction. These people are social fire-brands and very dangerous to the community" if the bad side of scorpio dominates.

Health: Scorpio governs the generative organs, the bladder, uterus, the sinus, the pelvis, the urethra, etc. Therefore, planets which have to cause disease, if they occupy Scorpio, they affect the bladder, womb, ovaries etc. Jupiter and Mars in Scorpio leads to trouble by enlargement of the prostrate gland. Venereal distemper is the main disease caused by Scorpio. Stone in the bladder is caused mostly by Saturn.

For people born in Scorpio, the 6th house therefrom is the sign which indicates the disease; therefore the diseases signified by Aries, the planets occupying Aries, those in the constellation of the occupants, those in the constellation of lord of 6, Mars and Mars cause ailment. Therefore affections of the brain, insomnia-neuralgia, coma, trance, inflammation obsession, somnambulism are signified by Aries.

Scorpio being a fixed sign, Moon is not only a Rajayoga adhipathi but also a Bhadhaka Sthana adhipathi. Therefore Moon may cause anxious ill-health to those who are born in Scorpio. Jupiter and Venus are Maraka Sthana adhipathis.

[6th house disease: 2, 7 and 8 danger.]

Finance and Fortune:—Scorpio indicates chemistry, medicine, insurance, maternity beverages, breweries, boilers, steam engines, automobile, mine, military, water supply, dam construction, tools, machinery, slaughter house, labour department, tea, coffee, tobacco, copper, tin, parboiled rice, jaggery, mine ores, horses and

elephants, to excavate and catch elephants, etc. Greatest surgeons, chemists, research workers, detective and intelligent workers are born in this sign. Soldiers, dentists, barbers, butchers, those who work with iron and steel, rail roading, applied mechanics, military and naval activity are also indicated by Scorpio. Generally Scorpio-borns are lucky where money is concerned. In speculation, they will invariably gain as lord of 2 is also lord of 5. Eventually, their income will be substantial. They are always lucky in anything they want—vehicle, wife, business, house, garden cattle etc. They know how to make money; but they do not know how to save it. They are extravagant.

Domestic Environments: For your jolly good life and success in your career, environment plays the vital part. Your ambition is that whatever you say in any matter, must be implicitly followed by others. You do not relish any one to boss over you whereas you are happy to boss over others. You cannot lead your life without all comforts and conveniences. You spend much beyond your capacity. Expecting some income, you will spend away in advance, wait for the returns and repay the loan. You want to design your home to your taste.

Even during adverse periods, you accept situations about you. You, very ably, turn them to your advantage. You create happiness. You prove to be successful and more happy than others—placed under similar conditions.

Friends and Benefactors:—What an extremist the Scorpios are? When they make friendship, they become very intimate in a very short period. But if there is any friction, you cannot find a worse enemy. Because Scorpio-borns retaliate relentlessly. Therefore Scorpio-borns do not have life, long friendship. But the friends whom they choose will be in positions having much power and authority, or they will be influential. Knowing the nature of the Scorpio-people, if one adjusts and gets close to them, he can have much benefit through them and can expect permanent tie of friendship.

You should not be violent. You will never accept other's arguments. You do not want to show that you are convinced. But if you correct yourself, you will be very popular. Lower type of Scorpio will be notorious.

Every action has a reaction; everyone is repaid in the same coin. 11th house indicates friends and benefactors. Mercury rules the 11th sign. He also governs the 8th house. Therefore the friends-Mercurians, also, will not mind letting you down and bring you disgrace if you make their friendship, be a good friend for some period and then rub them on the wrong side. Therefore, do not take anybody into your confidence and at any unguarded moment leak out any of your secret matters. No doubt, you are capable of keeping important ones to yourself. Yet observe this very strictly.

Romance and Marriage:—Scorpio-borns have complex moods. Yet you are intense, dynamic and energetic in romance and love affairs. Unless you have sympathy, good understanding and steady affection and try to cultivate, you cannot have a life with the opposite sex. Though it is common to most of the people, it is especially true in Scorpio-borns that they consider this world, a Heaven for them if they receive compliments and appreciation from the partner and that they become depressed or disgusted or downcast or broken down if the partner passes any criticism or do not approve the action of the Scorpio-borns.

In spite of these, people-born in Scorpio give all comforts to the partners and and try to keep them in cheer and good spirits. For, you expect the other to express his or her love; you want demonstrations of affection.

As houses 2, 7 and 11 indicate the birth of partner and the second house is owned by Jupiter, 7 by Venus and 11 by Mercury, the partner ruled by all the 3 benefics will be just, honest, sincere, affectionate, true, adjusting and accommodating. The Scorpio-borns are generally lucky to have a pleasing partner. Difficulties arise only when these houses are occupied or aspected by malefics.

Scorpio-brides enjoy their lives if the partners show equally a genuine affection and deep love. One is fortunate if she has her husband born in Scorpio. She will lead a smooth life with people born in Pisces or Cancer; she will agree with the husband, born in Virgo or Capricorn. Taurus husband will contribute for her happiness. He will tone down the fiery nature or the moody temperament of the girl. He knows how to dance or adjust, so that any disharmony among themselves is not let known to any one else. He cares more for honour and family prestige. The difficulty with Scorpio-girls [only when the ascendant is afflicted] is that they work very hard, they are really true, but they suddenly lose temper, forget themselves and loudly retort without any consideration for the position of the husband.

A Scorpio-woman had her ascendant afflicted by the malefics. Once her husband unusually consented to feed a very old poetess and philosopher when the latter made a humble request to him. With all humility he very slowly and politely informed his wife. Imagine her reaction! Throughout the time she was engaged in preparing dish she was offering Sahasranama archana to husband. Later while serving the food, when he appealed to offer a little more to the old lady, she, without missing the aim, straight on his head broke the mud pot. The bottom being weak, gave way. But the mouth of the pot was strong. So She garlanded him with the ring of the mud pot.

Another Scorpio-woman poured a cupful of boiling soup on the head of her husband when he mentioned that she forgot to use salt on that day and that the soup was flat and insipid.

Therefore, it is a curse to marry a bride born in Scorpio with adverse aspects to her Lagna and Mars. One has to console himself by saying, "This is my lot; my fate". But if it receives good aspect or at least no bad aspect, one cannot get a better wife than Scorpio-borns.

Similarly, the Scorpio-gents will be. They will appreciate the qualities of their wife.

Children: Jupiter rules the houses 2 and 5; 11th house is governed by Mercury. Hence Jupiter and Mercury are the ruling planets of your children. Therefore you will not mind having a large family. You do not support birth control. You may preach for others. But you forget to practise. If Jupiter and Mercury are afflicted by the conjunction with or adverse aspect from malefics, you may not have any child at all; a few may have only one issue, mostly a daughter. Generally, Jupiter, [the Chief Governor for children Mercury, the planet for plurality] being the lords of 2, 5 and 11 will increase the number of the members of the family to a good extent. The children will be not only intelligent but also lucky.

Lucky day: Sundays, Mondays, Tuesdays, and Thursdays are successful days: Sundays promise steady fortune. Mondays will keep you in good spirits and you will rejoice. They were heydays Thursdays presage fortune. Tuesdays bless you with health and victory over enemies. Sudden and substantial gains to your pleasant surprise will be had on Tuesdays.

Fridays show social success and deterioration of bank position. Wednesdays may cause anxiety through friends. Saturdays dishearten you.

For profession, meet the influential people on Sundays. Compete with others on Tuesdays. [Suppose you are losing popularity but yet you are in power. Have the meeting to elect the President or a Secretary to the association, society or club on Tuesdays. Victory is yours especially when Chithrai star first half is transited by Moon.] Transact with foreigners or make journey on Mondays. Marry on Thursdays and open account in the Bank on Thursdays.

Repay loan on a Saturday, especially when Moon transits in Anuradha star and in the Ascendant you have Mandhi. Never sign any important document on Wednesdays. If you want to save money, avoid commitments on Fridays.

Lucky colour: Yellow, red, orange, cream are favourable. If you have no

child or if you want sound bank position, use yellow sapphire on a pure gold ring: If you have any litigation, have ruby. Success is yours. If you want to have higher studies or to go overseas, use cream coloured pearls. For steady prosperity in your career, use light red or orange colour.

Avoid blue, pure, white and green.

Lucky Number:

3, 9, 4, 1, 2 and 7 are in this order, lucky to you. Avoid 5, 6 and 8.

Objects indicated by Scorpio: Explosives, bombs, crackers, knives, swords, brandy, drinks, chemicals, oils, acids, petroleum, poison, carbondisulphide, chloroform, ether, spirit, groundnut, linseed and mustard.

Places indicated by Scorpio: Wells, where reptiles, scorpions, etc. brood, sinks, drains, cesspools, ruins near water, muddy and moist places, kitchen, garden, sluggish streams, slaughter houses, meat markets, operation theatre, lavatories, old rot iron stores, tannery, incinerators, chemical laboratories, cremation ground, etc.

Towns: Liverpool, Delhi, Frankfurt, Baltimore, Stockport, Washington, New Castle, Messina, Dover, Oregon, Ghent, Glossop, Halifax, Hull, Valentia, Portland.

Countries: Sweden, Brazil, Morocco, Transval, Norway, Syria, Bavaria, Algiers, Barbary, Syria, Catalonia, Judea, Fez, Jutland, Cappadocia, Queensland.

"Animate and inanimate objects indicated by Scorpio are: powerful and influential people, chief of the Corporation friends to good people, Legislative Members, wanderers, heroes, rich and famous people, also thieves, blackmarketeers, tax evaders, all those which grow in autumn" says Varahamihira in Brihat Samhita.

Whom to Pray: Muruga, Subramanya, Hanumanji, Anjaneya, Narayana; also read Sudhar Kadam, Ramayana, etc. Donate for renovation of temples, construction of schools, maternity ward and relief for those who suffer from the losses

caused by floods.

MOON IN THE 12TH HOUSE

By

JYOTHISHA VISHARATH K. GANAPATHI

Moon is a feminine planet. It is negative and is ever changeable whereas Sun is a masculine planet, positive in nature, offering strong will and force to one. Moon governs one's mind, intellect, conduct and disposition. It indicates how one will react to the various incidents in one's career.

12th house indicates whether one will have sound sleep or not. [3rd house shows one's awakening from sleep; 6th house signifies trance; 9th house indicates the dream.] But Kalidas alone in Uthra-kalamrita differs and mentions that 12th house represents "awakening from sleep" or "Nithra Banga". He is also correct if one interprets that planets in the 12th house, when afflicted, do not permit one to have a peaceful sleep.

== Moon in the 12th house, when afflicted, causes mental pain. Evil aspects to Moon cause fear from opponents, competitors, enemies, etc. Adversely, Moon afflicted in 12 causes imprisonment. But favourable aspects to Moon give relief from pain and courage and opportunity to discharge one's debts. 12th house shows expenses or loss of investment or deception. But good aspect between the lords of 8 and 12 forestall the clearance of loan. For the second house indicates one's bank position. The seventh house is one who had already lent money. Therefore 8th house, being the second to the seventh, signifies the finance of that person.

12th house is to issue cheques; 8th house is the receipt of the cheque by the person who lends the money. Hence planets in 8 and 12, benefic by nature and forming good aspect mutually (Western System) assure the possibility of returning the loans.

Kalidas is of opinion that one should consider paternal wealth from the 12th

house, probably because 4th house indicates one's permanent possession and the 12th house happens to be the 4th from the 9th. Therefore Moon in 12 may show that one's father may change residence during the period of Moon if it is in 12 in one's horoscope.

12th house signifies secret inimical activity, whereas 6th house indicates open inimical activity. 7th house is the opponent or enemy or competitor. Hence, Moon in 12 threatens that, during the period and subperiod of Moon, one may have the fear that there may be some people who will be trying to do harm to a person (a) either without the knowledge of the native, or (b) stabbing one at his back, or (c) digging grave to one, or (d) black-mailing one. Such people who outwardly appear to be honest while inwardly not sincere would have been born on a Monday or in Rohini or Hasta or Sravanam star or in Cancer Lagna or rasi.

[Notes to students: suppose one is born in Poorvapalguni star, say in 19° or so; then Moon is in Venus star Poorvapalguni and in Rahu sub; therefore when one runs Venus and Rahu sub sub and sub-periods, if Venus is lord of 12 (according to Lagna, and Moon is lord of 12) counted from Moon sign, one will have a fall due to the most polished diplomatic way during the conjoined periods of Venus, Rahu and Moon].

12th house indicates hospitals, asylum, sanatorium, jails, etc. It means that one loses his freedom and free movement, etc. One cannot be independent. He has to depend on others. If Moon in 12 is in no way connected with the lord of 6, one will not fall ill, and will not be admitted in the hospital; but find out in which constellation Moon was, at the time of birth. Who is that lord? What are the signs ruled by him? Find out to which houses, these

signs happen to be the sixth house. Judge, whether the houses indicate relatives, friends, enemies, servants, Officers etc. Then, during Moon's periods and sub periods one will visit hospital to see such a patient. So also one may visit the jail to meet a convict. [A person born in the Ascendant Leo-Simha with Moon in Pushyam star-ruled by Saturn, was ever attending a hospital due to the lingering ailment of his wife admitted in a T. B. Sanatorium. Why? Because (a) Moon in 12 shows visit to a place of segregation; (b) Moon was in Saturn's star indicating lingering, loathsome and chronic ailment; (c) Moon occupying Cancer sign indicates Tuberculosis; (d) Cancer is the 6th sign to Aquarius; (e) Aquarius is the 7th to Leo. 7th indicates wife. So 12th house shows wife's ill-health. Hence this person had to be visiting T. B. Sanatorium to attend upon his wife who had been suffering from T.B.] A person born in Aries Lagna, born in Revathi star, having Moon in 12, got contract to supply materials to a jail during his Moon dasa, Mercury Bhukti. Why? Because Moon was in the constellation of Mercury who is the lord of 3 and 6. Sixth house indicates how one serves and makes money. Third house shows that one may be an agent or a representative. Mercury indicates similar results and also those who enter into a contract and carry on the business of a contractor. Therefore one has to consider carefully and predict. One should not say that one will be imprisoned.

Also this person had his younger brother employed in the accounts department in the Jail. How can it be explained in his chart? Younger brother is shown by the 3rd house. Therefore to one born in Mesha-Aries Lagna, Mithuna or Gemini is the 3rd house: Moon is lord of 2, indicating self acquisition. To Mithuna, Moon was in 10 for profession. Hence, the younger brother was employed in a jail.

12th house shows life in a foreign place. It is true in those nativities whose Moon was in the constellation of a planet occupying a movable or a common sign. By foreign place, one should not presume

that one has to settle in a foreign land ruled by a foreigner. Any place other than the permanent place is to be construed as foreign. Lord of 4 in 12 indicates sale of property, handing over possession and changing one's residence. Lord of 9 in 12, or Moon in 12 in the constellation of lord of 9, or Moon as lord of 9 in 12 shows long journey and life in a foreign place.

In Sanketanidhi, Shri Ramadayaalu says that the 12th house represents both the feet of a person and it is also called Vyaya. Sudden and expected demands, pressure for money, uncommon expenses far exceeding one's income, donation, gift, charity, construction of well, reservoir etc., either virtuous or sinful actions of a person, punishment (either by God or Government or anybody) fines, losses etc., are indicated. Death may come to pass during the dasa of the planet that has a Sambanda, i.e., connection with the 12th house.

Ramadayaalu is of strong opinion that there will be loss of wealth through water (it may be floods or rain) if evil planets conjoin with the Moon in the twelfth house. A friend of the editor, a businessman in Andamans, loaded sugar in a ship and before it arrived, due to leakage, the brackish seawater had been converted to syrup and he had lost a part of his fortune.

Shri Ramadayaalu adds that Moon, conjoined with Jupiter in the 12th house, indicates that one will construct a dam or build new reservoirs or excavate tanks. Sun and Moon in the 12th house threatens that the Government will confiscate one's entire property. Benefics conjoined with Moon, promise that one will amass wealth and the same riches will be earned by fair means. Malefics portend loss as a result of one's foul actions. Black-marketeers will be penalised during the conjoined period of Moon and the malefic in the twelfth house. If Moon is not conjoined with any planet, or connected with any, in any manner, the person will own a spacious mansion.

Vaidyanatha Dikshitha, in Jataka Parijata, says that the 12th house, the

lord of the 12th house and the chief karaka for 12th house, i.e., Saturn, signify the following matters: wandering of a person far and wide; misfortune: Suka Sayanam, i.e., comfort of the bed, one's dignity and waste of money.

According to him, Moon in 12 occupies a movable sign or aspected by Saturn, makes the person roam about in the plains, forest etc. Waxing moon receiving good aspect shows that the person will be liberal, doing meritorious deeds etc., and will be engaged in agriculture. Moon, receiving good aspects from Venus, indicates that he will enjoy the comforts of bed on the couch.

In Phala Deepika it is said that one is to consider the twelfth house for the following: "Dukka", i.e., Sorrow, Angri meaning leg, Vama Nayana left eye, loss, tale-carrier, Anthya, the last portion, poverty, crime or sin, bed, expenses, imprisonment. He calls the 12th house as Leena Sthana, i.e., house which is hidden. 12th house is popularly known as one of the three Dush Sthanas 6, 8 and 12. 12th house is similar to a snake in grass or wolf in sheep's clothing.

In political astrology, the 12th house shows prisons, hospitals, refuge camps, philanthropic institutions, reformatories, charitable institutions, the criminals, secret enemies of the nation both at home and outside (the fifth column), secret societies and occult religions, plots, treachery etc. laundries, gold and cold storage, fish, breweries, hosiery, dealings in shoes and chappals are also to be included.

In Racing, 12th house indicates the feet, the restrictions brought on the owner, the barring of a jockey from riding, fraud and deceptive action, etc.

Generally Moon in the 12th house shows that one will be inclined to read occult subjects, practice mysterious ones, have secret romance as the senses will predominate and one will not have any discretion in love affairs (especially when Moon according to Hindu System receives aspects from Saturn, Mars and Venus or when Moon is connected with these three

planets.) [Venus means Kama, Love and Leela—Mars gives him courage and vitality—Saturn stands for illegal and underhand dealings. Moon is to give the results of the planets with which it is connected.]

Afflicted moon causes sorrow and loss. The loss may be either of money or relative or friend: this depends on the planet with which Moon has "Sambandha".

People, to whom Moon is a significator for profession, will be employed in places other than his permanent place of residence; he will have nothing to do with publicity. He does not care for publicity. He works in seclusion. If the lord of 5 forms a favourable aspect, he will meditate and concentrate in an isolated place "Ekanthae; Nirjanae; Aranyae; etc."—one may get service in the Home department, in the jail branch, in the medical department, in hospitals, sanatorium, camps, jails, and in places which are far remote, a calm quiet place. One may have independent business in all matters governed by Moon as laundry, breweries, fish, etc. One may serve in the secret intelligent department, especially when Saturn forms favourable aspect. One will work independently without others' knowledge and avoiding public gaze. If Moon is afflicted, do not get involved in clandestine love affairs.

If Sun forms good aspect with Moon, he will have service in the Government and benefit through matters indicated by Sun (by its nature, lordship, position in house and constellation). If afflicted, loss, imprisonment, confiscation, retirement from service, etc. are indicated. Health will be shattered.

Mars, forming good aspect with Moon in 12, gives a strong physique, opportunities to earn considerable money and a tendency to spend away more than the income much earlier, in anticipation of the receipt. Such people cannot save money. Mars afflicting Moon, threatens all varieties of danger, loss, imprisonment, etc.

Waxing moon in good aspect with Mercury makes the person active, studious

and creative. One will make frequent journeys and will be successful in his errand. One will publish books on occult subjects. Adverse aspect to Moon shows fear, diffidence, anxiety, care, misgiving, suspicion, etc. One may have nervous disorders and may be admitted in a mental hospital. By writing letters and by standing surety to another, one may get into trouble and incur loss. The person may not be able to fulfil the contract or agreement signed by him. There will be friction with his maternal relatives.

Jupiter forming favourable aspect with Moon in 12 offers robust health, plenty of wealth earned by honest means and proper distribution of one's wealth, including donation to religious discourses, temples, maternity ward, mutts, schools and colleges. This aspect will make him popular, and will help him to gain name and fame and to come out successful in all enterprises. If the aspect is evil, it is very bad for business. Loss by litigation, miscalculation and speculation is threatened.

Venus forming beneficial aspect with Moon gives the native a harmonious happy life with a healthy wife. It contributes for pleasant and peaceful life with prosperity. Social and domestic pleasures are promised. All the fruits of life in this world will be enjoyed in full during their conjoined periods, during the periods whenever Venus again and again forms harmonious aspect with Moon in 12. If Mars and Saturn also form good aspects, one may go by boat or ship and he will form friendship with co-passengers. If they do not form any aspect, then the husband and wife will have "Boating" as a recreation. Adverse aspects will bring in loss, ill-health to partner; bereavement, disappointment, etc. One will prefer to go to office very early and return home very late and try to reduce the number of hours of stay at home to the irreducible minimum, as it is a problem for him to live with his wife without any heated discussion; they will always be at loggerheads. Further she will carry tales and bring in ill-repute to the person. This is called

"Karma"—nothing short of it. Honestly speaking, people having Moon in 12 receiving adverse aspect from Venus, deserve sympathy from others. The native may, without informing the partner, take Sanyasa Ashramam. If he informs her, even then, she will stand in the way and will be a great hindrance. This is the practical and wise advice given by "AVVAIYAR".

Saturn forming good aspect with Moon promises permanent tie of friendship with old people, much benefit through them, and success in business, etc. One can concentrate and do research; plod and persevere and come out victorious in any undertaking; One will be serious in his actions sincere while offering advice, serene and level headed, even when there may be some adverse results. One will not be perturbed. Even temper and tranquil mind are indicated. Adverse aspects from Saturn to Moon in 12 shows "Sarvam - Nasti"; loss of friends; money getting entangled; loss in business; danger; failure; disappointment, bereavement, ill-repute, scandal, reversion, overlooking one's claims, promotion of juniors over the native, thereby depression and irritation, chronic ailment and a most unfavourable time for fresh ventures.

Good aspect from Uranus will lead to sudden changes; travels; impulsive investments; inventive faculty; investigation of the occult and correct intuition. He may have sudden romantic experiences. Adverse aspect will bring about unexpected, uncommon disadvantages, loss, imprisonment; accidents = scandal, separation; divorce; hasty and indiscreet action; illegal attachment and trouble such matters.

Neptune forming good aspect with Moon in 12 gives gain through plots, secret activities, artistic and mediumistic faculties. Ladies will be of great help for his rise in career. New friendship will be formed. Intuition will be very correct. It is the most favourable aspect for astrologers, doctors and research workers. One may practise Yakshini. One may gain by dealing in oils, chemicals and things found

in the sea. Adverse aspect with Moon shows danger, secret plots against the native, conspiracy by enemies, etc : a restless and worried mind ; danger by drowning or poisoning : unsettled state of affairs. Every one of his attempts will be in a muddle and all will be out of joint. He cannot organise anything as his efforts will be thrown out of gear.

Moon as lord of the ascendant in 12 in Mrigasirisham star shows fortune in a foreign place, transfer to a far-off city or country, or separation from children. Children may be admitted in the hospital and he may have to be paying visits often to them if Moon is in 8 to the 5th house and is in the constellation of lord of 6 to 5. Moon in Arudhra gives such results to the native as Rahu indicates. Moon in Jupiter's star, Punarvasu, gives mental

pleasure, jubilant spirit, overdraft facility from bankers, digestive disturbance, over-indulgence, long journey, marriage of children, success in college course, and an inclination to study philosophy and to be religious and do meritorious deeds.

Moon as lord of 2 in 12 in Karthikai star indicates that one may be a camp clerk, a touring officer, editor, publisher, agent, etc. Moon in Rohini produces musicians or one may gain through cinema or deal in luxury goods, perfumery etc. Moon in Mrigasirisha indicates that one will be victorious in competition, successful in election, etc. He will be able to repay loans ; he may serve in Food or Finance department or in the Housing Society.

[Thus for each sign of birth, one is to modify the results.]

MARRIAGE AND MARRIED LIFE

By

ARUDHRA

Houses 2, 7 and 11 as well as Venus (kalatrakaraka or the chief governor for marriage) need consideration to ascertain

- the particulars about the partner in life,
- his/her description,
- time of marriage, and
- state of married life.

Always :—

- Planets situated in the stars (nakshatras) owned by the planet occupying bhavas 2, 7 or 11 are stronger than
- the planets occupying the bhavas 2, 7 or 11, which are stronger than
- those in the constellation of the lords of the said bhavas,
- the owners of the cusps of houses 2, 7 or 11, and
- those which receive aspects from any of the above signifiers and those which aspect these bhavas.

Here is a horoscope of a gentleman:

	Kethu 17° 9'		Fortuna 0° 35'
Uranus 10° 59'			Nep. 19° 31'
Moon 29° 01'			Mer. 0° 54' Sun 7° 37' Guru 7° 37' Shani 2° 13' Venus 27° 28'
Lagna 13° 32'	Mars 2° 41'	Rahu 17° 00'	

In the above chart Moon is in the Second house. The stars ruled by Moon are Rohini, Hastham and Sravanam. No planet is posited in these stars.

The seventh house is unoccupied. 11th house is occupied by Rahu and also Mars (Mars is in the 11th bhava). Arudhra, Swati and Sathabisha are the nakshatras governed by Rahu. No other planet except Rahu is in its constellation. Rahu is thus a signifier.

As Kethu is in Mars' sign, Kethu will give the results of Mars. Kethu is also in Bharani owned by Venus, the kalatrakaraka, and is in Moon's sub. Hence planets in Kethu's star will offer the results indicated by Kethu.

Moon is in the 2nd and Rahu is in the 11th. Rahu is, no doubt, strong.

Saturn, Lord of 2, is in the constellation of Venus, lord of 11, and is also kalatrakaraka. Saturn further aspects the 11th house. It is conjoined with Mercury, lord of 7, and Venus, lord of 11. The combination of the lords of 2, 7 and 11, i.e., Saturn, Mercury and Venus may be seen in the 9th sign. Further, Jupiter, lord of 1, and Sun, lord of 9, are also conjoined. Of all these planets in configuration in Leo, Saturn is the strongest, being exalted in Navamsa.

Mercury, lord of 7, is in the constellation of Kethu which is to offer the results of Mars. (Mars is in the 11th bhava and also aspects, by its 8th aspect, Mithuna—Gemini—the 7th). It is already mentioned that a node is stronger than the lord of the sign; hence Kethu is stronger than Mars, and planets in Kethu's stars will offer the results denoted by Kethu. Mercury, in addition to its being the lord of the 7th house is also in Kethu's constella-

tion and in the sub of Venus, the lord of 11 and chief governor for marriage. Mercury is therefore a strong significator.

Venus rules the 11th house. It is in the 9th bhava and in the constellation of Bagyadhipathi, Sun, the lord of 9. So Venus is propitious. It is also in conjunction with Saturn, lord of 2. Saturn, Mercury and Venus are the significators.

As regards the particulars about the native's partner—

- (i) the partner's day of birth will be ruled by any of these three planets;
- (ii) her rasi (i.e., the sign where Moon was posited) will be governed by any of the three planets mentioned above;
- (iii) Lagna of the partner will fall in a sign owned by the above planets.

That is, the partner's birth day, birth lagna and birth rasi must be governed by the three significators, Saturn, Mercury and Venus.

Actually the native's wife was born on a Saturday (22-12-1923) in Thula Lagna owned by Venus and in Mithuna Rasi governed by Mercury. The following is her chart:

Fortuna 28° 7'			
Uranus 29° 10'			
Kethu 12° 49'			Nep 27° 29'
Venus 2° 58'			Rahu 12° 49'
Budha 26° 48'	Jupiter 13° 30'	Mars 19° 21'	
Sun 7° 21'		Sani 7° 31'	
		Lagna 3° 35'	

Considering similarly the lady's chart and the houses 2, 7 and 11 either from the lagna or from Moon sign, one can ascertain that the significators are Saturn, Jupiter and Mars.

Taking Libra as lagna—

(a) Jupiter is in the 2nd bhava.

(b) 7th is unoccupied but is aspected by Mars and Saturn. Mars is the lord of 2 and 7 and he is posited in Rahu's star. Rahu is in the 11th bhava. Saturn is also in the constellation of Rahu who is in the 11th bhava. Further, Saturn is conjoined with Mars, the lord of 2 and 7. Saturn also aspects the 7th bhava.

(c) 'Rahu is in the 11th. Mars and Saturn are in its constellation.

Hence, the ruling planets of the partner (husband) will be these significators, i.e., Jupiter, Mars and Saturn. Actually the gentleman is born on a Saturday, in the sign Makara ruled by Saturn, in Dhanus (Sagittarius) lagna owned by Jupiter and in Dhanishta (Avittam) star, lord of which is Mars.

If one takes Gemini as the 1st house (it being the sign occupied by Moon) and rejects Libra (Thulam) Ascendant due to the occupation of Saturn and Mars, the two natural malefics, then 7th house alone is occupied and Sun and Mercury are there. The second house is aspected by Jupiter who is lord of 7 to Moon rasi, by Venus from the 8th bhava and Saturn from 5th (from Moon rasi). 11th house from Moon rasi is also aspected by Saturn and Mars. Hence Jupiter, Mars and Saturn are the significators and the partner's birth is governed only by the strongest of the significators.

Characteristics of the husband

He will be law-abiding, true, honest, sincere, methodical, reliable and one who will make a few promises but will fulfil it to others' entire satisfaction.

Characteristics of the wife

She is a Venusian, modest, polite, intelligent, tactful, diplomatic, adjusting and accommodative. Occasionally she gets irritated but mostly maintains peace and leads a comfortable life.

Time of marriage

Marriage takes place during the conjoined period of the significators, or those

in the constellation of the significators or those conjoined with them.

In the gentleman's chart, the balance in Mars dasa was 4 years and 8 days. At the time of marriage on 7-12-1945, he was running Jupiter dasa, Saturn bhukti and Venus anthara. Saturn is lord of 2, Venus is lord of 11, and Jupiter is conjoined with them.

In the lady's chart, there was a balance of only 2 years 6 months and 19 days of Mars dasa. At the time of marriage, she had been running Jupiter dasa, Jupiter bhukti and Venus anthara. Jupiter is in 2 to her lagna and is lord of 7 to her Moon sign. Venus is the chief governor for marriage. Venus is in the star of lord of 11 Sun and receives the aspect of Mars, lord of 2 and 7. Jupiter and Venus also aspect the second house counted from the Moon sign. Jupiter and Venus are common in the charts of both.

It will be a pleasant surprise to note that the day of marriage was a Friday governed by Venus; the star on that day was Poorvashada ruled by Venus and the lagna and rasi was Dhanus owned by the Jupiter. One therefore finds that the marriage must take place only in that manner, that is on the day ruled by one of the significators and in the star, rasi and lagna, governed by them. It must agree with both the husband and wife's charts.

[In this connection, it may be mentioned that a few people wrongly say "The boy's chart does not show that this is the time of marriage. But the girl's chart is stronger, and indicates it and that is why the marriage has taken place". Or they may say that, even though the girl is not running a good period, the strength of the boy's chart has concluded the marriage at an early date. What a pity! Ignorance of the science leads to such statements. Unless both of them run a propitious time for marriage, how can they get married?]

Married life is very happy and harmonious, as, in the gentleman's chart, the lord of 1 and the lord of 7 are conjoined together in Bagyasthana and in the lady's chart the lord of 7 is aspected by the lord of 1 and the lord of the rasi is occupied

by the Moon; i.e., Mercury has gone to the 7th (from Moon rasi). Indeed they are an enviable couple, enjoying all the fruits of life in this world and usefully spending much time on prayers. May God give them long life, health and prosperity.

Second example.

The following is the chart of a student in Bharateeya Vidya Bhavan :

	Sukra 0° 41'	Sun 1° 36' Moon 4° 18' Mer 18° 08' Mars 27° 32'	Lagna 29° 40'
Kethu 24° 30'			
			Rahu 24° 30'
		Guru 20° 03'	Sani 21° 29'

The gentleman was born on 16-5-1923 at 9-48 a.m. at Guntur. At the time of birth the balance of Sun dasa was 2 years, 6 months and 23 days.

Moon is the lord of the 2nd house. Saturn alone occupies Moon's constellation.

7th house is also unoccupied, Jupiter is lord of 7 and it is in its own star. Jupiter also aspects the 11th house.

Sun, Moon, Budha and Mars are in the 11th bhava and in the sign of Venus, the chief governor for marriage. Jupiter, Saturn, Sun and Moon are therefore the significators for the marriage.

The birth of the partner is in Jupiter's sign, Meena (Pisces), in Meena rasi owned by Jupiter, in Uthattadhi star governed by Saturn. Budha in the constellation of lord of 2, Moon in the partner's horoscope has given one horn in Budha's sign Gemini as lagna.

Marriage was negotiated in Rahu (occupying Sun's sign, representing Sun) dasa, Jupiter bhukthi and Saturn anthara, fixed in Mercury anthara and celebrated in Moon anthara on 7-5-1947. The star Anuradha on the day of marriage is ruled by Saturn and the day was Wednesday governed by Budha (Mercury).

Let us take the wife's chart:

Rahu 18° 20'		Venus 0° 37'	Jupiter 29° 09'
Moon 12° 28'		Budha 4° 44'	
Lagna 12° 08'		Sun 25°	
			Mars 6° 53'
Saturn 29° 25'			Kethu 18° 20'

Saturn dasa balance is 5 years 11 month and 24 days at birth.

As Moon is also in the lagna, though Rahu is there, one is to take only Meena as the 1st house. The 2nd house is ruled by Mars, the 7th by Mercury and the 11th by Saturn. Mercury, lord of 7, and Venus who is the chief governor for marriage are in the 2nd bhava. No planet aspects any of the houses 2 or 7 or 11. Hence Mars, Mercury, Venus and Saturn are the significators. Mercury and Venus are strong as the former occupies its own sign in navamsa and Venus is vargottama and strong. That is why the husband is born on a Wednesday ruled by Mercury, in Venus sign Taurus and in Gemini lagna governed by Mercury. On 7-5-1947 she had been running Mercury dasa, Rahu bhukti, Jupiter anthara (Rahu was in Mercury's constellation). Rahu is aspected by Mars, lord of 2, and Jupiter is the only planet aspected by Saturn, lord of 11.

Thus it will be seen that houses 2, 7 and 11 influence marriage. (More details will be published in the subsequent issues.)

(a) ACCIDENTS (ASTROLOGICALLY EXPLAINED)

By

JYOTISHA VISHARATH K. GANAPATHI

(a) The following is the chart of a high official in Delhi who was about to be drowned on Monday the 12th June 1961 and was fortunately saved in the last moment.

Moon 27° 46'	Jupiter 10° 47'	Venus 10° 52' Budha 27° 20' Sani 28° 32'
Born 21-7-1916 at 28° 27' N and 78° 49' E		Sun 5° 31' Kethu 6° 21' Nep. 9° 33' Fortuna 11° 17'
Uranus 25° 50' Rahu 6° 21'		
	Lagna 19° 2'	Mars 6° 12'

Balance at birth of Mercury dasa was 2 years 10 months and 5 days.

Health is indicated by the ascendant (lagna). Disease is shown by the 6th house; danger by the 8th; and unexpected and undesirable occurrences by the 12th.

In 'Jataka Chandrika' it is said that if the lord of lagna owns the 8th house also, it will not prove to be evil. One should not decide that it is wholly good. But one is to take that, as lord of 8, it will, no doubt, cause danger but since it is the lord of lagna also, it will save him after he experiences the difficulty. Similarly, if one planet owns the houses 6 and also 11, then the native will have enemies and ultimately he will come out victorious. This is applicable to Gemini (Mithuna) and Sagittarius (Dhanus) lagna people. If the 6th house is owned by the lord of

lagna, i.e., if a planet owns both the lagna and the 6th house, then the native will invite trouble on himself or suffer from a disease due to his karma, but he will survive. This is applicable to Taurus (Rishaba) and Scorpio (Vrischika) births.

So, if a planet owns the houses 1 and 8, the danger is self-invited and the native escapes from it. In the chart under consideration, Venus is the lord of the Ascendant and also of the 8th house. The danger of being drowned was only in Venus bhukti (sub-period) as it is strong in the 8th bhava (though in the 9th sign).

Normally an astrologer will expect only Rajayoga (brilliant results) during the major period of Moon as it owns the 10th house. Further, it is in the constellation of lord of 9. Accordingly he will say that Moon has to offer pleasant results especially so in the sub-period of Venus, the lord of lagna.

Why, then, did this threatening event happen? It needs correct interpretation.

- (a) Moon was in the 6th house which is evil to the person.
- (b) Moon occupies the 12th sign of the zodiac and is in the constellation of Mercury, lord of 12, and in the sub of Jupiter, lord of 6.
- (c) Moon is a watery planet and occupies a watery sign.
- (d) Moon is squared by Saturn according to the western system and aspected by Saturn by the 10th aspect as per Hindu system.
- (e) Lord of 8 (Venus) representing danger forms quintile (72 degrees) aspect with Moon.

All these points indicate that he must face some danger during the conjoined periods of Moon, Venus and Saturn. In fact, the native was running Moon dasa, Venus bhukti and Saturn anthara when the accident occurred.

According to stellar astrology, the lord of the day, the star, the rasi where Moon was at the time of accident should be governed by the dasanatha and bhukthi-natha (lords of the major period and sub-period). Actually the gentleman was drowned on a Monday ruled by Moon, in Rohini star governed by Moon and in Rishaba rasi owned by Venus. Always people running Moon dasa, Venus bhukti will come by fortune or incur loss on the days ruled by Moon or Venus, i.e., Monday or Friday and in their star days, especially Rohini star as the star is ruled by Moon in Rishaba ruled by Venus; one gains if both Moon and Venus are beneficial, one loses if they are evil both by lordship and occupation.

Why should the native escape? Jupiter in the Ascendant or aspecting the Ascendant or Moon shows that the native has done meritorious deed in the previous birth and hence, in this birth, he will enjoy Providential Help at least in the last moment. So a Brahmin who knew swimming plunged into the river on seeing the native, carried him to the bank and rendered first aid and thus saved him. Since the lord of 8 also happens to be the lord of the lagna, the native was saved. If it had been lord of 7 and 8, he would have been drowned.

(b) *Accidents.* Below is the chart of a boy born on 26-12-1945 at 24 ghatish 53 vighatis after sunrise at Lahore.

The boy had a fall from a terrace and he received an injury in the head. He has been admitted in a hospital immediately after the fall, i.e., at 6-30 P.M. on Thursday the 15th October 1964 at Delhi.

At the time of birth, the dasa balance of Rahu was 10 years 1 month and 17 days. On the day of injury the period was Jupiter dasa, Venus bhukti and Mars anthara.

		Uranus 21° 40'	Lagna Rahu 6° 47'
			Mars 7° 3' Sani 29° 48'
Sun 11° 20' Venus 2° 28' Kethu 6° 47'	Budha 19-14	Moon 12° 41' Guru 1° 9'	Neptune 13° 35'

When one takes a horoscope for judgment, the first duty of an astrologer is to note whether the ascendant is strong and unafflicted. If the lagna is occupied by natural malefics, then it is afflicted. Saturn, Mars, Rahu and Kethu occupying the ascendant not owned by them weaken the same. In that case, the unafflicted sign occupied by Moon should be taken as the first house and therefrom the other houses 2, 3, etc., are to be calculated.

In the above chart, Rahu is in lagna and lord of lagna has gone to the 5th sign counted from the ascendant Gemini. So the lagna is weak. But Moon is not afflicted. So one is to take Libra (Thulam) as the first house, etc., and offer the prediction.

(a) If one takes the lagna and offers prediction, he will naturally say that Jupiter is a Rajayogadhipathi and Venus is a benefic to Gemini (Mithuna) borns, hence the native has to enjoy good results. This is sthoola.

(b) If one takes the sign occupied by Moon as the lagna and predicts accordingly, then Jupiter is lord of 3 and 6 and he is evil. But quoting 'Jataka Chandrika' he will foretell that Venus will offer brilliant results.

(c) Consider as mentioned below which is sookshma (stellar method), which alone will come correct.

(i) Jupiter is lord of 7 and 10 if you count from lagna. It is in the constella-

tion of Mars, the lord of 6 and 11. Hence Jupiter becomes evil.

(ii) Venus is lord of 5. It is conjoined with Kethu and is in Kethu's constellation. Therefore Venus is also evil.

Jupiterdasa, Venus bhukti will therefore cause some disease or danger to the native.

(iii) Counting from Moon's sign which is correct, Jupiter is lord of 6. It is in the constellation of Mars, marakasthana adhipathi, and of Mercury, sub of lord of 12. Venus is also lord of 8 (counted from the Moon sign) and is in Kethu's constellation and conjoined with Kethu. Venus is in his own sub. It is in the third house owned by Jupiter who is to cause ailment.

Kethu, a node, gives the results of the planets with which it is conjoined and the lord of the sign in which it is situated. Therefore Kethu has to give the results of Jupiter as it is in Dhanus (Sagittarius) and of Venus as it is conjoined with it. Jupiter is lord of 6, Venus is lord of 8. Mars was posited in Saturn's constellation. Mercury's sub (Mercury is the lord of the 12th house).

The reasons are :—

(a) Jupiter was in the constellation of Mars (lord of 2 and 7 counted from the Moon sign) and sub of Mercury (lord of 12 from the Moon sign); Mars is evil.

(b) Venus was in Kethu's constellation

and Kethu is to give the results of Venus and Jupiter. To Moon sign Libra, both Jupiter and Venus are therefore evil.

So taking Moon sign as the first house and deciding that the constellations occupied by Jupiter and Venus (lords of 6 and 8 from Moon sign) are ruled by malefics, one can correctly indicate the accident.

If one takes lagna, how can an astrologer say that the injury should be in the head as Jupiter is in 5 to lagna and Venus is in 7. But if the Moon sign is taken as the first house, then Jupiter is in the first house which also governs the head.

Jupiter, as lord of 6 to Moon sign, indicates that it has to punish the native but, being a benefic by nature, it saved him from serious damage. Actually where the boy fell there was a doctor standing by the side of his car witnessing "Ram-Lila." No sooner he saw the boy falling than he rushed to the spot, did first aid at once and took him to the hospital where he was employed and admitted him without any delay. All these are not accidental. According to the boy's fate, he is to fall down and since Jupiter aspects Lagna and is conjoined with Moon it has to save him also. The difficulty must be there, yet there will be the Providential help in time. If Jupiter neither aspects Lagna nor is conjoined with Moon, he could not have had immediate attention; nor could he have lived even a few hours after the fall. All say "God is Great". Astrologers say "Jupiter is great".

(b) LOSS BY THEFT

(a) The following is the chart of a gentleman born on 27-10-1935 at 2-35 p.m. at Poona who had lost his movable property (some thousands of rupees) by theft during his Jupiter mahadasa, Mars bhukti. The horoscope clearly shows that one has to follow only the stellar system to arrive at the correct result.

Uranus 10° 28'		Kethu 23°	
Sat. 10° 40' Asc. 5° 30'			
		Venus 25° 48' Nept. 23° 15'	
Rahu 23° Mars 6° 5'	Jup. 4° 20'	Sun 10° 10' Moon 9° 27'	Mercury 24° 15'

Rahu dasa balance at birth was 14 years 2 months and 27 days.

Find out whether lagna is strong or the Moon sign (the sign occupied by Moon) is Strong. As Saturn is lord of lagna as well as lord of the 12th bhava and is in the lagna, lagna is weaker than the Moon sign Libra (Thulam). According to Jataka Parijatam, the sign in which the conjunction of Sun and Moon occurs is stronger than even the lagna. So one is to take Libra (Thulam) as the first house..

In Horary astrology, the 7th house denotes thieves, outlaws, etc. Mars is lord of 2 and 7. He is in the constellation of Kethu and in Rahu's sub. Jupiter, lord of 6, is in Vrischika (Scorpio), the sign ruled by Mars, lord of 2 and 7. Jupiter is in Saturn's constellation and Saturn's sub. Note that Jupiter and Mars are under the sway of malefics.

Lord of 5 and planets in the fifth house always give profit to those indicated by

the 7th house, because the 5th house is the 11th to the 7th house. (7th house represents wife, opponent, thief, etc). Hence Saturn in 5 is auspicious only to the opponent or thief. Jupiter occupying Saturn's constellation therefore gives profit to the thief. But when? At the time when the period of lord of 7 operates. The lord of the 7th house is Mars. Hence Jupiter dasa, Mars bhukti has given substantial gains to the opponent, by bringing loss to the native. Jupiter is in 8 to Aries (Mesha) which is the sign of the opponent or the thief. Benefics in nature occupying the 8th house promise sudden increase in wealth (Sowmyae, Ranthrae Nithyapthe).

Suppose one takes the lagna and offers prediction. Then Jupiter is the lord of 2 and 11. Mars is the lord of 10. So one has to predict brilliant results and one will not be able to advance any explanation astrologically for the loss by theft. This is sthoola. But if sookshama method (stellar theory) is applied, one can give the correct reading.

The native had a promotion in Jupiter dasa, Sun bhukti. Again another promotion came in Moon bhukti. However, during the bhukti of Mars, lord of 10, he did not have any improvement at all; instead *he was the victim of theft*.

Generally one will say "This person is running Jupiter dasa. Sun is in 12 to Jupiter. Hence he must have a change in his job or he may lose his position. The bhukti of a planet in 12 to the dasanatha cannot contribute to any good result during its subperiod." This is the general finding. But note the results actually enjoyed by the native.

Neither the horoscope is wrong, nor is the statement incorrect. The method of prediction needs improvement. Forget the 'sthoolam' method. Follow only the stellar system. The truth will be apparent.

Rāhu is in the 11th house counted from lagna. It is in Jupiter's sign and hence it has to offer results indicated by Jupiter, the lord of 2 and 11. Planets occupying the constellation of another planet or node are stronger than the lords of the constellation. Rahu owns Arudhra, Swathi and Sathabhisha. No planet is in Arudhra. Swathi is occupied by Sun and Moon. Hence whatever Rahu is to give, Sun and Moon have given. Mars which was in the constellation of Kethu who is to give the results of Mercury, lord of 5 and 8, could not give any beneficial result in his profession in Mars' bhukti (sub-period) even though Mars is the lord of the tenth house and he happened to occupy the 11th house and in 2 to Jupiter, dasanatha.

Saturn in the Ascendant is also in Rahu's star. Saturn will offer a position of trust and improve the status of the

	Jup. 11° 50'	Moon 10° 24'	
			Kethu 3° 21' Saturn 5° 17' Nept. 11° 30' Venus 15° 36'
Uranus 23° 46' Rahu 3° 21'			Fortuna 28° 39'
Lagna 19° 48'		Mars 13° 9'	Sun 1° 31' Mercury 26° 37'

person but only when the native runs the period or sub-period of Saturn.

(b) Theft: The following is the horoscope of an official who lost heavily his valuable possessions by theft. It occurred on 14-4-1964 (Tuesday).

At the time the theft took place the native was running Jupiter mahadasa (major period), Mars bhukti (sub-period) and Jupiter anthara (inter-period).

In the above chart, Jupiter is the lord of the Ascendant and it aspects the ascendant. Therefore, lagna is strong. So Jupiter in 5 and Mars in 11 are normally considered to be auspicious and the native has to gain. Actually the native lost gold bangles, ruby set, necklace, etc., in the conjoint period of Jupiter and Mars. Why? Jupiter was in the constellation Aswini ruled by Kethu occupying the 7th bhava and 8th sign. Further Jupiter was in the sub of Mercury, ruling the 7th house. Saturn and Kethu are conjoined. So Jupiter becomes evil. Jupiter does not aspect any other planet except Mars which is also in the constellation of the malefic Rahu occupying the second sign. Mars was also in the sub of Mercury who is the lord of 7.

Therefore the loss was given in the conjoint period of Jupiter and Mars, on Tuesday governed by Mars and when Moon transited in Mesha owned by Mars and when Moon was in the navamsa Sagittarius governed by Jupiter. The ascendant at the time of loss coincided with the position of Mars in the chart.

(c) YOUR INTERVIEW AND THE RESULT

When the astrology class was in session in the Bharateeya Vidya Bhavan on 24-9-1964, a gentleman asked the editor about the results of an interview he had recently. On being asked to mention a number within 108, he gave 72.

The following was the position of planets on that day:

	Moon 14°	Jupiter 2° 42' (R)	Rahu 3° 55'
Saturn 6° 15' (R)			Mars 12° 25'
			Venus 24° 10'
			Uranus 18° 31'
			Mercury 22° 18'
	Number : 72		
Kethu 3° 55'	Lagna 26° 40'	Neptune 22° 42'	Sun 8° 16'

Lagna indicates the native, his health and whether he will get a favourable reply or not. Since the number given by him is 72, one should divide it by 9. 72 goes 7 times. So 63 is gone and the remainder is 9. Therefore, the ninth pada of Vrischika (Scorpio) is the lagna, that is Jyeshtha 4th pada. This extends from 26° 40' to 30° in Vrischika.

Some astrologers ask the consultant to give a number within 108 and they divide number so given by 12. The remainder is taken as the lagna counted from Mesha (Aries). Thus if the remainder were to be 5, they would take the lagna as falling in Simha since it is the 5th sign counted from Mesha, and so on. The above method, in the editor's opinion, does not appear to be rational and sound. If one is to divide the number within 108 by 12 and take the remainder as the sign counted from Aries (Mesha) on which the lagna falls, then one can as well ask the consultant to mention straightway a number within 12 and fix the lagna. If the number given is 1, then

Aries (Mesha) should be taken as the lagna; if 2, then Taurus (Rishaba) is to be fixed as the lagna, etc. What, then, is the sanctity in asking for a number within 108?

Kalidas in his work 'Uttara Kalamritam' suggests that a number within 108 should be asked and the number so given should be divided by 9 (divisor). The quotient represents the number of signs from Mesha that have elapsed and the remainder represents the number of navamsas elapsed in the sign on which the lagna falls.

The zodiac is divided into 27 equal parts of 13° 20' and each part is named after a nakshatra or star or constellation. Again each nakshatra is again divided into four parts or padas, each of which extends to 3° 20'. Thus 9 padas are contained in each sign. Thus the zodiac is divided into 108 equal parts. Therefore the number given by the querist falls in that particular pada counted from Aries 0°. Therefore it is advisable and most convincing to take Scorpio (last pada of Jyeshtha) as lagna.

In all cases, lagna indicates whether the querist will be successful or he cannot fulfil his desire. The position of Moon indicates what he has in his mind. What for has he put the question? Moon is otherwise called 'Mathi' or the mind. Moon transits in a particular point in the Zodiac when a person has the urge and he puts the query at that moment. Lagna is ruled by Mars in the present case and it is in direct motion in the 9th sign and 8th bhava. It is in the constellation of Saturn which is retrograde. Moon is in the 6th sign (5th bhava) and in the constellation of Venus. So, Moon is in the sign of Mars and the constellation of Venus; Mars is in Moon's sign and Saturn's star. What does Moon indicate? Moon, in the constellation of lord of 12, indicates that the querist desires to have some

change. 12th house is always for a change and 7th indicates those with whom he transacts. From his surroundings he wants to have a change. That is indicated by Moon. Venus, in whose constellation the Moon was, forms a trine (120°) aspect with lagna; the lord of 7th does not square but it forms a good aspect with the ascendant. Therefore he and the officer (or the subordinate) with whom he is moving are very friendly to each other. The conjunction of lord of Lagna and lord of 7 also shows that they have good understanding. Since lagnadhipathi is Mars and it is in the constellation of Saturn who is retrograde, any proposal that he makes will fall through. The prayer is for a change which will not come to pass. Further, lord of 11 is in the constellation of lord of 12. His desires will not be fulfilled now.

When, then, can the person come to know of this fact? On which day?

The ruling planets today (24-9-1964) are Jupiter (the lord of the day), Mars (the lord of the ascendant and rasi) and Venus (the lord of Bharani). Therefore the combination of Jupiter, Mars and Venus indicates the nature of the question. Only at the time when the same three planets operate again, the result will be known. (Whenever a query is put at a particular moment, note down the lord ruling the day, the lord of the lagna, the lord governing the star and the lord owning the rasi. Jupiter, Mars and Venus are thus the ruling planets. Jupiter represents Thursday, Mars Tuesday, and Venus indicates Friday. One cannot hear the news on any other day except these three days).

Jupiter rules Punarvasu, Visakha and Poorvabhadra (Poorattadhi) stars. Mars rules Mrigasirisha, Chitra and Dhanishta (Avittam). Venus is the lord of Bharani, Poorvaphalguni and Poorvashada stars. The day on which the native will receive the order will be that day when any one of the above stars will be transited by Moon by ephemeral motion. The lagna at that moment will also be governed by Jupiter, Mars and Venus. Lagna and Moon must

therefore be within the following longitudes:—

- (1) 13° 20' to 26° 40' of Aries (Mesha)
This portion called Barani is ruled by Venus in Mars sign.
- (2) 23° 20' to 30° of Taurus (Rishaba)
This portion called Mrigasirisha is ruled by Mars in Venus sign.
- (3) 0° to 6° 40' of Libra (Thulam)
This portion is ruled by Mars in Venus sign.
- (4) 20° to 30° of Libra (Thulam)
This is ruled by Jupiter in Venus sign. This portion is called Visakha.
- (5) 0° to 3° 20' of Scorpio (Vrischika)
This portion called Visakha is ruled by Jupiter in Mars sign.
- (6) 13° 20' to 26° 40' of Sagittarius (Dhanus)
This portion is called Poorvashada and is ruled by Venus in Jupiter's sign.

Therefore, even though there are three stars for each planet, when one wants to find out the exact position both the rasi and the star must be ruled by any of the three. The lagna also must fall in this area. Moon must be in this area and Sun too should transit in such a constellation.

Now one has before him a number of alternatives. How, then, should one pitch-up the date on which the matter will materialise? As regards the time, one will never receive the news at night. Nobody will go to office at that time. Also there is no possibility of the orders being received in the early morning before 8 A.M. The expected orders will be received only between 8 a.m. and 6 p.m.

Regarding the day, now you have got many alternatives. The lord of lagna is in Saturn's constellation. Therefore one has to be careful in selecting the date. If you select two days, either will come correct. One should consider that particular rasi which does not receive the Saturn's aspect. Saturn cannot aspect

Sagittarius (Dhanus). So the matter can materialise when Sagittarius 13 deg. 20 minutes to 26 deg. 40 minutes will be transited by Sun, that is, the date on which the orders would be received. Note where the lagna has fallen at the time of query. Lagna is in 'Scorpio (Vrischika) which, according to Hindu theory, receives the aspect from Saturn. According to westerners, the aspect is 72 degrees which is favourable. When Sun transits in Dhanus which is not aspected by Saturn, the native will be informed and on that particular day his desires will be fulfilled. Why? Because in Dhanus you have the

sub-portion of Mars in Venus' star Poorvashada in Jupiter's sign. Mars, being the third ruling planet, one select Mars sub. These three planets combine only at 18 degrees of Dhanus. When this position is transited by Sun, the querist can have his desires realised. The day happens to be 2nd January, 1965. Moon is in Poorvashada on that day. It is also a New Moon Day, i.e., Sun and Moon are both in Poorvashada on that day. The native will not be allowed to sever connection but he will be retained, transferred and promoted with increase in income and improvement in status.

ASPECTS AND THEIR SIGNIFICANCE

By
"BALA"

While examining a horoscope, various elements have to be considered, analysed and combined together with logical judgment. Once the fundamentals, namely the characteristics of the planets, the nature of the twelve zodiacal signs, the matters governed by the different houses (bhavas), the quality of the aspects, etc., have been well comprehended, then the proper analysis and application will assist the astrologer to assess results accurately. No satisfactory prediction can be offered merely by memorising slokas or by blindly following the explanations given in various text-books. Practice alone will make one proficient.

Each house by itself signifies certain affairs in one's chart. A planet placed in a house influences or activates the matters embraced by the house; in other words, it shows whether the matters of the house will flourish or fall—according to the planet's inherent nature, its adhipathyam (ownership of houses in the horoscope) and its occupation. Above all, it is very important to include the rule that the planet's results in a bhava are modified by the lord of the constellation (star) in which the planet was. Mostly, the results indicated by the lord of the constellation (what it indicates by rulership of houses) will predominate.

A planet can throw light according to its nature. But its colour is modified by the lord of the sign and the lord of the star in which it was. Actually the matters indicated by the lord of the star will happen during the period of the planet in that star. The sign and the star are the containers.

The planet is the content. So milk in a red glass tumbler will appear red like blood. No doubt, the content is milk. But its colour changes due to that of the

container. Similarly, the results of the planets will get modified or altered. Therefore all these testimonies should be properly correlated and synthesized. Further the results and indications are modified by the strength and quality of the aspect received by the planet. The aspecting planet decides the change in the nature of the result.

What is an aspect?

An aspect is "an angle formed on the Earth by the beams of two planets" (Kepler). The term is employed, in Astrology, to refer to angular distance measured in degree and minute of celestial longitude between two points in the zodiac. Zodiac is the belt of space in the sky extending to 8 degrees on either side of the ecliptic (Sun's apparent annual path around the Earth) in which the planets travel, each in its respective orbit. According to westerners, aspects are formed between two planets, or between a planet and a point in the horoscope, as for instance the cusp of a house (bhava), say Ascendant M.C., etc. 'Cusp' may be defined as the edge of a house, i.e., the exact beginning of a house (which is also the end of the previous house) reckoned in degree and minute of celestial longitude. [The method of calculating the cusps of houses using the Raphael's Table of Houses has been previously explained.]

Some angular distances produce results which are effective.

A planet is considered to be in aspect with another planet or a sensitive point in the zodiac only when it is away from the planet or the sensitive point by a certain longitudinal distance.

Planets are ever moving in their orbits in the zodiac and so aspects may be

his 7th aspect, looks at the 4th and 8th houses from it. These 4th and 8th aspects of Mars are more powerful than its 7th aspect. The rest of the planets have only a three-fourth aspect over the 4th and the 8th houses.

Mantreswara mentions in "Phaladeepika" (sloka 9, Adhyaya IV) that the 7th aspect is the only one that should be declared as most effective in all cases and not so the rest, but others are of the view that the special aspects of Saturn, Mars and Jupiter are in no way less efficacious. (Refer V. Subrahmanya Sastri's translation.)

It has been further stated that planets do not aspect the 2nd, the 11th, the 12th and the 6th houses reckoned from the one occupied by them. (Uttara Kalamritam, sloka 17, Khanda II).

When two planets are combined in one house (sign), they are taken to be in conjunction. In sloka 32, khanda IV, of Uttara Kalamritam, Kalidas makes it clear that a conjunction can occur only when the planets are within the range of 12 degrees from each other.

Illustration

Saturn		Rahu
Lagna Moon		Jupiter
Kethu		Mars Venus

In the above nativity, we find that Moon, the lord of the 7th house, placed in Makara (Capricorn), aspects the 7th house Kataka (Cancer) from it. Therefore, when one reads the results for the 7th house, one should take the characteristics of Moon (what Moon indicates by nature and by lordship and also by its aspect to the 7th house) into consideration and offer the results.

Saturn is in Meena (Pisces) in the third house from the lagna. Saturn casts his glance over the 3rd, 7th and 10th houses counted from the one occupied by it, namely Rishaba (Taurus), Kanni (Virgo) and Dhanus (Sagittarius). It aspects, by its 7th aspect, Venus and Mars posited in Kanni (Virgo) and, by its 10th aspect, Kethu placed in Dhanus (Sagittarius).

Whenever a planet aspects a house and the planet or planets occupying the said house, then one should combine the results indicated by the house under consideration, the sign in which the house is and the planet or planets posited therein by nature and by lordship and the lords of the nakshatra and sub-portion of the nakshatra in which the planet was. The resultant indications should be modified by the strength and quality of the aspect thrown, what the aspecting planets shows by its nature and by lordship.

Referring to the chart taken for illustration, it is noticed that Jupiter, lord of 3 and 12, occupying the 8th house Simha (Leo) aspects, by its 5th aspect, Dhanus (Sagittarius) 12th house and Kethu placed in it. The 12th house Dhanus is also aspected by Mars, lord of 4 and 11, by the 4th aspect and by Saturn, lord of 1 and 2, by the 10th aspect. Therefore, while considering what Kethu indicates by his occupation of the 12th house, the aspects formed by Guru (Jupiter, Brihaspathi), Saturn (Sani) and Mars (Mangal) would also have to be taken into account. Now, the 2nd house in the chart, Kumba (Aquarius) is unoccupied. It gets the Jupiter's 7th aspect and there is no other aspect to it. In judging the second house matters, one must bear the Jupiter's aspect in mind, what he would give as a benefic by nature and as lord of the 3rd and the 12th houses occupying the 8th house. Saturn as ruler of the 2nd house will also influence the affairs governed by that house.

If we examine the above horoscope, according to the western method, we will get more accurate results. Let us presume that Mars is in the 11th degree of Kanni and Kethu in the 11th degree of Dhanus, i.e., exactly 90 degrees from each other, and Guru and Kethu are 108 degrees away

(Guru being in 23 degree of Simha). The angle of 108 degree is considered to be good and conducive to beneficial results according to westerners. But Mars and Kethu are just 90° apart—a square aspect. Applying the Hindu theory, we conclude that Kethu is in a kendra position to Mars and is also aspected by the latter by its powerful 4th aspect. Western astrologers, on the other hand, aver that the square aspect, especially between two malefics, portrays evil for matters indicated by them according to their occupation and rulership of houses. If, however, Mars had been in Kanya 1st degree, and Kethu in Dhanus 29th degree then they show beneficial results being at a distance of 118° which is within the range of trine aspect, a very favourable one. It will be observed that the same two planets posited in Kanni and Dhanus give out varying results when at different distances from each other without any change whatever in their sign position. Hindu aspects, in the author's view, only modify the sign to which the aspect is thrown and the characteristics of the aspected planet and does not denote whether the result is favourable or unfavourable. The western system of aspects, on the contrary, clearly demonstrate whether the outcome will be good or bad according as the aspect is benign or adverse. The author feels that the western system of aspects should be studied and used so as to arrive at accurate predictions.

Western aspects

Aspects are grouped into good and evil in this system, depending on the nature of the action or the responses they produce, in other words, whether they are favourable or unfavourable from a material standpoint. The good and beneficial aspects produce what is often called 'good feeling' meaning that they are pleasing to our sensibilities. They stand for progressions, harmony and concord. On the other hand, the unfavourable aspects give our sensory nerves a stimulus causing an unpleasant attitude and the resulting motor discharges in the mind and body produce unpleasant feeling. They are therefore

adverse in nature denoting discord and disharmony. Rightly understood, the good aspects harmonise with our idea of what is good and evoke a favourable response in the mind and body and the adverse ones conflict with our idea of what is good and as such provoke reactions of an undesirable nature.

The various zodiacal aspects applied in the West are enumerated below :—

Major aspects

(1) *Conjunction* (same degree and minute of celestial longitude). This is good or adverse according as the planets connected are benefic or malefic by nature and by adhipathya. It is considered to be productive of immense good between benefic planets and, on the same analogy, malignant between malefics. If a conjunction occurs between two planets of which one is a benefic and the other a malefic, then it is said that the benefic is bereft to offer much of its beneficial results. The malefic also similarly loses much of its malignancy by virtue of its association with the benefic.

Jupiter, Venus, unafflicted Mercury and Waxing Moon are classed as natural benefics. Sun, Mars, Saturn, Uranus, Neptune, Rahu and Kethu are termed to be natural malefics. But westerners include Sun also as a benefic. The author suggests that too much importance should not be attached to the natural tendency of a planet. What is more important is whether the planet is a benefic or malefic by adhipathya since the results shown by lordship will be more pronounced. A planet is a benefic by owning houses 1, 4, 5, 9 and 10 in the chart. If it owns the 3rd, 6th, 8th or the 12th then it is evil. Two and eleven are auspicious for finance and family. Two and seven are harmful for longevity.

(2) *Parallel of Declination* (same degree and minute of declination occupied by two heavenly bodies) : It is similar in nature to conjunction and shows the same results.

Two or more planets may be at the same distance from and on the same side

of the celestial equator, or one north and the other south of the celestial equator but at equal distance from the celestial equator. They are then in P (parallel is the only aspect not measured in celestial longitude. Truly speaking it is a position and not an aspect, and regarded as an aspect for facility of reference).

Here is an illustration. Let us assume that Jupiter and Mars are in 18 degree North Declination (shown in the Ephemeris as 'N' under the column 'Declination') or both are in the same degree, i.e., 18° of South Declination (shown in the Ephemeris by the letter, 'S') or one is in 18° North and the other in 18° South. When they are so situated, they are deemed to be in rapt or exact parallel. The parallel being equal to a conjunction in effect, in judging its results, it must be noted whether the planets under consideration are malefic or benefic. It is good between benefics and unfavourable between malefics, as already stated.

It is uncommon that two planets occupy the same degree and minute of declination as given in the foregoing example. They may be within the orbit of 1 degree of the exact parallel up to which the influence of the parallel prevails. In such an event, they will still be considered to be in parallel, whether it be a parallel in the process of formation or one in the process of dissolution. Suppose Saturn is traced in 10 deg. North Declination and Moon in 10 degrees 45 minutes of South Declination. The distance between them being 45 minutes of declination, there is clearly no exact parallel aspect between them, but yet they are within the orb or influence allowed for parallel which is 1 degree. Therefore, they are in platonic or wide parallel.

How to arrive at the true declination of planets for the time of birth?

The declinations of the planets, Sun, Moon, Mars, Venus, Mercury, Saturn, Jupiter, Uranus or Herschel and Neptune will be available in any Ephemeris or Panchang. It is advisable to follow the Raphael's Astronomical Ephemeris for horoscope-casting, since it is the most

accurate. In this Ephemeris, the declinations of Sun and Moon for every day and of the other planets for every alternate day of the month are entered. From this, it is easy to compute the planets' true declinations at the moment of birth. This will have to be done in the same manner as obtaining their longitude, taking care to note whether the declination is increasing (moving away from the celestial equator) or decreasing (moving towards the celestial equator) between the two days taken for the purpose. Thus, if the declination is decreasing, it should be taken as though the planet is retrograde and the true declination of the planet at birth can be arrived at by subtracting from the declination given for the first day the amount of motion from that day to the moment of birth. If the declination be increasing, then add the declinational motion for the interval up to birth to the declination shown for the first day.

Take the following instance. A birth occurred at 5-30 a.m. on 5-1-1963. Now take the Raphael's Ephemeris for the year 1963 and turn over to the page for the month of January. Suppose one wants to find out the true declination of, say, Jupiter at birth. It should be remembered that the Raphael's Ephemeris gives the longitudes and declinations of the planets for noon at Greenwich, England, which equals 5-30 p.m. in Indian Standard Time. The declination of Jupiter is available in the Ephemeris for the dates 3-1-1963 and 5-1-1963 (5-30 p.m. I.S.T.). Since the birth occurred between these two dates, these two dates have to be taken for our calculation. The declination of Jupiter is given to be 5 deg. 40 minutes South on 3rd January and 5 deg. 32 minutes South on 5th January. Subtracting one from the other, the motion in 48 hours is obtained; then, by proportion, the motion for the interval up to birth can be worked out. Since the declination is seen decreasing, the declinational motion for the interval up to birth should be subtracted from the declination entered for 3-1-1963 to arrive at the true declination of Jupiter at birth.

[To be continued.]

HOW TO WRITE LIFE-READING

[The ideal method to be followed.]

The following is the horoscope of a gentleman born at 8-54 A.M. I.S.T. on Thursday, 7th April 1921 at 26° 45' N and 83° 24' East.

Nirayana Position of the Ascendant, Meridian, Fortuna and the planets.

Sun 24° 7'	Kethu 6° 15'	Fortuna 6° 21'	
Moon 9° 24'	Mars 16° 45'	Ascendant 20° 4'	
Merc 27° 39'	Rasi		Nep. 18° 23'
Uranus 15° 14'			Jup. 17° 32'
			Sat. 26° 54'
		Rahu 5° 15'	

	Kethu	Merc	
Sun Fortuna Uranus	Navamsa		Lagna
Sep Sat	Rahu		Jup Mars Venus Moon

Sani dasa Balance 10 years 4 months and 8 days.

Dear Sir,

You are born on a Thursday ruled by Jupiter; in Taurus—Rishaba Lagna owned by Venus; in Pisces—Meena Rasi (where moon was at the time of your birth) governed by Jupiter and in the star Uthratadhi or Uthrapathrapada—lord of which is Saturn. Therefore your ruling planets are Jupiter, Venus and Saturn;

i.e., when these planets were ruling a particular time, you were born.

By that one is to understand that whenever they, according to Ududasa System, jointly operate, that is, in the conjoined period of these planets, you will have an advancement in your career and you will be able to fulfil your desire.

Also, whenever harmonious aspects are received by the ruling planets, by progression, you will surely come out successful in your enterprises and pleasant events will be enjoyed by you. Worries will end; there can be no more delay in the fulfilment of your hopes. Material welfare, fitting for the age, is promised. If you are very young, you will come out successful in examinations, you will win in games; you will be supplied with whatever you need or demand. If you are a little older, one course of life—School days will be over—and you will enter into service; or your bachelor life comes to an end; you will lead a happy married life. After a few years, such aspects indicate birth of children, promotion in service and improvement in status. Thus, the aspects will offer such results which are applicable for that age.

So also, according to transit or Gocharam, whenever they receive favourable aspect and whenever they transit in favourable signs, you will have your desires fulfilled.

The ruling planets indicate your general feature and characteristics:

General features: Jupiter, Venus and Saturn indicate that you are tall, well-built, good looking, though not of fair complexion, muscular, with moles in the belly and in the ankle. Also in your adult age, during the conjoined period of Kethu and Rahu, you will have a scar in the leg.

[Rahu and Kethu give the results of the planets with which they are conjoined or

by which they are aspected; then only they will offer the results of the lord of the sign. Kethu is conjoined with Venus and Mars, lords of 6 and 12 and is aspected by Jupiter, lord of 8. Therefore it has to give the results of Mars, Venus and Jupiter. Rahu is aspected by Mars, Venus and Saturn. Hence Rahu is equally harmful. It is in the 6th house indicating, disease, injury, etc.]

Actually you were injured on 24-11-1951 while going by a motor cycle. By progression, Moon is conjoined with Mars at that time. Also by transit—Gocharam, Moon is conjoined with Mars at seven degrees in Virgo—Nirayana. The day was a Saturday.

Kethu was in Mars sign conjoined with Mars and Venus with Mars in Venus constellation. Hence Kethu, in full, represents Mars and Venus. Rahu is aspected by the 3rd aspect of Saturn. Hence Kethu and Rahu, under the sway of Venus, Saturn and Mars caused the accident.

As Mars and Venus in Aries indicate rams, goats and sheep, due to the sudden crossing of a sheep and dashing against it, you fell down. Falling down is indicated by Saturn. As Saturn governs osseous system, Mars indicates fracture. After treatment, it has left a scar there.

Characteristics : Yours will be a blending of Jupiter, Venus and Saturn. So you will be cheerful, amiable, agreeable and moderately ambitious. You will never be avaricious. You will not exert too much. You will be persevering and working patiently. But you will enjoy during your work. You will always desire to lead an easy life. You are very slow to anger. You take decisions quickly, as neither Moon nor Mercury is the ruling planet. Saturn shows that you are a gentleman, not having loose-talk, not carrying tales but capable of keeping secrets. Conjunction of Venus and Mars, lords of 1 and 7, show that you will lead a happy and harmonious life. You will receive assistance from others whenever needed and you will also help others at a moment's call.

As the ascendant is a fixed sign you will have a strong will, not yielding to other's

influence; you will not be carried away by other's suggestions, views or instruction.

Venus aspected by Jupiter shows that you will be broad minded, cheerful and sympathetic. You will be very liberal. You will have peace of mind, will be level-headed and will act calmly. You will have the desire to enjoy all the fruits of life in this world. You will wish to spend time with wife and children.

Your peaceful and feminine tendency due to Venus, lord of lagna, is toned up by the conjunction of the fiery planet, Mars, and also by the quality of the sign Aries in which Venus was, at the time of birth. You will be upright in your manners and you will wish to lead a healthy and happy life with your wife. Honesty, good faith, loyalty, veracity, constancy and trustworthiness are the chief traits.

As Taurus, Rishaba, is the second sign of the Zodiac and as it is aspected by Saturn, a Rajayoga adhipathi to you, you will be careful in money matters. You may invest money on ornaments, luxury goods, furniture and antiques; you will be practical.

As the ascendant is an earthy sign, you will be careful. You will have a thorough materialistic mind. You will be methodical. You will have the ardent desire to own land and you will develop a hobby in Horticulture and gardening.

Longevity:—Venus the lord of lagna, occupying the sign of Mars promises immunity from and resistance against infectious diseases, offers robust health and long span of life as it is in its own constellation.

Lord of 8 is Jupiter. By owning the 8th house, Jupiter is not harmful for longevity (Uthra Kalamritham written by Kalidas). It is in trine to its own Sign Sagittarius (Dhanus) and aspects the 8th house. If a planet, owning a particular sign, occupies such a house, so that it can throw favourable aspect to its own sign, it strengthens the matters indicated by it. As the 8th house shows longevity, as Jupiter the lord of 8 is in friend's quarters and aspects the 8th house all matters governed by the 8th

house get strengthened ; so Jupiter assures the native a long life.

Lord of 3 (as the third house is the 8th to the 8th) is ruled by Moon and is also in trine to its own Sign Cancer—Kataka, and is in the constellation of the Eka-Raja-yoga-adhipathi Saturn, it also promises a long span of life.

Hence long life is assured. That is you have Poorna Ayush, i.e., more than years 66½.

Which will affect longevity ?

Your birth was in a fixed sign. So the lord of 9 is the Bhadhaka-Sthana-Adhipathi. Hence Saturn, the lord of 9, is evil.

[It is necessary to clearly understand the contradictory statement. Once it is considered as Rajayoga adhipathi and again it is taken as evil due to its lordship as Bhadhaka Sthana-adhipathi. The correct interpretation is that,

(a) Saturn will give very favourable results during Saturn sub-periods, provided the dasanatha is not in 6 or 8 or 2 to Saturn, so that Saturn is not in 8 or 6 or 12 to dasanatha.

(b) Saturn will also contribute for your end in its sub-period or sub-sub-period after you have lived as many years as is indicated by other planets. Therefore, if a planet has to cause yoga and it has to affect longevity, one will enjoy his life in a few sub-periods of the planet and even in its own dasa running for many years, but finally it will lay its icy hand in its sub-sub-period. So Saturn is a significant.

There is no Kendhradhipathya Dhosham for people born in Taurus (Rishaba Lagna) as neither Venus, nor Jupiter, nor Mercury nor the waxing moon owns the house 4, 7 or 10.

As houses 1, 8 and 3 indicate longevity and the twelfth house to any house is the negation of the matters of the house, the 12th to Lagna, the 12th to 8, and 12th to the 3rd are negative to the matters indicated by the houses 1, 8 and 3. Hence 12,

2 and 7 are the houses which indicate the end of life—Maraka.

Lord of 12 is Mars ; Venus and Kethu occupy that sign.

Lord of 2 is Mercury. It is in the 10th house in Jupiter's constellation, aspected by Jupiter and Saturn.

Lord of 7 is Mars. It is in the constellation of lord of 1 and 6.

Hence Mars is the strongest significator. Then note the planets which are under the sway of Mars ; that is find out the constellations of Mars and the planets occupying those constellations.

Mars' stars are Mrigasirisha, Chithra and Dhanishta.

No planet is in Mrigasirisha.

Rahu is in Chithrai star.

None is in Dhanishta.

Hence Rahu is evil. Further, Rahu is aspected by Bhadhaka Sthana adhipathi Saturn, and Marakasthana adhipathi Mars.

Therefore Mars, Rahu and Saturn are the three significators.

After nearly 66 years you will enter into Mars dasa.

Hence, end of life will be either during Mars dasa, Rahu Bhukti, Saturn anthra or Mars dasa, Saturn Bhukti, Rahu anthra, i.e., May 1992 or October, 1994.

According to progression, calculate and find out which of the above two periods agrees with such an evil aspect which can end one's life. In 1992 May—Sun forms semi angular aspect with Venus, the lord of the Ascendant, and Sun progresses in Lagna Bhava. In May 1992 Moon progresses in the Sixth Bhava and forms quincunx aspect with Sun. Sixth house indicates ill health. Sun is the life-giver. Both the luminaries forming good aspect will offer health. Quincunx aspect means Sashta, ashtama, i.e., 150° aspect, so health will fail.

When the aspects of all planets in progression are taken, then Venus, lord of the

Ascendant, squares (90°) Neptune in 1992; Sun forms semi-angular with the lord of Ascendant on one side with Venus and semi-angular (45° aspect) with Neptune on the other side.

According to Gocharām,

- (a) Jupiter is in Leo and is in retrograde motion, squaring Ascendant. It will be stationary.
- (b) So also Saturn in direct motion becomes stationary in May 1992 in Capricorn and squares the lord of the Ascendant.
- (c) Rahu transits in Scorpio, Kethu comes to Taurus—Rishaba. Kethu nears the Ascendant, and is actually in Mars' star Mrigasirisha and Saturn sub whereas Bhukti natha Rahu is in Mercury (Maraka-sthana adhipathi, lord of 2) star and Saturn (Bhadhaka-sthana adhipathi sub).

'Sun by transit will conjoin Mars.

Moon may be in Mars star, Saturn sign Dhanishta or Saturn's star Mars' sign Anuradha.

Therefore mostly during Krishna Paksha in the beginning (around the 1st) of May 1992 health will fail. So the planets promise long life at least till 1st May 1992.

Health

Ascendant indicates one's health: the connections to the Ascendant show whether one will maintain health, enjoy robust health or will be a weakling susceptible to diseases even if he exposes himself mildly. It also denotes whether one has enough of immunity and resistance against infectious diseases.

6th house indicates the disease from which one will suffer off and on during the periods of unhealthy planets; also the nature of the ailment, duration, etc.

8th house indicates the danger, the fatal disease, the place where it will happen and the cause of death. Also it indicates who

will survive whom; i.e., whether the native will outlive his wife or vice versa.

(a) Lagna is not occupied by any planet. But it is aspected by Sani. Hence during the sub-period of Saturn, there will be the ailment. Further, Saturn aspects the 6th house—the Bhava for disease. Hence Saturn weakens the system.

(b) Lord of Lagna is in a fiery sign, conjoined with Mars and is aspected by Jupiter. Generally good aspect between Jupiter and Mars shows robust health, good in out-door games and improvement in one's vitality.

[One need not feel that the statement is contradictory and confusing. One may ask, what is this? Lagna afflicted by Saturn shows predisposition to disease and weak health; Lagna adhipathi, lord of Lagna, has good connections; so good health: What to take? How to predict? etc. The correct method of judgment will be that during the periods of Mars Jupiter, you will have exercise, Yoga (as Saturn is conjoined with Jupiter) and thereby you will maintain good health. But during the period of Saturn, you cannot have regular practice; there will be hindrance and obstacles; you will not have the mind to attend to your health. Depending on the dasa-lord and other connections, it will affect the health. Therefore, predict good health in Jupiter and Mars sub-periods and ill-health during Saturn's sub-period.

Further, benefics in the 6th house will be propitious to have rapid cure after any ailment, whereas malefics cause ill-health and prolong the period of illness if it is Saturn, sharp and acute if it is Mars; Rahu and Kethu offer according to their connections with other planets.

From Moon sign, Jupiter and Saturn are in 6th. So Saturn will cause the disease during its period.

6th house is for disease. Its lord is Venus; Rahu in Libra—Thulam, has to give the results of Venus. Hence Rahu is a malefic to health.

[N.B.—If the lord of Lagna is also the lord of 6, generally one falls ill due to his previous Karma. Even if he tries to avoid it, he cannot. It is only a trouble invited by him during its period by neglecting hygiene, etc.]

As Kethu is conjoined with Venus and as the nodes offer the results of the planets with which they are conjoined, Kethu is to act as a powerful agent of Mars and Venus.

Hence Kethu is evil.

Mars as lord of 12 shows hospitalisation or confinement to bed.

Therefore Mars, Venus, Kethu, Rahu and Sani, depending on the progression and Gocharam—(Transit) results, they have to give disease. The nature of the disease depends on the combination of the planets ruling at the time.

The following dates would have been evil and in future the following dates show unhealthy time.

CHARACTERISTIC TO BE CORRECTED

By
KAYESKEY

Who is a dangerous person? One who cannot keep any secret but talks at random or is a chatter box (or is very frank).

"Silence is golden". There is no doubt about it especially for those who hold positions of trust, who serve in such departments where one cannot afford to leak out any information.

(a) Can the Finance Minister discuss with one and all about the relief which he may give in the next budget or about any fresh taxation?

(b) Can the Police give information beforehand whom they intend to arrest and keep under custody?

(c) Can the examiner leak out the question paper set by him?

(d) Can the relatives, friends and neighbours of a prospective bride or bridegroom inform the other party about their pleasant romantic life in school days or in the office?

Thus there are various occasions and different circumstances when one has to maintain silence and never carry tales or leak out any information whether it is helpful or harmful to another person.

Podumanai Chomadiri says that one is considered to be talkative and eloquent if beneficial planets occupy the 2nd and the 12th houses counted from the Sun. It is very true if Mercury and Venus occupy the second house from Sun (Subha Obayachari Yoga). Generally, the second house shows one's speech. Mercury is a talkative planet. Venus gives either a pleasing tone, or melody when one speaks or it gives one the capacity to talk fluently with alliteration and rhythm. Mars gives one courage and confidence to address anybody boldly and be frank and outspoken. He

will speak cut and dry. He will not mind blowing his own trumpet. Sun indicates that he may stammer especially when it is in a watery sign. He will speak without any knowledge of the subject. Moon gives a soft tongue and humorous speech. Jupiter offers eloquence. He will talk wisely and give encouragement to others. Saturn, to many persons, gives a foul tongue. They cannot speak well of any person, nor will they encourage others to do so. If they mention—which they invariably and unknowingly do—any evil to a person, as though he is a prophet, it will come true. But his blessings have no value. Rahu makes one dubious and insincere; Kethu causes stammering. If it is in the second house, his speech will be vile and hateful. It will be disgraceful also.

Second house, either occupied by these planets or aspected by them, offers the above results.

Movable signs occupied by them indicate that one will speak speedily and also change his opinion. Fixed signs incline to be brief: common signs cause talkativeness and oratorical ability. Airy signs show that one may be talking freely. Fiery signs denote authority: Earthy signs signify that one will hate gossip, and will talk only when there is business. Watery signs show that he will find it difficult to address a gathering.

Orators have clear thoughts, use proper words aptly in proper places and deliver the speech with conviction and enthusiasm.

If the lord of the second house is aspected by Mars, one will have always an answer, to any question, at finger's ends. Whether right or wrong, for that moment, he will give a reply. Jupiter, aspecting the

lord of 2, shows that one will talk cogently and he will deduce logically. The accuracy of the facts and explanation to the meticulous detail is indicated by Mercury. To convert the audience to one's way of thinking, one should have good aspect between lord of 2 and the planets, Mars and Mercury (Mars gives commanding, authoritative fiery speech—while Mercury gives tact, diplomacy, etc.).

If Mercury receives evil aspect from Saturn, one will speak utter falsehood, carry tales, blackmail others, etc. Mars also forming adverse aspect with Mercury indicates that he is a dangerous man who will betray anybody, cannot keep a secret and land others into trouble.

Never have an assistant or a private secretary and confide with him your secret matters, if in his horoscope (a) the second house is occupied by an evil planet receiving disharmonious aspect from malefics, (b) if Mars and Saturn afflict Mercury, or (c) if Ketu is in the 3rd house (Jataka Thattvam).

If the Ascendant or the meridian falls in either of the signs of Jupiter and if Mercury occupies it, one will be a chatter-box. Capricorn produces good speakers. Gemini bestows intelligent speech. Virgoans are, very good conversationalists.

But those who have Mars and Mercury conjoined and afflicted by Saturn are, indeed, dangerous as they cannot be at rest unless the secret matters of others are spread like wild-fire by themselves. They enjoy at others' fall. They should realise that society will never respect them. It may probably be out of fear; others may not express their views and try to correct them. Yet they themselves should realise and conduct better. To expose one or to do harm to another, will not take much time. But to keep the secret and save others is difficult.

Pray to Anjaneya-Hanumanji. In due course you will be alright. [Mercury shows Vaishnavite God. Mars indicates a hero, warrior and "Pourusha" bold person. Saturn denotes faithful, reliable, sincere, long-standing chīranjeevi servant. Hence Hanumanji is suggested.]

MOLES AND THEIR MEANING

Benefic: Jupiter or Venus or Mercury or Waxing Moon in the 3rd house gives a mole in the upper part of the ear, whereas malefics in the third house produce a mole in the lower tip of the ear.

Hindu sages declare that benefics occupying any of the Upachaya Sthanas (3, 6, 10 or 11) will cause Vasumathi yoga and produce independent persons with courage and confidence. They are blessed with plenty of wealth.

It will be true only when

(a) the planets in Upachaya Sthanas do not form evil aspect with the ascendant (the cusp); i.e., the longitudinal distance between the degree of the ascendant and that of the planet is not exactly divisible by 22½. [Such a relative position is considered to be adverse].

(b) the constellation in which the planets were at the time of birth, is not governed by lords of 6 or 8 or 12; and

(c) No malefic planet is conjoined with, or no malefic aspects the benefics in the third house.

Only in such cases, the moles will be found in the upper part of the ear.

In Nadi readings, consulted by a few people who were born in very rich families, it is found that they were born rich, as Vasumathiyoga is found in the horoscope of the native. One gentleman, who had a mole in the right ear, had Jupiter in the 3rd house, and was born to a rich person. Though he had not amassed wealth by his efforts, the value of his permanent possessions has gone up so high and the returns from them are thereby increased and he is one of the richest in Madras State.

In the case of ordinary persons, having the mole in the upper portion of the ear, they will surely have free flow of money and will not have any pressure for finance during the dasa of the benefic in the 3rd house [which produced this mole]. It is not necessary that the

natural benefics should occupy the third house. The editor is of strong opinion that planets, whether malefic or benefic by nature, if they own beneficial signs or if they have to cause Rajayoga and if they form good aspect to Lagna by occupying the 3rd house, they also will be able to have satisfactory bank position. They can plan and lay foundation for any big scheme as soon as the dasa of the planet in the 3rd house has commenced. That is why, the 3rd house is called "Sahaya Sthana". Sahaya means 'assistance'. Wherefrom does one receive the aid? It is because of his meritorious deed in the previous birth, the planet has occupied such a position, and the timely help he receives is attributed to his luck and is termed as "Providential Help". Providence is impartial. It can help you, if you have done virtuous acts, that too, during such beneficial periods. It will never help you, if you have committed inexcusable crimes when no benefic will be in 3 [or 5 or 6 or 9 or 10 or 11]. Its hands are tied. How can an accountant in a bank honour your cheque, when you have left nothing in your account?

Therefore moles in the ear are said to be fortunate one day or the other, sooner or later, depending on the planet who has caused it.

If malefics occupy the third house, the mole will be in the lower tip of the ear. This does not threaten any loss of money or honour but danger to life by drowning. Sudden tragic end is portended. Therefore, during the period of the malefic in the 3rd house, try to keep off the water; avoid travelling by boat during storm or heavy rains. Do not swim in the pond, lake, river or sea when you go on a picnic, or where you camp, etc. Have you not heard of cases wherein students go on excursion and one or two are reported as "Drowned." The following is the chart of a student who was drowned in a river while he was rowing a boat. He had a mole in the lowest tip of the ear.
